(a) When a top diameter of piling only is specified, or where the top diameter controls, the butt size shall be determined by adding 1 inch for each 10-foot length or fraction thereof.

(b) You determine the ceiling price for piling with a minimum diameter at a specified point more than 6 feet from the butt in the following manner:

(1) Convert this diameter to a diameter 6 feet from the butt by adding 1 inch to the diameter for each 10 feet or fraction thereof by which the distance from the butt to the specified point exceeds 6 feet.

(2) Your ceiling price is the ceiling price set out in the table applicable to the diameter 6 feet from the butt as determined in this paragraph.

Example: The ceiling price for a piling with a minimum diameter of 12 inches at 7 feet from the butt is determined as follows:

	Inches
Diameter 7 feet from butt	12
7 feet exceeds 6 feet by 1 foot, add for 1 foot (fraction of 10 feet)	1
Diameter 6 feet from butt	13

Your ceiling price is found in the applicable table in the column headed 15 inches minimum butt, which includes the ceiling price for piling measuring 13 inches in diameter 6 feet from the butt.

Example: The ceiling price for a 70-foot piling with a minimum diameter of 12 inches one-quarter of the length from the butt is determined as follows:

	Inches
Diameter 17½ feet (¼ of 70 feet) from butt	12
17½ feet exceeds 6 feet by 11½ feet:	
Add for 10 feet	1
Add for 1½ feet	1
Diameter 6 feet from butt	14

Your ceiling price is found in the applicable table in the column headed 16 inches minimum butt, which includes the ceiling price for piling measuring 14 inches in diameter 6 feet from the butt.

(c) For loading specified length groups, you may add as much as the following to the appropriate basic ceiling prices: For three consecutive length groups, $0.01 per lineal foot; for two consecutive length groups, $0.02 per lineal foot; for one length group, $0.03 per lineal foot. These additions may be made only when an order requires specified length group loading, and the additions may be applied only to the items loaded in such manner. For loading more than three consecutive length groups, no addition is permitted.

(d) For loading in lengths of 5-foot multiples, you may add as much as the following to the appropriate basic ceiling prices: For four consecutive lengths, $0.01 per lineal foot; for three consecutive lengths, $0.02 per lineal foot; for two consecutive lengths, $0.03 per lineal foot; for single lengths, $0.04 per lineal foot. These additions may be made only when an order requires loading in 5-foot multiples, and the additions may be applied only to the items loaded in such manner. For loading more than four consecutive lengths of 5-foot multiples, no addition is permitted .

(e) For loading in random lengths, which require restricted loading, you may add two-thirds of the appropriate additions permitted by paragraphs (c) and (d) of this section.

(f) For clean peeled Pine, Cypress and Mixed Hardwoods piling having a 12-inch minimum butt and smaller, you may add as much as $0.04 per lineal foot; for 13-inch minimum butt and larger, you may add as much as $0.06 per lineal foot.

(g) For unpeeled Pine, Cypress and Mixed Hardwoods piling having a 12-inch minimum butt and smaller, you must deduct $0.02 per lineal foot; for 13-inch minimum butt and larger, you must deduct $0.03 per lineal foot.

(h) For clean peeled Oak piling, you may add as much as $0.06 per lineal foot.

(i) For unpeeled Oak piling, you must deduct $0.03 per lineal foot.

(j) For heading, pointing and chamfering piling having a 13-inch minimum butt and smaller, you may add as much as $0.40 per piling; for 14-inch minimum butt and larger, you may add as much as $0.80 per piling.

(k) For mixed orders of Pine and Cypress piling containing at least 25 percent Pine, the transportation addition may be computed by using the established Pine weights set worth in section 7 of this regulation.

(l) When a buyer's request exceeds your supply of a specific size and length of piling, you may fill the request by cutting off the most similar piling available. You may charge the ceiling price for the piling that was cut back without a deduction for the reduced footage. However, any additions for transportation on the cut-back piling shall be those additions applicable to the size and length of piling ordered by the buyer, and no addition may be made for labor involved in the cutting-back operations.

(m) For orders specifying minimum butt diameters in multiples of one-half inch, you may use the average ceiling price and established weight of the next smaller and the next larger butt diameter. For example, the ceiling price and established weight for a piling having a 13½-inch minimum butt diameter is determined by averaging the ceiling prices and established weights of a piling having a 13-inch minimum butt diameter and a piling having a 14-inch minimum butt diameter.

SEC. 12. *Selling on an averaging-out basis.* When a buyer requests a single flat delivered price for items of the same size and species, and the request involves shipments from two or more normal loading out points, with different ceiling prices, or different freight rates, or both, you may charge a weighted-average price. For example, the average price per pole for an order of 2,000—40 foot, Class 4 Southern Yellow Pine poles to be shipped from three normal loading out points with the different prices indicated is computed as follows:

1,000 at $9.25 per pole	$9,250
500 at 8.50 per pole	4,250
500 at 10.25 per pole	5,125
2,000	$18,625

Average price—$9.31 per pole.

If you sell on an averaging-out basis, you must prepare a record of the transaction, showing the individual items, the number shipped from each normal loading out point, the total amount invoiced for each order, and the total amount you would have realized if the actual quantities were invoiced at ceiling prices permitted by this regulation. The total amount realized on an averaging-out basis shall not exceed the sum of the applicable ceiling prices established by this regulation. You must retain your calculations supporting your computations, and such data must be available for inspection by the Office of Price Stabilization for a period of two years after each transaction.

SEC. 13. *Concentrators' ceilings*—(a) *Markup.* (1) If you are a contractor, you determine your ceiling price to each class of your purchasers for sales of an item subject to this regulation in the following manner: Add to your purchase cost (not to exceed the producers' ceiling price) of the item the highest dollars-and-cents markup which you made on your sales of the item to purchasers of the same class during the base period January 1, 1950, to June 30, 1950, inclusive. The current cost to which a markup is applied in determining your ceiling prices may not include cost elements other than those included in the base period cost on the basis of which you computed the markup.

(2) If you are a concentrator, you must determine your ceiling prices under this regulation, applying either this paragraph or paragraph (c) of this section; you may not determine your ceiling prices by applying the provision of Supplementary Regulation 87 to the General Ceiling Price Regulation. Only one concentrator's markup may be made under this section.

(b) *Concentrator defined.* The term "concentrator" means a person who either:

(1) Maintains a concentration yard with supervisory and other employees, who purchases from producers all the items subject to this regulation that he sells, and who sells those items either to persons purchasing for resale, or to ultimate users, such as, but not limited to, railroads, power companies, telephone companies, treating plants, contractors, industrial plants, state highway departments, municipalities and other governmental agencies; or

(2) Produces items subject to this regulation, and who must, in addition, do the following:

(i) Maintains a concentration yard with supervisory and other employees, where he purchases items subject to this regulation for sale either to persons purchasing for resale, or to ultimate users, such as, but not limited to, railroads, power companies, telephone companies, treating plants, contractors, industrial plants, state highway departments, municipalities and other governmental agencies; and

(ii) Have purchased from producers, during the three calendar months next preceding any calendar month in which he does business as a concentrator, at least 33⅓ percent of the total amount of items subject to this regulation that he sold.

(c) *Application for establishment of a ceiling markup.* If you cannot ascertain your markup under paragraph (a) of this section, you must apply by registered mail, return receipt requested to the Office of Price Stabilization, Forest Products Division, Washington 25, D. C., for the establishment of your ceiling markup. Your application must be signed and must set forth all relevant facts, including the following: (1) Your trade name and address; (2) your proposed markup and the item to which it will be applied; (3) the location of your concentration yard; (4) the number of your supervisory and other employees; and (5) a statement explaining why you believe your proposed markup is in line with markups allowed in paragraph (a) of this section. If you cannot price under paragraph (a) of this section and file an application for the establishment of your ceiling markup, you may not sell items subject to this regulation until the Director of Price Stabilization establishes a ceiling markup for you. If, however, the Director of Price Stabilization does not notify you to the contrary or request further information from you within 20 days after the receipt of your application, or within 20 days after the receipt of requested further information, your proposed ceiling markup shall be deemed to have been approved, subject to nonretroactive disapproval or modification at a later time.

SEC. 14. *Inspection service.* When a buyer requests special inspection service to be furnished by an inspection agency designated by the buyer, you may add the actual cost to you of such service to the otherwise appropriate ceiling price of the item inspected.

SEC. 15. *Transportation charges.* Whether you are a producer or concentrator, if you make delivery beyond a normal loading out point, you may add to the basic ceiling prices established by this regulation a transportation addition determined as follows:

(a) *Common or contract carrier shipments.* For delivery by common or contract carrier, multiply the applicable published rate in effect at the time of shipment by the appropriate established weight. The transportation addition so determined must be evened out to the nearest quarter cent per lineal foot or five cents per pole, whichever is applicable.

(b) *Private truck shipment.* (1) If shipment is by truck owned or controlled by you, a charge not in excess of the common carrier truck published rate may be made. If there is no published rate, the actual cost of transportation may be charged.

(2) When a truck delivery follows a rail haul, the actual cost of truck delivery may be added. This may include the cost of unloading, handling and reloading involved in the transfer from rail car to the truck and the cost of unloading the truck at the point of destination, if actually performed by you. When an all truck haul ends in delivery to a job site or storage yard and the unloading is performed by you, you may add the actual cost of unloading.

SEC. 16. *Ceiling prices for special items*—(a) *Application.* If you cannot ascertain a ceiling price for items subject to this regulation, as for example, should you wish to sell items with specifications or other extras not specifically mentioned in this regulation, you must file an application with the Director of Price Stabilization, Washington 25, D. C., for approval of a ceiling price. Your application must be signed and must be made by registered letter, return receipt requested, and must set forth the relevant facts, including the following:

(1) Your trade name and address.

(2) As complete a description as possible of the items for which the application is filed. This should include the species, class, length specifications, or other extras involved.

(3) Your proposed ceiling price, together with a statement indicating why you believe it is in line with the level of ceiling prices established under this regulation.

(4) Your General Ceiling Price Regulation ceiling prices for both the item that is the subject of your application and the most nearly comparable item for which a ceiling price is established by this regulation.

(5) The proposed use to which the buyer will put the item for which you are proposing a special ceiling price.

(b) *Quotation of proposed prices.* After an application has been filed under this section, and before action by the Director of Price Stabilization, you may sell your items at a price not higher than the ceiling price proposed in your application: *Provided,* That you agree to refund, and later refund, to the buyer, the amount, if any, by which your proposed ceiling price exceeds the ceiling price established by the Director of Price Stabilization.

(c) *Action by the Director of Price Stabilization.* (1) After receipt of an application made under this section, the Director of Price Stabilization will approve or disapprove your proposed ceiling price, will request additional information about it, or will establish a different ceiling price for the item that is the subject of your application.

(2) If the Director does not notify you to the contrary or request additional information from you within 20 days after the receipt of your application or within 15 days after the receipt of requested additional information, your proposed ceiling price shall be deemed to have been approved, subject to non-retroactive disapproval or modification at a later time.

SEC. 17. *Modification of proposed ceiling prices by the Director of Price Stabilization.* The Director of Price Stabilization may at any time disapprove or reduce ceiling prices proposed under sections 13 and 16 of this regulation so as to bring them into line with the level of ceiling prices otherwise established by this regulation.

SEC. 18. *Petitions for amendment.* If you wish to have this regulation amended, you may file a petition for amendment in accordance with the provisions of Price Procedural Regulation 1, Revision 2.

SEC. 19. *Adjustable pricing.* Nothing in this regulation prohibits you from making a contract or offer to sell at (a) the ceiling price in effect at the time of delivery, or (b) the lower of a fixed price or the ceiling price in effect at the time of delivery. You may not, however, deliver or agree to deliver, at a price to be adjusted in accordance with any increase in ceiling prices after delivery.

SEC. 20. *Records*—(a) *Existing records.* On and after the effective date of this regulation, for so long as the applicable periods indicated in section 16 of the General Ceiling Price Regulation, you shall preserve all your existing records that you were required to keep under the provisions of section 16 of the General Ceiling Price Regulation. If you are a concentrator, you shall also preserve for the same period all your existing records relating to your markups on items you sold during the period from January 1, 1950, through June 30, 1950.

(b) *Current records.* Every person who sells and every person who in the regular course of business buys products covered by this regulation, shall make and keep for inspection by the Director of Price Stabilization, for a period of two years, accurate records of each sale or purchase made in any month in which the seller sold, or the buyer bought, at least $1,000.00 worth of items subject to this regulation. The records must show:

(1) The dates of sales or purchases;

(2) The names and addresses of the sellers and buyers;

(3) A description of the items sold or bought, including the species, class, size and length;

(4) The prices charged or paid, including all additions, extras and discounts; and

(5) The place of delivery by the seller.

The retention by a buyer of an invoice furnished by a seller, or the retention by a seller of an invoice or settlement sheet furnished by a buyer, which includes the factual information required to be made a matter of record by this paragraph, shall be considered as compliance with the provisions of this paragraph.

(c) *Other records.* If you apply for approval of a proposed ceiling price for special items under section 16 of this regulation, you shall preserve or make and you shall keep for inspection by the Director of Price Stabilization for so long as the Defense Production Act of 1950, as amended, shall remain in effect and for two years thereafter, accurate records from which you obtained the data you submit in connection with your application for such ceiling price.

SEC. 21. *Interpretations.* If you want an official interpretation of this regulation, you should write to the District Counsel of your local OPS District Office. Any action taken by you in reliance upon, and in conformity with a written official interpretation, will constitute action in good faith pursuant to this regulation. Further information on obtaining official interpretations is contained in Price Procedural Regulation 1, Revised.

SEC. 22. *Prohibitions and violations.* (a) You shall not do any act prohibited or omit to do any act required by this regulation, nor shall you offer, solicit, attempt, or agree to do or omit to do any such acts. Specifically, but not in limitation of the above, you shall not, regardless of any contract or other obligation, sell and no person in the regular course of trade or business shall buy from you at a price higher than the ceiling prices established by this regulation, and you and buyers from you shall keep, make and preserve true and accurate records and reports required by this regulation.

(b) If you violate any provisions of this regulation, you are subject to criminal penalties, enforcement action, and actions for damages. Prices lower than the ceiling prices may be charged, paid, or offered.

(c) If any person subject to this regulation fails to prepare or keep any record or file any report required by this regulation in connection with the establishment of his ceiling price, or if any person subject to this regulation fails to establish a ceiling price or apply to the Office of Price Stabilization for the establishment of a ceiling price, if he is required to do so, the Director of Price Stabilization may issue an order fixing his ceiling prices. Any ceiling price fixed in this manner will be in line with ceiling prices generally established by this regulation. The order fixing the ceiling price may apply to all deliveries or transfers completed prior to the date of issuance of the order. The issuance of such an order will not relieve the seller of his obligation to comply with the requirements of this regulation or of the various penalties for failure to do so.

SEC. 23. *Evasions.* Any means or device which results in obtaining indirectly a higher price than is permitted by this regulation, or in concealing or falsely

representing information as to which this regulation requires records to be kept, is a violation of this regulation. This prohibition includes, but is not limited to, means or devices making use of commission, services, cross sales, transportation arrangements, premiums, discounts, special privileges, up-grading, tie-in agreements and trade understandings, as well as the omission from records of true data and the inclusion in records of false data.

SEC. 24. *Definitions.* The terms used in this regulation shall be construed as follows:

Anchor logs. This term means a peeled or unpeeled section of a tree longer than one foot in length, suitable for burying in the ground and to which a cable may be attached.

Concentrator. This term is defined in section 13.

Director of Price Stabilization. This term extends to any official, including officials of Regional or District offices, to whom the Director of Price Stabilization, by order, delegates a function, power, or authority referred to in this regulation.

Mixed Hardwood piling. This term refers to piling made from any species of hardwood except Oak. A sale of Mixed Hardwood piling within the meaning of this regulation may consist of piling made from one or more of the hardwood species except Oak.

Normal loading out point. This term is defined in section 4.

Person. This term means an individual, corporation, partnership, association, or any other organized group of persons, or the legal successors or representatives of the foregoing, and the United States and any other government or their political subdivisions or agencies.

Piling. This term means any round, peeled or unpeeled, section of a tree longer than 14 feet, suitable for driving in the ground to form a foundation for construction purposes, such as for wharves, bulkheads, and buildings.

Pole. This term means any round, peeled or unpeeled, section of a tree longer than 14 feet, suitable for the support of transmission or communication lines at varying heights above the ground.

Purchaser of the same class. The meaning of this term is determined by reference to your own practice of setting different prices for sales to different purchasers or groups of purchasers. The practice may, but need not, be based on the characteristics or distributive level of the buyer. It may, but need not, be based on differing terms or conditions of sale or delivery. It may, but need not, be based on the location of the purchaser of the quantity of poles and piling purchased by him. If you have followed the practice of giving an individual customer a price differing from that charged others, that customer is a separate class of purchaser.

Records. This term includes books of account, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, and other papers and documents.

Reinforcing stub. This term means a peeled or unpeeled section of a tree longer than four feet in length, suitable for reinforcing a pole at the ground line.

Sell. This term includes sell, supply, dispose, barter, trade, lease, exchange, transfer, deliver, and contracts and offers to do any of the foregoing. The term "buy" and "purchase" shall be construed accordingly.

You. The pronoun "you" indicates any producer or concentrator who sells items subject to this regulation. The terms "your" and "yours" shall be construed accordingly.

Effective date. This Ceiling Price Regulation is effective September 22, 1952.

NOTE: The reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

SEPTEMBER 17, 1952.

[F. R. Doc. 52-10284; Filed, Sept. 17, 1952; 12:06 p. m.]

[Ceiling Price Regulation 22, Supplementary Regulation 32]

CPR 22—MANUFACTURER'S GENERAL CEILING PRICE REGULATION

SR. 32—ADJUSTMENT IN CEILING PRICES FOR FRIT PRODUCERS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

This Supplementary Regulation to Ceiling Price Regulation 22 authorizes an increase of 5.0 percent in the ceiling prices for ceramic frit and porcelain enamel frit when sold by the manufacturer of the frit product. Frit products are vitreous coating bases and include ceramic glaze frit (applied to pottery and dinnerware) and porcelain enamel frit (applied to metal goods). The industry is presently operating under Ceiling Price Regulation 22.

At the request of representatives of the frit industry, the Office of Price Stabilization has completed a survey to determine whether the ceiling prices established for sales of frit by the manufacturer under CPR 22 provide a sufficeint return under this Agency's industry earnings standard.

In accordance with the requirements of the industry earnings standard, earnings data were collected from noncaptive frit manufacturers for the years 1946 through 1951 and by quarters from the first quarter of 1950 through the first quarter of 1952. The price adjustment provided for by this supplementary regulation is based upon a comparison of aggregate earnings to consolidated net worth for four firms in the best 3 out of 4 years during the period 1946 through 1949, with the aggregate earnings to consolidated net worth for the first quarter of 1952 projected on an annual basis. The reduction in earnings to present levels was caused by increased costs of production and by a decline in sales since the middle of 1951. These data support the conclusion that an increase of 5.0 percent is required to satisfy the industry earnings standard at the industry's present volume of sales. Accordingly, the price adjustment here granted may be applied by each firm to its ceiling prices established by CPR 22.

In the judgment of the Director of Price Stabilization, the provisions of this Supplementary Regulation to the Ceiling Price Regulation 22 are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended.

So far as practicable the Director of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended, and to relevant factors of general applicability.

In the formulation of this supplementary regulation there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Adjustment of ceiling prices of frit products.

AUTHORITY: Section 1 to 2 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Sup.

SECTION 1. *What this supplementary regulation does.* This Supplementary Regulation modifies Ceiling Price Regulation 22 to the extent that it permits a producer of frit to adjust his ceiling prices, otherwise determined pursuant to CPR 22, as amended to date, by the addition of an amount not in excess of 5.0 percent of such ceiling prices.

SEC. 2. *Adjustment of ceiling prices of frit products.* On and after the effective date of this Supplementary Regulation, if you are a producer of frit, you may adjust your ceiling prices for frit products, otherwise determined pursuant to CPR 22, as amended, by the addition of an amount not in excess of 5.0 percent of your ceiling prices.

Effective date. This Supplementary Regulation to Ceiling Price Regulation 22 shall become effective September 22, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

SEPTEMBER 17, 1952.

[F. R. Doc. 52-10286; Filed, Sept. 17, 1952; 4:00 p. m.]

[General Overriding Regulation 14, Amdt. 23]

GOR 14—ADDITIONAL EXCEPTED SERVICES

THEATER TICKET BROKERS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 23 to General Overriding Regulation 14 is hereby issued.

STATEMENT OF CONSIDERATIONS

This Amendment 23 to General Overriding Regulation 14 amends section 3 (a) (94) of that regulation by extending the present exemption of the sale of theater tickets by governmentally licensed and regulated theater ticket brokers to include sales of tickets to other events, including tickets to athletic and sporting events. The previous exemption for ticket brokers was limited to the sale of theater tickets partly because the admission charges made by the theater enterprises themselves, were exempted from ceiling price regulation by the provisions of section 402 (e) (iii) of the Defense Production Act of 1950, as amended. On the other hand admission charges to non-scholastic athletic and sporting events were and are still subject to ceiling price regulation. However, upon further examination of the operation of the theater ticket broker industry there appears to be good reason for extending the exemption to the fees charged by ticket brokers for the sale of the tickets to sporting events. Such service on the part of the theater ticket brokers is normally incidental to their larger activity of acting as broker for the sale of theater tickets. In the metropolitan areas where theater ticket brokers are licensed and regulated by the municipal or State government and the municipal or State government establishes by law the maximum charge which the ticket broker may make for the resale of tickets there is generally no distinction made between the sale of theater tickets and the sale of tickets to sporting events. The maximum charge is usually the same whether the ticket be for a theatrical production or a sporting event. The service is likewise much the same, namely, that of securing tickets for members of the public who cannot purchase them at the box office. Moreover, the amount of income derived by ticket brokers for the sale of tickets to sporting events is small in relation to the burden of price control administration by the Federal government. For these reasons the present limited exemption of ticket brokerage service is being extended to cover governmentally licensed and regulated ticket broker services in all cases where the maximum retail charge or brokerage fee is established by law.

In the formulation of this amendment there has been consultation with industry representatives to the extent practicable and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

General Overriding Regulation 14, as amended, is further amended in the following respect:

Subparagraph (94) of paragraph (a) of section 3 is amended to read as follows:

(94) Any ticket brokerage services rendered by theater ticket brokers licensed by governmental authority to the extent that the maximum charges for such services are established under a statute or a municipal ordinance.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Supp. 2154)

Effective date. This Amendment 23 to General Overriding Regulation 14, shall be effective September 17, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

SEPTEMBER 17, 1952.

Chapter VI—National Production Authority, Department of Commerce

[NPA Order M-6A, Dir. 2—Revocation]

M-6A—STEEL DISTRIBUTORS

DIR. 2—FLOOD-DAMAGED AREA RELIEF

Direction 2 (17 F. R. 4237) to NPA Order M-6A and Amendment 1 of June 4, 1952 (17 F. R. 5068), are hereby revoked.

This revocation does not relieve any person of any obligation or liability incurred under Direction 2 to NPA Order M-6A as originally issued or as amended June 4, 1952, nor deprive any person of any rights received or accrued under said Direction 2 to NPA Order M-6A prior to the effective date of this revocation.

This revocation is effective September 17, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

[F. R. Doc. 52-10268; Filed, Sept. 17, 1952; 11:18 a. m.]

Chapter X—Defense Solid Fuels Administration, Department of the Interior

[Solid Fuels Order 3]

SFO-3—DISTRIBUTION OF BITUMINOUS COAL

The representatives of certain coal producers, and the representatives of their employees, are engaged in negotiating a contract covering terms and conditions of employment. Should these negotiators fail to reach an agreement prior to the expiration date of the present employment contract, such failure may result in a stoppage of production at many bituminous coal mines. The cessation of production at these mines if continued will create shortages in the supply of bituminous coal for the military programs in support of national security and for essential civilian needs. Therefore, this order is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this order it was impracticable to consult with industry representatives because of the need for immediate action.

Sec.
1. What this order does.
2. Definitions.
3. Restrictions on shipments of bituminous coal.
4. Railroads prohibited from accepting bituminous coal.
5. Exceptions.
6. Report to Area Distribution Manager.
7. Shipment of unbilled cars of coal held pursuant to this order.
8. Certification that shipment is made pursuant to the terms of this order.
9. How a consumer obtains coal.
10. Applications for adjustment or exemption.
11. Exemptions from damages or penalties.
12. Violations.
13. Communications.

AUTHORITY: Sections 1 to 13 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61, 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this order does.* This order prohibits the shipment in railroad cars after 12:01 a. m., September 19, 1952, except as specifically directed by DSFA, from bituminous coal mines, loading ramps, coal preparation plants, or designated hold points, of bituminous coal produced at a mine, the operator of which has received a notice which will permit the termination of the contract with his employees, concerning terms and conditions of employment, on September 20, 1952.

SEC. 2. *Definitions.* As used in this order:

(a) "DSFA" means Defense Solid Fuels Administration, Department of the Interior, Washington 25, D. C.

(b) "Bituminous coal" includes all forms of bituminous, subbituminous, and lignitic coals.

(c) "Person" means any individual, firm, partnership, corporation, association, or any other organized group of persons.

(d) "Shipper" means any person who ships bituminous coal produced at a mine, the operator of which has received a notice which will permit the termination of the contract with his employees, concerning terms and conditions of employment, on September 20, 1952, in railroad cars from a coal mine, a loading ramp, coal preparation plant, or designated hold points.

(e) "Coal mine" means any open pit, underground, or any other type of operation conducted for the primary purpose of producing coal.

(f) "Loading ramp" means any facility for the loading of bituminous coal from trucks into railroad cars for rail shipment.

(g) "Coal preparation plant" means a facility for the cleaning, sizing, or otherwise preparing bituminous coal for shipment in railroad cars.

(h) "Designated hold point" means a point designated by tariff where a spe-

cific number of cars may be held without billing free of demurrage.

(i) "Area Distribution Manager" means the person appointed by Defense Solid Fuels Administration as its temporary representative in a specified area for the period this order remains in effect. The names and addresses of Area Distribution Managers and the territories over which they have jurisdiction is shown in Appendix A to this order.

(j) "Railroad" means any common carrier by railroad subject to the jurisdiction of the Interstate Commerce Commission.

SEC. 3. *Restrictions on shipments of bituminous coal.* Except as provided in section 5 of this order, no shipper shall ship or deliver to any railroad for shipment any bituminous coal in railroad cars after 12:01 a. m., September 19, 1952.

SEC. 4. *Railroads prohibited from accepting bituminous coal for shipment.* Pursuant to ICC Service Order No. 890, each railroad subject to such service order is prohibited after 12:01 a. m., September 22, 1952, from accepting for shipment over its lines any car of bituminous coal from any shipper, as defined in section 2 (d), unless the waybill or forwarding instructions covering the shipments contains a certification by the shipper substantially as set forth in section 8.

SEC. 5. *Exceptions.* The provisions of this order shall not apply to:

(a) Coal required by the operator of the producing coal mine for the operation of his power plant.

(b) Coal required to maintain minimum temperature in beehive coke ovens which the shipper operates.

(c) Any shipment which may be specifically authorized by the Defense Solid Fuels Administration.

SEC. 6. *Report to Area Distribution Manager.* Each shipper shall report by letter or telegram before noon of Monday, September 22, 1952, to the Area Distribution Manager having jurisdiction over the area in which his mine, loading ramp, coal preparation plant, or designated hold point, is located, the number of unbilled cars of bituminous coal by type of car and size of coal which he has on hand, together with the name of the railroad, or railroads, upon which his facility is located.

SEC. 7. *Shipment of unbilled cars of coal held pursuant to this order.* To assure the most efficient and equitable distribution of the available supply of bituminous coal in the interest of national defense and public health and welfare, DSFA will direct shipments of coal held on tracks in accordance with this order by individual directives issued pursuant to DSFA Order SFO–2. Such directives shall be in the form of a letter or telegram and must be fully complied with. Any person receiving such a directive requiring delivery of bituminous coal by him shall immediately acknowledge to DSFA receipt of the directive and shall indicate his ability to comply: *Provided, however,* That no shipper shall be required to deliver bituminous coal to any other person at the direction of the DSFA Administrator unless such other person makes arrangements for payment satisfactory to the shipper to whom the directive is issued. The terms proposed by the shipper shall not be more stringent than those he offers to his customers of like class in the normal course of his business, and the price charged shall not be higher than the applicable ceiling price established by the Office of Price Stabilization.

SEC. 8. *Certification that shipment is made pursuant to the terms of this order.* Each shipper who makes a shipment of bituminous coal by railroad after 12:01 A. M., September 19, 1952, shall place upon the waybill or forwarding instructions a certification substantially as follows:

This shipment is made pursuant to Directive No. ------ issued by DSFA under Order SFO–3.

SEC. 9. *How a consumer may obtain coal.* Any consumer of bituminous coal who is urgently in need of coal and who is unable to obtain coal from his normal source of supply because of a work stoppage at the mine where such coal is produced may apply to the Area Distribution Manager or DSFA for priority assistance. Such application may be in the form of a letter or telegram which gives the applicant's name and address, the name and address of his normal source of supply, size and type of coal required, the number of tons and the number of days' supply he has on hand, the purpose for which the coal is to be used, the nature of his business, and evidence of its essentiality to the national defense program or national health or welfare. The application should be directed to the Area Distribution Manager or Defense Solid Fuels Administration, Department of the Interior, Washington 25, D. C. It shall be the policy of DSFA to allocate and distribute the available supply of coal accumulated in railroad cars pursuant to this order on the basis of need and essentiality. An applicant to whom an allocation is made will be informed by telegram the name and the address of the shipper who has been directed to make shipment to him. It will then be the obligation of the applicant to communicate with the shipper and arrange for suitable terms of payment.

SEC. 10. *Applications for adjustment or exemption.* Any shipper subject to any provision of this order may file a request for adjustment or exception on the ground that such provision works an undue hardship upon him, not suffered generally by other shippers, and that its enforcement against him would not be in the interest of the national defense or in the public interest. Requests for adjustment or exemption may be either in the form of a letter or telegram and must set forth in detail all facts upon which they are based.

SEC. 11. *Exemptions from damages or penalties.* No person shall be held liable for damages or penalties under any contract for any default which shall result directly or indirectly from compliance with this order or any directive issued under it or under DSFA Order SFO–2.

SEC. 12. *Violations.* Any person who wilfully fails to comply with the provisions of this order or with any directive issued under this order or DSFA Order SFO–2, or who wilfully conceals a material fact or furnishes false information in the course of operation under this order or any directive issued pursuant to this order or DSFA Order SFO–2, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of solid fuels or using facilities under priority or allocation control and to deprive him of priorities assistance.

SEC. 13. *Communications.* All communications concerning this order or any directive issued pursuant to this order shall be addressed to "Defense Solid Fuels Administration, Department of the Interior, Washington 25, D. C."

NOTE: All reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order shall take effect on September 19, 1952.

DEFENSE SOLID FUELS ADMINISTRATION,
CHAS. W. CONNOR,
Defense Solid Fuels Administrator.

APPENDIX A

The Area Distribution Managers and the districts they will cover are as follows:

District 1 (eastern Pennsylvania, Maryland, and Grant, Mineral, and Tucker Counties of West Virginia): F. Wallace Krater, Central Pennsylvania Coal Producers Association, Pennsylvania Electric Building, Altoona, Pa. Telephone: Altoona 3–8175.

District 2 (western Pennsylvania): H. A. Sutter, Western Pennsylvania Coal Operators Association, Oliver Building, Pittsburgh, Pa. Telephone: Court 1–2446.

District 3 (northern West Virginia): Daniel E. Cronin, Fairmont Coal Bureau, Peoples Building, Fairmont, W. Va. Telephone: Fairmont 4230.

District 4 (Ohio) and District 6 (West Virginia panhandle): Ezra Van Horn, Ohio Coal Association, NBC Building, Cleveland, Ohio, Telephone: Prospect 1–8232.

District 7 (low volatile coal producing areas of Virginia and West Virginia): Dan Carroll, c/o Pocahontas Operators Association, Bluefield, W. Va. Telephone: Bluefield 8149.

District 8 (high volatile coal producing areas of West Virginia, eastern Kentucky, southwest Virginia, North Carolina, and Tennessee): Goodwyn Holmes, Appalachian Coals Inc., Cincinnati, Ohio. Telephone: Highland 0635.

District 10 (Illinois): J. R. Henderson, Illinois Coal Producers Advisory Association, 105 West Monroe, Chicago, Ill. Telephone: Franklin 2–7952.

District 11 (Indiana): C. C. Lydick, Coal Trade Association of Indiana, 632 Cherry Street, Terre Haute, Ind. Telephone: Crawford 1353.

Chapter XXI—Office of Rent Stabilization, Economic Stabilization Agency

[Rent Regulation 1, Amdt. 76 to Schedule A]

[Rent Regulation 2, Amdt. 74 to Schedule A]

RR 1—HOUSING

RR 2—ROOMS IN ROOMING HOUSES AND OTHER ESTABLISHMENTS

SCHEDULE A—DEFENSE-RENTAL AREAS

INDIANA, MICHIGAN, PENNSYLVANIA AND NEW JERSEY

Effective September 18, 1952, Rent Regulation 1 and Rent Regulation 2 are amended as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 15th day of September 1952.

JAMES MCI. HENDERSON,
Director of Rent Stabilization.

1. Schedule A, Item 102, is amended to describe the counties in the defense-rental area as follows:

Lake County, except the Cities of Crown Point, East Chicago, Hammond, Hobart and Whiting, the Towns of East Gary, Highland and Munster, and the Townships of Cedar Creek, Eagle Creek, Hanover, West Creek and Winfield.

Ditto.

In Lake County, the Town of Highland, and the Townships of Hanover and Winfield.

This decontrols the City of Whiting and the Town of East Gary both in Lake County, Indiana, portions of the Gary-Hammond, Indiana, Defense-Rental Area.

2. Schedule A, Item 149, is amended to describe the counties in the defense-rental area as follows:

Oakland County, except (i) the Townships of Addison, Avon, Bloomfield, Brandon, Commerce, Farmington, Groveland, Highland, Holly, Independence, Milford, Novi, Oakland, Orion, Oxford, Pontiac, Rose, Springfield, Troy, Waterford and West Bloomfield, (ii) the Villages of Clarkston, Holly, Lake Orion, Leonard, Milford, Ortonville, Oxford, Rochester and that portion of Northville located in Oakland County, and (iii) the Cities of Berkley, Birmingham, Bloomfield Hills, Clawson, Farmington, Ferndale, Hazel Park, Pleasant Ridge, Pontiac, Royal Oak, South Lyon and Sylvan Lake; Wayne County, except (i) the Cities of Belleville, Ecorse, Garden City, Grosse Pointe, Grosse Pointe Farms, Grosse Pointe Park, Grosse Pointe Woods, Lincoln Park, Livonia, Melvindale, Plymouth and River Rouge, (ii) the Villages of Allen Park, Flat Rock, Grosse Pointe Shores, Inkster, Rockwood, Trenton and Wayne, (iii) that portion of the Village of Northville located in Wayne County, and (iv) the Townships of Brownstown, Canton, Ecorse, Grosse Ile, Huron, Nankin, Northville, Plymouth, Romulus, Sumpter, Taylor and Van Buren; and Macomb County, except the Cities of Centerline, East Detroit and Mount Clemens, the Villages of Fraser and Roseville, and the Townships of Armada, Bruce, Harrison, Lenox, Macomb, Ray, Richmond, Shelby, Sterling and Washington.

This decontrols the City of Centerline in Macomb County, Michigan, a portion of the Detroit, Michigan, Defense-Rental Area.

3. Schedule A, Item 266, is amended to describe the counties in the defense-rental area as follows:

Bucks County; Chester County; Delaware County, except the Township of Concord, and the Boroughs of Media, Rose Valley and Swarthmore; Montgomery County, except the Borough of North Wales; and Philadelphia County.

In Bucks County, the Townships of Bensalem, Bristol, Falls, Lower Makefield, Middletown, Newton, Northampton, Upper Makefield, and Wrightstown, and the Boroughs of Bristol, Hulmeville, Langhorne, Langhorne Manor, Morrisville, Newton, Penndell, South Langhorne, Tullytown and Yardley.

This decontrols the Township of Concord in Delaware County, Pennsylvania, a portion of the Philadelphia, Pennsylvania Defense-Rental Area.

All decontrols effected by these amendments are based on resolutions submitted in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended.

4. Schedule A, Item 190, is amended to read as follows:

State and name of defense-rental area	Class	County or counties in defense-rental area under regulation	Maximum rent date	Effective date of regulation
New Jersey				
(189) Paterson	B	Bergen County, except the boroughs of Allendale, Hohokus, Ramsey, Rutherford and Saddle River, the village of Ridgewood, and the township of Mahawah; Morris County, except the township of Jefferson; and Passaic County.	Mar. 1, 1942	July 1, 1942
	C	Morris County, except the township of Jefferson	Sept. 1, 1950	Feb. 11, 1952
	A	In Morris County, the township of Jefferson	do	Do.
New Jersey				
(190) Northeastern New Jersey.	B	The counties of Essex, Hudson, Middlesex, Monmouth, Somerset, and Union.	Mar. 1, 1942	July 1, 1942

The effect of these amendments is to divide the Northeastern New Jersey Defense-Rental Area as it existed prior to these amendments into the two defense-rental areas described above.

[F. R. Doc. 52–10188; Filed, Sept. 17, 1952; 8:56 a. m.]

[Rent Regulation 3, Amdt. 83 to Schedule A]

[Rent Regulation 4, Amdt. 27 to Schedule A]

RR 3—HOTELS

RR 4—MOTOR COURTS

SCHEDULE A—DEFENSE-RENTAL AREAS

INDIANA AND NEW JERSEY

Effective September 18, 1952, Rent Regulation 3 and Rent Regulation 4 are amended as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 15th day of September 1952.

JAMES MCI. HENDERSON,
Director of Rent Stabilization.

1. Schedule A, Item 102, is amended to describe the counties in the defense-rental area as follows:

Lake County, except the Cities of Crown Point, East Chicago, Hammond, Hobart and Whiting, the Towns of East Gary and Munster, and the Townships of Cedar Creek, Eagle Creek and West Creek.

This decontrols the City of Whiting and the Town of East Gary both in Lake County, Indiana, portions of the Gary-Hammond, Indiana, Defense-Rental Area, based on resolutions submitted under section 204 (j) (3) of the act.

2. Schedule A, Item 190 is changed to Item 189 and is amended to read as follows:

Name of defense-rental area	State	County or counties in defense-rental area under regulation	Maximum rent date	Effective date of regulation
(189) Paterson	New Jersey	Morris County	Sept. 1, 1950	Feb. 11, 1952

The effect of these amendments is to create the Paterson, New Jersey, Defense-Rental Area and to transfer jurisdiction of Morris County to that Area. Morris County has heretofore been under the jurisdiction of the Northeastern New Jersey Defense-Rental Area, Item (190).

[F. R. Doc. 52–10189; Filed, Sept. 17, 1952; 8:56 a. m.]

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

CHOPTANK RIVER, MARYLAND

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.245 is hereby amended by modification of paragraph (f) (6), governing the operation of the Baltimore and Eastern Railroad Company bridge across the Choptank River at Denton, Maryland, as follows:

§ 203.245 *Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.* • • •

(f) *Waterways discharging into Chesapeake Bay.* • • •

(6) Choptank River, Md.; Baltimore and Eastern Railroad Company bridge at Denton. At least thirty days' advance notice required. Paragraph (e) of this section shall not apply to this bridge.

• • • • • •

[Regs., August 29, 1952, ENGWO] (28 Stat. 362; 33 U. S. C. 499)

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
The Adjutant General.

[F. R. Doc. 52-10141; Filed, Sept. 17, 1952; 8:45 a. m.]

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 4—DEPENDENTS AND BENEFICIARIES CLAIMS

MISCELLANEOUS AMENDMENTS

1. In § 4.4, paragraph (a) (1) is amended to read as follows:

§ 4.4 *Indian wars.* For the purposes of the acts of March 4, 1917 (39 Stat. 1199), and March 3, 1927 (44 Stat. 1361), as amended, the following definitions of relationship shall govern in the adjudication of claims for death pension:

(a) *Widow.* (1) The term "widow" shall mean a person who was married to the veteran prior to March 4, 1917. However, the $60 rate ($64.50 for periods on and after July 1, 1952) provided for in the act of March 3, 1944, as amended, is payable only when the unremarried widow was the wife of the veteran during his Indian war service (Pub. Law 245, 78th Cong., Pub. Law 398, 80th Cong., and Pub. Law 356, 82d Cong.). (See § 4.80.) Continuous cohabitation to date of death of the veteran is required in marriages entered into subsequent to March 2, 1899. (30 Stat. 1380.) (See § 4.16.)

• • • • •

(R. S. 4766, as amended, sec. 1, 39 Stat. 1199, sec. 2, 44 Stat. 1362, as amended, sec. 3, 58 Stat. 109, 62 Stat. 4, Pub. Law 356, 82d Cong.; 38 U. S. C. 192, 374a, 375, 331a, 381e)

2. In § 4.6, paragraph (a) (1) is amended to read as follows:

§ 4.6 *Civil War.* For the purposes of any service pension law granting pension to widows, remarried widows, and children of veterans of the Civil War, the following definitions of relationship shall govern in the adjudication of claims for death pension:

(a) *Widow.* (1) The term "widow" shall mean a person who was married to the veteran prior to June 27, 1905. However, the $60 rate ($64.50 for periods on and after July 1, 1952) provided for in the act of July 3, 1926, as amended by the acts of July 30, 1947 and May 23, 1952, is payable only when the widow was the wife of the veteran during his Civil War service. Continuous cohabitation to date of death of the veteran is required in marriages entered into subsequent to March 2, 1899. (30 Stat. 1380.) (See § 4.16.)

• • • • •

(R. S. 4708, as amended, R. S. 4766, as amended, sec. 3, 26 Stat. 182, as amended, sec. 2, 3, 39 Stat. 845, as amended, sec. 4, 41 Stat. 526, sec. 2, 44 Stat. 806, sec. 3, 46 Stat. 529, sec. 1, 58 Stat. 797, sec. 2, 61 Stat. 610, Pub. Law 356, 82d Cong.; 38 U. S. C. 192, 205, 276, 281, 283, 285, 288, 291, 291b, 293)

3. In § 4.12, paragraph (a) (1) is amended to read as follows:

§ 4.12 *Spanish-American War, Boxer Rebellion, and Philippine Insurrection; service acts as reenacted by Public No. 269, 74th Congress, and as amended.* For the purposes of Public No. 166, 69th Congress (act of May 1, 1926), as reenacted by Public No. 269, 74th Congress (act of August 13, 1935), and amended by Public Law 144, 78th Congress (act of July 13, 1943), Public Law 242, 78th Congress (act of March 1, 1944), Public Law 762, 80th Congress (act of June 24, 1948), and Public Law 108, 82d Congress (act of August 4, 1951), the following definitions of relationship shall govern in the adjudication of claims for death pension:

(a) *Widow.* (1) The term "widow" of a veteran of the Spanish-American War, Boxer Rebellion, or Philippine Insurrection shall mean a person who was married to the veteran prior to January 1, 1938. As to awards and increases in pension approved on or after March 1, 1944, continuous cohabitation as described in § 4.16 must be established (sec. 4, Pub. Law 242, 78th Cong.): *Provided,* That where the widow is entitled solely by virtue of the provisions of section 2, Public Law 242, 78th Congress, pension shall not be paid for any period prior to April 1, 1944. However, the $60 rate ($64.50 for periods on and after July 1, 1952) is payable only when the widow was the wife of the veteran during his war service. (Pub. Law 242, 78th Cong., act of March 1, 1944, as amended) (See § 4.117.)

• • • • •

(Sec. 2, 44 Stat. 382, as amended, sec. 4, 58 Stat. 107, secs. 1, 2, 62 Stat. 645, secs. 1, 2, 49 Stat. 614, Pub. Laws 108 and 356, 82d Cong.; 38 U. S. C. 364a, 364b, 364j, 364j, 368, 369)

4. In § 4.91, paragraph (c) (1) is amended to read as follows:

§ 4.91 *Apportionment.* • • •

(c) *Rates payable*—(1) *General.* In apportioning compensation or pension between a widow and a child or children not in her custody, the amount payable to a widow is specified in succeeding subdivisions of this subparagraph. The remainder of the amount which would be payable to the widow if all children were in her custody will be equally divided among the children. The amount payable on behalf of any child or children in the widow's custody will be added to the widow's share. Where the widow is entitled to a higher rate by reason of attained age or by reason of having been the wife of the veteran during service, the additional amount shall be added to her share.

	On and after Oct. 17, 1940 (sec. 3, Public Law 866, 76th Cong.)	On and after Sept. 1, 1947 (Public Law 270, 80th Cong.)	On and after July 1, 1952 (Public Law 356, 82d Cong.)
Widow	$21.00	$25.20	$27.09
Child	15.00	18.00	19.35
Each additional child	6.00	7.20	7.74

(i) *Compensation.* For periods prior to September 1, 1948, and where compensation is payable at a protected rate under section 20, Public No. 78, 73d Congress, or section 28, Public No. 141, 73d Congress, the rule outlined in subdivision (ii) (*a*) of this subparagraph shall apply. For periods on and after September 1, 1948, and prior to July 1, 1952, where the wartime rate is payable, the rate for the widow shall be $60 monthly and for periods on and after July 1, 1952, shall be $65 monthly. For periods on and after September 1, 1948, and prior to July 1, 1952, where the peacetime rate is payable, the rate for the widow shall be $48 monthly, and for periods on and after July 1, 1952, shall be $52 monthly.

(ii) *Pension.* Public No. 484, 73d Congress, as amended, and Part III, Veterans' Regulation 1 (a) (38 U. S. C. ch. 12):

(*a*) Apportionment of death pension which is payable under Part III, Veterans' Regulation 1 (a), or which is payable for periods prior to July 1, 1952, under Public No. 484, 73d Congress, as amended, shall be computed as follows: The share for all children for whom claim is filed will be that amount to which they would be entitled if there were no widow. The widow's share will be the difference between the children's share and the total amount payable on account of the widow and all children for whom claim is filed. If, in the application of this rule, the widow's share would be increased to an amount greater than the amount to which she would be entitled if there were no children, then her share will be the amount to which she would be entitled if there were no children, and the difference between the amount of such widow's share and the entire amount payable for the widow and children will be the children's share. If, however, in the application of this rule, the widow's share would be reduced to an amount lower than 50 percent of that to which she would be entitled if there were no children, then her share will be 50 percent of the amount to which she would be entitled if there were no children, and the difference between the amount of such widow's share and the entire amount payable for the widow and children will be the children's share.

(*b*) In apportionment of pension under Public No. 484, 73d Congress, as amended, for periods on and after July 1, 1952, where there is a widow and one child, the rate for the widow shall be $36 monthly and where there is a widow and more than one child, the rate for the widow shall be $30 monthly.

(iii) *Civil War pension.* Public No. 190, 66th Congress (act of May 1, 1920), as amended:

(iv) *Indian War pension.* Public No. 723, 69th Congress (act of March 3, 1927), as amended:

	Oct. 17, 1940 (sec. 3, Public Law 866, 76th Cong.)	Mar. 1, 1948 (Public Law 398, 80th Cong.)	July 1, 1952 (Public Law 356, 82d Cong.)
Widow	$21.00	$25.20	$27.09
Child	15.00	18.00	19.35
Each additional child	6.00	7.20	7.74

(v) *Spanish-American War (including Boxer Rebellion and Philippine Insurrection) pension, Service Act, reenacted by Public No. 269, 74th Congress, and amended.* Public No. 166, 69th Congress (act of May 1, 1926), as reenacted by Public No. 269, 74th Congress, and as amended:

	On and after Oct. 17, 1940 (sec. 3, Public Law 866, 76th Cong.)	On and after Sept. 1, 1946 (Public Law 611, 79th Cong.)	On and after Sept. 1, 1947 (Public Law 270, 80th Cong.)	On and after July 1, 1952 (Public Law 356, 82d Cong.)
Widow	$21.00	$28.00	$33.60	$36.12
Child	15.00	18.00	21.60	23.22
Each additional child	6.00	6.00	7.20	7.74

• • • • •

5. In § 4.122, paragraph (a) (1) and (3) is amended to read as follows:

§ 4.122 *Death due to peacetime service*—(a) *Peacetime rate.* (1) Where death resulted from active military or naval service rendered subsequent to March 4, 1861, during time of peace (except as to those instances falling within the purview of paragraph (b) of this section), the following rates are payable:

	Per month			
	Aug. 1, 1943, to Aug. 31, 1948 (Public Law 144, 78th Cong.)	On and after Sept. 1, 1948 (Public Law 868, 80th Cong.)	On and after Dec. 1, 1949 (Public Law 339, 81st Cong.)	On and after July 1, 1952 (Public Law 356, 82d Cong.)
Widow	$38.00	$60.00	$60.00	$60.00
Widow with 1 child	49.00	80.00	84.00	96.80
Each additional child	10.00	12.00	20.00	23.20
Children where there is no widow, total payable equally divided:				
1 child	19.00	46.40	46.40	53.60
2 children	28.00	65.60	65.60	75.20
Three children	36.00	84.80	84.80	97.60
Each additional child	8.00	16.00	16.00	18.40
Dependent mother or father (Or both), each	30.00 20.00	48.00 28.00	48.00 28.00	48.00 28.00

• • • • • • •

(3) The foregoing rates for the period prior to September 1, 1948, are contained in Public Law 690, 77th Congress, and section 14 (b), Public Law 144, 78th Congress. The rates on and after September 1, 1948, are authorized by paragraph III, Part II, Veterans' Regulation 1 (a) (38 U. S. C. ch. 12), as amended by section 3, Public Law 868, 80th Congress. The increase in rates payable for periods on and after December 1, 1949, for widows with children is contained in section 3 (b), Public Law 339, 81st Congress. The rates on and after July 1, 1952, are authorized by section 3, Public Law 356, 82d Congress.

(3) The foregoing rates for periods prior to September 1, 1948, are contained in section 5, Public No. 198, 76th Congress, as amended by section 10, Public Law 667; 77th Congress; section 14 (a), Public Law 144, 78th Congress; and section 2, Public Law 662, 79th Congress. The rates in section 5, Public No. 198, 76th Congress, originally applied only to World War I cases but were specifically made applicable to cases pertaining to the Spanish-American War, including the Boxer Rebellion and Philippine Insurrection, under the terms of Public Law 242, 77th Congress, and became applicable to cases pertaining to the other wars by reason of the provisions of paragraph I (c), Part II, Veterans Regulation 1 (a) (38 U. S. C. ch. 12), as amended by Public Law 359, 77th Congress. The rates on and after September 1, 1948, as to cases pertaining to Spanish-American War, Boxer Rebellion and Philippine Insurrection, World War I, and World War II are contained in paragraph IV, Part I, Veterans Regulation 1 (a), as amended by section 1, Public Law 868, 80th Congress, and are applicable to cases pertaining to other wars by virtue of the provisions of section 2, Public Law 868, 80th Congress. The increase in rates payable for periods on and after December 1, 1949, for widows with children is contained in section 3 (b), Public Law 339, 81st Congress. These rates were made applicable, effective May 11, 1951, to claims based on service rendered on or after June 27, 1950 (see § 4.31), by Public Law 28, 82d Congress. The rates on or after July 1, 1952, are contained in Public Law 356, 82d Congress.

• • • • •

(Sec. 5, 53 Stat. 1070, as amended, 55 Stat. 665, 844, as amended, sec. 14, 57 Stat. 558, as amended, sec. 2, 60 Stat. 910, 60 Stat. 13, 223, 62 Stat. 1213, sec. 3, 63 Stat. 732, Pub. Laws 28 and 356, 82d Cong.; 10 U. S. C. 336, 38 U. S. C. 38, 471a–3, 472b, 731, ch. 12 note)

6. In § 4.124, the headnote, and paragraph (a) (1) and (3) are amended to read as follows:

§ 4.124 *Death due to wartime service or service on or after June 27, 1950.* (a) (1) Where death resulted from active military or naval service rendered during the Civil War, the Indian wars, the Spanish-American War, including the Boxer Rebellion and Philippine Insurrection, World War I, World War II, or service on or after June 27, 1950, the following rates are payable:

	Per month				
	Aug. 1, 1943, to Aug. 31, 1946 (Public Law 144, 78th Cong.)	Sept. 1, 1946, to Aug. 31, 1948 (Public Law 662, 79th Cong.)	On and after Sept. 1, 1948 (Public Law 868, 80th Cong.)	On and after Dec. 1, 1949 (Public Law 339, 81st Cong.)	On and after July 1, 1952 (Public Law 356, 82d Cong.)
Widow	$50.00	$60.00	$75.00	$75.00	$75.00
Widow with 1 child	65.00	78.00	100.00	105.00	121.00
Each additional child	13.00	15.60	15.00	25.00	29.00
Children where there is no widow, total payable equally divided:					
1 child	28.00	30.00	58.00	58.00	67.00
2 children	38.00	45.60	82.00	82.00	94.00
3 children	46.00	57.60	106.00	106.00	122.00
Each additional child	10.00	12.00	20.00	20.00	23.00
Dependent mother or father (Or both), each	45.00 25.00	54.00 30.00	60.00 35.00	60.00 35.00	60.00 35.00

• • • • • • •

(b) *Rates under section 2, Public Law 16, 78th Congress (par. 4, Part VIII, Veterans' Regulation 1 (a).* Where

7. Section 4.126 is revised to read as follows:

§ 4.126 *Death due to Veterans' Administration hospital treatment, etc.*—(a) *Rates under section 31, Title III, Public No. 141, 73d Congress, or section 12, Public No. 866, 76th Congress.* Where death occurred under the conditions set forth in section 31, Title III, Public No. 141, 73d Congress, or section 12, Public No. 866, 76th Congress, the rates payable (1) where the veteran served in a war or on or after June 27, 1950, are those authorized in paragraph 1, Veterans' Regulation 1 (g) (38 U. S. C. ch. 12), subject for periods on and after September 1, 1946, to the increases provided by section 2, Public Law 662, 79th Congress, or (2) where the veteran served during peacetime are those authorized in paragraph 2, Veterans' Regulation 1 (g): *Provided,* That for periods on and after September 1, 1948, the rates outlined in § 4.122 or § 4.124, whichever is applicable, shall be payable. Nothing contained in this paragraph shall prevent the payment of a higher rate under a service or other act where authorized.

10. In § 4.134, paragraph (a) is amended to read as follows:

§ 4.134 *Spanish American War, including the Boxer Rebellion and Philippine Insurrection*—(a) *Rates under the act of May 1, 1926, as reenacted by Public No. 269, 74th Congress and as amended; sections 1 and 7, Public Law 144, 78th Congress.*

(1) *Widows and remarried widows.*

	Per month			
	On and after Aug. 1, 1941 (Public Law 212, 78th Cong.)	On and after Sept. 1, 1946 (Public Law 611, 79th Cong.)	On and after Sept. 1, 1947 (Public Law 270, 80th Cong.)	On and after July 1, 1952 (Public Law 550, 82d Cong.)
(a) Widows:				
Act of Mar. 3, 1927—				
70 years of age or over	$30.00	$40.00	$48.00	$51.60
Wife during service	40.00	50.00	62.40	61.50
Additional for each child	6.00	6.00	7.20	7.74
(b) Remarried widows:				
Act of Mar. 3, 1927—				
Additional for each child	6.00	6.00	7.20	7.74
(c) Children:				
Act of Mar. 3, 1927—1 child	$36.00	$46.00	$55.20	$59.34
Each additional child	6.00	6.00	7.20	7.74

Where there is a widow or remarried widow, the additional amount for a child is applicable as to each child within the purview of either § 4.2 (b) (1) or § 4.14 (c). (See § 4.12 (c).)

(2) *Children, where there is no widow.* (i) The rates for children who are eligible by reason of the definition of the term "child" contained in § 4.2 (b) (1) (see § 4.12 (c)), are as follows:

	Per month			
	On and after Aug. 18, 1945	On and after Sept. 1, 1946 (Public Law 611, 79th Cong.)	On and after Sept. 1, 1947 (Public Law 270, 80th Cong.)	On and after July 1, 1952 (Public Law 356, 82d Cong.)
1 child	$36.00	$46.00	$55.20	$59.34
Each additional child	6.00	6.00	7.20	7.74

The rate for a child or children entitled under this subdivision is not affected by any payments made to a child or children under subdivision (ii) of this subparagraph over the same period of time.

(ii) The rates for children who are eligible solely as a result of the definition of the term "child" contained in § 4.14 (c) (see § 4.12 (c)), shall be as follows:

	Per month			
	On and after June 1, 1944 (Public Law 312, 78th Cong.)	On and after Sept. 1, 1946 (Public Law 611, 79th Cong.)	On and after Sept. 1, 1947 (Public Law 270, 80th Cong.)	On and after July 1, 1952 (Public Law 356, 82d Cong.)
1 child	$18.00	$21.60	$25.92	$26.00
2 children	27.00	32.40	38.88	39.00
3 children	36.00	43.20	51.84	52.00
Each additional child	4.00	4.80	5.76	7.20

(Secs. 2, 4, 44 Stat. 1362, 1363, as amended, sec. 3, 58 Stat. 109, 62 Stat. 4, Pub. Law 356, 82d Cong.; 38 U. S. C. 374a, 381a, 381c, 381e)

9. Section 4.132 is revised to read as follows:

§ 4.132 *Civil War.*

	Per month			
	Prior to Mar. 1, 1948	On and after Mar. 1, 1948 (Public Law 398, 80th Cong.)	On and after July 1, 1952 (Public Law 356, 82d Cong.)	
(a) (1) Widows and remarried widows:				
Act of Mar. 3, 1927—				
Act of July 3, 1926 (wife during service)	$30.00	$36.00	$38.70	
Act of June 9, 1930 (70 years of age or over)	50.00	60.00	64.50	
Additional for each child	8.00	8.00	7.74	
(2) Widows—Act of Dec. 8, 1944	30.00	36.00	38.70	
70 years of age or over	40.00	48.00	51.60	
(b) Children—				
Act of May 1, 1920—1 child	30.00	43.20	46.44	
Additional for each child, equally divided	6.00	7.20	7.74	

(Sec. 2, 57 Stat. 43, sec. 2, 60 Stat. 910, Pub. Law 894, 81st Cong.; 38 U. S. C. 471a–3, 501a, 501a–1, ch. 12 note)

8. Section 4.130 is revised to read as follows:

§ 4.130 *Indian wars.*

(Sec. 31, 48 Stat. 526, sec. 12, 54 Stat. 1197, sec. 2, 57 Stat. 43, sec. 2, 60 Stat. 910, Pub. Law 894, 81st Cong.; 38 U. S. C. 471a–3, 501a, 501a–1, ch. 12 note)

The total payable shall not exceed $64 for periods prior to December 14, 1944, and $74 for periods on or after December 14, 1944, and prior to August 8, 1946 (sec. 2, Pub. Law 483, 78th Cong.). No limitation as to the amount payable is applicable for periods on and after that date (Pub. Law 673, 79th Cong.).

(Sec. 2, 48 Stat. 1281, as amended, sec. 2, 60 Stat. 910, Pub. Laws 28 and 356, 82d Cong.; 38 U. S. C. 471a–3, 504, 745)

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707)

This regulation effective September 18, 1952.

[SEAL] H. V. STIRLING,
Deputy Administrator.

[F. R. Doc. 52–10195; Filed, Sept. 17, 1952; 8:58 a. m.]

The rate for a child or children entitled only under this subdivision over any period of time that a child or children are entitled under subdivision (i) of this subparagraph will be the share to which such child or children would be entitled, if all of the children were awarded pension under this subdivision.

* * * * *

(Sec. 2, 44 Stat. 382, as amended, sec. 1, 49 Stat. 614, sec. 1, 57 Stat. 554, sec. 3, 58 Stat. 107, sec. 4, 60 Stat. 864, sec. 1, 61 Stat. 610, sec. 1, 62 Stat. 645, Pub. Laws 108 and 356, 82d Cong.; 38 U. S. C. 364a, 364g, 364g–1, 3641, 368, 370f, 727)

11. Section 4.140 is revised to read as follows:

§ 4.140 *World War I, World War II, and service on or after June 27, 1950.* Rates under Public No. 484, 73d Congress (act of June 28, 1934), as amended; Pub. Law 312, 78th Cong.; Pub. Law 28, 82d Cong. (act of May 11, 1951):

	Per month		
	On and after June 1, 1944 (Public Law 312, 78th Cong.)	On and after Sept. 1, 1946 (Public Law 662, 79th Cong.)	On and after July 1, 1952 (Public Law 356, 82d Cong.)
Widow	$35.00	$42.00	$48.00
Widow with 1 child	45.00	54.00	60.00
Each additional child	5.00	6.00	7.20
Children where there is no widow, total payable equally divided:			
1 child	18.00	21.60	26.00
2 children	27.00	32.40	39.00
3 children	36.00	43.20	52.00
Each additional child	4.00	4.80	7.20

The total payable shall not exceed $64 for periods prior to December 14, 1944, and $74 for periods on or after December 14, 1944, and prior to August 8, 1946 (sec. 2, Pub. Law 483, 78th Cong.). No limitation as to the amount payable is applicable for periods on and after that date (Pub. Law 673, 79th Cong.).

(Sec. 2, 48 Stat. 1281, as amended, sec. 2, 60 Stat. 910, Pub. Laws 28 and 356, 82d Cong.; 38 U. S. C. 471a–3, 504, 745)

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707)

This regulation effective September 18, 1952.

[SEAL] H. V. STIRLING,
Deputy Administrator.

[F. R. Doc. 52–10195; Filed, Sept. 17, 1952; 8:58 a. m.]

PART 4—DEPENDENTS AND BENEFICIARIES CLAIMS

PROVISIONAL REGULATIONS; SERVICEMEN'S INDEMNITY FOR DEATH

In § 4.453, new paragraphs (p) (q) and (r) are added as follows:

§ 4.453 *Servicemen's indemnity for death.* * * *

(p) *Basic requirements of service as outlined in paragraph (c) of this section*—(1) *Reserves.* Active service in the Reserve components of the Army, Air Force, Navy, Marine Corps, and Coast Guard includes active duty for training purposes. Inactive duty for training is excluded except "while engaged in aerial flights in Government-owned or leased aircraft" as comprehended under paragraph (c) (2) (i) of this section.

(2) *National Guard.* (i) In time of national emergency, such as the Korean hostilities, the National Guard organizations or units of the various States, territories, and the District of Columbia may be mustered into the Federal service in answer to a call or order of the President of the United States. Service rendered after muster into the Federal service is as a member of the Army or Air Force. When serving on such extended active duty in the Army or Air Force, the entitlement of guardsmen to indemnity is the same as that of the Regular Establishment and the Reserve components of the Armed Forces on extended active duty, and specific information as to the length of the period of service for which called or ordered, that is, 14 days or over, is not required.

(ii) "Active duty or active training duty for 14 days or more" in the National Guard, as described under paragraph (c) (1) (ii) of this section, comprehends such duty under the sections of the National Defense Act (act of June 3, 1916), as amended, which are enumerated in section 3, Public Law 108, 81st Congress, that is, sections 5, 81, 92, 94, 97, and 99. If the duty was not performed under one of the enumerated sections of the National Defense Act, there is no entitlement to indemnity. For indemnity coverage, duty must be performed in the interests of the Federal Government, purely State duty being excluded. Accordingly, National Guardsmen called to active duty by the Governor of a state in connection with an emergency, such as flood relief, to quell a riot, or to impose martial law, are excluded. There is no entitlement to indemnity based upon inactive training duty, such as assemblies for drill or instruction, except while "engaged in aerial flights in Government-owned or leased aircraft" as comprehended in paragraph (c) (2) (i) of this section.

(3) *Persons provisionally accepted for service (volunteers), Reservists called to active duty subject to final type physical examination and registrants (selectees) under Selective Service Act of 1948, as amended.* Paragraph (c) (2) (ii) and (iii) of this section comprehends the following classes under the conditions specified therein:

(i) Persons (volunteers) who have been or are provisionally accepted and directed to report to the place of final acceptance.

(ii) Reservists of the Army, Air Force, Navy, Marine Corps, or Coast Guard called to active duty, including active duty for training purposes, subject to passing a final type physical examination prior to acceptance for duty.

(iii) Registrants (selectees) under the Selective Service Act of 1948, as amended (designated as the "Universal Military Training and Service Act" by Pub. Law 51, 82d Cong.).

Coverage of persons provisionally accepted (volunteers) and registrants (selectees) is limited to those who died or shall die as a result of disability incurred while en route from the place of assembly or draft board to the induction station, and does not extend to travel to the place of assembly or draft board or to the period after rejection, including the return trip. Coverage of Reservists under paragraph (c) (2) (ii) of this section applies in those cases in which the Reservists are called to active duty by the terms of their orders, even though the duration of such active duty is made conditional upon medical examination to determine fitness for active duty. If the terms of the orders do not place the Reservists in active duty, the limitations prescribed for volunteers and selectees shall apply.

(q) *Reservists and National Guardsmen engaged in aerial flights in Government-owned or leased aircraft; paragraph (c) (2) (i) of this section*—(1) *Crew members and passengers.* Under paragraph (c) (2) (i) of this section, engagement in aerial flights in Government-owned or leased aircraft has to be an incident to military or naval training. Coverage thereunder is not confined to persons assigned as members of the crew on the flights, but extends to those persons designated as passengers who are engaged in aerial flights as part of their training duty, such as members of combat units (paratroopers), trainees, administrative and logistic personnel, etc. It is not the particular position they occupy in aerial flights but their status of training duty which determines whether they are deemed to be in active service under the second proviso of section 2 of Public Law 23.

(r) *Additional 120-day coverage; death after service.* Under paragraph (c) (1) of this section, if the serviceman had been called to extended active duty for a period exceeding 30 days, indemnity may be payable if death occurred within 120 days after separation or release from such active service. The additional 120-day coverage extends to any serviceman called to active service for a period exceeding 30 days, notwithstanding the fact that any such person may have been separated or released from such active service prior to having served for a period exceeding 30 days. (Instruction No. 1–D, Part I, Pub. Law 23, 82d Cong.)

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707)

This regulation effective September 18, 1952.

[SEAL] H. V. STIRLING,
Deputy Administrator.

[F. R. Doc. 52–10194; Filed, Sept. 17, 1952; 8:58 a. m.]

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

SUBPART A—REGISTRATION AND RESEARCH

SPECIAL CONSIDERATIONS CONCERNING PURSUIT OF EDUCATION OR TRAINING AFTER STATUTORY DELIMITING DATE

In § 21.36 (e), a new subparagraph (1) is added as follows:

§ 21.36 *Special considerations concerning the pursuit of education or training after the statutory delimiting date.* • • •

(e) *Normal progression.* • • •

(1) A review or coaching course or special licensing examination preparatory course (for example, a bar review course, a CPA coaching course, or a coaching course for licensure examination as a stationary engineer), following basic professional training or basic training in the skills of a trade does not represent an advancement or progression to a level of knowledge or skills which is higher than the basic professional or basic trade training and therefore may not be held to be a normal progression from such basic course.

(Sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 2, 57 Stat. 43, as amended, sec. 400, 58 Stat. 287, as amended; 38 U. S. C. 11a, 701, 707, ch. 12 note. Interprets or applies secs. 3, 4, 57 Stat. 43, as amended, secs. 300, 1500–1504, 1506, 1507, 58 Stat. 286, 300, as amended; 38 U. S. C. 693g, 697–697d, 697f, g, ch. 12 note)

This regulation effective September 18, 1952.

[SEAL] H. V. STIRLING,
Deputy Administrator.

[F. R. Doc. 52-10192; Filed, Sept. 17, 1952; 8:57 a. m.]

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

SUBPART A—REGISTRATION AND RESEARCH

EFFECTIVE BEGINNING DATES FOR PAYMENT OF BENEFITS; RATES OF SUBSISTENCE ALLOWANCE

1. In § 21.100 (b), subparagraphs (2) and (3) are amended to read as follows:

§ 21.100 *Effective beginning dates for payment of benefits.* • • •

(b) • • •

(2) The date of entrance or reentrance into training as certified by the institution or establishment on VA Form 7–1953 (original or supplemental) will be accepted if the certification is received in the Veterans' Administration within a period of 90 days from that date or the date VA Form 7–1953 was issued, whichever is the later. The date of reentrance into training as certified on VA Form 7–1909 by the institution or establishment will be accepted if the certification is received in the Veterans' Administration within a period of 90 days from the certified date of reentrance. Otherwise, except as provided in subparagraph (3) of this paragraph, the date of receipt of VA Form 7–1953 or 7–1909 by the Veterans' Administration will be the governing date.

(3) Where, prior to the cut-off date as defined in § 21.35, a veteran's application for education or training and/or subsistence allowance or the certification of his entrance or reentrance into training or evidence of dependency is received in the Veterans' Administration after the 90-day delimiting period prescribed in subparagraphs (1) and (2) of this paragraph, and where in view of all facts and circumstances it is the opinion of the chief, vocational rehabilitation and education division, that the case is meritorious and that the application of the 90-day rule would be inequitable and should be waived, a statement of all pertinent facts and circumstances, together with appropriate recommendations, may be forwarded to the assistant administrator for vocational rehabilitation and education, central office. Where, subsequent to the cut-off date as defined in § 21.35, VA Form 7–1953 or 7–1909 is received in the Veterans' Administration after the 90-day period prescribed in subparagraphs (1) and (2) of this paragraph, the chief, vocational rehabilitation and education division, will submit a statement of all pertinent facts and circumstances in the individual case to the assistant administrator for vocational rehabilitation and education for consideration of waiver of the 90-day rule. If the 90-day rule is waived, the date of receipt of claim for education or training and/or subsistence allowance by the institution, or the date of entrance or reentrance into training as certified by the institution will be accepted by the Veterans' Administration, if otherwise in order.

• • • • •

2. In § 21.133, paragraphs (a), (b) (1), (c), (d), and (e) are amended to read as follows:

§ 21.133 *Rates of subsistence allowance*—(a) *$75, $105, or $120 per month—full-time institutional training.* On or after April 1, 1948, the monthly amount of subsistence allowance payable to the veteran enrolled under Part VII, Veterans' Regulation 1 (a), as amended (38 U. S. C. ch. 12), in a course of institutional training, as defined in § 21.58 (a), will be the normal rate of $75, $105, or $120 per month, or more if necessary, to bring the sum of subsistence allowance and disability pension or disability compensation (including special statutory allowances) to the amount established as a minimum by the provisions of Public Law 338, 80th Congress. (Rates in effect prior to April 1, 1948, were $65 per month for a veteran without a dependent or $90 per month if he has a dependent or dependents.)

(b) *$65 or $90 per month* (1) The monthly amount of subsistence allowance payable to the veteran enrolled in courses of apprentice or other on-the-job training, institutional on-farm training, and combination or cooperative courses requiring less than the normal full-time classroom instruction, will be the normal rate of $65 or $90 monthly, or more if necessary, to bring the sum of subsistence allowance and disability pension or disability compensation (including special statutory allowances) to the amount established as a minimum by the provisions of Public Law 338, 80th Congress. On or after April 1, 1948, for a veteran who pursues a part of his course in an educational institution, the extent of such training will be determined in accordance with the criteria set out in § 21.104 (a), and subsistence allowance in addition to the basic rates of $65 and $90 will be payable to the extent of the appropriate fractional part (¾, ½, ¼) of the difference between the basic rates of $65 or $90 and $75, $105, or $120, whichever is applicable.

• • • • • •

(c) *Disability compensation renounced or not applied for.* Where a veteran is found eligible for vocational rehabilitation under Part VII on a memorandum rating, or renounces his right to disability compensation before or after entrance into training, he will receive only the amount of subsistence allowance authorized by paragraph 6, Part VIII, Veterans' Regulation 1 (a), as amended, except that veterans receiving retirement or retainer pay who report that the combined amount of retirement or retainer pay and subsistence allowance is less than the minimum rates provided in paragraph 3, Part VII, Veterans' Regulation 1 (a), as amended, may receive the greater amounts of subsistence allowance upon receipt of a report from the service department showing the amount of the retirement or retainer pay.

(d) *Reduction to zero of disability compensation.* Where the disability rating of a veteran pursuing a course under Part VII is reduced to zero, he is entitled to the minimum payment provided for veterans with disabilities rated less than 30 percent in the first proviso of paragraph 3, Part VII, Veterans' Regulation 1 (a), as amended.

(e) *Disability compensation suspended for failure to report for physical examination.* When the disability compensation of a veteran pursuing a course under Part VII is suspended for failure to report for a physical examination, he can receive only the rate of subsistence allowance authorized by paragraph 6 of Part VIII of Veterans' Regulation 1 (a), as amended, so long as he persists in his refusal to report for physical examination.

• • • • • •

(Sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 2, 57 Stat. 43, as amended, sec. 400, 58 Stat. 287, as amended; 38 U. S. C. 11a, 701, 707, ch. 12 note. Interprets or applies secs. 3, 4, 57 Stat. 43, as amended, secs. 300, 1500–1504, 1506, 1507, 58 Stat. 286, 300, as amended; 38 U. S. C. 693g, 697–697d, 697f, g, ch. 12 note)

This regulation effective September 18, 1952.

[SEAL] H. V. STIRLING,
Deputy Administrator.

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 130]

OPERATION AND MAINTENANCE CHARGES

FORT HALL INDIAN IRRIGATION PROJECT, IDAHO

SEPTEMBER 10, 1952.

Pursuant to section 4 (a) of the Administrative Procedure Act of June 11, 1946 (60 Stat. 238; 5 U. S. C. 1001) and authority contained in the acts of Congress approved August 1, 1914 and March 7, 1928 (38 Stat. 583, 45 Stat. 210; 25 U. S. C. 385, 387) and by virtue of authority delegated by the Secretary to the Commissioner of Indian Affairs by Order No. 2508 approved January 11, 1949 (14 F. R. 259) and by virtue of authority delegated by the Commissioner of Indian Affairs to the Area Director by Order No. 551, Amendment No. 1, approved June 5, 1951 (16 F. R. 5457), notice is hereby given of intention to modify § 130.32 (a) of Title 25, Code of Federal Regulations, dealing with the operation and maintenance charges on assessable lands under the Fort Hall Indian Irrigation Project, Fort Hall Indian Reservation, Idaho, as follows:

By decreasing the annual basic water charges for the operation and maintenance of the lands in non-Indian ownership for which water can be delivered for irrigation from $3.50 to $3.25 per acre.

The foregoing proposed charge is to become effective for the irrigation season 1953 and to continue in effect thereafter until further notice.

Section 130.32 (a) as amended will, therefore, read as follows:

§ 130.32 *Basic and other water charges.* (a) In compliance with the provisions of the act of March 1, 1907 (34 Stat. 1024) the annual basic water charges for the operation and maintenance of the lands in non-Indian ownership to which water can be delivered for irrigation under the Fort Hall Indian Irrigation Project, Idaho, are hereby fixed at $3.25 per acre for the calendar year 1953 and subsequent years until further notice.

Interested persons are hereby given opportunity to participate in preparing the proposed amendments by submitting their views and data or argument in writing to E. Morgan Pryse, Area Director, Bureau of Indian Affairs, Building 1, Swan Island, Portland 18, Oregon, within 30 days from the date of publication of this notice of intention in the daily issue of the FEDERAL REGISTER.

E. MORGAN PRYSE,
Area Director.

NOTICES

DEPARTMENT OF THE TREASURY

Fiscal Service, Bureau of the Public Debt

[1952 Dept. Circ. 913]

2⅛ PERCENT TREASURY NOTES OF SERIES A–1953

OFFERING OF NOTES

SEPTEMBER 15, 1952.

I. *Offering of notes.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at par, from the people of the United States for notes of the United States, designated 2⅛ percent Treasury Notes of Series A–1953, in exchange for Treasury Certificates of Indebtedness of Series E–1952, maturing October 1, 1952.

II. *Description of notes.* 1. The notes will be dated October 1, 1952, and will bear interest from that date at the rate of 2⅛ percent per annum, payable on a semiannual basis on June 1 and December 1, 1953. They will mature December 1, 1953, and will not be subject to call for redemption prior to maturity.

2. The income derived from the notes shall be subject to all taxes now or hereafter imposed under the Internal Revenue Code, or laws amendatory or supplementary thereto. The notes shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The notes will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer notes with interest coupons attached will be issued in denominations of $1,000, $5,000, $10,000, $100,000, and $1,000,000. The notes will not be issued in registered form.

5. The notes will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States notes.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Treasury Department, Washington. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies.

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of notes applied for, and to close the books as to any or all subscriptions at any time without notice; and any action he may take in these respects shall be final. Subject to these reservations, all subscriptions will be allotted in full. Allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at par for notes allotted hereunder must be made on or before October 1, 1952, or on later allotment, and may be made only in Treasury Certificates of Indebtedness of Series E–1952, maturing October 1, 1952, which will be accepted at par, and should accompany the subscription. The full amount of interest due on the certificates surrendered will be paid to the subscriber following acceptance of the certificates.

V. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective Districts, to issue allotment notices, to receive payment for notes allotted, to make delivery of notes on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

[SEAL] E. H. FOLEY,
Acting Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

NOTICE OF FILING OF PLAT OF SURVEY

SEPTEMBER 11, 1952.

Notice is given that the plat of original survey of the following described lands, accepted May 13, 1952, will be officially filed in the Land Office, Anchorage, Alaska, effective at 10:00 a. m. on the 35th day after the date of this notice:

U. S. SURVEY NO. 3100

Spruce Cape Small Tract Group embracing Lots 1 to 21, inclusive, the area containing 34.35 acres, latitude 57°48'13" N., longitude 152°21'30" W., at Corner No. 1

The lands are included in the withdrawal made by Executive Order No. 8344, of February 10, 1940, temporarily

withdrawing the lands from settlement, location, sale or entry, for classification and in aid of legislation.

Anyone having a settlement or other right to any of these lands initiated prior to the date of the withdrawal of the lands should assert the same within three months from the date on which the plat is officially filed by filing application under the appropriate public land law, setting forth all facts relative thereto.

VIRGIL O. SEISER,
Manager.

ALASKA

SMALL TRACT CLASSIFICATION NO. 64

SEPTEMBER 11, 1952.

Pursuant to the authority delegated to me by the Director, Bureau of Land Management, under section 2.21 of Order No. 427 approved by the Secretary of the Interior August 16, 1950 (15 F. R. 5641), I hereby classify as hereinafter indicated under the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, the following described public lands in the Anchorage, Alaska, Land District embracing approximately 51.22 acres:

FOR LEASING AND SALE

FOR CABIN SITES

Seward Meridian

T. 17 N., R. 4 W.,
Sec. 35: Lots 37, 38.

The land above described is included in the homestead entry of Gordon L. Kukowski, Anchorage 022372.

This order shall not become effective to change the status of such land or to permit the leasing thereof under the Small Tract Act of June 1, 1938, cited above, except upon the failure of the homestead entry Anchorage 022372 mentioned above. In the event of the failure of said entry, the land will then become available for filings under the Small Tract Act, after due notice to be given by publication, subject to the preference right of veterans of World War II, accorded by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. sec. 279), and other qualified persons entitled to credit for service under the said act.

LOWELL M. PUCKETT,
Regional Administrator.

[Misc. 56089]

CERTAIN STATES

REVOKING CERTAIN WITHDRAWALS FOR FOREST ADMINISTRATIVE SITES OR FOR PROPOSED NATIONAL MONUMENT

SEPTEMBER 12, 1952.

Pursuant to requests of the Department of Agriculture and in accordance with Departmental Order No. 2583 section 2.22 (a) of August 16, 1950 (15 F. R. 5643), it is ordered as follows:

1. The departmental orders hereinafter listed, withdrawing certain lands within national forests for use by the Forest Service, Department of Agriculture, as administrative sites, are hereby revoked so far as they affect the following-described public lands:

Date of Order, Administrative Site, and Lands

ARIZONA

GILA AND SALT RIVER MERIDIAN

September 23, 1907; Allen Lake Ranger Station; T. 24 N., R. 3 E., sec. 9, SE¼, containing 160 acres.

October 26, 1906, as amended April 14, 1920; Ranger Station No. 7 (Maine Administrative Site); T. 22 N., R. 4 E., sec. 28, N½NE¼SE¼NE¼, W½SE¼NE¼, N½NE¼, SW¼NE¼, and NW¼, containing 305 acres.

April 15, 1908, Moqui Administrative Site; T. 28 N., R. 5 E., sec. 29, W½NE¼, E½NW¼, and E½W½NW¼, containing 200 acres.

The above-described lands are within the Kaibab National Forest.

September 23, 1907, as amended April 5, 1913, and October 14, 1919; Munds Park Ranger Station; T. 18 N., R. 7 E., sec. 17, lots 1, 3, and 6, and parts of lots 2, 4, and 5, containing 165.10 acres.

The above-described land is within the Coconino National Forest.

CALIFORNIA

SAN BERNARDINO MERIDIAN

October 3, 1908; Mendenhall Valley Administrative Site; T. 10 S., R. 1 E., sec. 1, SE¼SW¼, containing 40 acres.

The above-described land is within the Cleveland National Forest, and reserved from location or entry under the mining laws by the act of May 31, 1938 (52 Stat. 587).

COLORADO

SIXTH PRINCIPAL MERIDIAN

June 30, 1908; Rollinsville Administrative Site; T. 1 S., R. 73 W., sec. 33, SW¼SE¼NW¼NE¼, W½SE¼SE¼NW¼NE¼, S½SW¼NW¼NE¼, N½SW¼NE¼, SE¼SW¼NE¼, E½SW¼SW¼NE¼, W½SW¼SW¼SE¼NE¼, S½N½SE¼NE¼NW¼, S½SE¼NE¼NW¼, and NE¼SE¼NW¼, containing 62.50 acres.

The above-described land is within the Roosevelt National Forest and reserved as a part of the Rollinsville Ranger Station by Public Land Order No. 725 of June 4, 1951.

MONTANA

PRINCIPAL MERIDIAN

November 5, 1907; Fleecer Administrative Site; T. 1 N., R. 9 W., sec. 8, S½NE¼, containing 80 acres.

The above-described land is within the Deerlodge National Forest and reserved as a part of the Fleecer Administrative Site by Public Land Order No. 725 of June 4, 1951.

UTAH

SALT LAKE MERIDIAN

July 17, 1908; Verdure Ranger Station; T. 34 S., R. 23 E., sec. 27, S½SE¼; sec. 34, N½NE¼, containing 160 acres.

The above-described land is within the Manti-La Sal National Forest.

2. The order of the Acting Commissioner of the General Land Office approved by the Acting Secretary of the Interior on July 16, 1907, which withdrew the following-described lands in New Mexico, upon the recommendation of the Acting Secretary of Agriculture, for the proposed Lady Magdalena National Monument, is hereby revoked:

NEW MEXICO PRINCIPAL MERIDIAN

T. 2 S., R. 4 W.,
Sec. 34, SW¼NE¼, SE¼NW¼, E½SW¼, and W½SE¼.

The areas described, aggregating 240 acres of public land, are within the Cibola National Forest. The SW¼NE¼, SE¼NW¼, NE¼SW¼, and NW¼SE¼ are reserved as a part of the Magdalena Ranger Station Pasture by Public Land Order No. 725 of June 4, 1951.

This order shall become effective at 10:00 a. m. on the 35th day after the date hereof.

WILLIAM ZIMMERMAN, JR.,
Acting Director.

[F. R. Doc. 52-10146; Filed, Sept. 17, 1952; 8:46 a. m.]

DEPARTMENT OF COMMERCE

Office of International Trade

[Case No. 135]

BRITISH MERCANTILE CO., LTD., ET AL.

ORDER DENYING LICENSE PRIVILEGES

In the matter of British Mercantile Co., Ltd., Melvin C. Lubar, Mary Andre Gonzalez Lubar, 640 Riverside Drive, New York, New York; David M. Silverberg, 880 West 180th Street, New York, New York; Brelan Material Corp., 38 Rock Street; Jersey City, New Jersey; Davern Sales Corp., 1472 Broadway, New York, New York; respondents; Case No. 135.

This proceeding was instituted on April 24, 1952, by a charging letter issued by the Director, Investigation Staff, Office of International Trade, to the respondents named above and duly served upon them. Said respondents were therein charged with having violated the Export Control Act of 1949 (63 Stat. 7) as amended, and the regulations thereunder, as amended, in that said respondents made and caused to be made false representations and statements on thirty-six (36) separate shipper's export declarations and related bills of lading for the purpose of effecting the exportation of large quantities of materials from the United States to diverse consignees in various cities in India between February 28 and April 16, 1951. The letter charged that respondents knew and intended at the time such representations were made on such export control documents that the commodity in each instance was not virgin polystyrene and polystyrene powder as stated thereon but ground and scrap plastics.

The charging letter further alleged that in connection with certain of the aforesaid exportations, and based thereon, the Grand Jury for the United States District Court, Southern District of New York, on August 9, 1951, issued a nineteen (19)-count indictment charging these respondents with having made false representations affecting said exportations and with having otherwise violated specific Federal statutes relating to export control. It was further alleged in said charging letter that on November 7, 1951, respondents Melvin C. Lubar, Mary Andre Gonzalez Lubar (hereinafter referred to as Mary Lubar), and British Mercantile Co., Ltd., pleaded guilty to all nineteen (19) counts of said indictment and that sentences were imposed by the Court on November 16, 1951, and December 14, 1951.

The records of the United States District Court for the Southern District of New York show that respondent Melvin C. Lubar was sentenced to five (5) years' imprisonment and respondent Mary Lubar to two (2) years' imprisonment and in each case imposition of sentence was suspended and respondents placed on probation; respondent British Mercantile Co., Ltd., was fined and payment of fine remitted. These respondents were directed by the Court to make restitution, and did make partial restitution to the Indian consignees defrauded by the transactions. As a further condition of probation, respondent Mary Lubar was ordered by the Court to stay out of the export business.

Respondent David M. Silverberg, individually and as an officer of Brelan Material Corp. and Davern Sales Corp., pleaded "not guilty" to the charges contained in the indictment and is presently free on bail and is awaiting trial.

Respondents Melvin C. Lubar, Mary Lubar, and British Mercantile Co., Ltd., after receiving the charging letter as aforesaid, conferred through their counsel and in person with officials of the Office of International Trade and with the Compliance Commissioner. Thereafter, respondents submitted to the Office of International Trade with the advice of and through counsel a statement dated June 11, 1952, amended August 14, 1952, in which they admitted for the purpose of this compliance proceeding only the charges in said charging letter, waived all rights to a hearing thereon, and consented to the entry of an order denying to them all export privileges until December 15, 1953, and suspending the operation of the order for a period of three (3) years thereafter under terms set forth below.

Respondents David M. Silverberg, Brelan Material Corp., and Davern Sales Corp. did not answer or otherwise contest the charges made against them in said charging letter and, in accordance with the provisions of § 382.4 of the regulations, the evidence against said respondents was presented to the Compliance Commissioner at a regularly scheduled hearing held before him at Washington, D. C., on August 6, 1952. Said respondents did not appear at the hearing and were not represented by counsel.

The Compliance Commissioner has received and reviewed the aforesaid proposal, as amended, for a consent order submitted by respondents Melvin C. Lubar, Mary Lubar, and British Mercantile Co., Ltd., and has informally reviewed the evidence presented by the Investigation Staff in support of the charges against them. The Compliance Commissioner has submitted a report in which he has found that the charges applicable to respondents Melvin C. Lubar, Mary Lubar, and British Mercantile Co., Ltd., are substantiated by the evidence and has concluded that the terms and conditions of the proposed order as consented to by respondents are fair and reasonable and should be approved. He has also reviewed and considered the oral and documentary evidence presented by counsel for the Investigation Staff in support of the charges against respondents David M. Silverberg, Brelan Material Corp., and Davern Sales Corp. On the basis thereof, on the evidence so received, and on the entire record, the Compliance Commissioner has duly filed his report.

It appears from the Compliance Commissioner's reports that respondents Melvin C. and Mary Lubar at all the times relevant to this proceeding were, and are, the principals of respondent British Mercantile Co., Ltd., a domestic corporation engaged in exports. In December 1950, said respondents circularized prospective purchasers in India offering large quantities of virgin polystyrene, Monsanto grade, in various colors. On the basis of this circularization, British Mercantile Co., Ltd., received orders for this commodity from twenty-nine (29) different Indian consignees and letters of credit for $147,530.60 in payment therefor. Because virgin polystyrene was no longer available on the market when such orders arrived, these respondents contrived to defraud the Indian consignees by exporting alleged substitutes in place of polystyrene. In order to avoid possible civil action by the consignees, the Lubars got David M. Silverberg, a friend of Melvin C. Lubar, to form Brelan Material Corp. and Davern Sales Corp. for the ostensible purpose of "selling" the material to British Mercantile Co., Ltd., to be exported to India. It was to appear that British Mercantile Co., Ltd., had legitimately purchased polystyrene from Brelan Material Corp. and Davern Sales Corp., thereby making it appear that British Mercantile Co., Ltd., was blameless and that the fraudulent substitution was chargeable to Brelan Material Corp. and Davern Sales Corp. Although these corporations were duly constituted corporations formed under the laws of New Jersey and New York, respectively, they had no substance, were mere names used by respondents to camouflage their real purposes, and were mere "mail drops" in selected locations. Purchases of ground plexiglas, lucite and other scrap materials were made from various dealers in the names of Brelan Material Corp. and Davern Sales Corp. by Mary Lubar and David M. Silverberg, and, in addition, Mary Lubar purchased from a dealer in New York City an alleged substitute for polystyrene which turned out to be ground phonograph records and other worthless trash. Payments to such dealers for the commodities so acquired were made by checks signed by David M. Silverberg as an officer of Brelan Material Corp. and/or Davern Sales Corp., which thereupon "sold" the materials to British Mercantile Co., Ltd., and the materials were exported by these respondents to the Indian consignees in five (5) separate shipments and on five (5) different vessels between February 28 and April 16, 1951. Respondents made and caused to be made false representations and statements on each of the thirty-six (36) shipper's export declarations authenticated by the Collector of Customs and on each of the related bills of lading effecting such exportations that the materials so exported were polystyrene powder and virgin polystyrene, respectively.

In his reports, the Compliance Commissioner has held that David M. Silverberg was an accomplice of Melvin C. and Mary Lubar in the fraud perpetrated upon the Indian consignees and was an active participant therein, although playing a lesser role in its concept and consummation than the dominant role of the Lubars. The Compliance Commissioner has further held that respondents knowingly made and caused to be made the false representations on the shipper's export declarations and related bills of lading for the purpose of effecting the exportations from the United States and that said respondents were therefore guilty of the charges as stated in the aforesaid charging letter.

While the Compliance Commissioner has properly found, and his reports show, that these respondents knowingly committed a fraud upon the Indian purchasers and demonstrated a degree of untrustworthiness in export matters that would call for a long term denial of export privileges, he has pointed out certain extenuating factors applicable to these respondents which warrant the consideration of a lesser period of time. Among these factors are their loss of reputation and of their business by the criminal sentences imposed upon Melvin C. and Mary Lubar, and their restitution to the Indian consignees to the limit of their capabilities.

The Compliance Commissioner has also taken cognizance that the Lubars and British Mercantile Co., Ltd., have been barred from engaging in any export operations since June 5, 1951, by the issuance of a temporary denial order against them and that David M. Silverberg, Brelan Material Corp., and Davern Sales Corp. have likewise been enjoined from export operations since August 3, 1951.

With respect to respondents Melvin C. and Mary Lubar and British Mercantile Co., Ltd., the findings and recommendations of the Compliance Commissioner have been carefully considered, together with the charging letter, the evidentiary material, and the proposals for a consent order. It appears that such findings and recommendations are in accordance with the evidence and that such recommendations are reasonable and should be adopted.

With respect to respondents David M. Silverberg, Brelan Material Corp., and Davern Sales Corp., the report of the Compliance Commissioner, the findings and recommendations contained therein, as well as the record in this matter have been carefully considered and it appears that said report and findings are supported by the evidence and that such recommendations are fair and reasonable and should be adopted.

Now, therefore, it is ordered as follows:

(1) Respondents Melvin C. Lubar, Mary Andre Gonzalez Lubar, British Mercantile Co., Ltd., David M. Silverberg, Brelan Material Corp., and Davern Sales Corp., and each and all of them, are hereby denied the privileges of participating directly or indirectly in any manner or capacity in the exportation of any commodity from the United States to any foreign destination, including Canada. Without limitation of the generality of the foregoing, participation in an exportation is deemed to include and prohibit the participation by said respondents, or any of them, (a) as a party or as a representative of a party to any validated export license application, (b) in the obtaining or using of validated export licenses or general licenses and any export control documents relating thereto, (c) in the receiving in any foreign country of any exportation from the United States, and (d) in the financing, forwarding, transporting, or other servicing of exports from the United States.

(2) Such denial of export privileges shall extend not only to the named respondents, and each of them, but also to M. G. Andre, Incorporated, and Boston Trading Company (two companies owned by the Lubars), and Materials Inspection Company (a Silverberg firm), and to any person, firm, corporation, or other business organization with which said respondents or any of them may be now or hereafter related by ownership, control, position of responsibility, or other connection in the conduct of trade involving exports from the United States or services connected therewith.

(3) This order shall extend until December 15, 1956, or until the expiration of export controls, whichever occurs first: *Provided, however,* The denial of export privileges with respect to each and all of said respondents as stated herein shall be held in abeyance and all export privileges restored to said respondents on and after December 15, 1953, subject to the following conditions: If said respondents or any of them shall at any time until December 15, 1953, or within the three (3) years ensuing immediately thereafter, knowingly violate any of the provisions of this order or any of the provisions of the United States export control law or regulations now or hereafter issued thereunder, the Office of International Trade may summarily, at such time as it determines such violation has occurred, issue a supplemental order making immediately operative as to each and all of said respondents the denial of export privileges provided in this order, for a further term of three (3) years, or until the expiration of export controls, whichever occurs first, beginning as of the date of such supplemental order, without thereby precluding the Office of International Trade from instituting any other and further action it may deem appropriate based on such violation.

(4) No person, firm, corporation, or other business organization shall knowingly apply for or obtain any license, shipper's export declaration, bill of lading, or other export control document relating to any exportation from the United States under validated and general licenses, or otherwise, to or for the named respondents or any of them, or any person, firm, corporation, or other business organization covered by paragraph (2) hereinabove, without prior disclosure of such facts to, and specific authorization from, the Office of International Trade.

(5) This order supersedes and cancels the Office of International Trade temporary denial order of August 3, 1951, applicable to the named respondents and each of them.

Dated: September 12, 1952.

JOHN C. BORTON,
Assistant Director for Export Supply.

R. 12043, and June 2, 1952; 17 F. R. 3818).

Alabama Textile Products Corp., Crestview, Fla., effective 9-8-52 to 9-7-53; 10 percent of the productive factory force (men's pajamas).

Capitol City Manufacturing Co., 925 Huger Street, Columbia, S. C., effective 9-4-52 to 9-3-53; 10 percent of the productive factory force (cotton dresses).

E. R. Partridge, Inc., 157½ Pryor Street SW., Atlanta, Ga., effective 9-4-52 to 12-3-52; one learner (men's work clothing).

Prairie Manufacturing Co., 106 Washington Avenue, East Prairie, Mo., effective 9-8-52 to 9-7-53; 10 percent of the productive factory force (pants).

Primo Pants Co., Versailles, Mo., effective 9-2-52 to 3-1-53; 50 learners for expansion purposes (men's and boys' pants).

The Puritan Sportswear Corp., 813 Twenty-fifth Street, Altoona, Pa., effective 9-8-52 to 3-7-53; 40 learners for expansion purposes (men's play shirts).

Shirtcraft Co., Inc., West Lurgan Street, Shippensburg, Pa., effective 9-5-52 to 9-4-53; 10 percent of the productive factory force (men's dress and sport shirts).

Glove Industry Learner Regulations (29 CFR 522.220 to 522.231, as amended October 26, 1950; 15 F. R. 6838).

Advance Glove Manufacturing Co., 1700 Maple Street, Rome, Ga., effective 9-9-52 to 9-8-53; 10 percent of the productive factory workers engaged in the learner occupations (cotton and leather palm work gloves).

Wells Lamont Corp., Elsberry, Mo., effective 9-9-52 to 9-8-53; 10 percent of the productive factory workers engaged in the learner occupations (leather work gloves).

Wells Lamont Corp., Waynesboro, Miss., effective 9-8-52 to 2-24-53; 15 learners for expansion purposes (supplemental certificate) (leather palm work gloves).

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.51, as revised November 19, 1951; 16 F. R. 10733).

Ashburn Hosiery Mills, South Street, Mount Airy, N. C., effective 9-5-52 to 3-4-53; 30 learners for expansion purposes.

Commonwealth Hosiery Mills, Randleman, N. C., effective 9-15-52 to 9-14-53; 5 percent of the productive factory force.

Hamilton Hosiery Finishers, Inc., 315 Morning Glory Avenue, Durham, N. C., effective 9-9-52 to 9-8-53; 5 percent of the productive factory force.

Hoburt Hosiery Corp., Denton, N. C., effective 9-5-52 to 9-4-53; five learners.

Holston Manufacturing Co., Ninth Avenue and Mitchell Street, Knoxville, Tenn., effective 9-5-52 to 3-4-53; 15 learners for expansion purposes.

Industrial Hosiery Mills, Inc., 424 Guilford Street, Lebanon, Pa., effective 9-5-52 to 9-4-53; five learners.

Liberty Hosiery Mills, Inc., Gibsonville, N. C., effective 9-21-52 to 9-20-53; 5 percent of the productive factory force.

Wee-Sox Hosiery Mills, Inc., Randleman, N. C., effective 9-24-52 to 9-23-53; 5 percent of the productive factory force.

Independent Telephone Industry Learner Regulations (29 CFR 522.82 to 522.93, as amended January 25, 1950; 15 F. R. 398).

Union Grove Telephone Co., Union Grove, Wis., effective 9-8-52 to 9-7-53.

Knitted Wear Industry Learner Regulations, (29 CFR 522.68 to 522.79, as amended January 21, 1952; 16 F. R. 12866).

Seamprufe, Inc., Holdenville, Okla., effective 9-6-52 to 3-5-53; 75 learners for expansion purposes (slips and nightgowns).

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.14).

Palm Beach Co., 522 West Baxter Avenue, Knoxville, Tenn., effective 9-5-52 to 9-4-53; 7 percent of the productive factory force; machine operating, pressing, handsewing; each 480 hours; 60 cents per hour for the first 240 hours and 65 cents per hour for the remaining 240 hours (men's summer clothing, coats and pants).

The following special learner certificates were issued to the school-operated industries listed below:

Adelphian Academy, Holly, Mich., effective 9-1-52 to 8-31-53; woodwork shop—machine operator, assembler and related skilled and semiskilled occupations including incidental clerical work in the shop; 40 learners; 250 hours at 55 cents per hour, 250 hours at 60 cents per hour, 250 hours at 70 cents per hour.

Atlantic Union College, South Lancaster, Mass., effective 9-1-52 to 8-31-53; print shop—compositor, pressman, bindery worker and related skilled and semiskilled occupations; 28 learners; 350 hours at 55 cents per hour, 325 hours at 60 cents per hour, 325 hours at 70 cents per hour; bookbindery—bookbinder, bindery worker and related skilled and semiskilled occupations; 32 learners; 200 hours at 55 cents per hour, 200 hours at 60 cents per hour, 200 hours at 70 cents per hour; clerical—bookkeeper, cashier and related skilled and semiskilled occupations; 2 learners; 200 hours at 55 cents per hour, 200 hours at 60 cents per hour, 200 hours at 70 cents per hour.

Pacific Union College, Angwin, Napa County, Calif., effective 9-1-52 to 8-31-53; print shop—pressman, compositor, lithographer, bindery worker, related skilled and semiskilled occupations including clerical work in the shop; 12 learners; 350 hours at 55 cents per hour, 325 hours at 60 cents per hour, 325 hours at 70 cents per hour, unless higher standards are established by State law; bookbindery—bookbinder, including sewer, gold stamper, trimmer and backer, cutter, case-maker and related skilled and semiskilled occupations; 8 learners; 200 hours at 55 cents per hour, 200 hours at 60 cents per hour, 200 hours at 70 cents per hour, unless higher standards are established by State law; lamp shade shop—covering frame with fabric (hand skill) and related skilled and semiskilled occupations including incidental clerical work in shop; 12 learners; 100 hours at 55 cents per hour, 50 hours at 60 cents per hour, 50 hours at 70 cents per hour, unless higher standards are established by State law.

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 9th day of September 1952.

MILTON BROOKE,
Authorized Representative of the Administrator.

FEDERAL POWER COMMISSION

[Docket No. E-6446]

GLACIER COUNTY ELECTRIC COOPERATIVE, INC., AND MARIAS RIVER ELECTRIC COOPERATIVE, INC.

NOTICE OF APPLICATION FOR AUTHORIZATION TO EXPORT ELECTRIC ENERGY

SEPTEMBER 11, 1952.

Notice is hereby given that pursuant to the provisions of section 202 (e) of the Federal Power Act (16 U. S. C. 824a), Glacier County Electric Cooperative, Inc., a rural electric cooperative operating in Glacier County, Montana, on July 28, 1952, filed with the Federal Power Commission an application, for authorization by the Commission to transmit electric energy to Canada, to serve the office buildings and residences of National Revenue, Customs and Excise Division, Canadian Government at Carway and Del Bonita, Alberta, Canada, from points on the international boundary between the United States and Canada, in Glacier County, Montana, opposite thereto in quantities not in excess of 84,000 kilowatt hours at a rate of 25 kilowatts and 36,000 kilowatt hours at a rate of 15 kilowatts annually, respectively.

On September 8, 1952, Marias River Electric Cooperative, Inc., from which Glacier County Electric Cooperative, Inc., purchases the electric energy proposed to be transmitted to Canada filed its joinder in the application heretofore filed July 28, 1952.

Any person desiring to be heard or to make any protest with reference to the application should, on or before October 1, 1952, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[Docket No. G-1781]

UNITED FUEL GAS CO.

ORDER FIXING DATE OF HEARING AND SPECIFYING PROCEDURE

SEPTEMBER 11, 1952.

The Commission, by order issued September 4, 1951, suspended the operation of United Fuel Gas Company's proposed FPC Gas Tariff, Second Revised Volume No. 1; and directed that a hearing be held at a date and place to be fixed thereafter concerning the lawfulness of the rates, charges, classifications or services, subject to the jurisdiction of the Commission, as set forth in said tariff.

The Commission finds:

(1) The public hearing in this proceeding should be held at the time and place hereinafter designated.

(2) It is necessary and appropriate to carry out the provisions of the Natural Gas Act, and it is in the public interest, that the procedure hereinafter prescribed shall be followed at the hearing in order to conduct this proceeding with reasonable dispatch.

The Commission orders:

(A) A public hearing be held commencing on September 29, 1952, at 10:00 a. m. in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, NW., Washington, D. C., concerning the lawfulness of the rates, charges, classifications or services, subject to the jurisdiction of the Commission, as set forth in United Fuel's proposed FPC Gas Tariff, Second Revised Volume No. 1.

(B) At the hearing the burden of proof to justify the proposed increase and changes in tariff provisions, as provided by section 4 (e) of the Natural Gas Act, shall be upon United Fuel.

(C) At the hearing United Fuel shall go forward first and shall present its complete case-in-chief before cross-ex-

amination is undertaken. Upon completion of United Fuel's case-in-chief, other parties to the proceeding may proceed with such cross-examination as they may wish to conduct at that time and, upon completion of such cross-examination, upon request of any of the parties thereto, the hearing shall be recessed by the Presiding Examiner subject to further order of the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: September 12, 1952.

By the Commission.

[Docket No. G-1955]

TRANSCONTINENTAL GAS PIPE LINE CORP. AND TEXAS EASTERN TRANSMISSION CORP.

ORDER DENYING REQUEST FOR SHORTENED PROCEDURE AND FIXING DATE OF HEARING

SEPTEMBER 9, 1952.

On May 9, 1952, Transcontinental Gas Pipe Line Corporation (Transcontinental) and Texas Eastern Transmission Corporation (Texas Eastern), Delaware corporations having principal business offices in Houston, Texas, and Shreveport, Louisiana, respectively, filed a joint application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of metering facilities and the necessary pipe to interconnect the 20-inch Marcus-Hook lateral of Transcontinental and the 20-inch South lateral of Texas Eastern near Philadelphia, Pennsylvania. Such facilities will be utilized for the delivery of natural gas to Texas Eastern, which company in turn will deliver equivalent volumes of natural gas to the East Ohio Gas Company, New York State Natural Gas Corporation, the Peoples Natural Gas Company, United Natural Gas Company and the Indiana Gas & Water Company.

Temporary authorization to construct and operate the above facilities for the delivery and sale of natural gas to the above-named companies was granted on May 15, 1952. On the same date the Commission adopted an order allowing certain rate schedules to take effect relating to said sales.

Due notice of the filing of such application was given, including publication in the FEDERAL REGISTER on May 23, 1952 (17 F. R. 4728).

Transcontinental and Texas Eastern have requested that their joint application be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)).

The Commission finds:

(1) Good cause has not been shown for granting the request of Transcontinental and Texas Eastern that their application be heard under the shortened procedure as provided by the Commission's rules of practice and procedure, and said request should be denied as hereinafter ordered.

(2) It is reasonable and in the public interest and good cause exists for fixing the date of hearing in the proceeding in Docket No. G-1955 less than 15 days after publication of this order in the FEDERAL REGISTER.

The Commission orders:

(A) The request of Transcontinental and Texas Eastern that their joint application in Docket No. G-1955 be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)) be and the same is hereby denied.

(B) Pursuant to authority contained in and by virtue of the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a public hearing be held commencing on September 23, 1952, at 10:00 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, NW., Washington, D. C., concerning the matters involved and the issues presented by the application.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: September 11, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 52-10151; Filed, Sept. 17, 1952; 8:49 a. m.]

[Docket No. G-1962]

EL PASO NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

SEPTEMBER 9, 1952.

On May 27, 1952, El Paso Natural Gas Company (Applicant), a Delaware corporation having its principal place of business at El Paso, Texas, filed an application and, on July 9, 1952, a supplement to that application, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain natural gas transmission facilities, subject to the jurisdiction of the Commission, as described in the application on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on September 23, 1952, at 9:45 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pensylvania Avenue, NW., Washington, D. C., concerning the matters involved and the issues presented by such application as supplemented: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: September 11, 1952.

By the Commission.

[Docket No. G-2021]

PUBLIC SERVICE ELECTRIC AND GAS CO.

ORDER FIXING DATE OF HEARING

SEPTEMBER 11, 1952.

On August 1, 1952, Public Service Electric and Gas Company (Applicant), a New Jersey corporation having its principal place of business at Newark, New Jersey, filed an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain natural gas transmission facilities, subject to the jurisdiction of the Commission, as described in the application on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest, or petition to intervene having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on August 15, 1952 (17 F. R. 7440).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on September 30, 1952, at 9:45 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: September 11, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 52-10160; Filed, Sept. 17, 1952; 8:48 a. m.]

[Docket No. G-2032]

TEXAS GAS TRANSMISSION CORP.

NOTICE OF APPLICATION

SEPTEMBER 11, 1952.

Take notice that Texas Gas Transmission Corporation (Applicant), a Delaware corporation having its principal place of business at 416 West Third Street, Owensboro, Kentucky, filed on August 18, 1952, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of 21 miles of 6⅝-inch pipeline looping certain of Applicant's existing pipeline facilities as hereinafter described.

Applicant proposes to construct and operate (1) a 6⅝-inch pipeline, 13.5 miles in length, including a river crossing under the Wabash River approximately 800 feet in length, extending from Applicant's Oaktown, Indiana, compressor station to a point approximately 3 miles from Robinson, Illinois, and adjacent to Applicant's existing 4-inch pipeline; and (2) a 6⅝-inch pipeline, 7.5 miles in length, starting from a point near Lawrenceville, Illinois, and extending in a northeasterly direction toward Applicant's Oaktown, Indiana, compressor station, and adjacent to Applicant's existing 4-inch pipeline. Applicant estimates the cost of the facilities at $424,475, and proposes to accomplish the financing out of funds on hand.

Applicant states that this application was filed in compliance with the condition contained in subparagraph (B) (6) of the order issued July 25, 1952, in Docket No. G-1847, and accompanying Commission Opinion No. 232, which required that Applicant obtain authority for loop lines to Robinson and Lawrenceville, Illinois, in order to transport the maximum volumes of natural gas specified in subparagraph (B) (1) of said order.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 1st day of October 1952. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 52-10159; Filed, Sept. 17, 1952; 8:51 a. m.]

[Docket No. G-2038]

CITIES SERVICE GAS CO.

NOTICE OF APPLICATION

SEPTEMBER 11, 1952.

Take notice that on September 2, 1952, Cities Service Gas Company (Applicant), a Delaware corporation with its principal place of business in Oklahoma City, Oklahoma, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to construct and operate the following described gas facilities:

1. Three 1,600 hp. compressor units at Applicant's existing Greensburg Compressor Station located in Section 23, Township 27 South, Range 18 West, Kiowa County, Kansas.

2. Six 1,100 hp. compressor units at a compressor station in Section 8, Township 22 South, Range 1 West, Harvey County, Kansas, to be known as Applicant's Hesston Compressor Station.

The application recites that the addition of three 1,600 hp. units will (a) increase the capacity of Applicant's 26-inch line from the Kansas-Hugeton gas field to Kansas City, Missouri, by 56,000 Mcf daily, (b) and the construction and operation of six 1,100 hp. compressor units at the proposed Hesston Compressor Station is required to complete the capacity increase of Applicant's 26-inch line from Kansas-Hugeton gas field to Kansas City, Missouri and make available the increased quantities of gas referred to above. Applicant states the increased supply of gas is needed to meet additional peak-day requirements, and that with the proposed facilities, curtailments on its system would be reduced to 585,332 Mcf, enabling all firm demands, and 15,176 Mcf of curtailable industrial demand to be served.

The estimated over-all capital cost of the proposed facilities is $2,781,000 and will be defrayed from funds available under an existing credit agreement negotiated in April 1952.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10) on or before the 1st day of October 1952. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 52-10160; Filed, Sept. 17, 1952; 8:51 a. m.]

[Docket No. G-2051]

HOPE NATURAL GAS CO.

ORDER SUSPENDING PROPOSED RATE SCHEDULES AND PROVIDING FOR HEARING

SEPTEMBER 11, 1952.

On August 15, 1952, Hope Natural Gas Company (Hope), pursuant to Part 154 of the Commission's general rules and regulations, filed with the Commission proposed Sixth Revised Sheet No. 3, Fourth Revised Sheet No. 3-A, Fifth Revised Sheet No. 4, Fourth Revised Sheet No. 4-A and Second Revised Sheet No. 5, respectively, to its FPC Gas Tariff, Original Volume No. 1, setting forth therein its proposed Rate Schedules H-1A, H-1B, H-2A, H-2B and H-3, respectively; and requested that such proposed rate schedules be permitted to become effective as of September 15, 1952.

The proposed rate schedules would increase the presently effective rates and charges to Hope's six interstate wholesale customers; namely, the Manufacturers Light and Heat Company (Manufacturers), Mount Morris Gas Company (Mount Morris), the Peoples Natural Gas Company (Peoples), the East Ohio Gas Company (East Ohio), New York State Natural Gas Corporation (New York Natural), and the River Gas Company (River Gas).

Copies of the proposed rate schedules, together with copies of material submitted by Hope to this Commission pursuant to § 154.63 of the Commission's general rules and regulations (18 CFR 154.63), were transmitted by Hope to each of its said interstate wholesale customers. Peoples, East Ohio, New York Natural and River Gas are affiliates of Hope in the Consolidated Natural Gas Company system.

According to Hope's estimatees, the proposed rate schedules would increase the presently effective rates and charges for the interstate sales by a total of $2,334,497 for the year ending September 14, 1953, distributed as follows:

Customer:	*Increase*
Manufacturers	$149,998
Mount Morris	619
Peoples	431,244
East Ohio	1,197,846
New York Natural	519,612
River Gas	35,178
Total	2,334,497

Hope avers that the proposed increased rates are necessitated by reason of a proposed rate increase of Tennessee Gas Transmission Company, which supplies natural gas to Hope, which in-

crease has not taken effect but has been suspended by the Commission by order of even date herewith.

The rates, charges and classifications set forth in Sixth Revised Sheet No. 3, Fourth Revised Sheet No. 3–A, Fifth Revised Sheet No. 4, Fourth Revised Sheet No. 4–A and Second Revised Sheet No. 5 to Hope's FPC Gas Tariff, Original Volume No. 1, comprising the proposed new Rate Schedules H–1A, H–1B, H–2A, H–2B and H–3 may be unjust, unreasonable, unduly discriminatory and preferential, and may place an undue burden upon the ultimate consumers of the natural gas.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to section 4 of the Natural Gas Act, concerning the lawfulness of the rates, charges and classifications set forth in Hope Natural Gas Company's Sixth Revised Sheet No. 3, Fourth Revised Sheet No. 3–A, Fifth Revised Sheet No. 4, Fourth Revised Sheet No. 4–A and Second Revised Sheet No. 5 to its FPC Gas Tariff, Original Volume No. 1, and that said tariff sheets filed on this proceeding be suspended pending hearing and decision thereon.

The Commission orders:

(A) A public hearing be held at a date and place hereinafter to be fixed by the Commission concerning the lawfulness of the rates, charges and classifications subject to the jurisdiction of the Commission, as set forth in Sixth Revised Sheet No. 3, Fourth Revised Sheet No. 3–A, Fifth Revised Sheet No. 4, Fourth Revised Sheet No. 4–A and Second Revised Sheet No. 5 to FPC Gas Tariff, Original Volume No. 1, filed by Hope Natural Gas Company.

(B) Pending such hearing and decision thereon, said tariff sheets filed in this proceeding by Hope Natural Gas Company on August 15, 1952, be and they hereby are suspended and the use thereof is deferred until February 15, 1953, and until such further time thereafter as such tariff sheets may be made effective in the manner prescribed by the Natural Gas Act.

(C) Interested State commissions may participate as provided by § 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: September 12, 1952.

By the Commission.

[Docket No. G–2052]

TENNESSEE GAS TRANSMISSION CO.

ORDER SUSPENDING PROPOSED RATE SCHEDULES, IN PART AND PROVIDING FOR HEARING

SEPTEMBER 11, 1952.

On August 15, 1952, Tennessee Gas Transmission Company (Tennessee), filed with the Commission proposed rate schedules consisting of tariff sheets contained in Third Revised Volume No. 1 and First Revised Volume No. 2 of its FPC Gas Tariff, designed to supersede Second Revised Volume No. 1 and Original Volume No. 2 of said tariff, to become effective September 15, 1952, whereby Tennessee proposes a system-wide rate increase for the sale for resale and transportation of natural gas in interstate commerce.

According to Tennessee's estimates, the proposed rate schedules would increase the presently effective rates and charges for such sale and transportation by a total of approximately $17,850,000 for the year ending August 31, 1953, distributed among the companies and communities and in the amounts set out in Appendix A hereto.

Tennessee avers that the proposed increased rates are necessitated by reason of claimed increases in cost of gas, labor, services, material and supplies.

Copies of the proposed rate schedules, together with copies of material submitted by Tennessee to this Commission, were transmitted by Tennessee to each of its interstate wholesale customers and transportation service customers and to the State commissions concerned. Many of the State commissions and customer companies have protested the increase and have requested suspension and hearing.

Tennessee's proposed rate schedules include Rate Schedule GS–1 for general service to customers in its Zone 1 having a maximum demand on Tennessee of less than 5,000 Mcf of gas per day. This proposed rate schedule provides for a straight commodity rate of 26.64 cents per Mcf. Such rate is equivalent to the rate proposed to larger customers in that zone at 50 percent load factor. This proposed rate schedule, however, will reduce the rates to several of Tennessee's smaller customers and will increase them to none. It therefore appears appropriate to permit this rate to become effective pending investigation.

The rates, charges and classifications set forth in the rate schedules contained in Third Revised Volume No. 1 and First Revised Volume No. 2 to Tennessee's FPC Gas Tariff, including said Rate Schedule GS–1, may be unjust, unreasonable, unduly discriminatory and preferential, and may place an undue burden upon the ultimate consumers of the natural gas.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to the authority contained in sections 4 and 5 of the Natural Gas Act, concerning the lawfulness of the rates, charges, classifications and services set forth in Third Revised Volume No. 1 and First Revised Volume No. 2 of Tennessee's FPC Gas Tariff; and that pending hearing and decision thereon, said Third Revised Volume No. 1 and First Revised Volume No. 2 of Tennessee's FPC Gas Tariff be suspended, except to the extent that provision is made therein for Rate Schedule GS–1.

The Commission orders:

(A) A public hearing be held at a date and place hereafter to be fixed by the Commission concerning the lawfulness of the rates, charges, classifications and services, subject to the jurisdiction of the Commission, as set forth in Third Revised Volume No. 1 and First Revised Volume No. 2 of FPC Gas Tariff, filed by Tennessee Gas Transmission Company.

(B) If, after hearing, the Commission shall find that any rate, charge, classification, service, rule, regulation or practice set forth in the aforesaid tariff sheets, filed on August 15, 1952, by Tennessee, is unjust, unreasonable, unduly discriminatory or preferential, it will determine and fix by appropriate order just, reasonable and non-discriminatory rates, charges, classifications, services, rules, regulations and practices to be thereafter observed and in force.

(C) Pending such hearing and decision thereon, said Third Revised Volume No. 1 and First Revised Volume No. 2 of Tennessee's FPC Gas Tariff, filed on August 15, 1952, except to the extent that provision is made therein for Rate Schedule GS–1, be and the same hereby are suspended and the use thereof is deferred until February 15, 1953, and until such further time thereafter as such tariff sheets may be made effective in the manner prescribed by the Natural Gas Act.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: September 12, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. G–2053]

COMMONWEALTH NATURAL GAS CO.

ORDER SUSPENDING PROPOSED TARIFF

SEPTEMBER 11, 1952.

On August 15, 1952, Commonwealth Natural Gas Company (Commonwealth) filed with the Commission First Revised Sheets Nos. 5 and 8 and Second Revised Sheet No. 8B of its FPC Gas Tariff, Original Volume No. 1, to supersede corresponding tariff sheets effective March 19, 1952, under bond in Docket No. G–1815, to be effective October 9, 1952.[1]

Said proposed tariff sheets, as filed, would result in an increase in the commodity charge component of the rate for natural-gas service of 4.7 cents per Mcf. There are also proposed changes in the billing adjustment for heat content variation. The proposed increase in charges would result in annual increase payments by Commonwealth's customers amounting to $516,400, which is an increase of about 16 percent based on estimated sales for the year ending August 31, 1953. Commonwealth states that the rate increase is necessitated principally by a proposed increase by Commonwealth's supplier, Virginia Gas Transmission Corporation. Such higher rates of Virginia Gas Transmission Corporation are, however, not presently effective, have not been shown to be fully justified, and are being suspended by order of the Commission issued concurrently with the order herein.

The increased rates and charges provided in said First Revised Sheets Nos. 5 and 8 and Second Revised Sheet No. 8B have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful.

As required by § 154.16 of the Commission's regulations under the Natural Gas Act, a copy of said proposed tariff sheets have been sent to each customer of Commonwealth which would be effected thereby, Petersburg and Hopewell Gas Company, a customer of Commonwealth, has filed objections to the proposed increased charge, and has requested that said tariff sheets be suspended or rejected.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to the authority contained in section 4 of such act, concerning the lawfulness of First Revised Sheets Nos. 5 and 8 and Second Revised Sheet No. 8B of Commonwealth's FPC Gas Tariff, Original Volume No. 1, and that said sheets be suspended as hereinafter provided and the use thereof be deferred pending hearing and decision herein.

The Commission orders:

(A) Pursuant to the authority contained in section 4 of the Natural Gas Act, a public hearing be held upon a date to be fixed by further order of the Commission concerning the lawfulness of rates, charges, and classifications contained in the aforesaid Commonwealth's First Revised Sheets Nos. 5 and 8 and Second Revised Sheet No. 8B.

(B) Pending such hearing and decision thereon, First Revised Sheets Nos. 5 and 8 and Second Revised Sheet No. 8B, of Commonwealth Natural Gas Company's FPC Gas Tariff, Original Volume No. 1 be and the same are hereby suspended and the use thereof deferred until March 9, 1953, and until such further time as such sheets may be made effective in the manner prescribed by the Natural Gas Act.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: September 12, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[1] Commonwealth requested that its filing become effective simultaneously with that of Virginia Gas Transmission Corporation which was accepted for filing on September 8, 1952.

[F. R. Doc. 52–10168; Filed, Sept. 17, 1952; 8:53 a. m.]

[Docket No. G–2054]

ATLANTIC SEABOARD CORP. AND VIRGINIA GAS TRANSMISSION CORP.

ORDER SUSPENDING PROPOSED TARIFFS

SEPTEMBER 11, 1952.

On September 8, 1952, the Atlantic Seaboard Corporation (Atlantic) filed with the Commission its FPC Gas Tariff, Fifth Revised Volume No. 1 and Virginia Gas Transmission Corporation (Virginia) filed its Third Revised Volume No. 1 to supersede their present tariffs effective under bond in Docket No. G–1806.[1]

These proposed tariffs, as filed, would result in an increase in the commodity charge component of the rate for natural-gas service of 4.7 cents per Mcf. The proposed increase in charges would result in annual increased payments by customers of Atlantic and Virginia amounting to about $4,318,000 which is an increase of 14.4 percent based on estimated sales for the year ending August 31, 1953. Atlantic and Virginia state that the rate increase is necessitated principally by the proposed rate increase by their supplier, United Fuel Gas Company. Such higher rates of United Fuel Gas Company are, however, not presently effective, have not been shown to be fully justified, and are being suspended by order of the Commission issued concurrently with the order herein.

The increased rates and charges provided in said Fifth Revised Volume No. 1 and Third Revised Volume No. 1 have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful.

As required by § 154.16 of the Commission's regulations under the Natural Gas Act, copies of said proposed tariffs have been sent to each customer of Atlantic and Virginia which would be affected thereby. All non-affiliated customers have filed protests to the proposed increased charges.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to the authority contained in section 4 of such act, concerning the lawfulness of Atlantic's Fifth Revised Volume No. 1 and Virginia's Third Revised Volume No. 1, and that said tariffs be suspended as hereinafter provided and the use thereof be deferred pending hearing and decision herein.

The Commission orders:

(A) Pursuant to the authority contained in section 4 of the Natural Gas Act, a public hearing be held upon a date to be fixed by further order of the Commission concerning the lawfulness of rates, charges, and classifications contained in the aforesaid tariffs.

(B) Pending such hearing and decision thereon, said Atlantic's FPC Gas Tariff, Fifth Revised Volume No. 1 and Virginia's FPC Gas Tariff, Third Revised Volume No. 1 be and the same are hereby suspended and the use thereof deferred until March 9, 1953, and until such further time as they may be made effective in the manner prescribed by the Natural Gas Act.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: September 12, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[1] Atlantic and Virginia submitted incomplete filings on August 15, 1952. Thereafter, on September 8, 1952 additional information was submitted by the two companies which made their proposed tariffs acceptable for filing pursuant to the Commission's rules and regulations.

[F. R. Doc. 52–10169; Filed, Sept. 17, 1952; 8:53 a. m.]

[Docket No. G–2055]

UNITED FUEL GAS CO.

ORDER SUSPENDING PROPOSED TARIFF

SEPTEMBER 11, 1952.

On August 15, 1952, the United Fuel Gas Company (United Fuel) filed with the Commission its FPC Gas Tariff, Third Revised Volume No. 1, to supersede its present tariff effective under bond in Docket No. G–1781.

Said Third Revised Volume No. 1, as filed, would result in an increase in the commodity charge component of the rate for natural-gas service from 17.25 cents per Mcf to 20.35 cents per Mcf. The proposed increase in charges would result in annual increased payments by United Fuel's customers amounting to $6,974,000, which is an increase of 11.9 percent based on estimated sales for the year ending August 31, 1953. United Fuel states that the rate increase is necessitated principally by the proposed increase by United Fuel's supplier, Tennessee Gas Transmission Company, filed concurrently with that of United Fuel. Such higher rates of Tennessee Gas Transmission Company, are, however, not presently effective, have not been shown to be fully justified, and are being suspended by order of the Commission issued concurrently with the order herein.

The increased rates and charges provided in said Third Revised Volume No. 1 have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful.

As required by § 154.16 of the Commission's regulations under the Natural Gas Act, a copy of said Third Revised Volume No. 1 has been sent to each customer of United Fuel which would be affected thereby, and also to the State Commissions of West Virginia, Kentucky, Pennsylvania and Ohio. The Portsmouth Gas Company, United Fuel's only nonaffiliated customer, has filed objections to the proposed increased charge, and has requested that said Third Revised Volume No. 1 be suspended or rejected.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to the authority contained in section 4 of such act, concerning the lawfulness of United Fuel's FPC Gas Tariff, Third Revised Volume No. 1, and that said Third Revised Volume No. 1 be suspended as hereinafter provided and the use thereof be deferred pending hearing and decision herein.

The Commission orders:

(A) Pursuant to the authority contained in section 4 of the Natural Gas Act, a public hearing be held upon a date to be fixed by further order of the Commission concerning the lawfulness of rates, charges, and classifications contained in the aforesaid United Fuel Gas Company's FPC Gas Tariff, Third Revised Volume No. 1.

(B) Pending such hearing and decision thereon, said United Fuel Gas Company's FPC Gas Tariff, Third Revised Volume No. 1 be and the same is hereby suspended and the use thereof is deferred until February 15, 1953, and until such further time as United Fuel's Third Revised Volume No. 1 may be made effective in the manner prescribed by the Natural Gas Act.

(C) Interested State Commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: September 12, 1952.

By the Commission.

[Docket No. G–2054]

CENTRAL KENTUCKY NATURAL GAS CO.

ORDER SUSPENDING PROPOSED TARIFF

SEPTEMBER 11, 1952.

On August 15, 1952, Central Kentucky Natural Gas Company (Central Kentucky) filed with the Commission its FPC Gas Tariff, Third Revised Volume No. 1 to supersede its present tariff effective under bond in Docket No. G–1791.

Said Third Revised Volume No. 1, as filed, would result in an increase in the commodity charge component of the rate for natural gas sold from 21.0 cents per Mcf to 23.25 cents per Mcf. The proposed increase in charges would result in annual increased payments by Central Kentucky's customers amounting to $1,085,000, which is an increase of 6.7 percent, based on estimated sales for the twelve-month period ending August 31, 1953. Central Kentucky states that the proposed increase is necessitated principally by the proposed increase by Central Kentucky's supplier, United Fuel Gas Company, filed concurrently with that of Central Kentucky. Such higher rates of United Fuel Gas Company are, however, not presently effective, have not been shown to be fully justified, and are being suspended by order of the Commission issued concurrently with the order herein.

The increased rates and charges provided in said Third Revised Volume No. 1 have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful.

As required by § 154.16 of the Commission's regulations under the Natural Gas Act, a copy of said Third Revised Volume No. 1 has been sent to each customer of Central Kentucky which would be affected thereby. Several customers have filed protests and objections to the proposed increase.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to the authority contained in section 4 of such act, concerning the lawfulness of Central Kentucky's FPC Gas Tariff, Third Revised Volume No. 1, and that said Third Revised Volume No. 1 be suspended as hereinafter provided and the use thereof be deferred pending hearing and decision herein.

The Commission orders:

(A) Pursuant to the authority contained in section 4 of the Natural Gas Act, a public hearing be held upon a date to be fixed by further order of the Commission concerning the lawfulness of rates, charges, and classifications contained in the aforesaid Central Kentucky Natural Gas Company's FPC Gas Tariff, Third Revised Volume No. 1.

(B) Pending such hearing and decision thereon, said Central Kentucky Natural Gas Company's FPC Gas Tariff, Third Revised Volume No. 1 be and the same is hereby suspended and the use thereof is deferred until February 15, 1953, and until such further time thereafter as said Third Revised Volume No. 1 may be made effective in the manner prescribed by the Natural Gas Act.

(C) Interested State Commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f) of the Commission's rules of practice and procedure.

Date of issuance: September 12, 1952.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27389]

LIQUEFIED PETROLEUM GAS FROM DAWES, W. VA., TO CENTRAL TERRITORY

APPLICATION FOR RELIEF

SEPTEMBER 15, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: L. C. Schuldt, Agent, for carriers parties to his tariff I. C. C. No. 4446, pursuant to fourth-section order No. 17220.

Commodities involved: Liquified petroleum gas, in tank-car loads.

From: Dawes, W. Va.

To: Points in central territory.

Grounds for relief: Competition with rail carriers and circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

CHEESE AND OLEOMARGARINE BETWEEN POINTS IN SOUTHERN TERRITORY

APPLICATION FOR RELIEF

SEPTEMBER 15, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1331.

Commodities involved: Cheese and oleomargarine, carloads.

Between: Points in southern territory.

Grounds for relief: Rail and motor competition, circuity, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1331.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. MIXED CARLOADS OF MERCHANDISE FROM NORTH ATLANTIC COASTAL CITIES TO LOUISIANA AND FLORIDA

APPLICATION FOR RELIEF

SEPTEMBER 15, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin and I. N. Doe, Agents, for carriers parties to Agent Boin's tariff I. C. C. No. A–936.

Commodities involved: Merchandise, in mixed carloads.

From: Baltimore, Md., Philadelphia, Pa., New York, N. Y., Boston, Mass., and points grouped therewith.

To: Baton Rouge and New Orleans, La., Jacksonville, South Jacksonville, Miami, Tampa, Ocala, and Orlando, Fla.

Grounds for relief: Rail and motor competition, circuity, and grouping.

Schedules filed containing proposed rates: C. W. Boin, Agent, I. C. C. No. A–936, Supp. 6.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. SECURITIES AND EXCHANGE COMMISSION

[File No. 70–2574]

SOUTHERN CO. ET AL.

SUPPLEMENTAL ORDER RELEASING JURISDICTION OVER FEES AND EXPENSES

SEPTEMBER 12, 1952.

In the matter of the Southern Company, Alabama Power Company, Georgia Power Company, Gulf Power Company,

Mississippi Power Company; File No. 70–2574.

The Commission, by orders dated March 21, 1951, and April 3, 1951, having granted and permitted to become effective a joint application-declaration, and amendments thereto, filed pursuant to the act by the Southern Company ("Southern"), a registered holding company, and its four public utility subsidiaries, Alabama Power Company, Georgia Power Company, Gulf Power Company, and Mississippi Power Company, with respect to the issuance and sale by Southern of 1,000,000 shares of $5 par value common stock and the investment of the proceeds, together with treasury funds, in additional shares of the common stocks of the above-named subsidiaries, and the Commission having released jurisdiction over the payment of all fees and expenses in connection therewith, except the payment of the legal fee and expenses of Winthrop, Stimson, Putnam & Roberts, counsel for Southern; and

The record having been completed with respect to the proposed fee and expenses of said counsel in the amounts of $10,000 and $100, respectively; and

It appearing to the Commission that such fee and expenses, in the amounts stated, are not unreasonable and that jurisdiction with respect thereto should be released:

It is ordered, That the jurisdiction heretofore reserved over the payment of the legal fee and expenses of counsel for Southern be, and the same hereby is, released.

By the Commission.

ORDER REGARDING AMENDMENTS TO ARTICLES OF INCORPORATION AND BY-LAWS OF SUBSIDIARY COMPANY AND SOLICITATION OF STOCKHOLDERS

SEPTEMBER 12, 1952.

Standard Gas and Electric Company ("Standard"), a registered holding company, and Oklahoma Gas and Electric Company ("Oklahoma"), a public utility subsidiary of Standard, having filed a declaration and an amendment thereto pursuant to sections 6 (a), 7 and 11 (b) of the act and Rules U-62 and U-65 promulgated thereunder with respect to the following transactions:

It is proposed that the articles of incorporation and the by-laws of Oklahoma be amended in order to bring them into conformity with the standards of the Commission and, in connection with such proposed amendments, Oklahoma proposes to solicit proxies to be used at a special meeting of stockholders to be held on September 30, 1952.

The proposed amendments will:

(1) Set forth the preemptive rights of the holders of the Common Stock and 4 Percent Cumulative Preferred Stock to purchase pro rata any additional stock of the particular class held by them offered for sale for cash prior to any sale of such stock to others;

(2) Provide that Oklahoma shall not merge or sell all or substantially all of its assets without the affirmative vote of a majority of the total voting power of the outstanding shares entitled to vote;

(3) Place limitations on the authority of the Board of Directors of Oklahoma to adopt or alter the by-laws of the company without a stockholder vote;

(4) Redefine the Directors' rights to indemnification by the company; and

(5) Afford a liberalized right to the stockholders to initiate the calling of special meetings.

The amended declaration states that adoption of the amendments to the Amended Articles of Incorporation will require the affirmative vote of a majority of the total voting power of the outstanding shares of 4 percent Cumulative Preferred Stock and Common Stock, and in addition the affirmative vote of the holders of a majority of the outstanding shares of Common Stock by a separate class vote. It is stated that the company will solicit proxies by mail and may also make direct solicitations through its officers and other regular employees of the company. Authority to solicit proxies is not sought in connection with the proposed amendments to the by-laws.

Oklahoma estimates that its total expenses in connection with the proposed transactions will be $5,500, including printing ($1,500), postage ($900), attorneys' fees ($1,800) and miscellaneous ($1,300).

Appropriate notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to the act, and the Commission not having received a request for a hearing with respect to said declaration, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to the declaration, as amended, that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration, as amended, be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration, as amended, be, and the same hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

ECONOMIC STABILIZATION AGENCY

Office of the Administrator

ASSISTANT ECONOMIC STABILIZATION ADMINISTRATOR (OPERATIONS), DEPUTY ASSISTANT ECONOMIC STABILIZATION DIRECTOR, AND GENERAL COUNSEL

DELEGATION OF AUTHORITY TO ACT AS ECONOMIC STABILIZATION ADMINISTRATOR (REVISION 1)

Legal basis. By virtue of the authority vested in the Economic Stabilization Administrator by E. O. 10161 of September 9, 1950 (15 F. R. 6105), as amended; E. O. 10182 of November 21, 1950 (15 F. R. 8013), as amended; E. O. 10205 of January 16, 1951 (16 F. R. 419); E. O. 10233 of April 21, 1951 (16 F. R. 3503); E. O. 10276 of July 31, 1951 (16 F. R. 7535), as amended; E. O. 10281 of August 28, 1951 (16 F. R. 8789); E. O. 10290 of September 24, 1951 (16 F. R. 9795); E. O. 10293 of September 27, 1951 (16 F. R. 9927); and E. O. 10377 of July 25, 1952 (17 F. R. 6891), this revision of previous redelegations of authority by the Economic Stabilization Administrator (16 F. R. 10009; 16 F. R. 12411) is hereby issued.

Redelegation in absence of the Administrator. Whenever the Economic Stabilization Administrator is absent from the City of Washington, D. C., the redelegable functions delegated to him by the foregoing Executive Orders are hereby further redelegated to the following officers of this Agency, under the circumstances, and in the alternative order described below.

First. To the Deputy Administrator.

Second. In the event that there be no Deputy Administrator, or that he be absent from the city, then to the Assistant Administrator (Operations).

Third. In the event that there be no Deputy Administrator and no Assistant Administrator (Operations) or that both of them be absent from the city, then to the Deputy Assistant Administrator (Operations).

Fourth. In the event that there be no Deputy Administrator, and no Assistant Administrator (Operations), and no Deputy Assistant Administrator (Operations), or that all three of them be absent from the city, then to the General Counsel.

The foregoing redelegated authority, in the order of alternatives described above, shall be exercised by the officer acting under said authority, as Acting Economic Stabilization Administrator.

All prior orders of the Economic Stabilization Agency are hereby amended to conform with this delegation of authority.

This revision of internal delegation of authority shall take effect upon filing with the Division of the Federal Register.

ROGER L. PUTNAM, *Administrator.*

[Determination No. 123]

WILLIAMSPORT, PA., CRITICAL DEFENSE HOUSING AREA

APPROVAL OF EXTENT OF RELAXATION OF CREDIT CONTROLS

SECTION 1. *Authority.* This action is taken pursuant to the authority conferred by the Housing and Rent Act of 1947, as amended (Pub. Law 129, 80th Cong., as amended by Pub. Laws 422 and 464, 80th Cong., Pub. Laws 31, 574, and 880, 81st Cong.; and Pub. Laws 8, 69, and 96, 82d Cong.); and more particularly section 204 (m) of Public Law 96; and the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong., as amended by Pub. Law 96, 82d Cong.); and Executive Order 10161 of September 9, 1950, and Executive Order 10276 of July 31, 1951; and as implemented by Economic Stabilization Agency Order No. 9 of July 31, 1951.

SEC. 2. *Determination.* In view of the joint determination and certification by the Secretary of Defense and the Acting Director of Defense Mobilization, dated September 12, 1952, that the Williamsport, Pennsylvania, area (this area consists of the Townships of Anthony, Armstrong, Bastress, Brady, Clinton, Eldred, Fairfield, Hepburn, Limestone, Loyalsock, Lycoming, Mifflin, Mill Creek, Muncy, Muncy Creek, Nippenose, Old Lycoming, Piatt, Porter, Susquehanna, Upper Fairfield, Washington, Watson, Wolf, and Woodward; also the Boroughs of Duboistown, Hughesville, Jersey Shore, Montgomery, Montoursville, Muncy, Picture Rocks, Salladasburg, and South Williamsport; and the City of Williamsport, all in Lycoming County, Pennsylvania), is a critical defense housing area, and in view of the defense housing program announced for the said area on April 12, 1952, by the Administrator of the Housing and Home Finance Agency, with the concurrence of the Board of Governors of the Federal Reserve System, it is hereby determined, after due consideration of relevant factors, that real estate construction credit controls have been relaxed in the Williamsport, Pennsylvania, critical defense housing area to the extent necessary to encourage construction of housing for defense workers and military personnel.

ROGER L. PUTNAM, *Administrator.*

FEDERAL REGISTER

VOLUME 17 NUMBER 184

Washington, Friday, September 19, 1952

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 25—FEDERAL EMPLOYEES' PAY REGULATIONS

SUBPART B—GENERAL COMPENSATION RULES

SPECIAL PROVISIONS

Paragraphs (b) and (c) of § 25.104 are redesignated as paragraphs (c) and (d). A new paragraph (b) is added as set out below. This new paragraph supplements § 36.1 (c) (2) which provides for retroactive effective dates of classification decisions after successful appeal from downgrading, where a classification error has been made, an appeal is filed within 30 days and the error is corrected through the appeal process. New paragraph (b) expresses the pay policy which goes along with the rule in § 36.1 (c) (2) that cancellation or correction of the personnel action and retroactive pay shall accompany the retroactive classification decision. Consequently, the new regulation is to be effective on the same date as § 36.1, which was March 30, 1952, or at such earlier date as the agency desired to put it into effect. As amended, § 25.104 reads as follows:

§ 25.104 *Special provisions.* (a) An employee promoted, repromoted or transferred to a higher grade between Classification Act positions or grades shall receive basic compensation at the lowest rate of such higher grade which exceeds his existing rate of basic compensation by not less than one-step increase of the grade from which he is transferred or promoted, unless a higher rate is authorized under the provisions of § 25.103 (b). If there is no rate in such higher grade which is at least a one-step increase above his existing rate of basic compensation, he shall receive the maximum scheduled rate of such higher grade, or his existing rate, whichever is the higher.

(b) When a classification decision is made effective retroactively under § 36.1 (c) (2) of this chapter, corrective personnel action affecting the employee concerned shall be termed a cancellation or correction, as the case may be, of the original action of demotion and the employee concerned shall be entitled to retroactive pay in accordance with the terms of the corrective action.

(c) Under the authority of sections 1101 and 1105 (b) of the Classification Act of 1949, establishment of initial salary rates of basic compensation for employees who on an effective date specified by the Commission under section 1105 (b) of the Classification Act of 1949 occupy positions under that act which immediately prior to October 28, 1949, were exempt from the Classification Act of 1923, as amended (including positions in grade 9 of the professional and scientific service or in grade 16 of the clerical, administrative, and fiscal service referred to in section 13 of such act), shall be as follows:

(1) If the employee is receiving a rate of basic compensation less than the minimum scheduled rate of the grade in which his position is placed, his compensation shall be increased to the minimum rate.

(2) If the employee is receiving a rate of basic compensation within the range of salary prescribed for the grade in which his position is placed, at one of the rates fixed therein, no change shall be made in his existing rate.

(3) If the employee is receiving a rate of basic compensation within the range of salary prescribed for the grade in which his position is placed, but not at one of the rates fixed therein, his compensation shall be increased to the next higher rate.

(4) If the employee is receiving a rate of basic compensation in excess of the maximum scheduled rate for the grade in which his position is initially placed, no change shall be made in his existing rate.

(5) After salary rates have been initially established, an employee may subsequently receive an increase in compensation by reason of the operation of Titles V and VII, section 802 (b) of Title VIII, or Title X. An employee whose salary was initially established under the foregoing provisions in a position which is later changed to a lower grade without material change of duties and responsibilities, shall be paid at the rate he received immediately prior to the date his position became subject to the act, or at a higher rate authorized by the provisions of § 25.103.

(6) The rate of basic compensation of a subsequent appointee to such position shall be fixed in accordance with the other applicable provisions in this subpart.

(d) If, by virtue of section 604 (b) (11) of the Classification Act of 1949, an employee is receiving a rate of basic compensation which is in excess of the appropriate new maximum rate of the grade of his position, he shall continue to receive not less than such rate so long as he remains in the same position and grade.

(1) The rate of basic compensation of a subsequent appointee to such position shall be fixed in accordance with the other provisions in this subpart.

TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 51—FRUITS, VEGETABLES AND OTHER PRODUCTS (INSPECTION, CERTIFICATION, AND STANDARDS)

U. S. STANDARDS FOR SHELLED PECANS

On August 6, 1952, a notice of proposed rule making was published in the FEDERAL REGISTER (17 F. R. 7150) regarding proposed United States Standards for Shelled Pecans.

A period of thirty days was allowed for submitting written data, views and arguments for consideration in connection with the proposed standards. After consideration of all relevant matters presented, including the proposal set forth in the aforesaid notice of rule making, the following United States Standards for Shelled Pecans are hereby promulgated under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1953 (Pub. Law 451, 82d Cong., approved July 5, 1952).

§ 51.343 *Standards for shelled pecans*—(a) *General.* The pecan grading chart to which reference is made in paragraph (g) of this section is the pecan grading chart issued in 1952 by the United States Department of Agriculture. Such pecan grading chart is annexed[1] hereto and made a part hereof.

(b) *Grades*—(1) *U. S. No. 1 Halves.* U. S. No. 1 Halves consists of pecan half-kernels which are well dried and clean, and which are free from pieces of shell and center wall, foreign material, chipped halves, broken kernels, particles and dust, noticeable shriveling, rancidity, mold, decay, and insect injury, and are free from damage caused by leanness, hollowness, discoloration, or other means. The pecan halves in any lot shall be fairly uniform in size and fairly uniform in color. (See size requirements for halves, paragraph (d) of this section.)

(i) *Tolerances.* In order to allow for variations incident to proper grading and handling, the following tolerances shall be permitted:

(*a*) One-fifth of 1 percent (0.20 percent), by weight, for pieces of shell, center wall and foreign material: *Provided,* That not more than one-fourth of this amount, or one-twentieth of 1 percent (0.05 percent), shall be allowed for pieces of shell and foreign material;

(*b*) 20 percent, by weight, for chipped halves;

(*c*) 12 percent, by weight, for broken kernels and particles and dust: *Provided,* That not more than one-fourth of this amount, or 3 percent, shall be allowed for broken kernels which are less than one-half of a complete half-kernel, including not more than one-half of 1 percent for particles and dust; and,

(*d*) 7 percent, by weight, for portions of kernels which fail to meet the remaining requirements of this grade, including therein not more than 4 percent for damage caused by internal discoloration and not more than 1 percent for rancidity, mold, decay, insect injury, or serious damage caused by shriveling, leanness, external discoloration, internal discoloration, or other means.

(2) *U. S. Commercial Halves.* U. S. Commercial Halves consists of pecan half-kernels which are well dried and clean, and which are free from pieces of shell and center wall, foreign material, broken kernels, particles and dust, rancidity, mold, decay, and insect injury, and are free from serious damage caused by shriveling, leanness, external discoloration, internal discoloration, or other means. (See size requirements for halves, paragraph (d) of this section.)

(i) *Tolerances.* In order to allow for variations incident to proper grading and handling, the following tolerances shall be permitted:

(*a*) One-fifth of 1 percent (0.20 percent), by weight, for pieces of shell, center wall and foreign material: *Provided,* That not more than one-fourth of this amount, or one-twentieth of 1 percent (0.05 percent), shall be allowed for pieces of shell and foreign material;

[1] The pecan grading chart was filed with these United States Standards for Shelled Pecans and it is available for inspection in the Division of the Federal Register. Copies may be obtained upon request from the Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, South Building, Washington 25, D. C.

(*b*) 15 percent, by weight, for broken kernels and particles and dust: *Provided,* That not more than one-third of this amount, or 5 percent, shall be allowed for broken kernels which are less than one-half of a complete half-kernel, including not more than one-half of 1 percent for particles and dust; and,

(*c*) 10 percent, by weight, for portions of kernels which fail to meet the remaining requirements of this grade, including therein not more than 3 percent for rancidity, mold, decay, insect injury, serious damage caused by internal discoloration, or those that are so shriveled that they have virtually no food value.

(3) *U. S. No. 1 Pieces.* U. S. No. 1 Pieces consists of portions of pecan kernels which are well dried and clean, and which are free from pieces of shell and center wall, foreign material, noticeable shriveling, rancidity, mold, decay, and insect injury, and are free from damage caused by leanness, hollowness, discoloration, or other means. There are no restrictions in this grade in regard to the proportion of pecan halves which may be included in a lot designated as "Pieces" except that the halves shall meet the size requirements specified for the pieces. Unless a larger minimum size is specified, the minimum diameter of pieces specified in connection with this grade shall be two-sixteenths inch. (See size requirements for pieces, paragraph (e) of this section.)

(i) *Tolerances.* In order to allow for variations incident to proper grading and handling, the following tolerances shall be permitted:

(*a*) One-tenth of 1 percent (0.10 percent), by weight, for pieces of shell and center wall, and foreign material; and,

(*b*) 7 percent, by weight, for portions of kernels which fail to meet the remaining requirements of this grade, including therein not more than 4 percent for damage caused by internal discoloration and not more than 1 percent for rancidity, mold, decay, insect injury, or serious damage caused by shriveling, external discoloration, internal discoloration, or other means.

(4) *U. S. Commercial Pieces.* U. S. Commercial Pieces consists of portions of pecan kernels which are well dried and clean, and which are free from pieces of shell and center wall, foreign material, rancidity, mold, decay, insect injury, and are free from serious damage caused by shriveling, leanness, external discoloration, internal discoloration, or other means. There are no restrictions in this grade in regard to the proportion of pecan halves which may be included in a lot designated as "Pieces" except that the halves shall meet the size requirements specified for the pieces. Unless a larger minimum size is specified, the minimum diameter of pieces specified in connection with this grade shall be two-sixteenths inch. (See size requirements for pieces, paragraph (e) of this section.)

(i) *Tolerances.* In order to allow for variations incident to proper grading and handling, the following tolerances shall be permitted:

(*a*) One-tenth of 1 percent (0.10 percent), by weight, for pieces of shell and center wall, and foreign material; and,

(b) 10 percent, by weight, for portions of kernels which fail to meet the remaining requirements of this grade, including therein not more than 3 percent for rancidity, mold, decay, insect injury, serious damage caused by internal discoloration, or those that are so shriveled that they have virtually no food value.

(c) *Unclassified.* Unclassified consists of shelled pecans which have not been classified in accordance with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no definite grade has been applied to the lot.

(d) *Size requirements for halves.* The size of pecan halves may be specified in accordance with the size designations shown in Table I:

TABLE I

Size designation	Number of halves per pound [1]
Mammoth	200–250
Junior Mammoth	251–300
Jumbo	301–350
Extra Large	351–450
Large	451–550
Medium	551–650
Topper	651–750
Large Amber [2]	400 or less
Regular Amber [2]	More than 400

[1] The number of halves per pound shall be determined on the basis of the weight of the pecan halves after the broken kernels, particles and dust, and foreign material have been removed.

[2] This designation is provided for use only in connection with the U. S. Commercial Grade.

(1) In lieu of the size designations specified in Table I, the size of pecan halves may be specified in terms of the number of halves per pound, as, for example, "400", or a range may be stated, as, for example, "600–700".

(2) *Tolerance for counts per pound.* In order to allow for variations incident to proper sizing, the following tolerance shall be permitted:

(i) When an exact number of halves per pound is specified, as, for example, "400", the actual number may vary from the specified number by not more than 5 percent.

(ii) When the size designations shown in Table I are used to specify size, or when a range is specified, as, for example, "600–700", no tolerance for counts above or below those specified shall be allowed.

(e) *Size requirements for pieces.* The size of pecan pieces may be specified in accordance with the size designations shown in Table II:

TABLE II

Size designations	Maximum diameter (will pass through a sieve with round openings of the following diameters)	Minimum diameter (will not pass through a sieve with round openings of the following diameters)
	Inch	*Inch*
Extra Large		5/16
Large	5/16	5/16
Medium	4/16	4/16
Small	4/16	3/16
Midget	3/16	3/16
Regular Amber [1]		4/16
Small Amber [1]	4/16	3/16

[1] This designation is provided for use only in connection with the U. S. Commercial Grade.

(1) In lieu of the size designations in Table II, the size of pieces may be specified in terms of minimum diameter, or as a range in terms of minimum and maximum diameters, expressed in sixteenths of an inch.

(2) *Tolerances for size of pieces.* In order to allow for variations incident to proper sizing, the following tolerances shall be permitted:

(i) When the size designations "Extra Large", "Large", "Medium", "Small" and "Regular Amber" are used to specify size, not more than 15 percent, by weight, of the pieces may fail to meet the size requirements specified in Table II, including therein not more than 2 percent for pieces which are less than two-sixteenths inch in diameter;

(ii) When the size designations "Midget" or "Small Amber" are used to specify size, not more than 15 percent, by weight, of the pieces may fail to meet the size requirements specified in Table II, including therein not more than 5 percent for pieces which are less than two-sixteenths inch in diameter; and,

(iii) When minimum diameters or ranges of diameters, other than those shown in Table II, are used to specify size, not more than 15 percent, by weight, of the pieces may fail to meet the size specified, including therein not more than 2 percent for pieces which are less than two-sixteenths inch in diameter: *Provided*, That when a minimum diameter of two-sixteenths inch is specified, not more than 5 percent of the pieces may be less than two-sixteenths inch in diameter.

(f) *Application of tolerances.* The tolerances in these standards are on a lot basis, and a composite sample should be taken for inspection purposes. However, any container or group of containers, in which the pecans are found to be materially inferior to those in the majority of the containers, shall be considered a separate lot.

(g) *Definitions.* (1) "Well dried" means that the portion of kernel is firm and crisp, not pliable or leathery.

(2) "Clean" means that the appearance of the individual portion of kernel, or of the lot as a whole, is not materially affected by adhering dust or dirt.

(3) "Pieces of shell and center wall" means pieces of pecan shell, center wall and any other part of the pecan except the kernel. "Shell" means the hard outer covering of the nut exclusive of the softer, corky or papery material which occurs between the halves and within the grooves of the kernel.

(4) "Chipped half" means a pecan half-kernel which shows more than slight chipping or skinning of the outer, curved surface or the edge, but which does not have more than one-eighth of the original half-kernel missing. The presence or absence of the portion joining both halves of the complete kernel should be disregarded. Two chipped halves, each of which has one-eighth chipped or broken off, are illustrated in the lower right-hand corner of the pecan grading chart referred to in this section.

(5) "Broken kernels" means portions of half-kernels each of which is less than seven-eighths of a complete half-kernel, but which will not pass through a round opening two-sixteenths inch in diameter.

(6) "Particles and dust" means fragments of kernels which will pass through a round opening two-sixteenths inch in diameter.

(7) "Noticeable shriveling" means any shriveling which more than slightly affects the appearance of the individual portion of kernel. (Shriveling affecting the flat or inner side of the half-kernel shall be disregarded.)

(8) "Rancidity" means that the portion of kernel is distinctly rancid to the taste.

(9) "Mold" means any mold growth which noticeably affects the exterior or interior of the portion of kernel.

(10) "Decay" means that the portion of kernel is putrid or decomposed.

(11) "Insect injury" means that the insect, web, or frass is present or that the portion of kernel shows other noticeable evidence of insect injury.

(12) "Damage" means any defect which materially affects the appearance, or the edible or shipping quality of the portion of kernel. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(i) Leanness, when a portion of kernel has more than a moderately lean or undeveloped appearance. A half-kernel and cross-section showing moderately lean or undeveloped appearance not considered damaged are illustrated in the center of the upper row of the pecan grading chart referred to in this section;

(ii) Hollowness, when a cross-section of the portion of kernel shows more than a moderate hollowness, or the portion of kernel is not fairly firm and meaty. A half-kernel and cross-section showing moderate hollowness not considered damaged are illustrated in the upper right-hand corner of the pecan grading chart referred to in this section; and,

(iii) Discoloration, when in excess of the maximum permitted for any of the following types (external discoloration affecting the flat or inner side of the half-kernel shall be disregarded):

(*a*) When the portion of kernel is darker than indicated for undamaged half-kernels in the lower left-hand corner of the pecan grading chart referred to in this section. Natural markings, including dark lines, specks, or mottling, shall not be considered as damage if the ground color is not too dark according to the chart;

(*b*) When there is more than one dark kernel spot on a portion of kernel, or when any spot is more than one-eighth inch in greatest dimension;

(*c*) When there is brownish or grayish material from the inside of the shell adhering to more than 5 percent of the surface; and,

(*d*) When internal discoloration is readily noticeable.

(13) "Fairly uniform in size" means that in a representative sample of 100 halves, from which broken kernels and particles and dust have been removed, the weight of the 10 largest halves shall not be greater than twice the weight of the 10 smallest halves.

(14) "Fairly uniform in color" means that the variation in color of the pecan halves in a lot shall not be sufficient to materially detract from the appearance of the lot.

(15) "Serious damage" means any defect which seriously affects the appearance, or the edible or shipping quality of the portion of kernel. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as serious damage:

(i) Shriveling, when materially affecting more than one-third of the portion of kernel. The maximum percentage of shriveling (one-third of the half-kernel) not considered seriously damaged is illustrated in the left side of the middle row of the pecan grading chart referred to in this section. (Shriveling affecting the flat or inner side of the half-kernel shall be disregarded);

(ii) Leanness, when a portion of kernel has a more lean or undeveloped appearance than shown on the right side of the middle row of the pecan grading chart referred to in this section;

(iii) External discoloration, when in excess of the maximum permitted for any of the following types (external discoloration affecting the flat or inner side of the half-kernel shall be disregarded):

(*a*) When the portion of kernel is as dark in color, or darker, than indicated as seriously damaged on the kernel in the center of the lower row of the pecan grading chart referred to in this section;

(*b*) When there are more than three dark kernel spots on a portion of kernel, or when such spots affect an aggregate area of more than 10 percent of the surface of the half-kernel or piece of kernel;

(*c*) When there is brownish or grayish material from the inside of the shell adhering to more than one-fourth of the surface; and,

(iv) Internal discoloration, when dark discoloration extends more than one-third the length of the center ridge of the portion of kernel or more than one-third the length of a piece of kernel which is detached from the center ridge.

(h) *Effective time.* The United States Standards for Shelled Pecans contained in this section and which supersede the United States Standards for Shelled Pecans effective November 1, 1938, shall become effective thirty (30) days after the date of publication in the FEDERAL REGISTER.

(Sec. 205, 60 Stat. 1090, Pub. Law 451, 82d Cong.; 7 U. S. C. 1624)

Done at Washington, D. C., this 15th day of September 1952.

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

U. S. STANDARDS FOR GRADES OF DRIED CURRANTS [1]

On July 3, 1952 a notice of proposed rule making was published in the FEDERAL REGISTER (17 F. R. 5998) regarding a proposed revision of the United States Standards for Grades of Dried Currants. After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, the following revised United States Standards for Grades of Dried Currants are hereby promulgated under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1953 (Pub. Law 451; 82d Cong., approved July 5, 1952):

§ 52.288 *Dried currants.* Dried currants are dried grapes of such Vinifera varities as Black Corinth that have been properly processed by stemming, capstemming, and cleaning.

(a) *Types (varieties) of dried currants.* (1) *Type I.* Zante type (domestic).

(2) *Type. II.* Other than Zante type (domestic), such as Amalias, Patras, Vostizza, and Zante varieties.

(b) *Grades of dried currants.* (1) "U. S. Grade A" or "U. S. Fancy" is the quality of dried currants that possess similar varietal characteristics; that possess a good typical color; that possess a good characteristic flavor; that show development characteristic of dried currants prepared from reasonably well-matured grapes; that contain not more than 18 percent, by weight, of moisture; and that meet the following additional requirements (see Table I of this paragraph):

(i) Not more than 3 pieces of stem per 16 ounces of dried currants may be present;

(ii) Not more than 2 percent, by weight, of dried currants may possess capstems;

(iii) Not more than 2 percent, by weight, of dried currants may be poorly developed, blowovers;

(iv) Not more than 3 percent, by weight, of dried currants may be damaged;

(v) Not more than 10 percent, by weight, of dried currants may be visibly sugared; and

(vi) Not more than 2 percent, by weight, of dried currants may be affected by mold, decay, fermentation, insect infestation (no live insects are permitted), imbedded dirt, or other foreign material: *Provided*, That:

(*a*) Not more than 1 percent, by weight, of dried currants may be affected by decay.

TABLE I—MAXIMUMS ALLOWABLE FOR DEFECTS IN DRIED CURRANTS

Defects	U. S. Grade A or U. S. Fancy	U. S. Grade B or U. S. Choice	Substandard
	Maximum count (per 16 ounces)		
Pieces of stem	2	3	
	Maximum (by weight) (percent)		
Currants with capstems	1½	2	No limit.
Poorly developed, blowovers	1	2	...do...
Damaged	2	3	...do...
Visibly sugared	5	10	...do...
Mold, decay, fermentation, insect infestation, imbedded dirt, or other foreign material	1	2	
	But not more than		
Decay	½	1	

(2) "U. S. Grade B" or "U. S. Choice" is the quality of dried currants that possess similar varietal characteristics; that possess a reasonably good typical color; that possess a good characteristic flavor; that show development characteristic of dried currants prepared from reasonably well-matured grapes; that contain not more than 18 percent, by weight, of moisture; and that meet the following additional requirements (see Table I of this paragraph):

(i) Not more than 3 pieces of stem per 16 ounces of dried currants may be present;

(ii) Not more than 2 percent, by weight, of dried currants may possess capstems;

(iii) Not more than 2 percent, by weight, of dried currants may be poorly developed, blowovers;

(iv) Not more than 2 percent, by weight, of dried currants may be damaged;

(v) Not more than 5 percent, by weight, of dried currants may be visibly sugared; and

(vi) Not more than 1 percent, by weight, of dried currants may be affected by mold, decay, fermentation, insect infestation (no live insects are permitted), imbedded dirt, or other foreign material: *Provided*, That:

(*a*) Not more than ½ of 1 percent, by weight, of dried currants may be affected by decay.

(c) *Explanation of terms.* (1) A "piece of stem" means a portion of the branch or main stem.

(2) "Capstems" means small woody stems exceeding ⅛ inch in length which attach the grapes to the branches of the bunch. A currant for each capstem which is not attached to a currant is included and weighed with "currants with capstems" in ascertaining compliance with the allowance permitted.

(3) "Poorly developed, blowovers" refers to currants that are immature or hard, contain practically no flesh, are very light in weight, and have very coarse wrinkles.

(4) "Damaged" currants means currants affected by insect injury or injury from sunburn, scars, mechanical or other means which seriously affects the appearance, or the edible or shipping quality of the currant.

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

pearance, edibility, keeping quality, or shipping quality of the currants.

(5) "Visibly sugared" means the accumulation of crystallized fruit sugars in the flesh of the currant or on the surface which is readily apparent.

(6) "Mold" means mold filaments or spores (often characterized by a condition wherein the skin of the currant appears to have been dissolved, leaving a slimy or sticky appearance, and often resulting in a positive reaction when submerged in a 3-percent hydrogen peroxide solution).

(7) "Affected by insect infestation" means that the currants show the presence of insects, insect fragments, or excreta. No live insects are permitted.

(d) *Work sheet for dried currants.*

Size of case or package			
Markings			
Label or brand			
Net weight			
Type			
Moisture content			

	A	B	Field
Similar varietal characteristics

Chapter IV—Federal Crop Insurance Corporation, Department of Agriculture

PART 415—FLAX CROP INSURANCE

SUBPART—REGULATIONS FOR THE 1953 AND SUCCEEDING CROP YEARS

By virtue of the authority contained in the Federal Crop Insurance Act, as amended, the "Regulations for Contracts for the 1950 and Succeeding Crop Years," as amended (14 F. R. 4543; 15 F. R. 2482; 16 F. R. 4297, 7694; 17 F. R. 2109, 5081, 5633), which shall continue in full force and effect for the 1952 crop year, are hereby amended for the 1953 and succeeding crop years to read as set forth below. The provisions of this subpart shall, until amended or superseded, apply to all continuous flax contracts as they relate to the 1953 and succeeding crop years.

Sec.
415.1 Availability of flax crop insurance.
415.2 Coverage per acre.
415.3 Premium rates.
415.4 Application for insurance.
415.5 The contract.
415.6 Public notice of indemnities paid.
415.7 Refund of excess note payments.
415.8 Creditors.
415.9 Changes in continuous contracts covering the 1952 and succeeding crop years.
415.10 The policy.

AUTHORITY: §§ 415.1 through 415.10 issued under secs. 506, 516, 52 Stat. 73, 77; 7 U. S. C. 1506, 1516. Interpret or apply secs. 507, 508, 509, 52 Stat. 73–75, as amended; 7 U. S. C. and Sup. 1507, 1508, 1509.

§ 415.1. *Availability of flax crop insurance.* (a) Flax crop insurance may be provided in counties, not in excess of the number prescribed by the Federal Crop Insurance Act, as amended, designated annually by the Manager of the Corporation from a list of counties approved by the Board of Directors of the Corporation. A list of the designated counties shall be published annually by appendix to this section.

(b) Insurance will not be provided with respect to applications for flax insurance filed in a county unless such written applications, together with flax crop insurance contracts in force for the ensuing crop year, cover the minimum number of farms prescribed by the Federal Crop Insurance Act, as amended. For this purpose an insurance unit shall be counted as one farm.

§ 415.2 *Coverage per acre.* The Corporation shall establish coverages per acre by areas which shall not be in excess of the maximum limitations prescribed in the Federal Crop Insurance Act, as amended. Coverages so established shall be shown on the county actuarial table and shall be on file in the county office and may be revised from year to year.

§ 415.3 *Premium rates.* The Corporation shall establish premium rates per acre by areas for all acreage for which coverages are established and such rates shall be those deemed adequate to cover claims for flax crop losses and to provide a reasonable reserve against unforeseen losses. Premium rates so established shall be shown on the county actuarial table and shall be on file in the county office and may be revised from year to year.

§ 415.4 *Application for insurance.* Application for insurance on a Corporation form entitled "Application for Crop Insurance on Flax" may be made by any person to cover his interest as landlord, owner-operator, or tenant in a flax crop. For any crop year applications shall be submitted to the county office on or before March 31 preceding such crop year.

§ 415.5 *The contract.* Upon acceptance of an application for insurance by a duly authorized representative of the Corporation, the contract shall be in effect and will consist of the application and the policy issued by the Corporation.

§ 415.6 *Public notice of indemnities paid.* The Corporation shall provide for the posting annually in each county at the county courthouse of a list of indemnities paid for losses in such county.

§ 415.7 *Refund of excess note payments.* Refund of any excess note payment will be made only to the person who made such payment, except that where a person who is entitled to a refund of an excess note payment has died, has been judicially declared incompetent, or has disappeared, the provisions of the policy with reference to the payment of indemnities in any such case shall be applicable with respect to the making of any such refund.

§ 415.8 *Creditors.* An interest in an insured crop existing by virtue of a lien, mortgage, garnishment, levy, execution, bankruptcy or any involuntary transfer shall not entitle any holder of any such interest to any benefits under the contract.

§ 415.9 *Changes in continuous contracts covering the 1952 and succeeding crop years.* Continuous flax insurance contracts in effect for the 1952 and succeeding crop years shall be amended for 1953 and succeeding crop years so that the terms and conditions of such contracts will conform with the terms and conditions of the policy set forth herein.

§ 415.10 *The policy.* The provisions of the policy for 1953 and succeeding crop years are as follows:

In consideration of the representations and provisions in the application upon which this policy is issued, which application is made a part of the contract, and subject to the terms and conditions set forth or referred to herein, the Federal Crop Insurance Corporation (hereinafter designated as the Corporation) does hereby insure

_____ (Name)
_____ (Policy)
_____ (Address)
_____ (County) _____ (State)

(hereinafter designated as the insured) against unavoidable loss of production on his flax crop due to drought, flood, hail, wind, frost, freeze, lightning, fire, excessive rain, snow, wildlife, hurricane, tornado, insect infestation, plant disease and such other unavoidable causes as may be determined by the Board of Directors of the Corporation. In witness whereof, the Federal Crop Insurance Corporation has caused this policy to be issued _____

FEDERAL CROP INSURANCE CORPORATION,
By _____
State Crop Insurance Director.

TERMS AND CONDITIONS

1. *Insured flax.* The flax to be insured shall be flax seeded for harvest as seed but does not include (1) volunteer or self-seeded flax, (2) flax seeded with any other crop except perennial grasses or legumes other than vetch, and (3) flax seeded for purposes other than for harvest as seed.

2. *Insurable acreage.* For each crop year of the contract, any acreage is insurable only if a coverage is shown therefor on the county actuarial table (including maps and related forms) on the closing date for filing applications for that crop year.

3. *Responsibility of insured to report acreage and interest.* (a) Promptly after seeding flax each year, the insured shall submit to the Corporation, on a form approved by the Corporation, a report over his signature of all acreage in the county seeded to flax in which he has an interest at the time of seeding. This report shall show the acreage of flax for each insurance unit and his interest in each at the time of seeding. If the insured does not have an insurable interest in flax seeded in any year, the acreage report shall nevertheless be submitted promptly after the seeding of flax is generally completed in the county. Any acreage report submitted by the insured shall not be subject to change by the insured.

(b) The Corporation may elect to determine that the insured acreage is "zero" if the insured fails to file an acreage report within 30 days after the seeding of flax is generally completed in the county, as determined by the Corporation.

(c) Failure of the Corporation to request submission of such report or to send a personal representative to obtain the report shall not relieve the insured of the responsibility to make such report.

4. *Insured acreage.* The insured acreage with respect to each insurance unit shall be the acreage of flax seeded for harvest as seed as reported by the insured or as determined by the Corporation, whichever the Corporation shall elect, except that insurance shall not attach with respect to (a) any acreage seeded to flax which is destroyed (as defined in section 16) and on which it is practical to reseed to flax, as determined by the Corporation, and such acreage is not reseeded to flax, or (b) any acreage initially seeded to flax too late to expect to produce a normal crop, as determined by the Corporation. The Corporation reserves the right to limit the insured acreage on any farm to the flax allotment or permitted acreage established under any act of Congress including the Agricultural Adjustment Act of 1938, as amended.

5. *Insured interest.* The insured interest in the flax crop covered by the contract shall be the interest of the insured at the time of seeding as reported by the insured or as determined by the Corporation, whichever the Corporation shall elect. For the purpose of determining the amount of loss the insured interest shall not exceed the insured's actual interest at the time of loss or the beginning of harvest whichever occurs first.

6. *Coverage per acre.* The coverage per acre established for the area in which the insured acreage is located shall be shown on the county actuarial table on file in the county office. The coverage per acre is progressive depending upon whether the acreage is (a) released and seeded to a substitute crop, (b) not harvested and not seeded to a substitute crop, or (c) harvested.

7. *Fixed price.* The fixed price per bushel for the first crop year of the contract shall be the price established for that year by the Corporation and shall be shown on the county actuarial table on file in the county office at the time the application for insurance is submitted. For each subsequent crop year the fixed price shall be on file in the county office at least 15 days prior to the cancellation date preceding the crop year for which such price applies. The fixed price shall be used to determine the cash equivalent of premiums and of any indemnities.

8. *Insurance period.* Insurance with respect to any insured acreage shall attach at the time the flax is seeded. Insurance shall cease with respect to any portion of the flax crop covered by the contract upon threshing or removal from the field, whichever occurs first, but in no event shall the insurance remain in effect later than October 31 of each year, unless such time is extended in writing by the Corporation.

9. *Life of contract, cancellation or termination thereof.* (a) Subject to the provisions of this section, the contract shall be in effect for the first crop year specified on the application and shall continue in effect for each succeeding crop year until canceled by either the insured or the Corporation. Cancellation may be made by either party giving written notice to the other party on or before December 31 preceding the seeding of the crop for which the cancellation is to become effective; provided, however, if any amount due the Corporation remains unpaid on such cancellation date, the time during which the Corporation may cancel shall be extended to the following closing date for filing applications for insurance. The insured shall give such notice to the county office or another office of the Corporation. The Corporation shall mail notice of cancellation to the insured's last known address and the mailing of such notice shall constitute notice to the insured.

(b) If the insured cancels the contract, he shall not be eligible for crop insurance on flax seeded or to be seeded in the county for harvest in the next calendar year unless subsequent to such cancellation he files an application for insurance on or before December 31 preceding such year.

(c) If the minimum participation requirement as established by the Corporation is not met for any year the contract shall continue in force only to the end of the crop year for which such requirement is not met, except that if the minimum participation requirement is met on or before the next succeeding closing date for filing applications for insurance the contract shall continue to be in force.

10. *Death or incompetence of the insured.* The contract shall terminate upon death or judicial declaration of incompetence of the insured, except that if such death or judicial declaration of incompetence occurs after the beginning of seeding of the flax crop in any crop year but before the end of the insurance period for such year, the contract shall (1) cover any additional flax seeded for the insured or his estate for that crop year, and (2) terminate at the end of such insurance period.

11. *Changes in contract.* The Corporation reserves the right to change the premium rate(s), insurance coverage(s) and other terms and provisions of the contract from year to year. Notice of such changes shall be mailed to the insured at least 15 days prior to December 31. Failure of the insured to cancel the contract as provided in section 9 shall constitute his acceptance of any such changes. If no notice is mailed to the insured, the terms and provisions of the contract for the prior year shall continue in force.

12. *Causes of loss not insured against.* The contract shall not cover loss of production caused by: (a) Failure to follow recognized good farming practices; (b) poor farming practices, including but not limited to the use of defective or unadapted seed, failure to plant a sufficient quantity of seed, failure properly to prepare the land for seeding or properly to seed, care for or harvest and thresh the insured crop (including unreasonable delay thereof); (c) seeding excessive acreage under abnormal conditions; (d) seeding perennial or biennial legumes or perennial grasses with the flax or in the growing flax crop; (e) seeding flax under conditions of immediate hazard; (f) inability to obtain labor, seed, fertilizer, machinery, repairs or insect poison; (g) breakdown of machinery, or failure of equipment due to mechanical defects; (h) neglect or malfeasance of the insured or of any person in his household or employment or connected with the farm as tenant or wage hand: (i) domestic animals or poultry; or (j) theft.

13. *Amount of annual premium.* (a) The premium rate per acre will be established by the Corporation for the coverage and rate area in which the insured acreage is located and will be shown on the county actuarial table on file in the county office. The annual premium for each insurance unit under the contract will be based upon (1) the insured acreage of flax, (2) the applicable premium rate(s) and (3) the insured interest in the crop at the time of seeding. There will be a reduction in the annual premium for each insurance unit of one percent in cases where the insured acreage on the insurance unit is as much as 25 acres and does not exceed 74.9 acres, and an additional one percent reduction for each additional 50 acres or fraction thereof on the insurance unit. However, the total reduction shall not exceed 20 percent. The annual premium for the contract shall be the total of the premiums computed for the insured for all insurance units covered by the contract. The annual premium with respect to any insured acreage shall be regarded as earned when the flax crop on such acreage is seeded.

(b) The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutively insured flax crops (immediately preceding the current crop year) without a loss for which an indemnity was paid. (See Section 31 for definition of "Consecutively insured crops.") Whether or not the insured is eligible for the above premium reduction, his annual premium may be reduced in lieu of the above in any year by not to exceed 25 percent if it is determined by the Corporation that the accumulated balance (expressed in bushels) of premiums over indemnities on consecutively insured flax crops exceeds his total coverage (computed on a harvested acreage basis). Nothing in this paragraph (b) shall create in the insured any right to a reduced premium.

(c) A discount of five percent shall be allowed on any earned annual premium which is paid in full on or before June 30 if the insured has submitted to the Corporation at the county office his flax acreage report on or before June 30 of that crop year.

(d) Any premium note not paid at maturity shall bear interest computed not on a per annum basis but as follows: Three percent on the principal amount not paid on or before October 31 following the maturity date (July 31), and an additional one percent on the principal amount unpaid at the end of each two calendar-month period thereafter.

14. *Manner of payment of premium.* (a) Payment on any annual premium shall be made by means of cash or by check, money order, postal note, or bank draft payable to the order of the Treasurer of the United States. All checks and drafts will be accepted subject to collection and payment tendered shall not be regarded as paid unless collection is made.

(b) Any unpaid amount of any annual premium plus any interest due may be deducted (either before or after the date of

maturity) from any indemnity payable by the Corporation, from the proceeds of any commodity loan to the insured, and from any payment made to the insured under the Soil Conservation and Domestic Allotment Act, as amended, or any other act of Congress or program administered by the United States Department of Agriculture. There shall be no refund of any annual premium overpayment of less than $1.00 unless written request for such refund is received by the Corporation within one year after the payment thereof.

15. *Notice of loss or damage.* (a) If any damage occurs to the insured crop during the growing season and a loss under the contract is probable, notice in writing (unless otherwise provided by the Corporation) shall be given the Corporation at the county office promptly after such damage.

(b) If a loss under the contract is sustained, notice in writing (unless otherwise provided by the Corporation) shall be given the Corporation at the county office within 15 days after threshing is completed or by October 31, whichever is earlier.

(c) The Corporation reserves the right to reject any claim for indemnity if either of the notices required by this section is not given.

16. *Released acreage.* Any acreage of the insured flax crop which is destroyed after it is too late to reseed to flax may be released by the Corporation to be put to another use. Any acreage shall be considered destroyed if it is damaged to the extent that farmers in the area where the land is located generally would not further care for the crop or harvest any portion thereof. (For production to be counted, see section 20.) No insured acreage may be planted to a substitute crop or put to another use until the Corporation releases such acreage. Proper measures shall be taken to protect the crop from further damage on any insured acreage if the crop has been damaged but the acreage has not been released by the Corporation. Where released acreage is not put to another use, or is reseeded to flax, and flax is harvested from such acreage, the release may be disregarded by the Corporation. There shall be no abandonment of any crop or portion thereof to the Corporation.

17. *Time of loss.* Any loss shall be deemed to have occurred at the end of the insurance period, unless the entire flax crop on the insurance unit was destroyed earlier, in which event the loss shall be deemed to have occurred on the date of such damage as determined by the Corporation.

18. *Proof of loss.* If a loss is claimed, the insured shall submit to the Corporation, on a Corporation form entitled "Statement in Proof of Loss", such information regarding the manner and extent of the loss as may be required by the Corporation. The statement in proof of loss shall be submitted not later than sixty days after the time of loss, unless the time for submitting the claim is extended in writing by the Corporation. It shall be a condition precedent to any liability under the contract that the insured establish the production of flax on the insurance unit, the amount of any loss for which claim is made, and that such loss has been directly caused by one or more of the hazards insured against by the contract during the insurance period for the crop year for which the loss is claimed, and that the insured further establish that the loss has not arisen from or been caused by either directly or indirectly, any of the causes of loss not insured against by the contract. If a loss is claimed, any flax acreage which is not to be harvested shall be left intact until the Corporation makes an inspection.

19. *Insurance unit.* Losses shall be determined separately for each insurance unit except as provided in section 20 (b). An insurance unit consists of (a) all the insurable acreage of flax in the county in which the insured has 100 percent interest in the crop at the time of seeding, or (b) all the insurable acreage of flax in the county owned by one person which is operated by the insured as a share tenant at the time of seeding, or (c) all the insurable acreage of flax in the county which is owned by the insured and is rented to one share tenant at the time of seeding. For any crop year of the contract, acreage shall be considered to be located in the county if a coverage is shown therefor on the county actuarial table. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee.

20. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the seeded acreage (exclusive of any acreage to which insurance did not attach) by the applicable bushel coverage per acre, (2) subtracting therefrom the total production to be counted for the seeded acreage, and (3) multiplying the remainder by the insured interest in such unit. However, if the seeded acreage on the insurance unit exceeds the insured acreage on the insurance unit, or if the premium computed for the seeded acreage is more than the premium computed for the acreage and interest as approved by the Corporation on the acreage report, the amount of loss so determined shall be reduced. This reduction shall be made on the basis of the ratio of the insured acreage to the seeded acreage except that the Corporation may elect to make the reduction on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the seeded acreage. The total production for an insurance unit shall include all production determined in accordance with the following schedule:

SCHEDULE

Acreage classification	*Total production in bushels*
1. Acreage on which flax is threshed (exclusive of any acreage shown in item 2 below).	1. Actual production of flax which is threshed.
2. Acreage on which the Corporation determines that the threshed flax (i) is not eligible for a Commodity Credit Corporation loan because of the quality of the flax and would not meet these loan requirements if properly handled, and (ii) has a value per bushel which is less than the lower of the fixed price or the county loan rate for the lowest grade flax eligible for loan.	2. The number of bushels obtained by (i) multiplying the actual production by the value per bushel as determined by the Corporation, and (ii) dividing the result thus obtained by the lower of the fixed price or the county loan rate for the lowest grade flax eligible for loan.
3. Acreage released by the Corporation and planted to a substitute crop.	3. That portion of the appraised production which is in excess of the coverage.
4. Acreage not harvested and not seeded to a substitute crop.	4. That portion of the appraised production which is in excess of the number of bushels determined by subtracting (i) the coverage for such acreage from (ii) the coverage for such acreage if it were harvested.
5. Acreage put to another use without being released by the Corporation.	5. Appraised production but not less than the product of (i) such acreage and (ii) the coverage per acre.
6. Acreage with reduced yield due solely to any cause(s) not insured against.	6. Appraised number of bushels by which production has been reduced but not less than the product of (i) such acreage and (ii) the coverage per acre, minus any flax harvested.
7. Acreage with reduced yield due partially to a cause(s) not insured against and partially to a cause(s) insured against.	7. Appraised number of bushels by which production has been reduced because of any cause(s) not insured against.

(b) If the production from an insurance unit is commingled with the production from another insurance unit or with production from uninsured acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year and declare the premium on such units forfeited by the insured or (2) allocate all of the commingled production among the insurance unit(s) involved in such manner as it determines appropriate.

21. *Payment of indemnity.* (a) Any indemnity will be payable by check within thirty days after satisfactory proof of loss is approved by the Corporation, but if payment is delayed for any reason, the Corporation shall not be liable for interest or damage on account of such delay.

(b) Indemnities shall be subject to all provisions of the contract, including the right of the Corporation to deduct from any indemnity the unpaid amount of any obligation of the insured to the Corporation.

(c) Any indemnity payment under a contract shall be paid to the insured or such other person as may be entitled to the benefits under the provisions of the contract, notwithstanding any attachment, garnishment, receivership, trustee process, judgment, levy, equity, or bankruptcy, directed against the insured or such other person, or against any indemnity alleged to be due to such person; nor shall the Corporation or any officer, employee, or representative thereof, be a proper party to any suit or action with reference to such indemnity, nor be bound by any judgment, order, or decree rendered or entered therein. Nothing herein contained shall excuse any person entitled to the benefits of the contract from full compliance with, or performance of, any lawful judgment, order or decree with respect to the disposition of any sums paid thereunder as an indemnity.

(d) If a check issued in payment of an indemnity is returned undeliverable at the last known address of the payee, and if such payee or other person entitled to the indemnity makes no claim for payment within two years after the issuance of the check, such claim shall not thereafter be payable, except with the consent of the Corporation.

22. *Transfer of interest.* (a) If the insured transfers all or a part of his insured interest in a flax crop before the beginning of harvest and the time of loss, the transferee may obtain the benefits of the contract on the transferred interest by, within 15 days after the date of transfer, unless such time is extended in writing by the Corporation, (1) submitting to the county office such information concerning the transfer as may be required by the Corporation and (2) making arrangements satisfactory to the Corporation for the payment of any unpaid premium on the interest transferred. In any case, the transferee and transferor shall be jointly and severally liable for the amount of the premium on the interest transferred. Any transfer shall be subject to any collateral assignment made by the original insured in accordance with section 26. However, the Corporation shall not be liable for a greater amount of indemnity in connection with the insured crop than if the transfer had not taken place.

(b) If a transfer is effected in accordance with paragraph (a) above, the contract of the transferor shall cover the interest so transferred only to the end of the insurance period for the crop year during which the transfer is made.

23. *Determination of person to whom indemnity shall be paid.* If the insured dies, is judicially declared incompetent or disappears after the seeding of the flax crop in any year any indemnity which is, or becomes, part of his estate shall be paid to the legal representative of the estate. Should no such representative be qualified, the Corporation may pay the indemnity to the person(s) it determines to be beneficially entitled thereto or to any one or more of such persons on behalf of all such persons, or may withhold payment until a legal representative of the estate is qualified. In such cases, and in any other case where an indemnity is claimed by a person(s) other than the original insured or diverse interests appear with respect to any insurance unit the determination of the Corporation as to the existence or non-existence of a circumstance in the event of which payment may be made and of the person(s) to whom such payment shall be made shall be final and conclusive. Payment of an indemnity shall constitute a complete discharge of the Corporation's obligations with respect to the loss for which such indemnity is paid and shall be a bar to recovery by any other person(s).

24. *Other insurance.* (a) If the insured has or acquires any other insurance against substantially all the risks that are insured against by the Corporation under the contract, regardless of whether such other insurance is valid or collectible, the liability of the Corporation shall not be greater than its share would be if the amount of its obligations were divided equally between the Corporation and such other insurer.

(b) In any case where the insured is paid by another Government agency for damage to the flax crop, the Corporation reserves the right to deduct from any indemnity the amount paid by such other agency.

25. *Subrogation.* The insured shall assign to the Corporation all rights of recovery against any person(s) for loss or damage to the extent that payment therefor is made by the Corporation, and the insured shall execute all papers required and shall do everything that may be necessary to secure such rights.

26. *Collateral assignment.* The original insured may assign his right to an indemnity for any year under the contract by executing a Corporation form entitled "Collateral Assignment" and upon approval thereof by the Corporation the interest of the assignee will be recognized and the assignee shall have the right to submit the loss notices and forms as required by the contract if the insured neglects or refuses to take such action.

27. *Records and access to farm.* For the purpose of enabling the Corporation to determine any loss that may have occurred under the contract, the insured shall keep or cause to be kept, for two years after the time of loss, records of the harvesting, storage, shipment, sale or other disposition, of all flax produced on each insurance unit covered by the contract, and separate records showing the same information for production on any uninsured acreage in the county in which he has an interest. As often as may be reasonably required, any person(s) designated by the Corporation shall have access to such records and the farm(s) for purposes related to the contract.

28. *Voidance of contract.* The Corporation may void the contract and declare the premium(s) forfeited without waiving any right or remedy including the right to collect the amount of the premium note, if (a) at any time, either before or after loss, the insured has concealed or misrepresented any material fact or committed any fraud relating to the contract, or the subject thereof, or (b) the insured shall neglect to use all reasonable means to produce, care for or save the flax crop whether before or after damage has occurred, or (c) the insured fails to give any notice, or otherwise fails to comply with the terms of the contract, including the premium note, at the time and in the manner prescribed.

29. *Modification of contract.* No notice to any representative of the Corporation or the knowledge possessed by any such representative or by any other person shall be held to effect a waiver of or change in any part of the contract, or to estop the Corporation from asserting any right or power under such contract, nor shall the terms of such contract be waived or changed except as authorized in writing by a duly authorized officer or representative of the Corporation; nor shall any provision or condition of this contract or any forfeiture be held to be waived by any delay or omission by the Corporation in exercising its rights and powers thereunder or by any requirement, act, or proceeding on the part of the Corporation or of its representatives relating to appraisal or to any examination herein provided for.

30. *General.* (a) In addition to the terms and provisions in the application and policy, the Flax Crop Insurance Regulations for Continuous Contracts in effect for the crop year involved shall govern with respect to (1) minimum participation requirements, (2) closing dates for filing applications for insurance, (3) refund of excess note payments, and (4) creditors.

(b) Copies of the regulations and forms referred to in this policy are available at the county office.

(c) When the cancellation date or the closing date for filing applications falls on a Sunday or other day on which the county office is not officially open for business, such date shall be extended to the next business day.

31. *Meaning of terms.* (a) "Consecutively insured crops" means the flax crops insured in consecutive years during which insurance was available. Failure to apply for insurance in any year when insurance is offered in the county in which the insured's farm is located, shall break the insured's continuity of consecutively insured crops prior to such year, even though insurance may not be provided in the county during such year because of failure to meet the minimum participation requirement: *Provided, however,* That failure to apply for insurance for any year will not break the continuity of consecutively insured crops, if (1) the failure to apply for insurance was due to service in the active military or naval service of the United States, or (2) the insured establishes to the satisfaction of the Corporation that failure to apply for insurance for any crop year was due to the fact that flax was not seeded in that year.

(b) "Contract" means the accepted application for insurance and this policy.

(c) "County Actuarial Table" means the form(s) and related materials (including the crop insurance maps) which are approved annually by the Corporation and show the price per bushel, the coverages per acre and the premium rates per acre applicable in the county.

(d) "County office" means the office of the County Production and Marketing Administration in the county unless another office is specified by the Corporation.

(e) "Crop year" means the period within which the flax crop is seeded and normally harvested, and shall be designated by reference to the calendar year in which the crop is normally harvested.

(f) "Harvest" means the mechanical severance from the land of matured flax for threshing where the flax crop has not been destroyed.

(g) "Person" means an individual, partnership, association, corporation, estate, or trust, or other business enterprise or other legal entity, and, wherever applicable, a State, a political subdivision of a State, or any agency thereof.

(h) "Substitute crop" means any crop, except biennial and perennial legumes and perennial grasses, planted on released acreage before harvest of flax becomes general in the county as determined by the Corporation. Biennial and perennial legumes and perennial grasses seeded with the flax or in the growing flax crop shall not be considered a substitute crop.

(i) "Tenant" means a person who rents land from another person for a share of the flax crop or proceeds therefrom produced on such land.

NOTE: The record keeping requirements of these regulations have been approved by, and subsequent reporting requirements will be subject to the approval of, the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Adopted by the Board of Directors on September 4, 1952.

[SEAL] R. J. POSSON,
Secretary,
Federal Crop Insurance Corporation.

Approved: September 15, 1952.

C. J. MCCORMICK,
Acting Secretary of Agriculture.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 951—TOKAY GRAPES GROWN IN SAN JOAQUIN AND SACRAMENTO COUNTIES IN CALIFORNIA

BILLING DATE; COMPUTATION OF 72-HOUR LIMITATION

Notice is hereby given of the approval by the Secretary of Agriculture of the amendment, as hereinafter set forth, to the rules and regulations (7 CFR 951.100 et seq.; Subpart—Rules and Regulations) of the Industry Committee, established under the marketing agreement, as amended, and Order 51, as amended (7 CFR Part 951; 17 F. R. 7417), regulating the handling of Tokay grapes grown in San Joaquin and Sacramento Counties in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

The aforesaid amendment defines the term "billing date," as used in §§ 951.60 through 951.68 of the said amended marketing agreement and order, so as to give recognition to recent revisions in

railroad freight schedules. Under regulations pursuant to the provisions of §§ 951.60 through 951.68 of the said amended marketing agreement and order, grapes held at railroad assembly points are released for continued shipment by the Industry Committee in the order of priority of billing date which currently corresponds to a particular calendar day. The revised railroad freight schedules provide expedited service on cars of grapes billed prior to 8:00 p. m. of a particular day over cars of grapes billed on or after 8:00 p. m. of such day. Since such regulations are designed to regulate the flow of shipments of Tokay grapes, the term "billing date" should be redefined to permit the release of cars of grapes billed prior to 8:00 p. m. of a particular day at an earlier time than those cars of grapes that are billed on or after 8:00 p. m. of such day. The provisions of the amended marketing agreement and order specifically authorize, in subparagraph (5) of § 951.60 (e), changes in the meaning of the term "billing date" to reflect such additional conditions as may develop.

It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date hereof until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that: Volume shipments of Tokay grapes are now being made; such shipments are currently subject to grade and size limitation (17 F. R. 7774) under this program; it may become necessary, in accordance with the requirements of § 951.62 of the amended marketing agreement and order, to limit in the immediate future, the total daily shipments of such grapes in order to effectuate the declared policy of the act; and this amendment should be effective prior to any such limitation of daily shipments so as to maintain equity between handlers of grapes in accordance with the revised railroad freight schedules.

The amendment of the aforesaid rules and regulations, effective upon issuance hereof, is as follows:

1. Delete § 951.107 *Billing date* and insert, in lieu thereof, the following:

§ 951.107 *Billing date.* As provided in § 951.60 (e) (5), "billing date" means (a) with reference to grapes in a railroad car shipped to a railroad assembly point but not precooled at such point, the date shown on the bill of lading if such bill of lading was issued prior to 8:00 p. m. of that date; (b) with reference to grapes in a railroad car shipped to a railroad assembly point but not precooled at such point, one calendar day after the date shown on the bill of lading if such bill of lading was issued on or after 8:00 p. m. of that date; (c) with reference to grapes in a railroad car shipped to a railroad assembly point and precooled at such point, one calendar day after the date shown on the bill of lading if such bill of lading was issued prior to 8:00 p. m. of that date; (d) with reference to grapes in a railroad car shipped to a railroad assembly point and precooled at such point, two calendar days after the date shown on the bill of lading if such bill of lading was issued on or after 8:00 p. m. of that date; and (e) with reference to a car of grapes or the equivalent thereof at a cold storage assembly point, the second calendar day subsequent to the day of actual delivery of such grapes at such point, and any car of grapes which were received at the cold storage assembly point in diverse quantities shall have its billing date computed as the second calendar day subsequent to the day the last package of said car is delivered to the cold storage assembly point.

2. Delete § 951.131 *Computation of 72-hour limitation* and insert, in lieu thereof, the following:

§ 951.131 *Computation of 72-hour limitation.* The time that a car of grapes is held at a railroad assembly point, within the meaning of § 951.65 (d), shall be computed from the time that said car could have departed from said assembly point under then current railroad freight schedules. No car of grapes eligible for release shall be held at a railroad assembly point longer than 72 hours.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c; 7 CFR 951.60 (e) (5))

Done at Washington, D. C., this 15th day of September 1952.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 52-10223; Filed, Sept. 18, 1952; 8:50 a. m.]

PART 986—HOPS GROWN IN OREGON, CALIFORNIA, WASHINGTON, AND IDAHO, AND HOP PRODUCTS PRODUCED THEREFROM IN THESE STATES

BUDGET OF EXPENSES FOR MARKETING SEASON BEGINNING AUGUST 1, 1952, AND RATE OF ASSESSMENT

Notice of proposed rule making, with respect to a budget of expenses of the Hop Control Board for the marketing season beginning August 1, 1952, and rate of assessment, was published in the FEDERAL REGISTER of August 20, 1952 (17 F. R. 7602), pursuant to provisions of Marketing Agreement No. 107, as amended, and Order No. 86, as amended, regulating the handling of hops grown in Oregon, California, Washington, and Idaho, and of hop products produced therefrom in these States (17 F. R. 6626), effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). In said notice, opportunity was afforded interested persons to submit to the Department written data, views, or arguments for consideration prior to issuance of the final rule. No such documents were received during the time specified in the notice.

It is hereby found and determined that it is unnecessary and contrary to the public interest to delay the effective date of the order contained herein until thirty (30) days after publication in the FEDERAL REGISTER, for the reasons that (1) handling of hops of the 1952 crop is about to begin and all hops of such crop handled are to be subject to the assessment rate set forth herein, and (2) the order herein will require no special preparation by handlers or the Hop Control Board.

The approval of the order set forth herein does not constitute approval of the payment by the Hop Control Board of any salary or wage which is not in compliance with the regulations of the Wage Stabilization Board.

Therefore, after consideration of all relevant matters, it is found and determined that the budget of expenses of the Hop Control Board and rate of assessment shall be as follows:

§ 986.303 *Budget of expenses for the marketing season beginning August 1, 1952, and rate of assessment*—(a) *Budget of expenses.* Expenses in the amount of $154,450 are reasonable and likely to be incurred by the Hop Control Board (including but not limited to the Growers Allocation Committee and the several Growers Advisory Committees) for its maintenance and functioning during the marketing season beginning August 1, 1952; and

(b) *Rate of assessment.* The rate of assessment for the marketing season beginning August 1, 1952, shall be fourtenths (4/10) of a cent per pound, net dry weight, of hops handled, and the assessment rate of any hop product shall be based upon the assessment rate for hops, and shall be computed at such conversion ratio or ratios between hops and the respective hop product as determined pursuant to § 986.73 of said amended agreement and order.

(Sec. 5, 49 Stat., as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 15th day of September 1952, to become effective upon the publication of this document in the FEDERAL REGISTER.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 52-10224; Filed, Sept. 18, 1952; 8:51 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 1]

PART 1—CERTIFICATION, IDENTIFICATION, AND MARKING OF AIRCRAFT AND RELATED PRODUCTS

This supplement was necessitated by the revision of Part 1 to supersede Part 2 and sections of Part 43. It consists of rules, policies, and interpretations issued by the Civil Aeronautics Administration relating to aircraft type, production, and airworthiness certification; aircraft and aircraft product identification; and aircraft nationality and registration marks. The proposed rules were published on November 17, 1951, in 16 F. R. 11697; interested persons were afforded an opportunity to submit data, views, or arguments; and consideration was given to all relevant matter presented. The following rules, policies, and interpretations are hereby adopted.

TYPE CERTIFICATES

Sec.
1.10–1 Application for type certificate.
1.11–1 Appliances.
1.12–1 Requirements for issuance of type certificates.
1.14–1 Transferability.
1.15–1 Inspection.
1.19–1 Statement of conformity.

CHANGES IN TYPE DESIGN

1.20–1 Changes in type design..

PRODUCTION CERTIFICATES

1.30–1 Production Certificate.
1.30–2 Submitting application.
1.30–3 Processing application.
1.32–1 Issuance of a production certificate.
1.32–2 Production certification requirements.
1.33–1 Location of manufacturing facilities.
1.34–1 Quality control.
1.35–1 Statement of conformity.
1.36–1 Data required from prime manufacturer.
1.37–1 Data required from subsidiary manufacturers.
1.38–1 Modification of required data.
1.39–1 Multiple products.
1.40–1 Production limitation record.
1.41–1 Modifying a production limitation record.
1.42–1 Transferability.
1.43–1 Inspection by CAA representative.
1.44–1 Duration.
1.45–1 Display.

AIRCRAFT AND PRODUCT IDENTIFICATION

1.50–1 Identification.

AIRWORTHINESS CERTIFICATES

1.60–1 "Registered owner."
1.60–2 Application form.
1.60–3 Processing application.
1.60–4 Airworthiness certificates.
1.61–1 Airworthiness certificate classifications.
1.62–1 Changing airworthiness classification.
1.64–1 Duration of airworthiness certificate.
1.65–1 Display of airworthiness certificate.
1.69–1 Issuance of restricted airworthiness certificates.
1.70–1 Issuance of multiple airworthiness certificates.
1.71–1 Issuance of limited airworthiness certificates.
1.72–1 Procedure to be followed for recertification in the "limited category."
1.73–1 Experimental airworthiness certification.
1.74–1 Requirements for the issuance of experimental airworthiness certificates.
1.74–2 Additional information.
1.74–3 Certification of amateur-built aircraft.
1.75–1 Special flight permits.
1.76–1 Application for permit.
1.76–2 Airworthiness.
1.76–3 Flight restrictions.

AIRCRAFT NATIONALITY AND REGISTRATION MARKS

1.101–1 Assignment of registration numbers.
1.108–1 Identification marks for nonconventional aircraft.

AUTHORITY: §§ 1.10–1 to 1.108–1 issued under sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply secs. 601, 603, 52 Stat. 1007, 1009, as amended; 49 U. S. C. 551, 553.

TYPE CERTIFICATES

§ 1.10–1 *Application for type certificate (CAA rules which apply to § 1.10)*—(a) *Application for aircraft type certificate, Form ACA–312.*[1] (1) This application shall be submitted in duplicate by the applicant to the appropriate regional office of the Civil Aeronautics Administration.

(2) The application shall be accompanied by a three-view drawing and such preliminary basic data as the applicant may have available.

(b) *Application for an engine type certificate, Form ACA–312.*[1] This application shall be submitted in duplicate, together with preliminary technical data as required by Part 13 of this subchapter, to the Aircraft Engineering Division, Civil Aeronautics Administration, Washington 25, D. C.

(c) *Application for a propeller type certificate, Form ACA–312.*[1] (1) This application, together with Form ACA–335,[1] propeller supplement to application for type certificate, ACA–312, shall be submitted in duplicate to the Aircraft Engineering Division, Civil Aeronautics Administration, Washington 25, D. C.

(2) The Form ACA–335 shall contain a description of the design features, the proposed rating, and intended application of the propeller.

(3) The preliminary data as required in Part 14 of this subchapter, and the application forms shall be submitted prior to starting any portion of the official type test.

NOTE: The application, Form ACA–312, serves as a formal request by the applicant and shall be submitted for each new model eligible for approval under the terms of a type certificate.

§ 1.11–1 *Appliances (CAA policies which apply to § 1.11).* Inasmuch as Part 15 of this subchapter has been rescinded, that portion of § 1.11 relating to "appliances" may be considered as no longer applicable. Appliances formerly covered by Part 15 of this subchapter are now covered by Technical Standard Orders. Likewise, items formerly approved under a Product and Process Specification, have, for the most part, been covered by Technical Standard Orders. Those items formerly covered by Product and Process Specifications which as yet are not approved under the Technical Standard Order system should be approved as a part of the airplane. (Procedures relating to the type certification of communications equipment are contained in CAM 16.)

§ 1.12–1 *Requirements for issuance of type certificates (CAA policies which apply to § 1.12).* (a) The requirements for the issuance of a type certificate for an aircraft may be found in the following parts of this subchapter:

(1) Part 3—Airplane Airworthiness; Normal, Utility, Acrobatic and Restricted Purpose Categories.

(2) Part 4a—Airplane Airworthiness.

NOTE: Applies to new airplanes for which application for type certificate was received prior to the effective dates prescribed in Part 3 of this subchapter, dated November 1, 1949, and Part 4b of this subchapter, dated October 1, 1949.

(3) Part 4b—Airplane Airworthiness; Transport Categories.

(4) Part 5—Glider Airworthiness.

(5) Part 6—Rotorcraft Airworthiness.

(6) Part 8—Aircraft Airworthiness; Restricted Category.

(7) Part 9—Aircraft Airworthiness; Limited Category.

(8) Part 13—Aircraft Engine Airworthiness.

(9) Part 14—Aircraft Propeller Airworthiness.

(10) Part 16—Aircraft Radio Equipment Airworthiness.

§ 1.14–1 *Transferability (CAA interpretations which apply to § 1.14).* The CAA and the manufacturer to whom the type certificate is issued are the first and second persons involved, and any other person to whom the type certificate holder may transfer privileges incidental to the type certificate is the "third person."

§ 1.15–1 *Inspection (CAA policies which apply to § 1.15)*—(a) *Complete aircraft.* (1) In addition to the inspection of the prototype aircraft for conformity with the design data, all aircraft subsequently produced without benefit of a production certificate will be subjected to conformity inspection by a representative of the Administrator to determine conformity with the type design.

(2) Aircraft manufactured under a type certificate only should be flight tested in accordance with requirements contained in § 1.19, and in accordance with procedures outlined in § 1.36–1 (d).

(b) *Complete engines.* Each engine produced under the terms of a type certificate only should be subjected to a satisfactory test run consisting of break-in runs which should include a determination of fuel and oil consumption and maximum power characteristics. This test run should include five hours of operation at the maximum rating, of which at least thirty minutes should be at take-off power and speed where this rating is in excess of the maximum continuous rating. Subsequent to the completion of a test run, as described in this paragraph, each engine should be subjected to such internal inspections and examinations by a CAA representative as may be necessary to ascertain that no unsafe condition exists. This test may be conducted with the engine mounted on a torque stand or on a fixed stand with a calibrated test club or propeller.

(c) *Complete propellers and appliances.* The nature and extent of functional or other tests and conformity inspections required in connection with the approval of propellers and other appliances manufactured under the terms of a type certificate only will be determined by a representative of the Administrator and will depend upon the nature and complexity of the product and production processes involved.

(d) *Inspection approval of complete products.* When products other than complete aircraft or communications equipment (individual airworthiness certificates are issued for aircraft) are manufactured under the terms of a type certificate only, the Aviation Safety Agent, having determined by inspection that the product is acceptable, will prepare and attach thereto, by means of a lead seal, an Approval Tag, Form ACA 186. This tag will show the make and model of the product tagged, will indicate that the product has been inspected

[1] The reporting requirements of this form have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

and approved, and will be signed by the CAA Agent.

(e) *Shipment of unassembled aircraft.* Aircraft manufactured under a type certificate only; i. e., without benefit of a production certificate, may be shipped unassembled, provided: (1) The aircraft is assembled and flight tested by the manufacturer prior to shipment; (2) the aircraft is inspected for conformity and airworthiness by an Aviation Safety Agent at the manufacturer's plant; and (3) Approval Tags, Form ACA 186, are attached to all major assemblies, components, and boxes of parts. These tags will be signed by the Aviation Safety Agent and will indicate the make, model, and serial number of the aircraft.

(f) *Inspection approval of major components.* Likewise, any major spare or replacement component of an aircraft, aircraft engine, propeller, or appliance manufactured under a type certificate only will be inspected for conformity and airworthiness by an Aviation Safety Agent. All such major assemblies or components, upon determination of acceptability, will be tagged with Approval Tags, Form ACA 186, which identify the part to which attached and indicate the make and model of the aircraft, engine, propeller, etc., and the Aviation Safety Agent's signature.

(g) *Inspection approval of major components fabricated by a subsidiary manufacturer.* The conformity, quality, and acceptability of major components and critical parts manufactured by a subsidiary manufacturer in accordance with the prime manufacturer's approved drawings will be determined in accordance with § 1.34–1 (a) (2), except that, in accordance with § 1.15, an agent of the CAA will conduct such additional inspections as may be deemed necessary to determine conformity, compliance, and acceptability of materials and workmanship.

§ 1.19–1 *Statement of conformity (CAA rules which apply to § 1.19).* The manufacturer of any prototype product presented for type certification, or the manufacturer of a type certificated product manufactured without the benefit of a production certificate, shall present to a representative of the Administrator a properly executed Statement of Conformity, Form ACA 317.[2] The Statement of Conformity, Form ACA 317, shall certify that the completed product submitted for type inspection or certification has been manufactured in accordance with the current technical data approved by the Administrator, except for any deviations therefrom which shall be listed and described on the form. The Statement of Conformity shall be signed by a person who holds a responsible position in the manufacturer's organization and who has been authorized to perform this function by the holder of the type certificate or licensing agreement.

[2] The reporting requirements of this form are subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

CHANGES IN TYPE DESIGN

§ 1.20–1 *Changes in type design (CAA policies which apply to § 1.20).* Any design change which may affect the flight characteristics, structural integrity, or airworthiness of an aircraft, engine, propeller, or appliance for which a type certificate has been issued may require the submission of additional technical data. The examination of these data may indicate the necessity for additional engineering evaluation, inspection, and tests to substantiate the airworthiness of the product as modified.

PRODUCTION CERTIFICATES

§ 1.30–1 *Production certificate (CAA interpretations which apply to § 1.30).* A production certificate is a document issued by the Administrator to a manufacturer certifying that the manufacturer's organization, facilities, and production and quality control systems in a particular location have been inspected by the CAA and found adequate for the production of duplicates of the product for which a type certificate has been issued.

§ 1.30–2 *Submitting application (CAA rules which apply to § 1.30).* The application for a Production Certificate, Form ACA 332,[1] shall be submitted, in duplicate, to the appropriate regional office of the Civil Aeronautics Administration. The data required in § 1.36 shall be submitted with the application.

§ 1.30–3 *Processing application (CAA policies which apply to § 1.30).* Upon receipt of an application and supporting production certification data (see § 1.36), the CAA will examine these data, and if they are considered satisfactory, issue a Manufacturing Inspection Authorization, Form ACA 313, authorizing an inspection of the applicant's facilities, organization, and systems to determine their adequacy for the production of duplicates of the product. If the application and supporting data submitted are not considered satisfactory, the CAA will so notify the applicant, and request supplemental information or data, as required, prior to issuing the manufacturing inspection authorization. Upon issuance of the manufacturing inspection authorization, an agent will be assigned to conduct the required inspection and report the results thereof on the Manufacturing Inspection Report, Form ACA 314.

§ 1.32–1 *Issuance of a production certificate (CAA policies which apply to § 1.32).* Upon receipt of an approved Manufacturing Inspection Report, Form ACA 314, from the Aviation Safety Agent who conducted the inspections, the CAA will issue a Production Certificate, Form ACA 333, together with a Production Limitation Record, Form ACA 333a. The original of the production certificate and the original of the production limitation record will be delivered to the applicant.

§ 1.32–2 *Production certification requirements (CAA policies which apply to § 1.32).* The following provisions are considered a minimum in determining the eligibility of a manufacturer for a production certificate and are intended to be used by the Aviation Safety Agent as a guide in conducting the factory inspection:

(a) *Materials and parts.* The manufacturer should have reliable sources for obtaining materials and parts which are uniform in quality and suitable for aircraft construction.

(b) *Purchasing.* The manufacturer's method of purchasing should be such as to provide a check on the suitability of the materials received. Recognized specifications should be used as a basis for purchase orders when possible. The specification should be sufficiently detailed and comprehensive to insure procurement of material of a uniformly high grade, equaling or exceeding the minimum strength properties assumed in the structural design data approved by the CAA.

Deviations from this procedure may be made under the following conditions:

(1) The manufacturer may use materials, subassemblies, and essential components obtained from a supply source specializing in the manufacture of aircraft material and parts. In this case, he should ascertain that the supply source is following the procedures outlined in this paragraph, and should require copies of the applicable verified test and inspection reports with his purchases.

(2) Manufacturers may establish their own specifications, provided these are submitted to the appropriate CAA regional office for approval.

(c) *Records of purchases.* The manufacturer should maintain complete records of all purchases and the disposition of such purchases for a period of at least two years to enable him to check back on any particular lot of material in which defects may later be found.

(d) *Records of inspection.* The manufacturer should have an established procedure for the inspection of all purchases before placing them in the stockroom. Records of all incoming inspections should be maintained by the manufacturer for at least two years. They should include information concerning source, source inspection, receiving inspection, quantity (both accepted and rejected), vendor's affidavits, or reports indicating conformity with recognized aircraft standards and disposition of materials handled.

(e) *Stockroom.* The manufacturer should maintain a clean, orderly, and carefully managed stockroom and have:

(1) An adequate number of shelves, bins, or other individual storage spaces which are properly marked;

(2) Provisions for keeping records in an orderly manner;

(3) Boundaries defined by partitions with a designated opening through which all stock is issued in order to prevent access to the stock by unauthorized personnel;

(4) A responsible person in charge of all entries, storing, withdrawals and an appropriate system for recording them;

[1] The reporting requirements of this form have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(5) All stock in designated places, except temporarily during sorting and inspection;

(6) No material or parts stocked which are known to be defective or damaged, even though they may be so marked.

There is no objection to combining toolroom with stockroom.

(f) *Identification of stock.* Provisions should be made for the appropriate storing and identification of incoming material and parts or manufactured parts in such a manner as to preclude the inadvertent issuing of the wrong part or material. Particular attention should be given to the segregation and identification of items of a similar appearance but with different physical characteristics.

(g) *Protection of stock.* Adequate protection should be provided for materials subject to damage from abrasion, sunlight, temperature, moisture, grease, or corrosion.

(h) *Production.* (1) Production control procedures should be established to insure proper routing of materials and parts for inspection. Suitable means should be provided for identifying parts or materials as they progress through the factory. This could be a production job card which specifies materials to be used, processing flow, and specific inspection operations, and provides a place for recording the completion of each of these operations. This card should accompany the part or assembly through all its stages of operation and will be a complete record of production, inspection, and processes involved.

(2) It is realized that equivalent procedures may be employed and these are acceptable provided the control is adequate to preclude unfinished, inferior, or damaged parts being installed in the completed products.

(i) *Facilities.* (1) The manufacturer's facilities should be adequate to produce units in conformity with the technical design data for which the type certificate is granted.

(2) Accommodations should be provided which will adequately protect both the facilities and the product during fabrication. Provisions should be made to isolate processes which adversely affect or may be affected by other operations.

(3) The amount and type of equipment required will depend upon the complexity of the product and the rate and volume of production.

(j) *Processes.* (1) Production manufacturing processes such as woodworking, gluing, welding, heat treatment, metal work, etc., employed by the applicant, should be so controlled as to produce parts and assemblies which are equivalent to the original approved product.

(2) In addition to controlling manufacturing processes, a definite procedure should be established and followed in connection with each process employed so that conformity of material, workmanship, and standards is maintained.

(i) Woodworking: Provisions should be made to maintain the moisture content of wood within approved limits during fabrication. (Ref. ANC 19a, "Wood Aircraft Inspection and Fabrication.")

(ii) Gluing: Gluing operations should be performed in accordance with a process specification found to be acceptable.

(iii) Welding and brazing: When a welding or brazing process such as flash welding or induction brazing requires close control in order to consistently produce acceptable parts, the process should be performed in accordance with a process specification found to be acceptable.

(iv) Heat treatment: Under the category of heat treatment come all processes for the conditioning of metals by heat; such as hardening, tempering, annealing, normalizing, etc., of both ferrous and nonferrous metals. Rigid procedures should be established to control heat-treat operations in order to assure that desired properties are obtained. In the event parts are heat-treated by an outside agency, it is the responsibility of the production certificate holder to determine the adequacy of such agency, and the acceptability of the results.

(v) Metal work: The fabrication of metal parts by various forming and machining operations should be controlled by the observance of approved standards to attain the surface finishes which are indicated on approved drawings, regular contours, etc., required in metal structures.

(k) *Quality control.* For additional "requirements for issuance," as provided for in § 1.32, see requirements for "quality control" as provided for in § 1.34–1.

§ 1.33–1 *Location of manufacturing facilities (CAA policies which apply to § 1.33).* Subsidiary manufacturers' facilities should be located within the United States, since it is not feasible to conduct the required inspections beyond these limits without placing undue burden on the CAA.

§ 1.34–1 *Quality control (CAA policies which apply to § 1.34).* The following shall be considered as a minimum in determining the acceptability of the manufacturer's quality control system as provided for in § 1.34:

(a) *Inspection system.* The activities of the aircraft industry are of such number and variety that it is impracticable, within the scope of this manual, to give more than a general outline of the manner in which an approved inspection organization should operate.

(1) *Inspection—prime manufacturer.* (i) The prime manufacturer's inspection organization should be controlled by a chief inspector who, in turn, should be directly responsible to the management of the firm so that his decisions are not influenced by considerations other than the quality of the work for which he is responsible. It is also essential that the chief inspector control inspection through all departments of the firm. If such an arrangement is not possible by reason of the fact that certain departments are engaged in specialized work, these departments should operate under a separate inspection system. However, their activities should be coordinated under the general supervision of a quality control organization. The same procedure should apply in the case of dispersed or branch facilities of a main organization when inspection activity is divided.

(ii) The inspection system should be so organized that parts and materials will receive appropriate inspection while in an inspectable condition. Spot and sampling inspection systems may be considered as meeting these requirements provided the prime objectives of conformity, airworthiness, and safety are assured.

(iii) The inspection department should be provided with tools and equipment necessary to conduct all phases and types of inspection and tests essential to the continued production of duplicate products. Master templates, precision tools, and gauges should be readily available and used by the inspection department. The tools used by the production department in constructing the part, if used by inspection, should be periodically checked to determine that the results obtained are within approved tolerances and that conformity with approved design data is maintained.

(iv) Clearly defined areas for inspection of large units on the production floor and cages or booths for smaller items should be provided in order that the inspectors may operate efficiently and without interference.

(v) Definite procedures should be established for delivering parts to the inspection booths and for removing and storing inspected parts in order that installation of uninspected parts will be prevented.

(vi) After the manufacturer's facilities are approved for a production certificate, detailed inspection by the CAA of each part or component during fabrication will not normally be necessary. Continuation of this procedure will depend upon the extent to which the manufacturer maintains the adequacy of such facilities and the conformity and quality of the article produced.

(vii) Civil Aeronautics Administration personnel will spot-check to determine whether individuals in the inspection department are capable and fulfill their duties in an efficient manner.

(2) *Inspection; subsidiary manufacturer.* The following is in reference to major components, assemblies, or critical parts which are fabricated by a subsidiary manufacturer in accordance with the prime manufacturer's (type certificate holder's) approved drawings. This relates only to those components and parts which are delivered to the prime manufacturer for installation on or in the type certificated product. It will be necessary that the prime manufacturer or his authorized representative conduct such inspections and investigations as may be necessary to determine the acceptability of such parts before they are presented to the CAA for inspection in the final configuration. Acceptability, as referred to in this subparagraph, includes determination of compliance with related regulations and standards, conformity with approved design data forming the basis for type certification of the finished product, and the general acceptability and airworthiness of ma-

UNIVERSITY OF MICHIGAN LIBRARIES

terials and workmanship incorporated in these products, as provided for in § 1.15 with respect to products manufactured under a type certificate only, or as provided herein with respect to products manufactured under a type and production certificate. If these major components, assemblies, or critical parts are of such a nature that they cannot be properly inspected for determination of acceptability when received at the prime manufacturer's facilities, it will be the responsibility of the prime manufacturer to arrange for the performance of such inspections at the subsidiary manufacturer's plant as may be necessary to make these determinations. Examples of the assemblies, components, and parts referred to above include covered wings, covered control surfaces, rotary gear box assemblies, landing gear assemblies, and other critical parts, the malfunctioning or failure of which might adversely affect the operational characteristics or safety of the aircraft. The prime manufacturer holds basic responsibility for the conformity, airworthiness, and acceptability of the finished product, and, in accordance with § 1.19, will be required to submit a statement of conformity with respect to each product manufactured under a type certificate only which is to be presented for CAA approval in the case of engines, propellers, etc., or certification in the case of an aircraft. The prime manufacturer should arrange with the subsidiary manufacturers to permit CAA inspection at the subsidiary manufacturers' plants on request from authorized Aviation Safety Agents.

(b) *Inspection records.* (1) Inspection records should be maintained which are complete and present a historical compilation of all events during the course of manufacture. Smaller parts, which are inspected in quantities, should be segregated, tagged, stamped, or otherwise marked after having been inspected.

(2) It is recommended that continuous records of all parts be maintained which indicate the name, drawing number, number of pieces inspected, and the number accepted and rejected.

(3) At final assembly, the inspection forms for the components of the completed unit should be identified with the complete unit, so that they may be traced at a later date if it becomes necessary to place responsibility for inspection of various components or to determine that all components have been inspected.

(4) Company production inspection forms and records should be retained in the files of the manufacturer for at least one year subsequent to the date of sale and delivery of the product involved. Under such a system, individual inspection responsibility may be established at a later date.

(c) *Inspector's identification.* All parts inspected and approved should be permanently marked when practicable to identify the individual inspector responsible.

(d) *Inspectors required.* The number of inspectors required to perform the necessary inspection will vary with the complexity of the product and of processes involved. It will also vary between departments and with labor conditions. Under any circumstances there should be sufficient inspection personnel to adequately check all processes and products to the extent necessary to provide reasonable assurance of conformity, quality, and acceptability of the finished product. Spot and sampling inspection systems may be considered as meeting these requirements provided the prime objective of conformity, airworthiness, and safety is assured. Inspection personnel should be vested with sufficient authority to permit them to perform their assigned duties in a manner which will warrant the issuance or continuation of a production certificate, provided other requirements are complied with.

(e) *Material review.* Procedures should be established for the satisfactory processing of items rejected due to damage or manufacturing errors, but which, by reason of action by the Material Review Board, are found to be serviceable. Such procedures should provide for the routing of salvaged or reworked parts for reinspection, the maintenance of complete records concerning the salvage or rework operations and the results of reinspection.

(f) *Technical data.* A system should be established whereby detailed drawings and other technical data are available to both production and inspection personnel.

§ 1.35–1 *Statement of conformity (CAA policies which apply to § 1.35).* The Statement of Conformity, Form ACA 317,[2] also will not be required for a product to be exported, provided the product is produced under the terms of a production certificate.

§ 1.36–1 *Data required from prime manufacturer (CAA policies which apply to § 1.36).* The production certification data (one copy only) should be submitted with the application for a Production Certificate, Form ACA 332,[1] to the local factory agent of the CAA. The data should outline the preparation which has been made by the applicant to produce and maintain the conformity and quality of the products for which the production certificate is requested. These data should be limited to those essential to the determination of acceptability of a manufacturer's organization, facilities, and systems, insofar as they are related to fabrication methods, processes, determination of conformity with approved design data, and the maintenance of quality in products involved, including at least the following:

(a) A general description of the manufacturer's layout and production flow. Manufacturer's layout and production flow charts will be accepted provided they indicate the major operations involved.

(b) A listing and description of any special processes required by the design of the product to be produced. The term "special processes" is intended to include any processes requiring specific approval; such as, brazing, soldering, gluing, material treatment, etc. A manufacturer's prepared process specification may be submitted in lieu of the description.

(c) A description of the established quality control organization, its functions and responsibilities, together with an organizational chart indicating line of authority for quality control and inspection responsibilities. These data should contain an outline of methods and procedures established by the manufacturer for the maintenance of quality and standards of acceptability and of implementing forms and records utilized in connection therewith, except as may have been otherwise submitted as a part of the type certification data.

(d) Production flight tests or operational tests for new products: A description of the production flight test procedures, including a copy of the flight check-off list. For products other than aircraft, an outline describing any production operational test to be employed in determining that the finished product conforms with the type design and is functionally satisfactory.

(1) *Production aircraft flight testing.* Aircraft manufacturers will develop production flight test procedures and a flight test check-off form to be used in connection with the initial flight testing of new production aircraft. This flight test procedure will apply to aircraft which are assembled and flight tested at the manufacturer's plant, and to those which are delivered unassembled to an authorized distributor by whom they will be initially assembled and flight tested.

(i) Data to be submitted in substantiation of the flight test procedure to be established and the acceptability of the production flight test procedure and of the flight test check-off form will be determined by the CAA. Production flight test procedures and flight test check-off forms, having once been approved, will be periodically checked by the CAA to determine continued acceptability. A production flight test check-off form, inasmuch as this is considered a functional and reliability test, should provide for at least the following:

(*a*) A functional check of each part or system normally operated by the crew while in flight.

(*b*) A functional check of the trim, controllability, and other operational characteristics of the aircraft throughout the normal range of operation while in flight.

(*c*) A check of the operational characteristics of the aircraft on the ground.

(*d*) A determination that all instruments are properly marked, that all readings are within the normal range, and that all gauges and control markings are correct.

(*e*) Any other items peculiar to the aircraft being tested which can best be checked during the ground operation or flight of the aircraft.

(*f*) A record of the date or dates and duration of production flight tests.

(ii) Flight test procedures established at a distributor's plant should be equivalent to those established at the manufacturer's plant, including the use of an identical flight test check-off form. The manufacturer should acquaint authorized distributors with flight test procedures established at the manufacturer's plant and provide them with copies of the approved flight test check-off form. These forms, when prepared by the manufacturer, will be filed as a part of the aircraft inspection record and, when prepared by an authorized distributor, will be returned (copy or original) to the manufacturer and likewise filed.

(iii) Aircraft manufactured under a type certificate only should be initially assembled and flight tested at the manufacturer's plant prior to airworthiness certification. These flight tests should be conducted by, or under the supervision of, CAA flight test agents. At the discretion of these agents, this responsibility may, to the extent determined expedient in each case, be delegated to the manufacturer.

(iv) Aircraft manufactured under a production certificate will be flight tested periodically by the CAA. The number or percentage of aircraft flight tested by the CAA will be dependent upon the complexity and size of the aircraft, and upon experience gained through type inspection and functional and reliability tests. The manufacturer and the CAA should formulate a working schedule that is mutually suitable for conducting these flight tests.

(v) Aircraft which have been flight tested by the manufacturer (including all aircraft manufactured under a type certificate only), when shipped to and reassembled by an authorized distributor, should be given an abbreviated functional flight test to determine that the engine or engines, controls, systems, etc., are operating satisfactorily.

(vi) To facilitate compliance with provisions of § 43.10 (b) of this subchapter, and in order that the production flight tests may be conducted prior to the initial issuance of individual airworthiness certificates, the following entry will be made on the reverse side of the Dealers' Aircraft Registration Certificates, Form ACA 1707,[2] issued to manufacturers and authorized distributors:

> In accordance with the provisions of § 43.10 (b) of this subchapter, special authority is herewith issued to ----------
> (List certificate holder)
> to conduct production flight tests of new aircraft.

(vii) The special authorization on the reverse side of the dealer's aircraft registration certificate, as discussed in subdivision (vi) of this subparagraph, is provided for the convenience of the operator and has no connection with the issuance, validity, or continuation of the dealer's aircraft registration certificate. This entry is normally accomplished by the agent having responsibility for CAA activities at the plant or agency to which the dealer's registration certificate is issued.

(viii) Aircraft flight tested in accordance with the foregoing which are intended for U. S. registration and certification should display the appropriate U. S. identification markings in accordance with related regulations and instructions.

(ix) New aircraft intended for export should display the foreign identification markings assigned during production flight testing. If these markings are not available, the aircraft may display temporarily assigned U. S. identification markings.

(x) Under the following conditions, aircraft intended for export may be flight tested without displaying identification markings, provided these flights are confined to a radius of twenty miles of the manufacturer's base, and provided prior notices of such flights are transmitted to the local, state, or CAA authorities responsible for the enforcement of flight regulations:

(*a*) When foreign identification markings have been requested for aircraft to be delivered via flyway, but not received prior to the performance of the flight test, or

(*b*) When foreign identification markings are not available and the aircraft is to be disassembled and crated for shipment upon completion of the production flight test.

(2) *Logging of production aircraft flight test time.* Operating time, accumulated during the flight testing of new production aircraft manufactured under a type or a type and production certificate, should be construed as a part of the inspection and quality control provided for in this part. Accordingly, this flight test time need not be made a part of the aircraft or aircraft engine logbooks or historical records, but will be recorded on the flight test check-off form. This policy does not apply to time accumulated during accelerated service flight testing of prototype or modified aircraft. Once an aircraft is certificated, all subsequent flight time should be appropriately recorded in accordance with § 43.23 of this subchapter.

(3) *Standardized empty weight and C. G. for production aircraft.* The following is intended to provide a procedure which will permit manufacturers of aircraft, as described in subdivision (ii) of this subparagraph, to establish an average empty weight and empty C. G., thus avoiding the necessity of weighing each aircraft. This procedure may be applied to newly manufactured aircraft (except transport category aircraft) which are produced under the terms of a production certificate.

(i) Manufacturers who are interested in establishing an average empty weight and empty C. G., in lieu of actually weighing each aircraft, should prepare a detailed proposal regarding the procedure to be followed. This material will be furnished to the local Aviation Safety Agent and, with his comments and recommendations, will be forwarded to the Aircraft Engineering Branch for coordination and approval. Any proposal which will provide an accurate determination of average empty weight and C. G. may be considered acceptable.

(ii) The following example outlines an acceptable method for effecting this system:

(*a*) Actually weigh and determine empty C. G. of five to ten aircraft of a particular model, which have relatively identical equipment installed, as a means of establishing an average empty weight and empty C. G.

(*b*) Subsequently, with respect to aircraft of the same model which have relatively identical equipment installed, weigh an individual aircraft at regular intervals; e. g., each tenth aircraft, for the purpose of determining continued accuracy of the initial empty weight and empty C. G. established.

(*c*) If the spot checking, as described in subdivision (*b*) of this subparagraph, indicates a variation in empty weight which is in excess of 1 percent of the initially established weight, or a variation in the empty C. G. which exceeds ½ percent of the MAC, a new average weight should be established in accordance with procedures followed in establishing the initial average empty weight and C. G. conditions.

(iii) Inasmuch as a weight and balance report is required in connection with each aircraft presented for certification, these reports may be computed for aircraft which are not actually weighed. Such reports should be marked "computed" for those aircraft which are not actually weighed, and all other reports should be marked "actual."

(4) *Engines.* Aircraft engines produced under the terms of a production certificate should be subjected to a satisfactory test run consisting of a break-in run which should include the determination of each engine's fuel and oil consumption and maximum power characteristics. This test may be conducted with the engine mounted on a torque stand or on a fixed stand with a calibrated test club or propeller. Sufficient internal examination of each engine should be accomplished to reasonably ascertain that no unsafe conditions exist.

(5) *Propellers and appliances.* The necessity for functional test of propellers and other products will depend upon the nature of the product.

(e) The list of subsidiary manufacturers need not include the suppliers of standard parts and materials.

§ 1.37–1 *Data required from subsidiary manufacturers (CAA interpretations which apply to § 1.37).* (a) A subsidiary manufacturer who contracts with the prime manufacturer to produce and supply to the prime manufacturer, major assemblies and components which are manufactured in conformity with the prime manufacturer's approved drawings, may be required to submit the data prescribed by § 1.36 (a), (b), and (c). This information should be submitted through the prime manufacturer.

(b) Data required of subcontractors by § 1.37 are intended to assist the manufacturer in obtaining approval of major components or parts which, by reason of the nature of the article, cannot be readily inspected after delivery to the prime manufacturer's plant. For example, a complete wing nacelle or other such assembly, by reason of the covering, could not be properly inspected for conformity and quality of workmanship.

[1] The reporting requirements of this form have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[2] The reporting requirements of this form are subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

The prime manufacturer will furnish the CAA with complete information regarding the type of quality control which is to be maintained at the subcontractor's plant. At the request of the prime manufacturer, and when the prime manufacturer has so advised the subcontractor, the CAA will inspect the subcontractor's facilities and, if they are found acceptable, will grant the same privileges regarding acceptance of items manufactured for the prime contractor as though they were manufactured in the prime contractor's plant. Acceptance of subcontractors' quality control procedures does not relieve the prime contractor of his responsibility for the over-all conformity and airworthiness of the part or assembly. Periodic visits will be made to the subcontractor's plant by CAA personnel to determine that quality and conformity are being maintained in the manner originally approved. Submission of data by subsidiary manufacturers is optional with the prime manufacturer and subsidiary manufacturer. However, if these data are not furnished, parts and assemblies must be subjected to a complete inspection for conformity and quality at the prime manufacturer's plant, or arrangements must be made for suitable inspection at the subsidiary manufacturer's plant by the prime manufacturer's inspection personnel and, as required, by CAA personnel.

§ 1.38–1 *Modification of required data (CAA policies which apply to § 1.38).* Changes to a manufacturer's organization, production facilities, systems, processes, or quality control organization which would make production certification data initially submitted no longer applicable should be promptly directed to the attention of the CAA by means of revised pages or supplementary reports or data covering these changes.

§ 1.39–1 *Multiple products (CAA policies which apply to § 1.39).* More than one airplane type may be manufactured under the same production certificate, provided the types of construction and processes are similar. However, two basically different products such as an airplane and helicopter or an airplane and an engine will not be included under one production certificate. Separate production certificates will be issued for dissimilar products.

§ 1.40–1 *Production limitation record (CAA policies which apply to § 1.40).* The production limitation record is actually page 2 of the production certificate. Therefore, the Production Certificate, Form ACA 333, and the Production Limitation Record, Form ACA 333a, should always be displayed together. Type certificate number(s) covering products fabricated in conformity with the type design data, and approved for production under the terms of the production certificate, are reflected only on the production limitation record. Revisions to the production certificate for the purpose of adding or deleting a type certificate are accomplished by revising the production limitation record only. This policy has been adopted inasmuch as the aircraft, engine, propeller, or appliance specification, under the heading "Production Basis," will indicate those models of an aircraft, engine, propeller, etc., which are eligible for production under a production certificate. Conversely, those models which are not eligible for production under a production certificate will likewise be listed on the specification and such listings will be accompanied by a note stipulating that a CAA representative must perform a detailed inspection for workmanship, materials, and conformity with the approved technical data prior to approval, and, in the case of an aircraft, prior to certification.

§ 1.41–1 *Modifying a production limitation record (CAA policies which apply to § 1.41).* The holder of a production certificate may obtain the addition of a new type certificate number to the production limitation record in accordance with the procedures described in paragraph (a) of this section. Normally, a new type certificate number is assigned when a manufacturer has applied for a type certificate for a new type design which is not related to a previously type certificated design. When a manufacturer applies for a type certificate for a new model which is closely related to a previously type certificated design, the new model designation may be merely added to the previous type certificate. In such cases, it will not be necessary to amend the production limitation record; however, if the manufacturer desires to obtain an extension of his production certificate privileges to such new model, he should notify the CAA in accordance with the procedures described in paragraph (b) of this section. When a manufacturer makes a change in a previously type certificated design, but does not make a new application for type certificate, no action is required with respect to the production limitation record, and any necessary changes in the production certification data should be handled in accordance with § 1.38.

(a) *Addition of new type certificate number to a production limitation record.* To obtain the addition of a new type certificate number to a production limitation record:

(1) The manufacturer should submit an application for a Production Certificate, Form ACA 332,[1] in duplicate. This application should be accompanied by a description of any special processes or fabrication methods, not previously reported, which are pertinent to products covered by the new type certificate.

(2) A Manufacturing Inspection Authorization, Form ACA 313, will be issued by the appropriate CAA office.

(3) (i) A Manufacturing Inspection Report, Form ACA 314, will be prepared by the local Aviation Safety Agent with respect to the product covered by the new type certificate. This report will be executed only with respect to those items, processes, methods, or procedures not previously reported upon, or at variance with those previously reported upon. In such cases, an entry will be made under "Remarks" to the effect that those items not checked off were covered by previous reports.

(ii) The regional office of the CAA, upon receipt of a satisfactory application, Form ACA 332,[1] and an approved Manufacturing Inspection Report, Form ACA 314, will issue a superseding production limitation record which will include the new type certificate number and the date of issuance thereof. The original of the superseding production limitation record will be forwarded to the manufacturer with a request that the superseded production limitation record be immediately returned for cancellation and file.

(iii) The manufacturer, by letter, may request the deletion of one or more type certificates from a production limitation record, if he so desires. In such cases, a revised production limitation record reflecting these changes will be issued by the CAA and forwarded to the manufacturer with a request that the superseded production limitation record be immediately returned for cancellation and file.

(b) *Extension of production certificate privileges to a new model listed on a previous type certificate.* (1) The holder of a production certificate should notify the CAA that production certification privileges will be desired with respect to a new model of a product by appropriately indicating this fact upon the application for a Type Certificate, Form ACA 312.[1] On the assumption that the new model will be type certificated (granted type approval) under the type certificate number covering the basic model, the CAA, by reason of the above-mentioned note on the Form ACA 312,[1] will indicate on the Type Inspection Authorization, Form ACA 316, that the manufacturer has requested that production certification privileges be extended to cover the product which is being presented for type approval when such type approval has been issued. The local Aviation Safety Factory Agent, upon receipt of a type inspection authorization indicating that the manufacturer desires production certification privileges, while conducting or witnessing such inspections and/or tests as may be requested in the type inspection authorization, will also determine whether the manufacturer should be extended production certification privileges with respect to the product in question. The local Aviation Safety Agent, having determined that the manufacturer is entitled to production certification privileges with respect to the modified product, will indicate this fact on page 7 of Part I of the Form ACA 283–3–4b (which is submitted by reason of the receipt of a type inspection authorization), or, at the specific request of the regional office of the CAA, will prepare and submit to the regional office a Manufacturing Inspection Report, Form ACA 314.

(2) The local agent will forward to the regional office with the Form ACA 283–3–4b, or the Form ACA 314, a report or description of any new processes or changes to fabrication methods not previously reported, which he will obtain from the manufacturer.

(3) The regional office, upon receipt of information indicating that the local factory agent has recommended that production certification privileges be extended to cover the modified product, as discussed above, and upon concurrence with the agent's recommendations, will notify the manufacturer, in writing, that production certification privileges have been extended. Two copies of this letter to the manufacturer will be forwarded to the Manufacturing Inspection Branch, Washington.

§ 1.42–1 *Transferability (CAA policies which apply to § 1.42).* A production certificate is not transferable and becomes invalid upon transfer of the controlling interest of the concern, or when the manufacturing facilities are moved from one location to another. In the event the controlling interest of an organization holding a production certificate is transferred, or the manufacturing facilities are physically moved from the location noted on the production certificate, the production certificate should be returned immediately to the Regional Aircraft Engineering Branch for cancellation. Concurrent with the return of the production certificate, application may be made for production certification coverage of future products manufactured under either or both of the conditions outlined in the foregoing.

§ 1.43–1 *Inspection by CAA representative (CAA policies which apply to § 1.43).* (a) Under the terms of a production certificate, a manufacturer is authorized to produce duplicates of his products without detailed inspection by CAA personnel. However, CAA representatives will conduct periodic inspections of the manufacturer's facilities and make such spot inspections of individual products as may be necessary to determine that the manufacturer is continuously complying with related regulations, and that individual products conform with approved type design data.

(b) Manufacturers holding a current production certificate may produce and ship their products without detailed inspection by CAA representatives. This procedure is predicated upon the manufacturer's demonstrated ability to maintain standards whereby conformity, interchangeability, and quality are assured. Major assemblies, components, and boxes of parts will be properly identified by the manufacturer prior to shipment. (Identification may be accomplished by the attachment of Approval Tags, Form ACA–186, to major components and assemblies, or to boxes of small parts.) A manufacturer holding a production certificate may obtain the appointment of individuals in his employ as designated manufacturing inspection representatives. These representatives will be authorized to represent the Civil Aeronautics Administration in determining the compliance of the product with requirements of related Civil Air Regulations; and to issue documents pertinent to domestic and export certification or approval of such products.

§ 1.44–1 *Duration (CAA policies which apply to § 1.44)*—(a) *Suspension.* In case of an emergency; that is, if it appears that a dangerous condition may develop as a result of continued production of a product being manufactured under a production certificate, by reason of unsatisfactory conditions noted or reported, the production certificate may be immediately suspended, in whole or in part, by the Administrator, for a period not to exceed thirty days. The Administrator will immediately give notice of the suspension to the holder of the certificate and will enter upon a hearing. During the pendency of the proceeding the Administrator may further suspend the certificate, in whole or in part, for an additional period not to exceed thirty days.

(b) *Surrender.* Where production under the terms of a production certificate has been indefinitely or permanently discontinued, the manufacturer should surrender the production certificate to the Regional Aircraft Engineering Branch with a request for cancellation. When the cancellation is properly noted in the regional office file, the canceled production certificate, including the production limitation record, with the manufacturer's request for cancellation, should be forwarded to the Washington office of the Manufacturing Inspection Branch.

§ 1.45–1 *Display (CAA policies which apply to § 1.45).* The purpose of § 1.45 is to make the certificates available to representatives of the Administrator in order that they may at any time see that the certificates are current and in order. To facilitate such an examination, it is recommended that production certificates be posted in a conspicuous place in the office of the factory.

AIRCRAFT AND PRODUCT IDENTIFICATION

§ 1.50–1 *Identification (CAA policies which apply to § 1.50).* (a) The primary purpose of identification data is to furnish information which will readily identify and indicate the approval status of individual products fabricated under the requirements of the Civil Air Regulations. The identification plate attached to products which are manufactured under the terms of a production certificate should list both the type and production certificate numbers. Those type certificated products manufactured without benefit of a production certificate should list the type certificate number.

(b) The "capacity or rating" should be indicated in the identification data with respect to products such as engines, and other products for which definite ratings or capacities are established. The display of ratings on aircraft and propellers is not necessary.

(c) After the product has been properly identified by the manufacturer and approved by the Administrator, the identification data required by this section should not be changed or altered without the approval of the CAA, and it should remain with the product to which assigned.

(d) For example, the following should not be changed or altered without CAA approval:

(1) Manufacturer's name.

(2) Model designation.

(3) The manufacturer's serial number.

(4) Date of manufacture when required.

(5) Type Certificate number.

(6) Production Certificate number (if applicable).

(7) Capacity or rating (if applicable).

(e) For requirements concerning identification plates, see the airworthiness part of this subchapter applicable to the particular product involved. (See § 1.12–1).

AIRWORTHINESS CERTIFICATES

§ 1.60–1 *"Registered owner" (CAA interpretations which apply to §1.60).* The term "registered owner of the aircraft," as used in § 1.60, means the person listed on the official CAA register as the owner of the aircraft. (Regulations of the Administrator, Part 501 of this title, sets forth the rules and procedures concerning aircraft registration certificates.)

§ 1.60–2 *Application form (CAA rules which apply to § 1.60).* Application for an airworthiness certificate shall be made by completing Form ACA–305[1] Application for Airworthiness Certificate and/or Annual Inspection of an Aircraft, original only, and submitting it to the local CAA Aviation Safety Field Representative. (Application forms, Form ACA–305, are available from all CAA regional and district offices, Designated Manufacturing Inspection Representatives, and Designated Aircraft Maintenance Inspectors.)

§ 1.60–3 *Processing application (CAA policies which apply to § 1.60*—(a) *Application requirements.* (1) The CAA will not require the applicant for a certificate of airworthiness to show legal evidence that he is a U. S. citizen and the owner of the aircraft, nor will his agent be required to furnish such evidence. The certifying statement made upon the application, Form ACA 305, will be accepted as satisfying the citizenship and ownership requirements of § 1.60.

(2) However, at the time the aircraft is presented for the airworthiness inspection, a current registration certificate executed in the name of the applicant must be displayed in the aircraft. Failure to present a current registration certificate will be considered an incomplete application and cause for rejection of the application. There are three types of registration certificates, any one of which will be considered acceptable for the purpose of indicating that the aircraft is currently registered. The three types of registration certificates acceptable for this purpose are:

(b) *The permanent type.* Part A of Form ACA 500 is the permanent registration certificate. This certificate is the one returned to the registered owner from the Aircraft Records Branch, Washington, D. C. The certificate will have been validated by the Washington office of the CAA and is current as of the date of issue shown on the form.

[1] The reporting requirements of this form have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[1] The reporting requirements of this form have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(c) *The temporary type.* This certificate is the original of Part B of Form ACA 500.[1] This form is completed by the applicant and displayed in the aircraft in accordance with instructions furnished with the form. The duration of this certificate is set forth in Item 5 of the certificate.

(d) *Dealer's aircraft registration certificate.* A current Dealer's Aircraft Registration Certificate, Form ACA 1707,[2] is recognized as a current registration certificate for purpose of making application for an airworthiness certificate. (Dealers' aircraft registration certificates are described and provided for in Regulations of the Administrator, Part 502 of this title.)

(e) *CAA procedure.* During the course of the inspection, the CAA representative conducting the airworthiness inspection will indicate on the Aircraft Inspection Report, Form ACA 305A, which is forwarded to Washington, the type of registration certificate displayed in the aircraft. This information will be compared with the official registration records in Washington to determine if the applicant is the official registered owner. Discrepancies involving official registration will be brought to the attention of the registered owner by the Washington office.

§ 1.60–4 *Airworthiness certificates (CAA policies which apply to § 1.60).* (a) Upon satisfactory application, and when the aircraft described in the application is found to conform with the airworthiness requirements specified in other related sections of the Civil Air Regulations, the CAA representative making the airworthiness determination will prepare a Certificate of Airworthiness, Form ACA 1362, or ACA 1362A, and deliver it to the applicant.

(b) The certificate of airworthiness will contain the following information: Aircraft nationality and registration mark, airworthiness classification, expiration date of certificate, date certificate was issued or renewed, signature of validating CAA representative, and scope of certificate.

§ 1.61–1 *Airworthiness certificate classifications (CAA policies which apply to § 1.61).* For purposes of airworthiness identification and administration, airworthiness certificates are classified as "Standard, limited, restricted," and "experimental." Aircraft found to conform to the "limited" or "restricted category" requirements will be issued a limited or restricted certificate of airworthiness, respectively. Aircraft found eligible for certification under the "normal," "utility," "acrobatic," or "transport category" requirements will be issued a standard airworthiness certificate. Experimental airworthiness certificates will be issued for aircraft conforming to the requirements of § 1.74.

[1] The reporting requirements of this form have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[2] The reporting requirements of this form are subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

§ 1.62–1 *Changing airworthiness classification (CAA policies which apply to § 1.62).* (a) Application to amend or modify an airworthiness certificate should be submitted to a CAA representative on Form ACA 305,[1] entitled "Application for Airworthiness Certificate and/or Annual Inspection of an Aircraft." Upon finding the aircraft eligible for the classification of airworthiness specified on the application, the CAA representative will reissue the certificate of airworthiness, Form ACA 1362 and/or prescribe changes, if necessary, to the aircraft operating limitations required by § 43.10(b) of this subchapter.

(b) An example of a condition which would require amendment or modification of the airworthiness certificate and/or operating limitations is cited below:

Example. An aircraft certificated in the standard classification of airworthiness, to be used for research and development. The experimental installation does not conform to the design requirements for standard certification. Therefore, it would be necessary to have this aircraft certificated in the experimental classification of airworthiness in order to conduct the research and development experiments. The CAA representative would, in this case, also issue the appropriate operating limitations on Form ACA 309.

§ 1.64–1 *Duration of airworthiness certificate (CAA policies which apply to § 1.64).* All airworthiness certificates, issued after January 15, 1951, will contain an expiration date or will indicate specific conditions under which the airworthiness certificate will expire.

(a) *Air carrier aircraft.* (1) Airworthiness certificates issued for air carrier aircraft, being maintained under an approved continuous maintenance system as provided for in Parts 41, 42, or 61 of this subchapter, will not contain a specific expiration date but instead a condition under which a certificate is considered to expire automatically.

(2) Small irregular air carrier aircraft not maintained under an approved continuous maintenance system are issued an airworthiness certificate which contains a specific expiration date as outlined in paragraph (b) of this section.

(b) *Personal type aircraft.* Standard, restricted, and limited airworthiness certificates issued, or renewed, for aircraft other than air carrier aircraft being maintained as described in paragraph (a) of this section, will be issued to expire one year from the date of issuance or renewal.

(c) *Experimental aircraft.* (1) Experimental airworthiness certificates will be issued to expire on a specific date, or will indicate a condition under which the certificate will automatically expire. The duration of the experimental airworthiness certificate may vary from one flight, to a limited number of operating hours, or days. In any case, the duration will not exceed one year.

(2) It is the policy of the CAA to do everything possible to encourage legitimate experimentation leading to improvement in aircraft whenever this may be done without endangering the lives of persons or property not involved in the experimentation. Since it is recognized that a certain amount of danger to the operator is inherent in all experimental flying, the airworthiness certificate issued for experimental aircraft will contain specific operating conditions and limitations designed to protect the lives and property of persons not involved in the experimentation.

§ 1.65–1 *Display of airworthiness certificate (CAA rules which apply to § 1.65).* The airworthiness certificate shall be displayed at the cabin or cockpit entrance in such a manner that it is legible to passengers or crew.

§ 1.69–1 *Issuance of restricted airworthiness certificates (CAA policies which apply to § 1.69).* CAA policies concerning "restricted category" airworthiness certificates are contained in Part 8 of this subchapter. (The manual for Part 8 of this subchapter may be procured from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., for sixty cents.)

§ 1.70–1 *Issuance of multiple airworthiness certificates (CAA policies which apply to § 1.70).* CAA policies concerning multiple airworthiness certificates are contained in Part 8 of this subchapter. (See § 1.69–1 for procurement of the manual for Part 8 of this subchapter.)

§ 1.71–1 *Issuance of limited airworthiness certificates (CAA policies which apply to § 1.71).*—(a) *Aircraft models issued a limited type certificate.*

Aircraft manufacturer	Models eligible	Limited aircraft specification No.
Boeing	B–17F and B–17G (Flying Fortress)	AL–1
North American	B–25G, B–25H, and B–25J (Mitchell)	AL–2
Douglas	A–26B and A–26C (Invader)	AL–4
Do	A–24B (Navy SBD–5) (Dauntless)	AL–4
Consolidated-Vultee	PB2Y–3, PB2Y–3R, PB2Y–5, PB2Y–5R, and PB2Y–5Z (Coronado)	AL–5
Consolidated	LB–30	AL–6
Sikorsky	R–4B Helicopter	AL–7
Grumman	TBF–1, TBF–1C, TBM–1, TBM–1C, TBM–3, and TBM–3E (Avenger)	AL–8
Douglas	A–20B, A–20C, A–20G, A–20H, and A–20J (Havoc)	AL–9
Lockheed	P–38E, P–38J, P–38L, P–38M, F–5E, F–5F, and F–5G (Lightning)	AL–10
North American	P–51–C, P–51D, and P–51K (Mustang)	AL–11
Beech	AT–10, AT–10BH, AT–10G1, and AT–10GF (Wichita)	AL–12
Lockheed	B–34, PV–1, and PV–2 (Ventura)	AL–13
Northrop	P–16, P–61A, and (Black Widow)	AL–14
North American	A–36A (Mustang)	AL–15
Curtiss	O–52	AL–16
Grumman	J2F–3, J2F–4, J2F–5, and J2F–6 (Duck)	AL–17
Curtiss-Wright	P–40N and P–40L (Warhawk)	AL–18
Sikorsky	R–5A Helicopter	AL–19
Martin	PBM–5 (Mariner)	AL–20
Bell	P–63C and P–63E (Kingcobra)	AL–21

Aircraft manufacturer	Models eligible	Limited aircraft specification No.
North American	BC–1	AL–22
Grumman	F8F–1 (Bearcat)	AL–23
Chance-Vought	OS2U–1, OS2U–2, and OS2U–3 (Kingfisher)	AL–24
Grumman	FM–2 (Wildcat)	AL–25
Stinson	L–1, L–1A, L–1B, L–1C, L–1D, L–1E, and L–1F (Vigilant)	AL–26
North American	BT–9, BT–9A, BT–9B, and BT–9C (Yale)	AL–27
Culver	PQ–14A, PQ–14B, and TD2C–1	AL–28
Sikorsky Helicopter	R–6A and HOS–1	AL–29
Consolidated	C–87A (Liberator Express)	AL–30
Curtiss	AT–9 and AT–9A (Jeep)	AL–31
North American	BT–14 (Yale)	AL–32

(b) *Application procedure for an original limited airworthiness certificate.* The following procedure should be followed by an applicant for a limited airworthiness certificate:

(1) Establish that the aircraft in question is one of the models or series that have been issued a limited type certificate. (See paragraph (a) of this section for listing of aircraft issued a "limited category" type certificate.)

(2) Determine that the aircraft configuration conforms to the requirements set forth in the pertinent "limited category" aircraft specification.

(3) Present evidence that the periodic inspection has been accomplished by an appropriately rated mechanic immediately prior to submitting the application. The scope of a periodic inspection is described on the reverse of Periodic Aircraft Inspection Report, Form ACA 319[1] (revised 11–49).

(4) Accomplish a flight test for the purpose of checking the proper functions of the powerplant, instruments and controls of airframe and powerplant.

(5) Present logbooks for the aircraft. The logbooks should show the results of the flight test and be signed by the pilot making the flight test. The entry should indicate that the aircraft performs normally and is considered airworthy.

(6) Present any information or technical orders that the CAA representative deems necessary to establish airworthiness compliance.

(7) Present a properly executed application for a limited airworthiness certificate. Application for a Limited Airworthiness Certificate is made on Form ACA 305.[1] (See § 1.60–2 for application procedure.)

(8) (i) Present with the application a "limited category" aircraft specification for the particular model shown on the application. "Limited category" aircraft specifications are available free of charge from the CAA regional offices or the CAA Office of Aviation Information, Washington 25, D. C.

(ii) The applicant should discuss the "limited category" aircraft certification requirements with the local CAA representative prior to formally submitting the aircraft for inspection and certification. This procedure is not mandatory; however, it will usually expedite final approval since the CAA representative will be able to instruct the applicant concerning the requirements for his particular aircraft.

[1] The reporting requirements of this form have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

§ 1.72–1 *Procedure to be followed for recertification in the "limited category" (CAA policies which apply to § 1.72).* Aircraft previously certificated in the "limited category" and subsequently certificated in the "restricted" or "experimental" classification of airworthiness are eligible for recertification in the "limited" classification of airworthiness; provided, the aircraft is restored to the original level of airworthiness and is in a good state of preservation and repair, and in condition for safe operation. Application for recertification should be made in the same manner as outlined in § 1.71–1 (b).

§ 1.73–1 *Experimental airworthiness certification (CAA policies which apply to § 1.73).*—(a) *Type of operations.* Experimental airworthiness certificates are issued for the following, and similar types of operations: Research and development; flight testing leading to type certificates; testing of new installations such as powerplants, propellers, controls, electronic equipment, etc., racing and exhibition flights and amateur-built aircraft.

(b) *Experimental military type aircraft.* Aircraft built on a military contract and identified by military aircraft identification marks are considered public aircraft and do not require issuance of airworthiness certificates. However, aircraft of military design built independently by manufacturers with the intention of demonstrating to prospective military purchasers, and not having military identification, will be required to obtain an experimental airworthiness certificate inasmuch as such aircraft would be considered civil aircraft.

(c) *Amateur-built aircraft.* Amateur-built aircraft will be eligible for an experimental airworthiness certificate when the applicant presents satisfactory evidence that the aircraft was designed and/or fabricated by an individual or group of individuals, the project having been undertaken for educational or recreation purposes and the CAA finds that the aircraft complies with the amateur-built aircraft requirements set forth in § 1.74–3.

§ 1.74–1 *Requirements for the issuance of experimental airworthiness certificates (CAA rules which apply to § 1.74 (a)).* In addition to the information required to be submitted on application Form ACA 305,[1] the applicant shall indicate on a separate sheet of paper:

(a) The purpose of the experiment.

(b) The estimated time or number of flights required to conduct the experiment.

(c) The areas over which it is desired to conduct the experiment.

(d) A three-view drawing of the aircraft specifying only the external dimensions. (Three-view dimensioned photographs will be acceptable in lieu of the drawings. This information need not be submitted for any "experimental" aircraft converted from a basic approved type provided the external configuration has not appreciably changed.)

§ 1.74–2 *Additional information (CAA policies which apply to § 1.74 (a)).* The applicant may be called upon to submit additional information during the airworthiness inspection conducted by the CAA representative. For example, the CAA representative might request the applicant to furnish information concerning a particular construction technique used to fabricate the aircraft or information as to the type of material or gauge of tubing. The purpose of such requests by the CAA representative would be to help determine the general airworthiness of the aircraft and to establish operation limitations or restrictions to safeguard the general public.

§ 1.74–3 *Certification of amateur-built aircraft (CAA policies which apply to § 1.74).* The following policies will apply to the certification and operation of aircraft of amateur design and construction designed and built by educational institutions and individuals without complying with all the requirements of "standard" aircraft:

(a) *Scope.* While amateur-built aircraft are issued "experimental" airworthiness certificates, the airworthiness requirements for this type of aircraft are of greater scope than those for other types of "experimental" aircraft. The reason is that after the aircraft has completed the flights specified in paragraphs (g) and (h) of this section, the aircraft operation limitations, upon application, may be modified to permit the carriage of non-revenue passengers. In addition, the area restrictions normally prescribed for "experimental" aircraft may be modified to authorize extended flights.

(b) *Design and construction, powerplant and equipment.* (1) Amateur-built aircraft should not have any apparent unsatisfactory features of design and construction.

(2) The following guide to design and construction should be followed by an applicant if he intends to apply for an amateur-built aircraft experimental airworthiness certificate:

(i) Approved components such as engines, propellers, wheels, and similar items should be used wherever possible. Structural components of other aircraft may be used; however, it is not intended that this provision be used to avoid obtaining approval of major alterations to aircraft previously certificated in another category.

(ii) Protrusions, knobs, sharp corners, and other objects likely to cause serious injury to the pilot or passengers in the event of a minor crash should be reduced to a minimum. Where removal is impractical, consideration should be given to use of padding.

(iii) Instruments and equipment as required by § 43.30 (a) of this subchapter

should be installed. Safety belts should be installed for each seat.

(iv) Suitable means, consistent with the size and complexity of the aircraft, should be provided to reduce the hazard of fire. A fire wall isolating the engine compartment from the remainder of the aircraft should be provided.

(v) Any engine or propeller may be used, provided no adverse characteristics of the engine, propeller, or engine-propeller combination are evident or known to the Administrator.

(vi) The complete powerplant installation, including the propeller, as installed in the aircraft should satisfactorily undergo at least one hour of ground operation from idling to full throttle power prior to the first flight. The applicant may use any time interval he desires at the various speeds he selects.

(vii) Only fuel of a grade which will eliminate destructive detonation and minimize the possibility of vapor lock should be used.

(viii) Suitable means should be provided to minimize the possibility of carburetor ice.

(ix) An identification plate containing at least the following should be displayed in the cabin or cockpit:

(*a*) The name and address of the builder.

(*b*) The model designation.

(*c*) The serial number.

(*d*) The date of manufacture.

(c) *Essential data.* In addition to the information furnished on application, Form ACA–305, the following information should be submitted with the application:

(1) Horsepower rating of engine and propeller.

(2) Empty weight and maximum weight at which the aircraft will be operated.

(3) Number of seats installed and their arrangement with respect to each other.

(4) Whether single or dual control.

(5) Fuel and oil capacities.

(6) Maximum speed at which the applicant expects to operate the aircraft.

(7) A statement as to the criteria (any regulations, design data, or other information) used as a basis for the design.

(d) *Examination and inspection.* As part of the certification procedure the aircraft will be subjected to examination and general inspection for airworthiness by an authorized CAA representative. Compliance with specific design requirements contained in paragraph (b) of this section, as well as good aeronautical practice will be determined by means of this inspection and examination. Any apparent unairworthy feature, workmanship or device disclosed by the inspection will be repaired, reworked, or otherwise be changed to be acceptable to the CAA prior to certification as an amateur-built aircraft.

(e) *Initial restrictions.* Upon satisfactory completion of all necessary inspections and testing on the ground, the CAA representative will issue an amateur-built aircraft "experimental" airworthiness certificate. Initially, the aircraft operating limitations of all amateur-built aircraft will contain appropriate restrictions as follows:

(1) Only day VFR flight will be authorized.

(2) The permissible flight area will be restricted to minimize any hazard to the general public. In no case will the initial permissible flight area exceed a 25 mile radius from applicant's base. Flights over thickly populated areas will be prohibited.

(3) Occupants of the aircraft will be limited to essential crew members, and, except in single place aircraft, the cabin or cockpit will be placarded, "Passengers Prohibited," in such a manner and location as to be visible from all seats.

(4) The aircraft will not be used for the carriage of cargo nor in connection with any business or employment.

(5) Such additional restrictions as the Administrator may deem necessary in the interest of safety.

(f) *Modified restrictions.* (1) Upon satisfactory completion of the flight experience requirements outlined in paragraph (g) of this section, and the flight test demonstration outlined in paragraph (h) of this section, the flight operation restrictions applied at the time of initial certification may be amended as follows:

(i) Acrobatics may not be performed while carrying passengers.

(ii) The restriction regarding flight areas may be removed.

(iii) Passengers or cargo may not be carried for compensation or hire.

(2) The placard "Passengers Prohibited" may be removed and the following substituted:

Passenger Warning: This aircraft is amateur-built and does not comply with the Federal safety regulations for "standard" aircraft.

(g) *Flight experience.* Prior to conducting the flight demonstration provided in paragraph (h) of this section, and subsequent to modification of the operating restrictions as provided for in paragraph (f) of this section, the applicant should submit evidence that the following flight experience has been accumulated on the aircraft.

(1) The aircraft should have been flown at least 50 hours when a type certificated engine is installed, or 75 hours when an uncertificated engine is used.

(2) When application is made for the modification of the operation restrictions, the applicant should submit a log of the aircraft flight history, containing at least the following information:

(i) The duration of each individual flight counted toward the flight time of subparagraph (1) of this paragraph.

(ii) A statement as to the purpose of each flight (test, pleasure, or proficiency).

(iii) Number of landings made.

(iv) A full description of any mishaps however minor, or any experiences not entirely normal that occur during the flight experience period.

(3) The pertinent portion of the log should be certified by the signature of the applicant and by the signature of the pilot or pilots, other than the applicant that flew the aircraft during the flight experience period.

(h) *Flight test demonstration.* Upon satisfactory completion of the flight experience required in paragraph (g) of this section, the applicant may apply for the modified restrictions provided for in paragraph (f) of this section. Application should be made in writing to the local CAA Aviation Safety District Office. An Aviation Safety Agent will re-examine the aircraft and the flight experience record and upon finding them satisfactory will witness the flight test demonstration. The flight test will be conducted by a certificated pilot holding at least a private pilot's rating. The flight test will be of such scope as to demonstrate that the aircraft performance is adequate for such operations with respect to take-off, climb, and landing at maximum and minimum weights, for which the aircraft is to be certificated. The aircraft will be demonstrated to be satisfactorily controllable and reasonably maneuverable during taxiing, take-off, climb, level flight, dive and landing, with or without power. Adequate provisions should be made for emergency egress and use of parachutes by the crew during the flight test.

§ 1.75–1 *Special flight permits. (CAA interpretations which apply to § 1.75)*—(a) *General.* (1) Section 43.10 (a) of this subchapter states in part that "No aircraft, except foreign aircraft authorized by the Administrator to be flown in the United States, shall be operated unless an appropriate and valid airworthiness certificate or special flight authorization and a registration certificate issued to the owner of the aircraft are carried in the aircraft. * * *"

(2) "Special flight authorization," mentioned in subparagraph (1) of this paragraph is interpreted to mean the special flight permit described in this section. Special flight permits are issued for only two purposes: The first and primary purpose is to permit aircraft not fully complying with the established airworthiness requirements to be flown to bases where repairs or alterations may be made; the second purpose is to permit "flyaway" delivery or flights to points of export of aircraft which are airworthy but not eligible for a U. S. certificate of airworthiness. For example, an aircraft purchased by a person other than an American citizen would not be eligible for a U. S. certificate of airworthiness due to the fact that a current U. S. registration certificate is a prerequisite to obtaining an airworthiness certificate, and only a U. S. citizen, who can present proof of ownership, may obtain a current aircraft registration certificate.

§ 1.76–1 *Application for permit (CAA rules which apply to § 1.76)*—(a) *Persons who may make application.* The registered aircraft owner or his agent shall make application for a special flight permit.

(b) *Application form.* Application shall be made by completing in duplicate Form ACA–1779 [1] entitled "Application and Authorization for Ferry Permit," and submitting it to an authorized CAA Aviation Safety Representative. (Application forms are available at all CAA regional and Aviation Safety District Offices and from designated CAA representatives. The application form consists of two parts: The first part is completed by the applicant and furnishes a description of the aircraft, and the proposed flight; the second part is completed by the CAA representative, and is the authority to conduct the flight. This part shall be prepared to contain the conditions and limitations under which the flight is to be conducted.)

[1] The reporting requirements of this form have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

§ 1.76–2 *Airworthiness (CAA policies which apply to § 1.76).* While the aircraft may not be eligible for a Certificate of Airworthiness, it must be found safe for the flight described on the application prior to commencing the flight. The CAA representative may make this determination prior to issuing the authorization, or he may require a pre-flight inspection to be conducted by a certificated mechanic in order to determine that the aircraft is safe for the flight authorized.

§ 1.76–3 *Flight restrictions (CAA policies which apply to § 1.76).* The following flight restrictions will be prescribed for all aircraft to be operated under a special flight permit:

(a) The carriage of persons other than crew members will be prohibited.

(b) Weather minimums under which the flight may be conducted will be established.

(c) The duration of the authorization will be shown.

(d) The purpose of the flight will be indicated.

(e) Special area restrictions will be listed, if applicable.

(f) Pre-flight inspection requirements, if any, will be listed.

(g) The origin, destination, and proposed itinerary, taking into consideration reasonable deviations necessitated by weather or other circumstances beyond the control of the operator, will be indicated.

AIRCRAFT NATIONALITY AND REGISTRATION MARKS

§ 1.101–1 *Assignment of registration numbers (CAA policies which apply to § 1.101 (a))*—(a) *General.* (1) Section 1.101 (a) requires that all U. S. civil aircraft display identification marks. This section, in part, states that the identification marks shall be the Roman capital letter "N" followed by the registration number. The purpose of this policy is to make known the method by which an aircraft owner can obtain a registration number for an unidentified aircraft.

(2) Most aircraft are assigned a registration number and display the proper identification marks prior to leaving the manufacturer's plant. Generally speaking, the registration number will continue to identify that particuular aircraft throughout the remainder of its operating life. There are many times, however, that it is necessary for the owner of the aircraft to request that a registration number be assigned his aircraft. This is particularly true with converted military surplus, amateur-built aircraft, experimental aircraft, and aircraft imported from other countries which have not been certificated at the manufacturer's plant.

(b) *Procedure.* (1) An aircraft should be assigned a registration number before the owner applies for registration. To obtain a registration number, the aircraft owner should furnish the local Aviation Safety District Office, or International Field Office if the aircraft is located outside the United States, the following information:

(i) The name of the aircraft manufacturer.

(ii) The aircraft model.

(iii) The aircraft serial number.

(2) This information can usually be found on the manufacturer's nameplate, displayed in the aircraft, or on the bill of sale. Upon receipt of this information, the CAA representative will issue a registration number. This number is used when making application for registration and must be displayed on the aircraft in accordance with the requirements of §§ 1.101 through 1.107.

§ 1.108–1 *Identification marks for nonconventional aircraft (CAA rules which apply to § 1.108)*—(a) *Purpose.* The purpose of this section is to prescribe the procedure for displaying identification marks on nonconventional aircraft. For the purpose of prescribing identification marks, an aircraft is considered to be nonconventional when it is impossible to display the identification marks in accordance with the applicable rules prescribed in §§ 1.101 through 1.107.

(b) *Procedure.* (1) The owner of the aircraft shall submit to the local CAA representative a dimensioned three view drawing, or dimensioned photographs of the aircraft, including a statement setting forth the reson why it is not possible to identify the aircraft in accordance with the standard requirements. If the owner desires to include a proposed method of marking, it too will be considered. Such proposal shall take into consideration, as near as possible, the standard identification marking procedure set forth in §§ 1.101 through 1.107.

(2) This information shall be submitted to the local CAA representative as far in advance of the anticipated flight date as possible, since the CAA representative must forward the information to the Washington office for final decision.

This supplement shall become effective October 1, 1952.

[SEAL] S. A. KEMP,
Acting Administrator of Civil Aeronautics.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter VI—National Production Authority, Department of Commerce

[NPA Order M–99, as amended September 18, 1952]

M–99—CRYOLITE

This order, as amended, is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this order, as amended, there has been consultation with industry representatives and consideration has been given to their recommendations. However, consultation in advance of the issuance of this order, as amended, with representatives of all affected trades and industries was rendered impracticable because of the need for immediate action and because of the large number of different trades and industries affected.

EXPLANATORY

NPA Order M–99, of February 29, 1952, as amended by Amendment 1 of April 15, 1952, has been rewritten to effect the following changes: (1) The grade of cryolite known as Raymond Mill Dust is excluded from the definition of cryolite regulated by this order; (2) except as to purchases for export and purchases by producers of primary aluminum, this order, as amended, regulates the use of cryolite rather than its purchase; (3) the provisions of this order, as amended, relating to cryolite insecticides are clarified; (4) inventory limits are increased, and purchasers are required to certify to their right under the order, as amended, to purchase and accept delivery of cryolite; (5) a quarterly report by users of cryolite is required; (6) users of less than 100 pounds of cryolite per calender quarter are exempted from certain provisions of this order as amended.

REGULATORY PROVISIONS

Sec.

1. What this order does.
2. Definitions.
3. Limitations on use.
4. Limitations on purchase.
5. Exports.
6. Authorizations and directives.
7. Inventory limitations.
8. Small user exemption.
9. Request for adjustment or exception.
10. Records and reports.
11. Communications.
12. Violations.

AUTHORITY: Sections 1 to 12 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950, Supp.; sec. 2, E. O. 10100, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951, Supp.

SECTION 1. *What this order does.* This order, as amended, requires conservation in the use of cryolite. It regulates the use of cryolite and, with certain exceptions, limits inventory of users of cryolite. Persons who use 100 pounds or less of cryolite per calendar quarter for all purposes are exempted from certain provisions of the order. Quarterly reports are required from users of cryolite.

SEC. 2. *Definitions.* As used in this order:

(a) "Cryolite" means refined natural and synthetic cryolite of all grades except the grade known as Raymond Mill Dust.

(b) "Raymond Mill Dust" means that grade of cryolite which:

(1) Results as a by-product of the initial grinding of crude cryolite ore in producing refined natural cryolite, and

(2) Is not further refined, and

(3) Contains not more than 85 percent sodium aluminum fluoride, and 98

percent or more of which, by weight, passes through a 300 mesh screen.

(c) "Primary aluminum producer" means a person who produces alumium in either pig or ingot form by electrolytic reduction of alumina. Wherever the term "primary aluminum producer" is used in this order, it shall be understood to relate solely to the producer's use of cryolite for producing aluminium in the form and by the method described in the preceding sentence.

(d) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States Government or of any other government.

(e) "NPA" means the National Production Authority.

SEC. 3. *Limitations on use.* (a) No person shall use any cryolite in the production, processing, preparation, or manufacture of any material or product when it is commercially feasible to substitute some other material or materials for cryolite. No person shall use a greater quantity or a higher grade of cryolite in the production, processing, preparation, or manufacture of any material or product, if it is commercially feasible to use a lesser quantity or a lower grade for that material, product, or purpose, unless required to meet military specifications or standards.

(b) No person shall use cryolite to produce insecticide-grade cryolite without authorization from NPA, and no person shall purchase or accept delivery of insecticide containing cryolite except for use, or resale for use, as an insecticide.

(c) Subject to the provisions of paragraph (a) of this section, no person, other than a primary aluminum producer or a producer of insecticide-grade cryolite, may, during any calendar quarter commencing with the fourth quarter of 1952, use in the production of any product a quantity of cryolite in excess of 125 percent of the quantity of cryolite used by him for such purpose during the first calendar quarter of 1950.

SEC. 4. *Limitations on purchase.* No primary aluminum producer shall purchase or accept delivery of cryolite without authorization from NPA.

SEC. 5. *Exports.* No person shall purchase cryolite for export without specific authorization from NPA. The application for an export license to the Office of International Trade shall constitute a request for such NPA authorization.

SEC. 6. *Authorizations and directives.* NPA may issue authorizations or directives to any person from time to time with respect to the quantities of cryolite which may be shipped or accepted for delivery by any person.

SEC. 7. *Inventory limitations.* (a) No person other than primary aluminum producers and producers of, dealers in, and consumers of insecticides containing cryolite, may receive or accept delivery of any cryolite if his inventory of cryolite is, or by reason of such receipt would become, more than 50 percent of the quantity of cryolite he is authorized to use during a calendar quarter under section 3 of this order, or 1500 pounds, whichever is greater, but in no event to exceed twice the quantity of cryolite he is authorized to use during any calendar quarter under section 3 of this order. No such person may place any orders calling for delivery of any cryolite at a time earlier or in greater amounts than he would be permitted to receive under this section. Any such person who at any time has orders outstanding for cryolite calling for delivery earlier or in quantities greater than he would be permitted to receive under this section shall immediately notify his supplier of the extent to which such deliveries may not be accepted as scheduled, and such orders shall be adjusted accordingly. The provisions of NPA Reg. 1 are applicable to cryolite to the extent that such provisions are not inconsistent with the provisions of this section.

(b) No person shall deliver any cryolite if he knows or has reason to believe that the person to whom the delivery is to be made may not accept delivery of that quantity of cryolite or that he will use the cryolite in violation of any provision of this order. No person shall deliver cryolite unless he has previously received from the person to whom delivery is to be made a certificate reading substantially as follows:

Certified under the provisions of NPA Order M-99.

Such certification shall be signed in accordance with the provisions of NPA Reg. 2 and shall constitute a representation to the supplier and to NPA that the person to whom the delivery is to be made is authorized to accept such delivery under the provisions of this order.

SEC. 8. *Small user exemption.* Any person whose use of cryolite for all purposes during any calendar quarter does not exceed 100 pounds is not subject to the provisions of section 3 (c) and section 7 (a) of this order during such quarter. However, every such person is subject to the inventory limitations and all other provisions of NPA Reg. 1.

SEC. 9. *Request for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that his business operation was commenced during or after the base period, that any provision otherwise works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

SEC. 10. *Records and reports.* (a) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this order shall be made available for inspection and audit by duly authorized representatives of the National Production Authority, at the usual place of business where maintained.

(c) For the third calendar quarter of 1952 and for each calendar quarter thereafter, any person whose use of cryolite for all purposes during that calendar quarter exceeded 100 pounds, shall file with the National Production Authority Form NPAF-225 on or before the tenth day of the month following the close of the quarter for which the report is required. Persons who purchase insecticide-grade cryolite for their own use as insecticide are not required to file Form NPAF-225 as to insecticide-grade cryolite so purchased.

(d) Persons subject to this order shall make such records and submit such further reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139-139F).

SEC. 11. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: NPA Order M-99.

SEC. 12. *Violations.* Any person who wilfully violates any provision of this order, or any other order or regulation of NPA, or who wilfully furnishes false information or conceals any material fact in the course of operation under this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order as amended shall take effect October 1, 1952.

Issued September 18, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 6—UNITED STATES GOVERNMENT LIFE INSURANCE

PART 8—NATIONAL SERVICE LIFE INSURANCE

DUE DATE OF PREMIUMS

1. In Part 6, § 6.15 is revised to read as follows:

§ 6.15 *Due date of premiums.* Premiums on United States Government life insurance are due and payable monthly in advance in legal tender of the United States of America to the Veterans' Administration in the city of Washington, District of Columbia. Premiums may be paid annually, semiannually, or quarterly, in advance, in which case the premium payable will be the sum of the monthly premiums for the period discounted at 3½ percent per annum. The discounted premiums for these periods are stated on the first page of the policy. At maturity by death or otherwise, the discounted value at 3½ percent per annum of the premiums paid in advance beyond the current calendar month shall be refunded to the insured, if living; otherwise to the beneficiary. If any premium be not paid when due, the policy shall cease and become void except as otherwise provided.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 6, Pub. Law 23, 82d Cong.; 38 U. S. C. 11a, 426, 707. Interpret or apply secs. 300, 301, 43 Stat. 624, as amended; 38 U. S. C. 511, 512)

2. In Part 8, § 8.5 is revised to read as follows:

§ 8.5 *Due date of premiums.* Premiums on National Service life insurance are due and payable monthly in advance in legal tender of the United States of America to the Veterans' Administration in the city of Washington, District of Columbia. Premiums may be paid annually, semiannually, or quarterly, in advance, in which case the premium payable will be the sum of the monthly premiums for the period discounted at 3 per centum per annum, except that premiums on insurance issued under sections 620 and 621 of the National Service Life Insurance Act, as amended, shall be discounted at 2¼ per centum per annum. The discounted premiums for these periods are stated on the first page of the policy. At maturity the discounted value of the premiums paid in advance beyond the current month shall be refunded to the beneficiary. If any premium be not paid when due, the policy shall cease and become void except as otherwise provided.

(Sec. 10, Pub. Law 23, 82d Cong.)

(Sec. 608, 54 Stat. 1012, as amended, sec. 6, Pub. Law 23, 82d Cong.; 38 U. S. C. 808. Interpret or apply sec. 602, 54 Stat. 1009, as amended; 38 U. S. C. 802)

This regulation is effective September 19, 1952.

[SEAL] H. V. STIRLING,
Deputy Administrator.

[F. R. Doc. 52-10196; Filed, Sept. 18, 1952; 8:45 a. m.]

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

SUBPART B—EDUCATION AND TRAINING

STATUS "REHABILITATED"

In § 21.281, paragraphs (a) and (c) are amended to read as follows:

§ 21.281 *Status "rehabilitated."* (a) A trainee under Part VII, Veterans' Regulation 1 (a), as amended (38 U. S. C. ch. 12), shall be considered employable and declared "rehabilitated" and the necessary steps will be taken to effect such action as soon as any one of the following conditions exists:

(1) When the trainee has completed the prescribed course of training as outlined in the individual training program. The effective date of rehabilitation will be the day following the day of completion of the prescribed course.

(2) When a trainee while in training status or while properly in interrupted status as required by § 21.282 accepts employment in the same occupation for which he is being trained or in an occupation for which the training received under Part VII has contributed materially toward rehabilitation, and his earnings approximate those of the average trained worker in the occupation, and the employment is such kind that to pursue it full time would be not incompatible with the trainee's disability—thus demonstrating attainment of satisfactory employment: *Provided*, That where such employment is not in the same occupation for which the veteran was being trained, his case will be referred to the advisement and guidance section for determination of whether the occupation in which the veteran is employed is compatible with the veteran's disability and aptitudes. The effective date of rehabilitation will be the day following the last day of instruction. If the findings of the advisement and guidance section are negative, the veteran will be placed in discontinued status.

(3) When a veteran whose training has been interrupted under § 21.282 (e) after taking a required examination for license to practice the occupation for which he was trained has passed the examination. The effective date of rehabilitation will be the day following completion of the examination or on the day following completion of the course, whichever is later.

* * * * *

(c) When a trainee discontinues training under § 21.283 (a) (1), (2), (3), (4), or (5) and investigation later discloses that the trainee has accepted employment in an occupation for which the training received under Part VII has contributed materially toward employability and medical or other acceptable evidence indicates that the employment is of a kind which to pursue full time would be not incompatible with the trainee's disability, the trainee will be placed in status "rehabilitated" effective on the day following the last day of instruction for purposes of the office record. In such cases, the veteran shall not receive written notice of rehabilitation and shall not be paid the subsistence allowance ordinarily paid for 2 months following the determination of employability. As indicated, this action is for record purposes only, and the veteran's reentrance into training under the conditions provided for in § 21.286 will not be jeopardized by this recording.

(Sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 2, 57 Stat. 43, as amended, sec. 400, 58 Stat. 287, as amended; 38 U. S. C. 11a, 701, 707, ch. 12 note. Interprets or applies secs. 3, 4, 57 Stat. 43, as amended, secs. 300, 1500–1504, 1506, 1507, 58 Stat. 286, 300, as amended; 38 U. S. C. 693g, 697–697d, 697f, g, ch. 12 note)

This regulation is effective September 19, 1952.

[SEAL] H. V. STIRLING,
Deputy Administrator.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Circular No. 1832]

PART 70—MINERAL LANDS: COAL PERMITS AND LEASES AND LICENSES FOR FREE USE OF COAL

This part is hereby completely revised as follows, effective 60 days after date of issuance hereof by the Secretary of the Interior:

GENERAL

Sec.
70.1 Statutory authority.
70.2 Area and limitation on holdings.
70.3 Qualifications of applicants.
70.4 Permits and leases for lands disposed of with reservation of coal.
70.5 Requirements when lands are within a withdrawal.
70.6 Payments.

COAL LEASES

70.7 Leasing units.
70.8 Form of lease.
70.9 Minimum expenditure and lease bond.
70.10 Minimum production; suspension of operations.
70.11 Application for lease by competitive bidding.
70.12 Offer of lands or deposits for lease by competitive bidding.
70.13 Notice of lease offer.
70.14 Sale; bidding requirements; action by successful bidder.
70.15 Modification and leasing of additional land or coal deposits; consolidation of leases of small areas.
70.16 Renewal of lease; readjustment of terms and conditions.
70.17 Relinquishment of lease.
70.18 Cancellation of lease.
70.19 Use of timber.

COAL PROSPECTING PERMITS

70.20 Character of lands.
70.21 Rights conferred.
70.22 Application for permit.
70.23 Permit bond.
70.24 Reward for discovery.

TRANSFERS OF PERMITS AND LEASES: OVERRIDING ROYALTIES

70.25 Transfers, including sub-leases.
70.26 Limitation on overriding royalties.

LIMITED COAL LICENSES

70.27 Purpose of license.
70.28 Area and duration.
70.29 Application for license.

AUTHORITY: §§ 70.1 to 70.31, issued under sec. 17, 38 Stat. 745; 48 U. S. C. 451.

GENERAL

§ 70.1 *Statutory authority.* Sections 1 to 19, inclusive, of the act of October 20, 1914 (38 Stat. 741, et seq.; 48 U. S. C., sections 432–438, 438a, 439–452), as amended, authorize the Secretary of the Interior to:

(a) Divide into leasing units and award leases of the coal, lignite and associated minerals in unreserved coal lands and coal deposits owned by the United States in Alaska;

(b) Issue permits to prospect unclaimed and undeveloped areas of coal lands and coal deposits in Alaska; and

(c) Issue limited licenses or permits to prospect for, mine and dispose of, for free use, coal on specified tracts belonging to the United States in Alaska.

§ 70.2 *Area and limitation on holdings.* A single lease or permit may embrace not exceeding 2,560 acres except where the rule of approximation applies. A permit will comprise contiguous tracts, or tracts in reasonably compact form, if good reasons appear for not including a contiguous area. A lease will comprise contiguous tracts, except in a case where it appears that non-contiguous tracts can be practically worked as a single mine or unit. No person, association, or corporation, except as in the act provided, may hold more than 2,560 acres in the aggregate, whether directly through the ownership of coal leases and permits or interests in such leases or permits, or indirectly as a member of an association or associations, or as a stockholder of a corporation, holding such leases and permits or interests therein or both.

§ 70.3 *Qualifications of applicants.* (a) Leases, prospecting permits and limited licenses may be issued to citizens of the United States over the age of 21 years, associations of such citizens, corporations organized under the laws of the United States or any State or Territory thereof, including a company or corporation operating a railroad or common carrier, and municipalities. A majority of the stock of such corporation shall at all times be owned and held by citizens of the United States.

(b) Every applicant for coal permit or lease must show that, with the area applied for, his or its interest or interests in such permits, leases and applications therefor, directly or indirectly, do not exceed in the aggregate 2,560 acres, not including areas held under a limited license which, under the act (48 U. S. C., sec. 445), is no bar to acquiring or holding a lease.

(c) Where the applicant is or operates a railroad or common carrier, it must make a statement that it operates main or branch lines in the Territory of Alaska; that the coal or coal lands applied for through leases, applications therefor, and permits, do not exceed such area or quantity as may be required and used solely for its own use; and that the aggregate acreage, other than as set out in § 70.28, in leases and applications therefor and permits in which it is interested directly or indirectly does not exceed 2,560 acres.

(d) Every applicant for lease or permit must also furnish a showing as to the need for additional coal production which cannot otherwise be reasonably met, or, if such a showing of need cannot be made, a statement of the reasons why a lease or permit is desired.

§ 70.4 *Permits and leases for lands disposed of with reservation of coal.* Where lands included in a lease or permit have been disposed of with reservation of the coal deposits, a lessee or permittee must make full compliance with the law under which such reservation was made. See the act of March 8, 1922 (42 Stat. 416; 48 U. S. C., sec. 377); June 17, 1949 (63 Stat. 200); June 21, 1949 (63 Stat. 214; 30 U. S. C., Supp. III, 54), and other laws authorizing such reservations.

§ 70.5 *Requirements when lands are within a withdrawal.* Where any part of the lands embraced in an application for coal lease or permit is within a withdrawal which does not preclude disposition of the coal deposits, the head of the Government agency having control will be called upon for a report as to whether there is any objection to the granting of a coal lease or permit. In cases where such agency recommends that a special stipulation be furnished by the applicant to protect the interest of the United States, an appropriate stipulation will be included in the lease or permit.

§ 70.6 *Payments.* Unless otherwise directed by the Secretary, rentals, royalties and other payments under leases, permits and licensees issued under the act shall be paid to the manager of the land office for the land district in which the lands are situated. All remittances shall be made payable to the Treasurer of the United States.

COAL LEASE[1]

§ 70.7 *Leasing units.* (a) No coal land or deposits may be leased until after division into suitable leasing units or tracts. Such leasing units may be established either upon application or when it is deemed advisable that additional coal units be established.

(b) All material facts, such as character and depth of the coal deposits, topography of the land, situation with respect to adjacent private holdings of coal lands, the proximity of rail or water transportation and outlet for other lands in the immediate vicinity, as well as the investment reasonably required to provide the requisite development and operating facilities, will be given consideration in the establishment of leasing units.

(c) Leasing units may include, in whole or in part, unsurveyed land, but a survey of the land will be made and the leasing unit conformed to such survey prior to the execution of a lease thereof.

§ 70.8 *Form of lease.* Leases shall be issued on Form 4–031a.[2]

§ 70.9 *Minimum expenditure and lease bond.* (a) An actual bona fide expenditure for mine operation, development, or improvement purposes on or for the benefit of the leased land, of the amount that may be determined will be a condition in each lease as the minimum basis on which it will be granted, with the requirement that not less than one-third of such expenditure shall be made during the first year, and a like amount each year for the two succeeding years, the investment during any one year over such proportionate amount for that year to be credited on the expenditure required for the ensuing year or years.

(b) Prior to the issuance of a lease, the lessee shall furnish a bond executed by the lessee with approved corporate surety on Form 4–1113 or the lessee's personal bond on Form 4–1114, in such sum as may be required but in no event less than $1,000, and conditioned upon compliance with all of the terms and provisions of the lease. Personal bonds must be accompanied by a deposit of securities such as specified in § 70.23. If the amount of the bond is fixed at $1,000, the lessees may, instead, furnish a bond on Form 4–1113 with two qualified individual sureties to cover compliance with all terms and provisions of the lease or the applicable law or regulations. Each surety must execute a statement showing that he is worth in real property not exempt from execution double the sum specified in the undertaking, over and above his just debts and liabilities, and that he is either a resident of the same State or Territory and the United States Judicial District as the principal on the bond, or of the Territory and the Judicial District in which the lands involved are located. There must also be furnished a certificate by a judge or clerk of record, a United States Attorney, a United States Commissioner, or United States postmaster, as to the indemnity, signature and financial competency of the sureties. All bonds furnished with individual sureties will be examined every two years or at any other time when found advisable, and the principal on the bond will be required to furnish new statements of justification by the sureties and a new certificate of financial competency, and if such sureties are unable to qualify additional security will be required. The statement of justification required to be furnished by the sureties, and the certificate of competency should be on Form 4–215.

§ 70.10 *Minimum production; suspension of operations.* (a) Leases shall be conditioned upon the payment of a royalty on a minimum annual production beginning with the sixth year of the lease, unless, on application and showing made, the Secretary of the Interior in the interest of conservation, or for other satisfactory cause, shall direct, or shall assent to the suspension of operations or production of coal as provided in section 19 of the act (48 U. S. C. 438a). The law provides that where suspensions are made the payment of rentals will be waived for the period of suspension and the lease term extended for a like period.

(b) If operations or production are suspended pursuant to section 19 of the act (48 U. S. C. sec. 438a), no payment of acreage rental prescribed in the lease is required during such period of suspension. Any such suspension if granted shall be effective beginning with the first day of the lease month following the date of filing of written application for such suspension in duplicate in the office of the regional mining supervisor, and ending with the first day of the lease month in which relief is terminated in writing by the Secretary of the Interior or the regional mining supervisor. Where rentals have been paid in advance, proper credit will be allowed on the next rental or royalty payment due under the lease. Complete information must be furnished showing the necessity for suspension of operation and production in the interest of conservation or other satisfactory cause for the suspension requested.

(c) The term of a lease shall be extended by adding thereto any period of suspension of operations or production assented to or directed by the Secretary of the Interior.

(d) The minimum annual production requirements of a lease shall be proportionately reduced for that portion of a lease year for which suspension of operations or production is directed or granted by the Secretary of the Interior in the interest of conservation or for other satisfactory cause.

§ 70.11 *Application for lease by competitive bidding.* (a) An application for a lease by competitive bidding must be filed in duplicate in the proper land office. No specific form is required, but the application should cover the following points:

(1) The applicant's name and address.

(2) A statement as to citizenship: In the case of an individual, whether native born or naturalized, and if naturalized, date of naturalization, court in which naturalized, and the number of certificate if known, and if a woman, whether married or single, and if married, the facts as to the citizenship of her husband and the date of her marriage if both are not native born citizens. Associations are required to file a certified copy of their articles of association and the same showing as to citizenship and holdings of their members as required of an individual and specified in this subparagraph. If the applicant is a corporation, it must file (i) a certified copy of the articles of incorporation or appropriate reference by land office serial number of the record of the Bureau in which such a copy has been filed, with statement as to any subsequent amendments,

[1] On request addressed to the Director of the Bureau of Land Management at Washington, D. C., a blank lease (Form 4–031a) will be furnished the applicant; also, those who desire may procure from the Superintendent of Documents, Government Printing Office, Washington, D. C., a folio containing photolithographic copies of the approved plats of the topographic and subdivisional township surveys of the Matanuska field (13 townships) for $1 and of the Bering River field (8 townships) for 75 cents.

[2] Filed as part of the original document.

(ii) a separate showing as to the citizenship and holdings of any stockholder owning or controlling at least 20 percent of the stock of the corporation, and (iii) a statement of the proportion of its stock owned or held by aliens. If a majority of the stock of a corporation is held by aliens, the application will be denied. A municipality must submit evidence of: (i) The law, charter and procedure taken by which it became and exists as a legal body corporate; (ii) that the taking of a permit or lease is authorized under such law or charter; and (iii) that the action proposed has been duly authorized by the governing body of such municipality.

(3) A statement that the interests, direct or indirect, in coal leases, permits or applications therefor in Alaska, do not exceed in the aggregate 2,560 acres, except as indicated in § 70.3 (b). Where the applicant is or operates a railroad or common carrier, it must state that the coal or coal lands applied for through leases, applications therefor, and permits, do not exceed such area or quantity as may be required and used solely for its own use.

(4) Description of the land for which the lease is desired, by legal subdivision if surveyed, and by metes and bounds if unsurveyed. In order to properly identify unsurveyed lands, if practicable, the metes and bounds description should be connected by course and distance with some corner of the public-land surveys and their position with reference to rivers, creeks, mountains or mountain peaks, towns, islands, or other prominent topographical points or natural objects or monuments should be given.

(5) The showing specified in § 70.3 (d).

(6) A statement of the general situation of the land with respect to other mines, its topography, outlet to market, and transportation facilities and the character and extent of the coal deposits so far as known.

(7) The contemplated investment for the development and equipment of a producing mine of a stated average daily output.

(b) The application must be signed by the applicant or his attorney-in-fact, and if executed by an attorney-in-fact must be accompanied by the power of attorney and the applicant's own statement[3] as to citizenship and acreage holdings. Application on behalf of a corporation must be accompanied by proof of the signing officer's authority to execute the instrument and must have the corporate seal affixed thereto.

§ 70.12 *Offer of lands or deposits for lease by competitive bidding.* If the lands or deposits are found to constitute an acceptable leasing unit and subject to coal lease, they will be offered for such lease on the terms and conditions to be specified in the notice of sale to the qualified person who offers the highest bonus by competitive bidding as provided by the notice of sale. If it be found that the area covered by an application does not constitute an acceptable leasing unit, the area may be adjusted, by appropriate additions and eliminations, to constitute an acceptable leasing unit which may be offered for lease.

§ 70.13 *Notice of lease offer.* Notice under the preceding section of the offer of the lands or deposits for lease will be given by publication once a week for four consecutive weeks, or for such other period as may be deemed advisable, in a newspaper of general circulation, published in the Territory of Alaska. The notice will be published at the expense of the Government. Such notice will show the day, hour, and place of sale, whether the sale will be at public auction or by sealed bids, the method of submitting sealed bids, the rental and rate of royalty to be charged, the minimum investment and the minimum production requirement, and the description of the land. If the sale is by public auction the notice will also specify that sealed bids will be accepted. The right is reserved by the Director, Bureau of Land Management, in the public interest, to reject any and all bids, and should a bid be rejected, the deposit made by the bidder will be returned. All bidders at any public sale of leases are warned against committing any act of intimidation, combination or unfair management to hinder or prevent bidding thereon, in violation of 18 U. S. C., 1860.

§ 70.14 *Sale; bidding requirements; action by successful bidder.* When the sale is by public auction, before bidding is commenced by those persons present, the manager or other officer conducting the sale will open and read to those persons the sealed bids received on or before the time set in the notice of sale. The successful bidder must on the day of sale deposit with the manager of the land office or other officer conducting the sale and each sealed bid must be accompanied by the following: Certified check, money order, or cash, for one-fifth of the amount of bid and evidence of qualifications of the bidder as prescribed in § 70.11 (a) (2), (3) and (b), if a current showing in that regard has not been filed in connection with the application for lease of the lands or deposits. If the land is surveyed, the successful bidder will be allowed 30 days from receipt of lease forms within which (a) to file in the proper land office a lease, duly executed by him on form 4–031a and the bond required by § 70.9, and (b) to pay the remainder of the bonus bid by him and the annual rental for the first year of the lease. The lease will be dated as of the first day of the month following its issuance unless the successful bidder requests that it be dated as of the first day of the month of issuance. If the land is unsurveyed, the successful bidder will not be required to comply with requirements of paragraphs (a) and (b) in this section until the land has been surveyed and the plat of such survey accepted and officially filed. Such survey will be at the expense of the Government. If the bidder fails to comply after due service of notice, that portion of his deposit representing the minimum required to be deposited with the bid shall be held as liquidated damages and disposed of as other receipts under the Alaska Coal Act.

§ 70.15 *Modification and leasing of additional land or coal deposits; consolidation of leases of small areas.* (a) Under section 4 of the act (48 U. S. C. Sec. 435), a lessee may obtain a further or new lease to include additional coal lands contiguous to those embraced in his original lease, but in no event shall the area embraced in the original and new lease exceed in the aggregate 2,560 acres, except where the rule of approximation applies. The lessee shall file his application for a new lease in duplicate in the proper land office describing the additional lands desired, the needs and reason for and the advantage to the lessee of such lease. Upon determination by the Director that the new lease is justified, the land or deposits may be offered as provided in § 70.13.

(b) Upon a satisfactory showing by the lessee that all of the workable deposits of coal within a tract covered by the lease will be exhausted, worked out or removed within three years thereafter, an additional tract of land or coal deposit may be leased. An application should be filed in duplicate in the proper land office and should contain a description of the lands requested, estimated recoverable reserves, future plan of operation for such reserves and for any lands requested, and the proposed method of entry into such lands. If the lands or coal deposits or any part thereof are found to constitute an acceptable leasing unit, they will be offered for leasing as provided in § 70.13. If the applicant be the successful bidder and the additional lands can be practicably operated with the applicant's leasehold as a single mine or unit, the additional lands may be included in a modified lease which must not exceed 2,560 acres; otherwise, a separate lease may be issued.

(c) Under section 5 of the act (48 U. S. C., sec. 436), lessees holding under leases small blocks or areas may consolidate their leases or holdings so as to include in a single holding not to exceed 2,560 acres of contiguous lands. The lessees should file their joint application for a new lease in duplicate in the proper land office describing the lands held in their respective leases and giving the serial numbers of such leases, and stating the reasons why they desire a consolidated lease. If the showing is deemed satisfactory to the Director, a consolidated lease will be issued.

(d) Before a new lease under paragraph (a) of this section, or a lease modified under paragraph (b) of this section, or a consolidated lease under paragraph (c) of this section is issued, the lessee or lessees shall file the consent of the surety or sureties and the acceptance by the lessee or lessees of the terms and conditions proposed.

§ 70.16 *Renewal of lease; readjustment of terms and conditions.* A lease is subject to renewal and its terms and conditions are subject to readjustment at the end of each fifty-year period (or such extended period as results from the grant of a suspension of operations or production) succeeding the date of the lease unless otherwise provided by law at the time of the expiration of such periods. In addition, the lessor may readjust and fix royalties payable under the lease at the end of each 20-year period of the lease. The lessee will be notified by the lessor of the proposed readjustments or notified that no readjustment is to be made. Unless the lessee files objection to the proposed terms or a relinquishment of the lease within 30 days after receipt of notice, he will be deemed to have agreed to such terms and, at the end of each 50-year period, to renewal of his lease. Notice of the proposed readjustments will be given, whenever feasible, before the expiration of each such twenty- or fifty-year period as the case may be.

§ 70.17 *Relinquishment of lease.* Upon payment of all rentals, royalties, and other debts due and payable to the lessor, upon payment of all wages or money due and payable to the workmen employed by the lessee, and upon a satisfactory showing that the public interest will not be impaired, the lessee may surrender the entire lease. The lessee may also surrender any legal subdivision of the are included within the lease, but in no case shall such lease be so terminated in whole or in part until and unless the lessee shall have made provision for the preservation of any mines or productive works or permanent improvements on the lands covered thereby in accordance with the regulations and terms of the lease. A surrender must be made by a relinquishment filed in duplicate in the proper land office. A relinquishment upon its acceptance shall take effect as of the date it is filed.

§ 70.18 *Cancellation of lease.* If the lessee shall fail to comply with the provisions of the act, or of the general regulations promulgated and in force at the date of the lease or at the effective date of any readjustment of the terms and conditions thereof under § 70.16, or make default in the performance or observance of any of the terms, covenants, and stipulations of the lease and such failure or default shall continue for 30 days after service of written notice thereof by the lessor, then the lessor may institute appropriate proceedings in a court of competent jurisdiction for the forfeiture and cancellation of the lease as provided in section 14 of the act (48 U. S. C. sec. 449). A waiver of any particular cause of forfeiture shall not prevent the cancellation and forfeiture of the lease for any other cause of forfeiture, or for the same cause occurring at any other time.

§ 70.19 *Use of timber. The use of* timber found upon the public lands in Alaska, by the permittee and the lessee, for firewood, fencing, buildings, mining, prospecting, and for domestic purposes in addition to that taken from the area in the permit or lease, may be obtained under the act of May 14, 1898 (30 Stat. 414; 48 U. S. C. sec. 423), as amended, or by arrangement with the Department of Agriculture, if the land is in a national forest.[4]

COAL PROSPECTING PERMITS

§ 70.20 *Character of lands.* Permits shall be issued on Form 4–031b[5] for a period of four years to qualified applicants to prospect unclaimed and undeveloped lands where prospecting or exploratory work is necessary to determine the existence or workability of the coal deposits.

§ 70.21 *Rights conferred.* A permit will entitle the permittee to the exclusive right to prospect for coal on the land described therein. In the exercise of this right, the permittee shall be authorized to remove from the premises only such coal as may be necessary to determine the workability and commercial value of the coal deposits in the land.

§ 70.22 *Application for permit.* An application for a permit must be filed in duplicate in the manner and in the office specified in § 70.11 (a). Each application must be accompanied by a filing fee of $10.00 which will be retained as a service charge even though the application should be rejected or withdrawn either in whole or in part. No specific form of application is required, but in addition to the requirements of § 70.11 (a) (1), (2), (3), (4) and (5) and (b), it should cover the following points:

(a) Condition of coal occurrences, so far as determined; description of workings, and outcrops of coal beds, if any, and reason why the land is believed to offer a favorable field for prospecting for coal.

(b) Detailed plan and method of conducting prospecting or exploratory operations on the land, estimated cost of carrying out such proposed prospecting operations, and the diligence with which such operations will be prosecuted.

(c) Brief statement of applicant's experience in coal-mining operations, if any, together with one or more references as to his reputation and business standing.

§ 70.23 *Permit bond.* The applicant must furnish a corporate surety bond on Form 4–1130 or his personal bond on Form 4–1131 conditioned upon compliance with all the terms of the prospecting permit. The bond shall be in the sum of $1,000 and where the lands applied for have been entered or patented with the coal reserved to the United States pursuant to the act of March 8, 1922 (42 Stat. 416; 48 U. S. C., sec. 377), the bond must be conditioned upon the payment of any damages caused to the crops or improvements thereon by reason of prospecting for coal thereon under the permit. Personal bonds must be accompanied by a deposit of negotiable Federal securities equal at their par value to the amount of the bond. The bond may be filed with the application which will expedite action thereon, or within 30 days after receipt of notice by the applicant, that the permit will be granted when the bond is filed. The permittee may, in place of a bond of the two types specified above, submit one on Form 4–1130 with two qualified sureties as provided in § 70.9 (b).

§ 70.24 *Reward for discovery.* A permittee who shows, that prior to the expiration of his permit, the land included in the permit contains coal in commercial quantities, is entitled to a preference right lease for all or part of the land, the area to be taken in compact form. An application for preference right lease must be filed in duplicate in the office specified in § 70.11 (a) promptly after commencement of commercial operations, but in no event later than the expiration of the period to which the permit is limited. The application must describe the land desired, set forth fully and in detail the extent and mode of occurrence of the coal deposits as disclosed by the prospecting work performed under the permit, show that coal was discovered in commercial quantities before the date of the expiration of the permit and show any change in the information contained in the application for permit. The application must be accompanied by the rental for the first year of the lease, which shall be 25 cents for each acre, or fraction thereof. The lease, if issued, will be in accordance with the provisions of §§ 70.8 to 70.10, inclusive, and will be dated the first day of the month following the date the application is filed unless the applicant requests that it be dated the first day of the month within which it is filed. If the permit expires and the application for lease is finally rejected, royalty for coal mined to the date of receipt of notice by the permittee of such rejection will be charged in accordance with the royalty terms of the permit and such mining of the coal will not constitute a trespass.

TRANSFERS OF PERMITS AND LEASES; OVERRIDING ROYALTIES

§ 70.25 *Transfers, including subleases.* (a) Permits and leases may be transferred in whole or in part to any person, association, or corporation qualified to hold such leases and permits. The approval of a transfer of only part of the lands described in a permit or lease will create a new permit or lease but a discovery on lands under one permit will not inure to the benefit of the other. The approval of such a transfer will not extend the life of the permit or the readjustment periods of the lease. Transfers of permits and leases, whether by direct assignments, working agreements, transfer of royalty interests, subleases or otherwise, must be filed for approval at the office specified in § 70.11 (a) within 90 days from final execution and must contain evidence of the qualifications of the assignee or transferee, consisting of the same showing required of a lease or permit applicant by § 70.11 (a), (2) and (3) and (b). If the instrument fails to describe the true consideration, a statement must be submitted showing the consideration in full. The statement will be treated as confidential and not for public inspection. If a bond is necessary it must be furnished. Transfers of record title interest must be filed in duplicate. A single executed copy of all other instruments of transfer is sufficient. A transfer will take effect the first day of the month following its final

[3] 18 U. S. C. 1001 makes it a crime for any person knowingly and willfully to submit or cause to be submitted to any agency of the United States any false or fraudulent statement as to any matter within its jurisdiction.

[4] See Part 79 of this chapter, Timber.

[5] Filed as part of the original document.

approval or if the transferee requests, the first day of the month of approval.

(b) The transferor of a permit or lease, including a sublease, and his surety will continue to be responsible for the performance of any obligation under the permit or lease until the effective date of the approval of the transfer. If the transfer is not approved, their obligation to the United States shall continue as though no such transfer had been filed for approval. After the effective date of approval, the transferee, including sublessee, and his surety will be responsible for the performance of all permit or lease obligations notwithstanding any terms in the transfer to the contrary. The account under the permit or lease must be in good standing before approval of a transfer will be given.

(c) An application for approval of any instrument or transfer of a lease or permit or interest therein or a filing of any such instrument must be accompanied by a fee of $10, and an application not accompanied by payment of such a fee will not be accepted for filing by the manager. Such fee will not be returned even though the application later be withdawn or rejected in whole or in part.

§ 70.26 *Limitation on overriding royalties.* An overriding royalty interest shall not be created by assignment or otherwise exceeding 50 percent of the rate of royalty first payable to the United States under the lease or an overriding royalty interest which when added to any over overriding royalty interest exceeds that percentage, excepting that where an interest in the leasehold or operating agreement is assigned, the assignor may retain an overriding royalty interest in excess of the above limitation if he shows to the satisfaction of the Bureau of Land Management, that he has made substantial investments for improvements on the land covered by the assignment.

LIMITED COAL LICENSES

§ 70.27 *Purpose of license.* Coal licenses may be issued, for the supply of strictly local and domestic needs for fuel, for a period of two years to any of the applicants having the qualifications specified in § 70.3 (a), without the payment of royalty for the coal mined or for the land occupied. All licensees may mine coal for sale, except a company or corporation operating a common carrier, which is restricted by section 3 of the act (48 U. S. C., sec. 434), to the requirement of only such an area or amount of coal as may be required and used solely for its own consumption. The holding of a lease is no bar to the acquisition of, holding or operating a limited coal license and the holding of a license is no bar to the acquisition or holding of a lease or interest therein. No such licenses, however, will be issued for coal lands in the Bering or Matanuska coal fields which have been surveyed into leasing blocks or tracts or in fields where mines are being operated under lease. A license grants the right to prospect for, mine, and remove coal free of charge from specified tracts of lands belonging to the United States in Alaska, and does not authorize the mining of any other form of mineral deposits, nor the cutting or removal of timber.

§ 70.28 *Area and duration.* A license will be limited to specified tracts not to exceed 10 acres in any one coal field. The ground covered by a license must be square in form and should be limited to an area reasonably sufficient to supply the quantity of coal needed. The act limits the license period to 10 years, but a license will expire by limitation at the end of 2 years from date of issuance, unless timely renewed on application filed and proper showing made prior to expiration of the 2-year period, subject to such conditions necessary for the protection of the public interest as may be imposed prior to or at the time of the extension. Misrepresentation, carelessness, waste, injury to the property, the charge of unreasonable prices for coal, or material violations of the rules and regulations governing operation as shall have been prescribed in advance of the issuance of a license, will be deemed sufficient cause for revocation.

§ 70.29 *Application for license.* (a) Application for a license to mine coal for local and domestic needs must be filed on Form 4–694a, or its substantial equivalent in the office specified in § 70.11 (a) and be accompanied by a $10 filing fee. A municipality must file with the application a showing of (1) the law or charter and procedure taken by which it became and exists as a legal body corporate, (2) that the taking of a license is authorized under such law or charter and (3) that the proposed action has been duly authorized by the governing body of the municipality.

(b) Prior to the execution of the application, the applicant must have gone upon the land, plainly marked the boundaries thereof by substantial monuments, and posted a notice setting forth his intention of mining coal therefrom. The application must contain the statement that these requirements have been complied with and the description of the land as given in the application must correspond with the description as marked on the ground. The license, if granted, should be recorded with the local mining district recorder, if the land is situated within an organized mining district.

(c) Applicants are allowed, due to the long distances and limited means of transportation, the privilege of mining coal as soon as their applications have been forwarded to the office specified in § 70.11 (a). If the application should be rejected, upon receipt of notice of such rejection, all privileges under this section terminate and the applicant must cease mining the coal.

NOTE: The reporting requirement of this regulation has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOEL D. WOLFSOHN,
Assistant Secretary of the Interior.

SEPTEMBER 15, 1952.

[F. R. Doc. 52–10202; Filed, Sept. 18, 1952; 8:47 a. m.]

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter C—Management of Wildlife Conservation Areas

PART 36—ALASKA REGION

SUBPART—KENAI NATIONAL MOOSE RANGE, ALASKA

Basis and purpose. The following regulations are basically explanatory and also modify existing general restrictions to be specifically applicable to public use allowed on the Kenai National Moose Range, Alaska.

Inasmuch as these regulations are informative, notice and public procedure thereon are not required (60 Stat. 237; 5 U. S. C. 1001, et seq.).

Effective immediately upon publication in the FEDERAL REGISTER, the following subpart and sections are added:

GENERAL REGULATIONS

Sec.
36.41 Entry.
36.42 Temporary use.
36.43 Hunting, fishing, and trapping.
36.44 Economic uses.
36.45 Cabins and structures.
36.46 Hunting camp sites.
36.47 Tent sites.
36.48 Public use area.
36.49 Fires.
36.50 Guided party camps.
36.51 Mining and prospecting.
36.52 Airplane landing fields.
36.53 Permit applications.
36.54 Revocation of permits.

AUTHORITY: §§ 36.41 to 36.54, issued under sec. 10, 45 Stat. 1224; 16 U. S. C. 715i.

§ 36.41 *Entry.* Entry on and use of the refuge for any purpose are governed by the regulations in Parts 18 and 21 of this chapter and by §§ 36.42 to 36.54, inclusive, and strict compliance therewith is required.

§ 36.42 *Temporary use.* Any person without a permit may go on any part of this refuge (a) for temporary use for camp site purposes, (b) for recreational purposes, the taking of photographs, nature study or scientific study, and (c) for any other temporary or transient uses not inconsistent with the purposes for which the refuge was established and not in conflict with the provisions of §§ 36.41 to 36.53, inclusive, or other applicable laws and regulations, including those of the Territory.

§ 36.43 *Hunting, fishing, and trapping.* Any person may hunt, trap, or take game fish on the Kenal National Moose Range, provided such person complies with the provisions of the Alaska Game Law and regulations issued pursuant thereto and has on his person and exhibits at the request of any authorized Federal or Territorial officer whatever license or licenses may be required by such law or by Territorial law or regulations, which license shall serve as a Federal permit for such activity.

§ 36.44 *Economic uses.* When such operations will not endanger the purpose for which the refuge was established, the Regional Director or the Refuge Manager may grant revocable permits for the removal of timber, firewood, or other spontaneous products of the soil, including sand, shell, gravel, and stone, or for other privileges and uses of the refuge under such terms and conditions and at such rates of charge as the Director may determine to be in the public interest.

§ 36.45 *Cabins and structures.* (a) The Regional Director may grant revocable permits in accordance with § 36.44 for the erection or maintenance of cabins or other structures of a permanent or semipermanent nature after a full consideration of all the facts and equities. The benefits of such a permit shall inure only to the person or persons owning such building or structure at the time of the granting of the original permission, and such right and interest shall not be transferable.

(b) The Regional Director may refuse to grant a permit for the use and maintenance of any cabins or other structure whenever such action, in his discretion, is in the public interest. Whenever the Regional Director determines that the public interest will be served by refusing to grant a permit authorizing the continued occupancy or maintenance of any cabin or structure erected prior to the effective date of this subpart, such cabin or structure shall be deemed to be in trespass.

§ 36.46 *Hunting camp sites.* Revocable permits may be granted under § 36.44 for the use of sites within an area adjoining Chickaloon Bay designated by the Refuge Manager for the maintenance of duck hunting camps by organizations and individuals. No permits will be issued for commercial lodges.

§ 36.47 *Tent sites.* Temporary tent camps for private use (as distinguished from commercial or guided operations) are allowed without formal permit, provided that no site may be occupied for more than 60 days, and all installations and facilities shall be removed from the site at the conclusion of the occupancy.

§ 36.48 *Public use area.* The exercise of any privileges under the terms of any permit issued pursuant to the provisions of §§ 36.44 to 36.47 shall be subject at all times to the right of the public to enter upon, cross, and otherwise use seasonally in connection with commercial fishing operations such of the lands described in the permit as lie within 100 yards of the high-water mark of Cook Inlet.

§ 36.49 *Fires.* (a) The following acts in regard to fires are prohibited on the refuge:

(1) Setting on fire or causing to be set on fire any timber, brush, grass, or other soil cover, except as authorized by or on areas designated by the Refuge Manager.

(2) Building a camp fire in a dangerous place or during windy weather without confining it to holes or cleared spaces from which all vegetable matter has been removed.

(3) Leaving a camp fire without completely extinguishing it.

(b) Provisions of the Territorial Fire Control Act, Sec. 65–5, ACLA 1949, shall apply to the refuge.

(c) Certain areas of high hazard on the refuge may be closed to public entry during periods of high fire danger, by suitable posting by the Refuge Manager.

§ 36.50 *Guided party camps.* (a) A permit issued without charge by the Refuge Manager shall be required of all guides or transportation agents serving parties or individuals on the Range, whether on a commercial or noncommercial basis. The Refuge Manager may specify the area or areas within which guide or transportation services may be furnished and the period during which such services may be provided as authorized under such permit.

(b) No such permit shall be issued for nor shall any individual or party served by a guide or transportation agent enter or use the following areas:

(1) Kenai River between Skilak Lake and a point approximately 4 miles downstream, and on the Kenai River from Skilak Lake upstream to the Moose Range boundary.
(2) Skilak Lake.
(3) Hidden Lake.
(4) Russian River.
(5) Upper and Lower Russian Lakes.

§ 36.51 *Mining and prospecting.* Entry on the refuge for the purpose of prospecting or mining is prohibited except on valid mining locations predating the Executive Order establishing the refuge (December 16, 1941).

§ 36.52 *Airplane landing fields.* The construction of airplane landing fields or the alteration or improvement of the terrain in any manner which would result in the creation of landing areas other than those available in the natural condition is prohibited on the refuge.

§ 36.53 *Permit applications.* Applications for permits covering any of the above permitted uses should be addressed to the Regional Director, Fish and Wildlife Service, Juneau, Alaska, or to the Refuge Manager, Fish and Wildlife Service, Kenai, Alaska.

§ 36.54 *Revocation of permits.* Any permit issued under this subpart may be revoked by the issuing officer for noncompliance with the terms thereof, for nonuse, or for violation of any law or regulation applicable to the refuge or of any Territorial or Federal law or regulation protecting game, fish, or other wildlife, and it is subject at all times to discretionary revocation by the Director of the Service.

Dated: September 12, 1952.

O. H. JOHNSON,
Acting Director.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 52]

U. S. STANDARDS FOR GRADES OF FROZEN DICED CARROTS [1]

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the revision, as herein proposed, of United States Standards for Grades of Frozen Diced Carrots, pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621, et seq.) and the Department of Agriculture Appropriation Act, 1953 (Pub. Law 451; 82d Cong., approved July 5, 1952). This revision, if made effective, will be the second issue by the Department of grade standards for this product.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed revision should file same, in duplicate, with the Chief, Processed Products Standardization and Inspection Division, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

The proposed revision is as follows:

§ 52.218 *Frozen diced carrots.* Frozen diced carrots is the clean and sound product prepared from the root of the carrot plant (Daucus carota) by washing, sorting, peeling, trimming, and blanching, and is then frozen and maintained at temperatures necessary for the preservation of the product.

(a) *Style of frozen diced carrots.* "Diced carrots" means frozen carrots consisting of units produced by cutting whole carrots into cubes having edges, other than the rounded outer edges, measuring approximately ½ inch or less.

(b) *Grades of frozen diced carrots.* (1) "U. S. Grade A" or "U. S. Fancy" is the quality of frozen diced carrots that possess similar varietal characteristics; that possess a good flavor and odor; that possess a good color; that are practically free from defects; that are tender; that are practically uniform in size and shape; and that score not less than 85 points when scored in accordance with the scoring system outlined in this section.

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

(2) "U. S. Grade B" or "U. S. Extra Standard" is the quality of frozen diced carrots that possess similar varietal characteristics; that possess a reasonably good flavor and odor; that possess a reasonably good color; that are reasonably free from defects; that are reasonably tender; that are reasonably uniform in size and shape; and that score not less than 70 points when scored in accordance with the scoring system outlined in this section.

(3) "Substandard" is the quality of frozen diced carrots that fail to meet the requirements of U. S. Grade B or U. S. Extra Standard.

(c) *Ascertaining the grade.* (1) The grade of frozen diced carrots may be ascertained by considering, in conjunction with the requirements of the respective grade, the respective ratings for the factors of color, uniformity of size and shape, absence of defects, and texture.

(2) The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given each such factor is:

Factors:	Points
(i) Color	25
(ii) Uniformity of size and shape	15
(iii) Absence of defects	30
(iv) Texture	30
Total score	100

(3) The score for the factors of color, uniformity of size and shape, and absence of defects in frozen diced carrots is determined immediately after thawing to the extent that the product is substantially free from ice crystals and can be handled as individual units. A representative sample of the product is cooked to determine texture and flavor and odor.

(4) "Good flavor and odor" means that the product after cooking has a good characteristic, normal flavor and odor and is free from objectionable flavors and objectionable odors of any kind.

(5) "Reasonably good flavor and odor" means that the product after cooking may be lacking in good flavor and odor but is free from objectionable flavors and objectionable odors of any kind.

(d) *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "12 to 15 points" means 12, 13, 14, or 15 points).

(1) *Color.* (i) Frozen diced carrots that possess a good color may be given a score of 21 to 25 points. "Good color" means that the frozen diced carrots possess an orange-yellow color that is bright and typical of frozen carrots, and that the presence of green units does not more than slightly affect the appearance or eating quality of the product.

(ii) If the frozen diced carrots possess a reasonably good color, a score of 18 to 20 points may be given. Frozen diced carrots that fall into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means that the frozen diced carrots possess the typical color of frozen carrots and such color may be slightly dull but not off color, and that the presence of green units does not materially affect the appearance or eating quality of the product.

(iii) Frozen diced carrots that are off color for any reason or that fail to meet the requirements of subdivision (ii) of this subparagraph may be given a score of 0 to 17 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

(2) *Uniformity of size and shape.* (i) Frozen diced carrots that are practically uniform in size and shape may be given a score of 12 to 15 points. "Practically uniform in size and shape" means that the units are practically uniform in size and shape with edges, other than the rounded outer edges, measuring approximately ½ inch or less; and the aggregate weight of all units of irregular shape which are noticeably smaller than one-half the volume of an average size cube and of all noticeably large and large irregular shaped units does not exceed 12 percent of the weight of all the units.

(ii) If the frozen diced carrots are reasonably uniform in size and shape a score of 8 to 11 points may be given. Frozen diced carrots that fall into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably uniform in size and shape" means that the units are reasonably uniform in size and shape with edges, other than the rounded outer edges, measuring approximately ½ inch or less; and the aggregate weight of all units of irregular shape which are noticeably smaller than one-half the volume of an average size cube and of all noticeably large and large irregular shaped units does not exceed 25 percent of the weight of all the units.

(iii) Frozen diced carrots that fail to meet the requirements of subdivision (ii) of this subparagraph may be given a score of 0 to 7 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

(3) *Absence of defects.* (i) The factor of absence of defects refers to the degree of freedom from defective units. Defective units are units damaged by mechanical injury, unpeeled units, units blemished by internal or external discoloration, sunburn or green colored units, pathological injury or insect injury, and units blemished by other means.

(a) "Damaged by mechanical injury" means crushed, broken or cracked units, units with excessively frayed edges and surfaces, or damaged by other means.

(b) "Unpeeled unit" means any unit possessing an unpeeled area greater than the area of a circle ⅛ inch in diameter.

(c) "Blemished" means any unit blemished to the extent that the appearance or eating quality is materially affected.

(d) "Seriously blemished" means any unit blemished to the extent that the appearance or eating quality is seriously affected.

(ii) Frozen diced carrots that are practically free from defects may be given a score of 26 to 30 points. "Practically free from defects" means that the aggregate weight of all defective units does not exceed 10 percent of the weight of all the units, and of such 10 percent not more than one-half thereof or 5 percent, by weight, of all the units may consist of blemished units and seriously blemished units and of such 5 percent not more than ⅛ thereof or ½ of 1 percent, by weight, of all the units may be seriously blemished: *Provided*, That the presence of blemished and seriously blemished units does not more than slightly affect the appearance or eating quality of the product.

(iii) Frozen diced carrots that are reasonably free from defects may be given a score of 22 to 25 points. Frozen diced carrots that fall into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that the aggregate weight of all defective units does not exceed 16 percent of the weight of all the units and of such 16 percent not more than ½ thereof or 8 percent, by weight, of all the units may consist of blemished units and seriously blemished units and of such 8 percent not more than ¼ thereof or 2 percent, by weight, of all the units may be seriously blemished: *Provided*, That the presence of blemished and seriously blemished units does not materially affect the appearance or eating quality of the product.

(iv) Frozen diced carrots that fail to meet the requirements of subdivision (iii) of this subparagraph may be given a score of 0 to 21 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

(4) *Texture.* The factor of texture refers to the tenderness of the carrots and the degree of freedom from coarse or fibrous units.

(i) Frozen diced carrots that possess a tender texture may be given a score of 26 to 30 points. "Tender texture" means that the carrots are tender, not fibrous, and possess a uniform character.

(ii) If the frozen diced carrots possess a reasonably tender texture, a score of 22 to 25 points may be given. Frozen diced carrots that fall into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably tender texture" means that the carrots are reasonably tender, may be variable in character but not tough or hard, and there may be present a few units which possess a coarse or fibrous texture.

(iii) Frozen diced carrots that fail to meet the requirements of subdivision (ii) of this subparagraph may be given a score of 0 to 21 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

(e) *Tolerance for certification of officially drawn samples.* (1) When certifying samples that have been officially drawn and which represent a specific lot of frozen diced carrots the grade for such lot will be determined by averaging the total scores of all containers, if:

(i) Not more than one-sixth of the containers comprising the sample fails to meet all the requirements of the grade indicated by the average of such total scores, and with respect to such containers which fail to meet the requirements of the indicated grade by reason of a limiting rule, the average score of all containers in the sample for the factor, subject to such limiting rule, must be within the range for the grade indicated;

(ii) None of the containers comprising the sample falls more than 4 points below the minimum score for the grade indicated by the average of the total scores; and

(iii) All containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification.

(f) *Score sheet for frozen diced carrots.*

Size and kind of container			
Container marks or identification

[7 CFR Part 909]

HANDLING OF ALMONDS GROWN IN CALIFORNIA

BUDGET OF EXPENSES OF ALMOND CONTROL BOARD AND RATE OF ASSESSMENT FOR CROP YEAR BEGINNING JULY 1, 1952

Notice is hereby given that the Department is considering the issuance of the proposed administrative rule herein set forth pursuant to the provisions of Marketing Agreement No. 119 and Order No. 9, regulating the handling of almonds grown in California (7 CFR Part 909), effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

Prior to the final issuance of such rule, consideration will be given to data, views, or arguments pertaining thereto which are submitted in writing to the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., and which are received not later than the close of business on the tenth day after publication of this notice in the FEDERAL REGISTER, except that if the tenth day after publication should fall on a Saturday, Sunday, or holiday, such submission may be received by the Director not later than the close of business on the next following work day.

Pursuant to provisions of said agreement and order, a budget of $49,000 has been recommended by the Almond Control Board, the administrative agency under said agreement and order. Approximately 55 percent of the proposed amount of the budget is composed of salaries, and most of the remainder is for board meetings, travel, rent, office supplies and equipment, services, and unappropriated reserve. The recommendation appears to be reasonable.

It is expected that almonds received by handlers for their own accounts (the quantity on which assessments will apply) during the crop year beginning July 1, 1952, will approximate 37,000,000 pounds of edible kernels. The agreement and order established an assessment rate of two-tenths of a cent per pound. The application of this rate would provide an amount considerably in excess of the proposed budget. A rate of fifteen one-hundredths of a cent (0.15 cent) per pound would result in collection of sufficient funds to meet the budget. The agreement and order provides that funds collected in excess of expenditures within the authorized budget shall be refunded pro rata to handlers from whom the assessments were collected. It is therefore proposed to fix the assessment rate at fifteen-hundredths of a cent (0.15 cent) per pound.

Therefore, the proposed rule is as follows:

§ 909.302 *Budget of expenses of the Almond Control Board and rate of assessment for the crop year beginning July 1, 1952*—(a) *Budget of expenses.* For the crop year beginning July 1, 1952, expenses in the amount of $49,000 are reasonable and likely to be incurred by the Almond Control Board for its maintenance and functioning and for such purposes as the Secretary may, pursuant to the provisions of the agreement and order, determine to be appropriate.

(b) *Rate of assessment.* The rate of assessment for the crop year beginning July 1, 1952, shall be, in lieu of the assessment rate specified in § 909.121 of said agreement and order, fifteen one-hundredths of a cent (0.15 cent) for each pound of edible almond kernels received by each handler for his own account, except as to receipts from other handlers on which assessments have been paid.

Issued at Washington, D. C., this 16th day of September 1952.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch.

[F. R. Doc. 52–10246; Filed, Sept. 18, 1952, 8:55 a. m.]

[7 CFR Part 993]

HANDLING OF DRIED PRUNES PRODUCED IN CALIFORNIA

ESTABLISHMENT OF SALABLE AND SURPLUS PERCENTAGES FOR 1952–53 CROP YEAR

Notice is hereby given that there is being considered a proposed rule to establish a salable percentage of 100 and a surplus percentage of zero in connection with dried prunes which are produced in California during the 1952–53 crop year. These percentages were recommended by the Prune Administrative Committee in accordance with the provisions of Marketing Agreement No. 110, as amended, and Order No. 93, as amended (7 CFR, 1951 Supp., Part 993), regulating the handling of dried prunes produced in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

Consideration will be given to any data, views, or arguments pertaining thereto which are filed in triplicate with the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., and received not later than the close of business on the tenth day after the date of the publication of this notice in the FEDERAL REGISTER, except that, if said tenth day after publication should fall on a legal holiday, Saturday, or Sunday, such submission must be received by the Director not later than the close of business on the next following business day.

The proposed rule is as follows:

§ 993.203 *Dried prune salable tonnage and surplus tonnage regulation for the 1952–53 crop year.* (a) The salable percentage of dried prunes produced in California for the crop year beginning August 1, 1952, and ending July 31, 1953, shall be 100 percent, and the surplus percentage of such dried prunes for said crop year shall be zero percent.

(b) A salable percentage of 75 percent and surplus percentage of 25 percent were established for the 1951–52 crop year. Among the factors tending to support the presently proposed rule are: (1) A substantially smaller carrying of dried prunes at August 1, 1952 than that of a year earlier; (2) a smaller prospective production of dried prunes in California in 1952 than that in 1951; (3) anticipated consumer purchasing power for 1952–53 at least equal to that of 1951–52; and (4) in spite of the foregoing factors, there is expected to be a moderate surplus consisting of substandard dried prunes during the 1952–53 crop year. The surplus for the 1952–53 crop year is not expected to exceed the quantity of substandard prunes estimated to be contained in the current year's pro-

duction. Under the provisions of the aforesaid marketing agreement and order, substandard prunes are set aside and pooled as surplus when the surplus percentage is established as zero. The surplus substandard prunes may be sold for animal feed and for manufacturing purposes. Any of such prunes as are used for manufacturing purposes for human consumption must meet prescribed minimum standards of quality. It does not appear from data currently available that average returns to California producers of 1952 crop prunes will exceed the price level specified in section 2 (1) of the act.

Issued at Washington, D. C., this 16th day of September 1952.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Branch.

FEDERAL POWER COMMISSION

LOUISIANA NEVADA TRANSIT CO.

NOTICE OF ORDER APPROVING AND DIRECTING DISPOSITION OF GAS PLANT ADJUSTMENT

SEPTEMBER 15, 1952.

Notice is hereby given that on September 15, 1952, the Federal Power Commission issued its order entered September 11, 1952, approving and directing disposition of amount classified in Account 107, gas plant adjustments in the above-entitled matter.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 52-10232; Filed, Sept. 18, 1952; 8:53 a. m.]

[Docket No. E-6455]

SIERRA PACIFIC POWER CO.

NOTICE OF APPLICATION

SEPTEMBER 15, 1952.

Take notice that on September 11, 1952, an application was filed with the Federal Power Commission, pursuant to section 204 (a) of the Federal Power Act, by Sierra Pacific Power Company, a corporation organized under the laws of the State of Maine and doing business in the States of California and Nevada, with its principal business office at Reno, Nevada, seeking an order authorizing the issuance of $1,500,000 principal amount of a new series of First Mortgage Bonds to be dated as of October 1, 1952 and to be due on October 1, 1982, and the issuance of 26,775 shares of Common Stock, par value $15 per share. The new bonds are to be sold, through negotiation, to private institutions. The Common Stock is to be offered pro rata to the Preferred and Common Stockholders of the Company, on the basis of one share for each six shares of Preferred Stock, and one share for each twelve shares of Common Stock. Applicant has previously been authorized by the Commission to negotiate for the private sale of the new bonds and proposes to amend its application to set forth the results of such negotiation and to apply for exemption from the competitive bidding requirements of the Commission's Rules covering the issuance of the new bonds; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to said application should, on or before the 1st day of October, 1952, file with the Federal Power Commission, Washington, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 52-10225; Filed, Sept. 18, 1952; 8:51 a. m.]

[Docket Nos. G-1903, G-2042]

LOPENO GAS CO.

NOTICE OF APPLICATION

SEPTEMBER 15, 1952.

Take notice that on September 5, 1952, Lopeno Gas Company (Applicant), a Texas corporation, address, Dallas, Texas, filed an application in Docket No. G-2042, for an order pursuant to section 7 (b) of the Natural Gas Act authorizing the abandonment of a portion of its facilities and in Docket No. G-1903, for amendment of a Presidential Permit granted on July 18, 1952, pursuant to Executive Order No. 8202, dated July 13, 1939, authorizing the construction, operation, maintenance, and connection of facilities for the importation of natural gas into the United States from Mexico.

Applicant proposes to abandon two parallel 8-inch pipelines supported from the International Bridge between the United States and Mexico, at Roma, Texas, and to remove said pipelines from said bridge, for the reason that an existing 10-inch by-pass pipeline connecting with an 8-inch pipeline in the river bed of the Rio Grande is deemed to have sufficient capacity to transport the present and prospective gas load of approximately 500 Mcf per month required for the service proposed to be rendered by Applicant. Applicant states that two 8-inch pipelines connecting with the lines proposed to be removed, and owned by Compania Mexicana de Gas, S. A., are to be discontinued and removed by the latter company, and that the Starr County Bridge Company has requested Applicant to discontinue and remove its lines from the International Bridge.

On August 4, 1952, the Commission issued its findings and order in Docket No. G-1977, issuing a certificate of public convenience and necessity, authorizing the operation of certain river crossing facilities for the importation of natural gas, including the two 8-inch pipelines, hereinbefore described. On July 18, 1952, a Presidential Permit authorizing the construction, operation, maintenance, and connection of facilities at the border of the United States and Mexico for the importation of natural gas from Mexico, as requested in Docket No. G-1903, was signed by the President and was later accepted by Applicant. The facilities therein authorized included the two 8-inch pipelines now proposed to be abandoned by Applicant. Applicant requests authorization to abandon said facilities and an amendment of said Presidential Permit to eliminate therefrom the description of said facilities in order to permit their discontinuance and removal.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 3d day of October 1952. The application is on file with the Commission for public inspection.

[Docket No. G-2041]

FREDERICKSBURG NATURAL GAS CO.

NOTICE OF APPLICATION

SEPTEMBER 15, 1952.

Take notice that on September 5, 1952, Fredericksburg Natural Gas Company (Applicant), a Virginia corporation, having its principal place of business in Fredericksburg, Virginia, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the construction and operation of the following-described facilities:

1. Approximately 28½ miles of 4½" O. D. pipeline;
2. Approximately 0.72 miles of 3½" O. D. pipeline;
3. Four meter and regulating stations.

The above facilities will be used for the transportation of natural gas from a point on the existing natural-gas pipeline of Transcontinental Gas Pipe Line Corporation a distance of approximately 28½ miles through Culpeper, Orange, Spotsylvania, and Stafford Counties, Virginia, to the city of Fredericksburg, Virginia. Applicant will distribute the gas so transported in the city of Fredericksburg and environs.

Applicant estimates that its peak-day and annual requirements for each of the first five years of its operation will be as follows:

	First year	Second year	Third year	Fourth year	Fifth year
	Mcf.	*Mcf.*	*Mcf.*	*Mcf.*	*Mcf.*
Peak-day volumes	1,718	2,234	2,877	3,268	5,501
Annual volume	498,299	664,845	851,022	985,684	1,070,618

Applicant estimates that the total capital cost of its proposed project is $746,690, inclusive of $316,730 representing costs related to the acquisition, modification, and extension of the existing municipally owned manufactured gas distribution in the city of Fredericksburg.

Applicant proposes to finance the cost of its proposed project by the issuance and sale of Applicant's debt and equity securities.

The application is on file with the Commission for public inspection. Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 3d day of October 1952.

FEDERAL TRADE COMMISSION

[File No. 21-444]

TOBACCO SMOKING PIPE AND CIGAR AND CIGARETTE HOLDER INDUSTRIES

NOTICE OF HOLDING OF TRADE PRACTICE CONFERENCE

Notice is hereby given that a trade practice conference, under the auspices of the Federal Trade Commission, will be held for the Tobacco Smoking Pipe and Cigar and Cigarette Holder Industries in the Statler Hotel, New York City, on October 10, 1952, commencing at 10:00 a. m., e. s. t.

All persons, firms, and corporations engaged in the production, distribution, or marketing of tobacco smoking pipes, or of cigar or cigarette holders, are considered members of said industries and are cordially invited to attend and participate in this conference.

The conference and further proceedings in the matter will be directed toward the eventual establishment and promulgation by the Commission of trade practice rules for these industries under which unfair methods of competition, unfair or deceptive acts or practices, and other trade abuses, may be eliminated and prevented.

Issued: Sept. 16, 1952.

By direction of the Commission.

SECURITIES AND EXCHANGE COMMISSION

WINIFRED ROSE GALBRAITH

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

In the matter of Winifred Rose Galbraith, The Barclay, 18th & Rittenhouse Square, Philadelphia 3, Pa.

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 15th day of September 1952.

I. The Commission's public official files disclose that Winifred Rose Galbraith, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1948, 1949, 1950, and 1951, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered,* That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 15th day of October 1952 at the main office of the Securities and Exchange Commission, located at 425 2d Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before October 10, 1952. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to October 15, 1952.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2914]

OHIO EDISON CO.

NOTICE OF FILING WITH RESPECT TO PROPOSED EXCHANGE OF UTILITY ASSETS

SEPTEMBER 15, 1952.

Notice is hereby given that an application-declaration, with amendments thereto, has been filed with this Commission by Ohio Edison Company ("Ohio Edison"), a registered holding company and a public utility company. Applicant-declarant has designated sections 9, 10 and 12 (d) of the act and Rule U-44 promulgated thereunder as applicable to the proposed transactions, which are summarized as follows:

Ohio Edison proposes to acquire from Columbus and Southern Ohio Electric Company ("Columbus and Southern"), a non-affiliated public utility company, certain electric distribution and related facilities, serving approximately 1,500 retail customers, located in Madison, Franklin, Fayette and Union Counties, Ohio. The properties to be conveyed by Columbus and Southern have an estimated gross original cost of approximately $526,000 and an estimated applicable reserve for depreciation of approximately $69,000, which amounts Ohio Edison proposes to record on its books.

In exchange for such properties, Ohio Edison proposes to transfer to Columbus and Southern certain electric distribution and related facilities, serving approximately 1,300 retail customers, located in Delaware and Franklin Counties, Ohio. A determination of the original cost of these properties, among others, is being made but is not yet completed.

As part of the exchange, Ohio Edison will receive from Columbus and Southern a cash adjustment of approximately $28,200 to reflect the slightly higher value, based on revenues, attributable to the properties to be conveyed by Ohio Edison.

It is stated that the proposed transactions by integrating the properties with closer sources of supply will result in operating economies.

The filing indicates that the transactions proposed by Ohio Edison and Columbus and Southern are subject to the approval of the Public Utilities Commission of Ohio. It is represented that the accounting entries with respect to the proposed acquisition and disposition will be made in accordance with and subject to the requirements of the Uniform System of Accounts of the Federal Power Commission, which system of accounts requires that within six months from the date of acquisition, or disposition of properties the proposed journal entries giving effect to the transactions and reflecting the original cost of the properties must be submitted to that Commission for approval. The filing further indicates that when the original cost and accrued depreciation of the properties proposed to be acquired and disposed of is finally determined, Ohio Edison will eliminate any amount includible in Account 100.5, Electric Plant Acquisition Adjustments, under the aforementioned system of accounts, with a contra entry to earned surplus.

It is estimated that the expenses to be incurred by Ohio Edison in connection with the proposed transactions will aggregate $6,200, consisting of $1,200 to Commonwealth Services, Inc.; $3,000 to J. S. Hartt, independent engineer; $1,500 to Winthrop, Stimson, Putnam & Roberts, counsel for the company, and $500 for miscellaneous expenses. It is requested that the Commission's order herein become effective upon issuance.

Notice is further given that any interested person may, not later than September 29, 1952, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application-declaration, as amended, which he desires to controvert or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after September 29, 1952, said application-declaration, as amended, as filed or as further amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 52-10204; Filed, Sept. 18, 1952; 8:47 a. m.]

[File No. 70-2924]

APPALACHIAN ELECTRIC POWER CO.

ORDER CONCERNING SALE OF BONDS AND OF SERIAL NOTES SUBJECT TO RESERVATIONS

SEPTEMBER 15, 1952.

Appalachian Electric Power Company ("Appalachian"), an electric utility subsidiary of American Gas and Electric Company, a registered holding company, having filed an application and an amendment thereto pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 and Rule U-42 and Rule U-50 thereunder with respect to the following proposed transactions:

Appalachian proposes to issue and sell pursuant to the competitive bidding requirements of Rule U-50, $17,000,000 principal amount of its First Mortgage Bonds ____ percent Series due 1982, and $6,000,000 aggregate principal amount of its ___ percent Serial Notes due 1956–67.

The First Mortgage Bonds will be issued under and secured by the company's Mortgage and Deed of Trust dated as of December 1, 1940, as supplemented, and as to be supplemented by four supplemental indentures.

The Serial Notes due 1956–67 will mature annually in the amounts of $250,000 in each of the years 1956 to 1960, inclusive; $500,000 in each of the years 1961 and 1962, and $750,000 in each of the years 1963 to 1967, inclusive.

The proceeds from the sale of securities are to be used in part for prepayment of notes payable to banks which, it is contemplated, will be outstanding in the amount of $14,000,000 at the time of the issuance and sale of the securities. The balance of the proceeds to be realized will be applied to extensions, additions and improvements to Appalachian's properties.

Said application having been filed on August 27, 1952, an amendment thereto having been filed on September 11, 1952, notice of said filing having been given in the form and manner required by Rule U-23 promulgated pursuant to said act, the Commission not having received a request for hearing within the

time specified in said notice, or otherwise, and the Commission not having ordered a hearing thereon; and

The Commission finding that the issuance and sale of the securities are for the purpose of financing the business of Appalachian as a public utility company, the Commission also finding that the proposed transactions have been specifically authorized by the State Corporation Commission of Virginia, the State Commission of the State in which Appalachian was organized and one of the States in which it does business, and by the Tennessee Railroad and Public Utilities Commission, the State Commission of another of the States in which Appalachian does business, the Commission observing that it is unnecessary to determine whether the proposed transactions constitute an application under section 6 (b) or a declaration under section 7 since the Commission finds that it is appropriate to grant such application or permit such declaration to become effective without the imposition of terms or conditions other than those set forth below:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, and subject to the terms and conditions contained in Rule U-24, that said application or declaration be, and the same hereby is, granted or permitted to become effective forthwith, subject to the following conditions:

1. That the proposed sale of securities shall not be consummated until a further order shall have been entered by the Commission herein in the light of the record as further developed setting forth the results of competitive bidding under Rule U-50;

2. That jurisdiction be, and the same hereby is, reserved with respect to the fees and expenses to be paid in connection with the proposed transactions.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 52-10203; Filed, Sept. 18, 1952; 8:47 a. m.]

[File No. 70-2929]

ELECTRIC BOND AND SHARE CO.

NOTICE OF FILING AND ORDER FOR HEARING CONCERNING SALE BY RIGHTS OF COMMON STOCK OF UNITED GAS CORPORATION

SEPTEMBER 15, 1952.

Notice is hereby given that Electric Bond and Share Company ("Bond and Share"), a registered holding company, has filed an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 with respect to the following proposed transactions:

Bond and Share proposes to offer to its stockholders 525,000 shares of the common stock of United Gas Corporation ("United") held by Bond and Share, on the basis of one share of United stock for each ten shares of Bond and Share stock held, at a price to be determined by the board of directors of Bond and Share immediately prior to the commencement of the offering period and as of a record date to be determined. The proposed rights will be evidenced by fully transferable warrants. Bond and Share does not propose to accept subscriptions for fractional shares, but will provide facilities for the purchase and sale of rights in order that Bond and Share's stockholders who so elect may either acquire such additional rights as are necessary to enable them to subscribe for full shares of United stock, or sell such rights as are not required for subscription to such shares.

The application-declaration states that the warrants will be exercisable for a period of at least fourteen days, beginning on the day following the date of completion of the mailing of warrants to Bond and Share's stockholders.

It is further stated that, in the event that United shall declare a dividend payable to its stockholders of record as of a date which is within the rights offering period, the right of any record holder to receive such a dividend will not be affected by the offering of this stock, except that a person exercising warrants will be deemed to be a holder of record of the shares covered by such warrants on the date when the subscription agent shall have received such warrants in proper form for exercise and New York funds sufficient to pay the purchase price.

It is further stated that, provided that not less than 85 percent of the United common stock being offered shall have been subscribed for at the conclusion of the offering period, the holders of Bond and Share's stock who have not exercised or sold their warrants will be paid cash amounts representing the value of their warrants (based on the final average price received by the subscription agent in connection with the sale of rights on the closing date of the offering period) less allowances for such expenses as would be incurred in the sale of shares represented by such warrants, or that in the alternative, Bond and Share may instruct the subscription agent to sell, as of the last day of the offering period, rights equivalent to the warrants for such unsubscribed for shares of United stock, and to remit the net proceeds to stockholders who did not exercise or sell their warrants.

On February 6, 1952, the Commission issued its Findings and Opinion and Order directing Bond and Share to dispose of the 3,165,781 shares (27 percent) of the common stock of United held by Bond and Share. Bond and Share filed a Petition for Review of this Order in the United States Court of Appeals, District of Columbia Circuit, which appeal is presently pending. In the meantime, Bond and Share has filed a plan under section 11 (e) of the act proposing, among other things, the disposition of not less than 2,598,750 shares of the common stock of United through sales by rights, a capital distribution, and dividend distributions during the years 1952 through 1955. That plan proposes that the rights offerings of the United stock be at a discount of 25 percent below the market price at the time of such offerings, the first of such rights offerings being scheduled for the year 1952 in the amount of 525,000 shares. The present application-declaration does not set forth the discount at which the United stock is to be offered, and constitutes a withdrawal from the plan of the rights offering scheduled for the year 1952. The withdrawal of these shares from the plan is stated to be in accordance with the provision therein which allows Bond and Share to separately consummate certain parts of the plan or to take certain transactions out of the plan at any time prior to its approval by the Commission.

Bond and Share states that it is important to consummate the rights offering of the United stock as proposed in the year 1952 in order to avail itself of tax benefits which expire at the end of this year. The application-declaration states that a substantial tax loss carry-over of Bond and Share will expire at the end of 1952, and that if the rights offering is not accomplished this year, there will be a capital gain of several million dollars which could not be set off against the present capital loss carry-over, with the result that Bond and Share might be required to pay a considerable capital gains tax upon the disposition of the 525,000 shares of the United stock.

The Commission considering that the application-declaration raises issues that should not be resolved prior to affording notice and opportunity for hearing with respect thereto; and

It also appearing that evidence heretofore taken in connection with the plan proceedings of Bond and Share (File No. 54-127) may be pertinent to the issues to be considered herein:

It is hereby ordered, That hearings in the above entitled matter be convened on September 30, 1952, at 10:00 a. m., e. s. t., at the offices of the Commission, 425 Second Street NW., Washington 25, D. C. On such date the hearing room clerk in Room 193 will advise as to the room in which such hearing will be held. Any persons desiring to be heard or otherwise wishing to participate in this proceeding shall file with the Secretary of the Commission on or before September 26, 1952, a written request relative thereto as provided by Rule XVII of the Commission's rules of practice:

It is further ordered, That Edward C. Johnson or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing. The officer or officers so designated to preside at such hearing are hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

It is further ordered, That at such hearing the record heretofore made in the proceedings on Bond and Share's plan (File No. 54-127) be incorporated by reference herein to the extent pertinent to the issues herein set forth.

The Division of Public Utilities having advised the Commission that it has made a preliminary examination of the application, and that upon the basis thereof the following matters and questions are presented for consideration, without prejudice to its specifying additional matters and questions upon further examination:

1. Whether it is appropriate that the proposed transactions be withdrawn from the plan of Bond and Share;

2. Whether the proposed transactions are in accordance with the applicable standards of the act;

3. Whether the disposition of the United stock as proposed is in accordance with the order of the Commission of February 6, 1952;

4. Whether the terms of the rights offering are fair to the stockholders of Bond and Share;

5. Whether, in the event the transactions are carried out, any terms or conditions should be imposed in connection therewith or in connection with the use of the proceeds to be realized from the sale.

It is further ordered, That at the hearing to be held particular attention be directed to the foregoing matters and issues.

It is further ordered, That a copy of this notice and order be served upon Bond and Share, United, and those persons who have been granted leave to participate in the Bond and Share plan proceedings (File No. 54-127), and that notice be given to all other persons by general release of this Commission, which shall be distributed to the press, and to the mailing list for releases under the Public Utility Holding Company Act of 1935, and by publication of this Order in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27393]

ANHYDROUS AMMONIA FROM POINTS IN ARKANSAS, TEXAS, KANSAS, AND LOUISIANA TO NEW ALBANY AND JEFFERSONVILLE, IND.

APPLICATION FOR RELIEF

SEPTEMBER 16, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to his tariff I. C. C. No. 3746.

Commodities involved: Anhydrous ammonia, in tank-car loads.

From: El Dorado, Ark., Etter and Velasco, Tex., Military, Kans., Lake Charles, West Lake Charles, and Sterlington, La.

To: New Albany and Jeffersonville, Ind.

Grounds for relief: Rail competition, circuitous routes, and market competition.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3746, Supp. 94.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[4th Sec. Application 27394]

PREFABRICATED HOUSES FROM COLLINS AND LAUREL, MISS., AND FORT PAYNE, ALA., TO OHIO AND MICHIGAN

APPLICATION FOR RELIEF

SEPTEMBER 16, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1172, pursuant to fourth-section order No. 16101.

Commodities involved: Houses or garages, wooden, portable or prefabricated, carloads.

From: Collins and Laurel, Miss., and Fort Payne, Ala.

To: Points in Ohio and Michigan.

Grounds for relief: Competition with rail carriers, circuitous routes, and operation through higher-rated territory.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[4th Sec. Application 27395]

ANHYDROUS AMMONIA FROM ARKANSAS, LOUISIANA, TEXAS, AND KANSAS TO NEW ALBANY AND JEFFERSONVILLE, IND.

APPLICATION FOR RELIEF

SEPTEMBER 16, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to his tariff I. C. C. No. 3746.

Commodities involved: Anhydrous ammonia, in tank-car loads.

From: El Dorado, Ark., Etter and Velasco, Tex., Military, Kans., Lake Charles, West Lake Charles, and Sterlington, La.

To: New Albany and Jeffersonville, Ind.

Grounds for relief: Competition with rail carriers, circuitous routes, and market competition.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3746, Supp. 94.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 27396]

SCRAP PAPER FROM ELIZABETH, LA., TO OFFICIAL TERRITORY

APPLICATION FOR RELIEF

SEPTEMBER 16, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to his tariff I. C. C. No. 3992.

Commodities involved: Scrap and waste paper, carloads.

From: Elizabeth, La.

To: Points in official territory.

Grounds for relief: Competition with rail carriers, circuitous routes, and to

apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3992, Supp. 7.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. MOTOR-RAIL-MOTOR RATES BETWEEN BOSTON, MASS., AND PROVIDENCE, R. I., AND HARLEM RIVER, N. Y.

APPLICATION FOR RELIEF

SEPTEMBER 16, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The New York, New Haven and Hartford Railroad Company and the New England Motor Freight, Inc.

Commodities involved: All freight, carloads.

Between: Boston, Mass., and Providence, R. I., on the one hand, and Harlem River, N. Y., on the other.

Grounds for relief: Competition with motor carriers.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10395

EXTENSION OF TIME RELATING TO THE DISPOSITION OF CERTAIN TEMPORARY HOUSING

By virtue of the authority vested in me by section 611 of the act entitled "An Act to expedite the provision of housing in connection with national defense, and for other purposes", approved October 14, 1940, as amended, hereinafter called the Act, and having determined, after considering the needs of national defense and the effect of the extensions hereinafter provided for upon the general housing situation and the national economy, that such extensions are in the public interest, it is hereby ordered as follows:

1. The time stipulated in subsection (c) of section 601 of the Act on or before which requests must be filed under subsection (h) of that section is extended to December 31, 1952.

2. The time stipulated in subsection (c) of section 601 of the Act on or before which all conditions to relinquishments or transfers pursuant to requests made under subsection (h) of that section must be complied with is extended to June 30, 1953.

EXECUTIVE ORDER 10396

ESTABLISHING A SEAL FOR THE SMALL DEFENSE PLANTS ADMINISTRATION

WHEREAS the Small Defense Plants Administration has caused to be made, and has recommended that I approve, a seal of office for the Small Defense Plants Administration, the design of which accompanies and is hereby made a part of this order, and which is of the following description:

On a disk divided horizontally, of defenders blue and silver gray, a yoke pedestal of the first supporting a chain of three spur gears of the second, in front of a series of factory buildings of the like emanating from partition line, all encircled by a defenders blue band edged in silver gray containing the inscription "SMALL DEFENSE PLANTS ADMINISTRATION" in silver gray letters;

AND WHEREAS it appears that such seal is of suitable design and appropriate for establishment as the official seal of the Small Defense Plants Administration:

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States, I hereby approve such seal as the official seal of the Small Defense Plants Administration.

HARRY S. TRUMAN

of the basic quota for all such foreign countries which has not been filled.

Section 204 (b) of the act provides that if on the first day of September in any calendar year any part or all of any proration of the basic quota to a foreign country has not been filled, the Secretary may revise the prorations and allot the unfilled portions to those foreign countries which have filled their prorations by such date.

This amendment increases the prorations of the basic quota to some of the countries. In order to afford adequate opportunity to ship the sugar as authorized by this amendment, and thereby protect the interest of consumers, it is essential that the revised prorations be made effective immediately. Therefore, it is hereby determined and found that compliance with the notice, procedure, and effective date requirements of the Administrative Procedure Act is unnecessary, impracticable and contrary to the public interest and the amendment hereinmade shall become effective on the date of its publication in the FEDERAL REGISTER.

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1948 (61 Stat. 922; 7 U. S. C. Sup. IV, 1100) and the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001), Sugar Regulation 813 (16 F. R. 13032) as amended (17 F. R. 5691; 17 F. R. 6758), establishing quotas for 1952 is hereby further amended as follows:

1. Section 813.33 is amended by adding thereto new paragraphs (e) and (f) as follows:

§ 813.33 *Determination and proration of area deficits.* * * *

(e) *Deficit in prorations of foreign countries other than Cuba and the Republic of the Philippines.* It is hereby determined, pursuant to section 204 (b) of the act, that unfilled prorations of the quota for foreign countries other than Cuba and the Republic of the Philippines, established under section 202 (c) of the act, amount to 33,306,361 pounds of sugar, raw value, and that Colombia, Costa Rica, the Dominican Republic, Haiti, Netherlands, Peru and the United Kingdom had filled their prorations of such quota by September 1, 1952.

(f) *Allotment of unfilled prorations of quota for foreign countries other than Cuba and the Republic of the Philippines.* An amount of sugar equal to the unfilled prorations determined in paragraph (e) of this section is hereby prorated, pursuant to subsections (b) and (d) of section 204 of the act, as follows:

Country:	*Additional prorations in pounds, raw value*
Colombia	466
Costa Rica	35,571
Dominican Republic	11,511,751
Haiti	1,590,979
Netherlands	376,096
Peru	19,186,175
United Kingdom	605,344

Statement of bases and considerations. In Sugar Regulation 813, the basic quota for foreign countries other than Cuba and the Republic of the Philippines, established pursuant to section 202 (c) of the act, equaled 66,858,000 pounds of sugar, raw value.

Section 204 (b) of the act provides that if, on the first day of September in any calendar year, any part or all of the proration to any foreign country of the quota for foreign countries other than Cuba and the Republic of the Philippines established under the provisions of section 202 (c) has not been filled, the Secretary may revise the proration of such quota among such foreign countries by allotting an amount of sugar equal to the unfilled proration to those countries which have filled their quotas by such date. Section 204 (c) of the act provides that the quota for any domestic area, the Republic of the Philippines, Cuba or other foreign countries as established under the provisions of section 202 shall not be reduced by reason of any such determination of a deficit.

Only seven countries, as of September 1, 1952, had filled their prorations of the basic quota for foreign countries other than Cuba and the Republic of the Philippines, established pursuant to section 202 (c) of the act. Therefore, pursuant to subsections (b) and (d) of section 204 of the act, the portion of the quota unfilled has been prorated to those seven countries named in paragraph (f) of § 813.33 on the basis of their initial prorations.

The proration of Philippine deficit remains unchanged as initially made in S. R. 813, Amendment 1.

After giving effect to the changes set forth in Sugar Regulation 813 and Amendments 1 and 2 thereto, the current prorations of quota in terms of pounds, raw value, for the full duty countries are shown in the following table:

ADJUSTED PRORATION OF BASIC QUOTA AND PHILIPPINE DEFICIT FOR FOREIGN COUNTRIES OTHER THAN CUBA AND THE REPUBLIC OF THE PHILIPPINES

[Pounds, raw value]

Country	Basic proration [1]	Adjusted basic proration	Philippine deficit	Total adjusted proration

[Lemon Reg. 453]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.560 *Lemon Regulation 453*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 *et seq.*) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified in this section was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on September 17, 1952; such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., September 21, 1952, and ending at 12:01 a. m., P. s. t., September 28, 1952, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 275 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2" and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C. this 18th day of September 1952.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter C—Procedural Regulations

[Regs., Serial No. PR-18]

PART 302—RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

INTERVENTION BY CITIES, OTHER PUBLIC BODIES, AND CHAMBERS OF COMMERCE

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 15th day of September 1952.

The present § 302.15 of the Board's Procedural Regulations requires prospective interveners in Board proceedings, other than mail rate proceedings in which a show cause order has been issued, to file a petition for intervention with the Board prior to the first prehearing conference, or, in the event that no such conference is to be held, not later than 15 days prior to the hearing. Experience under the rule has shown that it presents many practical problems for cities, other public bodies, and chambers of commerce, which may desire to participate in Board proceedings. Lack of familiarity with the rules, absence of knowledge of prehearing conferences in proceedings in which they may be interested, and the necessity to obtain formal authorization from a city council or other body, contribute to a situation in which compliance with the present rule is difficult for such groups. The result is that the Board is presented with a substantial number of requests for untimely intervention.

The Board cannot meet all of these requests and at the same time adhere to its rules. Consequently, many otherwise proper petitions for intervention may be denied. Under the circumstances the public interest would appear to be in the direction of amending the rules so as to permit interventions by such groups in formal Board economic proceedings at a later date than is now provided. An appropriate cut-off date is the beginning of the hearing in a proceeding in which intervention is sought. We do not believe that this extension will impose any burden on air carrier parties to proceedings while it will help city and similar interveners to meet the problems cited above.

Nor will such a change affect the right of a party under § 302.15 (c) (3) to the an answer within 7 days after the intervention petition is filed. If the petition is not filed until the day before the beginning of a hearing, participation in hearing will take place subject to ultimate Board action thereon.

Since this amendment is not a substantive rule but one of agency procedure, notice and public procedure hereon are unnecessary, and the amendment may be made effective upon less than 30 days' notice. Also since the problem is immediately pressing, the Board desires to make the change immediately effective. At the same time it desires to give an opportunity for comments thereon prior to any permanent change in the intervention rule. It will therefore, adopt the proposed change, effective September 15, 1952, as a temporary rule for 60 days, and give notice of a proposed permanent revision of the same character to be circulated for comment.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 302 of the Procedural Regulations (14 CFR 302) as follows, effective September 15, 1952, to continue in effect to and including November 15, 1952:

By adding to the provisions of paragraph (c), subparagraph (2), of § 302.15 a new subdivision (iii) to read as follows:

(iii) A petition to intervene in any Board proceeding filed by a city, other public body, or a chamber of commerce shall be filed with the Board not later than the last day prior to the beginning of the hearing therein.

(Sec. 205, 52 Stat. 934; 49 U. S. C. 425. Interprets or applies sec. 1001, 52 Stat. 1017; 49 U. S. C. 641)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5856]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

BERZEE SPORTSWEAR, INC., ET AL.

Subpart—*Misbranding or mislabeling:* § 3.1190 *Composition: Wool Products Labeling Act;* § 3.1325 *Source or origin—Wool Products Labeling Act.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 3.1845 *Composition—Wool Products Labeling Act;* § 3.1900 *Source or origin—Wool Products Labeling Act.* In connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation or distribution into commerce, of wool sportswear or other wool products, as such products are defined in and subject to the Wool Products Labeling Act of 1939, which products contain, purport to contain, or in any way are represented as containing, "wool," "reprocessed wool," or "reused wool," as those terms are defined in said Wool Products Labeling Act, misbranding such sportswear or other wool products, (1) by falsely or deceptively stamping, tagging or labeling or otherwise identifying such products; (2) by failing to securely affix to or place on such products a stamp, tag, label, or other means of identification, showing in a clear and conspicuous manner, (a) the percentage of the total fiber weight of such wool products, exclusive of ornamentation not exceeding five percentum of said total fiber weight of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers; (b) the maximum percentage of the total weight of the wool product, of any non-fibrous loading, filling, or adulterating matter; and (c) the name or the registered identification number of the manufacturer of such wool product or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, or distribution thereof in commerce, as "commerce" is defined in the Federal Trade Commission Act and in the Wool Products Labeling Act of 1939; prohibited, subject to the proviso, however, that the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939; and to the further provision that nothing contained in the order shall be construed as limiting any applicable provisions of said act or the rules and regulations promulgated thereunder.

(Sec. 6, 38 Stat. 722, sec. 6, 54 Stat. 1131; 15 U. S. C. 46, 68d. Interprets or applies sec. 5, 38 Stat. 719, as amended, secs. 2–5, 54 Stat. 1128–1130; 15 U. S. C. 45, 68–68c) [Cease and desist order, Berzee Sportswear, Inc. et al., New York, N. Y., Docket 5856, June 12, 1952]

In the Matter of Berzee Sportswear, Inc., a Corporation, Harry Zimmerman and Walter Bernstein, Individually and as Officers of Said Corporation

This proceeding was heard by Frank Hier, hearing examiner, theretofore duly designated by the Commission, upon the complaint of the Commission, and a hearing at which testimony and other evidence in support of and in opposition to the complaint were introduced before said examiner, respondents having filed no answer, nor appeared by counsel.

Thereafter the proceeding regularly came on for final consideration by said examiner on the complaint, testimony and other evidence, and said examiner, having duly considered the record, and having found that the proceeding was in the interest of the public, made his initial decision comprising certain findings as to the facts,[1] conclusion drawn therefrom[1] and order to cease and desist.

No appeal having been filed from said initial decision of said hearing examiner as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII became the decision of the Commission on June 12, 1952.

The said order to cease and desist is as follows:

It is ordered, That respondents Berzee Sportswear, Inc., a corporation, its officers, and Harry Zimmerman and Walter Bernstein, individually and as officers of said corporation, their respective representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation, or distribution in commerce, as "commerce" is defined in the aforesaid acts, of wool sportswear or other wool products, as such products are defined in and subject to the Wool Products Labeling Act of 1939, which products contain, purport to contain, or in any way are represented as containing, "wool," "reprocessed wool," or "reused wool," as those terms are defined in said Wool Products Labeling Act, do forthwith cease and desist from misbranding such sportswear or other wool products:

1. By falsely or deceptively stamping, tagging, labeling or otherwise identifying such products;

2. By failing to securely affix to or place on such products a stamp, tag, label, or other means of identification, showing in a clear and conspicuous manner:

(a) The percentage of the total fiber weight of such wool products, exclusive of ornamentation not exceeding five percentum of said total fiber weight of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers;

(b) The maximum percentage of the total weight of the wool product, of any non-fibrous loading, filling, or adulterating matter;

(c) The name or the registered identification number of the manufacturer of such wool product or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, or distribution thereof in commerce, as "commerce" is defined in the Federal Trade Commission Act and in the Wool Products Labeling Act of 1939:

Provided, That the foregoing provi-

TITLE 20—EMPLOYEES' BENEFITS

Chapter III—Bureau of Employees' Compensation, Federal Security Agency

PART 301—ADMINISTRATION OF THE FEDERAL EMPLOYEES' COMPENSATION ACT

MISCELLANEOUS AMENDMENTS

Pursuant to the authority vested in the Federal Security Administrator by section 4 (b) of the Federal Employees' Compensation Act, as amended (5 U. S. C. 764 (b)), and in accordance with the provisions of section 4 (c) of the Federal Employees' Compensation Act, as amended (5 U. S. C. 764 (c)), Part 301 is amended as follows:

1. Section 301.101 is amended by adding thereto the following new paragraph:

§ 301.101 *Definitions.* * * *

(m) "Physician" includes surgeons, podiatrists, dentists, clinical psychologists, optometrists, chiropractors, and osteopaths, within the scope of their practice as defined by State law.

2. Section 301.102 is amended by adding thereto the following new paragraph:

§ 301.102 *Claims.* * * *

(d) Where a claim is filed by a person who is not the employee, the claim shall be accompanied by a statement from the employee, if he is alive, indicating his wishes with respect to the payment of compensation.

3. Section 301.103 is amended by adding thereto the following new paragraph:

§ 301.103 *Medical service and supplies.* * * *

(d) Where a claimant has received treatment from a physician, the Bureau may require that a report be submitted by the physician on such form as the Bureau may prescribe.

4. Section 301.104 is amended by adding thereto the following new paragraph:

§ 301.104 *Compensation.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

5. Section 301.105 is amended by adding thereto the following new paragraph:

§ 301.105 *Vocational rehabilitation.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

6. Section 301.106 is amended by adding thereto the following new paragraph:

§ 301.106 *Payment of compensation.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

7. Section 301.107 is amended by adding thereto the following new paragraph:

§ 301.107 *Adjustment of compensation.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

8. Section 301.108 is amended by adding thereto the following new paragraph:

§ 301.108 *Forfeiture of compensation.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

9. Section 301.109 is amended by adding thereto the following new paragraph:

§ 301.109 *Refund of compensation.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

10. Section 301.110 is amended by adding thereto the following new paragraph:

§ 301.110 *Appeals.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

11. Section 301.111 is amended by adding thereto the following new paragraph:

§ 301.111 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

12. Section 301.112 is amended by adding thereto the following new paragraph:

§ 301.112 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

13. Section 301.113 is amended by adding thereto the following new paragraph:

§ 301.113 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

14. Section 301.114 is amended by adding thereto the following new paragraph:

§ 301.114 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

15. Section 301.115 is amended by adding thereto the following new paragraph:

§ 301.115 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

16. Section 301.116 is amended by adding thereto the following new paragraph:

§ 301.116 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

17. Section 301.117 is amended by adding thereto the following new paragraph:

§ 301.117 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

18. Section 301.118 is amended by adding thereto the following new paragraph:

§ 301.118 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

19. Section 301.119 is amended by adding thereto the following new paragraph:

§ 301.119 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

20. Section 301.120 is amended by adding thereto the following new paragraph:

§ 301.120 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

21. Section 301.121 is amended by adding thereto the following new paragraph:

§ 301.121 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

22. Section 301.122 is amended by adding thereto the following new paragraph:

§ 301.122 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

23. Section 301.123 is amended by adding thereto the following new paragraph:

§ 301.123 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

24. Section 301.124 is amended by adding thereto the following new paragraph:

§ 301.124 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

25. Section 301.125 is amended by adding thereto the following new paragraph:

§ 301.125 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

26. Section 301.126 is amended by adding thereto the following new paragraph:

§ 301.126 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

27. Section 301.127 is amended by adding thereto the following new paragraph:

§ 301.127 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

28. Section 301.128 is amended by adding thereto the following new paragraph:

§ 301.128 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

29. Section 301.129 is amended by adding thereto the following new paragraph:

§ 301.129 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

30. Section 301.130 is amended by adding thereto the following new paragraph:

§ 301.130 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

31. Section 301.131 is amended by adding thereto the following new paragraph:

§ 301.131 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

32. Section 301.132 is amended by adding thereto the following new paragraph:

§ 301.132 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

33. Section 301.133 is amended by adding thereto the following new paragraph:

§ 301.133 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

34. Section 301.134 is amended by adding thereto the following new paragraph:

§ 301.134 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

35. Section 301.135 is amended by adding thereto the following new paragraph:

§ 301.135 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

36. Section 301.136 is amended by adding thereto the following new paragraph:

§ 301.136 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

37. Section 301.137 is amended by adding thereto the following new paragraph:

§ 301.137 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

38. Section 301.138 is amended by adding thereto the following new paragraph:

§ 301.138 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

39. Section 301.139 is amended by adding thereto the following new paragraph:

§ 301.139 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

40. Section 301.140 is amended by adding thereto the following new paragraph:

§ 301.140 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

41. Section 301.141 is amended by adding thereto the following new paragraph:

§ 301.141 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

42. Section 301.142 is amended by adding thereto the following new paragraph:

§ 301.142 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

43. Section 301.143 is amended by adding thereto the following new paragraph:

§ 301.143 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

44. Section 301.144 is amended by adding thereto the following new paragraph:

§ 301.144 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

45. Section 301.145 is amended by adding thereto the following new paragraph:

§ 301.145 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

46. Section 301.146 is amended by adding thereto the following new paragraph:

§ 301.146 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

47. Section 301.147 is amended by adding thereto the following new paragraph:

§ 301.147 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

48. Section 301.148 is amended by adding thereto the following new paragraph:

§ 301.148 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

49. Section 301.149 is amended by adding thereto the following new paragraph:

§ 301.149 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

50. Section 301.150 is amended by adding thereto the following new paragraph:

§ 301.150 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

51. Section 301.151 is amended by adding thereto the following new paragraph:

§ 301.151 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

52. Section 301.152 is amended by adding thereto the following new paragraph:

§ 301.152 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

53. Section 301.153 is amended by adding thereto the following new paragraph:

§ 301.153 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

54. Section 301.154 is amended by adding thereto the following new paragraph:

§ 301.154 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

55. Section 301.155 is amended by adding thereto the following new paragraph:

§ 301.155 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

56. Section 301.156 is amended by adding thereto the following new paragraph:

§ 301.156 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

57. Section 301.157 is amended by adding thereto the following new paragraph:

§ 301.157 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

58. Section 301.158 is amended by adding thereto the following new paragraph:

§ 301.158 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

59. Section 301.159 is amended by adding thereto the following new paragraph:

§ 301.159 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

60. Section 301.160 is amended by adding thereto the following new paragraph:

§ 301.160 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

61. Section 301.161 is amended by adding thereto the following new paragraph:

§ 301.161 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

62. Section 301.162 is amended by adding thereto the following new paragraph:

§ 301.162 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

63. Section 301.163 is amended by adding thereto the following new paragraph:

§ 301.163 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

64. Section 301.164 is amended by adding thereto the following new paragraph:

§ 301.164 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

65. Section 301.165 is amended by adding thereto the following new paragraph:

§ 301.165 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

66. Section 301.166 is amended by adding thereto the following new paragraph:

§ 301.166 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

67. Section 301.167 is amended by adding thereto the following new paragraph:

§ 301.167 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

68. Section 301.168 is amended by adding thereto the following new paragraph:

§ 301.168 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

69. Section 301.169 is amended by adding thereto the following new paragraph:

§ 301.169 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

70. Section 301.170 is amended by adding thereto the following new paragraph:

§ 301.170 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

71. Section 301.171 is amended by adding thereto the following new paragraph:

§ 301.171 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

72. Section 301.172 is amended by adding thereto the following new paragraph:

§ 301.172 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

73. Section 301.173 is amended by adding thereto the following new paragraph:

§ 301.173 *Miscellaneous.* * * *

(d) Where a claimant has been paid compensation for total disability for a period of 45 days or more, he shall submit to the Bureau, at such intervals as the Bureau may prescribe, a certificate from a physician as to the continuance of total disability.

74. Section 301.174 is amended by adding thereto the following new paragraph:

§ 301.174 *

sions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939; and

Provided further, That nothing contained in this order shall be construed as limiting any applicable provisions of said act or the rules and regulations promulgated thereunder.

By "Decision of the Commission and order to file report of compliance", Docket 5856, June 12, 1952, which announced and decreed fruition of said initial decision, report of compliance with the said order was required as follows:

It is ordered. That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: June 12, 1952.

By the Commission.

[SEAL] D. C. DANIEL,
Secretary.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53101]

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

DIVERSION OF CARGO

Section 4.33 (c), Customs Regulations of 1943, as amended by T. D. 51610, now requires the posting of a special bond with the collector of customs in support of an application by a vessel's owner or agent to amend the vessel's manifest to show a different domestic port of discharge for the cargo on board than that shown on the manifest filed on entry of the vessel. Such bond is conditioned to hold the collector blameless for permitting the diversion of the cargo to another domestic port for discharge.

In this connection, consideration has been given to representations that the exaction of such a bond constitutes an unnecessary restriction on commerce and should not be required.

After a careful study of the various aspects of the matter, the conclusion has been reached that an application to divert cargo to another port for discharge need no longer be supported by the above-mentioned special bond. It has also been concluded that, when a strike or other emergency exists at a United States port for which inward foreign cargo is manifested, provision should be made for the master, owner, or agent of the vessel to apply for the temporary diversion of the cargo to a foreign port without the necessity of filing an export entry therefor. Accordingly, and also to clarify the procedure in connection with applications to divert cargoes, § 4.33, Customs Regulations of 1943 (19 CFR 4.33), as amended, is hereby further amended as follows:

1. Paragraph (c) is amended to read:

(c) The inward foreign manifest of a vessel may be changed at any time following entry of the vessel to substitute domestic ports for either other domestic or foreign ports as ports of discharge of the merchandise shown on the inward foreign manifest. A written application for the diversion shall be made by the master, owner, or agent of the vessel to the collector of the port where the vessel is located, after entry of the vessel at that port. An amended manifest under oath covering the merchandise which it is desired to divert shall be furnished in support of the application. The amended manifest shall be filed in such number of copies as the collector may require for local customs purposes. The certified traveling manifest shall not be altered or added to in any way by the master or agent. When an application to divert to another port for discharge is approved by a collector for an intermediate port, he shall securely attach an approved copy of the application and a copy of the amended manifest to the traveling manifest and shall send one copy of the amended manifest to the collector at the port where the vessel's bond was filed.

2. A new paragraph (d) is added:

(d) If, as the result of a strike or other emergency at a United States port for which inward foreign cargo is manifested, it is desired to retain the cargo on board the vessel for discharge at a foreign port but with the purpose of having the goods returned to the United States, an application to amend the vessel's manifest under a procedure like that described in paragraph (c) of this section, except to substitute a foreign for the domestic port named as the port of discharge, may be made by the master, owner, or agent of the vessel. If the application is approved, it shall thereafter be handled in the same manner as an application filed under paragraph (c). However, before approving the application, the collector is authorized to require such bond as he deems necessary to insure that export control laws and regulations are not circumvented.

(Secs. 449, 624, 46 Stat. 715, 759; 19 U. S. C. 1449, 1624.)

[SEAL] FRANK DOW,
Commissioner of Customs.

Approved: September 16, 1952.

JOHN S. GRAHAM,
Acting Secretary of the Treasury.

[F. R. Doc. 52-10298; Filed, Sept. 19, 1952; 8:50 a. m.]

[T. D. 53102]

PART 12—SPECIAL CLASSES OF MERCHANDISE

IMPORTATION OF WILD ANIMALS AND BIRDS AND EGGS OF GAME BIRDS

In view of the amendment of the regulations of the Departments of the Interior and Agriculture governing the importation of wild animals and birds and the eggs of game birds, §§ 12.26 and 12.29, Customs Regulations of 1943 (19 CFR 12.26 and 12.29), are amended as follows:

1. Section 12.26 is amended as follows:

a. Paragraph (a) is amended to read:

§ 12.26 *Importations of wild animals or birds; certain species prohibited; permits required.* (a) The importation into the United States or any territory or district thereof of the mongoose, the so-called "flying fox" or fruit bat, the English sparrow, the starling, and such other birds and animals as the Secretary of the Interior may from time to time declare to be injurious to the interest of agriculture or horticulture is prohibited.[12] If any such animal or bird is imported, release thereof to the importer shall be refused and immediate exportation or destruction shall be required. The species of birds and animals declared by the Secretary of the Interior to be injurious to agriculture or horticulture are published in 50 CFR 9.1.[12a]

(1) Mynahs and starlings of the genera Acridotheres and Sturnus, family Sturnidae, are prohibited importation under 50 CFR 9.1 (a), except for exhibition in zoological parks.

(2) All other wild birds are prohibited importation under 50 CFR 9.1 (b), except:

(i) Game birds imported for propagation and stocking purposes and for exhibition in zoological parks.

(ii) Non-game birds which are to be confined in cages or otherwise, and for exhibition in zoological parks.

(3) European rabbits (Lepus cuniculus) and European hares (Lepus europaeus) are prohibited importation under 50 CFR 9.1 (c), unless imported for fur farming or other agricultural purposes and such animals are to be kept in confinement.

(4) If any of the birds or animals referred to in the preceding three subparagraphs are imported for the purposes permitted, the importer and, in the case of a zoological park, the director or other principal officer thereof, shall file an affidavit with the collector of customs stating the purpose of the importation and, in the case of non-game birds, rabbits, and hares, that such birds and animals will be kept in confinement.

b. Footnote 12a, appended to § 12.26 (a), is added, reading as follows:

[12a] See Appendix XXIII, Customs Regulations of 1943, quoting 50 CFR 9.1 and 9.2.

c. Paragraph (b) is amended as follows:

1. Subparagraph (1) is amended by substituting "Part 6" for "Part 1" in the first sentence.

2. Subparagraph (3) is amended by deleting "except from Canada and except imports from Mexico arriving otherwise than by water," and also "Inspection and Quarantine Division," from the first sentence.

3. A new subparagraph (5) is added, reading as follows:

(5) Ducks, geese, swans, turkeys, pigeons, doves, pheasants, grouse, partridges, quail, guinea fowl, and pea fowl, except from Canada, may be imported only under a permit from the Bureau of Animal Industry, United States Department of Agriculture, Washington 25, D. C.[13] Such permits must be obtained before the birds are shipped from the country of origin. Such birds from Canada must be accompanied by a certificate issued by a Canadian Government veterinarian. All such birds must be inspected at designated ports of entry by inspectors of the Bureau of Animal Industry, United States Department of Agriculture.

4. Footnotes 13 and 13a, appended to § 12.26 (b), (c), and (d), are amended to read as follows:

[12] See Appendix XII, Customs Regulations of 1943, quoting 9 CFR, Part 92.

[13a] See Appendix XVIII, Customs Regulations of 1943, quoting 42 CFR 71.152–71.155.

(R. S. 161, sec. 1, 62 Stat. 687, as amended; U. S. C. 22, 18 U. S. C. 42)

32a. Section 12.29 (d) is amended to read as follows:

(d) The eggs of game birds may be entered for propagating purposes upon the filing of an affidavit with the collector of customs that they are being imported for propagation and will be so used.[13a] The eggs of migratory birds may be imported for propagating purposes under permits issued by the Fish and Wildlife Service, United States Department of the Interior, Washington 25, D. C. Eggs of migratory birds may also be imported under permits issued by the Fish and Wildlife Service for scientific and other limited purposes. Public museums, zoological parks and societies, and public scientific and educational institutions may import the eggs of migratory birds without a permit. (See 50 CFR 6.8.) The eggs of certain game or migratory birds imported for hatching, such as ducks, geese, swans, turkeys, pigeons, doves pheasants, grouse, partridges, quail, guinea fowl, and pea fowl, are subject to the regulations of the Bureau of Animal Industry, United States Department of Agriculture, Washington 25, D. C.[13b] Such regulations require that permits, except for eggs from Canada, must be obtained before the eggs are shipped from the country of origin and that all eggs shall be accompanied by a certificate issued by a government veterinarian of the country of origin and inspected at a designated port of entry.

b. Footnotes 16a and 16b, appended to § 12.29 (d), are added, reading as follows:

[13a] See Appendix XXIII, Customs Regulations of 1943, quoting 50 CFR 9.1 and 9.2.

[13b] See Appendix XII, Customs Regulations of 1943, quoting 9 CFR, Part 92.

(R. S. 161, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 1624.)

[SEAL] D. B. STRUBINGER,
Acting Commissioner of Customs.

Approved: September 16, 1952.

TITLE 20—EMPLOYEES' BENEFITS

Chapter III—Bureau of Old-Age and Survivors Insurance, Social Security Administration, Federal Security Agency

[Regs. 4, Amdt.]

PART 404—FEDERAL OLD-AGE AND SURVIVORS INSURANCE (1950 ——)

EVIDENCE AS TO ADOPTION

Section 404.714 of Regulations No. 4 (20 CFR 404.714) is amended to read:

§ 404.714 *Evidence as to adoption.* If the relationship is by adoption, a certified copy of the decree or order of adoption shall be submitted. If it is not possible to obtain such a certified copy, or if such a certified copy can be obtained only by order of a court, a statement to this effect shall be furnished and the applicant may submit evidence of probative value establishing that a final decree or order of adoption was granted by a court of competent jurisdiction, when such decree was granted, and who were named in such decree as the adopting parent or parents, and the adopted child. If, under the law of the place of adoption, no decree or order is required to effect such adoption, there shall be submitted either a certified copy of the public record of adoption required by such law or, if no such record is required, the original document, if available, by which the adoption was effected. If the original document is not available, there shall be submitted an authentic copy thereof with a statement of the reason why the original is not available.

(Secs. 205, 1102, 49 Stat. 624, as amended, 647, as amended; 42 U. S. C. 405, 1302)

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter A—Aid of Civil Authorities and Public Relations

PART 513—ASSISTANCE OF CREDITOR BY DEPARTMENT OF THE ARMY

Section 513.1 is amended to read as follows:

§ 513.1. *Assistance of creditor by Department of the Army.* (a) Commanding officer will insure that all complaints from creditors receive prompt consideration and that the following action is taken:

(1) Claimant is notified of receipt of his communication and requested to communicate direct with the organizational commander instead of the Department of the Army, in the event further correspondence regarding the complaint is necessary.

(2) The communication is delivered promptly to the person concerned.

(3) If the indebtedness is admitted, prompt reply is made to the claimant indicating the debtor's intentions in the matter.

(4) If the indebtedness is disputed or denied, complainant will be so advised by the commanding officer and informed that it is a matter for adjudication by the proper civil court.

(b) Commanding officers should not tolerate actions of dishonesty, neglect, evasiveness, or irresponsibility in the financial dealings of their personnel. Although neither a commanding officer nor a court martial has authority to require a member of the Army to pay a private debt or to divert any part of his pay in satisfaction thereof, willful failure to pay a just debt is a discredit to the military service and may be a matter for disciplinary action under the Uniform Code of Military Justice, Articles 123 or 134.

(64 Stat. 142; 50 U. S. C. Sup. 727, 728). [C3, AR 600-10, Sept. 4, 1952] (R. S. 161; 5 U. S. C. 22)

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter IV—Salary and Wage Stabilization, Economic Stabilization Agency

Subchapter A—Salary Stabilization Board

[General Salary Order 14]

GSO 14—EXEMPTION OF EMPLOYEES IN THE PRIBILOF ISLANDS

STATEMENT OF CONSIDERATIONS

The Wage Stabilization Board has by General Wage Regulation 16B exempted the wages, salaries and other compensation of employees in the Pribilof Islands upon the ground that to maintain wage stabilization controls over such employees would interfere with the program of the Department of the Interior of the United States to set up a schedule of cash compensation for the native population employed in the fur seal industry in place of the present mixed form of compensation which combines cash payments with compensation paid in kind. The Department of the Interior has determined that such a change-over in the compensation paid to the native population is desirable and in accordance with the execution of the duties imposed upon it by the Fur Seal Act of 1944 (52 Stat. 100; 16 U. S. C. secs. 631a to 631r). The effectuation of this program free from wage stabilization is not deemed by the Wage Stabilization Board to have inflationary effects.

It appears that apart from the native population employed in the fur seal in-

dustry the only other employees in the Pribilof Islands are Government workers (whose compensation is fixed either by the Classification Act of 1949, as amended, or by Government wage boards) and employees of a private fur company stationed there during the fur sealing season.

In view of the foregoing, the application of salary stabilization to the Pribilof Islands is found by the Salary Stabilization Board to be unnecessary under present circumstances to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended. This General Salary Order 14 is therefore issued for the purpose of excluding this area from the scope of salary stabilization.

ORDER

SECTION 1. *Exemption of Pribilof Islands.* The salaries and other compensation of employees who are bona fide residents of and actually employed in the Pribilof Islands are exempted from salary stabilization.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR 1950 Supp.)

By order of the Salary Stabilization Board.

SEPTEMBER 16, 1952.

JUSTIN MILLER,
Chairman.

Approved: September 17, 1952.

ROGER L. PUTNAM,
Economic Stabilization Administrator.

[Interpretation 7, Amdt. 1]

INT. 7—STOCK OPTION AND STOCK PURCHASE PLANS

MISCELLANEOUS AMENDMENTS

The purpose of this amendment to Interpretation 7 is to substitute appropriate section references in General Salary Stabilization Regulation 1, Amended, for references in the superseded provisions of General Salary Stabilization Regulation 1, as amended, General Salary Stabilization Regulation 3, as amended and General Salary Order 6, as amended.

1. Paragraph 3 is amended to read as follows:

Q. An employer desiring to grant an 85 percent stock option has available amounts for general salary increases to the employees, to whom the option is to be granted, under sections 22 and 41 of General Salary Regulation 1, Amended, and for merit and length-of-service increases under Article V, General Salary Stabilization Regulation 1, Amended. Must the employer observe the restrictions with regard to the distribution of the amounts available for increases contained in sections 22 and 41 of General Salary Stabilization Regulation 1, Amended?

A. Yes.

With regard to amounts available for increases under section 22 of General Salary Stabilization Regulation 1, Amended, the employee to whom the stock option is to be granted must be within the group for which the section 22 increases are computed. However, there are no limitations on the manner in which the increase may be distributed among the members of the group.

With regard to amounts available under section 41 of General Salary Stabilization Regulation 1, Amended, paragraph (d) of that section provides for the manner in which increases under that section may be distributed and such limitations must be observed in charging the difference between the option price and 95 percent of the fair market value of the stock at the time the option is granted to the employees to whom the stock option is granted.

With regard to amounts available under Article V, General Salary Stabilization Regulation 1, Amended, sections 52 and 53 of that Article provide not only for an over-all limitation on the amount of merit and length-of-service increases, but also for determination of the maximum merit or length-of-service increase which an individual employee may receive in any calendar year. Both over-all and individual limitations on such increases must be observed in charging the difference between the option price and 95 percent of the fair market value of the stock at the time the option is granted to the employees to whom the stock option is granted. Accordingly, merit and length-of-service increases which may be granted to one employee may not be used to grant stock options to another employee.

2. The answer contained in paragraph 4 is amended to read as follows:

A. Yes, in the manner provided for in the regulation under which such increases are authorized.

3. Paragraph 5 is amended by inserting the words "as amended" after the references to General Salary Stabilization Regulation 2, by deleting the words "as amended" and substituting the word "Revised" after the reference to Interpretation 3.

4. Paragraph 9 is amended by inserting the words "as amended" after the reference to General Salary Stabilization Regulation 5.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Issued by the Office of Salary Stabilization on September 16, 1952.

JOSEPH D. COOPER,
Executive Director.

[F. R. Doc. 52–10364; Filed, Sept. 19, 1952; 11:30 a. m.]

[Interpretation 13, Amdt. 1]

INT. 13—RELATION OF GENERAL SALARY STABILIZATION REGULATION 2, AS AMENDED, TO CERTAIN STOCK PURCHASE PLANS

MISCELLANEOUS AMENDMENTS

The purpose of this amendment to Interpretation 13 is to eliminate reference to certain filing requirements in order to conform to the record-keeping provisions of General Salary Stabilization Regulation 2, as amended.

1. The introductory paragraph and paragraph 3 are amended by inserting the words ", as amended" after the references to General Salary Stabilization Regulation 2.

2. The answer contained in paragraph 1 is amended by inserting the word ", Revised" after the reference to Interpretation 3.

3. The answer contained in paragraph 9 is amended to read as follows:

A. Not later than August 31, 1952, and semiannually thereafter, the corporation should file a report containing such information pertinent to the grant and exercise of the stock option and in such form as the Office of Salary Stabilization may prescribe.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Issued by the Office of Salary Stabilization on September 16, 1952.

JOSEPH D. COOPER,
Executive Director.

Subchapter B—Wage Stabilization Board

[General Wage Regulation 16B]

GWR 16B—EXEMPTION FOR PRIBILOF ISLANDS

Pursuant to the Defense Production Act of 1950 (64 Stat. 816, as amended by Pub. Laws 96 and 429, 82d Cong.); Executive Order 10161, 15 F. R. 6105, as amended, Executive Order 10377, 17 F. R. 6891; General Order No. 16 of the Economic Stabilization Administrator, 17 F. R. 6925; and upon consideration by the Economic Stabilization Administrator of the recommendation of the Wage Stabilization Board, made August 13, 1952, pursuant to section 403 (b) (5) of the Defense Production Act of 1950, as amended, this General Wage Regulation No. 16B is hereby promulgated and issued.

STATEMENT OF CONSIDERATIONS

Under the provisions of the Fur Seal Act of 1944 (52 Stat. 100; 16 U. S. C. 631a-631r) the Department of the Interior has jurisdiction over the Pribilof Islands, a small group of islands in the Bering Sea off the Aleutian chain, and is responsible for the welfare of the resident Aleut natives. The only industry on the Islands is the taking and processing of fur-seals and foxes. The native Aleuts now receive some cash compensation from the government for their services in capturing and skinning these fur-bearing animals, and for related activities. In addition, they are supplied with food, housing, fuel, medical and other services by the Department of the Interior without charge. This is in accordance with a practice going back more than 40 years. The Department of the Interior has, since the passage of the Fur Seal Act, formulated a compensation plan for the native workmen which calls for a gradual transition from a system

of compensation based primarily on payment in kind to a system of straight cash wages. The change is designed to encourage the natives to exercise their full rights and responsibilities as United States citizens.

The only employment in the Pribilof Islands other than the work performed by the native Aleuts is Government work and work performed by a few employees of a private fur company which, under the contract with the Government, assigns some specialized personnel to the Islands during the fur-seal season. Wages for the Federal employees other than the native workmen are based either on the Classification Act of 1949, as amended, or are set by Wage Boards at the place of recruitment, which is ordinarily Seattle, Washington.

Because of the Islands' unique economy and the special reasons for increasing the wages of the native workmen, it is believed that exemption of their compensation from the General Wage Regulations will create no unstabilizing effects either in the Islands or in the United States.

In the judgment of the Wage Stabilization Board, the continued application of wage stabilization regulations to employees in the Pribilof Islands, is unnecessary to effectuate the purposes of the Defense Production Act of 1950, as amended. Due consideration has been given to the standards and procedures set forth in Title IV and Title VII of the Defense Production Act of 1950, as amended.

REGULATORY PROVISIONS

SECTION 1. *Exemption for employment in Pribilof Islands.* The wages, salaries and other compensation of employees in the Pribilof Islands are exempted from wage stabilization regulations.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interprets or applies Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, as amended; 3 CFR, 1950 Supp., E. O. 10377, July 29, 1952, 17 F. R. 6891)

Dated: September 17, 1952.

ROGER L. PUTNAM,
Economic Stabilization Administrator.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE, AND INSTRUCTIONS FOR MAILING

MISCELLANEOUS AMENDMENTS

In Part 127, International Postal Service: Postage Rates, Service Available, and Instructions for Mailing, make the following changes:

1. In § 127.15 *Registration* strike out "25 cents" and insert in lieu thereof "40 cents."

2. In § 127.101 *Special provisions applicable to international registry service* amend paragraph (c) by striking out "25 cents" and inserting in lieu thereof "40 cents".

3. In §§ 127.204 *Algeria* to 127.230 *Chile*, inclusive, amend paragraph (a) (2) by striking out "25 cents" and inserting in lieu thereof "40 cents".

4. In § 127.231 *China (including Taiwan (Formosa) and the leased territory of Kwangchowwan (Fort Bayard))* amend paragraph (a) (2) to read as follows:

(2) *Registration.* Fee, 40 cents, to Taiwan only. (See §§ 127.15 and 127.101.)

5. In §§ 127.232 *Colombia* to 127.278 *India*, inclusive, amend paragraph (a) (2) by striking out "25 cents" and inserting in lieu thereof "40 cents."

6. In § 127.278a *Indonesia* make the following changes:

a. Amend paragraph (a) (1) by striking out the second paragraph thereof.

b. Amend paragraph (a) (2) by striking out "25 cents" and inserting in lieu thereof "40 cents."

7. In §§ 127.279 *Iran* to 127.287 *Kenya* and *Uganda*, inclusive, amend paragraph (a) (2) by striking out "25 cents" and inserting in lieu thereof "40 cents."

8. In § 127.288 *Korea* amend paragraph (a) (2) to read as follows:

(2) *Registration.* Fee, 40 cents, to Republic of Korea only. (See §§ 127.15 and 127.101.)

9. In §§ 127.289 *Labuan* to 127.322 *Pakistan*, inclusive, amend paragraph (a) (2) by striking out "25 cents" and inserting in lieu thereof "40 cents."

10. In §§ 127.324 *Panama* to 127.341 *Rumania*, inclusive, amend paragraph (a) (2) by striking out "25 cents" and inserting in lieu thereof "40 cents."

11. In §§ 127.343 *St. Helena* to 127.381 *Zanzibar* and *Pemba*, inclusive, amend paragraph (a) (2) by striking out "25 cents" and inserting in lieu thereof "40 cents."

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

[SEAL] V. C. BURKE,
Acting Postmaster General.

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE, AND INSTRUCTIONS FOR MAILING

MISCELLANEOUS AMENDMENTS

a. In § 127.71 *Sealing* amend paragraph (a) by adding "Corsica (insured)" in alphabetical order to the list of countries appearing in said paragraph.

b. In § 127.102 *Special provisions applicable to international insurance service* amend paragraph (a) by adding "Corsica" in alphabetical order to the list of countries appearing in said paragraph.

c. In § 127.227 *Canada* make the following changes:

1. Amend subdivision (iii) of paragraph (b) (3) to read as follows:

(iii) The domestic insurance fees and limits of indemnity shall apply to insured mails to Canada as follows:

Limit of indemnity:	Fee (cents)
Up to $5.00	5
$5.01 to $10.00	10
$10.01 to $25.00	15
$25.01 to $50.00	20
$50.01 to $100.00	30
$100.01 to $200.00	35

2. Amend subdivision (i) of paragraph (a) (5) to read as follows:

(i) The following fees are applicable to letters intended for special delivery:

Weight:	Fee (cents)
Up to 2 pounds	20
Over 2 but not over 10 pounds	35
Over 10 pounds	50

d. In § 127.233 *Corsica* amend paragraph (b) as follows:

1. In the tabulated information below the table of surface parcel rates in subparagraph (1) (i) strike out "Sealing: Optional'" and insert in lieu thereof "Sealing: ' Insured parcels must, and ordinary parcels may, be sealed", and strike out "Insurance: No" and insert in lieu thereof "Insurance: Yes."

2. Redesignate subparagraphs (4) and (5) as (6) and (7), respectively.

3. Insert a new subparagraph (4) to read as follows:

(4) *Indemnity.* Same as France.

4. Insert a new subparagraph (5) to read as follows:

(5) *Insurance.* Same as France.

e. In § 127.243 *Ecuador* amend subdivision (i) of paragraph (b) (6) by striking out the table of fees and limit of indemnity appearing under the caption "Registered Parcel-Post Packages" and inserting in lieu thereof the following:

Limit of indemnity:	Fee (cents)
Up to $10.00	40
$10.01 to $25.00	55
$25.01 to $50.00	65

f. In § 127.332 *Portugal* amend subdivision (i) of paragraph (b) (6) by striking out the table of fees and limit of indemnity under the caption "Registered Parcel-Post Packages" and inserting in lieu thereof the following:

Limit of indemnity:	Fee (cents)
Up to $10.00	40
$10.01 to $25.00	55
$25.01 to $50.00	65

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

[SEAL] V. C. BURKE,
Acting Postmaster General.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 904]

HANDLING OF MILK IN GREATER BOSTON, MASSACHUSETTS, MARKETING AREA

NOTICE OF OPPORTUNITY TO SUBMIT DATA, VIEWS, AND ARGUMENTS IN CONNECTION WITH PROPOSED AMENDED RULES AND REGULATIONS

Notice is hereby given that pursuant to the authority contained in Order No. 4, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, marketing area (7 CFR 904), the market administrator is considering the issuance, as hereinafter proposed, of amendments to the rules and regulations (7 CFR 904.101 et seq.) issued to effectuate the terms and provisions of the said order.

All persons who desire to submit data, views, or arguments in connection with proposed amendments to the rules and regulations should submit them in writing to the market administrator at Room 403, 230 Congress Street, Boston, Massachusetts, by mail or otherwise, in time to be received not later than 5:15 p. m., September 22, 1952.

The proposed amendments are as follows:

1. Delete § 904.102 and renumber §§ 904.103, 904.104, and 904.105 as §§ 904.102, 904.103, and 904.104. Change the references to these section in § 904.101 accordingly.

2. In the new § 904.102 add to the list of milk products "unsweetened condensed milk (except concentrated milk)".

3. Add the following paragraph (now § 904.102 (d)) to the new § 904.103:

(c) All fluid milk products disposed of to and used by a livestock farmer for animal feed, except milk suitable for human consumption as milk, shall be classified as Class II milk.

4. Delete paragraph (b) from § 904.112 and renumber paragraphs (c) and (d) as (b) and (c).

5. Amend the table of standard weights in § 904.141 to provide the following standard weights for flavored milk and flavored skim milk minus the quantity of syrup or other flavoring material, to be used in the absence of specific net weights:

Product	Weight (pounds)		
	Butterfat test	Per quart container	Per 40-quart container
Flavored milk Flavored skim milk [1]	Any test	2.00	79.0

[1] Minus the quantity of syrup or other flavoring material.

Issued at Boston, Massachusetts, this 12th day of September 1952.

[SEAL] RICHARD D. APLIN,
Market Administrator.

[F. R. Doc. 52-10271; Filed, Sept. 19, 1952; 8:47 a. m.]

[7 CFR Part 934]

HANDLING OF MILK IN LOWELL-LAWRENCE, MASSACHUSETTS, MARKETING AREA

NOTICE OF OPPORTUNITY TO SUBMIT DATA, VIEWS, AND ARGUMENTS IN CONNECTION WITH PROPOSED AMENDED RULES AND REGULATIONS

Notice is hereby given that pursuant to the authority contained in Order No. 34, as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area (7 CFR 934), the market administrator is considering the issuance, as hereinafter proposed, of amendments to the rules and regulations (7 CFR 934.101 et seq.) issued to effectuate the terms and provisions of the said order.

All persons who desire to submit data, views, or arguments in connection with proposed amendments to the rules and regulations should submit them in writing to the market administrator at 25 Argyle Street, Shawsheen Village, Andover, Massachusetts, by mail or otherwise, in time to be received not later than 5:15 p. m., September 22, 1952.

The proposed amendments are as follows:

1. Delete § 934.102 and renumber §§ 934.103, 934.104, and 934.105 as §§ 934.102, 934.103, and 934.104. Change the references to these sections in § 934.101 accordingly.

2. In the new § 934.102 add to the list of milk products "unsweetened condensed milk (except concentrated milk)".

3. Add the following paragraph (now § 934.102 (d)) to the new § 934.103:

(c) All fluid milk products disposed of to and used by a livestock farmer for animal feed, except milk suitable for human consumption as milk, shall be classified as Class II milk.

4. Amend the table of standard weights in § 934.141 to provide the following standard weights for flavored milk and flavored skim milk minus the quantity of syrup or other flavoring material, to be used in the absence of specific net weights:

Product	Weight (pounds)		
	Butterfat test	Per quart container	Per 40-quart container
Flavored milk Flavored skim milk [1]	Any test	2.00	79.0

[1] Minus the quantity of syrup or other flavoring material.

Issued at Boston, Massachusetts, this 12th day of September 1952.

[SEAL] RICHARD D. APLIN,
Market Administrator.

[F. R. Doc. 52-10267; Filed, Sept. 19, 1952; 8:46 a. m.]

[7 CFR Part 996]

HANDLING OF MILK IN SPRINGFIELD, MASSACHUSETTS, MARKETING AREA

NOTICE OF OPPORTUNITY TO SUBMIT DATA, VIEWS, AND ARGUMENTS IN CONNECTION WITH PROPOSED AMENDED RULES AND REGULATIONS

Notice is hereby given that pursuant to the authority contained in Order No. 96, as amended, regulating the handling of milk in the Springfield, Massachusetts, marketing area (7 CFR 996), the market administrator is considering the issuance, as hereinafter proposed, of amendments to the rules and regulations (7 CFR 996.101 et seq.) issued to effectuate the terms and provisions of the said order.

All persons who desire to submit data, views, or arguments in connection with proposed amendments to the rules and regulations should submit them in writing to the market administrator at Room 605, 145 State Street, Springfield, Massachusetts, by mail or otherwise, in time to be received not later than 5:15 p. m., September 22, 1952.

The proposed amendments are as follows:

1. Delete § 996.102 and renumber §§ 996.103, 996.104, and 996.105 as §§ 996.102, 996.103, and 996.104. Change the references to these sections in § 996.101 accordingly.

2. In the new § 996.102 add to the list of milk products "unsweetened condensed milk (except concentrated milk)".

3. Add the following paragraph (now § 996.102 (d) to the new § 996.103:

(c) All fluid milk products disposed of to and used by a livestock farmer for animal feed, except milk suitable for human consumption as milk, shall be classified as Class II milk.

4. Amend the table of standard weights in § 996.141 to provide the following standard weights for flavored milk and flavored skim milk minus the quantity of syrup or other flavoring material, to be used in the absence of specific net weights:

Product	Weight (pounds)		
	Butterfat test	Per quart container	Per 40-quart container
Flavored milk Flavored skim milk [1]	Any test	2.00	79.0

[1] Minus the quantity of syrup or other flavoring material.

Issued at Boston, Massachusetts, this 12th day of September 1952.

[SEAL] RICHARD D. APLIN,
Market Administrator.

[7 CFR Part 999]

HANDLING OF MILK IN WORCESTER, MASSACHUSETTS, MARKETING AREA

NOTICE OF OPPORTUNITY TO SUBMIT DATA, VIEWS, AND ARGUMENTS IN CONNECTION WITH PROPOSED AMENDED RULES AND REGULATIONS

Notice is hereby given that pursuant to the authority contained in Order No. 99, as amended, regulating the handling of milk in the Worcester, Massachusetts, marketing area (7 CFR 999), the market administrator is considering the issuance, as hereinafter proposed, of amendments to the rules and regulations (7 CFR 999.101 et seq.) issued to effectuate the terms and provisions of the said order.

All persons who desire to submit data, views, or arguments in connection with proposed amendments to the rules and regulations should submit them in writing to the market administrator at Room 403, 107 Front Street, Worcester, Massachusetts, by mail or otherwise, in time to be received not later than 5:15 p. m., September 22, 1952.

The proposed amendments are as follows:

1. Delete § 999.102 and renumber §§ 999.103, 999.104, and 999.105 as §§ 999.102, 999.103, and 999.104. Change the references to these sections in § 999.101 accordingly.

2. In the new § 999.102 add to the list of milk products "unsweetened condensed milk (except concentrated milk)".

3. Add the following paragraph (now § 999.102 (d)) to the new § 999.103:

(c) All fluid milk products disposed of to and used by a livestock farmer for animal feed, except milk suitable for human consumption as milk, shall be classified as Class II milk.

4. Amend the table of standard weights in § 999.141 to provide the following standard weights for flavored milk and flavored skim milk minus the quantity of syrup or other flavoring material, to be used in the absence of specific net weights:

Product	Weight (pounds)		
	Butterfat test	Per quart container	Per 40-quart container
Flavored milk Flavored skim milk [1]	Any test	2.00	79.0

[1] Minus the quantity of syrup or other flavoring material.

Issued at Boston, Massachusetts, this 12th day of September 1952.

CIVIL AERONAUTICS BOARD

[14 CFR Part 302]

[Procedural Draft Release 4]

RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

INTERVENTION BY CITIES, OTHER PUBLIC BODIES, AND CHAMBERS OF COMMERCE

Notice is hereby given that the Civil Aeronautics Board has under consideration a revision of § 302.15 of the Procedural Regulations (14 CFR 302.15). This revision relates to the filing of petitions to intervene by cities, other public bodies, or chambers of commerce, in formal Board proceedings.

The present § 302.15 (c) (2) (ii) of the Procedural Regulations (rules of practice) requires that intervention petitions shall be filed with the Board prior to the first prehearing conference in a proceeding. It is proposed to change this rule so as to permit interventions by cities, other public bodies, or chambers of commerce up to the date of hearing. The reasons for the proposed change are set forth in an accompanying temporary rule [1] of the same nature effective immediately and to continue in effect for 60 days while the proposed permanent change is under consideration.

There shall be added to the provisions of paragraph (c), subparagraph (2), of § 302.15 of the Procedural Regulations a new subdivision (iii) to read as follows:

(iii) A petition to intervenue in any Board proceeding filed by a city, other public body, or a chamber of commerce shall be filed with the Board not later than the last day prior to the beginning of the hearing therein.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate and addressed to the Secretary, Civil Aeronautics Board, Washington 25, D. C. All communications received by October 15, 1952, will be considered by the Board before taking further action upon the proposed rule. Copies of such communications will be available after October 15, 1952, for examination by interested persons in the Docket Section of the Board, Room 5412, Commerce Building, Washington, D. C.

(Sec. 205, 52 Stat. 984, 49 U. S. C. 425. Interprets or applies sec. 1001, 52 Stat. 1017; 49 U. S. C. 641)

Dated September 15, 1952, at Washington, D. C.

[SEAL] M. C. MULLIGAN,
Secretary.

NORTH PLATTE PROJECT, WYOMING

ORDER OF REVOCATION

MAY 9, 1952.

Pursuant to the authority delegated by Departmental Order No. 2515 of April 7, 1949 (14 F. R. 1937), I hereby revoke Departmental Orders of Feb. 11, 1903 and Aug. 10, 1908, in so far as said orders affect the following-described lands: *Provided, however,* That such revocation shall not affect the withdrawal of any other lands by said orders or affect any other orders withdrawing or reserving the lands hereinafter described:

Sixth Principal Meridian, Wyoming

T. 23 N., R. 63 W.,
Sec. 3, Lots 1 to 4 inclusive

The above areas aggregate 160.68 acres.

G. W. LINEWEAVER,
Assistant Commissioner.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The topography of the land is level to gently rolling. The soil is a heavy clay which packs when water is applied, and is not suitable for cultivation. It is chiefly valuable for grazing purposes. While any application that is filed will be considered on its merits, it is unlikely that any substantial part of the restored (or opened) lands will be classified for any use other than shown.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office, Cheyenne, Wyoming, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Cheyenne, Wyoming.

WILLIAM PINCUS,
Assistant Director,
Bureau of Land Management.

[No. 44]

ORLAND IRRIGATION PROJECT, CALIFORNIA

PUBLIC NOTICE OF ANNUAL OPERATION AND MAINTENANCE CHARGES

SEPTEMBER 8, 1952.

1. *Operation and maintenance charges.* The minimum annual operation and maintenance charge for the irrigation season of 1953 and thereafter until further notice for all lands of the Orland Project, California, under public notice shall be $6.27 per irrigable acre, whether water is used or not, which charge will permit the delivery of not to exceed 3 acre-feet of water per irrigable acre per annum. This charge includes $0.67 per acre in payment for rehabilitation and betterment work accomplished on the project. Additional water up to the amount of the surplus natural flow water, or operational spill from Stony Gorge Dam, used prior to the time it becomes necessary to draw upon the storage supply, will be furnished at the rate of $0.30 per acre-foot. Further additional water, if available, will be furnished during the irrigation season at the rate of $1.87 per acre-foot.

2. *Time of payment.* The minimum charge for the 1953 irrigation season, together with charges for additional water used during the 1952 irrigation season, shall be payable on or before December 31, 1952.

3. *Penalties.* If payment of the charges, or any part thereof, is not made on or before the due date, there shall be added on the following day a penalty of one-half of one percent of the amount unpaid, and a like penalty of one-half of one percent of the amount unpaid on the first day of each calendar month thereafter so long as such default shall continue. No water shall be delivered until all charges and penalties have been paid in full.

4. *Place of payment.* All payments should be made to the Bureau of Reclamation, Orland, California.

RICHARD L. BOKE,
Regional Director.

[No. 45]

ORLAND IRRIGATION PROJECT, CALIFORNIA

PUBLIC NOTICE OF ANNUAL WATER RENTAL CHARGES

SEPTEMBER 8, 1952.

1. Announcement is hereby made that, pending the cancellation of water rights on lands now delinquent in the payment of charges due the United States and the transfer of said water rights to other lands in private ownership that can be served from the constructed canal system, or minor extensions, on the Orland Project, California, water will be furnished during the irrigation season of 1953 and thereafter until further notice, upon approved applications for temporary water service for the irrigation of such other lands, upon a water rental basis, at the following rates and terms.

2. *Charges and terms of payment.* The minimum water rental charge for the lands to be irrigated under the provisions of this public notice shall be $6.27 per irrigable acre, which charge will permit the delivery of not to exceed 3 acre-feet of water per irrigable acre per annum. Additional water, if available, will be furnished at the rate of $1.87 per acre-foot.

The minimum charge will be payable at the time that application for temporary water service is executed and no water will be delivered until the minimum charge has been paid in full. Charge for additional water at the rates above-specified must be paid in advance of the delivery of additional water and no advance payments shall be accepted in sums of less than $10.00.

3. *Application for, and payment of service.* Applications for water service and the payments required by this notice will be received at the office of the Bureau of Reclamation, Orland, California.

RICHARD L. BOKE,
Regional Director.

Geological Survey

BLUE AND HERRING LAKES, ALASKA

POWER SITE CLASSIFICATION NO. 427

Pursuant to authority vested in me by the act of March 3, 1879 (20 Stat. 394; 43 U. S. C. 31), and by Departmental Order No. 2333 of June 10, 1947 (43 C. F. R. 4.623; 12 F. R. 4025), the following described land is hereby classified as power sites in so far as title thereto remains in the United States and subject to valid existing rights; and this classification shall have full force and effect under the provisions of sec. 24 of the act of June 10, 1920, as amended by sec. 211 of the act of August 26, 1935 (16 U. S. C. 818):

Vicinity of lat. 57°04' N., long. 135°12' W., 6 miles east of Sitka.

All lands between elevations 350 feet and 500 feet above sea level which drain into Blue Lake and Medvetcha River (Sawmill Creek) upstream from a point 250 feet downstream from the junction of the stream draining Herring Lake.

All lands below an altitude of 500 feet above sea level draining into Herring Lake and its outlet stream, and not reserved by Power Site Classification No. 221.

The area described is estimated to be 1,000 acres.

Dated: September 12, 1952.

THOMAS B. NOLAN,
Acting Director.

Office of the Secretary

[Order 2558, Amdt. 2]

SOUTHEASTERN POWER ADMINISTRATION

ESTABLISHMENT AND FUNCTIONS

This amendment supersedes the original text of Order No. 2558 and Amendment No. 1.

Order No. 2558 is revised to read as follows:

SEC. 1. *Establishment.* (a) The Southeastern Power Administration is established as an agency of the Department of the Interior. The Administration shall carry out the functions assigned to the Secretary of the Interior by section 5 of the Flood Control Act of December 22, 1944 (16 U. S. C., 1946 ed., sec. 825s), with respect to the transmission and disposition of electric power and energy generated at reservoir projects which are or may be under the control of the Department of the Army in the States of West Virginia, Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Tennessee, and Kentucky. The States mentioned in this paragraph shall constitute the area within which the Administration is authorized to transmit and dispose of power.

(b) The Administration shall be in the charge of an Administrator appointed by the Secretary.

SEC. 2. *Contracts.* The Administrator may, without Secretarial approval, consummate contracts for the sale, interchange, or other disposition of power and energy, if such contracts are composed entirely of standard provisions which have previously received Secretarial approval. If such a contract is not composed entirely of standard provisions, the Administrator may only execute the contract subject to Secretarial approval.

SEC. 3. *Acting Administrator.* (a) The Chief, Division of Operations, shall perform the duties of the Administrator in the event of the absence, sickness, resignation, or death of the Administrator.

(b) The Chief, Division of Engineering, shall perform the duties of the Administrator in the event of the absence, sickness, resignation, or death of the Administrator and the Chief, Division of Operations.

(c) The Chief, Division of Power Management, shall perform the duties of the Administrator in the event of the absence, sickness, resignation, or death of the Administrator, the Chief, Division of Operations, and the Chief, Division of Engineering.

(d) The Chief Counsel shall perform the duties of the Administrator in the event of the absence, sickness, resignation, or death of the Administrator, the Chief, Division of Operations, the Chief, Division of Engineering, and the Chief, Division of Power Management.

(e) The officer acting under authority of this section shall sign documents under the title "Acting Administrator."

SEC. 4. *Accounts.* The Administrator shall maintain a system of accounting in accordance with the uniform system of accounting prescribed for public utilities by the Federal Power Commission.

SEC. 5. *Reports.* The Administrator shall submit monthly reports and an annual report through the Division of Water and Power to the Secretary. The Administrator shall file with the Federal Power Commission such data and reports as public utilities subject to the Commission's jurisdiction are required to file.

(Sec. 2, Reorganization Plan No. 3 of 1950, 15 F. R. 3174)

JOEL D. WOLFSOHN,
Acting Secretary of the Interior.

SEPTEMBER 15, 1952.

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Delegation of Authority No. 26, Revision 1]

DIRECTORS OF THE REGIONAL OFFICES

DELEGATION OF AUTHORITY TO ACT ON SCHEDULE OF RATES FILED BY WAREHOUSES UNDER SUPPLEMENTARY REGULATION 5 TO CEILING PRICE REGULATION 34

By virtue of the authority vested in the Director of Price Stabilization, pur-

suant to the Defense Production Act of 1950, as amended (64 Stat. 798, 803; 65 Stat. 131; 66 Stat. 296), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2, as amended (16 F. R. 738, 11626), this Delegation of Authority No. 26, Revision 1, is hereby issued.

1. *Authority to act under section 4 of Supplementary Regulation 5 to Ceiling Price Regulation 34.* Authority is hereby delegated to the Directors of the Regional Offices of the Office of Price Stabilization to disapprove schedules of rates and charges filed with their respective offices in accordance with the provisions of section 4 of Supplementary Regulation 5 to Ceiling Price Regulation 34.

2. *Redelegation of authority.* The authority hereby delegated may be redelegated to the Directors of the District Offices of the Office of Price Stabilization.

This revised delegation of authority shall take effect on September 20, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

[Delegation of Authority No. 29, Revision 1]

DIRECTORS OF THE REGIONAL OFFICES

DELEGATION OF AUTHORITY TO ACT UNDER CEILING PRICE REGULATION 70

By virtue of the authority vested in the Director of Price Stabilization, pursuant to the Defense Production Act of 1950, as amended (64 Stat. 798, 803; 65 Stat. 131; 66 Stat. 296), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2, as amended (16 F. R. 738, 11626), this Delegation of Authority No. 29, Revision 1, is hereby issued.

1. *Authority to act under sections 2, 5, 9 and 12 of Ceiling Price Regulation 70.* Authority is hereby delegated to the Directors of the Regional Offices of the Office of Price Stabilization:

(a) To act upon and to handle to final conclusion all requests filed pursuant to the provisions of section 2 of Ceiling Price Regulation 70;

(b) To act upon and to handle to final conclusion all reports filed pursuant to the provisions of section 5 of Ceiling Price Regulation 70;

(c) To act upon and to handle to final conclusion all requests filed pursuant to the provisions of section 9 of Ceiling Price Regulation 70;

(d) To act upon and to handle to final conclusion all applications for rate adjustment filed pursuant to the provisions of section 12 of Ceiling Price Regulation 70.

2. *Redelegation of authority.* The authority hereby delegated may be redelegated to the Directors of the District Offices of the Office of Price Stabilization.

This revised delegation of authority shall take effect on September 20, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

SEPTEMBER 19, 1952.

[Ceiling Price Regulation 7, Section 43, Revocation of Special Order 497]

BESTFORM FOUNDATIONS, INC.

CEILING PRICES AT RETAIL

Statement of considerations. Special Order 497, issued to Bestform Foundations, Inc., on August 17, 1951, effective August 18, 1951, established ceiling prices at retail for foundation garments, brassieres, garter belts, girdles and panties, bandeaux, corselettes, long line brassieres, corsets having the brand name "Bestform".

Bestform Foundations, Inc., has applied for a revocation of this special order. The applicant states that it is unable to comply with the preticketing provisions of the special order. Because strict compliance with the preticketing requirements of an order issued under section 43 of Ceiling Price Regulation 7 is necessary, this special order, in the opinion of the Director, should be revoked.

The order of revocation requires the applicant to send a copy to all purchasers for resale who have received notice of the special order.

Revocation. 1. For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, Special Order 497, issued to Bestform Foundations, Inc., on Auugst 17, 1951, effective August 18, 1951, establishing ceiling prices at retail for foundation garments, brassieres, garter belts, girdles and panties, bandeaux, corselettes, long line brassieres, corsets having the brand name "Bestform", shall be, and the same hereby is, revoked in all respects.

2. Bestform Foundations, Inc., must, within 15 days from the effective date of this order of revocation, send a copy of this order of revocation to all purchasers for resale to whom it has given notice of Special Order 497.

Effective date. This order of revocation shall become effective September 18, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

SEPTEMBER 17, 1952.

[F. R. Doc. 52-10296; Filed, Sept. 17, 1952; 3:55 p. m.]

[Ceiling Price Regulation 34, Section 10, Special Order 13]

WORTHINGTON CORP.

CENTRAL PRICING ORDER

Statement of considerations. In accordance with section 10 of Ceiling Price Regulation 34, the applicant named in this special order, Worthington Corporation, has applied to the Office of Price Stabilization for permission to establish out of its central office in Harrison, New Jersey, uniform ceiling prices for the services which it renders at all of its service outlets throughout the United States. Section 10 of Ceiling Price Regulation 34, as amended, authorizes the Office of Price Stabilization, when it deems it consistent with the purposes of the regulation, to establish uniform prices for sellers owning or operating more than one service establishment. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director of Price Stabilization indicates that the applicant has complied with the stated requirements.

The Director has determined on the basis of facts available to him, that during the base period, December 19, 1950, to January 25, 1951, inclusive, Worthington Corporation had eleven plants. Each of these plants (hereinafter called "Works") manufactured substantially different types of heavy machinery or equipment. The major Works were located at Harrison, New Jersey, Holyoke, Massachusetts, Wellsville, New York, and Buffalo, New York. The products manufactured at the Works were sold through district sales offices located throughout the United States. However, the district sales offices did not service the Worthington products. Rather, all of the products were serviced directly from the Works. Each Works had its own service department specialists, trained to service its own products. All of the Works had a uniform system for pricing their services. The charge for a service specialist from any one of the Works included a daily rate for the service specialist, his roundtrip transportation costs from the Works to the customer, and maintenance expenses for the entire time the specialist was in travel status.

Subsequent to the base period, in order to alleviate the expensive transportation and maintenance costs and thereby reduce the price of its service, Worthington Corporation opened several regional engineering and service offices (hereinafter called "regional service offices") which were staffed with personnel trained to service any type of machinery manufactured by the Worthington Corporation. The regional service offices established uniform ceiling prices for the services which they render pursuant to the provisions of Ceiling Price Regulation 34.

On the basis of these facts, it has been determined by the Director of Price Stabilization that a uniform system of central pricing will not result in an increase in the ceiling prices established under Ceiling Price Regulation 34.

This order will permit any existing regional service office of Worthington Corporation to sell any service at the ceiling price established therefor by the central office of Worthington Corporation regardless of whether or not that regional service office had heretofore established a ceiling price for that service. The order will also permit any new regional service office to establish as the ceiling prices for the services which it renders, the ceiling prices for such services established by the central office of Worthington Corporation. In addition, this order authorizes the central office of Worthington Corporation to apply to the Office of Price Stabilization on behalf of all of its regional service offices for the establishment of a ceiling price for any new service covered by Ceiling Price Regulation 34. In addition, this order requires applicant to notify all of its regional service offices of this order and any subsequent amendments issued with respect thereto.

Special provisions. (1) On and after the effective date of this special order the ceiling prices at all of the regional service offices of Worthington Corporation listed in Appendix "A" attached hereto and made a part of this order, for services rendered by the general service specialists on all of the products manufactured by Worthington Corporation shall be $40.00 per day plus maintenance and roundtrip travel expenses from closest regional office to the customer.

(2) Lower prices than those authorized in section (1) of this special order may be charged by the seller for any service covered by this special order at any time.

(3) The previously established ceiling prices for services rendered by service specialists from the various works of Worthington Corporation shall continue in order that no purchaser shall be required to pay more for any service rendered than such purchaser was required to pay during the base period for the same or a similar service.

(4) On and after the effective date of this special order all of the regional service offices of Worthington Corporation shall be considered a single seller for the purpose of establishing ceiling prices for new services and the central office of Worthington Corporation shall make application on behalf of all of such regional service offices for the establishment of ceiling prices for new services pursuant to the provisions of section 6 of this special order. However, this special order does not relieve each regional service office of Worthington Corporation covered by this order from the filing and posting requirements of section 18 of Ceiling Price Regulation 34.

(5) The ceiling prices for the services rendered by any regional service office of Worthington Corporation which is opened after the effective date of this special order shall be the ceiling prices listed in section (1) of this special order. Within 20 days after opening a new regional service office, the central office of Worthington Corporation shall request the Director of Price Stabilization, Washington 25, D. C. to amend Appendix "A" of this special order to provide for the inclusion therein of such new office. The provisions of section 13 (c) of Ceiling Price Regulation 34 are waived for the purpose of establishing ceiling prices for services rendered by service outlets of Worthington Corporation opened after the effective date of this special order.

(6) On and after the effective date of this special order the central office of Worthington Corporation is authorized to apply to the Director of Price Stabilization, Washington 25, D. C., on behalf of all of its regional service offices for the establishment of a ceiling price for any new service in line with the level of prices otherwise established by Ceiling Price Regulation 34, and in the case of a commodity rental or a manufacturing or processing service, a ceiling price consistent with the level of ceiling prices established for the sale of the commodity by the applicable commodity regulation. The application shall contain a description of the service, anticipated direct labor and material costs, and the proposed ceiling prices. In addition, the application must contain a description of the most comparable service rendered by the Worthington Corporation during the base period, showing the present direct labor and material costs for such service and the present ceiling price therefor. Such application shall also contain a description and ceiling price for any comparable service furnished by the most closely competitive service organization to Worthington Corporation.

The regional service offices of Worthington Corporation may sell the new service at the proposed ceiling price 20 days after mailing such application to the Director of Price Stabilization, Washington 25, D. C., by registered letter, return receipt requested, unless and until notified that such price has been disapproved.

(7) Within 15 days after the effective date of this special order, Worthington Corporation shall send a copy of this special order to each of its regional service offices. Within 15 days after the effective date of any subsequent amendment to the special order, Worthington Corporation shall send a copy of the amendment to each of its regional service offices. Copies of this special order and any subsequent amendments to the special order shall be filed by each branch office with their local OPS office within 30 days after the issuance thereof.

(8) This special order does not relieve the individual sellers covered by this order from the filing and posting requirements in section 18 of Ceiling Price Regulation 34.

(9) All provisions of Ceiling Price Regulation 34, except as changed by the pricing provisions of this special order shall remain in full force and effect as far as each regional service office of Worthington Corporation is concerned.

(10) This special order or any provisions thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

(11) The provisions of this special order are applicable in the United States and the District of Columbia.

APPENDIX "A"

WORTHINGTON CORPORATION

1. Worthington Corporation
   Midwest Regional Engineering & Service Division

[Docket No. G-1759]

MISSISSIPPI POWER & LIGHT CO.

ORDER SUBSTITUTING APPLICANT AND FIXING DATE OF HEARING

SEPTEMBER 16, 1952.

On August 10, 1951, Mississippi Power and Light Company (Mississippi Power),

a Florida corporation having its principal place of business at Jackson, Mississippi, filed an application for a certificate of public convenience and necessity authorizing it to construct and operate approximately 2½ miles of 2-inch natural-gas transmission pipeline to extend from a sales metering station on the 18-inch pipeline of Texas Gas Transmission Corporation in Mississippi to the town of Jonestown, Mississippi, for the purpose of providing natural gas service to the town of Jonestown, Mississippi.

On August 22, 1952, Mississippi Power and Mississippi Valley Gas Company (Mississippi Valley), a Mississippi corporation having its principal place of business at Jackson, Mississippi, filed a joint petition to amend said application filed August 10, 1951, wherein they requested that the Commission issue an order authorizing amendment of the application herein by substitution of Mississippi Valley for Mississippi Power as Applicant in Docket No. G–1759.

From said petition to amend, it appears that Mississippi Power, subsequent to the filing of its application herein on August 10, 1951, sold all of its gas properties, rights and franchises to Mississippi Valley pursuant to a certificate of public convenience and necessity issued on March 11, 1952, in Docket No. G–1865.

The Commission finds:

(1) It is appropriate to carry out the provisions of the Natural Gas Act that Mississippi Valley Gas Company be substituted as Applicant in Docket No. G–1759 for the reason set forth in the petition to amend filed with the Commission on August 22, 1952.

(2) This proceeding is a proper one for disposition under the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

The Commission orders:

(A) Mississippi Valley Gas Company be and it hereby is substituted for Mississippi Power and Light Company as Applicant in Docket No. G–1759.

(B) Pursuant to authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on October 7, 1952, at 9:45 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application, as amended: *Provided, however*, That the Commission may, after a non-contested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: September 16, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

NOTICE OF FINDINGS AND ORDER

SEPTEMBER 16, 1952.

Notice is hereby given that on September 16, 1952, the Federal Power Commission issued its order entered September 12, 1952, issuing certificate of public convenience and necessity in the above-entitled matter.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 52–10275; Filed, Sept. 19, 1952; 8:47 a. m.]

[Docket No. G–2039]

COLORADO INTERSTATE GAS CO.

NOTICE OF APPLICATION

SEPTEMBER 16, 1952.

Take notice that on September 4, 1952, Colorado Interstate Gas Company (Applicant), a Delaware corporation, having its principal place of business at Colorado Springs, Colorado, filed an application for an order disclaiming jurisdiction, or in the alternative, for a certificate of public convenience and necessity, pursant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain natural-gas transmission pipeline facilities hereinafter described should it be ultimately determined that such facilities are subject to the Commission's jurisdiction.

The facilities which the Applicant seeks authorization to construct and operate are as follows:

(1) 6.2 miles of 10¾ inch OD electric weld line pipe to extend from Applicant's Amarillo-Denver transmission line to a new delivery point near the northeasterly limits of the City of Colorado Springs, Colorado.

(2) Meter and regulator station including construction of necessary structure and installation of measuring and regulating equipment.

The proposed facilities will be utilized by the Applicant for supplying additional volumes of gas to the City of Colorado Springs, Colorado.

The maximum volume of gas deliverable to the City of Colorado Springs, Colorado, through Applicant's existing facilities is 38,000 Mcf per day. Estimates of anticipated peak-day sales, in 1952, amount to 37,800 Mcf which is slightly less than the total capacity of the present facilities. Estimates of peak-day sales of gas for 1953 through 1956 are all in excess of the present capacity of the existing facilities.

The estimated cost of the proposed facilities is $153,388 which will be financed by Applicant out of cash on hand.

Applicant further requests that the Commission proceed in accordance with § 1.32 of the Commission's rules of practice and procedure in processing this application, and that the Commission omit the intermediate decision procedure, and Applicant waives oral hearings and opportunity for filing exceptions to the decision of the Commission.

The application is on file with the Commission for public inspection. Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 6th day of October 1952.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 52–10288; Filed, Sept. 19, 1952; 8:49 a. m.]

[Docket No. G–2040]

PANHANDLE EASTERN PIPE LINE CO.

NOTICE OF APPLICATION

SEPTEMBER 16, 1952.

Take notice that Panhandle Eastern Pipe Line Company (Applicant), a Delaware corporation, address 1221 Baltimore Avenue, Kansas City 6, Missouri, filed on September 4, 1952, an application in the alternative for (1) a disclaimer of Commission jurisdiction or (2) a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the operation of its transmission pipeline facilities as hereinafter described.

Applicant proposes to sell to Bohn Aluminum and Brass Company (Bohn) for use in its Plant No. 24 located in Adrian, Michigan a maximum of 2,200 Mcf of natural gas per day under a classification giving Applicant the right to curtail or interrupt deliveries when, in its judgment, the gas is needed for Applicant's other customers receiving service under a classification contemplating on an interruptible supply of gas, or when deliveries will interfere with deliveries of gas to Citizens Gas Fuel Company (Citizens), the distribution company in Adrian. The gas will be delivered by Applicant to Bohn at the point at which Applicant deliveries gas to Citizens. The gas will then be delivered by Citizens through its local distribution system to Bohn. Applicant states that no new facilities are required to be constructed by it in order to make the proposed sale, although additional facilities may be needed to meet the demands of Citizens and to continue service to Bohn for the 1952–53 winter season.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 6th day of October 1952. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. G–2070]

ALABAMA-TENNESSEE NATURAL GAS CO.

ORDER SUSPENDING PROPOSED RATE SCHEDULES

SEPTEMBER 11, 1952.

On August 18, 1952, Alabama-Tennessee Natural Gas Company (Alabama-Tennessee) filed its Third Revised Sheet No. 4 and First Revised Sheets Nos. 5, 6, and 7 to its FPC Gas Tariff, Original Volume No. 1 containing increased rates and charges which are proposed to be made effective as of September 18, 1952.

The proposed increased rates and charges would result in an estimated increase of $313,220 per annum, or 50 percent, based upon estimated sales for the 12-month period ending September 30, 1953. In the filing a two-part, demand-commodity rate is proposed to replace the straight commodity rate which became effective May 1, 1952, pursuant to the Commission's Opinion No. 226 and accompanying order issued in In the Matter of Alabama-Tennessee Natural Gas Company, Docket No. G–585.

The proposed increase in rates and charges is based primarily upon claimed changed conditions since the Commission's order in Docket No. G–585. Among other things, Alabama-Tennessee claims that during the test period ending September 30, 1953, the peak-day demand on the system will reach 31,426 Mcf after curtailment of all interruptible deliveries and that the system will reach capacity operations during the winter of 1952–1953. Further, Alabama-Tennessee represents that it has received requests from its resale customers asking for increases in the maximum daily amounts of gas to be made available to them and that the resulting demands will exceed the capacity of the existing facilities.

No detailed data were submitted in justification of the claim of changed conditions. Additionally, several of Alabama-Tennessee's resale customers, responding to the opportunity to comment upon the filing, protest and complain against the increase in rates.

The increased rates and charges provided in said proposed Third Revised Sheet No. 4 and First Revised Sheets Nos. 5, 6, and 7 to Alabama-Tennessee's FPC Gas Tariff, Original Volume No. 1 as filed August 18, 1952, have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to the authority contained in section 4 of such act, concerning the lawfulness of said Third Revised Sheet No. 4 and and First Revised Sheets Nos. 5, 6, and 7 to Alabama-Tennessee's FPC Gas Tariff, Original Volume No. 1 and that said sheets and the rate schedule therein contained be suspended as hereinafter provided and the use thereof be deferred pending hearing and decision thereon.

The Commission orders:

(A) Pursuant to the authority contained in section 4 of the Natural Gas Act, a public hearing be held at a time and place to be fixed by further order of the Commission concerning the lawfulness of the rates, charges, and classifications contained in the aforesaid Third Revised Sheet No. 4 and First Revised Sheets Nos. 5, 6, and 7 to Alabama-Tennessee's FPC Gas Tariff, Original Volume No. 1.

(B) Pending such hearing and decision thereon, said Third Revised Sheet No. 4 and First Revised Sheets Nos. 5, 6, and 7 to Alabama-Tennessee's FPC Gas Tariff, Original Volume No. 1, be and the same are hereby suspended and the use thereof is deferred until February 18, 1953, and until such further time thereafter as said proposed sheets may be made effective in the manner prescribed by the Natural Gas Act.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: September 16, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

INTERNATIONAL JOINT COMMISSION

[Docket No. 68]

CONSTRUCTION OF WORKS FOR POWER DEVELOPMENT IN INTERNATIONAL RAPIDS SECTION OF ST. LAWRENCE RIVER

FINAL HEARING

The Governments of the United States and Canada, on June 30, 1952, each submitted to the International Joint Commission, under the provisions of the Boundary Waters Treaty of January 11, 1909, applications requesting the Commission to approve the construction of certain works for the development of power, as further described in the applications, in the International Rapids Section of the St. Lawrence River, giving consideration to such effects as the construction and operation of these works may have on the levels of water resulting therefrom, to be maintained in Lake Ontario and the St. Lawrence River; and, further, these applications are filed with the International Joint Commission with the understanding on the part of each Government as specified in the applications.

The Commission has heretofore held public hearings in the above matter, at Ogdensburg and Albany, in New York State, and at Toronto, Cornwall, and Montreal, in Canada.

Further notice is hereby given that a final hearing in the above matter will be held in Washington, D. C., on October 20, 1952, at 10:00 a. m., e. s. t., in the Auditorium of the Federal Security Building.

The Auditorium above referred to is on the first floor of the Federal Security Building, on Independence Avenue between Third and Fourth Streets, Southwest.

Interested persons and organizations are invited to attend.

In order to permit all interests to present a full expression of views, it is suggested that, whenever possible, written statements be filed with the Commission and that fifty copies of such statements be prepared.

JESSE B. ELLIS, *Secretary, United States Section, International Joint Commission.*

E. M. SUTHERLAND, *Secretary, Canadian Section, International Joint Commission.*

OFFICE OF DEFENSE MOBILIZATION

[CDHA 78]

FINDING AND DETERMINATION OF CRITICAL DEFENSE HOUSING AREAS UNDER THE DEFENSE HOUSING AND COMMUNITY FACILITIES AND SERVICES ACT OF 1951

SEPTEMBER 18, 1952.

Upon a review of the construction of new defense plants and installations, and the reactivation or expansion of operations of existing defense plants and installations, and the in-migration of defense workers or military personnel to carry out activities at such plants or installations and the availability of housing and community facilities and services for such defense workers and military personnel in the area set forth below, I find that all of the conditions set forth in section 101 (b) of the Defense Housing and Community Facilities and Services Act of 1951 (Pub. Law 139, 82d Cong., 1st Sess.) exist.

Accordingly, pursuant to section 101 of the Defense Housing and Community Facilities and Services Act of 1951 and by virtue of the authority vested in me by paragraph number 1 of Executive Order 10296 of October 2, 1951, I hereby determine that said area is a critical defense housing area.

Portsmouth-Chillicothe, Ohio, Area. (The area consists of all of Scioto, Pike, Ross, and Jackson Counties, Ohio.)

HENRY H. FOWLER, *Director of Defense Mobilization.*

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54–177, 59–91]

PENNSYLVANIA GAS & ELECTRIC CORP. ET AL.

ORDER GRANTING FURTHER EXTENSION OF TIME TO MODIFY PLAN

SEPTEMBER 16, 1952.

In the matter of Pennsylvania Gas & Electric Corporation, North Penn Gas Company, Allegany Gas Company, Dempseytown Gas Company, Alum Rock Gas Company, Penn-Western Service Corporation, applicants, File No. 54–177; Pennsylvania Gas & Electric Corporation and its subsidiary companies, respondents, File No. 59–91.

Pennsylvania Gas & Electric Corporation ("Penn Corp"), a registered holding

company, having filed a plan pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 for the dissolution of Penn Corp;

The Commission having issued its findings and opinion dated June 5, 1952, concluding that the aforesaid plan may be approved if within 30 days or such additional time as may be granted upon a proper showing the aforesaid plan is modified in accordance with the views expressed in said findings and opinion;

The Commission, by orders dated July 21, 1952, and August 12, 1952, having extended the period in which Penn Corp may file an amended plan, the more recent order extending the time to September 8, 1952, and Penn Corp. by letters dated September 4, 1952, and September 11, 1952, having represented that it is actively engaged in preparing an Amended Plan, which conforms to the evaluation of the various classes of securities of Penn Corp determined by the Commission in its decision of June 5, 1952, and which has received the approval of representatives of all classes of securities affected by the Amended Plan, and that it has not been possible to develop all of the details of the Amended Plan within the time permitted by the Commission's previous orders; and Penn Corp having requested a further extension of time within which to prepare and file its Amended Plan, the request being for an additional 30 days from September 8, 1952:

It is ordered, That the time within which the Amended Plan may be filed be, and hereby is, extended to October 8, 1952.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 54-188]

EASTERN UTILITIES ASSOCIATES ET AL.

NOTICE OF FILING AND ORDER GIVING OPPORTUNITY FOR HEARING ON APPLICATION FOR AUTHORITY TO RENEW OUTSTANDING PROMISSORY NOTES

SEPTEMBER 16, 1952.

Notice is hereby given that Eastern Utilities Associates ("EUA"), a registered holding company, has filed an application in connection with the Amended Reorganization Plan No. 4 filed by it and its subsidiary companies pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("the act"). Said application seeks the approval of this Commission of the issuance by EUA to the First National Bank of Boston of $9,094,000 principal amount of 2¼ percent promissory notes to mature one year from October 19, 1952, or such other date, not later than October 19, 1953, as the Commission may deem proper under the circumstances. Such notes will be issued under a loan agreement with said bank which permits presently outstanding notes in the amount of $9,094,000 to be renewed for one year from October 19, 1952. The original notes evidencing the loan were approved by this Commission in this proceeding by order, dated August 17, 1950, and the proceeds therefrom were used by EUA to purchase certain shares of capital stock of its subsidiary, Fall River Electric Light Company, then held by others. By order, dated September 21, 1951, the Commission authorized the renewal of such notes for a period of one year. It is contemplated by EUA that the notes presently outstanding under said loan agreement will be retired by the financing proposed in said Amended Reorganization Plan No. 4.

It is ordered, That any interested person may, not later than September 29, 1952, at 5:30 p. m., e. s. t., request this Commission in writing that a hearing be held on EUA's application to renew its outstanding promissory notes, stating therein the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted or submitted for consideration at any such hearing. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after September 29, 1952, the Commission may grant said application.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3912]

DUQUESNE LIGHT CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION OVER RESULTS OF BIDDING IN SALE OF PREFERRED STOCK

SEPTEMBER 16, 1952.

Duquesne Light Company ("Duquesne"), a public utility subsidiary of Philadelphia Company, a registered holding company, having filed an application, with amendments thereto, under section 6 (b) of the act with respect to the issuance and sale by Duquesne, pursuant to the competitive bidding requirements of Rule U-50, of 140,000 shares ____ Percent Preferred Stock, $50 par value, and $14,000,000 principal amount of First Mortgage ____ Percent Bonds, Series due September 1, 1982; and

The Commission having, by order dated September 8, 1952, granted said application, as amended, except that the issuance and sale of the preferred stock and the bonds were not to be consummated until the results of competitive bidding, pursuant to Rule U-50, were made a matter of record in this proceeding and a further order or orders issued, for which purpose jurisdiction was reserved; and

Jurisdiction also having been reserved in said order of September 8, 1952, with respect to all fees and expenses incurred in connection with the proposed transactions; and

Duquesne having filed a further amendment to the application in which it is stated that, in accordance with the permission granted by the said order of the Commission, dated September 8, 1952, it offered the preferred stock for sale pursuant to the competitive bidding requirements of Rule U-50 and received the following bids:

Bidding group headed by—	Annual dividend rate (percent)	Price to company (dollars per share)	Annual cost to company (percent)
The First Boston Corp....	4.15	50.150	4.106
Lehman Bros., Kuhn, Loeb & Co. and Smith, Barney & Co....	4.20	50.60	4.159
Kidder, Peabody & Co., Merrill Lynch, Pierce, Fenner & Beane, and White, Weld & Co....	4.20	50.51	4.157
	4.20	50.3399	4.171

Said amendment having further stated that Duquesne has accepted the bid of the First Boston Corporation for the purchase of the preferred stock, as set forth above, and that the preferred stock will be offered for sale to the public at a price of $51.23 per share, resulting in an underwriter's spread of $1.071 per share, or an aggregate amount of $149,940; and

The Commission having examined said amendment and having considered the record herein and finding no reason for imposing any terms or conditions with respect to the price to be received by Duquesne for the preferred stock, the dividend rate, the underwriter's spread, or otherwise, and it appearing appropriate to the Commission that the jurisdiction heretofore reserved over the results of competitive bidding with respect to the issuance and sale of the preferred stock be released:

It is ordered, That the application, as further amended, be, and the same hereby is, granted forthwith, and that the jurisdiction heretofore reserved over the results of competitive bidding with respect to the issuance and sale of the preferred stock be, and the same hereby is, released subject to the terms and conditions prescribed in Rule U-24.

It is further ordered, That the jurisdiction heretofore reserved over the results of competitive bidding with respect to the issuance and sale of the bonds and over all fees and expenses be, and the same hereby is, continued.

By the Commission.

[File No. 70-2919]

GENERAL PUBLIC UTILITIES CORP.

ORDER AUTHORIZING CAPITAL CONTRIBUTION TO SUBSIDIARY

SEPTEMBER 15, 1952.

General Public Utilities Corporation ("GPU"), a registered holding company, having filed a declaration pursuant to section 12 (b) of the Public Utility Holding Company Act of 1935 ("the act") and Rule U-45 thereunder with respect to the following proposed transaction:

GPU proposes to make cash contributions in the aggregate amount of $1,000,000 to its subsidiary, New Jersey Power & Light Company ("NJP&L"). Said contributions will be credited initially by NJP&L to capital surplus and promptly thereafter transferred to the stated capital applicable to its common stock. Such capital contributions will be made by GPU as NJP&L requires funds for construction purposes or to reimburse its treasury for expenditures therefrom for construction purposes.

Such declaration having been duly filed and notice of its filing having been duly given as prescribed by Rule U-23, and the Commission not having received a request for hearing with respect thereto nor having ordered such a hearing; and

The Commission finding with respect to said declaration that the applicable provisions of the act and rules thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration be permitted to become effective forthwith:

It is ordered, That said declaration be, and the same hereby is, permitted to become effective forthwith subject to the terms and conditions prescribed in Rule U-24 of the general rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2928]

GRANITE STATE ELECTRIC CO. ET AL.

NOTICE OF FILING REGARDING ISSUANCE OF PROMISSORY NOTES

SEPTEMBER 16, 1952.

In the matter of Granite State Electric Company, Haverhill Electric Company, Malden Electric Company, Salem Electric Lighting Company, Suburban Gas and Electric Company, Worcester County Electric Company, File No. 70-2928.

Notice is hereby given that the above named public-utility subsidiary companies of New England Electric System ("NEES"), a registered holding company, hereinafter individually referred to as "Granite", "Haverhill", "Malden", "Salem", "Suburban" and "Worcester" and collectively referred to as the "borrowing companies", have filed declarations, pursuant to the Public Utility Holding Company Act of 1935, and have designated section 7 of the act and Rule U-42 thereunder as applicable to the proposed transactions, which are summarized as follows:

The borrowing companies propose to issue to banks, from time to time but not later than December 31, 1952, unsecured promissory notes in the maximum principal amount of $7,025,000. The borrowing companies further propose that the principal amount of all of their unsecured promissory notes outstanding at any one time during the period from October 1, 1952, to December 31, 1952, will not exceed $7,275,000.

Each of the notes proposed to be issued will be due six months after its issue date and will bear interest at the prime rate of interest at the time of its issuance. It is stated that said prime rate of interest for such notes at the present time is 3 percent. In the event that such interest rate is in excess of 3¼ percent at the time any of the proposed notes are to be issued, the borrowing company will file an amendment to its declaration setting forth therein the name of the bank or banks, the terms of the note or notes and the rate of interest at least five days prior to the issuance of said note or notes. The borrowing companies request that such amendment become effective at the end of such period unless the borrowing company or companies concerned are notified by the Commission to the contrary within such period.

Each of the borrowing companies, except Salem, presently has outstanding notes payable to banks or to NEES and each will use the proceeds derived from the notes proposed to be issued to pay off presently outstanding notes maturing during the period from October 1, 1952, to December 31, 1952, or to pay for construction costs during this period or to reimburse its treasury for prior construction expenditures. The following table shows the amount of notes proposed to be issued and the maximum amount to be outstanding at any one time during the above mentioned period by each of the borrowing companies and the use of the proceeds derived therefrom:

Company	Amount of notes		Use of proceeds to pay		
	To be issued	To be outstanding	Notes to banks	Notes to NEES	For construction
Granite	$450,000	$550,000	$350,000	----	$100,000
Haverhill	700,000	700,000	----	$500,000	200,000
Malden	1,550,000	1,550,000	1,100,000	----	450,000
Salem	200,000	200,000	----	----	200,000
Suburban	1,125,000	1,275,000	1,075,000	----	50,000
Worcester	3,000,000	3,000,000	----	900,000	2,100,000
Total	7,025,000	7,275,000	2,525,000	1,400,000	3,100,000

Granite, Haverhill, Salem and Suburban propose to issue all of their notes to the First National Bank of Boston. Malden proposes to issue its notes to the First National Bank of Boston ($1,030,000), First National Bank of Malden ($120,000), Malden Trust Company ($100,000), and Middlesex County National Bank ($300,000). Worcester proposes to issue its notes in the aggregate amount of $3,000,000 to Worcester County Trust Company, the Mechanics National Bank and Guaranty Bank and Trust Company, all of Worcester, Massachusetts, and the First National Bank of Boston.

The declarations further state that incidental services in connection with the proposed note issues will be performed, at cost, by New England Power Service Company, an affiliated service company, such cost being estimated not to exceed $300 for each of the borrowing companies, or an aggregate of $1,800. The declarations further state that, except for an exemption granted to Granite by the Public Utilities Commission of New Hampshire with respect to the issuance of promissory notes payable in less than twelve months and in an amount not exceeding $600,000, no State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

The borrowing companies request that the Commission's Order herein become effective forthwith upon issuance.

Notice is further given that any interested person may, not later than September 29, 1952, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason or reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the declarations, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and U-100 thereof.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27400]

SULPHURIC ACID FROM FRONT ROYAL, VA., TO KNOXVILLE, TENN.

APPLICATION FOR RELIEF

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Southern Railway Company.

Commodities involved: Sulphuric acid, in tank-car loads.

From: Front Royal, Va.

To: Knoxville, Tenn.

Grounds for relief: Competition with rail carriers, and circuitous routes.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, ICC No. 1200, supl. 59.

Any interested person desiring the Commission to hold a hearing upon such

application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[F. R. Doc. 52-10276; Filed, Sept. 19, 1952; 8:48 a. m.]

[4th Sec. Application 27401]

ALCOHOL FROM BATON ROUGE, NORTH BATON ROUGE, AND NEW ORLEANS, LA., TO LLANERCH, PA.

APPLICATION FOR RELIEF

SEPTEMBER 17, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for the Chicago, Rock Island and Pacific Railroad Company, and others, pursuant to fourth section order No. 16101.

Commodities involved: Alcohol, denatured, and related articles, carloads.

From: Baton Rouge, North Baton Rouge and New Orleans, La.

To: Llanerch, Pa.

Grounds for relief: Competition with rail carriers, circuitous routes, and operation through higher-rated territory.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[4th Sec. Application 27402]

ACRYLONITRILE FROM POINTS IN NEW JERSEY AND WEST VIRGINIA TO BATON ROUGE, LA.

APPLICATION FOR RELIEF

SEPTEMBER 17, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to Agent C. W. Boin's tariff ICC No. A-911, and Agent L. C. Schuldt's tariff ICC No. 4367, pursuant to fourth section order No. 16101.

Commodities involved: Acrylonitrile, in tank-car loads.

From: Warners, N. J., Belle, Charleston, Elk, Institute, Owens, South Charleston and South Ruffner, W. Va.

To: Baton Rouge, La.

Grounds for relief: Competition with rail carriers, circuitous routes, and operation through higher-rated territory.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[F. R. Doc. 52-10278; Filed, Sept. 19, 1952; 8:48 a. m.]

[4th Sec. Application 27403]

STAVES, CONCRETE, FROM CAMDEN, OHIO TO MEMPHIS, TENN., AND NEW ORLEANS, LA.

APPLICATION FOR RELIEF

SEPTEMBER 17, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to L. C. Schuldt's tariff ICC No. 4367, pursuant to fourth section order No. 16101.

Commodities involved: Staves, concrete, not reinforced, silo, grain bin or water tank, carloads.

From: Camden, Ohio.

To: Memphis, Tenn., and New Orleans, La.

Grounds for relief: Competition with rail carriers, circuitous routes, and operation through higher-rated territory.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[F. R. Doc. 52-10279; Filed, Sept. 19, 1952; 8:48 a. m.]

[4th Sec. Application 27404]

COMMODITY RATES FROM POINTS IN UNITED STATES AND CANADA TO WHITE PINE, MICH.

APPLICATION FOR RELIEF

SEPTEMBER 17, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Duluth, South Shore and Atlantic Railroad Company for itself and on behalf of carriers parties to Consolidated Freight Classification No. 20, Geo. H. Dumas, Agent, ICC No. 33.

Commodities involved: Commodity rates.

From: Points in the United States and Canada.

To: White Pine, Mich.

Grounds for relief: Competition with rail carriers, circuitous routes, to maintain grouping, and to apply over rates constructed on the basis of the short line distance formula.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

Washington, Tuesday, September 23, 1952

TITLE 3—THE PRESIDENT

PROCLAMATION 2988

GENERAL PULASKI'S MEMORIAL DAY, 1952

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS Count Casimir Pulaski, Polish nobleman, was impelled by his enduring love of liberty to come to our shores and join in the fight for American independence; and

WHEREAS this valiant Pole, having attained the rank of Brigadier General in the Continental Army, gave his life for the American cause on October 11, 1779, thus becoming one of the immortals in our history; and

WHEREAS the American people, generation after generation, have remembered and cherished the gallant deeds of General Pulaski, who made a heroic contribution to the winning of the freedom we hold so dear:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, do hereby set aside Saturday, October 11, 1952, the one hundred and seventy-third anniversary of his death, as General Pulaski's Memorial Day, and I invite the people of this Nation to observe the day with ceremonies designed to render homage to this Polish patriot who fought under freedom's banner. I also direct that the flag of the United States be displayed on all Government buildings on October 11 in honor of his memory.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 18th day of September in the year of our Lord nineteen hundred and [SEAL] fifty-two, and of the Independence of the United States of America the one hundred and seventy-seventh.

HARRY S. TRUMAN

By the President:

DEAN ACHESON,
Secretary of State.

[F. R. Doc. 52-10395; Filed, Sept. 22, 1952; 9:43 a. m.]

PROCLAMATION 2989

SUPPLEMENTARY TRADE AGREEMENT: VENEZUELA

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS, pursuant to section 350 of the Tariff Act of 1930, as amended and extended (ch. 474, 48 Stat. 943; ch. 118, 57 Stat. 125; ch. 269, 59 Stat. 410; ch. 585, 63 Stat. 697; Public Law 50, 82d Congress), on August 28, 1952 I entered into a supplementary trade agreement, through my duly empowered Plenipotentiary, with the Junta of Government of the United States of Venezuela, through its duly empowered Plenipotentiary, the said supplementary agreement to become effective on and after the thirtieth day following the exchange of my proclamation and the instrument of ratification of the Government of the United States of Venezuela, as provided for in Article 13 of the said supplementary agreement;

AND WHEREAS I proclaimed the said supplementary agreement on September 10, 1952 and my proclamation and the instrument of ratification of the Government of the United States of Venezuela were duly exchanged at the city of Washington on September 11, 1952;

NOW, THEREFORE, be it known that I, Harry S. Truman, President of the United States of America, supplementing my said proclamation of September 10, 1952, do hereby make known and proclaim that the said supplementary agreement, signed on August 28, 1952, will come into force on October 11, 1952.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the city of Washington this 19th day of September, in the year of our Lord one thousand nine [SEAL] hundred and fifty-two and of the Independence of the United States of America the one hundred seventy-seventh.

HARRY S. TRUMAN

By the President:

DEAN ACHESON,
Secretary of State.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directed to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Code of Federal Regulations

REVISED BOOKS

Title 32, containing the regulations of the Department of Defense and other related agencies has been completely revised and reissued as two books as follows:

Parts 1–699 ($5.00)

Part 700 to end ($5.25)

Title 32A, containing NPA, OPS, and other regulations under the Defense Production Act together with the amended text of the act and related Executive orders:

Chapter I to end ($6.50)

These books contain the full text of regulations in effect on December 31, 1951

Order from Superintendent of Documents, Government Printing Office, Washington 25, D. C.

TITLE 7—AGRICULTURE

Chapter IV—Federal Crop Insurance Corporation, Department of Agriculture

[Amdt. 3]

PART 419—COTTON CROP INSURANCE

SUBPART—REGULATIONS FOR THE 1952 AND SUCCEEDING CROP YEARS

Correction

In F. R. Doc. 52–9968, appearing at page 8206 of the issue for Friday, September 12, 1952, the following change should be made:

In the first line of the second column on page 8206, the words "of the insured, except that if such death or judicial declaration of incompetence" should be inserted between "incompetence" and "occurs".

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 15]

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

PROFICIENCY REQUIREMENTS

Sections 41.53–1 through 41.53–6 are being issued to establish periodic flight checks and instructions to be given pilots conducting operations under Part 41. These checks and instructions are similar to those which have been prescribed for pilots conducting operations under Part 61 of this subchapter. The following policies are hereby adopted:

Sec.
41.53–1 Failure to complete instrument competency check (CAA policies which apply to § 41.53).
41.53–2 General standards (CAA policies which apply to § 41.53).
41.53–3 Purpose of observing performance (CAA policies which apply to § 41.53).
41.53–4 Aircraft used in flight check (CAA policies which apply to § 41.53).
41.53–5 Flight simulator (CAA policies which apply to § 41.53).
41.53–6 Proficiency checks (CAA policies which apply to § 41.53).

AUTHORITY: §§ 41.53–1 to 41.53–6 issued under sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 604, 52 Stat. 1007, 1010, 49 U. S. C. 551, 554.

§ 41.53–1 *Failure to complete instrument competency check (CAA policies which apply to § 41.53).* A scheduled air carrier should not utilize as a pilot in command in scheduled air transportation any pilot who has failed to perform satisfactorily any of the proficiency checks set forth in § 41.53–6.

§ 41.53–2 *General standards (CAA policies which apply to § 41.53).* Section 41.53–6 prescribes the minimum checks which should be given by an air carrier in determining the proficiency of a pilot in command. The air carrier may undertake these checks in any order or arrangement that will achieve complete coverage of the proficiency check in a minimum amount of flight time. Where demonstrated performance is unsatisfactory, additional training may be given during the check or later, and the unsatisfactory item rechecked during the check or later for satisfactory performance. The extent of this additional training should depend on the applicant's satisfactory flight proficiency demonstrated in other phases of the check which, in the opinion of the check pilot, would warrant such additional training. In addition, the air carrier should, where a particular type or condition of operation prevails, add to the checks listed in § 41.53–6.

§ 41.53–3 *Purpose of observing performance (CAA policies which apply to § 41.53).* When an agent of the Administrator is observing the performance of a proficiency flight, his primary objectives will be: (a) An evaluation of the air carrier's pilot flight proficiency training program, and (b) a determination as to whether the air carrier's check pilot is requiring demonstrated performance by the pilot in command as set forth in § 41.53–6 and the air carrier's pilot flight proficiency training program. Any problem pertaining to the performance of the pilot in command during the proficiency flight should be discussed only between the air carrier's check pilot and the agent of the Administrator. In the event there is a difference of opinion between the air carrier's check pilot and the agent as to methods of performing the required maneuvers, such differences of opinion should be resolved between the agent and the air carrier and should not be discussed on the flight deck during the proficiency flight.

§ 41.53–4 *Aircraft used in flight check (CAA policies which apply to § 41.53).* (a) Where a pilot in command is scheduled to fly only one type of land aircraft or one type of seaplane, he should be given his proficiency checks in that type of aircraft he is scheduled to fly.

(b) Where a pilot in command is scheduled to fly more than one type of land aircraft and/or seaplane, his proficiency should be checked in all types of aircraft he is scheduled to fly. However, the following exceptions will be allowed:

(1) If a pilot is scheduled to fly two-engine, three-engine, and four-engine land aircraft or any combination therof, and/or more than one type of such aircraft, he should take his proficiency check in one of the larger and more complicated type of aircraft; or if only one of the smaller type aircraft is available, he may take his check immediately due in that aircraft, but his next check should be accomplished in one of the larger and more complicated type of aircraft.

(2) If a pilot is scheduled to fly two-engine, three-engine, and four-engine seaplanes or any combination thereof, and/or more than one make or model of such seaplanes, he should take his proficiency check in one of the larger and more complicated type of seaplane; or if only one of the smaller type of seaplane is available, he may take his check immediately due in that seaplane, but his next check should be made in one of the larger and more complicated type of seaplane.

(3) If a pilot is scheduled to fly both land aircraft and seaplanes, his check should include a demonstration of proficiency in both land aircraft and seaplane in accordance with subparagraphs (1) and (2) of this paragraph.

§ 41.53–5 *Flight simulator (CAA policies which apply to § 41.53).* An air carrier using a flight simulator in its pilot's training program may be approved to utilize such a device for certain maneuvers in conducting proficiency checks: *Provided*, That (a) the training device accurately simulates the flight characteristics and the performance of the applicable aircraft through all ranges of normal and emergency operation, (b) the maneuvers to be conducted in the simulator other than those specifically authorized in § 41.53–6 (l), (m), (n), (o), (p), and (q), are submitted to the Washington Office for approval by the region in which the headquarters of the air carrier is located, and (c) certain critical maneuvers which demonstrate the proficiency of a pilot are executed in an aircraft of the type flown by the pilot in air carrier service. The proficiency flight in the aircraft should include at least maneuvers (minimum speed), approach procedures, handling under regular approach conditions, and take-off and landings, with engine failures as outlined in § 41.53–6 (g), (q), (u) and (v), respectively.

§ 41.53–6 *Proficiency checks (CAA policies which apply to § 41.53).* The following checks are prescribed by the Administrator to determine the proficiency of the pilot in command:

(a) *Equipment examination (oral or written).* (1) The equipment examination should be pertinent to the type of aircraft to be flown by the pilot in command and may be given (i) in the air carrier's ground school, (ii) during a routine line check under the supervision of an authorized company check pilot, or (iii) during the proficiency check.

(2) The examination should at least contain questions relative to engine power settings, airplane placard speeds, critical engine failure speeds, control systems, fuel and lubrication systems, propeller and supercharger operations, hydraulic systems, electric systems, anti-icing, heating and ventilating, and pressurization system (if pressurized). A record should be maintained in the pilot's file which will indicate the date, condition under which equipment examination was given, and grade received.

(b) *Taxiing, sailing, or docking.* Attention should be directed to (1) the manner in which the pilot in command conducts taxiing, sailing, or docking with reference to the taxi instruction as issued by airport traffic control or other traffic control agency, (2) any taxi instruction which may be published in the air carrier's operations manual, and (3) general regard for the safety of the air carrier's and other equipment which may be affected by taxiing, sailing, or docking operation.

(c) *Run-up.* Attention to detail in the use of cockpit check list and cockpit procedure should be observed on all proficiency flights.

(d) *Take-off.* For those air carriers authorized take-off minimums of 200½, the pilot being examined should whenever practicable execute a take-off solely by reference to instruments, or at the option of the check pilot, a contact take-off may be made following which instrument conditions should be simulated at or before reaching 100 feet with the subsequent climb conducted solely by reference to instruments. The check pilot should observe the pilot's ability to maintain a constant heading during the take-off run, his proficiency in handling power, flap and gear operation during the critical period between take-off (off ground) and reaching five hundred feet. If it becomes necessary for the check pilot to give assistance after becoming airborne, the maneuver should be considered as unsatisfactory.

(e) *Climbs and climbing turns.* Climbs and climbing turns should be performed in accordance with the airspeeds and power settings as prescribed by the air carrier or those set forth in the "Airplane Flight Manual." The use of proper climb speeds and designated rates of climb should be considered in determining the satisfactory performance of this phase of the proficiency flight.

(f) *Steep turns.* Except as provided hereinafter, steep turns should consist of at least forty-five degrees of bank. The turns should be at least 180° of duration, but need not be more than 360°. Smooth control application, and ability to maneuver aircraft within prescribed limits, should be the primary basis for judging performance. When information is available on the relation of increase of stall speeds vs. increase in angle of bank, such information should be reviewed and discussed. As a guide, the tolerances of 100 feet plus or minus a given altitude should be considered as acceptable deviation in the performance of steep turns. Consideration may be given to factors other than pilot proficiency which might make compliance with the above tolerances impractical. For example, where the range of vision from the safety observers' position is obstructed in certain types of aircraft while in a steep left turn, the degree of left bank in such instances may be reduced to not less than thirty degrees.

(g) *Maneuvers (minimum speeds).* Maneuvers at minimum speed should be accomplished while using the prescribed flap settings as set forth in the Airplane Flight Manual. In addition, attention should be directed to airplane performance as related to use of flaps vs. clean configuration while operating at minimum speeds. Attention should be directed towards the pilot's ability to recognize and hold minimum controllable airspeed, to maintain altitude and heading, and to avoid unintentional approaches to stalls.

(h) *Approach to stalls.* Approach to stalls should be demonstrated from straight flight and turns, with and without power. An approach to stall should be executed in landing or approach configuration. The extent to which the approach to stall will be carried and the method of recovery utilized should be dictated by (1) the type of aircraft being flown, (2) its reaction to stall conditions, and (3) the limitation established by the air carrier. Performance should be judged on ability to recognize the approaching stall, prompt action in initiating recovery, and prompt execution of proper recovery procedure for the particular make and model of aircraft involved.

(i) *Propeller feathering.* Propeller feathering should be performed. Such propeller feathering should be accomplished in accordance with instructions set forth by the air carrier and be exercised at sufficient altitude to insure adequate safety for the performance of the operation. The pilot's ability to maintain altitude, directional control, and satisfactory airspeed should be the desired prerequisites in accomplishing this maneuver. The manner in which the pilot manages his cockpit during propeller feathering should also be noted.

(j) *Maneuvers (one or more engines out).* When performing maneuvers (one or more engines out) the aircraft should be maneuvered with a loss of fifty percent of its power units, such loss to be concentrated on one side of the aircraft. The loss of these power units may be simulated either by retarding throttles or by following approved feathering procedures. The pilot in command should be required to maintain headings and altitude and to make moderate turns both toward and away from the dead engine or engines. Proficiency should be judged on the basis of the pilot's ability to maintain engine-out airspeed, heading and altitude; to trim the airplane; and to adjust necessary power settings.

(k) *Rapid descent and pull-out.* This maneuver should consist of the following steps: While the aircraft is under the normal approach configuration and being flown at a predetermined altitude, it will be assumed that the aircraft has arrived at a navigational fix and is cleared to descend immediately to a lower altitude. (The lower altitude should be one which permits a descent of at least 1000 feet.) Upon reaching the lower altitude, the aircraft should be recovered from the rapid descent and flown on a predetermined heading and altitude for a predetermined period of time. At the end of the time interval, an emergency pull-out should be executed which will involve a change of direction of at least 180°. Performance should be judged on the basis of ability to establish a rapid descent at constant airspeed, stopping the descent at the minimum altitude specified without going below it, holding heading and altitude, and smooth pull-up and climb.

(l) *Ability to tune radio.*[1]

(m) *Orientation.*[1]

(n) *Beam bracketing.*[1]

(o) *Cone identification.*[1]

(p) *Loop orientation.*[1]

(q) *Approach procedures.* An approach procedure should be made in the aircraft on the let-down aid for which the lowest minimums on a system-wide basis are authorized and include, where possible, holding patterns and air traffic control instructions which might be used by the pilot in day-to-day operations. If at the time of the proficiency flight the let-down aid affording the lowest minimums is not in operation at the point the check is given, the landing aid which affords the next lowest minimums on a system-wide basis should be used. Where a particular air carrier is authorized landing minimums based on instrument landing systems and ground control approach, the predominate landing aid on a system-wide basis should be utilized. In some cases a particular air carrier may be authorized its lowest landing minimums on a let-down aid which is not installed and operating at locations where the air carrier's pilots are based. In this case the air carrier should conduct the proficiency flights at locations where such an aid is installed and operating. All other approaches for which a particular operator may be authorized to use, such as ADF, LF/MR range, VOR, and VAR should be made and may be conducted in a simulator or other approved type trainer. A record should be maintained in the pilot's file which will indicate the date that these approaches were performed and the grade received. If these approaches (ADF, LF/MR range, VOR, and VAR) are not performed in a simulator or other approved type trainer, they should be accomplished on the proficiency flight.

(r) *Missed approach procedures.* (See par. (s) of this section.)

(s) *Traffic control procedures.* Missed approach procedures and traffic control procedures should be accomplished in a manner satisfactory to the authorized check pilot. The degree of satisfactory or unsatisfactory performance should be predicated on the pilot's ability to (1) maneuver the aircraft while performing these procedures, and (2) follow instructions either verbal or written which may be pertinent to the accomplishment of these procedures. Paragraphs (r) and (s) of this section may be accomplished while performing paragraph (q) of this section.

(t) *Cross-wind landing.* A cross-wind landing should be performed when practicable. Traffic conditions and wind velocities will dictate whether a cross-wind landing is practicable. Performance should be judged on the technique used in correcting for drift on final approach, judgment in the use of flaps, and directional control during roll-out.

(u) *Landing under regular approach conditions.* Landing under regular approach conditions will necessitate a path of flight around the landing area of not more than a 180° turn but not less than a 90° turn. The pilot should be judged on the basis of altitude and airspeed control and his ability to maneuver under the minimum ceiling and visibility conditions prescribed.

(v) *Take-offs and landings (with engine(s) failures).* If it is consistent with safety, traffic patterns, local rules and laws, a simulated engine failure should be experienced during take-off. The simulated failure should occur at any time after the aircraft has passed the V_1 speed pertinent to the particular take-off and when practicable before reaching 300 feet. When performing the landing, the aircraft should be maneuvered to a landing while utilizing 50 percent of the available power units. The simulated loss of power should be concentrated on one side of the aircraft. The pilot's ability to satisfactorily perform this maneuver should be evaluated in the manner stated under paragraph (i) of this section.

(w) *Judgment.* The pilot should demonstrate judgment commensurate with experience required of a pilot in command of air carrier aircraft.

(x) *Emergency procedures.* The emergency procedures should be applicable to the type of aircraft being flown and in accordance with the emergency procedures prescribed by the air carrier. A record should be maintained in the pilot's file which will list the emergency procedures accomplished, date performed, and grade received.

These policies shall become effective October 20, 1952.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 52–10304; Filed, Sept. 22, 1952; 8:45 a. m.]

[1] Paragraphs (l), (m), (n), (o), and (p) of this section should be accomplished in a satisfactory manner either (1) during a routine line check under the supervision of an authorized company check pilot, (2) in a simulated or synthetic trainer, or (3) during the proficiency flight. A record should be maintained in the pilot's file which will indicate the date, method utilized, and grade received in the performance of these items.

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

Correction

In F. R. Doc. 52–10095, appearing at page 8323 of the issue for Wednesday, September 17, 1952, the following change should be made:

"Section 601.2273" in item 24 and the section designation "§ 601.2273" should read "Section 601.2272" and "§ 601.2272", respectively.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5953]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

ALLIED WEAVERS OF AMERICA ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.55 *Demand or business opportunities;* § 3.60 *Earnings;* § 3.115 *Jobs and employment service;* § 3.205 *Scientific or other relevant facts;* § 3.240 *Special or limited offers.* Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 3.1935 *Earnings;* § 3.1995 *Job guarantee and employment;* § 3.2015 *Opportunities in product or service;* § 3.2061 *Scientific or other relevant facts;* § 3.2070 *Special offers, savings and discounts;* § 3.2080 *Terms and conditions;* § 3.2090 *Undertakings, in general.* In connection with the offering for sale, sale or distribution of courses of instruction in weaving in commerce, (1) representing that weaving is either easy to learn or to do; and representing directly or by implication, (2) that persons, irrespective of manual dexterity, general aptitude or practical experience, will become expert weavers upon completion of respondents' course; (3) that the earning potential of persons completing respondents' course is greater than said earning potential is in fact; (4) that any specified amount is charged for performing the type of weaving services taught by respondents when said amount is in excess of the charges usually and customarily made for said type of weaving; (5) that there is a great demand for persons who have completed respondents' course of instruction or representing in any manner that the opportunities for employment on the part of persons trained through respondents' course of instruction are greater than they are in fact; (6) that any of respondents' offers are limited or restricted in point of time when such offers are in fact not so limited or restricted; (7) that respondents assist persons who have completed their course in obtaining weaving work; or, (8) that the number of persons to whom any franchise or other similar instrument of authority or recognition will be conferred by respond-

ents is a limited number when such franchise or other instrument is given to all persons buying and completing such course; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Allied Weavers of America et al., San Francisco, Calif., Docket 5953, June 19, 1952]

In the Matter of Allied Weavers of America, a Corporation, and Walter E. Powell, and George Wallace, Individually and as Officers of Said Corporation

This proceeding was heard by John Lewis, hearing examiner, upon the Commission's complaint (the "notice" portion of which provided that the failure of said respondent to appear at the time and place therein fixed would be deemed to authorize the Commission and said examiner, without further notice, to find the facts to be as alleged in the complaint and to issue an order to cease and desist in the form set forth in said notice), and upon the hearing therein fixed.

Motion at said hearing before said examiner, theretofore duly designated by the Commission, by the attorney in support of the complaint, that the respondents be found in default, and for an entry of an order to cease and desist in the form set forth, as above noted, was granted, and the hearing thereupon closed.

Thereafter the proceeding regularly came on for final consideration by said examiner upon said complaint and motion, and said examiner, having duly considered the record and having found that the proceeding was in the interest of the public, and acting pursuant to Rules V and VIII of the Commission's rules of practice, made his initial decision comprising certain findings as to the fact,[1] conclusion drawn therefrom,[1] and order to cease and desist:

No appeal having been filed from said initial decision of said hearing examiner as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII became the decision of the Commission on June 19, 1952.

The said order to cease and desist is as follows:

It is ordered, That the respondents Allied Weavers of America, a corporation, and its officers, and Walter E. Powell and George Wallace, individually and as officers of said corporation, and said respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of courses of instruction in weaving in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing that weaving is either easy to learn or to do;

2. Representing directly or by implication that persons, irrespective of manual dexterity, general aptitude or practical experience, will become expert weavers upon completion of respondents' course.

3. Representing directly or by implication that the earning potential of persons completing respondents' course is greater than said earning potential is in fact.

4. Representing directly or by implication that any specified amount is charged for performing the type of weaving services taught by respondents when said amount is in excess of the charges usually and customarily made for said type of weaving.

5. Representing directly or by implication that there is a great demand for persons who have completed respondents' course of instruction or representing in any manner that the opportunities for employment on the part of persons trained through respondents' course of instruction are greater than they are in fact.

6. Representing directly or by implication that any of respondents' offers are limited or restricted in point of time when such offers are in fact not so limited or restricted.

7. Representing directly or by implication that respondents assist persons who have completed their course in obtaining weaving work.

8. Representing directly or by implication that the number of persons to whom any franchise or other similar instrument of authority or recognition will be conferred by respondents is a limited number when such franchise or other instrument is given to all persons buying and completing such course.

By "Decision of the Commission and order to file report of compliance", Docket 5953, June 17, 1952, which announced and decreed fruition of said initial decision, report of compliance with said order was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: June 17, 1952.

By the Commission.

[SEAL] D. C. DANIEL, *Secretary.*

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter II—Federal Housing Administration, Housing and Home Finance Agency

Subchapter C—Mutual Mortgage Insurance

PART 221—MUTUAL MORTGAGE INSURANCE; ELIGIBILITY REQUIREMENTS OF MORTGAGE COVERING ONE- TO FOUR-FAMILY DWELLINGS

DEFENSE PRODUCTION ACT OF 1950 CONTROLS

In § 221.31 *Defense Production Act of 1950 controls*, paragraph (a) is hereby amended to read as follows:

(a) For the period this paragraph remains in effect, and notwithstanding the provisions of § 221.16, a mortgage insured pursuant to an application received by the Commissioner on or after October 12, 1950, shall not be eligible for insurance unless the mortgagor establishes to the satisfaction of the Commissioner that prior to the insurance of the mortgage, the mortgagor has paid on account of the property, in cash or its equivalent, not less than the amount of required down payment prescribed by the Commissioner in the commitment for insurance; and a mortgage insured pursuant to an application received by the Commissioner on or after September 16, 1952, and covering property upon which there is located a dwelling designed principally for a single-family residence shall not involve a principal amount in excess of $14,000.

(Sec. 211, as added by sec. 3, 52 Stat. 22; 12 U. S. C. 1715b)

Issued at Washington, D. C., September 16, 1952.

PART 241—COOPERATIVE HOUSING INSURANCE; ELIGIBILITY REQUIREMENTS FOR PROJECT MORTGAGE

TEMPORARY LIMITATION UPON MAXIMUM AMOUNT OF MORTGAGE

In § 241.15a temporary limitation upon maximum amount of mortgage, paragraph (b) is hereby amended to read as follows:

(b) For the period this paragraph remains in effect, and notwithstanding the provisions of §241.4, the maximum ratio of loan to replacement cost limitation with respect to applications (including applications executed only by the mortgagor to obtain a certificate of eligibility) received by the Commissioner on or after January 12, 1951, shall be 90 percent, except that such limitation may be increased by reason of veteran membership as provided in §241.4, in which event such maximum ratio of loan to replacement cost limitation shall not exceed 95 percent and a mortgage insured pursuant to any such application shall not involve a principal amount for such part of the property or project as may be attributable to dwelling use in excess of the following:

(1) If the number of rooms in the project is less than 4 per family unit, not to exceed $7,200 per family unit, plus the increase, if any, by reason of veteran membership as provided in §241.4, but in any event not to exceed $7,650 per family unit; or

(2) If the number of rooms in the project equals or exceeds 4 per family unit, not to exceed $8,100 per family unit, plus the increase, if any, by reason of veteran membership as provided in §241.4, but in any event not to exceed $8,550 per family unit: *Provided*, That this paragraph shall not be applicable as to mortgages executed by a mortgagor of the character described in §241.16(a)(2).

(Sec. 211, as added by sec. 3, 52 Stat. 23; 12 U. S. C. 1715b. Interprets or applies sec. 114, Pub. Law 475, 81st Cong.)

TITLE 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

Subchapter A—Aid of Civil Authorities and Public Relations

PART 805—SAFEGUARDING MILITARY INFORMATION

Sections 805.31 to 805.40 and 805.51 to 805.61 (16 F. R. 12695; 32 CFR 805.31 to 805.61) are rescinded and the following new sections are added as follows:

INVESTIGATION AND CLEARANCE OF PRIVATE CONTRACTOR FACILITIES

Sec.
805.31 Policy.
805.32 Facility clearances.
805.33 Scope of facility clearance.
805.34 Facility denial.
805.35 Plant survey.
805.36 Central records.
805.37 Subcontractors.
805.38 Applicability to "restricted data."
805.39 Applicability to cryptographic material.
805.40 Prescribed forms.

INVESTIGATION AND CLEARANCE OF PRIVATE CONTRACTOR EMPLOYEES

805.51 Policy.
805.52 Responsibility.
805.53 Dissemination of classified information.
805.54 Investigations.
805.55 Clearances.
805.56 Waiver of certain clearance requirements.
805.57 Revocation of clearance.
805.58 Appeals from denials.
805.59 Central records.
805.60 Subcontractor employees.
805.61 Prescribed forms.

AUTHORITY: §§ 805.31 to 805.61 issued under R. S. 161, sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 22, 171a. Interpret or apply sec. 10, 44 Stat. 787; 10 U. S. C. 310.

DERIVATION: AFR's 205-17, 205-18.

INVESTIGATION AND CLEARANCE OF PRIVATE CONTRACTOR FACILITIES

§ 805.31 *Policy.* To assure the protection of classified security information, procurement activities and other interested activities of the Air Force that are authorized to release classified security information will insure that a prospective bidder or contractor has been granted a facility security clearance by one of the military departments prior to disclosing classified security information to such prospective bidder or contractor in connection with precontract negotiations or the performance of a contract.

§ 805.32 *Facility clearances.* (a) Facility security clearances are required for prospective bidders or contractors whenever access to security information classified higher than Restricted is involved, and whenever any officer, director, or owner of a facility is an alien and access to Restricted security information is involved. In addition, alien employees of a facility will not be permitted access to Restricted security information until they have been investigated and cleared in accordance with the provisions of §§ 805.31 to 805.40. The provisions of this section do not affect the requirement for a security agreement whenever any classified security information is involved, nor the requirement for an appropriate plant security survey in accordance with § 805.35.

(b) Facility security clearances, when required by paragraph (a) of this section, will be granted by major air commands concerned to prospective bidders or contractors: *Provided, That:*

(1) The officers, directors, owners and key employees who will require access to such classified security information in connection with precontract negotiations or preparation of bids are either United States citizens or aliens who have been lawfully admitted to the United States for permanent residence under immigration visas.

(2) Except as indicated in subparagraph (5) of this paragraph a check of the central records of the Federal Bureau of Investigation and the records of such other agencies as may be pertinent reveals no adverse information concerning:

(i) The facility.
(ii) Officers of the facility.
(iii) Directors of the facility.
(iv) Owners and key employees who will have access to classified security information.

(3) A check of the fingerprint files and subversive indexes of the Federal Bureau of Investigation reveals no adverse information concerning persons referred to in subparagraph (2) (ii) (iii) and (iv) of this paragraph.

(4) Sufficient investigation has been conducted to support a decision to grant or deny a security clearance, if the records reveal adverse information concerning persons referred to in subparagraph (2) of this paragraph.

(5) A background investigation has been completed if one of the persons referred to in subparagraph (2) of this paragraph is an alien and security information classified Secret or higher is involved.

(6) Persons referred to in subparagraph (1) of this paragraph have been issued letters of consent as necessary for access to classified security information.

(c) Subject to the conditions prescribed in paragraphs (a) and (b) of this section regarding aliens, security agreements, and surveys, major air commands concerned may grant interim facility security clearances for access to Confidential security information, sub-

ject to revocation if derogatory information is subsequently developed, pending completion of the required investigation and clearance.

(d) In those cases where a facility security clearance is not initially required under the provisions of §§ 805.31 to 805.40, and access to security information classified higher than Restricted is involved subsequent to the award of a contract, action will be taken to grant a clearance as prescribed in §§ 805.31 to 805.40, prior to disclosure of such information.

§ 805.33 *Scope of facility clearance.* A clearance accorded a facility for the purpose of precontract negotiations or preparation of bids, made in accordance with § 805.32, will also constitute a clearance of the facility for purposes of the award of a contract: *Provided, however,* That:

(a) Nothing contained in §§ 805.31 to 805.40 may be construed as authorizing the disclosure of classified security information by any means or in any form to a contractor, prospective contractor or prospective bidder, or any representative thereof. Policy prescribed in §§ 805.1 to 805.22, as supplemented by procedures prescribed in current directives, applies with respect to the approval or disapproval of all requests for classified security information and all proposals to release classified security information to private individuals, firms, corporations, or other non-governmental organizations.

(b) A facility security clearance will not be considered to dispense with the requirements of § 805.35 for adequate facilities for the protection of classified security information at the place or places where the contract will be performed.

(c) Clearance of contractor personnel will be required in the manner and to the extent provided by §§ 805.51 to 805.61.

§ 805.34 *Facility denial.* (a) Facility security clearances will not be granted when an officer or director of the firm or corporation or any owner who will have access to classified security information is found to be unsuited for access to classified security information under the following criteria: On all the evidence and information available, reasonable grounds exist for belief that the person:

(1) Has committed acts of treason or sedition, has engaged in acts of espionage or sabotage, has actively advocated or aided the commission of such acts by others, or has knowingly associated with persons committing such acts.

(2) Is employed by, or subject to the influence of, a foreign government under circumstances which may jeopardize the security interests of the United States.

(3) Has actively advocated or supported the overthrow of the Government of the United States by the use of force or violence.

(4) Has intentionally disclosed military information classified Confidential or higher without authority and with reasonable knowledge or belief that it may be transmitted to a foreign government, or has intentionally disclosed such information to persons not authorized to receive it.

(5) Is mentally or emotionally unstable, is a habitual offender of the law, or does not possess the integrity, discretion, and responsibility essential to the security of classified military information.

(6) Is, or recently has been, a member of, or affiliated or sympathetically associated with, any foreign or domestic organization, association, movement, group, or combination of persons which

(i) Is, or has been designated by the Attorney General as, totalitarian, fascist, communist, or subversive;

(ii) Has adopted, or has been designated by the Attorney General as having adopted, a policy of advocating or approving the commission of acts of force or violence to deny other persons their rights under the Constitution of the United States; or

(iii) Seeks, or has been designated by the Attorney General as seeking, to alter the form of the Government of the United States by unconstitutional means.

(b) When a denial appears justified, a copy of the report of investigation and any other evidence upon which the decision is predicated, together with appropriate recommendations, will be sent to the Army-Navy-Air Force Personnel Security Board for decision. A facility security clearance denied or revoked on security grounds other than those pertaining to the physical elements of security is appealable to the Industrial Employment Review Board. Security clearances for precontract negotiations need not be denied when a key employee is found to be unsuited for access to classified security information: *Provided,* That the employee concerned will not be given access thereto.

(c) In each instance, a copy of the recommendations forwarded to the Army-Navy-Air Force Personnel Security Board for denial of clearance will be forwarded to the Deputy Inspector General for Security, Headquarters United States Air Force, Washington 25, D. C.

(d) If the facility is foreign-owned or controlled to the extent that it may constitute a security risk, clearance will be denied in accordance with specific instructions on this subject.

(e) When any officer, director, owner, or key employee is found to be an alien in the United States under other than an immigration visa, military information will not be released or disclosed to the alien without the specific approval of the Director of Intelligence, Headquarters United States Air Force.

§ 805.35 *Plant survey.* (a) In addition to requirements concerning facility security clearances, the award of a contract involving classified security information will be subject to an appropriate security survey of the plant, shop, laboratory, or place at which work under the contract will be performed to determine whether adequate facilities are available for protecting classified security information that will be released to or developed by the contractor, so far as can be anticipated at the time of the survey. Commanders concerned will conduct such formal or informal surveys as they deem proper, according to the security classification, nature, or volume of classified security information that will require physical protection. Whenever practicable, however, and time permits, a complete security survey will be conducted and DD Form 374, Plant Security Survey Report, will be used.

(b) When a security survey reveals inadequate facilities for the protection of the classified security information, the award of a contract involving classified security information will be withheld pending satisfactory completion of negotiations for the correction of the deficiencies. Responsibility for assuring compliance by the prospective contractor when agreements for the installation of security measures have been reached in such cases will rest with the commander concerned.

§ 805.36 *Central records.* Facilities cleared or denied clearance for precontract negotiations or for the award of contracts involving classified security information will be recorded, as will personnel cleared or denied clearance for access to classified security information. Record thereof, together with copies of security surveys and security agreements, will be forwarded promptly to the Central Index Files, Army-Navy-Air Force Personnel Security Board, c/o Provost Marshal General, Washington 25, D. C., where they will be maintained in such a way that information concerning the status of such facilities and persons is immediately available to all procurement activities of the Department of Defense.

§ 805.37 *Subcontractors.* The policies contained in §§ 805.31 to 805.40 pertaining to contractors are equally applicable to subcontractors.

§ 805.38 *Applicability to "restricted data."* The policies contained in §§ 805.31 to 805.40 will apply to "restricted data" as defined in the Atomic Energy Act of 1946 (60 Stat. 755; 42 U. S. C. 1801–1819), bearing military classifications, subject to the following additional specific requirements and limitations:

(a) A complete National Agency Check is required beforehand concerning all officers, directors, owners, and all key employees who will have access to classified security information if the security information involved is classified Top Secret, Secret, or Confidential.

(b) In addition, if one of the persons referred to in paragraph (a) of this section is an alien, a background investigation of such alien is required before he may have access to the classified security information described.

(c) With respect to security information classified Restricted, a National Agency Check will be made of the persons referred to in paragraph (a) of this section if one of them is an alien, except that only such alien key employees who must have access to the classified security information need be checked.

(d) The granting of Atomic Energy Commission "Q" clearances for access to "restricted data" in the possession of contractors or contractors' employees of the Atomic Energy Commission is governed by current directives.

§ 805.39 *Applicability to cryptographic material.* The policies contained in §§ 805.31 to 805.40, except § 805.38, will apply with respect to contracts involving research, development, or production of classified cryptographic equipment or other classified cryptographic material, subject to all of the following additional requirements and limitations.

NOTE: In view of the extremely sensitive information involved, the disclosure of the actual details of cryptographic information to bidders or prospective bidders is not anticipated.

(a) Whenever time permits, a background investigation will be conducted in advance on all officers, directors, owners, and key employees who will have access to the classified security information.

(b) If time does not permit the completion of background investigations, at least a complete National Agency Check is required beforehand concerning all persons referred to in paragraph (a) of this section.

(c) All officers, directors, and owners, and all key employees who must be granted access to the classified security information, must be eligible for access to cryptographic matter under criteria prescribed in current directives.

(d) If all persons referred to in paragraph (c) of this section are eligible for access to cryptographic matter, and the results of the investigations of all such persons and the facility are satisfactory, cryptographic clearances may be granted such personnel by the commander concerned, letters of consent for contractor personnel to have access to classified cryptographic information may be issued (see §§ 805.51 to 805.61), and the necessary disclosure of information may be made.

(e) A decision of the commanding general of the major air command concerned not to award a contract involving access to classified cryptographic information due to security limitations prescribed by this section is not appealable under the provisions of §§ 805.31 to 805.40.

§ 805.40. *Prescribed forms.* The following Department of Defense forms are prescribed for use as indicated below:

(a) *Central Security Index File Check, DD Form 555.* A request for information from the Central Index Files concerning the security clearance status of contractors, prospective contractors, and individuals may be submitted on DD Form 555, Central Security Index File Check.

(b) *Requests for investigations.* The following forms are prescribed for requesting investigations, including the number of copies of each form to accompany each request:

(1) Five copies of DD Form 48, Personnel Security Questionnaire, will be completed by all United States citizens who are subject to investigation.

(2) Five copies of DD Form 49, Alien Questionnaire, will be completed by all aliens who are subject to investigation.

(3) One Applicant Fingerprint Card (Number 16–63416–1) will be completed for all persons subject to investigation. National Defense Program fingerprint cards may be used until present supplies are exhausted.

(c) *Plant Security Survey Report, DD Form 374.* One copy of DD Form 374, Plant Security Survey Report, referred to in § 805.35 will be forwarded to the Central Index Files.

(d) *Notification of Facility Security Clearance, DD Form 562.* One copy of DD Form 562, Letter of Notification of Facility Security Clearance, will be furnished each facility upon granting facility clearance.

(e) *Letters of Consent for Employees, DD Form 560 and DD Form 561.* One copy of DD Form 560, Letter of Consent for United States Citizens, or DD Form 561, Letter of Consent for Aliens, as appropriate, will be furnished a facility as notification that a letter of consent for an employee has been granted.

(f) *Central Security Index File-Facility, DD Form 265.* A record of facility clearance action will be sent to the Central Index Files on DD Form 265, Central Security Index File-Facility. The fact that a fingerprint check has been conducted also will be reflected on the form.

(g) *Central Security Index File-Personnel, DD Form 264.* A record of personnel clearance action will be sent to the Central Index Files on DD Form 264, Central Security Index File-Personnel. The fact that a fingerprint check has been conducted also will be reflected on the form.

INVESTIGATION AND CLEARANCE OF PRIVATE CONTRACTOR EMPLOYEES

§ 805.51 *Policy.* To minimize the security risk incident to the handling of classified security information by Air Force contractor employees, it is essential that the loyalty, integrity, and trustworthiness of the personnel specified in §§ 805.51 to 805.61 be established by investigation.

§ 805.52 *Responsibility.* (a) The Department of the Air Force is responsible for investigating and clearing Air Force contractor personnel in accordance with the provisions of §§ 805.51 to 805.61. A clearance granted as prescribed herein constitutes an administrative determination that the employment of such a person in the manner proposed will not be inimical to the interests of the United States, and it will be evidenced by the issuance of an appropriate letter of consent as prescribed in § 805.61. However, a letter of consent issued on DD Forms 560 or 561 by activities of the Departments of the Army or Navy will be accepted by the Air Force commander concerned as authority for the same contractor to employ the same person on Air Force contracts without additional clearance action, unless additional investigative action is necessary to meet the requirements of §§ 805.51 to 805.61. Further, a letter of consent issued by activities of the Department of the Army or Navy should be accepted as a basis for the issuance of a letter to another contractor for employment of the same person on Air Force contracts: *Provided,* That the commander concerned determines that it is not necessary to request that the previous investigation be brought up to date: *And provided,* That no additional investigative action is necessary to meet the requirements of §§ 805.51 to 805.61.

(b) Commanders concerned are responsible for taking appropriate action to prevent the disclosure of classified security information to persons referred to in §§ 805.51 to 805.61 until the prescribed clearances have been granted.

§ 805.53. *Dissemination of classified information.* Nothing contained in §§ 805.51 to 805.61 may be construed as authorizing the dissemination or disclosure of any classified security information in any form to employees or other representatives of contractors, prospective contractors, or prospective bidders. Policy prescribed in §§ 805.1 to 805.22 as supplemented by procedures prescribed in current directives applies with respect to all requests for classified security information and all proposals to release classified security information to contractors, prospective contractors, prospective bidders, and their employees or other representatives.

§ 805.54 *Investigations.* Air Force contractor employees in the following categories will be investigated as indicated:

(a) For United States citizens whose duties or employment in connection with the performance of a contract will involve access to any security information classified Top Secret or to cryptographic information classified Secret, Confidential, or Restricted, a background investigation will be conducted.

(b) For United States citizens whose duties or employment in connection with the performance of a contract will involve access to "restricted data," as defined in the Atomic Energy Act of 1946 (60 Stat. 755; 42 U. S. C. 1801–1819), that is classified Secret or Confidential, or to other security information classified Secret, except cryptographic information, a National Agency Check will be conducted.

(c) For aliens whose duties or employment in connection with the performance of a contract will involve access to any classified security information, a background investigation will be conducted. (As used in §§ 805.51 to 805.61 the term "alien" applies only to those aliens who are in the United States under an immigration visa for permanent residence.)

(d) For contractor employees whose duties or employment in connection with the performance of a contract will involve access to Confidential or Restricted security information, investigation and clearance are not required, except as prescribed in paragraphs (a), (b), (c), and (e) of this section.

(e) The provisions of §§ 805.51 to 805.61 are not intended to preclude investigation of contractor personnel not otherwise provided for herein when there is any evidence that the continued employment of these persons constitutes a security risk.

§ 805.55 *Clearances.* (a) *General.* Except for clearances provided in para-

graphs (d) and (e) of this section, upon completion of the required investigations as prescribed in § 805.54, major air commanders concerned may grant personnel security clearances by issuance of a letter of consent to the contractor involved. In the case of United States citizens referred to in paragraph (a) of § 805.54, a letter of consent may be issued based on favorable results of a National Agency Check pending completion of the required background investigation. In the case of aliens referred to in paragraph (c) of § 805.54, a letter of consent may be issued for access to "restricted data" classified Restricted or other security information classified up to and including Confidential, based on favorable results of a National Agency Check, pending completion of the required background investigation. In all instances, letters of consent are subject to revocation if derogatory information within the meaning of the criteria established for the Industrial Employment Review Board (see § 805.34 (a)) is subsequently developed.

(b) *Military clearances for "Restricted Data."* Letters of consent issued pursuant to paragraph (a) of this section, to authorize the employment of persons on duties requiring access to security information classified Top Secret, Secret, Confidential, or Restricted, will also constitute authority for the employment of the same persons on duties requiring access to atomic energy "restricted data" of like military security classification, except as indicated in paragraph (d) of this section. Letters of consent issued in accordance with the provisions of §§ 805.51 to 805.61 will not include any reference to atomic energy "restricted data."

(c) *Denial of clearances.* Except as authorized in paragraph (e) of this section, Air Force activities will not initially deny personnel security clearances to contractor employees. Whenever a denial appears justified, a copy of the report of investigation and any other evidence upon which the decision is predicated will be forwarded, with appropriate recommendations, to the Army-Navy-Air Force Personnel Security Board for decision. In each instance, a copy of the recommendations forwarded to the Army-Navy-Air Force Personnel Security Board for denial of clearance will be forwarded to the Deputy Inspector General for Security, Headquarters United States Air Force, Washington 25, D. C.

(d) *"Q" clearances for "restricted data."* The granting of Atomic Energy Commission "Q" clearances for access to "restricted data" in the possession of contractors or contractors' employees of the Atomic Energy Commission is governed by current directives. Denials or revocation of "Q" clearances are not appealable under the provisions of §§ 805.51 to 805.61.

(e) *Cryptographic clearances.* (1) A cryptographic clearance is required before a letter of consent may be issued for any person to have access to classified cryptographic information in connection with a contract involving research, development, or production of classified cryptographic equipment or other classified cryptographic material.

(2) Whenever time permits, a background investigation will be conducted in advance on all individuals who will have access to the classified security information referred to in subparagraph (1) of this paragraph.

(3) If time does not permit the completion of background investigations, at least a complete National Agency Check will be conducted in advance before such persons may be granted access to the classified security information involved.

(4) Only such persons as are eligible for access to cryptographic matter under criteria prescribed in current directives may be granted crytographic clearances.

(5) If a person referred to in subparagraph (1) of this paragraph, is eligible for access to the classified cryptographic information specified, and the results of the investigation of such person are satisfactory, a cryptographic clearance may be granted and a letter of consent issued. Only an interim clearance may be granted if the investigation completed is only a National Agency Check.

(6) Letters of consent which are based on a cryptographic clearance will include a notation to that effect.

(7) Denials or revocations of cryptographic clearances are not appealable under §§ 805.51 to 805.61.

(f) *Employees of colleges and universities.* In addition to other clearances prescribed in this section, commanders concerned are responsible for granting clearances and issuing letters of consent for the employment by colleges and universities of persons on duties requiring access to information classified Confidential or Restricted, pursuant to the provisions of current directives.

(g) *Unclassified information.* Appropriate letters of consent may be issued by major air commanders concerned, to contractors involved, for alien employees requiring access to unclassified matter described in section 10 (j), act of July 2, 1926 (44 Stat. 787; 10 U. S. C. 310 (j)). Consent will not be granted unless, after full consideration of the evidence presented, it is determined that the employment of such person in the manner proposed will not be inimical to the interests of the United States. When a denial is indicated, the provisions of paragraph (c) of this section will govern. Normally, a review of DD Form 49 should be sufficient.

§ 805.56 *Waiver of certain clearance requirements.* (a) Except for atomic energy "restricted data" and cryptographic information, commanders of major air commands concerned are authorized to modify clearance requirements for Air Force contractor employees, except aliens, who require access to Secret matter, pending completion of National Agency Checks, when considered necessary for the performance of contracts. Such action will not be taken, however, unless after full consideration of the evidence presented (DD Form 48, with personnel reports of contractors or other similar data, such as that obtainable from local sources), it is determined that such access will not be inimical to the security interests of the United States. In arriving at decisions to modify clearance requirements, the criteria referred to in § 805.55 (a) should be applied. Further, letters of consent should be issued when favorable action is taken pursuant to the provisions of this paragraph, subject to revocation if derogatory information is subsequently developed.

(b) In connection with the authority to modify clearance requirements as indicated in paragraph (a) of this section it is not intended that contractors should be compelled to furnish personnel reports. However, when personnel reports or other similar data are not available, action to modify clearance requirements will not be taken.

§ 805.57 *Revocation of clearance.* Except as authorized in § 805.55 (e), when a letter of consent has been issued, it will not be revoked, except in an emergency, until authorization therefor has been obtained from the Army-Navy-Air Force Personnel Security Board. An emergency is defined as any situation in which failure to act until the above authorization has been obtained presents a serious threat to the security interests of the United States. In arriving at decisions to revoke letters of consent, the criteria referred to in § 805.55 (a) should be applied. In each instance, a copy of the recommendations forwarded to the Army-Navy-Air Force Personnel Security Board for revocation of a letter of consent (clearance) will be forwarded to the Deputy Inspector General for Security, Headquarters United States Air Force.

§ 805.58 *Appeals from denials.* Any contractor employee who has been denied a personal security clearance or whose clearance has been revoked will be advised of his right of appeal in accordance with established policy on this subject. (This does not apply to cryptographic clearances or to Atomic Energy Commission "Q" clearances.)

§ 805.59 *Central records.* (a) Immediately upon the granting of a clearance of contractor employees, DD Form 264, Central Security Index File-Personnel, will be completed and promptly sent to the Central Index Files, Army-Navy-Air Force Personnel Security Board, c/o Provost Marshal General, Washington 25, D. C. The fact that a fingerprint check has been conducted will be reflected on the form.

(b) When a clearance is denied, or a letter of consent revoked, a statement to that effect will be sent to the Central Index Files in addition to the other information required in paragraph (a) of this section. Periodically, a list of such denials will be made available to major air commands concerned.

§ 805.60 *Subcontractor employees.* The policies contained in §§ 805.51 to 805.61 pertaining to contractor employees are equally applicable to employees of subcontractors.

§ 805.61 *Prescribed forms.* The following Department of Defense forms are prescribed for the uses indicated:

(a) *Central Security Index File Check, DD Form 555.* A request for information from the Central Index Files concerning the security clearance status of contractors, prospective contractors, and individuals may be submitted on DD Form 555, Central Security Index File Check.

(b) *Investigative forms.* The following forms are prescribed for requesting investigations, including the number of copies of each form which will accompany each request:

(1) Five copies of DD Form 48, Personnel Security Questionnaire, will be completed by all United States citizens who are subject to investigation by reason of employment on Department of the Air Force contracts.

(2) Five copies of DD Form 49, Alien Questionnaire, will be completed by all aliens who are subject to investigation by reason of employment on Department of the Air Force contracts, and, in the case of contracts for furnishing or constructing aircraft, aircraft parts, and aeronautical accessories, by all aliens who require access to the plans or specifications, or to the work under construction, or who participate in the contract trials, whether or not access to classified security information is involved.

(3) One Applicant Fingerprint Card (Number 16–63416–1) will be completed for all persons subject to investigation by reason of employment requiring access to classified security information. The National Defense Program Fingerprint Cards may also be used until present supplies are exhausted.

(c) *Letters of Consent for Employees, DD Form 560 and DD Form 561.* One copy of DD Form 560, Letter of Consent for United States Citizens, or DD Form 561, Letter of Consent for Aliens, as appropriate, will be furnished a facility as notification that a letter of consent for an employee has been granted.

(d) *Central Security Index File-Personnel, DD Form 264.* A record of personnel clearance action will be sent to the Central Index Files on DD Form 264, Central Security Index File-Personnel, as prescribed in § 805.59.

[SEAL] K. E. THIEBAUD,
Colonel, U. S. Air Force,
Air Adjutant General.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 51, Amdt. 6]

CPR 51—FOOD PRODUCTS SOLD IN PUERTO RICO

NEW PRICES FOR THE SALE OF CODFISH

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 6 to Ceiling Price Regulation 51, is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to Ceiling Price Regulation 51 establishes new ceiling prices for the sale of salted codfish in Puerto Rico at all levels of distribution.

About 95 percent of the codfish consumed in Puerto Rico is imported from Newfoundland, under contracts extending from July 1 to June 30 of the succeeding year. The present contract with the Newfoundland Association of Fish Exporters Ltd., otherwise known as NAFEL, expired on June 30, 1952. Under suppliers' present asking prices and at existing ceiling prices, Puerto Rico importers of codfish will not be enabled to receive margins equivalent to those received by them in the pre-Korea period. The increase in ceiling price to importers and in turn of the ceiling price at wholesale and retail should enable these importers to continue to import the codfish and at the same time receive their normal markups in accordance with section 402 (k) of the Defense Production Act. This amendment increases the ceiling prices of codfish by $1.20 per hundredweight for sales by importers to wholesalers, by $1.30 per hundredweight for sales at wholesale and by 1½ cents per pound for sales at retail.

In formulating this amendment, the Director has consulted with the Industry Advisory Committee for Codfish to the fullest extent practicable prior to the issuance of this amendment and has given due consideration to its recommendations. In the judgment of the Director, this amendment is necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

Paragraph (b) of section 2.1 of Ceiling Price Regulation 51 is amended to read as follows:

(b) *Ceiling prices.* Ceiling prices for salted codfish are established as follows:

Salted codfish:	
Sales to wholesalers (per 100 pounds)	$19.50
Sales at wholesale (per 100 pounds)	20.50
Sales at retail:	
1 pound	.24
2 pounds	.47

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 6 to Ceiling Price Regulation 51 is effective September 19, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

SEPTEMBER 19, 1952.

Chapter IV—Salary and Wage Stabilization, Economic Stabilization Agency

Subchapter A—Salary Stabilization Board

[Interpretation 3, Revised]

INT. 3—PROFIT SHARING AND OTHER BONUSES UNDER GENERAL SALARY STABILIZATION REGULATION NO. 2, AS AMENDED

GENERAL

0.01 Q. Does the Bonus Regulation issued by the Salary Stabilization Board differ from the bonus regulation issued by the Wage Stabilization Board?

A. Yes, because of the substantial differences in custom and general practice in bonus payments to management employees as distinguished from production workers.

SECTION 1

1.01 Q. To what types of bonuses does the Bonus Regulation apply?

A. The Bonus Regulation applies primarily to bonuses based on profit sharing.

The Bonus Regulation applies whether the bonuses are paid directly to employees or under a profit-sharing plan or into a fund or trust. The profit-sharing plan or trust may, but need not, be one approved by the Bureau of Internal Revenue under section 165 of the Internal Revenue Code. Such a profit-sharing plan or trust does not necessarily give rise to contractual bonuses under section 3 of the Regulation (see 3.09).

The Bonus Regulation also applies to bonuses customarily paid on holidays, at the end of the employer's fiscal or calendar year, at vacation time or on similar occasions. However, paid vacations are not within the scope of the Bonus Regulation; to the extent that such paid vacations were a practice of the employer in effect on January 25, 1951, they may represent an auxiliary pay practice authorized by section 91 of General Salary Stabilization Regulation 1, Amended.

Christmas or year-end bonuses may, at the employer's election, be paid to the extent permitted under either the Bonus Regulation or any special regulation, order or interpretation made applicable to 1952. If paid under Interpretation 2, bonuses of a similar nature paid in prior years may not be included as part of the "base period bonus fund" provided for by the Bonus Regulation.

1.02 Q. Does the Bonus Regulation apply to a bonus paid for the successful performance of an important assignment, such as the successful completion of a series of especially newsworthy articles?

A. Yes, provided the employer has a bonus fund available under the Regulation.

1.03 Q. Are there bonuses to which the Bonus Regulation does not apply?

A. Yes. The Bonus Regulation does not apply to bonuses which are directly related to hours worked, such as bonuses for overtime or work on Saturdays, Sundays, or holidays. The Bonus Regulation does not apply to bonuses based on units

produced, such as incentive bonuses of the type often paid to wage earners.

The Bonus Regulation also does not apply to bonuses that are both computed and paid more often than every three months (see 1.05 and 1.06).

The Bonus Regulation also does not apply to new profit-sharing and other bonuses authorized by General Salary Order 12 or new deferred profit-sharing or stock bonus plans and trusts which may be put into effect under General Salary Stabilization Regulation 6, as amended.

1.04 Q. Are salesmen's commissions considered bonuses within the Bonus Regulation?

A. No. Salesmen's commissions are not bonuses within the Regulations, but are a distinct method of paying salesmen their basic compensation, which has been made the subject of a separate regulation. On the other hand, a bonus paid to a department store or branch manager based on a percentage of profits is a profit-sharing bonus within the provisions of the Bonus Regulation.

1.05 Q. Does the Bonus Regulation apply to a bonus that is computed each month but paid only once a year?

A. Yes. Only bonuses which are both computed and paid more frequently than every three months are excluded from the provisions of the Bonus Regulation.

1.06 Q. A company has had a practice of computing and setting aside 5 percent of its net profits after the close of each calendar year and paying such profits to employees in monthly installments. Does the Bonus Regulation apply to these profit-sharing bonuses?

A. Yes. Even though the bonuses are paid in monthly installments, they are computed only once a year.

1.07 Q. Is severance pay covered by the Bonus Regulation?

A. No. Severance pay constitutes an auxiliary pay practice governed by the provisions of other salary stabilization regulations.

1.08 Q. How are bonuses classified under the Bonus Regulation?

A. The Bonus Regulation classifies bonuses as follows:

(1) Contractual bonuses which are paid pursuant to a contract or established plan under which both computation and allocation are predetermined (section 3);

(2) Bonuses paid pursuant to an established plan under which allocation is of a discretionary nature (section 4);

(3) Discretionary bonuses under which both computation and allocation are of a discretionary nature (section 5).

The Bonus Regulation treats bonuses in the first category differently from those in the second and third categories; bonuses in the second and third categories are, generally speaking, treated in a similar manner.

1.09 Q. Under the Bonus Regulation, must a bonus be paid in cash?

A. No. Bonuses may be paid in cash or in property, such as stock of the employing corporation or of another corporation, government bonds, or any other property.

1.10 Q. How should the amount of bonus paid in stock or other property be determined for the purpose of the Regulation?

A. By determining the fair market value of the stock or property at the time of its award (see 2.05).

1.11 Q. Under a profit-sharing plan bonuses have historically been paid 50 percent in cash and 50 percent in stock. May the bonus this year be paid 75 percent in cash and 25 percent in stock?

A. Yes. Provided the total bonus does not exceed the total amount allowable under the Bonus Regulation.

SECTION 2

2.01 Q. Does the Bonus Regulation establish a dollar ceiling on bonuses?

A. Yes. The Bonus Regulation establishes a dollar ceiling upon all bonuses other than contractual bonuses, which are separately treated in the Bonus Regulation.

For bonuses paid under either section 4 or section 5, the employer is given two general alternatives in computing his dollar ceiling:

(1) The employer can base current bonus payments on the total bonuses paid for the calendar year 1950. If the employer elects this alternative and paid bonuses totaling $50,000 for the calendar year 1950, the sum of $50,000 is his ceiling.

(2) The Bonus Regulation recognizes that the year 1950 may not have been typical for certain companies. Accordingly, it gives the employer the alternative of selecting three years from the five calendar years 1946 to 1950 and taking the average of the total bonuses paid in the three years thus selected.

EXAMPLE: The employer paid bonuses as follows:

1946	$35,000
1947	60,000
1948	45,000
1949	55,000
1950	50,000

The total bonuses for the three highest years (1947, 1949 and 1950) amount to $165,000, producing an annual average of $55,000. This annual average is higher than the 1950 bonus of $50,000, and the employer may treat the sum of $55,000 as his ceiling.

The ceiling under either alternative selected by the employer is called the "base period bonus fund".

2.02 Q. If an employer did not distribute a bonus in 1950, may he nevertheless distribute a bonus in 1951?

A. Yes, provided that a bonus was paid in at least one out of the four years 1946, 1947, 1948 and 1949. If he paid a bonus in only one of these four years, his bonus ceiling is one-third of the bonus paid in that one year. If he paid a bonus in only two of these years, his bonus ceiling is one-third of the total bonuses paid in these two years.

2.03 Q. May an employer who was limited in the distribution of discretionary bonuses in 1950 or other years since 1946, due, for example, to a restrictive agreement with the Reconstruction Finance Corporation, or another lending institution, increase his bonus ceiling when the restriction is removed?

A. No.

2.04 Q. To what extent is the employer bound by his selection of either alternative in computing the bonus ceiling?

A. The employer is bound by his selection for the purpose of all other determinations under the Bonus Regulation, including the determination of the highest single bonus paid by the employer for the purpose of sections 4 and 5, and the determination of increases or decreases in the bonus group under section 6. All such determinations must be made on the basis of the year or years used in computing the base period bonus fund.

2.05 Q. How is property distributed as a bonus valued for the purpose of determining the bonus ceiling?

A. Property distributed as a bonus should be valued at its fair market value as of the time of the bonus award. Valuation practices acceptable under the Internal Revenue Code may be followed in making such valuations. However, a past practice which has been consistently followed prior to January 25, 1951, should be continued; for example, if common stock is awarded as a bonus and, according to past practice, has been valued at its average market value over a particular period, such practice should be followed under the Regulation.

2.06 Q. If an annuity is awarded as a bonus, how should the annuity be valued?

A. The amount of the premium paid for the annuity by the employer on behalf of the employee represents the value of the bonus under the Bonus Regulation.

2.07 Q. What is meant by bonuses "payable with respect to the calendar year 1950"?

A. Many companies follow the practice of paying bonuses for a particular year after the close of that year. It would have been inequitable to permit some companies to use 1950 profits to compute their bonus ceiling because such companies happened to pay 1950 bonuses in 1950 while not permitting other companies to use 1950 profits for the purpose of their bonus ceiling because such companies, in accordance with their normal practice of paying bonuses for one year after the close of that year, had not paid 1950 bonuses prior to January 25, 1951, the stabilization date. On the other hand, companies could not be permitted to determine their 1950 bonuses, subsequent to issuance of the Bonus Regulation, for any such permission would be wholly inconsistent with stabilization objectives. The Bonus Regulation was issued on August 17, 1951 and it was assumed that companies which normally paid bonuses for 1950 after the close of that year would long before the issuance of the Bonus Regulation have made their bonus determinations and awards subject only to the approval of stabilization authorities.

In view of the foregoing, bonuses "payable with respect to the calendar year 1950" are construed to mean bonuses which are:

(1) Payable as compensation for services rendered during 1950, and

(2) Payable entirely out of profits earned in 1950, and

(3) Determined and fixed in amount prior to August 17, 1951, and which would have been paid prior to August 17, 1951, but for wage or salary stabilization.

Any employer paying 1950 bonuses in 1951 must maintain records sufficient to establish that such bonuses comply with each of the foregoing requirements. Profit and loss statements, balance sheets, annual reports, income tax returns, and substantiating entries in the employer's books will be considered relevant. The amendment subsequent to August 17, 1951, of income tax or other returns to reflect increased bonuses will be deemed prima facie evidence that such bonuses were not determined and fixed in the manner contemplated by the Bonus Regulation and bonuses paid under such circumstances may be deemed a violation of the Bonus Regulation.

2.08 Q. What is meant by bonuses payable with respect to three years selected by the employer out of the five calendar years from 1946 to 1950?

A. Bonuses paid with respect to each such year after the close of that year as compensation for services rendered during that year and paid entirely out of that year's profits. If the year 1950 is included among the three base years, such bonuses must have been both fixed in amount and determined prior to August 17, 1951 (see 2.07).

2.09 Q. How may an employer on a fiscal year basis, whose fiscal year ends after January 31, compute his base period bonus fund?

A. For the purpose of computing his base period bonus fund, an employer with a fiscal year ending after January 31 may use only bonus payments made during the calendar year 1950 or one-third of the total bonus payments paid during any three calendar years selected from the five calendar years 1946 through 1950. An employer on such a fiscal year basis may not include bonuses that were not actually paid on or before December 31, 1950.

EXAMPLE: A profit-sharing plan provides that 10 percent of net profits shall be placed in a bonus fund with selection of participants in the bonus fund discretionary. The company's fiscal year expires on June 30. In September 1950 the company paid into the bonus fund and thereafter paid out $50,000, representing 10 percent of its net profits of $500,000 for the fiscal year ending June 30, 1950. The company's net profits for July through December 1950 (the first 6 months of the company's fiscal year ending June 30, 1951) amounted to $750,000. However, no part of such profits was distributed to employees. The company's ceiling amounts to $50,000 and the company may not increase such ceiling by adding 10 percent of the net profits during the last 6 months of 1950. If the employer had distributed a part of the July–December 1950 profits in 1950, such part may be added to the ceiling.

2.10 Q. An employer's fiscal year ends January 31. Since 1947 he has had a profit-sharing plan including a formula providing for a percentage of net profits to be placed in a bonus fund for key executives, with selection of participants and their share in the bonus fund discretionary with the employer. How should the employer compute his base period bonus fund for the purpose of determining bonuses payable with respect to the fiscal year ending January 31, 1952?

A. The employer may apply the bonus fund formula to eleven-twelfths of the net profits for the fiscal year ending January 31, 1951, and to one-twelfth of net profits for the fiscal year ending January 31, 1950.

The total so computed constitutes the employer's base period bonus fund which he may not exceed in determining bonuses payable with respect to the fiscal year ending January 31, 1952.

In the alternative, the employer may use as his base period bonus fund one-third of the total bonuses paid in or with respect to any three out of the four fiscal years ending January 31, 1947, January 31, 1948, January 31, 1949, and January 31, 1950, or one-third of the total bonuses paid in any three out of the five calendar years 1946 to 1950 inclusive.

EXAMPLE: The fiscal year of a department store expires on January 31. Its net profits for the fiscal year ending January 31, 1950, were $120,000 and for the fiscal year ending January 31, 1951, were $180,000. The company has had a profit-sharing plan providing for a five (5) percent bonus fund. The company may use as its base period bonus fund the sum of $8,750, computed as follows:

1/12 of $120,000 equals	$10,000
5 percent of $10,000 equals	$500
11/12 of $180,000 equals	165,000
5 percent of $165,000 equals	8,250
1950 base period bonus fund	8,750

The $8,750 figure is the employer's base period bonus fund for the fiscal year ending January 31, 1952, and any future fiscal year.

2.11 Q. An employer has a fiscal year ending January 31. At the close of each year he has paid bonuses on a wholly discretionary basis without a bonus fund. How should the employer compute his base period bonus fund?

A. An employer may determine the percentage which the total of all bonuses distributed in or with respect to the fiscal year ending January 31, 1950, bears to the net profits for that fiscal year. The percentage thus obtained may be applied to eleven-twelfths of the net profits for the fiscal year ending January 31, 1951, and to one-twelfth of the net profits for the fiscal year ending January 31, 1950. The total so computed constitutes the employer's base period bonus fund in or with respect to the calendar year 1950 which he may not exceed in determining bonuses payable with respect to the fiscal year ending on January 31, 1952.

EXAMPLE: The fiscal year of a department store expires on January 31. The company has paid bonuses on a purely discretionary basis and without a bonus fund. With respect to the fiscal year ending January 31, 1950, the company paid bonuses totaling $6,000 and had profits totaling $120,000. In the fiscal year ending January 31, 1951, the company's profits were $180,000. The company may use as its base period bonus fund the sum of $8,750 computed as follows:

The percentage which $6,000 bears to $120,000 is 5 percent:

5 percent of $120,000 equals	$6,000
1/12 of $6,000 equals	$500
5 percent of $180,000 equals	9,000
11/12 of $9,000 equals	8,250
1950 base period bonus fund	8,750

The $8,750 figure is the employer's base period bonus fund for the fiscal year ending January 31, 1952, and any future fiscal year.

2.12 Q. What is the basis for the interpretation given in paragraphs 2.10 and 2.11 to the general rule?

A. The interpretation given in paragraphs 2.10 and 2.11 is based on the consideration that, with regard to the fiscal year ending January 31, 1951, only six days of the entire fiscal year postdate the stabilization date of January 25, 1951. The same consideration does not apply in the case of fiscal years expiring after January 31.

SECTION 3

3.01 Q. What is a contractual bonus?

A. A contractual bonus is a bonus payable under a contract or a corporate instrument, such as a by-law, or under an established plan, in effect on January 25, 1951, providing a method or formula for both the computation of the bonus fund and for its allocation in a fixed or specific manner among ascertainable employees. Such a definite share in the profits is considered part of the rate of compensation that the employee was receiving on January 25, 1951, and which he may continue to receive.

EXAMPLE: A corporate by-law provides that 7½ percent of the company's net profits shall be set aside for the president and four vice presidents, the president to receive 2½ percent and each of the four vice presidents to receive 1¼ percent. The by-law is considered as fixing a rate of compensation for the designated employees which includes the stated percentage of profits. The Bonus Regulation allows payment of such percentage compensation to continue.

3.02 Q. Is there a limitation on contractual bonuses?

A. The limitation on contractual bonuses is on the method or formula for computing the bonus. There is no dollar ceiling and the amount payable pursuant to such an arrangement may continue to be paid irrespective of variations in amount, but no increase in payments may be made as a result of a change, subsequent to January 25, 1951, in the method or formula of computing the bonus.

3.03 Q. What kind of changes in contractual bonuses are prohibited under the Bonus Regulation?

A. If a contract between an employing corporation and its president in effect on January 25, 1951, provides for the payment of a fixed salary plus 2½ percent of the net profits after taxes, the contract may not now be changed to increase the percentage of profits payable to the president from 2½ to 3½ percent. Similarly, the contract may not now be changed to compute the share of profits before taxes or to eliminate depreciation as an expense item in the computation of his share of the profits if depreciation had previously been treated as an expense. Changes of such a nature may result in increased bonus payments. Nor may the formula be changed in such a way as to change the base in a manner not permitting a definite determination as to whether the bonus would be increased by the change.

On the other hand, reduction in the percentage of profits to be charged may of course be put into effect.

3.04 Q. Under an employment contract made in 1948, an employee is entitled to receive 2 percent of the company's annual net profits up to $500,000 and 2½ percent of the company's annual net profits in excess of $500,000. If the company's net profits have never exceeded $500,000 in the past but are expected to exceed $500,000 in 1951, may the employee be paid 2½ percent of the company's net profits in excess of $500,000?

A. Yes. The increased percentage is considered part of the employee's rate of compensation in effect on January 25, 1951.

3.05 Q. A bonus plan in effect on January 25, 1951, provides that 5 percent of the company's annual net profits shall be distributed among ten designated officers and employees of the company in proportion to their salaries at the time of the bonus award. Is the plan considered a contractual bonus plan?

A. Yes, if all the participating officers and employees were specifically designated and ascertainable prior to January 25, 1951. However, if the officers and employees were subject to selection, the plan would not be considered a contractual bonus plan.

3.06 Q. A bonus plan provides that 10 percent of the net profits shall be set aside for the president of the company and such employees as he may designate, the president to receive 25 percent of the bonus fund and the remaining employees to receive such bonuses as the president may determine. Is this a contractual bonus plan?

A. No, except as to the president, since he is the only employee who is entitled to a bonus determined in accordance with a definite method or formula for both computation and allocation of the bonus.

3.07 Q. A bonus plan provides that 5 percent of the net profits of the company shall be set aside for five designated employees in proportion to their salaries. The plan provides that the share of any participating employee may either be reduced or increased by not more than 10 percent in the discretion of the Board of Directors. Is this a contractual bonus plan?

A. Yes, this is a contractual bonus plan but only to the extent that each of the participating employees has a predetermined share in the fund, i. e., as to 90 percent of his interest in the bonus fund. The remaining 10 percent interest of the participating employees constitutes a fund under a discretionary bonus plan (section 4) since allocation is of a discretionary nature.

3.08 Q. In the foregoing example, would the result be changed if the Board of Directors, subsequent to January 25, 1951, renounced its discretion to reduce or increase the share of each participating employee?

A. No. Such renunciation represents an attempt to convert the bonus fund from a discretionary to a contractual basis in respect to the 10 percent interest of the participating employees.

3.09 Q. Are profit-sharing plans that are qualified under section 165 of the Internal Revenue Code contractual bonuses?

A. The answer depends upon the nature of the plan and the obligation of the employer to the participating employees. The same considerations apply as in the case of other plans. However, new deferred profit-sharing and stock bonus plans and trusts qualified under section 165 (a) of the Internal Revenue Code are subject to General Salary Stabilization Regulation 6, as amended, and not to the Bonus Regulation.

3.10 Q. An employment contract in existence on January 25, 1951, provides that in any year in which the employing company's annual net profits exceed $100,000, the employee shall be paid a bonus equal to 5 percent of his salary. In 1950 the employee's salary was $10,000. In June 1951 the employee's salary was increased to $11,000. Is the employee entitled in December 1951 to a bonus of $500 (5 percent of $10,000) or $550 (5 percent of $11,000)?

A. The employee is entitled to a bonus of $550, assuming of course that the salary increase was permitted by salary stabilization regulations. On the other hand, if the employee received the salary increase as a result of a promotion and the employee's predecessor in the position to which he was promoted was receiving a salary of $11,000 without a contractual bonus arrangement, the profit-sharing arrangement is no longer part of the rate of compensation for the employee's position and the contractual bonus cannot be continued.

3.11 Q. Under an employment contract made in November 1950 an employee is entitled to 2½ percent of the net profits. The contract expires on October 31, 1951. May the contract be renewed for an additional period?

A. Yes, provided the terms, including the profit-sharing percentage and its computation, are no more favorable to the employee. Renewal of the contract under such circumstances will not be considered to have increased the employee's rate of compensation.

3.12 Q. Under an employment contract in effect on January 25, 1951, the Executive Vice President of a company was entitled to 2½ percent of the company's net profits. The contract expired on August 31, 1951, at which time the Executive Vice President left the company's employment. May another individual employed as Executive Vice President or promoted to that position receive a contract upon the same terms as the Executive Vice President who resigned?

A. Yes, provided the terms, including the profit-sharing percentage and its computation, are no more favorable to the new Executive Vice President than the previous contract. The contractual bonus was part of the rate of compensation attached to the position of Executive Vice President on January 25, 1951 and may continue to be paid to an individual actually discharging the duties and responsibilities of that position.

SECTION 4

4.01 Q. A company has had a profit-sharing plan which provides that 5 percent of the company's net profits shall be set aside for allocation to key employees selected by a Bonus Committee. During 1950 the company's net profits amounted to $500,000 representing a greater amount than the average net profits during any three of the five years, 1946 to 1950. The company distributed $25,000 as profit-sharing bonuses in respect to the year 1950. During 1951 it is expected that the company's net profits will amount to $750,000 so that under the company's plan the company will have available for profit sharing 5 percent of $750,000, or $37,500. May the company distribute the sum?

A. No. The company may not distribute as bonuses more than $25,000, subject to permissible adjustments permitted by salary stabilization regulations. (See 6.01; consult also section 9 of the Bonus Regulation).

4.02 Q. How is the existence of an established written bonus plan determined?

A. An established written plan implies a formal documentary basis, permanence in time, and continued application. These requirements are not fulfilled if the plan can only be shown to exist by a compilation of payroll or similar records showing that a bonus was paid by an employer in the past. However, if the requirements of an established plan are met, the plan need not have been formally communicated to the employees.

4.03 Q. Does an employer have an established plan if the plan is readopted from year to year either by the board of directors, by stockholders, or by both?

A. Yes.

4.04 Q. A company has had a profit-sharing plan which provides that 5 percent of the company's net profits shall be set aside for allocation to employees. During 1950 the company's net profits amounted to $500,000 and the company distributed $25,000 as profit-sharing bonuses. In 1951 the company's net profits will amount to $400,000. How much may the company distribute as profit-sharing bonuses?

A. $20,000. The company must adhere to the method or formula of computation contained in the plan even though the ceiling for 1950 is at a higher figure.

4.05 Q. May the method or formula for computing the bonus fund be changed?

A. No. The bonus fund may not be increased as a result of a change in the method or formula made after January 25, 1951. (See 3.03.)

4.06 Q. If an employer uses a three-year period for computing his bonus ceiling, may he pay in the current year a bonus to any one of his employees up to the highest bonus paid to any employee in any one of the three years selected?

A. Yes. For example, if an employer used the average of all his bonuses paid in 1947, 1948 and 1949, and the highest bonus paid in any one of these three years was $15,000, the highest bonus payable is $15,000. If, in this example, the employer paid a bonus of $20,000 in 1950 but that year was not used in computing the bonus ceiling, the employer may not use the $20,000 bonus for the individual bonus ceiling.

4.07 Q. What other limitations are imposed on the employer's discretion in distributing bonuses?

A. The employer must follow his historical or usual practices in distributing bonuses to his employees or to groups of his employees under the plan.

For instance, if an employer had in effect a particular type of personnel evaluation system, he may not abandon this system and substitute arbitrary discretion.

If an employer allocated bonuses among divisions of his company, treating the employees in each division as a separate group, he may not abandon this system and distribute bonuses to only one division or distribute them arbitrarily among all employees without regard to sharing in the bonuses by the employees in these divisions as groups.

If the employer distributes bonuses among business divisions or other groups or units of his employees, he must observe the ceiling on the highest individual bonus in each such division, group or unit paid in the base bonus period.

4.08 Q. An employer with an established but discretionary bonus plan, administered by a Bonus Committee of the Board of Directors, had in 1950 a minimum salary requirement for participating employees of $8,500 per annum. The employer now desires to lower the minimum requirement to $7,500 per annum. May he do so?

A. No, not without approval by the Office of Salary Stabilization. Approval would likewise be required for the employer to increase the minimum salary requirement.

4.09 Q. May a discretionary bonus plan include both employees under the jurisdiction of the Wage Stabilization Board and of the Salary Stabilization Board?

A. Yes, provided that in paying bonuses, the employer separates the bonus fund for the two groups of employees, and observes the provisions of the Bonus Regulation of the Salary Stabilization Board and his historical or usual practice with regard to that portion of the bonus fund which is paid as bonuses to the employees under the jurisdiction of the Salary Stabilization Board.

4.10 Q. An employer formally adopted a bonus plan between January 1, 1950 and January 25, 1951 containing a method or formula for computation of the bonus fund and providing for discretionary distribution thereof. The bonus plan applies to work performed before and after January 25, 1951, but the first payment of bonuses under the plan is to be made only after January 25, 1951. May the employer pay bonuses under this plan without the prior approval of the Office of Salary Stabilization, and how does he compute his base period bonus fund?

A. The employer may pay bonuses under the plan without prior approval. The base period bonus fund shall be the amount which, under the plan, would have become available for bonuses either in the calendar year 1950 or in the fiscal year ending in 1950 (dependent on whether the employer operates on a calendar or fiscal year basis), if the plan had been in effect during such calendar or fiscal year. No other method may be used to compute the base period bonus fund under the plan.

SECTION 5

5.01 Q. How may discretionary bonuses be paid?

A. The employer may pay up to the same bonuses paid or payable to the same employees in or with respect to the calendar year 1950.

For example, if employees A, B, and C received in 1950 bonuses of $1,000, $3,000, and $10,000 respectively, their employer may in 1951 pay bonuses to A up to $1,000, to B up to $3,000 and to C up to $10,000. Under this method B cannot receive a bonus of $5,000. If the employer wants to pay B such a bonus, he must use the bonus fund method under section 5 (b), as explained in paragraph 5.02.

5.02 Q. If the employer desires to make a different allocation to employees from that made in 1950, how may he do so?

A. The employer may compute his bonus ceiling (in accordance with the options allowed in section 2) and treat an amount not in excess of such ceiling as a fund which he may distribute in his discretion among any of his employees, subject to the ceiling on individual bonuses and the limitation that he must follow any past practice as to the particular groups of employees who have been paid a bonus in the past. For example, if bonuses have in the past only been paid to department heads and officers of the company were not paid bonuses, an officer of the company may not be paid a bonus this year under the Bonus Regulation.

5.03 Q. Are there any other limitations on the exercise of the employer's discretion in distributing the bonus fund?

A. The same general limitations apply as apply to the distribution of the bonus fund under an established plan (see, e. g., 4.06).

SECTION 6

6.01 Q. If an employer has in the past awarded bonuses under a plan (section 4) or out of a bonus fund (section 5 (b)) to a group of employees, may he increase the fund if the group has increased?

A. Yes. If the group is composed entirely of employees under the jurisdiction of the Salary Stabilization Board and has increased solely through hiring, promotions, or transfers into the group, the employer may average the bonuses paid to the employees in the group in the base bonus year and add an amount not in excess of such average for each new employee in the group. The increase in the group is the difference between the current number of employees in the group and the number of employees in the group during the base period even though some of the employees in the group during the base period received no bonus.

Examples: (a) An employer had a group of 20 scientists who received bonuses totaling $5,000 in 1950 (the base year), and the average bonus paid to such employees was therefore $250. In 1951, at the time of the distribution of bonuses, the number of scientists has increased to 30 by the expansion of the group through the hiring of 10 new scientists. The employer may increase the bonus fund by ten times $250 or $2,500, bringing the total bonus fund to $7,500. The employer may distribute this total of $7,500 among his 30 scientists as he sees fit, subject to the limitations in the regulation as to past practice, etc. Within these limitations the employer need not distribute a bonus to the 10 new scientists even though their addition to the group has increased the bonus fund. However, the average bonus paid to the scientists must not exceed the amount of $250, which was the average of the bonuses paid to the scientists in the base period 1950.

(b) If the employer in 1950 had paid bonuses to only 15 out of the 20 scientists he may not increase the bonus fund because he wants to give a bonus this year to the five scientists who did not participate last year, if there has been no increase in the group through hiring, promotion or transfer. However, the employer can distribute the bonus fund among all 20 employees by reducing the individual bonus of some or all of the 15 recipients of the 1950 bonus.

6.02 Q. How does the employer determine the average bonus which he must maintain when the group is increased?

A. The average bonus is determined by dividing the total bonus paid to the group by the number of employees who received a bonus. If the employer paid 20 scientists total bonuses aggregating $5,000 in the base year 1950, the average bonus is $250. Regardless of the amount that he may add when the group increases, the average of the bonuses paid in any subsequent calendar year may not exceed $250.

Assuming that in the example given in the answer to the preceding question, the group of scientists has increased in 1951 to 30 and the bonus fund has increased to $7,500, the employer, if he so desires, may pay three of the scientists bonuses of $500 (if this sum was not in excess of the highest single permissible bonus) provided bonuses to the other scientists are reduced sufficiently so that the $250 average for the group of scientists is maintained.

6.03 Q. Under the employer's bonus plan all employees who earn $5,000 or more per annum are eligible for a bonus. A, whose salary in 1950 was $4,500, is promoted to a position in the scientific department paying $5,500. B, an employee in the department, receives a merit increase, which increases his salary from $4,800 to $5,100. Can the bonus fund for the scientific department be increased on account of A's promotion and B's salary increase?

A. Yes.

6.04 Q. An employer computes his bonus ceiling by taking an average of the total bonuses paid in the three years 1947, 1948 and 1949. In 1947, he had 25 scientists; in 1948, 30 scientists; and in 1949, 35 scientists. What is the size of the group on the basis of which he can determine whether the group has increased or decreased in 1951?

A. 30. The average size of the group for the three years forms the basis for the increase or decrease in the bonus fund.

SECTION 7

7.01 Q. An employer has distributed his bonus fund in such a manner that some employees have received very high bonuses and others very low ones. Can the disparity of total compensation thus created be used as a basis for an application to increase the salary or other compensation of the employees who received low bonuses?

A. No. The Bonus Regulation expressly provides that any inequities created by the distribution of bonuses shall not constitute a basis for a subsequent application for increasing salaries or other compensation.

SECTION 8

8.01 Q. A company has customarily paid bonuses on October 1. It now desires to pay bonuses on June 1, so that the employees may receive their bonuses before the usual summer vacations. May it do so?

A. No. Bonuses may not be accelerated in advance of the customary time of payment.

8.02 Q. An employer in the past has paid a bonus on November 1 of each calendar year. The employer contemplates going out of business on October 1, 1951. May the payment of the customary bonus be accelerated?

A. The payment of bonuses in this situation may not be accelerated.

8.03 Q. Under a profit-sharing plan, a bonus awarded in one year is paid in five annual installments. May the bonus now be paid in four instead of five annual installments?

A. No. Such a change would represent an acceleration in payment.

8.04 Q. Under a profit-sharing plan, a bonus award made in one year is payable in four annual installments and such installments are paid only if "earned out"—that is, subject to the condition, among others, that the employee continues in the company's employ. May the plan be amended to provide that the unpaid installments of the bonus award shall be paid to the employee if his employment is terminated before earning out such installments?

A. No. If the plan did not contain such a provision prior to January 25, 1951, the plan may not be so amended.

SECTION 9

9.01 Q. A company has annually paid discretionary bonuses to a group of its employees, the bonuses to each individual in the group having ranged from $1,000 to $5,000. In 1950 total bonuses to the group aggregated $100,000. May the salaries or other compensation of the group be increased by 10 percent of $100,000, or $10,000, pursuant to the provisions of section 22 of General Salary Stabilization Regulation 1, Amended?

A. No. Bonuses paid under the Bonus Regulation shall not be included in any manner in the computation of an increase authorized by section 22.

9.02 Q. In 1949 a company paid aggregate bonuses of $100,000 to a group of its employees. In 1950, and subsequent to January 15, 1950, it paid aggregate bonuses of $125,000. Must the $25,000 increase in its bonuses paid in 1950 be charged against the 10 percent allowable for salary increases under section 22?

A. No. The Bonus Regulation provides that a bonus increase in 1950 need not be charged against the allowable 10 percent catch-up increase, as distinguished from a salary increase which has become a permanent part of the employee's rate of compensation. Upon the same reasoning, the bonus cannot be prorated back to the January 15, 1950, base salary level to provide an additional bonus or salary increase.

9.03 Q. The bonus ceiling of an employer based upon total bonuses paid in 1950 is $50,000. These bonuses were paid on December 31, 1950, to a group of five employees whose aggregate salaries amounted to $1,000 per week for the first regular payroll period ending on or after January 15, 1950. The employees in the group have received no increases in salaries since January 15, 1950, and the number of employees in the group has remained constant. May the bonus ceiling of $50,000 be augmented by the 10 percent catch-up increase provided in section 22, and, if so, by how much?

A. The bonus ceiling of $50,000 may be increased by $5,200. This sum is computed by multiplying the aggregate weekly salaries of $1,000 by the number of weeks from the commencement of the bonus period, January 1, 1951, to the date of bonus distribution, December 31, 1951 (i. e. 52 weeks), and by taking 10 percent of that amount.

9.04 Q. Upon the facts stated in the example just given, the highest single bonus paid in 1950 was $12,000. What is the highest individual bonus that may be paid?

A. $17,200—that is, the $12,000 ceiling on individual bonuses, plus the entire amount ($5,200) available by reason of the increase of the bonus fund under General Salary Stabilization Regulation 2, as amended. The 10 percent allowance may in the discretion of the employer be distributed to only one individual in a group, subject to the condition that any inequity so created cannot be used as a basis for approval of other salary adjustments.

9.05 Q. If an employer uses the 10 percent catch-up increase for bonuses in 1951, may he use it again for bonuses thereafter?

A. Yes, unless he has granted a general 10 percent increase or otherwise used the permissible increase since December 31, 1951.

9.06 Q. An employer has a weekly base compensation payroll of $10,000 for employees subject to the jurisdiction of the Salary Stabilization Board. The authorized percentage increase under section 41 of General Salary Stabilization Regulation 1, amended, is 2 percent, as of December 1, 1951, the date of the employer's computation under section 41. What is the maximum amount available to the employer at that date for distribution of bonuses assuming the amount available for that purpose under the terms of section 41 as of December 1, 1951?

A. $200.00, if December 1, 1951, is the employer's customary date for distributing bonuses. If the employer's customary date of distribution is December 28, 1951, the payroll remaining constant, the employer may add $800.00 to the bonus fund and pay that amount by way of bonuses.

9.07 Q. If an employer uses the entire percentage increase authorized under section 41, as an addition to an existing base period bonus fund for the payment of bonuses on December 31, 1951, may he use the percentage increase to pay a bonus in a subsequent calendar year?

A. Yes, unless the employer has granted an increase in salaries equal to the percentage increase authorized under section 41 or has otherwise used the entire authorized percentage increase since December 31, 1951. However, if an employer has since December 31, 1951 granted an increase in salaries or other compensation, using part of the authorized percentage increase only, the unused balance may be added to the existing base period bonus fund of the employer in the subsequent calendar year.

9.08 Q. An employer had available a percentage increase of 2 percent authorized under section 41 and used one-half thereof, or one (1) percent, as an addition to his existing base period bonus fund in distributing bonuses at the end of the fiscal year on February 29, 1952. May he add the same one (1) percent to his base period bonus fund in paying bonuses at the end of his next fiscal year, beginning March 1, 1952 and ending February 28, 1953?

A. Yes, unless during such next fiscal year the employer uses part or all of the one (1) percent paid as bonuses on February 29, 1952 for increases in salaries or other compensation before the time of the distribution of the bonuses in 1953. Only the percentage which is not paid out as increases in salaries or other compensation may be paid as bonuses on February 28, 1953.

SECTION 10

10.01 Q. Must an employer who has paid bonuses pursuant to the Bonus Regulation, file reports with the Office of Salary Stabilization?

A. No. In accordance with amendment 1 to General Salary Stabilization Regulation 2, reports are no longer required to be filed with the Office of Salary Stabilization. However, employers must keep records sufficient to establish compliance with this regulation. If the bonus fund has been increased through use of moneys available for increases in salaries and other compensation under sections 22 or 41 of General Salary Stabilization Regulation 1, Amended, the records and summary statements required by section 101 of that regulation must also be kept.

SECTION 11

11.01 Q. What is the purpose of section 11?

A. To make clear that permission granted by the Bonus Regulation to pay a particular bonus does not mean, for example, that the payment of the bonus could not be challenged as a waste of corporate assets in an action by stockholders. Obviously, the Salary Stabilization Board, in issuing its salary stabilization regulations, is making no determination with respect to the validity or propriety of payments under laws other than those relating to salary stabilization.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Issued by the Office of Salary Stabilization on September 16, 1952.

JOSEPH D. COOPER,
Executive Director.

Chapter XIV—General Services Administration

[Revision 1]

MANGANESE REGULATIONS: PURCHASE PROGRAM FOR DOMESTIC MANGANESE ORE AT DEMING, NEW MEXICO

This regulation, as amended, is further amended and revised for the purpose of extending the time within which persons may give notice to the Government of their desire to participate in this purchase program, and for the purpose of adjusting the price schedule for manganese ore. This regulation, as amended and revised, reads as follows:

Sec.
1. Basis and purpose.
2. Definitions.
3. Participation in the Program.
4. Deliveries.
5. Duration of the Program.
6. Price schedule for ores.
7. Ores containing lead and zinc in excess of the allowable maximum.

AUTHORITY: Sections 1 to 7 issued under sec. 704, 64 Stat. 816, as amended, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 303, 64 Stat. 801, as amended, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2093; E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789.

SECTION 1. *Basis and purpose.* This regulation interprets and implements the authority of the Administrator of General Services to purchase, pursuant to delegation of authority from the Defense Materials Procurement Administrator, manganese ore of domestic origin at Deming, New Mexico, for the fiscal years 1952–1956, as authorized by the Defense Production Administration on June 20, 1951, and outlines the attendant responsibilities and functions of the Administrator of General Services in purchasing such manganese ore for the Government. In accordance with the Program set forth herein, the Administrator will buy domestically produced manganese ore containing not less than 15 percent manganese, in accordance with the specifications contained in this regulation.

SEC. 2. *Definitions.* As used in this regulation:

(a) "Administrator" means the Administrator of General Services.

(b) "Program" means the purchase of manganese ore as set forth in this regulation.

(c) "Depot" means the purchase depot of the Government at Deming, New Mexico.

(d) "Manganese ore" means crude ore containing not less than 15 percent manganese, mined in the United States, its Territories and possessions.

(e) "Long ton unit of manganese" means 22.4 pounds of manganese contained in a long dry ton of manganese ore.

SEC. 3. *Participation in the Program.* Any person may participate in the Program by notice given to the General Services Administration Regional Office, Building 41, Denver Federal Center, Denver, Colorado, in the form of a letter, postcard or telegram postmarked or dated by the telegraph office not later than June 30, 1953. Such notice shall state that the writer desires to participate in the Program and will deliver manganese ore to the depot. Such notice must be signed and a return address given. Any person participating in the Program will promptly be sent a certificate authorizing him to deliver manganese ore meeting minimum specifications.

SEC. 4. *Deliveries.* Manganese ore to be purchased by the Government under the Program is to be delivered f. o. b. depot. Delivery of less than five (5) long tons of ore at one time will not be accepted. Participants in the Program must give the Government reasonable notice with respect to deliveries of ore. Each delivery will be sampled and assayed by the Government at the depot and payment on an estimated recovery basis will be made in accordance with the analysis of such sample and as provided in section 6 of this regulation. Deliveries not conforming to the minimum specifications will be rejected, and expenses in connection therewith will be borne by the seller.

SEC. 5. *Duration of the Program.* This Program shall terminate and be of no further force or effect when six million (6,000,000) contained long ton units of manganese have been delivered to the depot and accepted by the Government under this Program, or at the close of business June 30, 1956, whichever first occurs.

SEC. 6. *Price schedule for ores.* (a) The following prices per long dry ton will be paid for manganese ore delivered f. o. b. depot. Where the fractional manganese content is 0.5 percent or below, payment will be made as though no fractional content were involved. Where such fractional content is 0.51 percent or above, payment will be made at the next higher figure.

Percent Mn in ore:	*To be paid for 1 long dry ton*
15	$8.54
16	10.24
17	12.00
18	13.71
19	15.48
20	17.20
21	19.13
22	21.06
23	23.05
24	24.99
25	26.94
26	29.64
27	32.40
28	35.11
29	37.88
30	40.60
31	44.73
32	45.86
33	50.00
34	53.14
35	56.29
36	60.74
37	65.15
38	69.61
39	74.03
40 fines	78.00
40 ore	88.00

The above price schedule applies to lots received from individual shippers aggregating less than 200 tons during any 30-day period, and shall constitute the final and definite price for such lots.

(b) For lots received from individual shippers aggregating 200 tons or more

during any 30-day period, the above price schedule shall serve as a basis for preliminary settlement pending laboratory tests. The preliminary settlement shall be adjusted up or down, as the case may be, as a result of tests for laboratory-determined recoverability. Final settlement shall be calculated on the basis of $2.20 per long ton unit of manganese determined from the laboratory tests to be recoverable from the ore, subject to a charge of $10 per ton of ore (the estimated cost of sampling, milling, and handling) and to the specifications, premiums, and penalties set forth below.

SPECIFICATIONS

	Percent
Manganese	48.0
Iron	6.0
Silica plus alumina	11.0
Phosphorus	.12

PREMIUMS

Manganese content above 48.0 percent (dry basis): ½ cent for each 1.0 percent.

Iron content below 6.0 percent (dry basis): ½ cent for each 1.0 percent.

PENALTIES

Manganese content below 48.0 percent (dry basis): 1 cent for each 1.0 percent, down to and including 44.0 percent. Below 44.0 percent: 4 cents, plus 1½ cents for each 1.0 percent down to 40.0 percent minimum. Iron content above 6.0 percent (dry basis): 1 cent for each 1.0 percent, up to and including 8.0 percent. Above 8.0 percent; 2 cents plus ¾ cent for each 1.0 percent up to 16 percent maximum. Silica plus alumina content above 11.0 percent (dry basis): 1 cent for each 1.0 percent up to 15 percent maximum. Phosphorus content above 0.12 percent (dry basis): ½ cent for each 0.01 percent up to 0.3 percent maximum.

The Government will reject any lot which, on the basis of the laboratory testing, cannot be beneficiated to a product the chemical analysis of which falls within the following limits in all respects. The Government reserves the right to dispense with laboratory testing of shipments aggregating less than 200 tons over a 30-day period.

	By weight (dry basis) (percent)	
Manganese (Mn)	40.0	minimum.
Iron (Fe)	16.0	maximum.
Silica plus alumina (SiO_2 plus Al_2O_3)	15.0	maximum.
Phosphorus (P)	0.30	maximum.
Copper plus lead plus zinc (Cu plus Pb plus Zn). Of which not more than 0.25 percent may be copper	1.00	maximum.

SEC. 7. *Ores containing lead and zinc in excess of the allowable maximum.* Ores containing lead and zinc exceeding the maximum percentage allowed by section 6 of this regulation shall be accepted and purchased under this program, provided that such ores are amenable to nodulization, and as a result of nodulization the contained lead and zinc of the ores will be reduced to the maximum percentage allowed by section 6 of this regulation. Such ores shall be subject to a charge of $2.25 per long dry ton to cover the cost of nodulization.

This regulation, as amended and revised, shall be effective as of May 29, 1952.

Dated: September 19, 1952.

JESS LARSON,
Administrator.

[F. R. Doc. 52-10396; Filed, Sept. 22, 1952; 11:02 a. m.]

[Amdt. 1]

MANGANESE REGULATIONS: PURCHASE PROGRAM FOR DOMESTIC MANGANESE ORE AT WENDEN, ARIZONA

Pursuant to the authority vested in me by the Defense Materials Procurement Administrator (Delegation No. 13, June 27, 1952), this regulation is amended by adding a new section 7, reading as follows:

SEC. 7. *Ores containing lead and zinc in excess of the allowable maximum.* Ores containing lead and zinc exceeding the maximum percentage allowed by section 6 of this regulation shall be accepted and purchased under this program, provided that such ores are amenable to nodulization, and as a result of nodulization the contained lead and zinc of the ores will be reduced to the maximum percentage allowed by section 6 of this regulation. Such ores shall be subject to a charge of $2.25 per long dry ton to cover the cost of nodulization. All provisions of this regulation not inconsistent herewith shall apply to this section.

(Sec. 704, 64 Stat. 816, as amended, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154, Interprets or applies sec. 303, 64 Stat. 801, as amended, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2093, E. O. 10161, 15 F. R. 6105; E. O. 10281, 16 F. R. 8789)

This amendment shall be effective as of the date hereof.

Dated: September 19, 1952.

JESS LARSON,
Administrator.

Chapter XXI—Office of Rent Stabilization, Economic Stabilization Agency

[Rent Regulation 1, Amdt. 17 to Schedule B]

[Rent Regulation 2, Amdt. 18 to Schedule B]

RR 1—HOUSING

RR 2—ROOMS IN ROOMING HOUSES AND OTHER ESTABLISHMENTS

SCHEDULE B—SPECIFIC PROVISIONS RELATING TO INDIVIDUAL DEFENSE-RENTAL AREA OR PORTIONS THEREOF

ILLINOIS

Effective September 23, 1952, Rent Regulation 1 and Rent Regulation 2 are amended as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 22d day of September 1952.

JAMES McI. HENDERSON,
Director of Rent Stabilization.

1. A new item 62 is added to Schedule B of Rent Regulation 1—Housing, reading as follows:

62. *Provisions relating to Cook County, Illinois, a portion of the Chicago Defense-Rental Area (Item 83 of Schedule A):*

With respect to housing accommodations in Cook County, Illinois, a portion of the Chicago Defense-Rental Area, section 141 of this regulation is changed to read as follows:

SEC. 141. *Alternate adjustment for increase in costs and prices.* The present maximum rent for the housing accommodation does not equal (1) 130 percent of the maximum rent in effect on June 30, 1947, or 130 percent of the maximum rent for comparable housing accommodations on June 30, 1947, if no maximum rent was in effect on that date; (2) plus or minus any increases or decreases in maximum rent ordered after June 30, 1947, under this regulation, for major capital improvements or increases or decreases in living space, services, furniture, furnishings or equipment or substantial deterioration. The adjustment under this section shall be in an amount sufficient to cause the maximum rent to equal (1) 130 percent of the maximum rent in effect on June 30, 1947 for the housing accommodation or comparable housing accommodations, whichever is applicable; (2) plus or minus appropriate increases or decreases in rental value, if any, as specified herein: *Provided, however,* That the Director shall give appropriate consideration to orders issued under sections 157 or 162 decreasing maximum rents which were in effect on June 30, 1947. Adjustments under this section shall be effective automatically upon the filing of the petition if a maximum rent was in effect on June 30, 1947. In all other cases, they shall not be effective until the order is issued by the Director. All provisions of this regulation insofar as they are applicable to Cook County, Illinois, a portion of the Chicago Defense-Rental Area, are amended to the extent necessary to carry into effect the provisions of this Item 62 of Schedule B.

2. A new item 68 is added to Schedule B of Rent Regulation 2—Rooms, reading as follows:

63. *Provisions relating to Cook County, Illinois, a portion of the Chicago Defense-Rental Area (Item 83 of Schedule A):*

With respect to housing accommodations in Cook County, Illinois, a portion of the Chicago Defense-Rental Area, section 138 is added to this regulation to read as follows:

SEC. 138. *Alternate adjustment for increases in costs and prices.* The present maximum rent for the room does not equal (1) 130 percent of the maximum rent in effect on June 30, 1947, or 130 percent of the maximum rent for comparable rooms on June 30, 1947, if no maximum rent was in effect on that date; (2) plus or minus any increases or decreases in maximum rent ordered after June 30, 1947, under this regulation, for major capital improvements or increases or decreases in living space, services, furniture, furnishings or equipment or substantial deterioration. The adjustment under this section shall be in an amount sufficient to cause the maximum rent to equal (1) 130 percent of the maximum rent in effect on June 30, 1947 for the room or comparable rooms, whichever is applicable; (2) plus or minus appropriate increases or decreases in rental value, if any, as specified herein: *Provided, however,* That the Director shall give appropriate consideration to orders issued under section 157 or 160 decreasing maximum rents which were in effect on June 30, 1947. Adjustments under this section shall be effective automatically upon the filing of the petition if a maximum rent was in effect on June 30, 1947. In all other cases, they shall not be effective until the order is issued by the Director. All provisions of this regulation insofar as they are applicable to Cook County, Illinois, a portion of the Chicago Defense-Rental Area, are amended to the extent necessary to carry into effect the provisions of this item 68 of Schedule B.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 202—ANCHORAGE REGULATIONS

MALLETTS BAY, LAKE CHAMPLAIN, VERMONT

Pursuant to the provisions of section 1 of the act of Congress approved April 22, 1940 (54 Stat. 150; 33 U. S. C. 180), § 202.8 is hereby prescribed establishing a special anchorage area, wherein vessels not more than 65 feet in length, when at anchor, shall not be required to carry or exhibit anchor lights, in Malletts Bay, Lake Champlain, Vermont, as follows:

§ 202.8 *Malletts Bay, Lake Champlain, Vt.* The southwesterly portion of Malletts Bay, south of Coates Island and west of a line bearing 213° true, from the most southerly point of Coates Island to the mainland.

[Regs. Sept. 5, 1952, § 800.212 (Malletts Bay, Vt.)—ENGWO] (54 Stat. 150; 33 U. S. C. 180)

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
The Adjutant General.

[F. R. Doc. 52-10332; Filed, Sept. 22, 1952; 8:49 a. m.]

PART 203—BRIDGE REGULATIONS

NAVIGABLE WATERS OF STATE OF NEW JERSEY; BRIDGES WHERE CONSTANT ATTENDANCE OF DRAW TENDERS IS NOT REQUIRED

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.225 (f) is hereby amended to include in subparagraph (3) the Central Railroad Company of New Jersey bridge and Union County bridges at Baltic Street, Summer Street, South Street, and Bridge Street, across the Elizabeth River in the City of Elizabeth, New Jersey, and revocation of subparagraph (4) and redesignation of subparagraph (3–a) as subparagraph (4), as follows:

§ 203.225 *Navigable waters of the State of New Jersey; bridges where constant attendance of draw tenders is not required.* • • •

(f) The bridges to which this section applies, and the regulations applicable in each case, are as follows:

• • • • •

(3) Elizabeth River; The Central Railroad Company of New Jersey bridge and Union County bridges at Baltic Street, Summer Street, South Street, and Bridge Street, in the City of Elizabeth. The draws need not be opened for the passage of vessels and the special regulations contained in paragraphs (b) to (e) inclusive, of this section shall not apply to these bridges.

(3–a) Woodbridge Creek; • • • [This subparagraph redesignated subparagraph (4).]

(4) Shrewsbury River (South Branch) • • • [Revoked]

• • • • •

[Regs. Sept. 8, 1952, 823.01—ENGWO] (28 Stat. 362; 33 U. S. C. 499)

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
The Adjutant General.

[F. R. Doc. 52-10331; Filed, Sept. 22, 1952; 8:49 a. m.]

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 17—DISBURSEMENTS AND ACCOUNTS

RECOVERED MONEYS; TRANSMITTAL TO DEPARTMENT

In § 17.19 *Recovered moneys* amend paragraph (a) to read as follows:

(a) *Transmittal to Department.* All moneys recovered from mail robbers or other offenders against the postal laws, and moneys recovered by suit, or otherwise on account of moneys taken from the mail or losses therein shall be forwarded at once to the Chief Post Office Inspector, who shall deposit the same daily with the Bureau of Finance: *Provided,* That moneys received on the last work day of any month shall be deposited on the following work day.

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

[SEAL] V. C. BURKE,
Acting Postmaster General.

[F. R. Doc. 52-10316; Filed, Sept. 22, 1952; 8:47 a. m.]

PART 117—PROHIBITED IMPORTATIONS

MISCELLANEOUS AMENDMENTS

a. In § 117.1 *Articles prohibited importation by copyright law* amend paragraphs (a), (b), and (c) to read as follows:

(a) *Treatment of.* The joint regulations governing the treatment of dutiable and supposed dutiable articles received in the mails from foreign countries (see Part 116 of this chapter) shall govern also in the treatment of articles which contain or which are supposed to contain matter prohibited importation by sections 106 to 109, inclusive, Title 17, United States Code, except as hereinafter modified.

(b) *Unsealed matter.* Unsealed correspondence and packages (registered and unregistered) of all kinds which, upon examination, prove to contain articles prohibited importation by the copyright act shall be retained by customs officers, who will notify the addressee of the facts of the case. If an application is not made within a reasonable time to the Secretary of the Treasury for permission to return such articles to the country of export, the customs officers shall take appropriate steps to forfeit the articles, as provided in section 108, Title 17, United States Code.

(c) *Sealed matter.* Sealed articles supposed to contain matter prohibited importation by the copyright act shall be appropriately marked to indicate that fact at the exchange office of receipt. The same conditions shall apply in regard to the marking, opening, and disposition of such sealed articles by the addressee or authorized agent as are required in the case of the opening and treatment of sealed "supposed liable to customs duty" pieces. If the customs officer finds an article contains matter prohibited importation by the copyright act, he shall notify the addressee of the facts through the postmaster at the office of delivery. If an application is not then made within a reasonable time to the Secretary of the Treasury for permission to return the article to the country of export, the customs officer shall take appropriate steps to forfeit the matter, as provided in section 108, Title 17, United States Code.

b. In § 117.2 *Other matter prohibited importation* rescind paragraph (c), and amend paragraph (b) to read as follows:

(b) *Examination of foreign mails—*(1) *Endorsement of sealed letters.* All mails of foreign origin shall be examined at the office of first receipt for the presence of matter prohibited importation. When it is believed that such matter is contained in sealed letters (in their usual and ordinary form) which do not bear an endorsement indicating that they may be officially opened, the letters shall be stamped or endorsed "Supposed to contain matter prohibited importation. See sec. 117.2, P. L. & R.," and forwarded at once to the post office of destination. Postmasters at offices of delivery shall also examine foreign mails in order to insure the proper treatment of any letters (in their usual and ordinary form) believed to contain prohibited matter which have escaped endorsement. Upon discovery, such letters shall be stamped or endorsed as prescribed above and treated in accordance with subparagraph (2) of this paragraph.

NOTE: Mail matter from foreign countries in transit through the United States shall not be subject to the endorsement quoted above.

(2) *Examination and disposition at delivery office.* When a letter endorsed "Supposed to contain matter prohibited importation. See sec. 117.2, P. L. & R." is received at the office of delivery, the postmaster shall notify the addressee to appear and open the letter in the presence of the postmaster, or furnish written authority whereby the letter may be opened (the postmaster may be designated to act for the addressee). In the case of registered mail, the receipt of the addressee or his authorized agent shall be obtained. Letters found to contain lottery matter shall be forwarded daily to the post office inspector in charge of the division in which the office of address is located. Letters found to contain contraceptive matter shall be transmitted to the Solicitor for instructions as to the disposition. In the event the addressee fails to appear or respond to the notification within 30 days, the letter shall be treated as undeliverable and disposed of in accordance with § 114.26 of this chapter.

c. Add the following new section to Part 117:

§ 117.3 *Gold imports.* The transportation in the regular mails or parcel post from any foreign country into the United States of any consignment of gold coin, gold bullion, or gold dust, having a value in excess of $50, is prohibited.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

[SEAL] V. C. BURKE,
Acting Postmaster General.

[F. R. Doc. 52-10315; Filed, Sept. 22, 1952; 8:47 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 865]

MONTANA

PARTIAL REVOCATION OF THE EXECUTIVE ORDER OF AUGUST 5, 1878

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F. R. 4831) it is ordered as follows:

1. The Executive order of August 5, 1878, reserving certain public lands as an addition to the United States Military Reservation at Fort Missoula, Montana, is hereby revoked so far as it affects the following-described lands:

PRINCIPAL MERIDIAN

T. 13 N., R. 19 W.,
Sec. 30, SE¼NE¼ and SE¼SE¼.
T. 13 N., R. 20 W.,
Sec. 25, S½SE¼.

The areas described aggregate 160 acres.

2. The described lands shall not become subject to the initiation of any rights or to any disposition under the public-land laws until it is so provided by an order of classification to be issued by an authorized officer opening the lands to application under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a) as amended, with a 91-day preference-right period for filing such applications by veterans of World War II and others entitled to preference.

JOEL D. WOLFSOHN,
Assistant Secretary of the Interior.

SEPTEMBER 17, 1952.

[F. R. Doc. 52-10305; Filed, Sept. 22, 1952; 8:45 a. m.]

TITLE 45—PUBLIC WELFARE

Chapter V—War Claims Commission

Subchapter B—Receipt, Adjudication and Payment of Claims

PART 505—FILING OF CLAIMS AND PROCEDURES THEREFOR

MISCELLANEOUS AMENDMENTS

1. Section 505.1 is hereby amended to read as follows:

§ 505.1 *Claim defined.* (a) A properly completed and executed application made on an official form provided by the Commission for such purpose constitutes a claim and will be adjudicated under laws administered by the Commission.

(b) Any communication, letter, note or memorandum from a claimant, or his duly authorized representative, or a person acting as next friend of a claimant who is not sui juris, setting forth sufficient facts to apprise the Commission of an intent to apply under the provisions of sections 5 (a) through (e), 6 and 7 (a) of the act shall be deemed to be an informal claim. When an informal claim is received and an official form is forwarded for completion and execution by the applicant, such official form shall be considered as evidence necessary to complete the initial claim, and unless such official form is received within six months from the date it was transmitted for execution, the claim will be disallowed.

(c) Any communication, letter, note or memorandum from a claimant, or his duly authorized representative setting forth sufficient facts to apprise the Commission of an intent to apply under the provisions of section 7 (b) and (c) of the act shall be deemed to be an informal claim. When an informal claim is received and an official form is forwarded for completion and execution by the applicant, such official form shall be considered as evidence necessary to complete the initial claim, and unless such official form is received within two months from the date it was transmitted for execution, the claim will be disallowed.

2. Section 505.6 is hereby amended to read as follows:

§ 505.6 *Documents to accompany forms.* (a) All claims filed pursuant to the provisions of sections 5 (a) through (e), 6 and 7 (a) of the act shall be accompanied by all the evidentiary documents, instruments and records prescribed in the instructions which accompany each type of official form (see § 505.3). If such evidentiary documents, instruments, and records do not accompany the claim and are not furnished within six months following the date of request, the claim may be deemed to have been abandoned and be disallowed.

(b) All claims filed pursuant to the provisions of sections 7 (b) and (c) of the act shall be accompanied by all the evidentiary documents, instruments and records prescribed in the instructions which accompany the official form (see § 505.3). If such evidentiary documents, instruments, and records do not accompany the claim and are not furnished within one month following the date of request, the claim may be deemed to have been abandoned and be disallowed.

3. Section 505.7 is hereby amended to read as follows:

§ 505.7 *Language for forms and documents.* Official forms shall be prepared in accordance with the instructions which accompany each type of official form and in the English language, but evidentiary documents, instruments or records, or authenticated copies thereof, shall be submitted in the language in which originally written.

4. Section 505.8 is hereby added to read as follows:

§ 505.8 *Receipt of claims.*—(a) *Claims deemed received.* A claim shall be deemed to have been received by the Commission on the date postmarked, if mailed, or if delivery is made in person, on the date when delivered, either at the office of the Commission in Washington, D. C., at any field office thereof, or with any person or agency authorized by the Commission to receive claims on its behalf.

(b) *Claims developed.* In the event that a claim has been so prepared as to preclude adjudication thereof, the Commission may request the claimant to furnish whatever supplemental evidence, including the completion and execution of an official form, as may be essential to the adjudication thereof. If the evidence or official form requested is not received within the time limitations set forth in §§ 505.1 and 505.6 the claim may be deemed to have been abandoned and be disallowed.

5. Section 505.9 is hereby added to read as follows:

§ 505.9 *Failure to note change of address.* If any communication mailed to the claimant at the last address furnished to the Commission is returned unclaimed, the claim may be disallowed for failure of the claimant to keep the Commission informed of current address. Such claims shall thereupon be sent to the closed files.

(Sec. 2, 62 Stat. 1240; 50 U. S. C. App. Sup. 2001)

PART 508—PAYMENT

LIVING PRISONERS OF WAR OR LIVING CIVILIAN AMERICAN CITIZENS

Paragraph (a) of § 508.2 which appears at 14 F. R. 7846, December 30, 1949, and which now reads as follows: "*Living prisoners of war or living civilian American citizens.* Any award made to a living prisoner of war for compensation, or to a living civilian American citizen for detention benefits will be certified to the Treasurer of the United States for payment to the person entitled thereto or to his legal or natural guardian," is hereby corrected to read as follows:

§ 508.2 *Payments under the War Claims Act*—(a) *Living prisoners of war or living civilian American citizens.* Any award made to a living prisoner of war for compensation, or to a living civilian American citizen for detention benefits will be certified to the Secretary of the Treasury for payment to the person entitled thereto or to his legal or natural guardian.

GEORGIA L. LUSK,
Vice Chairman,
War Claims Commission.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[S. O. 890]

PART 95—CAR SERVICE

RESTRICTIONS ON MOVEMENT OF UNBILLED BITUMINOUS COAL

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 16th day of September A. D. 1952.

It appearing that due to a prospective stoppage in the production of bituminous coal, the Defense Solid Fuels Administrator has ordered that no bituminous coal shipper shall bill, consign, release or otherwise dispose of bituminous coal which may be on mine tracks; hold tracks; assigned tracks; in classification or assembly yards between mines and scales; the railroad scales; or at any other facility for shipment via railroads; that the Defense Solid Fuels Administrator has represented that a preference or priority is necessary in the transportation of bituminous coal for essential civilian needs and for the military programs in support of national security; that the Defense Transport Administration has made representations to this Commission regarding an impending emergency with respect to coal transportation and has recommended that this Commission take action; the Commission is of the opinion that an emergency requiring immediate action exists: It is ordered, that:

§ 95.890 *Restrictions on movement of unbilled bituminous coal.* (a) No common carrier by railroad, subject to the Interstate Commerce Act, serving any bituminous coal mine, or mines, which have ceased operation due to work stoppage, shall transport cars loaded with bituminous coal from such mines; from scales; from hold points; from classification or assembly yards between mines and scales; from any designated mine tracks or designated mine sidings; or hold points; which coal was not billed prior to 12:01 a. m., September 22, 1952, unless and until the shipper furnishes to the originating carrier shipping instructions containing a certification that such shipment is made pursuant to the terms of Solid Fuels Order No. 3, issued by the Defense Solid Fuels Administration, Department of Interior, Washington 25, D. C. The waybill or shipping instructions shall show reference to the number of the directive issued by Defense Solid Fuels Administration.

(b) Application: This section shall apply to intrastate and foreign shipments as well as interstate traffic.

(c) Rules, regulations and practices suspended: The operation of all rules, regulations and practices, insofar as they conflict with the provisions of this section, is hereby suspended.

(d) Effective date: This section shall become effective at 12:01 a. m., September 22, 1952.

(e) Expiration date: This section shall expire at 11:59 p. m., November 22, 1952.

It is further ordered, that this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended, sec. 15, 24 Stat. 384, as amended; 49 U. S. C. 1, 15)

By the Commission, Division 3.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

PROPOSED RULE MAKING

CIVIL AERONAUTICS BOARD

[14 CFR Parts 40, 41, 42, 45, 61]

EMERGENCY AND EVACUATION EQUIPMENT AND PROCEDURES FOR SCHEDULED AND IRREGULAR PASSENGER AIR CARRIER OPERATIONS

SUPPLEMENTAL NOTICE OF PROPOSED RULE MAKING

Reference should be made to the notice of proposed rule making published in the FEDERAL REGISTER on September 4, 1952 (17 F. R. 8022).

The original notice of proposed rule making, setting forth the text of proposed amendments to Parts 41, 42, 61, and the proposed revised Part 40 of the Civil Air Regulations entitled "Emergency and Evacuation Equipment and Procedures for Scheduled and Irregular Passenger Air Carrier Operations," due to clerical error stated that all communications received by September 29, 1952, would be considered by the Board before taking action on the proposed rules.

As interested parties have specifically requested that this deadline be extended to allow the full thirty-day period for the return of comments on this proposal, the Board hereby extends the final date for return of comment until October 6, 1952. All comment received by this date will be considered by the Board before taking further action on the proposed rules. Copies of such communications will be available after October 8, 1952, for examination by interested persons in the Docket Section of the Board, Room 5412, Commerce Building, Washington, D. C.

Dated: September 16, 1952, at Washington, D. C.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 170]

[MC-C-1]

REVISION OF ZONE BOUNDARY OF ST. LOUIS, MO.-EAST ST. LOUIS, ILL., COMMERCIAL ZONE

NOTICE OF PROPOSED RULE MAKING

SEPTEMBER 18, 1952.

Pursuant to section 4 (a) of the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1003) notice is hereby given that, for the purpose of including additional points and areas in Missouri within the St. Louis, Mo.-East St. Louis, Ill., commercial zone, it is proposed to modify the presently defined limits of such zone, as set forth in St. Louis, Mo.-East St. Louis, Ill., Commercial Zone, 1 M.C.C. 656, 2 M. C. C. 285 (49 CFR 170.3), as hereinafter indicated, and to revise 49 CFR 170.3 (a) to read as follows:

§ 170.3 *St. Louis, Mo.-East St. Louis, Ill.* (a) For the purpose of administration and enforcement of Part II of the Interstate Commerce Act, the zone adjacent to and commercially a part of St. Louis, Mo., and East St. Louis, Ill., in which transportation by motor vehicle, in interstate or foreign commerce, not under a common control, management, or arrangement for a continuous carriage or shipment to or from a point beyond the zone, will be partially exempt from regulation under section 203 (b) (8) of the act, is hereby determined to include, and to be comprised of the area within the corporate limits of St. Louis, Mo.; that part of St. Louis County, Mo., (1) north of a line beginning at the Jefferson Barracks Bridge across the Mississippi River and extending westerly along Missouri Highway 77 to junction U. S. Highway 61 and thence along U. S. Highway 61 to junction U. S. Highway 66, (2) east of a line beginning at junction U. S. Highways 61 and 66 and extending northerly along U. S. Highway 66 (Lindbergh Boulevard) to the southern boundary of Kirkwood, Mo., thence along the southern, western, and northern boundaries of Kirkwood to the western boundary of Huntleigh, Mo., thence along the western and northern boundaries of Huntleigh to junction U. S. Highway 66, thence in a northerly direction along U. S. Highway 66 (Lindbergh Boulevard) to junction Natural Bridge Road, and (3) south of a line beginning

at the junction U. S. Highway 66 and Natural Bridge Road and extending in an easterly direction along U. S. Highway 66 to the western boundary of St. Ferdinand (Florissant), Mo., thence along the western, northern, and eastern boundaries of St. Ferdinand to junction U. S. Highway 66, and thence along U. S. Highway 66 (Taylor Road) to the corporate limits of St. Louis (near Chain of Rocks Bridge); and the area within the corporate limits of East St. Louis, Nameoki, Granite City, Madison, Venice, Brooklyn National City, Fairmont City, Washington Park, and Monsanto, Ill.

No oral hearing is contemplated, but anyone wishing to make representations in favor of, or against, the above-proposed revision of the said boundary of the St. Louis, Mo.-East St. Louis, Ill., commercial zone, may do so by the submission of written data, views, or arguments. The original and five copies of such submission shall be filed with the Commission on or before October 31, 1952.

Notice to the general public of the action herein shall be given by depositing a copy of this notice in the Office of the Secretary of the Commission for public inspection and by filing a copy thereof with the Director, Division of the Federal Register.

By the Commission, Division 5.

[SEAL] GEORGE W. LAIRD, *Acting Secretary.*

Office of the Secretary

[Treasury Department Order 150-7]

BUREAU OF INTERNAL REVENUE REORGANIZATION

ABOLITION AND ESTABLISHMENT OF CERTAIN OFFICES

In the matter of Bureau of Internal Revenue reorganization. Abolition of offices of Collectors and Deputy Collectors of Fourteenth, Twenty-first, and Twenty-eighth Collection Districts of New York; establishment of offices of District Commissioner and Directors of Internal Revenue; extension of area of New York City District and Third Collection District in State of New York.

By virtue of the authority vested in me as Secretary of the Treasury by Reorganization Plan No. 26 of 1950, Reorganization Plan No. 1 of 1952, section 3650 (a) of the Internal Revenue Code and Executive Order 10289, dated September 19, 1951, it is ordered as follows:

1. *Abolition of existing offices.* The abolition of the offices of Collector of Internal Revenue and Deputy Collector for the Fourteenth, Twenty-first, and Twenty-eighth Collection Districts of New York shall become effective as of 12 o'clock midnight, September 21, 1952.

2. *Establishment of District Commissioner.* Effective as of 12:01 a. m., September 22, 1952, there is hereby established an office of District Commissioner of Internal Revenue, which shall be known as the Buffalo District, and which shall be comprised of the territory presently comprising the Fourteenth, Twenty-first, and Twenty-eighth Internal Revenue Collection Districts of New York, with the exception of the territories known as the Counties of Bronx, Rockland, and Westchester.

3. *Location of headquarters.* The headquarters office shall be located in Buffalo, New York.

4. *Extension of area of New York City District.* Effective as of January 1, 1953, the territories known as the Counties of Bronx, Rockland, and Westchester, within the State of New York, shall be, and they are hereby, attached to and made a part of the New York City District, established by Treasury Department Order No. 150-4, dated June 23, 1952, for all purposes authorized by the internal revenue laws of the United States.

5. *Bronx, Rockland, and Westchester Counties transferred to Third Collection District of New York.* Effective as of January 1, 1953, the territories known as the Counties of Bronx, Rockland, and Westchester, now comprising a part of the Fourteenth Internal Revenue Collection District of New York, shall be, and they are hereby, transferred to and made a part of the Third Internal Revenue Collection District of New York for all purposes authorized by the internal revenue laws of the United States.

6. *Establishment of Offices of Director of Internal Revenue.* Effective as of 12:01 a. m., September 22, 1952, there are hereby created the following offices within the Buffalo District:

(a) Director of Internal Revenue for the Fourteenth Collection District of New York (as presently constituted). The headquarters of such office shall be located in Albany, New York, and the office shall have the operating title of Director of Internal Revenue, Albany.

(b) Director of Internal Revenue for the Twenty-first Collection District of New York (as presently constituted). The headquarters of such office shall be located in Syracuse, New York, and the office shall have the operating title of Director of Internal Revenue, Syracuse.

(c) Director of Internal Revenue for the Twenty-eighth Collection District of New York (as presently constituted). The headquarters of such office shall be located in Buffalo, New York, and the office shall have the operating title of Director of Internal Revenue, Buffalo.

Dated: September 17, 1952.

[SEAL] JOHN W. SNYDER, *Secretary of the Treasury.*

DEPARTMENT OF COMMERCE

Federal Maritime Board

[No. 724]

CONTRACT RATES, NORTH ATLANTIC CONTINENTAL FREIGHT CONFERENCE, ET AL.

NOTICE OF HEARING AND PREHEARING CONFERENCE

Notice is hereby given that a hearing will be held before an examiner of the Federal Maritime Board at a time and place hereafter to be determined concerning investigation on the Board's motion of a proposal of the North Atlantic Continental Freight Conference to initiate a system of dual rates under which a differential of ten percent is allowed shippers who enter into contracts to patronize members of the Conference exclusively.

Notice is also given that a prehearing conference will be held before said Examiner, on September 29, 1952, at 10:00 a. m., in Room 4821, Commerce Building, Washington, D. C., under § 201.59 of the Board's Rules of Procedure, for the purpose of considering:

(1) Simplification of the issues;

(2) The necessity or desirability of amendments to the pleadings;

(3) The possibility of obtaining admission of fact and of documents which will avoid unnecessary proof;

(4) Limitations on the number of witnesses;

(5) The procedure at the hearing;

(6) The distribution to the parties prior to the hearing of written testimony and exhibits;

(7) Consolidation of the examination of witnesses by counsel; and

(8) Such other matters as may aid in the disposition of the proceeding.

At the prehearing conference a date will be set for the hearing to receive evidence to determine whether the differential in rates of the proposed system is arbitrary and unreasonable and whether the proposed system of dual rates is unjustly discriminatory or unfair as between carriers, shippers, exporters, or ports or between exporters from the United States and their foreign competitors, or operates to the detriment of the commerce of the United States or is in violation of the act.

The hearing to receive such evidence will be conducted in conformity with the Board's rules of procedure (12 F. R. 6076), and a recommended decision will be issued by the examiner.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies) desiring to participate in the prehearing conference and in the proceeding should notify the Board on or before September 29, 1952, and should promptly file a petition for leave to intervene in accordance with § 201.81 of the rules.

Dated: September 22, 1952.

By order of the Federal Maritime Board.

FEDERAL POWER COMMISSION

[Docket No. G-2045]

PERMIAN OIL AND GAS CO.

NOTICE OF APPLICATION

SEPTEMBER 17, 1952.

Take notice that The Permian Oil and Gas Company (Applicant), an Ohio corporation having its principal place of business at the First National Bank Building, Marietta, Ohio, filed on September 8, 1952, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the purchase, transportation and sale of natural gas as hereinafter described.

The Commission in Opinion No. 231, issued July 3, 1952, in Docket No. G-1693, authorized and directed Texas Eastern Transmission Corporation (Texas Eastern), in paragraph (3) of its orders, to reserve not to exceed 300 Mcf of natural gas a day for Applicant. This reservation was conditioned upon Applicant receiving the necessary authorization from the Commission on or before November 1, 1952. Applicant proposes to purchase not to exceed 300 Mcf of natural gas a day from Texas Eastern and to transport and sell this gas to its customers in the villages of Caldwell, Dexter City, Macksburg, Elba, Dudley, Olive and South Olive, all in Ohio, and the outlying and intermediate districts thereof. Applicant states that this volume of gas is necessary to supplement its existing supply in local wells which have become depleted.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 8th day of October 1952. The application is on file with the Commission for public inspection.

TENNESSEE GAS PIPE LINE CO.

NOTICE OF APPLICATION

SEPTEMBER 17, 1952.

Take notice that Tennessee Gas Pipe Line Company (Applicant), a Tennessee corporation having its principal place of business at Murfreesboro, Tennessee, filed on September 10, 1952, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the construction and operation of a natural-gas transmission pipeline approximately 12 miles in length extending from the City of Murfreesboro, Tennessee, to the nearest point of connection on the pipeline of Texas Eastern Transmission Corporation (Texas Eastern) in Tennessee.

By means of the proposed facilities Applicant proposes to transport natural gas for the account of Tennessee Gas Company, an affiliate, to the City of Murfreesboro where it will be delivered to Tennessee Gas Company for distribution to ultimate consumers.

The total over-all estimated cost of construction of the facilities in Docket No. G-2046 is $200,000, of which two thirds will be financed by the sale of bonds and the remainder through sale of equity securities.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 8th day of October 1952. The application is on file with the Commission for public inspection.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27405]

RUBBER TIRES FROM BAYWAY, N. J., AND CARLISLE, PA., TO SOUTHERN TERRITORY

APPLICATION FOR RELIEF

SEPTEMBER 17, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin, Agent, for carriers parties to his tariff ICC No. A-911.

Commodities involved: Tires, rubber, pneumatic and parts, carloads.

From: Bayway, N. J., and Carlisle, Pa.
To: Southern territory.

Grounds for relief: Competition with rail carriers, circuitous routes, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: C. W. Boin, Agent, ICC No. A-911, supl. 52.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[4th Sec. Application 27406]

POTATOES FROM MAINE TO NEW JERSEY AND PENNSYLVANIA

APPLICATION FOR RELIEF

SEPTEMBER 17, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin and I. N. Doe, Agents, for carriers parties to Agent I. N. Doe's tariff ICC No. 611.

Commodities involved: Potatoes, carloads.

From: Maine.

To: Points in New Jersey and Pennsylvania.

Grounds for relief: Competition with rail carriers, circuitous routes.

Schedules filed containing proposed rates: I. N. Doe, Agent, ICC No. 611, supl. 5.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54-198, 59-98]

INVESTMENT BOND AND SHARE CORP. ET AL.

ORDER RELEASING JURISDICTION WITH RESPECT TO FEES AND EXPENSES, DISMISSING PROCEEDING AND DECLARING THAT COMPANY HAS CEASED TO BE A HOLDING COMPANY

SEPTEMBER 17, 1952.

In the matter of Investment Bond and Share Corporation, and its subsidiaries, and William J. Walsh, Edwin Joseph Small, John F. Baker, George M. Baker, Catherine E. Baker, Katherine M. Baker, John T. Walsh, William F. Walsh, Janice G. Walsh, Anne W. Small, Edwin W. Small, Barbara S. Johnson, Wallace D. Johnson, and Baker, Walsh & Co., respondents, File No. 59-98; and Investment Bond and Share Corporation, and its subsidiaries, File No. 54-198.

The Commission by order dated July 11, 1952, having, among other things, approved a plan of liquidation of Investment Bond and Share Corporation ("IBS") pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act") and having reserved jurisdiction with respect to the payment of all fees and expenses incurred and having continued jurisdiction with respect to the proceedings instituted by the Commission pursuant to section 11 (b) and other sections of the act:

IBS and the other respondents having filed (1) a notification pursuant to Rule U-24 certifying that said plan of liquidation and other proposals have been consummated in accordance with the provisions of said plan and related proposals, (2) an application requesting approval of fees and expenses aggregating $38,006, including counsel fees of $30,000 payable to Dallstream, Schiff, Stern & Hardin, counsel to IBS, and $1,180 payable to Arthur Young & Company for accounting services, (3) requesting a dismissal of the proceeding instituted by the Commission pursuant to section 11 (b) of the act, among others, as to all respondents named therein and listed above, and (4) requesting an order declaring that IBS has ceased to be a holding company under the act;

Notice of such filing having been given and a hearing not having been requested or ordered;

The Commission finding that said plan of liquidation and other proposals have been consummated in accordance with the provisions thereof, that said fees and expenses in the amounts requested are not unreasonable, that the proceeding instituted by the Commission pursuant to section 11 (b) and other sections of the act should be dismissed and that IBS has ceased to be a holding company:

It is therefore ordered, That jurisdiction is hereby released with respect to the payment of the fees and expenses in the amount of but no more than the sums requested.

It is further ordered, That the proceeding herein instituted by the Commission pursuant to section 11 (b) and other sections of the act is hereby dismissed as to all respondents.

It is further ordered, That IBS has ceased to be a holding company under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

POTOMAC EDISON CO. AND POTOMAC LIGHT AND POWER CO.

ORDER PERMITTING PARENT COMPANY TO ACQUIRE COMMON STOCK FROM A SUBSIDIARY COMPANY

SEPTEMBER 17, 1950.

The Potomac Edison Company ("Potomac Edison"), a registered holding company, and its direct and wholly-owned public utility subsidiary, Potomac Light and Power Company ("Potomac Light"), have filed a joint application-declaration, and an amendment thereto, pursuant to sections 6, 7, 9, 10, and 12 of the act and Rules U-43 and U-44 promulgated thereunder with regard to certain transactions as follows:

Potomac Light proposes to issue and sell for cash 5,685 shares of its common stock to Potomac Edison at a price equal to the par value thereof of $100 per share, or a total consideration of $568,500.

Potomac Light proposes to use the proceeds from the sale of such shares for construction purposes. Potomac Edison states that it has in its treasury sufficient funds to purchase such shares without resorting to additional financing and that it will pledge such shares as collateral security for its First Mortgage and Collateral Trust Bonds, pursuant to the terms of the Trust Indenture, dated October 1, 1944, between Potomac Edison and Chemical Bank and Trust Company (New York) as Trustee.

It is represented in the filing that the above described transactions have been approved by the Public Service Commission of Maryland and the Public Service Commission of West Virginia to the extent that such transactions are subject to the jurisdiction of those Commissions, the filing containing copies of orders adopted by those Commissions.

It is requested that the Commission's order herein become effective upon issuance.

Said application-declaration, and an amendment thereto, having been filed and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to the act, and the Commission not having received a request for hearing with respect to said application-declaration, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said application-declaration, as amended, that the requirements of the applicable provisions of the act and rules thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that the said application-declaration, as amended, be granted and permitted to become effective, forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[Vesting Order 19011]

KAROLINA ESSKUCHEN MÜLLER

In re: Rights of Karolina Esskuchen Müller under insurance contract. File No. F-28-31839-H-1.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.) and pursuant to law, after investigation, it is hereby found:

1. That Karolina Esskuchen Müller, whose last known address is 22b Nerzweiler, Pfalz, Germany, on or since December 11, 1941, and prior to January 1, 1947 was a resident of Germany, is, and prior to January 1, 1947, was, a national of a designated enemy country (Germany);

2. That the net proceeds due or to become due under a contract of insurance evidenced by Policy No. 4410 108 issued by The Mutual Life Insurance Company of New York, New York, New York, to Karolina Esskuchen Müller, and any and all other benefits and rights of any kind or character whatsoever under or arising out of said contract of insurance except those of Charles Skambea and Katherinela Skambea, residents of the United States, and the aforesaid Mutual Life Insurance Company of New York, together with the right to demand, receive and collect said net proceeds, is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Karolina Esskuchen Müller, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the person named in subparagraph 1 hereof be treated as a person who is and prior to January 1, 1947, was a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 17, 1952.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

THE NATIONAL ARCHIVES
LITTERA SCRIPTA MANET
1934
OF THE UNITED STATES

FEDERAL REGISTER

VOLUME 17 NUMBER 187

Washington, Wednesday, September 24, 1952

TITLE 7—AGRICULTURE

Chapter III—Bureau of Entomology and Plant Quarantine, Department of Agriculture

PART 303—COOPERATIVE SUPPRESSION OF PLANT DISEASES AND INSECT PESTS

SUBPART—GOLDEN NEMATODE SUPPRESSIVE PROGRAM, 1952 SEASON

Pursuant to the authority conferred by the Golden Nematode Act (62 Stat. 442; 7 U. S. C. Sup. V 150–150e), and the Secretary of Agriculture of the United States having determined that the State of New York, through legislation, appropriations, and issuance of quarantine regulations has provided authority, funds, and other means for that State to carry out effectively for the 1952 potato crop year a cooperative program to suppress, control, and prevent the spread of the infestation of the golden nematode known to exist in a certain area in that State, the Secretary of Agriculture of the United States and the Commissioner of Agriculture and Markets of the State of New York hereby cooperatively promulgate the following regulations to govern the payment of compensation to growers in such area for not planting potatoes pursuant to such program.

Sec.
303.1 Eligibility for compensation.
303.2 Payment of compensation.
303.3 Agreement and voucher requirements.
303.4 Administration.

AUTHORITY: §§ 303.1 to 303.4 issued under 62 Stat. 442; 7 U. S. C. Sup. 150–150e.

§ 303.1 *Eligibility for compensation.* Compensation will be paid under the regulations in this subpart only to persons who: (a) During the 1952 potato crop year own and operate land customarily used for growing potatoes in the portion of Long Island, New York, where the golden nematode is known to occur; (b) refrain from planting potatoes on those portions of such land which are found to be infested or dangerously exposed to infestation by the golden nematode and plant on such portions of the land only crops approved by the Department of Agriculture and Markets of the State of New York (hereinafter called the New York Department of Agriculture); (c) comply in good faith with all regulations concerning the golden nematode promulgated by the United States Department of Agriculture and the New York Department of Agriculture; and (d) execute an agreement in the form provided for in § 303.3 and comply therewith.

§ 303.2 *Payment of compensation.* (a) Losses to owner-operators of lands found to be infested by or dangerously exposed to infestation by the golden nematode, arising from such owner-operators' refraining from planting potatoes pursuant to the cooperative program for the control and suppression of such nematode, shall be borne by the United States Department of Agriculture, the New York Department of Agriculture, and the owner-operators.

(b) Compensation to each owner-operator eligible therefor under the provisions of this subpart will be paid jointly and in equal amounts by the United States Department of Agriculture and the New York Department of Agriculture.

(c) It has been determined that, based on (1) the estimated value of crops approved by the New York Department of Agriculture for production on lands infested by the golden nematode, (2) an analysis of the average cost of producing potatoes in Long Island, New York, (3) the average annual yield of potatoes in Long Island, and (4) the estimated sale value of potatoes in that area, joint compensation of $60 per acre will not be more than two-thirds of the total loss accruing to any owner-operator from the nonplanting of potatoes. Therefore, compensation at the rate of $60 per acre will be paid to each eligible owner-operator with respect to lands of such owner-operator which are found to be infested by or exposed to infestation by the golden nematode. One-half of such payment will be made by the United States Department of Agriculture and the other one-half will be made by the New York Department of Agriculture.

§ 303.3 *Agreement and voucher requirements.* Each owner-operator who wishes to be eligible for compensation under the regulations in this subpart

shall execute an agreement with the New York Department of Agriculture on a form obtainable from said Department. The agreement shall be executed at least in duplicate. Claim for Federal compensation under the regulations in this subpart shall be made by each owner-operator eligible therefor by submitting to the United States Department of Agriculture one fully executed copy of the agreement certified by a responsible officer of the New York Department of Agriculture with a voucher (Standard Form 1034) executed by the owner-operator stating the purpose of the voucher substantially as follows:

One-half of compensation for refraining from planting potatoes on _____ acres of land infested by or exposed to the golden nematode.

The agreement and certificate will be deemed a part of the voucher. The agreement and certificate shall conform substantially to the sample forms thereof, filed in the Federal Register Division with this document.

§ 303.4 *Administration.* The Bureau of Entomology and Plant Quarantine of the United States Department of Agriculture has been authorized to carry out, on behalf of the Federal Government, the cooperative program to suppress, control and prevent the spread of the golden nematode during the 1952 potato crop year. The Federal official in charge of the Golden Nematode Project, working under the direction of the Chief of said Bureau, has been designated as the authorized agent of the Secretary of Agriculture of the United States for determining eligibility for compensation under the regulations in this subpart and approving the amount of compensation to be paid by the United States Department of Agriculture to any owner-operator who refrains from planting potatoes during the 1952 potato crop year.

Enabling legislation by the State of New York authorizing State cooperation, required by section 4 of the Golden Nematode Act as a requisite for Federal participation, is contained in Chapter 217 approved March 25, 1952. Regulations pertaining to the cooperative program to suppress the Golden Nematode for the 1951 season became effective September 4, 1951, 7 CFR Supp. § 303.1–3. The program to suppress the golden nematode was cooperatively reviewed September 13, 1951, by the United States Department of Agriculture and the Department of Agriculture and Markets of the State of New York, and it was jointly agreed that for the season of 1952 the procedures followed for the 1951 season would be continued but that the rate of compensation paid to each owner-operator of lands infested by or exposed to infestation by the golden nematode would be reduced to the rate of $60 per acre. Information with reference to this proposed change was presented to the land owners in advance of planting operations. Land owners recognized the value of the program for suppressing, controlling, and preventing the spread of the golden nematode.

Compliance with the provisions of the regulations is not obligatory, but confers a benefit upon eligible land owners. Accordingly, pursuant to the provisions of section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found, upon good cause, that further notice and public procedure on these regulations are unnecessary, impracticable and contrary to the public interest, and good cause is found for their issuance effective less than 30 days after publication.

The regulations in this subpart shall be effective September 24, 1952, and on that date shall supersede the regulations contained in 7 CFR, 1951 Supp. 303.1 et seq., effective September 4, 1951.

Done at Washington, D. C., this 18th day of September 1952.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

Concurred with August 11, 1952.

C. CHESTER DUMOND,
Commissioner of Agriculture and Markets, State of New York.

[F. R. Doc. 52-10361; Filed, Sept. 23, 1952; 8:46 a. m.]

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 993—DRIED PRUNES PRODUCED IN CALIFORNIA

DETERMINATION WITH RESPECT TO MAJOR CHANGE IN SUPPLY CONDITIONS

It is provided in § 993.63 (h) of Marketing Agreement No. 110, as amended, and Marketing Order No. 93, as amended, (7 CFR, 1951 Supp., Part 993), regulating the handling of dried prunes produced in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), that any surplus tonnage prunes remaining unsold as of July 31 shall be disposed of as soon as practicable for animal feed, distillation, or in any other outlets which are not competitive with the sale of prunes in normal marketing channels, not otherwise provided for, unless determination with respect to a shortage of supply has been made as provided for in § 993.63 (d) (5). It is provided in § 993.63 (d) (5) that any offer outstanding as of July 5 of any crop year shall be withdrawn and the Prune Administrative Committee shall not make any further offer to sell surplus tonnage to handlers after that date, except that if the committee determines, with the approval of the Secretary, that a major change in conditions has occurred, such as the involvement of the United States in war, a crop failure in the following year, or any other significant development, which indicates a shortage of supply, the said July 5 limitation shall no longer apply.

Pursuant to the aforesaid provisions of the marketing agreement and order, and on the basis of available information, the aforesaid committee has determined as follows: "That a major change in conditions has occurred and recommends that 2,875 tons of 1951 crop year surplus prunes now remaining in the surplus pool, previously relegated for disposal as animal feed to effect better economic stability in the prune industry, be released for sale for manufacturing purposes and primarily for prune juice so as to alleviate as much as possible the effects of this change in economic conditions brought about by a 1952 crop which has ample stocks of prunes to meet the demand for dried prunes as such but which lacks a sufficient supply of the type suitable and economically acceptable for manufacturing purposes."

Among the factors supporting the committee's determination are: (1) An estimated 1952 production of dried prunes in California of 137,000 tons, the smallest since 1929; (2) estimated 1952–53 requirements of dried prunes by juice manufacturers approximating 1951–52 requirements; (3) a much larger than normal proportion of medium and large size prunes in the 1952 dried prune production, thereby providing an adequate supply of dried prunes for consumption as such but a short supply of the grades and sizes of prunes economically acceptable for the manufacture of prune juice; (4) current early season prices to producers for 1952 crop prunes which average approximately 23 percent higher than the average price producers received for the 1951 crop; (5) an estimate that the total presently available quantity of dried prunes which the manufacturers can afford to use will not be sufficient to supply them with adequate stocks so priced as would permit them to meet the demand for prune juice.

Pursuant to the applicable provisions of the marketing agreement and order and on the basis of available information, it is hereby found that the Prune

Administrative Committee's determination that a major change in conditions has occurred which indicates a shortage of dried prunes for manufacturing purposes should be, and it hereby is, approved.

It is hereby found also that it is impracticable and unnecessary to give preliminary notice, to engage in public rule making and postpone the approval of the committee's determination that a major change in conditions has occurred until thirty days after publication thereof in the FEDERAL REGISTER because: (1) Delay now in the disposition of the 1951 crop surplus tonnage prunes results in their deterioration; (2) the committee made its determination and its proposal to sell such prunes to handlers for manufacturing purposes after extensive debate in open meetings and handlers are aware of the committee's action; (3) an offer of such prunes to handlers for manufacturing purposes would impose no obligation on the handlers to accept them; and (4) in the circumstances, handlers will not require any additional time to consider the committee's determination and its offer to sell such prunes to them.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c: 7 CFR, § 993.63)

Done at Washington, D. C., this 19th day of September 1952, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] C. J. MCCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 52-10387; Filed, Sept. 23, 1952; 8:50 a. m.]

PART 997—FILBERTS GROWN IN OREGON AND WASHINGTON

SALABLE, SURPLUS, AND WITHHOLDING PERCENTAGES

Notice of proposed rule making with respect to the fixing of salable, surplus, and withholding percentages of merchantable filberts for the fiscal year beginning August 1, 1952, was published in the FEDERAL REGISTER on September 6, 1952 (17 F. R. 8079), pursuant to the provisions of Marketing Agreement No. 115 and Order No. 97 regulating the handling of filberts grown in Oregon and Washington (7 CFR 1951 Sup., Part 997). In said notice, in which it was proposed to fix the salable percentage of merchantable in-shell filberts at 66 percent, the surplus percentage at 34 percent, and the withholding percentage at 52 percent for the fiscal year beginning August 1, 1952, opportunity was afforded interested parties to submit to the Department written data, views, or arguments for consideration prior to final issuance of the rule fixing the percentages.

During the period prescribed for submitting data, views and arguments with respect to the proposed percentages, the Department received several letters from independent filbert packers in which it was argued that (1) the estimate of trade demand of 11,000,000 pounds for the fiscal year beginning August 1, 1952, which was adopted by the Filbert Control Board, is too low, and (2) that the disappearance factor used by said Board in estimating 1952 merchantable filbert production also is too low and results in too high an estimate of such merchantable production.

With respect to item (1) above the independent packers who submitted briefs propose that the trade demand estimate for the 1952–53 fiscal year be increased to about 12,000,000 pounds from the 11,000,000 pounds recommended by the Board. A trade demand of 12,000,000 pounds would represent an increase of approximately 2,600,000 pounds, or about 28 percent, over the average trade acquisitions of about 9,400,000 pounds during the last three fiscal years. The aforesaid independent packers contend that the trade demand which they propose is a realistic estimate of the potential for filberts in 1952–53. They base this view, however, on the assumption that trade acquisitions in the fiscal years 1950–51 and 1951–52 would have been from 30 percent to 50 percent higher had it not been for the short filbert crops in those years and the resulting shortages of merchantable supplies. Such estimates of the trade demand potential for in-shell filberts may be subject to considerable upward bias because of duplication in orders received by packers but which were rejected for lack of supplies. The Department has decided that it would not be justified in increasing the Board's estimate of trade demand on the basis of the aforesaid views and arguments and believes that an estimate of 11,000,000 pounds, which is 17 percent above the average trade demand for the last three fiscal years, is a practical and realistic objective in the 1952–53 fiscal year.

In connection with item (2) above independent packers who submitted briefs regarding the proposed percentages argued that a disappearance factor of 27.1 percent should be used in converting 1952 orchard-run production to merchantable production. This compares with the factor of 25.1 percent adopted by the Board at its meeting in Portland, Oregon, on August 15, 1952, as a compromise between the different viewpoints of Board members regarding such factor. The Department recognizes the difficulty of making accurate estimates of the disappearance factor for filberts. However, as a result of the analysis of data submitted by the Board and individual packers regarding historical crop disposition and special conditions expected in the fiscal year 1952–53 which might affect production of merchantable filberts, the Department does not believe it would be justified in changing the Board's estimate of disappearance.

It is hereby found and determined that good cause exists for making this document effective upon its publication in the FEDERAL REGISTER instead of waiting thirty days after publication, for the reasons that (1) it is desirable that the percentages be fixed prior to any handling of 1952 crop filberts, (2) the handling of 1952 crop filberts will be imminent thereafter, and (3) operations under the marketing agreement and order will not require handlers to make any preparation in complying with the percentages fixed herein prior to the fixing of such percentages.

After consideration of the data, views and arguments submitted with respect to the proposed percentages and other relevant matters, the percentages are fixed as follows:

§ 997.202 *Salable, surplus, and withholding percentages for merchantable in-shell filberts.* For the fiscal year beginning August 1, 1952, the salable percentage of merchantable in-shell filberts shall be 66 percent, the surplus percentage shall be 34 percent, and the withholding percentage shall be 52 percent.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 19th day of September 1952, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Branch.

[Amdt. 17]

PART 610—MINIMUM EN ROUTE INSTRUMENT ALTITUDES

ALTERATIONS

The minimum en route IFR altitudes appearing hereinafter have been coordinated with interested members of the industry in the regions concerned insofar as practicable. The altitudes are adopted without delay in order to provide for safety in air commerce. Therefore, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable. Part 610 is amended as follows:

1. Section 610.6007 *VOR Civil Airway No. 7,* is amended to read in part:

From—	To—	Minimum altitude
Cross City, Fla. (VOR): Dir. & W. Alter.	Tallahassee, Fla. (VOR): Dir. & W. Alter.	1,400

2. Section 610.6016 *VOR Civil Airway No. 16,* is amended by adding:

From—	To—	Minimum altitude
Tucson, Ariz. (VOR)..	Cochise, Ariz. (VOR).	11,000
Cochise, Ariz. (VOR)..	Columbus, N. Mex. (VOR).	12,000

3. Section 610.6023 *VOR Civil Airway No. 23,* is amended to read in part:

From—	To—	Minimum altitude
Eugene, Oreg. (VOR): Via W. Alter.	Newburg, Oreg. (VOR): Via W. Alter.	5,000
Portland (Manor), Oreg. (VOR).	Seattle, Wash. (VOR).	5,000
Seattle, Wash. (VOR)..	Bellingham, Wash. (VOR).	4,000

4. Section 610.6066 *VOR Civil Airway No. 66,* is amended to read in part:

From—	To—	Minimum altitude
San Diego, Calif. (VOR).	Seeley (INT), Calif...	10,000
Barrett Lake, Calif. (FM).	San Diego, Calif. (VOR): Westbound only.	6,000
Douglas, Ariz. (VOR)..	Int. Douglas, Ariz. (VOR): rad. 50 & Columbus, N. Mex. (VOR) rad. 264.	13,000
Int. Douglas, Ariz. (VOR): rad. 50 & Columbus, N. Mex. (VOR) rad. 264.	Columbus, N. Mex. (VOR).	12,000

5. Section 610.6098 *VOR Civil Airway No. 98,* is amended to read in part:

From—	To—	Minimum altitude
Coalinga, Calif. (VOR).	San Francisco, Calif. (VOR).	7,000

6. Section 610.6101 *VOR Civil Airway No. 101,* is added to read:

From—	To—	Minimum altitude
Ogden, Utah (VOR)...	Burley, Idaho (VOR).	12,500

7. Section 610.01 *Green Civil Airway No. 1,* is amended to read in part:

From—	To—	Minimum altitude
Millinocket, Maine (LFR).	Orient (INT), Maine.	2,100

8. Section 610.14 *Green Civil Airway No. 4,* is amended to read in part:

From—	To—	Minimum altitude
Pittsburgh, Pa. (LFR)—	New Alexandria, Pa. (LF/RBN).[1]	3,000
Gage, Okla. (LFR.....	Wichita, Kans. (LFR).	3,600

[1] 4,000'—minimum crossing altitude at New Alexandria (LF/RBN), eastbound.

9. Section 610.18 *Green Civil Airway No. 8,* is amended to read in part:

From—	To—	Minimum altitude
Cold Bay, Alaska (LFR).	King Salmon, Alaska (LFR)	10,000

10. Section 610.101 *Amber Civil Airway No. 1,* is amended to read in part:

From—	To—	Minimum altitude
Skwentna, Alaska (LFR).[1]	Puntilla Lake, Alaska (LF/RBN).	9,100
Puntilla Lake, Alaska (LF/RBN).	Farewell, Alaska (LFR).[2]	9,100
Hinchinbrook, Alaska (LFR).	Whittier (INT), Alaska.[3]	4,800

[1] 7,000'—minimum crossing altitude at Skwentna (LFR), westbound.
[2] 8,600'—minimum crossing altitude at Farewell (LFR), southeast-bound.
[3] 8,600'—minimum crossing altitude at Whittier (INT), westbound.

11. Section 610.103 *Amber Civil Airway No. 3,* is amended to read in part:

From—	To—	Minimum altitude
Truth or Consequences, N. Mex. (LFR).	Belen, N. Mex. (LF/RBN).	10,000
Belen, N. Mex. (LF/RBN).	Albuquerque, N. Mex. (LFR).	8,000

12. Section 610.104 *Amber Civil Airway No. 4,* is amended to read in part:

From—	To—	Minimum altitude
Allee, Tex. (LFR).....	Losoya (INT), Tex...	1,800

13. Section 610.106 *Amber Civil Airway No. 6,* is amended to read in part:

From—	To—	Minimum altitude
Smyrna, Ga. (FM).....	Atlanta, Ga. (LFR): Southeast-bound only	3,000
	Northwest-bound only	3,200

14. Section 610.109 *Amber Civil Airway No. 9,* is amended to read in part:

From—	To—	Minimum altitude
Myrtle Beach, N. C. (LFR).	Wilmington, N. C. (LFR).	1,400

15. Section 610.111 *Amber Civil Airway No. 11,* is amended to read in part:

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5970]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

PHILADELPHIA CHEWING GUM CORP.

Subpart—*Using or selling lottery devices:* § 3.2480 *In merchandising.* In connection with the offering for sale, sale and distribution of chewing gum or other articles of merchandise in commerce, (1) selling or distributing to jobbers and wholesale dealers or others, chewing gum or other merchandise so packed and assembled that the sales of such chewing gum or other merchandise to the general public are to be made, or are intended or designed to be made, by means of a lottery, gaming device or gift enterprise; (2) packing or assembling in the same package or assortment of chewing gum, for sale to the public at retail, pieces of chewing gum contained within wrappers bearing various legends or letters, which wrappers, bearing particular legends or letters, when obtained in particular combinations, entitle the holder thereof to certain specified articles of merchandise as a prize; or (3) selling or distributing any assortments of chewing gum, or other merchandise, which are designed or intended to be used in the distribution of merchandise to members of the public by lottery or chance; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Philadelphia Chewing Gum Corporation, Havertown, Pa., Docket 5970, June 23, 1952]

This proceeding was heard by James A. Purcell, hearing examiner, upon the complaint of the Commission and respondent's answer, in which it admitted all of the material allegations of fact set forth in said complaint, waived all intervening procedure and further hearing as to said facts, and consented that an order to cease and desist might issue in the form set forth in the "Notice" portion of said complaint.

Thereafter the proceeding regularly came on for final consideration by said examiner, theretofore duly designated by the Commission, upon said complaint and answer thereto, all intervening procedure having been waived and the right to submit proposed findings and conclusion not having been reserved or requested, and said examiner, having duly considered the record in the matter and having found the proceeding in the interest of the public, made his initial decision, comprising certain findings as to the facts,[1] conclusion[1] drawn therefrom, and order to cease and desist.

No appeal having been filed from said initial decision of said hearing examiner as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII became the decision of the Commisison on June 23, 1952.

The said order to cease and desist is as follows:

It is ordered, That the respondent, Philadelphia Chewing Gum Corporation, its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of chewing gum or other articles of merchandise in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Selling or distributing, to jobbers and wholesale dealers or others, chewing gum or other merchandise so packed and assembled that the sales of such chewing gum or other merchandise to the general public are to be made, or are intended or designed to be made, by means of a lottery, gaming device or gift enterprise;

2. Packing or assembling in the same package or assortment of chewing gum, for sale to the public at retail, pieces of chewing gum contained within wrappers bearing various legends or letters, which wrappers, bearing particular legends or letters, when obtained in particular combinations, entitle the holder thereof to certain specified articles of merchandise as a prize;

3. Selling or distributing any assortments of chewing gum, or other merchandise, which are designed or intended to be used in the distribution of merchandise to members of the public by lottery or chance.

By "Decision of the Commission and order to file report of compliance," Docket 5970, June 23, 1952, which announced and decreed fruition of said initial decision, report of compliance was required as follows:

It is ordered, That the respondent herein shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: June 23, 1952.

By the Commission.

[SEAL] D. C. DANIEL,
Secretary.

[F. R. Doc. 52-10382; Filed, Sept. 23, 1952; 8:49 a. m.]

TITLE 29—LABOR

Chapter I—National Labor Relations Board

PART 102—RULES AND REGULATIONS, SERIES 6

CONSENT ELECTION AGREEMENTS

By virtue of the authority vested in it by the National Labor Relations Act, 49 Stat. 499, 452, approved July 5, 1935, as amended by the Labor Management Relations Act, 1947, Public Law 101, Eighteith Congress, first session, the National Labor Relations Board hereby issues the following amendment to its rules and regulations, Series 6, as amended, which it finds necessary to carry out the provisions of said act. National Labor Relations Board rules and regulations, Series 6, as amended, shall be in force and effect until further amended, or rescinded by the Board.

Dated: Washington, D. C., September 19, 1952.

By direction of the Board.

LOUIS R. BECKER,
Executive Secretary.

The rules and regulations of the National Labor Relations Board, Series 6,

as amended,[1] are hereby further amended.

Section 102.54 is amended as follows:

At the end of paragraph (a) of § 102.54 *Consent election agreements*, strike the period, insert a comma, and add the words: "provided further that rulings or determinations by the regional director in respect to any amendment of such certification, shall also be final."

(Sec. 101, 61 Stat. 140; 29 U. S. C. Sup., 156)

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 10, Revision 1, Amdt. 1]

CPR 10—SOAPS, CLEANSERS AND SYNTHETIC DETERGENTS

DISTRIBUTORS' CEILING PRICES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment to Ceiling Price Regulation 10, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

During the past four months manufacturers of soaps, cleansers and synthetic detergents have introduced a number of changes in their products which require the establishment of new ceiling prices by distributors. Under CPR 10, Revision 1, distributors would in many instances have been obliged to apply to OPS under section 9 for the establishment of new ceiling prices. This method is impracticable because of the large number of distributors, estimated at 500,000. This amendment provides methods by which distributors calculate their own new ceiling prices. They will use an appropriate percentage markup previously established under this regulation for the most nearly comparable product.

The amendment becomes effective on September 27, 1952. In order, however, to facilitate the establishment of ceiling prices for sales made after that date of products with a new weight or composition established since April 30, 1952, the amendment calls for the establishment of ceiling prices in accordance with the new provisions for future sales of products which have since April undergone the changes specified.

In the formulation of this amendment there has been consultation with industry representatives, to the extent practicable, and consideration has been given to their recommendations. Special circumstances have rendered consultation with trade association representatives impracticable. In the judgment of the Director of Price Stabilization, the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of that Act.

AMENDATORY PROVISIONS

Ceiling Price Regulation 10, Revision 1, is hereby amended as follows:

1. Paragraph (d) of section 9 is redesignated as paragraph (e).

2. The following is introduced as a new paragraph (d) of section 9.

(d) (1) If the manufacturer of a packaged household soap, cleanser, or synthetic detergent changes the weight of the retail package by more than five percent, but there is no change either in net weight or the ceiling price to you of the wholesale unit (e. g. case) in which you purchase such product, determine your ceiling price for your sale of such product under subparagraph (i) or (ii) of this paragraph, whichever is applicable:

(i) If you are a jobber or wholesaler, there is no change in your ceiling price.

(ii) If you are a retailer, determine your new ceiling price per retail package by applying to your supplier's ceiling price the same percentage markup over your supplier's ceiling price as you had established under this regulation on the item at its previous weight. Divide the result by the new number of packages in the wholesale unit.

EXAMPLE: Manufacturer A previously sold you a packaged detergent packed 9 to a case, at his ceiling price of $6.30 per case. You, the retailer, had a customary markup of 8 percent on the item, giving you a per package price of $\frac{\$6.30\times 108\%}{9}=\$0.7560$ which, when rounded to the nearest whole cent is 76 cents, your ceiling price under this regulation. Manufacturer A now changes the number of units per case from 9 to 10 but makes no change in the net weight or ceiling price of case lots. Your ceiling price on the new size unit or package is obtained by applying your customary markup of 8 percent to your supplier's ceiling price of $6.30 and dividing by 10 the number of units or packages now in each case. $\frac{\$6.30\times 108\%}{10}=\$0.6804$, which, when rounded to the nearest whole cent is 68 cents, your new ceiling price.

(2) (i) If the manufacturer of a packaged household soap, cleanser or synthetic detergent changes the weight of the wholesale unit by more than 5 percent and if you are a jobber or wholesaler of such product, determine your new ceiling price for wholesale units by applying to the manufacturer's ceiling price the same percentage markup as was reflected in your ceiling price for such product before its weight was so changed.

(ii) If the manufacturer of a packaged household soap, cleanser or synthetic detergent changes the net weight of both the wholesale and the retail units by more than 5 percent, and you are a retailer of such product, determine your new ceiling price by applying to your supplier's ceiling price to you the percentage markup over your supplier's ceiling price which was reflected in your ceiling price for the product before the weight was so changed.

EXAMPLE: The previous ceiling price of manufacturer B to retailer for a 16 ounce package of soap flakes, packed 24 to a case, was $6.50. On this item you as a retailer had an 8 percent markup, which gave you a per package price of $\frac{\$6.50\times 108\%}{24}=\$0.2925$, which, when rounded to the nearest whole cent, is 29 cents, your ceiling price under this regulation. Manufacturer B increases the net weight of his package from 16 ounces to 20 ounces and his ceiling prices from $6.50 per case of 24 to $8.125 per case of 24. You, as a retailer, compute your ceiling price on the new item by applying your 8 percent markup to the manufacturer's new ceiling price and dividing the product by the number of units per case. This will be $\frac{\$8.125\times 108\%}{24}$ or $0.3656, which, when rounded to the nearest whole cent, is 37 cents, your new ceiling price.

(3) If a manufacturer produces a household soap (cake, bar, flake, or powder), household detergent (powdered or liquid) or household cleanser with a composition different from that of any product for which you had previously established a ceiling price under this regulation, and you are a jobber, wholesaler, or retailer, determine your ceiling price for such new item by applying to your supplier's ceiling price the same percentage markup over the supplier's ceiling price as is reflected in your ceiling price for your sales of the most nearly similar nationally distributed product of the same approximate weight.

EXAMPLE: Manufacturer X introduces a new packaged detergent, packed 24 to a case, at a ceiling price of $6.24 per case. You, as a retailer, sell a closely similar product, which is nationally distributed in units of approximately the same weight as the new product on which you have a markup over cost of 9 percent. You compute your per package ceiling price on this new product by applying this 9 percent markup to your supplier's ceiling price and dividing the product obtained by the number of units per case. This will be $\frac{\$6.24\times 109\%}{24}$ or $0.2834, which, when rounded to the nearest whole cent is 28 cents.

(4) If a manufacturer produces any product (other than products described in paragraph (3)) whose composition is different from that of any product for which you had previously established a ceiling price under this regulation and you are a jobber, wholesaler or retailer, determine your ceiling price for such new item by applying to your supplier's ceiling price the same percentage markup over your supplier's ceiling price as is reflected in your ceiling price under this regulation for the soap or synthetic detergent (as the case may be) whose ceiling price to you is nearest to your supplier's ceiling price to you for such new product.

EXAMPLE: Manufacturer Y introduces a combination soap-detergent toilet cake, packed 100 to a case, at a ceiling price of $8.50 per case. You have never sold such an item before. However, you do sell a cake of soap or synthetic detergent which from the standpoint of cost to you has approximately the same ceiling price, i. e., $8.60. On this item you, as a retailer, have a customary markup of 10 percent. You compute your ceiling price on the new combination cake by applying this 10 percent markup to your supplier's ceiling price ($8.50) and dividing the product obtained by the number of units per case, which, in this instance, will be $\frac{\$8.50\times 110\%}{100}$ or $0.0935 which, when rounded to the nearest whole cent, is 9 cents.

(5) Carry all calculations under this paragraph (d) to the fourth decimal place and round the final fractional result to the nearest whole cent.

(6) If you are a distributor other than a retailer and you establish ceiling prices under this paragraph (d), you must inform all your buyers of such ceiling prices and inform them of the subparagraphs of this paragraph (d) under which they were established.

(7) This paragraph (d) applies to all sales made by distributors subsequent to September 27, 1952 of any of the products covered in this paragraph as to which any of the types of changes referred to in this paragraph occur after April 30, 1952.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective September 27, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

SEPTEMBER 22, 1952.

[F. R. Doc. 52-10414; Filed, Sept. 22, 1952; 4:00 p. m.]

[Ceiling Price Regulation 69, Amdt. 5]

CPR 69—FOOD PRODUCTS SOLD IN THE TERRITORY OF HAWAII

MISCELLANEOUS AMENDMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 5 to Ceiling Price Regulation 69, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

Ceiling Price Regulation 69, Revision 1, establishes ceiling prices on certain food items at various levels of distribution.

Dollar and cent ceiling prices are established for certain food items and ceiling prices computed by the application of a division factor to "direct cost" (as defined in section 1.15) are established for various other items. In issuing this regulation, the intention of the Office of Price Stabilization was to permit sellers of items imported from foreign countries to compute their direct cost and ceiling prices on the same basis as sellers of items brought into the Territory from the continental United States. This intention, however, is not clear from the present wording of section 1.15. This amendment clarifies section 1.15 and provides that the direct cost of imported articles covered by the regulation is the sum of the amounts corresponding to the charges itemized and included in direct cost for articles brought into the Territory from the mainland, plus certain specified charges peculiar to imports.

This amendment also makes certain changes in the method of tax computation. Section 1.15 has been amended to permit retailers to subtract .02 from each of the division factors used to compute their ceiling prices. If retailers elect to pursue this course, the resulting ceiling prices will be "tax included" and no further additions may be made.

Retailers in Hawaii have requested this change, since, customarily, they have quoted "tax included" prices. A number of retailers have complained to the Territorial Office that the present requirement of separate statement of taxes has caused some consumer resistance and dissatisfaction. Since the resulting ceiling prices will be approximately the same, in a few cases, slightly less than the ceiling prices plus taxes computed in accordance with the regulation as it now stands, the Office of Price Stabilization finds this amendment desirable.

Ceiling Price Regulation 69, Revision 1, requires retail grocers to post both their ceiling and selling prices. The Office of Price Stabilization has determined, with respect to these grocers, that the Stabilization program can be as well served by the posting of selling prices alone. This will relieve grocers of the burden of posting both prices, and will also follow the Office of Price Stabilization practice in the mainland grocery regulation. Section 1.7 (b) of the regulation has been amended accordingly.

Section 1.10 (b) is amended to require retail grocers to compute their ceiling prices each time the direct cost changes, and to note on their records the recomputed ceiling price and the selling price of the first sale of each commodity included in the invoice or record. The requirement for the posting of ceiling prices in the regulation, which requirement has been deleted by this amendment, effectively assured the computation of the ceiling price by each retail grocer. With the removal of the requirement for posting ceiling prices some method of assuring the computation of the ceiling price based on changes in cost is required. This provision will achieve that result, and will moreover provide a record helpful in the enforcement of the regulation.

In the formulation of this amendment, the Office of Price Stabilization has consulted extensively with members of the retail grocery industry and trade associations in Hawaii and full consideration has been given to their recommendations.

AMENDATORY PROVISIONS

1. Paragraph (c) of section 1.15 of Ceiling Price Regulation 69, Revision 1, is amended to read as follows:

(c) If you purchase goods directly from a foreign seller or his agent for importation into the Territory of Hawaii, your direct cost is the sum of the amount corresponding to the amounts stated in paragraph (a) (1) of this section actually incurred by you and may also include the following amounts when they are actually incurred by you: customs duties or import taxes; other commodity taxes; dock charges; clearance; insurance; letter of credit expenses; and any customary buying commission to a purchasing agent outside the United States.

2. Section 1.5 is amended by inserting the following undesignated paragraph at the end thereof:

In the event that you do not collect any tax in addition to your ceiling price in accordance with this section you may compute your ceiling price for each item listed in Tables 5A and 5B by dividing the direct cost (as defined in section 1.15) of that commodity by the division factor given you for it in Tables 5A and 5B, after reducing that division factor by .02.

Example. If you do not choose to collect a tax in addition to your ceiling price on coffee, which has a division factor of .87, you may reduce this division factor of .87 by .02 and compute your ceiling price on coffee by using the division factor of .85.

3. Paragraph (b) of section 1.7 is amended to read as follows:

(b) *Posting.* On and after the effective date of this regulation every person offering to sell any listed commodity at retail shall display the selling price of such commodity in a manner plainly visible to and understandable by the purchasing public. The selling prices may be displayed on the commodity itself or may be posted in a place in the establishment where the commodity is offered for sale.

4. Paragraph (b) of section 1.10 is amended to read as follows:

(b) *Retailers.* If you purchase and sell listed commodities at the retail level in the course of trade or business, and if your ceiling price is fixed by this regulation on the basis of direct cost plus a fixed markup (which includes the use of a division factor), you must preserve and keep available for inspection by the Director of Price Stabilization for a period of two years, all invoices or other records showing purchases of listed commodities by you. You must write on the invoice or other record of each purchase on the basis of which you compute or recompute your ceiling price, or on a separate piece of paper attached to the invoice or other record, the direct cost per selling unit of the purchase. You must recompute your ceiling price for a commodity each time the direct cost of that commodity changes. You must keep separate, or mark or tag plainly, all invoices or other records on which this direct cost per selling unit has been written.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

NOTE. The record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Effective date. This Amendment 5 to Ceiling Price Regulation 69, Revision 1 is effective September 27, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

SEPTEMBER 22, 1952.

[F. R. Doc. 52-10412; Filed, Sept. 22, 1952 1:04 p. m.]

[1] This amends rules and regulations, Series 6, effective March 1, 1951 which appeared at 16 F. R. 1934, as amended in 16 F. R. 11636, effective October 23, 1951, and November 16, 1951, and as amended in 17 F. R. 4982, effective June 3, 1952.

[Ceiling Price Regulation 120, Amdt. 5]

CPR 120—Ceiling Prices for Territorial Restaurants and Eating and Drinking Establishments

SERVICE CHARGES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 5 to Ceiling Price Regulation 120 is hereby issued.

STATEMENT OF CONSIDERATIONS

Ceiling Price Regulation 120 establishes ceiling prices for the sale of meals, food items, and beverages served by restaurants and eating and drinking establishments in Alaska, Guam, Hawaii, Puerto Rico and the Virgin Islands.

Section 7 of the regulation establishes ceiling prices for certain service charges such as entertainment charges on the basis of the highest price received during the calendar year 1951 for the same service. Provision is made in paragraph (b) of section 7 for a restaurant operator, who did not have entertainment in his eating and drinking establishment, and who now wishes to change the policy of his operation and to provide entertainment, to apply to the Territorial Director of the Office of Price Stabilization for permission to institute an entertainment or cover charge for such entertainment.

It has been called to the attention of the Office of Price Stabilization that the regulation does not contain a provision for a restaurant operator who furnished entertainment for which he made no charge, to apply to the Territorial Director of the Office of Price Stabilization for permission to institute an entertainment charge where costs are increased due to a different type of entertainment. Accordingly, section 7 of CPR 120 is being amended to provide that if a restaurant operator offered entertainment during the calendar year 1951 but did not make a charge for it and now wishes to replace the entertainment with another type of entertainment which costs more and by reason of the change to institute an entertainment charge, he may apply to the Territorial Director of the Office of Price Stabilization for permission to institute such charge. In addition, if the restaurant operator offered entertainment during the calendar year 1951 for which he made a charge, and now wishes to replace the entertainment previously offered with another type of entertainment which costs more and by reason of the change wishes to increase the entertainment charge, he may also apply to the Territorial Director of the Office of Price Stabilization for permission to increase such charge.

In the formulation of this amendment there has been consultation with industry representatives and consideration has been given to their recommendations. In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of Title 4 of the Defense Production Act as amended.

AMENDATORY PROVISIONS

1. Paragraphs (b) and (c) of section 7 of CPR 120 are amended to read as follows:

(b) You may apply to the Territorial Director of the Office of Price Stabilization for permission to institute or increase an entertainment charge in the following circumstances:

(1) If during the calendar year of 1951 you did not have entertainment in your eating and drinking establishment and you now wish to change the policy of your operation and provide entertainment, and to make a charge for it; or

(2) If during the calendar year 1951 you offered entertainment but did not make a charge for it and you now wish to replace the entertainment with another type of entertainment which costs you more and, by reason of the change, to institute an entertainment charge; or

(3) If you offered entertainment during the calendar year 1951 for which you made a charge, and you now wish to replace the entertainment previously offered with another type of entertainment which costs you more and by reason of the change to increase your entertainment charge.

(c) Your application under paragraph (b) of this section must contain the name and address of your establishment, the reason you are requesting permission to institute or increase an entertainment charge, and your proposed ceiling price for such a charge or the amount of increase requested. You must submit a copy of the contract with the person furnishing the entertainment and the terms and conditions of employment. You must also submit a statement of the terms and conditions of employment, including cost, entered into by you in the calendar year 1951, which reflects your highest cost for entertainment in that year. If you wish, you may submit a copy of the contract which contains this information in lieu of the statement. The Office of Price Stabilization will consider the type of entertainment you propose to offer, the terms and conditions of the contract, and whether the institution or increase of an entertainment charge is bona fide and not for the purpose of evasion. If the Office of Price Stabilization finds that you qualify under this section, it will grant you permission to institute or increase an entertainment charge in an amount necessary to cover the cost or the increased cost of the entertainment. The permission to institute or increase an entertainment charge in a specified amount granted under this paragraph permits you to charge the authorized amount only as long as you continue to offer the same type of entertainment.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 5 to Ceiling Price Regulation 120 is effective September 27, 1952.

NOTE: The reporting requirements of this amount have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

[F. R. Doc. 52-10411; Filed, Sept. 22, 1952; 1:04 p. m.]

[General Ceiling Price Regulation, Amdt. 13 to Supplementary Regulation 29]

GCPR, SR 29—Ceiling Prices for Certain Sales at Retail and at Wholesale

RECALCULATION OF CEILING PRICES BY CATEGORIES OR PRODUCT LINES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment to Supplementary Regulation 29 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

Section 4 of SR 29 to the General Ceiling Price Regulation provides for changes in resellers' ceiling prices to reflect suppliers' price changes pursuant to ceiling price regulations. Inasmuch as a reseller under this section is permitted or required to adjust his ceiling prices only for commodities received at the increased or decreased cost, it has been necessary in establishing ceiling prices to distinguish between those commodities which were in inventory prior to the cost change and those commodities received in inventory at the increased or decreased cost.

Under the regulation as it stood before this amendment a reseller had two methods of determining the portion of his inventory as to which an adjustment was applicable. He could, of course, have physically separated the units of a given commodity purchased before their cost had changed from those actually purchased at the increased or decreased cost. He could also, as the Office of Price Stabilization has held by interpretation, have adjusted his ceiling price under SR 29 when the number of units of the given commodity sold by him since the receipt of new items of that same commodity at the increased or decreased cost equal the number on hand when the new merchandise was received. The latter method is commonly known as "first-in, first-out" or "Fifo."

Neither the physical segregation method nor the "Fifo" method is completely suitable to the type of business enterprise in which the manufacturing entity is a separate legal entity from the unit or units in which retail or wholesale sales are made, since the result in both cases is that ceiling prices of different items in the same category or product line will fall due for adjustment at different times, depending upon the rate of inventory depletion of particular items. Thus the pattern of pricing as between items in a category or product line is completely destroyed. Further, the use of either of these methods may make uniform pricing in the units of a chain virtually impossible even as to single items, since inventory exhaustion of a particular item will generally occur at a different time in each unit of the chain. Where the manufacturing and selling components are parts of the same legal entity, ceiling price changes under manufacturers' regulations become effective at the same time in all the selling outlets.

This amendment is designed to permit the same result where the manufacturing and selling components are separate legal entities. Under its provisions, a group of separately incorporated reseller outlets under common ownership or control with, and buying an entire category or product line output of, a manufacturer who employs a category or product line method in recalculating his ceiling prices and who increases the prices of products in that category or line by a uniform percentage amount under authority of OPS regulations, may apply for an order permitting the reseller outlets to put into effect at one time recalculated ceiling prices for the entire category or product line, provided demonstration is made that the applicant's net realization, in terms of ceiling prices, under the requested order will not exceed the net realization, in terms of ceiling prices, to which the applicant would have been entitled without the order.

Although, under prior interpretation, the so-called "Fifo" method has been in use under the regulation, it was considered advisable to spell out this method explicitly as one which could be adopted at the seller's option. This the amendment does.

In formulating this amendment, the Director of Price Stabilization has consulted with industry representatives, including trade association representatives, and has given full consideration to their recommendations.

AMENDATORY PROVISIONS

Supplementary Regulation 29 to the General Ceiling Price Regulation is amended by adding a paragraph (f) to section 4 to read as follows:

(f) *How to obtain uniform ceiling prices for all units of the same commodity offered for sale at the same time.* When you have in stock units of the same commodity for which you would otherwise have different ceiling prices under this supplementary regulation, you may determine a uniform ceiling price by using the method set out in subparagraph (1) of this paragraph. If you are a group of resellers of the kind described in subparagraph (2) of this paragraph, you may apply to OPS for an order in accordance with that paragraph.

(1) *First-in, first-out (Fifo).* To use the "Fifo" method you proceed as follows:

(i) Determine how many units of the commodity you have in stock.

(ii) Determine, in the following manner, how many units are covered by each of the invoices for that commodity: If the number of units on hand is less than or equal to the number of units covered by the last (most recent) invoice, all the units on hand are deemed covered by the last invoice; if the number of units on hand is more than the number of units covered by the last invoice, a number of units equivalent to the number of units in the last invoice is deemed covered by the last invoice; the remaining units to the extent that they do not exceed the number in the next-to-the-last invoice are deemed covered by the next-to-the-last invoice; if there are any remaining units, they are deemed covered in the same way by previous invoices, proceeding in order from the more recent to the less recent invoices.

(iii) When you have determined how many units of the commodity in your inventory are covered by the respective invoices, you mark all of the units in your inventory at or below the ceiling price based on the earliest invoice until you have sold a quantity equal to the number of units covered by that invoice.

(iv) You then mark the balance of the units in your inventory at or below the ceiling price based on your next invoice until you have sold a quantity equal to the number of units on that invoice. You follow the same procedure with each successive invoice in chronological order.

(2) *Special method for certain resellers.* This subparagraph applies to you if you are a group of resellers under common ownership and control with a manufacturer from whom you buy his entire output of any particular category or product line. If that manufacturer recalculates his ceiling prices by a method which yields a uniform percentage adjustment for all commodities in a category or product line and if he increases or decreases by a flat percentage his selling prices to you for all commodities in that category or product line, you may apply to the Consumer Goods Division, Office of Price Stabilization, Washington 25, D. C. for an order authorizing all the resellers of the group to put into effect at one time recalculated ceiling prices for all commodities in that category or product line. This application must include:

(i) A statement that it is an application filed under this section of this regulation;

(ii) The names and addresses of all the sellers in the group;

(iii) The name and address of the manufacturer;

(iv) A statement that the resellers and the manufacturer named are under common ownership and control;

(v) Identify the manufacturer's categories or product lines covered by the application;

(vi) The date on which the manufacturer first sold or will sell to any reseller within the group at the new selling price;

(vii) The total inventory in the hands of the group of resellers as of the last date prior to the date in subdivision (vi), of this subparagraph for which you have figures kept in the regular course of your business;

(viii) Your total dollar sales for a period of a year prior to the date in subdivision (vi) for which you have monthly, quarterly or annual figures kept in the regular course of your business, and on the basis of these figures, the approximate date on which it can reasonably be expected that the inventory will be exhausted.

The Director of Price Stabilization may grant or deny the application in whole or in part. An order granting the application will permit you to put into effect the recalculated ceiling prices for all the resellers of the group on a date specified in the order. The order may require such subsequent reports and make such provision for subsequent adjustments in your ceiling prices as are, in the Director's judgment, necessary to insure that your net realization, in terms of ceiling prices, under the order will not exceed the net realization, in terms of ceiling prices, to which you would have been entitled without the order.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective September 27, 1952.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

SEPTEMBER 22, 1952.

[F. R. Doc. 52-10415; Filed, Sept. 22, 1952; 4:00 p. m.]

[General Ceiling Price Regulation, Supplementary Regulation 93, Revision 1]

GCPR, SR 93—Vending Machine Sales of Cigarettes

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Revision 1 of Supplementary Regulation 93 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

The Statement of Considerations to Supplementary Regulation (SR) 93 to the General Ceiling Price Regulation (GCPR) indicates that that supplementary regulation was issued to permit sellers of cigarettes from coin-operated automatic vending machines, whose ceiling prices were raised from 20 and 25 cents per package to 21 and 26 cents, respectively, to add one cent to those ceiling prices, thereby increasing them to 22 and 27 cents, respectively. This was made necessary by the one cent per package increase in the Federal excise tax on cigarettes, which became effective November 1, 1951. It was found that the cost of inserting pennies in each package sold from a vending machine, to make change from a quarter, was about one cent per package. Therefore, if only a one cent increase to compensate for the additional tax were permitted, the extra cost incurred to collect the one cent would cancel out that return and the seller would still be incurring an added cost of one cent per package as a result of the tax increase.

The wording of section 3 of SR 93 gave relief only to those sellers whose ceiling prices were or became 21 or 26 cents per package on or after March 31, 1952, the effective date of that supplementary regulation. However, in addition to the Federal tax increase, certain sellers incurred local tax increases between November 1, 1951, and March 31, 1952, so that, on that latter date, their ceiling prices were already 22 and 27 cents per package. They, therefore, could not increase their ceiling prices an additional one cent to compensate them for the extra cost incurred in inserting change in each package of cigarettes.

This Revision 1 of SR 93 corrects that situation. It provides that any seller of cigarettes from vending machines, whose ceiling price increased or increases to 21 or 26 cents per package after October 31, 1951, can raise his ceiling price to 22 or 27 cents, respectively. In addition, he may add to that 22 or 27 cent ceiling price the amount of any tax increase incurred by him after his ceiling price first increased to 21 or 26 cents. For example, if the sellers' ceiling prices were 20 cents per package on October 31, 1951, and they incurred tax increases of two cents per package since that date their ceiling prices, pursuant to this revision, would be 23 cents per package.

This revision also makes provision for the reduction of ceiling prices which have been increased under SR 93 if there is a subsequent reduction in taxes. In particular, it provides that when a reduction in taxes lowers a seller's ceiling price below 22 cents per package, the seller must deduct an extra one cent to compensate for the one cent he originally added to his ceiling price under SR 93 or this revision.

As indicated above, this revised SR 93 contains specific provisions concerning the handling of taxes by sellers who avail themselves of this revision. Therefore, for purposes of clarity, section 4 now specifically provides that certain paragraphs of section 20 of the GCPR do not apply to those sellers.

In the formulation of this revised supplementary regulation there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

In the judgment of the Director of Price Stabilization the provisions of this revised supplementary regulation are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of that act.

REGULATORY PROVISIONS

Sec.
1. What this regulation does.
2. Where this regulation applies.
3. Ceiling prices established by this regulation.
4. Continued applicability of the General Ceiling Price Regulation.

AUTHORITY: Secs. 1 to 4 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110; E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this regulation does.* This Supplementary Regulation (SR) 93, Revision 1, supersedes the original SR 93. It allows most sellers who distribute cigarettes from coin operated automatic vending machines to increase their ceiling prices for sales of cigarettes from these machines by 1 cent when their ceiling prices per package of cigarettes are 21 or 26 cents. In addition, it requires those sellers who increase their ceiling prices, as permitted herein, to reduce those ceiling prices if the reason for the increase ceases to exist.

SEC. 2. *Where this regulation applies* This regulation applies in the 48 States of the United States and in the District of Columbia.

SEC. 3. *Ceiling prices established by this regulation*—(a) *Increase in ceiling prices.* If you sell cigarettes from a coin operated automatic vending machine and, after October 31, 1951, your ceiling price (including excise, sales, and gross receipts taxes) for such sales increased or increases to 21 or 26 cents per package, respectively, you may raise your ceiling price to 22 or 27 cents per package, respectively. In addition, you may increase that 22 or 27 cent price by the exact amount of any increase in or new sales, excise or similar tax imposed on you (or of any increase in or new manufacturer's excise tax reflected on the invoice to you) after the date that your ceiling price first became 21 or 26 cents. However, you may not increase the ceiling price per package of cigarettes sold from any vending machine pursuant to this paragraph unless a selling price of 20 or 25 cents per package, respectively, from that machine is less than your net invoice cost per package of cigarettes plus state or local excise, sales, gross income and gross receipts taxes paid by you plus 5 cents per package.

(b) *Decrease in ceiling prices.* If you have, pursuant to paragraph (a) of this section, increased your ceiling prices for sales of cigarettes from coin operated automatic vending machines, and the amount of any tax included in your ceiling price (in accordance with that paragraph (a)) is reduced or eliminated, you must lower your ceiling price to reflect the amount of such reduction or elimination. Furthermore, if a given tax reduction lowers your ceiling price below 22 or 27 cents per package, respectively, you must at that time deduct an additional 1 cent from your ceiling price per package to compensate for the 1 cent you previously added to your ceiling price under paragraph (a).

Example: On November 1, 1951, the Federal excise tax of 1 cent per package of cigarettes became effective. Under section 20 of the General Ceiling Price Regulation (GCPR), as amended, your former selling price of 20 cents for sale of X brand cigarettes from coin operated automatic vending machines increased to 21 cents. Therefore, section 3 (a) of this revised supplementary regulation permits you to increase your ceiling price for X brand to 22 cents per package.

On January 1, 1952, an additional State excise tax of 1 cent per package became effective. Under section 3 (a) of this revised supplementary regulation you may, therefore, increase your ceiling price for X brand cigarettes from 22 cents to 23 cents per package.

However, your State later reduces its excise tax by 2 cents per package, which lowers your ceiling price, pursuant to section 3 (b) of this revised supplementary regulation, from 23 cents to 21 cents. You must, therefore, under section 3 (b), reduce your ceiling price by an additional 1 cent to 20 cents per package of X brand cigarettes.

SEC. 4. *Continued applicability of the General Ceiling Price Regulation.* All provisions of the General Ceiling Price Regulation, as amended, except section 20 (a), (b), (c), (d), (e), and (g) thereof, and except any other provisions which are modified by this revised supplementary regulation, and all the provisions of SR 29, as amended, except those which are modified by this revised supplementary regulation continue to apply to you even though you are one of the sellers who are authorized under this revised supplementary regulation to increase their ceiling prices.

Effective date. This Revision 1 of Supplementary Regulation 93 to the General Ceiling Price Regulation is effective September 27, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

SEPTEMBER 22, 1952.

[F. R. Doc. 52-10413; Filed, Sept. 22, 1952; 4:00 p. m.]

[Ceiling Price Regulation 125, Amdt. 1]

CPR 125—REFRACTORY PRODUCTS

ADJUSTMENT IN CEILING PRICES FOR MANUFACTURERS OF REFRACTORY PRODUCTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 1 to Ceiling Price Regulation 125 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to Ceiling Price Regulation 125 authorizes an increase of 5 percent in the manufacturer's ceiling prices of refractory products.

At the request of representatives of the refractory industry, the Office of Price Stabilization has completed a survey to determine whether the ceiling prices established for refractory products by Ceiling Price Regulation 125 are generally fair and equitable. In accordance with the requirements of the Industry Earnings Standard, earnings data were obtained from representative firms in the industry for the years 1946 through 1949 and by quarters for 1951 and the first two quarters of 1952. The price adjustment provided for by this amendment is based upon a comparison of aggregate earnings to consolidated net worth for the companies involved in the best 3 out of 4 years during the 1946 to 1949 period, with the aggregate earnings to consolidated net worth for a recent representative period. A comparison of the data referred to above indicates that the industry's earnings, until recently, were adequate under the Standard but that because of the impact of various increases and particularly the increased labor costs resulting from the labor contracts which the industry has recently put into effect, the industry's earnings have now decreased to the extent that a 5 percent increase in prices is required to restore them to the Industry Earnings Standard level (85 percent of the industry's average base period earnings, before income and excess profits taxes, adjusted for changes in net worth).

Accordingly, this amendment permits manufacturers of refractory products to increase their ceiling prices by 5 percent.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and full consideration has been given to their recommendations.

AMENDATORY PROVISIONS

1. A new section 5a is added to read as follows:

SEC. 5a *Adjustment in ceiling prices.* If you are a manufacturer of refractory products you may add to the ceiling price for such products otherwise established by this regulation or an individual letter order issued pursuant to this regulation prior to September 23, 1952, an amount not in excess of 5.0 percent of such ceiling prices.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective September 23, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

SEPTEMBER 23, 1952.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 4—DEPENDENTS AND BENEFICIARIES CLAIMS

MISCELLANEOUS AMENDMENTS

In § 4.160, paragraphs (c) (4) (ii) and (e) are amended to read as follows:

§ 4.160 *Under section 12, Public Law 144, 78th Congress.* • • •

(c) *Definitions.* • • •

(4) • • •

(ii) In the case of a veteran whose award is subject to reduction under section 1, Public Law 662, 79th Congress, by reason of hospital treatment, institutional or domiciliary care by the Veterans' Administration, and in the case of a veteran whose award is subject to increase under Public Law 877, 80th Congress, and as amended by section 4, Public Law 339, 81st Congress, by reason of the existence of dependents, prima facie proof of dependents or of other factors affecting entitlement, such as statements on VA Form 8–404 or on the claim for benefits, provided satisfactory evidence is furnished in support of the claim for accrued benefits. The provisions of this subdivision are not applicable to original awards of accrued benefits.

• • • • •

(e) *Readjustment allowance, subsistence allowance and education and training allowance.* Readjustment allowance and subsistence allowance under the provisions of Public Law 346, 78th Congress, as amended, and subsistence allowance (including the two-months post-rehabilitation allowance which became payable when the veteran's employability was determined) under the provisions of Public Law 16, 78th Congress, as amended by Public Law 268, 79th Congress, and education and training allowance under the provisions of Public Law 550, 82d Congress, remaining due and unpaid at the date of the veteran's death, shall be payable under the provisions of this section: *Provided*, That readjustment allowance shall be payable only under the provisions of paragraphs (a) and (c) of this section.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707)

This regulation is effective September 24, 1952.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 34—CLASSIFICATION AND RATES OF POSTAGE

PARCELS ADDRESSED TO CERTAIN A. P. O.'S

In § 34.95 *Parcels addressed to certain A. P. O.'s* (17 F. R. 2282; 3063; 5952), make the following changes:

1. In paragraph (a) (1), insert in numerical order under "Care Postmaster, New York, N. Y." A. P. O. Nos. 120 and 163.

2. Strike out A. P. O. No. 830 appearing under "Care Postmaster, New Orleans, La." in paragraph (a) (1).

3. Amend the list of A. P. O. Nos. in paragraph (b) (1) by striking out Nos. 125–B and 751, and inserting Nos. 1–A, 65–A, 115, 120, 128, 131, 132, 163, 164, 177, 178–A, 208–A, 403–A, 407–A, 696–A, and 757–A.

4. Amend paragraph (b) (3) by inserting A. P. O. No. 163 in numerical order in the list of A. P. O. Nos. shown therein.

5. In the list of A. P. O. Nos. appearing under paragraph (b) (4), delete No. 751, and add in numerical order Nos. 65–A, 128, 131, 132, 164, 177, and 208–A.

6. In paragraph (b) (5), insert in proper order A. P. O. No. 120 in the A. P. O. numbers there listed.

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

[SEAL] V. C. BURKE,
Acting Postmaster General.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 10068]

PART 1—PRACTICE AND PROCEDURE

PART 10—PUBLIC SAFETY RADIO SERVICES

PART 11—INDUSTRIAL RADIO SERVICES

PART 16—LAND TRANSPORTATION RADIO SERVICES

MISCELLANEOUS AMENDMENTS

In the matter of amendments of Parts 1, 10, 11, and 16 of the Commission's rules to eliminate obsolete forms and require the use of proposed new application Form 400 and Amendment Request Form 400–A,' and to make such editorial changes as are necessary.

On October 4, 1951, the Commission adopted a notice of proposed rule making looking toward the use of the proposed new application Form 400 and the Amendment Request Form 400–A. That notice was published in the FEDERAL REGISTER (16 F. R., page 10312) in accordance with section 4 (a) of the Administrative Procedure Act. Interested persons were requested to file comments with the Commission on or before November 3, 1951. Persons who desired to file answers or further comments in response to comments filed by the November 3 date were afforded opportunity to do so.

Comments in support of the proposal were received from the Central Committee on Radio Facilities of the American Petroleum Institute, Motorola, Inc., and National Forest Industries Communications.

Also, comments supporting the proposal and expressing interest in it, respectively, were received from Aeronautical Radio, Inc., and the Independent Telephone Association.

The National Committee for Utilities Radio, National Rural Electric Cooperative Association, and Rural Electrification Administration of the U. S. Department of Agriculture have suggested changes for the use of the FCC Form 400–A insofar as it pertains to the modification of authorizations in which mobile units are included. The comments were directed particularly to Item 1 (c) of the instructions in Appendix E[1] and § 11.64 (b) (5) of the proposed rules; however, the same comments would also apply to § 10.65 (b) (5) of Part 10 and § 16.64 (b) (5) of Part 16, as the wording in this respect in the three parts is identical.

The revision suggested by these comments would have the effect of permitting licensees to add or delete mobile transmitters without authorization from the Commission, provided that such changes did not exceed fifteen percent of the number of mobile units authorized.

These changes may not be accepted since the operation of even one transmitter in excess of those shown on the

[1] Instructions and forms filed as part of the original document.

authorization would constitute the operation of unlicensed equipment in violation of section 301 of the Communications Act.

Item 1 (c) of the instructions[1] for completion of Form 400 has been modified, however, to indicate to the applicants that there is no objection to licensing a reasonable number of additional transmitters, which may be installed at a later date, in order to provide for expansion.

In the comments submitted by the Association of American Railroads, request was made for a change in § 16.160 (j) of the proposed rules which states:

(j) A copy of Part 16, Land Transportation Radio Services, shall be maintained in the records of each station licensed under this part.

The Association pointed out that in many instances the records for a number of stations in the Railroad Radio Service are kept at a central point and that "it does not appear that any good purpose would be served by maintaining in each of these files a copy of Part 16." The Commission in substance agrees with this observation and inasmuch as the applicant is required to certify that he has a current copy of the appropriate rules each time he submits FCC Form 400, this requirement has been deleted.

The Association of American Railroads also suggested that the last sentence under Item 1 (c) of the instructions[1] be modified as follows: "In the event the same mobile units are to be operated on more than one frequency *due to channel switching or transfer of equipment from one geographical area to another*, bracket together those frequencies in Item 1 (b) and complete columns (c), (d), and (e) in the same manner as for single frequency operation. (Italics indicate suggested modification.)

It is stated: "The purpose of this suggestion is to have the instructions so worded as to make certain that it will cover conditions existing in railroad operation and thereby reduce the number of applications which otherwise might have to be filed with the Commission due to misinterpretation of the instructions as presently worded."

The inherent problems relating to the operation of the various railroad radio communication systems are well known to the Commission. The Association of American Railroads may be assured that the intent of the instructions, as proposed, is the same as that suggested in their comments; however, as FCC Form 400 will be used in connection with services other than the Railroad Radio Service, it is felt that the language as suggested by the Association might have the effect of confusing applicants for some of these other services; moreover, the reasons underlying the necessity for multi-frequency operation should be considered individually. Therefore no change in the instructions has been made.

National Forest Industries Communications has suggested that FCC Form 400-A, be handled by the FCC field offices rather than by the Washington office. While such a procedure might have some merit, it is administratively infeasible at this time. The procedures which have been planned for the handling of the Form 400–A will facilitate as prompt handling as could be accomplished in the field.

In view of the foregoing considerations and determinations, the Commission finds that the public interest, convenience, and necessity will be served by adoption of the rules herein ordered. Accordingly, pursuant to the authority of sections 4 (i), 301, 303 (r), and 308 (b) of the Communications Act of 1934, as amended: *It is ordered*, This 10th day of September 1952 that Parts 1, 10, 11, and 16 of the Commission's rules, together with FCC Forms 400 and 400–A are hereby respectively amended and adopted as set forth below. *It is further ordered*, That Parts 1, 10, 11, and 16 of the Commission's rules, as amended, and FCC Forms 400 and 400–A, shall become effective January 5, 1953.

Released: September 15, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

Part 1, Practice and Procedure, is amended in the following respects:

1. Table showing forms currently in effect and where they are referred to in Part 1 of the rules and regulations.

a. Delete the following forms which are for radio services no longer provided for in the Commission's rules:

401–C	§ 1.312 (d)
455	§ 1.312 (e)

b. Delete the following forms which are superseded by the new form 400:

401–B	§ 1.312 (c)
402	§ 1.318 (b) (2)

c. Insert in the appropriate place in the table the following new forms:

400	§§ 1.312 (a), 1.317 (b) (5), 1.319 (b) (12), 1.322 (b) (3).
400–A	§ 1.312 (b)

2. In § 1.312 revise text to indicate present names of services and presently used application forms as follows:

§ 1.312 *Application forms for construction permit or modification thereof; radio services other than broadcast.* Applications for new facilities or modifications thereof in the Fixed Public Radio Services, Experimental Radio Service, Coastal and Marine Relay Services, Aviation Services, Public Safety Radio Services, Industrial Radio Services, Land Transportation Radio Services, and Radio Stations in Alaska shall be made on the following forms except as noted:

(a) FCC Form 400 "Application for Radio Station Authorization in Public Safety, Industrial and Land Transportation Radio Services." This form is used in these services for New Station, Modification, Renewal, Assignment of Authorization, or License to cover Construction Permit.

(b) FCC Form 400–A "Request for Amendment of Radio Station Authorization." This form may be used when requesting certain amendments to an existing radio station authorization, in the Public Safety, Industrial and Land Transportation Radio Services, as enumerated on the form and specified in the rules for the particular Service.

(c) FCC Form 401 "Application for new or modified Radio Station Construction Permit (other than Broadcast, Public Safety, Industrial, or Land Transportation Radio Services)."

(d) FCC Form 401–A, "Description of Proposed Antenna Structure(s) (services other than Broadcast)."

3. Delete the text of § 1.313 and substitute the following:

§ 1.313 *Installation or removal of apparatus; broadcast and nonbroadcast.* Application for construction permit or modification thereof involving the installation of new transmitting apparatus shall be filed at least sixty days prior to the contemplated installation.

NOTE: In the Public Safety, Industrial, and Land Transportation Radio Services replacement of transmitting equipment may be made without prior authorization provided the replacement transmitters appear on the Commission's "List of Equipments Acceptable for Licensing" and designated for use in the Public Safety, Industrial and Land Transportation Radio Services and provided the substitute equipment employs the same type of emission and does not exceed the power limitations as set forth in the station authorization.

4. In § 1.314 delete the text of paragraph (b) and substitute the following:

(b) Application for extension of time within which to construct a station shall be filed on FCC Form 701, except in the Public Safety, Industrial, and Land Transportation Radio Services when FCC Form 400–A shall be used. Such application shall be filed at least 30 days prior to the expiration date of the construction permit if the facts supporting such application for extension are known to the applicant in time to permit such filing. In other cases such applications will be accepted upon a showing satisfactory to the Commission of sufficient reasons for filing within less than 30 days prior to the expiration date. Such applications will be granted upon a specific and detailed showing that the failure to complete was due to causes not under the control of the grantee, or upon a specific and detailed showing of other matters sufficient to justify the extension.

5. In § 1.317 revise list under paragraph (b) to include a new paragraph (5) and designate present paragraph (5) as paragraph (6):

(5) FCC Form 400 "Application for Radio Station Authorization in the Public Safety, Industrial and Land Transportation Radio Services." Check Item 16 to indicate application is for License to cover Construction Permit.

6. In § 1.319 revise paragraph (b) to read as follows:

(b) The following application forms should be used:

(1) FCC Form 301, "Application for Authority to Construct a New Broadcast Station or Make Changes in an Existing Broadcast Station." To be used for all applications for modification of any term of an existing authorization of a broadcast station (except in the International, Facsimile, Experimental, or Auxiliary Broadcast Services).

(2) FCC Form 312, "Application for Modification of International, Facsimile, or Experimental Broadcast Station License."

(3) FCC Form 313, "Application for Authorization in the Auxiliary Radio Broadcast Services."

(4) FCC Form 340, "Application for Authority to Construct or Make Changes in a Noncommercial Educational FM Broadcast Station." To be used for all applications for modification of any term of an existing authorization for a noncommercial educational FM broadcast station.

(5) FCC Form 400, "Application for Radio Station Authorization in the Public Safety, Industrial, and Land Transportation Radio Services." Check Item 16 to indicate application is for Modification.

(6) FCC Form 403, "Application for Radio Station License or Modification Thereof (other than broadcasting, amateur, ship, or aircraft)."

(7) FCC Form 404–A, "Application for Private Aircraft Radio Station License."

(8) FCC Form 501–A, "Application for Ship Radiotelephone Station License, New, Modified, or Renewal."

(9) FCC Form 501–B, "Application for Ship Radar Station License."

(10) FCC Form 503, "Application for Modification of Ship Radio Station License." Form 503 should be accompanied by FCC Form 500, submitted in triplicate, if there is to be any

(11) FCC Form 505, "Application for Citizens Radio Station Construction Permit and License."

(12) FCC Form 525, "Application for Disaster Communications Radio Station Construction Permit and License."

7. In § 1.322 revise items under paragraph (b) to include a new subparagraph (1) and designate present subparagraphs (1) and (2) as (2) and (3) respectively.

(1) FCC Form 400, "Application for Radio Station Authorization in the Public Safety, Industrial, and Land Transportation Radio Services" may be used for application for assignment of station authorization. Attached thereto shall be a notarized letter from proposed assignor stating his desire to assign his current authorization in accordance with the rules governing the particular service involved.

Part 10, Public Safety Radio Services, is amended in the following respects:

8. In § 10.6 delete last sentence and substitute the following: "Requests for authority to assign or transfer control of a station authorization may be submitted in accordance with § 10.55 (b) or (d) of Subpart B of this part, whichever is applicable."

9. In § 10.7 add new paragraph:

(c) Each application for a mobile station proposing to receive coordinated service shall be accompanied by a letter from the licensee of the base station concerned indicating that the proposed coordinated service will be rendered.

10. In § 10.8 add new section, text of which was transferred from § 10.57, as follows:

§ 10.8 *Frequency coordination procedures.* (a) Except for application in the Special Emergency Radio Service, each application requesting assignment of a frequency not previously authorized for use by the applicant shall be accompanied by information in the form required by either paragraph (b) or (c) of this section.

(b) (1) A statement under oath that all existing licensees in the same service located within a radius of 75 miles of the proposed station and operating on frequencies within the band proposed to be used by the applicant have been notified of the applicant's intention to request the particular frequency; and

(2) A report based on a field study covering an area within a radius of 75 miles of the proposed station, indicating the probable interference to existing stations operating in the same service in the band requested.

(c) In lieu of the statement and report described in paragraph (b) of this section, the applicant may submit a statement from a frequency advisory committee commenting upon the frequency requested and giving the opinion of the committee regarding the probable interference to existing stations. The frequency advisory committee must be so organized that it is representative of all persons involved who are eligible for radio facilities in the service concerned in the area the committee purports to represent and for which recommendations are made. The functions of such committees are purely advisory in character and their comments and recommendations are not binding upon the Commission.

11. Delete present title of Subpart B and substitute the following: "Applications, Authorizations and Notifications."

12. In § 10.52 delete headnote and text of this section and substitute the following:

§ 10.52 *Procedure for obtaining a radio station authorization and for commencement of operation.* (a) Persons desiring to install and operate radio transmitting equipment should first submit an application for a radio station authorization in accordance with § 10.55 (a).

(b) When construction permit only has been issued for a base, fixed or mobile station and installation has been completed in accordance with the terms of the construction permit and the applicable rules of the Commission, the permittee shall proceed further as follows:

(1) Notify the Engineer-in-Charge of the local radio district of the date on which the transmitter will first be tested in such manner as to produce radiation, giving name of the permittee, station location, call sign, and frequencies on which tests are to be conducted. This notification shall be made in writing at least two days in advance of the test date. FCC Form 456 may be used for this purpose. No reply from the radio district office is necessary before the tests are begun.

(2) After testing, but on or before the date when the station is first used for operational purposes, mail to the Commission in Washington, D. C., an application on FCC Form 400 for license or modification of license, as appropriate in the particular case. The station may thereafter be used as though licensed, pending Commission action on the license application.

(c) When a construction permit and license for a new base, fixed or mobile station are issued simultaneously the licensee shall notify the Engineer-in-Charge of the local radio district of the date on which the transmitter will be placed in operation, giving name of licensee, station location, call sign, and operating frequencies. This notification shall be made in writing on or before the day on which operation is commenced. FCC Form 456 may be used for this purpose.

(d) When a construction permit and modification of license for a base, fixed or mobile station are issued simultaneously, operation may be commenced without notification to the Engineer-in-Charge of the local radio district, except where operation on a new or different frequency results by reason of such modification, in which event the notification procedure set forth in paragraph (c) of this section must be observed.

13. Delete text of § 10.53 (c), (d) and (e) and substitute the following:

(c) Unless otherwise specified, an application shall be filed at least sixty days prior to the date on which it is desired that Commission action thereon be completed. In particular, applications involving the installation of new equipment shall be filed at least sixty days prior to the contemplated installation.

(d) Failure on the part of the applicant to provide all the information required by the application form or to supply the necessary exhibits or supplementary statements may constitute a defect in the application.

(e) Applications involving operation at temporary locations:

(1) When a base station or a fixed station is to remain at a single location for less than one year, the location is considered to be temporary. An application for authority to operate at temporary locations shall specify the general geographic area within which the operation will be confined. The area specified may be a city, a county or counties, a state or states, "Gulf Coast area," "Eastern U. S.", etc.

(2) When a base station or fixed station authorized to operate at temporary locations remains at a single location for more than one year, an application for modification of the station authorization to specify the permanent location shall be filed within thirty days after expiration of the one year period.

[1] Instructions and forms filed as part of the original document.

14. Delete headnote and text of § 10.55 and substitute the following:

§ 10.55 *Standard forms to be used.* (a) A separate application shall be submitted on FCC Form 400 for the following:

(1) New station authorization for a base or fixed station.

(2) New station authorization for any required number of mobile units (including hand-carried or pack-carried units) to be operated in the same service.

NOTE: An application for mobile units may be combined with an application for a single base station in those cases where the mobile units will operate with that base station in a single radio communication system.

(3) License for any class of station upon completion of construction or installation in accordance with the terms and conditions set forth in the construction permit.

(4) Modification of combined construction permit and station license for changes outlined in § 10.65 (a).

(5) Modification of construction permit.

(6) Modification of station license.

Any of the foregoing applications will, upon approval and authentication by the Commission, be returned to the applicant as a specifically designated type of authorization.

(b) When the holder of a station authorization desires to assign to another person the privilege to construct or use a radio station, he shall submit to the Commission a notarized letter setting forth his desire to assign all right, title, and interest in and to such authorization, stating the file number and expiration date of his authorization and the call sign and location of station. This letter shall also include a statement that the assignor will submit his current station authorization for cancellation upon completion of the assignment. Enclosed with this letter shall be an application for Assignment of Authorization on FCC Form 400 prepared by and in the name of the person to whom the station is being assigned.

(c) A separate application may be submitted on FCC Form 400–A for certain changes to authorized stations as specified in § 10.65 (b).

(d) A separate application shall be submitted on FCC Form 703 whenever it is proposed to change, as by transfer of stock-ownership, the control of a corporate permittee or licensee.

(e) An application not submitted on a standard form prescribed by the Commission is considered to be an informal application. Each informal application shall be submitted in duplicate, normally in letter form, and with the original signed under oath or affirmation. Each application shall be clear and complete within itself as to the facts presented and the action desired.

(f) FCC Form 456 "Notification of Completion of Radio Station Construction" may be used to advise the Engineer-in-Charge of the local district office that construction of the station is complete and that operational tests will begin.

(g) Application for renewal of station license shall be submitted on FCC Form 405–A. Unless otherwise directed by the Commission, each application for renewal of station license shall be filed during the last 60 days of the license term. In any case in which the licensee has, in accordance with the Commission's rules made timely and sufficient application for renewal of license, no license with reference to any activity of a continuing nature shall expire until such application shall have been finally determined.

15. Delete § 10.57 in its entirety.

16. In § 10.58 delete headnote and text and substitute the following:

§ 10.58 *Supplementary information to be submitted with application.* Each application for station authorization shall be accompanied by such supplemental information listed below as may be required:

(a) Statement with respect to frequency selection and coordination:

(1) Any statements or showings, required by the applicable subpart of these rules, in connection with the use of the frequency requested.

(2) Evidence of frequency coordination as required by § 10.8.

(b) Statements justifying the need when more frequencies are desired than are normally assigned to a single applicant under the applicable subpart of this part.

(c) Statement describing the type of emission to be used if it cannot be described as "8A3" or "40F3" pursuant to Subpart C of this part.

(d) Description of the antenna system, on FCC Form 401–A in triplicate in all cases when:

(1) The antenna structure proposed to be erected will exceed an over-all height of 170 feet above ground level: *Provided, however,* That FCC Form 401–A is not required when the antenna is mounted on top of an existing man-made structure and does not increase the over-all height of such man-made structure by more than 20 feet; or

(2) The antenna structure proposed to be erected will exceed an over-all height of one foot above the established airport (landing area) elevation for each 200 feet of distance, or fraction thereof, from the nearest boundary of such landing area: *Provided, however,* That FCC Form 401–A is not required when the antenna does not exceed 20 feet above the ground or is mounted on top of an existing man-made structure or natural formation and does not increase the over-all height of such man-made structure or natural formation by more than 20 feet.

(e) A functional system diagram and a detailed description of the manner in which the interrelated stations will operate when the station is, or will be, part of a system involving two or more stations at different fixed locations, in accordance with the instructions accompanying Form 400.

(f) Copies of all agreements and statements which may be required under § 10.7 if operation is desired in connection with any cooperative use of the proposed radio communication facilities.

(g) Statements required by the Rules in this part in connection with developmental operations. See §§ 10.202, 10.203, 10.207.

(h) Description of any equipment, proposed to be used, which does not appear on the Commission's List of Equipment Acceptable for Licensing and designated for use in the Public Safety, Industrial and Land Transportation Radio Services.

(i) Any statements or other data required under special circumstances as set forth in the applicable subpart of this part, or required upon request by the Commission.

17. Delete § 10.59 in its entirety.

18. In § 10.63 insert "(a)" at beginning of existing paragraph and add new paragraph (b) as follows:

(b) In cases where the station is not ready for operational use on or before the expiration date of the construction permit, application for extension of time to construct shall be filed on FCC Form 400–A.

19. In § 10.65 delete headnote and text and substitute the following:

§ 10.65 *Changes in authorized stations.* Authority for certain changes in authorized stations must be obtained from the Commission before these changes are made, while other changes do not require prior Commission approval. The following paragraphs describe the conditions under which prior Commission approval is or is not necessary.

(a) Proposed changes which will result in operation inconsistent with any of the terms of the current authorization require that an application for modification of construction permit and/or license be submitted to the Commission and, except as set forth in paragraph (b) of this section, shall be on Form 400 and shall be accompanied by exhibits and supplementary statements as required by § 10.58.

(b) Any of the following changes to authorized stations may be made upon approval by the Commission of a "Request for Amendment of Radio Station Authorization" submitted on FCC Form 400–A.

(1) Change in presently authorized location of transmitter control point.

(2) Addition or deletion of control point(s) for presently authorized transmitter.

(3) Reduction in antenna height. If painting and/or lighting of the antenna supporting structure is required, FCC Form 401–A must also be submitted.

(4) A reduction in the over-all number of transmitters authorized for mobile use.

(5) An increase in the over-all number of transmitters authorized for mobile use. This form may be used only when adding mobile transmitters which are included in the Commission's "List of Equipment Acceptable for Licensing" and designated for use in the Public Safety, Industrial, and Land Transportation Radio Services.

(6) An extension of the time limit specified in a construction permit.

(c) Proposed changes which will not depart from any of the terms of the outstanding authorization for the station involved may be made without prior Commission approval. Included in such changes is the substitution of various makes of transmitting equipment at any station provided the particular equipment to be installed is included in the Commission's "List of Equipment Acceptable for Licensing" and designated for use in the Public Safety, Industrial, and Land Transportation Radio Services and provided the substitute equipment employs the same type of emission and does not exceed the power limitations as set forth in the station authorization.

20. Delete § 10.67 in its entirety.

21. Delete § 10.109 in its entirety.

22. In § 10.151 add new paragraph (e) as follows:

(e) Tests may be conducted by any licensed station as required for proper station and system maintenance, but such tests shall be kept to a minimum and precautions shall be taken to avoid interference to other stations.

Part 11, Industrial Radio Services, is amended in the following respects.

23. In § 11.5 delete the present text of this section and substitute the following:

§ 11.5 *Transfer and assignment of station authorization.* A station authorization, the frequencies authorized to be used by the grantee of such authorization, and the rights therein granted by such authorization shall not be transferred, assigned, or in any manner either voluntarily or involuntarily disposed of, or indirectly by transfer of control of any corporation holding such authorization, to any person, unless the Commission shall, after securing full information, decide that said transfer is in the public interest. Requests for authority to assign a station authorization may be submitted in accordance with § 11.56 (b) while a request for authority to transfer control of a corporation, as by sale of controlling stock interest, shall be submitted in accordance with § 11.56 (d).

24. Add new § 11.8 as follows:

§ 11.8 *Policy governing the assignment of frequencies.* (a) The frequencies which may be assigned to stations operating in any one of the several Industrial Radio Services are listed in the applicable subpart of this part. All applicants for, and licensees of, stations in these services shall cooperate in the selection and use of the frequencies assigned in order to minimize interference and thereby obtain the most effective use of the authorized facilities. Each frequency, or band of frequencies, available for assignment to stations in these services is available on a shared basis only, and will not be assigned for the exclusive use of any one applicant; such use may also be restricted to one or more specified geographical areas.

(b) Each applicant shall use the highest order of frequencies available, compatible with the operational requirements of the particular radio system involved, and the actual channel loading of the bands in each area. Differentials in first cost and maintenance expense are factors which will not be considered as conclusive by the Commission in approving a choice between the ranges 1.6–6.0, 25–50, 152–174, and 450–460 Mc.

(c) The operational requirements of applicants for land mobile radio systems as authorized under this part dictate that the single frequency simplex method of operation be employed, and frequencies have been made available to each of the services largely on that basis. Consequently, in no case will more than one frequency, or band of frequencies, be assigned for the use of a single applicant until it has been demonstrated conclusively to the Commission that the assignment of an additional frequency, or band of frequencies, is essential to the operation of the radio system.

(d) With respect to fixed point-to-point circuits, simultaneous two-way communication will be required in most cases; consequently, it will be customary to assign two frequencies, or bands of frequencies, to such systems and, where possible, with such frequency separation that full duplex operation may be accomplished.

(e) Outside the continental limits of the United States and waters adjacent thereto, frequencies above 152 Mc, listed elsewhere in this part as available for assignment to Base Stations or Mobile Stations in particular Services are also available for assignment to Operational Fixed Stations in the same Service on condition that no harmful interference be caused to mobile service operations.

25. In Subpart B delete present title and substitute the following: "Applications, Authorizations, and Notifications."

26. In § 11.52 delete headnote and text and substitute the following:

§ 11.52 *Procedure for obtaining a radio station authorization and for commencement of operation.* (a) Persons desiring to install and operate radio transmitting equipment should first submit an application for a radio station authorization in accordance with § 11.56.

(b) When construction permit only has been issued for a base, fixed or mobile station and installation has been completed in accordance with the terms of the construction permit and the applicable rules of the Commission, the permittee shall proceed further as follows:

(1) Notify the Engineer-in-Charge of the local radio district of the date on which the transmitter will first be tested in such manner as to produce radiation, giving name of the permittee, station location, call sign, and frequencies on which tests are to be conducted. This notification shall be made in writing at least two days in advance of the test date. FFC Form 456 may be used for this purpose. No reply from the radio district office is necessary before the tests are begun.

(2) After testing, but on or before the date when the station is first used for operational purposes, mail to the Commission in Washington, D. C. an application on FCC Form 400 for license or modification of license, as appropriate in the particular case. The station may thereafter be used as though licensed, pending Commission action on the license application.

(c) When a construction permit and license for a new base, fixed or mobile station are issued simultaneously the licensee shall notify the Engineer-in-Charge of the local radio district of the date on which the transmitter will be placed in operation, giving name of licensee, station location, call sign, and operating frequencies. This notification shall be made in writing on or before the day on which operation is commenced. FCC Form 456 may be used for this purpose.

(d) When a construction permit and modification of license for a base fixed or mobile station are issued simultaneously, operation may be commenced without notification to the Engineer-in-Charge of the local radio district, except where operation on a new or different frequency results by reason of such modification, in which event the notification procedure set forth in paragraph (c) of this section must be observed.

27a. Delete the text of § 11.54 (d) and substitute the following:

(d) Failure on the part of the applicant to provide all the information required by the application form, or to supply the necessary exhibits or supplementary statements may constitute a defect in the application.

b. Paragraph (e) (1) change "six months" to "one year" wherever shown.

c. Paragraph (e) (2) change "six months" to "one year" wherever shown.

d. Delete paragraph (f) in its entirety.

28. In § 11.56 delete the headnote and text and substitute the following:

§ 11.56 *Standard forms to be used.* (a) A separate application shall be submitted on FCC Form 400 for the following:

(1) New station authorization for a base or fixed station.

(2) New station authorization for any required number of mobile units (including hand-carried or pack-carried units) to be operated in the same service.

NOTE: An application for mobile units may be combined with an application for a single base station for such mobile units as will operate with that base station only.

(3) License for any class of station upon completion of construction or installation in accordance with the terms and conditions set forth in the construction permit.

(4) Modification of combined construction permit and station license for changes outlined in § 11.64 (a).

(5) Modification of construction permit.

(6) Modification of station license.

Any of the foregoing applications will, upon approval and authentication by the Commission, be returned to the applicant as a specifically-designated type of authorization.

(b) When the holder of a station authorization desires to assign to another person the privilege to construct or use a radio station, he shall submit to the Commission a notarized letter setting forth his desire to assign all right, title, and interest in and to such authorization, stating the file number and expiration date of his authorization and the call

sign and location of station. This letter shall also include a statement that the assignor will submit his current station authorization for cancellation upon completion of the assignment. Enclosed with this letter shall be an application for Assignment of Authorization on FCC Form 400 prepared by and in the name of the person to whom the station is being assigned.

(c) A separate application may be submitted on FCC Form 400–A for certain changes to authorized stations as specified in § 11.64 (b).

(d) A separate application shall be submitted on FCC Form 703 whenever it is proposed to change, as by transfer of stock ownership, the control of a corporate permittee or licensee.

(e) Informal application. (1) An application not submitted on a standard form prescribed by the Commission is considered to be an informal application. Each informal application shall be submitted in duplicate, normally in letter form, and with the original signed under oath or affirmation. Each application shall be clear and complete within itself as to the facts presented and the action desired.

(2) A request for special temporary authorization must include full particulars as to the purpose for which the request is made and such request should be submitted at least 10 days prior to the date of the proposed operation. A request received within less than 10 days may be accepted upon due showing of sufficient reason for the delay in submitting the request. The information necessary to Commission action on requests for Special Temporary Authority is set forth in § 11.53.

(f) FCC Form 456 "Notification of Completion of Radio Station Construction" may be used to advise the Engineer-in-Charge of the local district office that construction of the station is complete and that operational tests will begin.

(g) Application for renewal of station license shall be submitted on FCC Form 405–A. Unless otherwise directed by the Commission, each application for renewal of license shall be filed during the last 60 days of the license term. In any case in which the licensee has, in accordance with the Commission's rules made timely and sufficient application for renewal of license, no license with reference to any activity of a continuing nature shall expire until such application shall have been finally determined.

29. Delete § 11.57 in its entirety.

30. In § 11.58 delete headnote and text and substitute the following:

§ 11.58 *Supplementary information to be submitted with application.* Each application for station authorization shall be accompanied by such supplemental information listed below as may be required.

(a) Any statements or showings required by the applicable subpart of this part, in connection with the use of the frequency requested.

(1) Each application for authority to operate on one of the frequencies in the range 1.6–6.0 Mc must be fully justified, and shall be accompanied by: A satisfactory showing that the safety of human life will be jeopardized by failure of the Commission to authorize the use of a frequency in the requested range; a description in detail of the particular activity involved; and the manner in which radio will be used in the activity. The circumstances must be such that the activity, by reason of its nature or location, is hazardous to personnel engaged therein, or to the public in the vicinity thereof; that the radiocommunication facilities requested will materially reduce such hazard; and that it is impossible to use a higher order of frequencies for accomplishment of the same purposes.

(2) The issuance of authority for use of frequencies within the band 72–76 Mc is contingent upon a showing that no interference will be caused to reception of television channels 4 or 5. Each application for use of one of these frequencies at a location within 55 miles of a television station authorized to use TV channel number 4 or 5 (35 miles in the case of community stations), shall be accompanied by the following data: [1]

(i) A map of suitable scale showing the area enclosed by a circle having a radius of approximately 15 miles, centered on and surrounding the site chosen for the applicant's fixed station. This map should be marked with a circle of 5 miles radius and another circle of ½ mile radius centered on the proposed site to indicate the scale of the map.

(ii) A count of the houses and estimated population within the ½ mile circle shown on the map. (Use a count of 5 persons per house unless there are apartment houses in the area.)

(iii) The height above sea level of the center of the radiating portion of the antenna system, and the radiation pattern of the proposed antenna.

(iv) The height above sea level of nearby towns (within 10 miles of the proposed station).

(v) A written statement from the applicant that it will satisfactorily adjust all complaints of interference to television reception caused by operation of the proposed fixed station, when such complaints are made by owners of television receivers which are located both within one mile of the site of the proposed fixed station, and within the protected service area of television stations using TV channel number 4 or 5. The applicant's statement shall indicate agreement to the condition that this adjustment of interference complaints be made a part of the authorization.

(b) Statements justifying the need for more than one frequency, as required by § 11.8.

(c) Statement describing the type of emission to be used if it cannot be described as "8A3" or "40F3" pursuant to Subpart C of this part.

(d) Description of the antenna system, on FCC Form 401–A in triplicate in all cases when:

(1) The antenna structure proposed to be erected will exceed an over-all height of 170 feet above ground level: *Provided, however,* That FCC Form 401–A is not required when the antenna is mounted on top of an existing man-made structure and does not increase the over-all height of such man-made structure by more than 20 feet; or

(2) The antenna structure proposed to be erected will exceed an over-all height of one foot above the established airport (landing area) elevation for each 200 feet of distance, or fraction thereof, from the nearest boundary of such landing area: *Provided, however,* That FCC Form 401–A required when the antenna does not exceed 20 feet above the ground or is mounted on top of an existing man-made structure or natural formation and does not increase the over-all height of such man-made structure or natural formation by more than 20 feet.

(e) A functional system diagram and a detailed description of the manner in which the interrelated stations will operate when the station is, or will be, part of a system involving two or more stations at different fixed locations.

(f) Copies of all agreements and statements which may be required under § 11.6 if operation is desired in connection with any cooperative use of the proposed radio communication facilities.

(g) Statements required by the rules in connection with developmental operation. See §§ 11.202, 11.203, and 11.207.

(h) Description of any equipment, proposed to be used, which does not appear on the Commission's List of Equipments Acceptable for Licensing, and designated for use in the Public Safety, Industrial, and Land Transportation Radio Service.

(i) Any statements or other data required under special circumstances as set forth in the applicable subpart of this part, or required upon request by the Commission.

31. In § 11.62 insert "(a)" at beginning of existing paragraph and add new paragraph (b) as follows:

(b) In cases where the station is not ready for operational use on or before the expiration date of the construction permit, application for extension of time to construct shall be filed on FCC Form 400–A.

32. In § 11.64 delete headnote and text and substitute the following:

§ 11.64 *Changes in authorized stations.* Authority for certain changes in authorized stations must be obtained from the Commission before these changes are made, while other changes do not require prior Commission approval. The following paragraphs describe the conditions under which prior Commission approval is or is not necessary:

(a) Proposed changes which will result in operation inconsistent with any of the terms of the current authorization require that an application for modification of construction permit and/or license be submitted to the Commission and, except as set forth in paragraph (b) of this section, shall be on Form 400 and shall be accompanied by exhibits and supplementary statements as required by § 11.58.

(b) Any of the following changes to authorized stations may be made upon approval by the Commission of a "Request for Amendment of Radio Station Authorization" submitted on FCC Form 400–A:

(1) Change in presently authorized location of transmitter control point.

(2) Addition or deletion of control point(s) for presently authorized transmitter.

(3) Reduction in antenna height. If painting and/or lighting of the antenna supporting structure is required, FCC Form 401–A must also be submitted.

(4) A reduction in the over-all number of transmitters authorized for mobile use.

(5) An increase in the over-all number of transmitters authorized for mobile use. This form may be used only when adding mobile transmitters which are included in the Commission's "List of Transmitting Equipments Acceptable for Licensing" and designated for use in the Public Safety, Industrial, and Land Transportation Radio Services.

(6) An extension of the time limit specified in a construction permit.

(c) Proposed changes which will not depart from any of the terms of the outstanding authorization for the station involved may be made without prior Commission approval. Included in such changes is the substitution of various makes of transmitting equipment at any station provided the particular equipment to be installed is included in the Commission's "List of Equipments Acceptable for Licensing" and designated for use in the Public Safety, Industrial, and Land Transportation Radio Services and provided the substitute equipment employs the same type of emission and does not exceed the power limitations as set forth in the station authorization.

33. Delete § 11.109 in its entirety.

34. In § 11.151 add new paragraph (f) to read as follows:

(f) Tests may be conducted by any licensed station as required for proper station and system maintenance, but such tests shall be kept to a minimum and precautions shall be taken "to avoid interference to other stations."

35. Delete § 11.160 (j) in its entirety.

Part 16, Land Transportation Radio Services, is amended as follows:

36. In § 16.5 delete the text and substitute the following:

§ 16.5 *Transfer and assignment of station authorization.* A station authorization, the frequencies authorized to be used by the grantee of such authorization, and the rights therein granted by such authorization shall not be transferred, assigned, or in any manner either voluntarily or involuntarily disposed, of or indirectly transfer of control of any corporation holding such authorization, to any person, unless the Commission shall, after securing full information, decide that the said transfer is in the public interest. Requests for authority to assign a station authorization may be submitted in accordance with § 16.56 (b) while a request for authority to transfer control of a corporation, as by sale of controlling stock interest, shall be submitted in accordance with § 16.56 (d).

37. Add new § 16.8 as follows:

§ 16.8 *Policy governing the assignment of frequencies.* (a) The frequencies which may be assigned to stations operating in the Land Transportation Radio Services are listed in the applicable subpart of these rules. Each frequency, or band of frequencies, available for assignment to stations in these services is available on a shared basis only, and will not be assigned for the exclusive use of any one applicant. All applicants for, and licensees of, stations in these services shall cooperate in the selection and use of the frequencies assigned in order to minimize interference and thereby obtain the most effective use of the authorized facilities. In the event that two or more licensees are unable to make an equitable division of transmission time the Commission, at its discretion, may specify a time sharing arrangement. The use of any of these frequencies may be restricted to one or more geographical areas.

(b) Outside the continental limits of the United States and waters adjacent thereto, frequencies above 152 Mc, listed elsewhere in this part as available for assignment to Base Stations or Mobile Stations in particular Services are also available for assignment to Operational Fixed Stations in the same Service on condition that no harmful interference be caused to mobile service operations.

38. Delete present title of Subpart B and substitute the following: "Applications, Authorizations, and Notifications."

39. In §16.52 delete headnote and text and substitute the following:

§ 16.5. *Procedure for obtaining a radio station authorization and for commencement of operation.* (a) Persons desiring to install and operate radio transmitting equipment should first submit an application for a radio station authorization in accordance with § 16.56 (a).

(b) When construction permit only has been issued for a base, fixed or mobile station and installation has been completed in accordance with the terms of the construction permit and the applicable rules of the Commission, the permittee shall proceed further as follows:

(1) Notify the Engineer-in-Charge of the local radio district of the date on which the transmitter will first be tested in such manner as to produce radiation, giving name of the permittee, station location, call sign, and frequencies on which tests are to be conducted. This notification shall be made in writing at least two days in advance of the test date. FCC Form 456 may be used for this purpose. No reply from the radio district office is necessary before the tests are begun.

(2) After testing, but on or before the date when the station is first used for operational purposes, mail to the Commission in Washington, D. C., an application on FCC Form 400 for license or modification of license, as appropriate in the particular case. The station may thereafter be used as though licensed, pending Commission action on the license application.

(c) When a construction permit and license for a new base, fixed or mobile station are issued simultaneously the licensee shall notify the Engineer-in-Charge of the local radio district of the date on which the transmitter will be placed in operation, giving name of licensee, station location, call sign, and operating frequencies. This notification shall be made in writing on or before the day on which operation is commenced. FCC Form 456 may be used for this purpose.

(d) When a construction permit and modification of license for a base, fixed or mobile station are issued simultaneously, operation may be commenced without notification to the Engineer-in-Charge of the local radio district, except where operation on a new, or different frequency results by reason of such modification, in which event the notification procedure set forth in paragraph (c) of this section must be observed.

40. In § 16.53 (b) substitute "(g)" for "(h)" in fourth line.

41a. In § 16.54 delete the text of paragraph (d) and substitute the following:

(d) Failure on the part of the applicant to provide all the information required by the application form, or to supply the necessary exhibits or supplementary statements may constitute a defect in the application.

b. Delete the text of paragraph (c) and substitute the following:

(c) Applications involving operation at temporary locations:

(1) When a base station or a fixed station is to remain at a single location for less than one year, the location is considered to be temporary. An application for authority to operate at temporary locations shall specify the general geographic area within which the operation will be confined. The area specified may be a city, a county or counties, a state or states, "Gulf Coast area", "Eastern U. S.", etc.

(2) When a base station or fixed station authorized to operate at temporary locations remains at a single location for more than one year, an application for modification of the station authorization to specify the permanent location shall be filed within thirty days after expiration of the one year period.

42. In § 16.56 delete the text and substitute the following:

§ 16.56 *Standard forms to be used.* (a) A separate application shall be submitted on FCC Form 400 for the following:

(1) New station authorization for a base or fixed station.

(2) New station authorization for any required number of mobile units (including hand-carried or pack-carried units) to be operated in the same service.

NOTE: An application for mobile units may be combined with an application for a single base station for such mobile units as will operate with that base station only.

[1] Subject to change upon finalization of proceedings in Docket No. 10515.

(3) License for any class of station upon completion of construction or installation in accordance with the terms and conditions set forth in the construction permit.

(4) Modification of a combined construction permit and station license for changes outlined in § 16.64 (a).

(5) Modification of construction permit.

(6) Modification of station license.

Any of the foregoing applications will, upon approval and authentication by the Commission, be returned to the applicant as a specifically designated type of authorization.

(b) When the holder of a station authorization desires to assign to another person the privilege to construct or use a radio station, he shall submit to the Commission a notarized letter setting forth his desire to assign all right, title, and interest in and to such authorization, station the file number and expiration date of his authorization and the call sign and location of station. This letter shall also include a statement that the assignor will submit his current station authorization for cancellation upon completion of the assignment. Enclosed with this letter shall be an application for Assignment of Authorization on FCC Form 400 prepared by and in the name of the person to whom the station is assigned.

(c) A separate application may be submitted on FCC Form 400–A for certain changes to authorized stations as specified in § 16.64 (b).

(d) A separate application shall be submitted on FCC Form 703 whenever it is proposed to change the control of a corporate permittee or licensee.

(e) FCC Form 456 "Notification of Completion of Radio Station Construction" may be used to advise the Engineer-in-Charge of the local district office that construction of the station is complete and that operational tests will begin.

(f) Application for renewal of station license shall be submitted on FCC Form 405–A. Unless otherwise directed by the Commission, each application for renewal of license shall be filed during the last 60 days of the license term. In any case in which the licensee has, in accordance with the Commission's rules made timely and sufficient application for renewal of license, no license with reference to any activity of a continuing nature shall expire until such application shall have been finally determined.

(g) Informal applications:

(1) An application not submitted on a standard form prescribed by the Commission is considered to be an informal application. Each informal application shall be submitted in duplicate, normally in letter form, and with the original signed under oath or affirmation. Each application shall be clear and complete within itself as to the facts presented and action desired.

(2) A request for special temporary authorization must include full particulars as to the purpose for which the request is made and such request should be submitted at least 10 days prior to the date of the proposed operation. A request received within less than 10 days may be accepted upon due showing of sufficient reason for the delay in submitting the request. The information necessary to Commission action on requests for Special Temporary Authority is set forth in § 11.53 of this subpart.

43. Delete § 16.57 in its entirety.

44. In § 16.58 delete title and text and substitute the following:

§ 16.58 *Supplementary information to be submitted with application.* Each application for station authorization shall be accompanied by such supplemental information listed below as may be required:

(a) Any statements or showings required by the applicable subpart of this part, in connection with the use of the frequency requested.

(1) The issuance of authority for use of frequencies within the band 72–76 Mc is contingent upon a showing that no harmful interference will be caused to reception of television Channel 4 or 5. Therefore, each application for use of one of these frequencies at a location within 55 miles of a television station authorized to use TV channel number 4 or 5 (35 miles in the case of community stations), or within a like distance of a location to which TV channel number 4 or 5 is allocated in the Commission's rules, shall be accompanied by the following data:[1]

(i) A map of suitable scale showing the area enclosed by a circle having a radius of approximately 15 miles, centered on and surrounding the site chosen for the applicant's fixed station. This map should be marked with a circle of 5 miles radius and another circle of ½ mile radius centered on the proposed site to indicate the scale of the map.

(ii) A count of the houses and estimated population within the ½ mile circle shown on the map. (Use a count of 5 persons per house unless there are apartment houses in the area.)

(iii) The height above sea level of the center of the radiating portion of the antenna system, and the radiation pattern of the proposed antenna.

(iv) The height above sea level of nearby towns (within 10 miles of the proposed station).

(v) A written statement from the applicant that it will satisfactorily adjust all complaints of interference to television reception caused by operation of the proposed fixed station, when such complaints are made by owners of television receivers which are located both within one mile of the site of the proposed fixed station, and within the protected service area of television stations using TV channel number 4 or 5. The applicant's statement shall indicate agreement to the condition that this adjustment of intereference complaints be made a part of the authorization.

(b) Statements justifying the need when more frequencies are desired than are normally assigned to a single applicant under the applicable subpart of this part.

(c) Statement describing the type of emission to be used if it cannot be described as "8A3" or "40F3" pursuant to Subpart C of this part.

(d) Description of the antenna system, on FCC Form 401–A in quadruplicate, in all cases when:

(1) The antenna structure proposed to be erected will exceed an over-all height of 170 feet above ground level: *Provided, however,* That FCC Form 401–A is not required when the antenna is mounted on top of an existing man-made structure and does not increase the over-all height of such man-made structure by more than 20 feet; or

(2) The antenna structure proposed to be erected will exceed an over-all height of one foot above the established airport (landing area) elevation for each 200 feet of distance, or fraction thereof, from the nearest boundary of such landing area: *Provided, however,* That FCC Form 401–A is not required when the antenna does not exceed 20 feet above the ground or is mounted on top of an existing man-made structure or natural formation and does not increase the over-all height of such man-made structure or natural formation by more than 20 feet.

(e) A functional system diagram and a detailed description of the manner in which the interrelated stations will operate when the station is, or will be, part of a system involving two or more stations at different fixed locations.

(f) Copies of all agreements and statements which may be required under § 16.3 if operation is desired in connection with any cooperative or joint use of the proposed radio communication facilities.

(g) Statements required by the Rules in connection with developmental operation. See §§ 16.202, 16.203, 16.207.

(h) Description of any equipment, proposed to be used, which does not appear on the Commission's List of Equipments Acceptable for Licensing, and designated for use in the Public Safety, Industrial and Land Transportation Radio Services.

(i) Any statements or other data required under special circumstances as set forth in the applicable subpart of this part, or required upon request by the Commission.

45. In § 16.62 insert "(a)" at beginning of existing paragraph and add new paragraph as follows:

(b) In cases where the station is not ready for operational use on or before the expiration date of the construction permit, application for extension of time to construct shall be filed on FCC Form 400–A.

46. In § 16.64 delete title and text and substitute the following:

§ 16.64 *Changes in authorized stations.* Authority for certain changes in authorized stations must be obtained from the Commission before these changes are made, while other changes do not require prior Commission approval. The following paragraphs describe the conditions under which prior Commission approval is or is not necessary:

(a) Proposed changes which will result in operation inconsistent with any

[1] Subject to change upon finalization of proceedings in Docket 10315.

of the terms of the current authorization require that an application for modification of construction permit and/or license be submitted to the Commission and, except as set forth in paragraph (b) of this section, shall be on Form 400 and shall be accompanied by exhibits and supplementary statements as required by § 16.58.

(b) Any of the following changes to authorized stations may be made upon approval by the Commission of a "Request for Amendment of Radio Station Authorization" submitted on FCC Form 400–A:

(1) Change in presently authorized location of transmitter control point.

(2) Addition or deletion of control point(s) for presently authorized transmitter.

(3) Reduction in antenna height. If painting and/or lighting of the antenna supporting structure is required, FCC Form 401–A must also be submitted.

(4) A reduction in the over-all number of transmitters authorized for mobile use.

(5) An increase in the over-all number of transmitters authorized for mobile use. This form may be used only when adding mobile transmitters which are included in the Commission's "List of Transmitting Equipment Acceptable for Licensing and designated for use in the Public Safety, Industrial, and Land Transportation Radio Services."

(6) An extension of the time limit specified in a construction permit.

(c) Proposed changes which will not depart from any of the terms of the outstanding authorization for the station involved may be made without prior Commission approval. Included in such changes is the substitution of various makes of transmitting equipment at any station provided the particular equipment to be installed is included in the Commission's "List of Equipments Acceptable for Licensing" and designated for use in the Public Safety, Industrial, and Land Transportation Radio Services and provided the substitute equipment employs the same type of emission and does not exceed the power limitations as set forth in the station authorization.

47. Delete § 16.109 in its entirety.

48. In § 16.151 add new paragraph (f) to read as follows:

(f) Tests may be conducted by any licensed station, as required for proper station and system maintenance, but such tests shall be kept to a minimum and precautions shall be taken to avoid interference to other stations.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply secs. 301, 303, 308, 48 Stat. 1081, 1082, as amended, 1086; 47 U. S. C. 301, 303, 308)

[F. R. Doc. 52–10377; Filed, Sept. 23, 1952; 8:51 a. m.]

[Docket No. 10244]

PART 3—RADIO BROADCAST SERVICES

TELEVISION BROADCAST STATIONS

In the matter of amendment of § 3.606, Table of Assignments, rules governing television broadcast stations.

1. The Commission has before it for consideration its notice of proposed rule making (FCC 52–770) issued in the above-entitled proceeding on July 24, 1952, proposing to change certain television channel assignments which fail to meet the minimum separation requirements prescribed by § 3.610 (c) of the Commission's rules and regulations.[1] In order to correct such sub-standard separations, the following changes in the Table of Assignments contained in § 3.606 of the rules were proposed:

City	Channel No.	
	Delete	Add
Wilmington, Del	53	83
Elberton, Ga	16	24
Fort Wayne, Ind	21	69
Lexington, Ky	33	64
Fall River, Mass	40	68
North Adams, Mass	15	74
Lima, Ohio	41	73
Allentown, Pa	45	67
Newberry, S. C	37	70

2. In light of such changes, the Table of Assignments was proposed to be amended to read as follows:

City	*Channel No.*
Delaware: Wilmington	12, *59−, 83+
Florida:[1]	
Orlando	6−, 9, 18, *24−
Tallahassee	*11−, 24, 51
Georgia: Elberton	24+
Indiana: Fort Wayne	*27+, 33−, 69
Kentucky: Lexington	27−, 64
Massachusetts:	
Fall River	46−, 68
North Adams	74+
Ohio: Lima	35−, 73
Pennsylvania: Allentown	39, 67
South Carolina: Newberry	70

[1] The changes in Orlando and Tallahassee would not change channel assignments but merely would alter the offset requirements in these communities for Channel 24 in light of the proposed employment of that channel in Elberton.

3. The Commission's notice of proposed rule making provided that comments or briefs either opposing or supporting the proposed changes in channel assignments could be filed on or before August 18, 1952, and that comments or briefs in reply could be filed within 10 days from the last day for filing original comments or briefs. No comments or briefs either supporting or opposing the proposed amendments were filed, with the exception of one comment opposing the proposed assignment of Channel 64 to Lexington, Kentucky.

4. Bluegrass Broadcasting Co., Inc., Lexington, Kentucky, filed a timely comment opposing the proposed substitution of Channel 64 in Lexington for Channel 33. Bluegrass Broadcasting Co., Inc. points out that in addition to the assignments listed in the aforesaid Notice of Proposed Rule Making which fail to meet the minimum separation requirements, the separation between the assignment of Channel 37 to Winchester, Kentucky, and the assignment of Channel 22 to Somerset, Kentucky, does not meet the minimum separation prescribed for such channels by Section 3.610 (c) of the Rules. This rule requires that a separation of 75 miles be maintained between channels spaced 15 miles apart in order to avoid the effects of picture image interference. Bluegrass Broadcasting Co., Inc. points out that the separation between Winchester (Channel 37) and Somerset (Channel 22) is only 67 miles. Bluegrass submits that the sub-standard separation involving Channel 33 in Lexington "can be rectified, and at the same time the further deficiency with respect to the assignment of Channel 37 to Winchester, Kentucky, and the assignment of Channel 22 to Somerset, Kentucky, can be rectified, by making the following changes in the Commission's Table of Assignments:"

City	Present assignments	Proposed assignments
Kentucky:		
Lexington	33+	37+
Winchester	37+	60
Richmond	60	33+
Somerset	22−	67
Tennessee: Harriman	67	22+

It is contended by Bluegrass that its own proposal "does not require the use of an additional channel as does the Commission's proposal, inasmuch as the assignment of Channel 33 to Richmond, Kentucky, provides for utilization of this channel in this region." It is argued that the channel changes proposed by Bluegrass comply with the separation requirements of § 3.610 (c) and that the adoption of the Bluegrass proposal would remove the existing sub-standard separation between Channel 37 in Winchester and Channel 22 in Somerset and, in addition, would not require the use of an additional channel as would the Commission's proposed change which places Channel 64 in Lexington.

5. The Commission agrees with Bluegrass Broadcasting Co., Inc. that the additional sub-standard separation between Channel 37 in Winchester and Channel 22 in Somerset must be corrected. Bluegrass proposes to correct it by making changes in Winchester, Somerset, Richmond and Harriman, as well as suggesting Channel 37 for Lexington instead of Channel 64 as proposed by the Commission. The Commission is of the view, however, that all of these changes are not necessary in order to correct this additional sub-standard separation. Indeed, this may be accomplished merely by assigning Channel 29 in Somerset in place of Channel 22. Such assignment would comply with all minimum spacing requirements and would require no shifts in Winchester, Richmond or Harriman. We see no merit in Bluegrass' contention that its proposal eliminates the use of an additional channel and hence is more efficient than the Commission's proposal which would assign Channel 64 in Lexington. While the Commission's proposal would not utilize Channel 33 in this region at this time, this channel would be available for assignment through rule making at a future date. The Bluegrass proposal would entail unnecessary changes in channel assignments in 3 communities. The additional sub-standard separation pointed out by Bluegrass can be corrected by a simple channel switch in

[1] This notice of proposed rule making was published in the FEDERAL REGISTER on July 29, 1952 (17 F. R. 6924).

Somerset. We see no reason, therefore, for adopting the Bluegrass proposal.

6. In view of the foregoing, *It is ordered*, That, effective 30 days from the date of publication in the FEDERAL REGISTER, the Table of Assignments contained in § 3.606 of the Commission's rules and regulations is amended to read as follows:

City	Channel No.
Delaware: Wilmington	12, *59−, 83+
Florida:	
Orlando	6−, 9, 18, *24−
Tallahassee	*11−, 24, 51
Georgia: Elberton	24+
Indiana: Fort Wayne	*27+, 33−, 69
Kentucky:	
Lexington	27−, 64
Somerset	29−
Massachusetts:	
Fall River	46−, 68
North Adams	74+
Ohio: Lima	35−, 73
Pennsylvania: Allentown	39, 67
South Carolina: Newberry	70

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154)

Adopted: September 10, 1952.

Released: September 15, 1952.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] T. J. SLOWIE,
Secretary.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 162]

ENFORCEMENT OF THE FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT

EXTENSION OF TIME

Notice is hereby given of an extension, until October 15, 1952, of the period of time within which any interested person may submit written data, views, or arguments concerning the proposal to amend §§ 162.10 and 162.17 of the regulations for the enforcement of the Federal Insecticide, Fungicide, and Rodenticide Act (7 CFR 162.10, 162.17).

Notice of rule making concerning the proposed amendments was published in the FEDERAL REGISTER on August 15, 1952 (17 F. R. 7436).

Any interested person who wishes to submit written data, views or arguments concerning the proposed amendments may do so by filing them with the Chief of the Insecticide Division, Livestock Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

Done at Washington, D. C., this 19th day of September 1952.

C. J. MCCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 52-10363; Filed, Sept. 23, 1952; 8:47 a. m.]

[7 CFR Part 909]

HANDLING OF ALMONDS GROWN IN CALIFORNIA

REVISED GRADE REQUIREMENT FOR SURPLUS

Notice is hereby given that the Department is considering the issuance of the proposal herein set forth in accordance with the provisions of Marketing Agreement No. 119 and Order No. 9 regulating the handling of almonds grown in California (7 CFR Part 909), effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposal should forward the same to the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., in sufficient time to be received not later than the close of business on the tenth day after publication of this notice in the FEDERAL REGISTER, except that if such tenth day should fall on a Saturday, Sunday, or holiday, such documents may be received on the next following work day.

The Almond Control Board, the administrative agency for operations under the aforesaid marketing agreement and order, at its meeting in Sacramento, California, on July 21, 1952, unanimously recommended a revision in the grade requirement for surplus almonds, and requested the United States Department of Agriculture to take action thereon as provided for in the aforesaid agreement and order.

The requirements in § 909.65 (b) of the marketing agreement and order are minimum grade requirements for almonds tendered as surplus. Credit for surplus under the program is, however, on the basis of the edible kernel content of the lots tendered and the administrative rule proposed herein does not change the situation in that regard. The proposed revised grade requirement does increase grade defect tolerances for lots tendered as surplus.

Information submitted to the Department by the Almond Control Board indicates that it is desirable to establish more liberal grade requirements for lots of almonds tendered as surplus, and that such liberalization will result in considerable saving in expense of grading. The grade requirement herein proposed is considered by the Board to be satisfactory for surplus almonds to be used for oil production which is the most important surplus outlet. The grade of surplus almonds disposed of through outlets which require higher grades than those herein specified would be regulated by the demands of the users of such surplus, as is the case in respect to salable almonds under the agreement and order program. The proposed requirement set forth herein provides that lots tendered as surplus shall be homogeneous. This is to insure that the inspection sample will be uniform and to facilitate program operations.

Therefore after consideration of the Almond Control Board's recommendation and all other relevant information, the proposed administrative rule is as follows:

§ 909.401 *Revised grade requirement for surplus almonds.* In lieu of the grade requirement for surplus almonds set forth in § 909.65 (b) of the marketing agreement and order regulating the handling of almonds grown in California, the following grade requirement shall apply. Lots of almonds to be eligible for certification as surplus must meet the following requirements, and only edible kernel weight, inclusive of the weight of loose edible kernels included in in-shell lots or the weight of edible kernels in-shell included in shelled lots, shall be credited as surplus: (1) Each lot shall consist of almonds which do not vary widely in grade factors and such almonds must be well mixed or commingled so as to permit representative sampling; (2) shall be dry and properly cured; (3) unshelled almonds shall not be affected by adhering hulls (where more than 10 percent of the surface is affected) on more than 10 percent by count; shall contain no more than 5 percent by weight of loose shells, hulls, and other foreign material; and not more than 10 percent by count of the kernels shall be inedible; (4) shelled almonds shall not contain, in the aggregate, more than 15 percent by weight of loose hulls, shells, unshelled almonds, other foreign material, inedible kernels, and material of any kind which will pass through a round opening one-eighth inch in diameter.

Issued at Washington, D. C., this 19th day of September, 1952.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Branch.

[F. R. Doc. 52-10385; Filed, Sept. 23, 1952; 8:50 a. m.]

[7 CFR Part 984]

HANDLING OF WALNUTS GROWN IN CALIFORNIA, OREGON AND WASHINGTON

SALABLE, SURPLUS, AND WITHHOLDING PERCENTAGES

Notice is hereby given that the Department is considering the issuance of the proposed administrative rules herein set forth pursuant to the provisions of Marketing Agreement No. 105 and Order No. 84 regulating the handling of walnuts grown in California, Oregon and Washington (7 CFR Part 984), effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

[1] Commissioner Hennock not participating; Commissioner Jones dissenting.

Prior to the final issuance of such administrative rule, consideration will be given to data, views, or arguments pertaining thereto which are submitted in writing to the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., and which are received not later than the close of business on September 30, 1952.

Pursuant to provisions of the aforesaid agreement and order the Walnut Control Board, the administrative agency thereunder, at a duly called meeting in San Francisco on August 26, 1952, unanimously recommended that the salable percentage of merchantable walnuts for the 1952–53 marketing year be fixed at 80 percent and the surplus percentage at 20 percent. The Walnut Control Board also unanimously adopted the following estimates:

(1) The quantity of merchantable walnuts to be produced and packed during the 1952–53 marketing year will be 1,141,120 bags of 100 pounds each;

(2) The handler carryover as of August 1, 1952, was 129,000 bags of 100 pounds each of which 127,000 bags were certified for handling, subjected to surplus control and assessed under the 1951–52 program pursuant to the marketing order;

(3) The trade demand for the marketing year 1952–53 in the continental United States, Hawaii, Puerto Rico, Canal Zone, and Cuba, will be 925,000 bags of 100 pounds each.

According to the Control Board's estimates, the handler carryover of August 1, 1952, plus the salable quantity from the 1952 crop resulting from the use of the proposed percentage will be sufficient to satisfy the trade demand for merchantable walnuts and leave adequate carryover stocks on August 1, 1953.

It is provided in § 984.4 of the aforesaid marketing agreement and order that a withholding percentage shall be announced, that it shall be the ratio (measured as a percentage) of the surplus percentage to the salable percentage, adjusted to the nearest whole number. On the basis of the proposed surplus percentage of 20 percent and salable percentage of 80 percent, the withholding percentage would be 25 percent.

The Walnut Control Board's estimates and recommendation have been considered along with other pertinent information available to the Department, and appear reasonable.

Therefore, such proposed administrative rule is as follows:

§ 984.204 *Salable, surplus, and withholding percentages for merchantable walnuts during the 1952–53 marketing year.* For merchantable walnuts, during the 1952–53 marketing year, the salable percentage shall be 80 percent, the surplus percentage shall be 20 percent, and the withholding percentage shall be 25 percent.

Issued at Washington, D. C., this 19th day of September 1952.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Branch.

[F. R. Doc. 52-10389; Filed, Sept. 23, 1952; 8:51 a. m.]

[7 CFR Part 989]

HANDLING OF RAISINS PRODUCED FROM RAISIN VARIETY GRAPES GROWN IN CALIFORNIA

MINIMUM GRADE REQUIREMENTS FOR PROCESSED RAISINS

Notice is hereby given that the Secretary of Agriculture is considering the approval of proposed minimum grade requirements for processed raisins, as hereinafter set forth, which have been submitted to him by the Raisin Administrative Committee in accordance with the provisions of Marketing Agreement No. 109 and Order No. 89 (17 F. R. 1255, 1555) regulating the handling of raisins produced from raisin variety grapes grown in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.). Said minimum grade requirements will, if they are made effective, supersede the minimum grade requirements for processed raisins now set forth as Exhibit B (§ 989.97) to Marketing Agreement No. 109 and Order No. 89.

Consideration will be given to any data, views, or arguments pertaining thereto which are filed in triplicate with the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., and received not later than the close of business on the tenth day after the date of publication of this notice in the FEDERAL REGISTER except that, if said tenth day after publication should fall on a legal holiday, Saturday, or Sunday, such submission will be received by the Director not later than the close of business on the next following business day.

The proposed rule is as follows:

§ 989.205 *Minimum grade requirements for processed raisins*—(a) *Definitions*—(1) *Processed raisins.* Processed raisins are dried grapes of the Vinifera varieties—Thompson Seedless (Sultanina), Muscat of Alexandria, Muscatel Gordo Blanco, Sultana, Black Corinth, or White Corinth—which have been properly stemmed, capstemmed, and cleaned.

(b) *Types and varieties.* (1) Type I—Thompson Seedless (Sultanina): (i) Unbleached (natural or sun-dried); (ii) Sulfur Bleached and Golden Bleached; (iii) Soda Dipped.

(2) Type II—Muscat: (i) Seeded (seeds removed); (ii) Unseeded (loose); (iii) Soda Dipped Unseeded (Valencia).

(3) Type III—Sultana.

(4) Type IV—Zante Currants: (i) Black Zante (Black Corinth); (ii) White Zante (White Corinth).

(c) *Moisture content.* (1) Muscat Seeded raisins shall contain not more than 19 percent, by weight, of moisture. All other processed raisins shall contain not more than 18 percent, by weight, of moisture.

(d) *Grade*—(1) *Thompson Seedless raisins.* Thompson Seedless raisins shall possess similar varietal characteristics, possess a fairly good typical color in Thompson Seedless Unbleached and Soda Dipped raisins, possess a fairly good flavor, show development characteristic of raisins prepared from fairly well-matured grapes, and meet the following requirements:

(i) Not more than 35 capstems and not more than three pieces of stem per pound of raisins may be present;

(ii) Not more than three percent, by weight, of raisins may be poorly developed, blowovers;

(iii) Not more than five percent, by weight, of raisins may be damaged;

(iv) Not more than 15 percent, by weight, of raisins may be visibly sugared; and

(v) Not more than five percent, by weight, of raisins may be affected by mold, decay, fermentation, insect infestation (no live insects are permitted), imbedded dirt, or other foreign material: *Provided*, That not more than two percent, by weight, may be affected by decay.

(2) *Muscat raisins.* Muscat raisins shall possess similar varietal characteristics, possess a fairly good typical color with not more than 20 percent, by weight, of raisins consisting of dark reddish-brown berries in Muscat Soda Dipped Unseeded (Valencia) raisins, possess a fairly good flavor, show development characteristic of raisins prepared from fairly well-matured grapes, and meet the following requirements:

(i) Not more than 20 capstems and not more than three pieces of stem per pound of raisins may be present;

(ii) Not more than 20 seeds per pound of raisins in Muscat Seeded raisins may be present;

(iii) Not more than three percent, by weight, of raisins may be poorly developed, blowovers;

(iv) Not more than five percent, by weight, of raisins may be damaged;

(v) Not more than 15 percent, by weight, of raisins may be visibly sugared; and

(vi) Not more than five percent, by weight, of raisins may be affected by mold, decay, fermentation, insect infestation (no live insects permitted), imbedded dirt, or other foreign material: *Provided*, That not more than two percent, by weight, may be affected by decay.

(3) *Sultana raisins.* Sultana raisins shall possess similar varietal characteristics, possess a fairly good typical color, possess a fairly good flavor, show development characteristic of raisins prepared from fairly well-matured grapes, and meet the following requirements:

(i) Not more than 65 capstems and not more than three pieces of stem per pound of raisins may be present;

(ii) Not more than three percent, by weight, of raisins may be poorly developed, blowovers;

(iii) Not more than five percent, by weight, of raisins may be damaged;

(iv) Not more than 15 percent, by weight, of raisins may be visibly sugared; and

(v) Not more than five percent, by weight, of raisins may be affected by mold, decay, fermentation, insect infestation (no live insects are permitted), imbedded dirt, or other foreign material: *Provided*, That not more than two percent, by weight, may be affected by decay.

(4) *Zante Currant raisins.* Zante Currant raisins shall possess similar varietal characteristics, possess a reasonably good typical color, possess a good characteristic flavor, show development characteristic of dried currants prepared from reasonably well-matured grapes and meet the following requirements:

(i) Not more than two percent, by weight, of dried currants may possess capstems and not more than three pieces of stem per pound may be present;

(ii) Not more than two percent, by weight, of dried currants may be poorly developed, blowovers;

(iii) Not more than three percent, by weight, of dried currants may be damaged;

(iv) Not more than 10 percent, by weight, of dried currants may be visibly sugared; and

(v) Not more than two percent, by weight, of dried currants may be affected by mold, decay, fermentation, insect infestation (no live insects are permitted), imbedded dirt, or other foreign material: *Provided*, That not more than one percent, by weight, of dried currants may be affected by decay.

(e) *Color of Thompson Seedless Sulfur Bleached and Golden Bleached raisins.* Fairly well-bleached color (or extra choice color) means that the raisins are fairly uniform in color and may range from yellow or greenish yellow to amber or light greenish amber and that not more than six percent, by weight, of all the raisins may be definitely dark berries.

(f) *Explanation of terms.* (1) "Capstems" means woody stems exceeding one-eighth inch in length which attach the raisins to the branches of the bunch. A currant for each capstem which is not attached to a currant is included and weighed with "currants with capstems" in ascertaining compliance with the allowance permitted.

(2) A "piece of stem" means a portion of the branch or main stem.

(3) "Seeds" refers to the whole, fully developed seeds which have not been removed during the processing of Muscat Seeded raisins.

(4) "Poorly developed, blowovers" refers to raisins (berries) that are immature, contain practically no flesh, are very light in weight, and have very coarse wrinkles.

(5) "Damaged" raisins means raisins affected by insect injury or injury from sunburn, scars, mechanical or other means which seriously affects the appearance, edibility, keeping quality, or shipping quality of the raisins. In Muscat Seeded raisins, mechanical injury resulting from normal seeding operations is not considered damage.

(6) "Visibly sugared" means the accumulation of crystallized fruit sugars in the flesh of the raisin or on the surface which is readily apparent.

(7) "Mold" means mold filaments or spores (often characterized by a condition wherein the skin of the raisin appears to have been dissolved, leaving a slimy or sticky appearance, and often resulting in a positive reaction when submerged in a three percent hydrogen peroxide solution).

(8) "Affected by insect infestation" means that the raisins show the presence of insects, insect fragments, or excreta. No live insects are permitted.

The foregoing requirements are those specified in United States Standards for Grades of Processed Raisins, with respect to Grade C for raisins other than Zante Currants, and in United States Standards for Grades of Dried Currants, with respect to Grade B for Zante Currants.

In addition, it is contemplated that a conforming change will be made in § 989.201 (a) (3) of this part, in which there are set forth the companion minimum grade requirements for natural condition raisins, in that the words therein reading "and to meet the minimum grade requirements set forth in § 989.97 (Exhibit B)" will be changed to read "and to meet the minimum grade requirements set forth in § 989.205 of this part."

Issued at Washington, D. C., this 19th day of September, 1952.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch.

NOTICES

DEPARTMENT OF AGRICULTURE

Office of the Secretary

BUREAU OF ENTOMOLOGY AND PLANT QUARANTINE

DELEGATION OF AUTHORITY RELATING TO GOLDEN NEMATODE SUPPRESSIVE PROGRAM, 1952

Pursuant to the provisions of the Golden Nematode Act (7 U. S. C. 150–150e), authority is hereby delegated with respect to the Golden Nematode Suppressive Program, 1952 (7 CFR 303.1 et seq., as amended) as follows:

(a) *Agency designated to act for Federal Government.* The Bureau of Entomology and Plant Quarantine of this Department is hereby authorized to carry out, on behalf of the Federal Government, the cooperative program for the 1952 potato crop year to suppress, control, and prevent the spread of the golden nematode.

(b) *Agent of Secretary of Agriculture to determine eligibility for payment.* The Federal official in charge of the Golden Nematode Project, working under the direction of the Chief of the Bureau of Entomology and Plant Quarantine, is hereby designated as the authorized agent of the Secretary of Agriculture in determining eligibility for compensation under the regulatons governng the golden nematode suppressive program, 1952 (7 CFR § 303.1 et seq., as amended), and approving the amount of compensation to be provided by the United States Department of Agriculture under such regulations to any owner-operator who refrains from planting potatoes during the 1952 potato crop year.

This delegation shall be effective immediately. All action heretofore taken which would have been authorized by this delegation if it had been in effect at the time of such action is hereby ratified.

Done at Washington, D. C., this 18th day of September 1952.

[SEAL] C. J. MCCORMICK,
Acting Secretary of Agriculture.

Production and Marketing Administration

PEANUTS

NOTICE OF REDELEGATION OF FINAL AUTHORITY BY TENNESSEE STATE PRODUCTION AND MARKETING ADMINISTRATION COMMITTEE REGARDING MARKETING QUOTA REGULATIONS FOR 1952 CROP

Section 729.369 of the Marketing Quota Regulations for the 1952 Crop of Peanuts (17 F. R. 4317) issued pursuant to the marketing quota provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301–1376), provides that any authority delegated to the State Production and Marketing Administration Committee by the regulations may be redelegated by the State Committee. In accordance with section 3 (a) (1) of the Administrative Procedure Act (5 U. S. C. 1002 (a)), which requires delegations of final authority to be published in the FEDERAL REGISTER, there are set out herein the redelegations of final authority which have been made by the Tennessee State Production and Marketing Administration Committee of authority vested in such committee by the Secretary of Agriculture in the regulations referred to above.

The Tennessee State PMA Committee redelegates to the Chairman of the Tennessee State PMA Committee all authority delegated to the State PMA Committee in the Marketing Quota Regulations for 1952 Crop of Peanuts except that there is redelegated to the County PMA Committee the authority delegated to the State PMA Committee in §§ 729.341 (j) (2) (ii), 729.353 (a), and 729.353 (c) of the Marketing Quota Regulations for 1952 Crop of Peanuts.

Issued at Washington, D. C., this 18th day of September 1952.

[SEAL] HAROLD K. HILL,
Acting Administrator, Production and Marketing Administration.

FEDERAL COMMUNICATIONS COMMISSION

APPLICANTS IN PUBLIC SAFETY, INDUSTRIAL AND LAND TRANSPORTATION RADIO SERVICES

NEW APPLICATION FORMS FOR RADIOCOMMUNICATION FACILITIES

SEPTEMBER 11, 1952.

The Commission on September 10, 1952, adopted FCC Forms 400 and 400–A for use by persons desiring authority to install new radiocommunication facilities or modify existing facilities in the Public Safety, Industrial, or Land Transportation Radio Services. Parts 1, 10, 11, and 16 of the rules were amended accordingly. The new forms represent a radical departure in the Commission's licensing procedure in these services; however, they will not be available for distribution until January 1953 or shortly thereafter. In the meantime, applications should be submitted in the usual manner on FCC Forms 401, 401–B, 403, 702, and 703, as applicable. The latter forms will be replaced by the Forms 400 and 400–A in the above-mentioned radio services.

FCC Form 400 is a multi-leaf form with carbons attached and the applicant will fill out all necessary copies at the same time that the application is completed. The first page of the form is composed of a "work sheet" which is to be detached and filled out in pencil before the entries are made on the portion of the form which is to be submitted to the Commission. In order to assist the applicant, detailed instructions, reviewing the form item-by-item, are available.

FCC Form 400–A may be used by persons who hold an authorization in the Public Safety, Industrial, or Land Transportation Radio Services and wish to modify the authorization in some of its terms. One of its chief advantages will be in the very simple manner in which an applicant can obtain authority to add mobile units to an existing system.

In accordance with the new procedure, the make and type of transmitting equipment generally will not be shown on the authorization, but instead will be included in a list of equipment which will be prepared by the Commission. Any equipment which is included in the list and designated for use in the Public Safety, Industrial, and Land Transportation Radio Services may be used provided the equipment employs the same type of emission and does not exceed the power limitations as shown on the authorization. Equipment which is not included in the list can be authorized provided the applicant submits the required technical data with the application to show that it meets the minimum technical requirements of the Commission's rules. In such cases the equipment will be specifically shown on the authorization. Provision has also been made for the issuance of a combined construction permit and license which will eliminate the necessity of submitting separate applications for these authorizations in many cases.

The Commission's "List of Equipments Acceptable for Licensing" will be released at the same time that the forms become available. This list will be comprised of that equipment which has been previously licensed in these services. It is planned that rule making proceedings will be initiated in the near future proposing acceptance for licensing based upon actual test data demonstrating compliance with the technical requirements of the Commission's rules. In practice, this data will, in general, be submitted by the equipment manufacturer. The proposed rules will provide for a gradual revision of the equipment list looking towards such acceptance of all equipment licensed in these services. However, it is expected that equipments in regular service for which the required showing has not been made, will be continued on the list for a limited period unless interference is caused by failure to comply with the Commission's rules and regulations.

It will be economically infeasible for the Commission to print the list and distribute copies to the public at large; however, copies will be retained at the Washington offices of the Commission and at each of the Field Offices, where they may be inspected. Interested parties may reproduce the list in whole, or in part, if they so desire.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[Docket No. 10230]

ARCTIC TELEPHONE AND TELEGRAPH CO.

ORDER CONTINUING HEARING

In the matter of Arctic Telephone and Telegraph Company, Docket No. 10230, File No. 11330–F4–MP–D; application for modification of construction permit to change location of a fixed public point-to-point telephone station from Fourth of July Creek, Alaska, to Anchorage, Alaska, to add frequencies and to increase the maximum power.

The Commission having under consideration its order of July 10, 1952, designating this matter for hearing in Washington, D. C., on August 26, 1952; also its order of August 19, 1952, adjourning the hearing from August 26, 1952, to September 30, 1952, subject to such further order as might be appropriate if, and when, applicant filed the appearance and the request mentioned in its order of August 19, 1952, that the place of hearing be changed to Seattle, Washington, or Portland, Oregon;

The Commission also having under consideration a letter dated September 8, 1952, addressed to the Commission by applicant, the Arctic Telephone and Telegraph Company, in which it is stated that applicant was forwarding on that day to the Commission a Petition for Reconsideration and Grant;

It appearing that the Commission may be unable to act upon the Petition for Reconsideration and Grant before September 30, 1952, or sufficiently in advance of that date to enable the parties to proceed with the hearing on that date;

It is ordered, This 16th day of September 1952, that the hearing on this matter is continued without date, subject to further order of the Commission.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[Docket Nos. 10272, 10273]

BRUSH-MOORE NEWSPAPERS, INC., AND STARK BROADCASTING CORP.

ORDER CONTINUING HEARING

In re applications of the Brush-Moore Newspapers, Inc., Canton, Ohio, Docket No. 10272, File No. BPCT–264; Stark Broadcasting Corporation, Canton, Ohio, Docket No. 10273, File No. BPCT–949; for construction permits for new television stations.

The Commission having under consideration a petition filed September 11, 1952, by Stark Broadcasting Corporation requesting a continuance of the hearing in the above-captioned proceeding from October 1, 1952, to December 8, 1952; and

It appearing, that all other parties to this proceeding have consented to a grant of the petition and to a waiver of § 1.745 of the Commission's rules and regulations to permit an early consideration of this request; and that just and sufficient cause has been shown why this continuance should be granted;

It is ordered, This 12th day of September 1952, that the petition is granted; and the hearing in the above-captioned proceeding presently scheduled to be held on October 1, 1952, is continued to December 8, 1952.

[Docket No. G–1955]

TRANSCONTINENTAL GAS PIPE LINE CORP., AND TEXAS EASTERN TRANSMISSION CORP.

NOTICE OF AMENDMENT TO APPLICATION

SEPTEMBER 19, 1952.

Take notice that on September 16, 1952, Transcontinental Gas Pipe Line Corporation (Transcontinental) and Texas Eastern Transmission Corporation (Texas Eastern), Delaware corporations, having their principal place of business in Houston, Texas, and Shreveport, Louisiana, respectively, filed an amendment to their joint application theretofore filed for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing construction and operation of certain natural-gas pipeline facilities, and the rendering of natural-gas service to the East Ohio Gas Company, New York State Natural Gas Corporation, and the Peoples Natural Gas Company, to United Natural Gas Company, and to Indiana Gas & Water Co., Inc. Such facilities consist of metering facilities and the necessary pipe to interconnect the 20-inch Marcus Hook lateral of Transcontinental and the 20-inch South lateral of Texas Eastern near Philadelphia, Pennsylvania.

The original application was filed on May 9, 1952, and notice of the filing thereof was published in the FEDERAL REGISTER on May 23, 1952 (17 F. R. 4728).

On May 15, 1952, the Commission granted Transcontinental and Texas Eastern temporary authorization to construct and operate the facilities above referred to, upon the condition, among others, that the authorization should not in any event extend beyond September 30, 1952.

On September 11, 1952, the Commission issued an order setting the proceeding for hearing on September 23, 1952, concerning the matters involved and the issues presented by the application.

By the amendment to the application filed on September 16, 1952, Transcontinental and Texas Eastern seek additional authorization from the Commission to operate the facilities above described, and to render the service above referred to, and more particularly described in the application until November 30, 1952.

On September 19, 1952, the Commission issued an order postponing the date of hearing from September 23, 1952, to October 3, 1952.

The amendment to the application is on file with the Commission for public inspection.

Protests or petitions to intervent may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 2d day of October 1952.

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. G–1956]

TRANSCONTINENTAL GAS PIPE LINE CORP. AND TEXAS EASTERN TRANSMISSION CORP.

ORDER POSTPONING HEARING

SEPTEMBER 18, 1952.

On May 9, 1952, Transcontinental Gas Pipe Line Corporation (Transcontinental) and Texas Eastern Transmission Corporation (Texas Eastern), filed a joint application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of metering facilities and the necessary pipe to interconnect the 20-inch Marcus Hook lateral of Transcontinental and the 20-inch South lateral of Texas Eastern near Philadelphia, Pennsylvania. Such facilities will be utilized for the delivery of natural gas to Texas Eastern, which company in turn will deliver equivalent volumes of natural gas to the East Ohio Gas Company, New York State Natural Gas Corporation, the Peoples Natural Gas Company, United Natural Gas Company and the Indiana Gas & Water Company, Inc.

On May 15, 1952, the Commission granted Transcontinental and Texas Eastern temporary authorization to construct and operate the facilities above referred to, upon the condition, among others, that the authorization should not in any event extend beyond September 30, 1952.

On September 11, 1952, the Commission issued an order setting the proceeding for public hearing on September 23, 1952, concerning the matters involved and the issues presented by the application.

On September 16, 1952, Transcontinental and Texas Eastern filed an amendment to such application, whereby they seek additional authorization from the Commission to operate the facilities above described and to render the service above referred to until November 30, 1952.

The Commission finds: Good cause exists for postponing the date of hearing, as hereinafter provided, and for fixing the date of hearing at less than 15 days after publication in the FEDERAL REGISTER of notice of hearing respecting the application as amended.

The Commission orders: The public hearing in this matter, now set to commence on September 23, 1952, be and the same hereby is postponed to commence at 10:00 a. m., e. s. t., on October 3, 1952, in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by the application as amended.

Date of issuance: September 19, 1952.

By the Commission.

UNITED CORP.

ORDER POSTPONING HEARING ON APPLICATION TO PAY FEE AND EXPENSES

SEPTEMBER 18, 1952.

The Commission having by order dated September 2, 1952, designated September 23, 1952, as the date for public

hearing on an application filed by Randolph Phillips, a common stockholder of the United Corporation ("United"), a registered holding company, for the payment of a requested fee in the amount of $39,000 and reimbursement of expenses incurred in the amount of $23,414.71 for services claimed to have been rendered in 1943 and 1944 in connection with United's plan filed pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act"), providing for the exchange, on a voluntary basis, of portfolio assets, including cash, for the then outstanding shares of United's $3 Cumulative Preference Stock; and

Randolph Phillips having requested that said hearing be postponed until certain court proceedings involving, among other things, similar claims for fees and expenses of Phillips in the years 1943 and 1944 are terminated, and United having stated that it does not object to a postponement of the hearing, and it appearing that a postponement will not prejudice the interest of investors or the administration of the act:

It is ordered, That the hearing in this matter scheduled for September 23, 1952, be and hereby is postponed until further order of the Commission.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70–2908]

BLACKSTONE VALLEY GAS AND ELECTRIC CO. ET AL.

ORDER AUTHORIZING PROPOSED SALE OF COMMON STOCK TO ASSOCIATES

SEPTEMBER 18, 1952.

In the matter of Blackstone Valley Gas and Electric Company, Brockton Edison Company, Fall River Electric Light Company, Eastern Utilities Associates; File No. 70–2908.

Eastern Utilities Associates ("EUA"), a registered holding company, and its three direct public-utility subsidiary companies, namely, Blackstone Valley Gas and Electric Company ("Blackstone"), Brockton Edison Company ("Brockton") and Fall River Electric Light Company ("Fall River"), having filed an application-declaration, pursuant to scections 9, 10, and 12 of the Public Utility Holding Company Act of 1935 and Rules U-23 and U-43 promulgated thereunder, with respect to the following proposed transactions:

Blackstone, Brockton and Fall River own all of the outstanding stock of Montaup Electric Company ("Montaup"), the system's generating company, such stock ownership being 43.63 percent, 23.42 percent and 32.95 percent, respectively, of the investment in Montaup. The power contract under which Montaup sells electric energy to its owner companies requires periodic changes in the investment of such owner companies in Montaup so that their investment ratios will be approximately the same as the ratios based on their actual use of Montaup's facilities. To accomplish this purpose Blackstone proposes to sell 3,066 shares of common stock of Montaup, of which 1,544 will be sold to Fall River and 1,522 will be sold to Brockton. Such stock will be sold at a price of $103.72815 per share or for a total consideration of $318,030.51. The price per share represents the par value plus the pro rata portion of the earned surplus attributable to each common share of Montaup outstanding at the close of business on September 30, 1951.

All of the Montaup stock held by Blackstone is pledged as mortgaged property under that company's indenture of mortgage securing its outstanding bonds. The cash consideration of $318,030.51 will be deposited by Blackstone with its indenture trustee in order to secure the release of said 3,066 common shares and, subsequently, the cash deposited with the trustee will be released by the substitution by Blackstone of bondable property additions in accordance with the provisions of the mortgage indenture.

The Massachusetts Department of Public Utilities has approved the proposed acquisition of common stock by Fall River and Brockton. The application-declaration states that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. The application-declaration further states that the expenses in connection with the proposed transactions are estimated not to exceed $700 of which $600 represents counsel fees.

It is requested that the transactions be authorized pursuant to the procedure of Rule U-23, without a hearing, and that the Commission's order herein become effective upon issuance.

Due notice having been given of the filing of the application-declaration and a hearing not having been requested of or ordered by the Commission, and the Commission finding that the applicable provisions of the act and rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said application-declaration be granted and permitted to become effective:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, that said application-declaration be, and hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 of the general rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70–2930]

WACHUSETT GAS CO. AND NEW ENGLAND ELECTRIC SYSTEM

NOTICE OF FILING REGARDING ISSUANCE AND SALE OF CAPITAL STOCK AND ACQUISITION BY PARENT

SEPTEMBER 18, 1952.

Notice is hereby given that an application-declaration has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by New England Electric System ("NEES"), a registered holding company, and its public-utility subsidiary company, Wachusett Gas Company ("Wachusett"). NEES and Wachusett have designated sections 6 (b), 9 (a) and 10 of the act and Rules U-23 and U-42 (b) (2) thereunder as applicable to the proposed transactions, which are summarized as follows:

Wachusett proposes to issue and sell, for cash, 5,000 shares of additional capital stock, $100 par value, at a price of $100 per share. NEES, the sole stockholders of Wachusett, proposes to acquire such shares and will use available cash for such purpose.

Pursuant to a bank loan agreement with the National City Bank of New York, Wachusett presently has outstanding $430,000 principal amount of unsecured promissory notes, due April 1, 1953. The proceeds from the proposed issuance and sale of capital stock will be used by Wachusett to pay its then outstanding note indebtedness under its loan agreement and the balance of the proceeds will be used to pay for construction.

The application-declaration states that the total expenses to Wachusett and NEES in connection with the proposed transactions, including services rendered by New England Power Service Company, an affiliated service company, at the actual cost thereof, are estimated at $1,500 and $300, respectively.

Wachusett has applied to the Department of Public Utilities of the Commonwealth of Massachusetts for approval of the proposed issuance and sale of capital stock and, according to the application-declaration, no other State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

It is requested that the Commission's order herein become effective upon issuance.

Notice is further given that any interested person may, not later than October 15, 1952, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason or reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 and U-100 thereof.

By the Commission.

UNITED STATES TARIFF COMMISSION

[Investigation No. 20]

ROSARIES

NOTICE OF INVESTIGATION

Upon application of G. Klein & Son, New York, N. Y. and the H. M. H. Co. Inc., Pawtucket, Rhode Island, received September 15, 1952, the United States Tariff Commission, on the 19th day of September 1952, under the authority of section 7 of the Trade Agreements Extension Act of 1951, approved June 16, 1951, and section 332 of the Tariff Act of 1930, instituted an investigation to determine whether the products described below are, as a result in whole or in part of the customs treatment reflecting the concession granted on such products under the General Agreement on Tariffs and Trade, being imported into the United States in such increased quantities, either actual or relative, as to cause or threaten serious injury to the domestic industry producing like or directly competitive products.

Tariff Act of 1930:	*Description of products*
Par. 1544	Rosaries, chaplets, and similar articles of religious devotion, made in whole or in part of gold, silver, platinum, gold plate, silver plate, or precious or imitation precious stones.

Inspection of application. The application filed in this case, except for confidential material, is available for public inspection at the office of the Secretary, United States Tariff Commission, Eighth and E Streets NW., Washington, D. C., and in the New York Office of the Tariff Commission located in Room 437 of the Customhouse, where it may be read and copied by persons interested.

I certify that the above investigation was instituted by the Tariff Commission on the 19th day of September 1952.

Issued: September 19, 1952.

DONN N. BENT,
Secretary.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27407]

RUBBER TIRES FROM CAMDEN, N. J., TO MEMPHIS, TENN., AND NEW ORLEANS, LA.

APPLICATION FOR RELIEF

SEPTEMBER 19, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to Agent C. W. Boin's tariff I. C. C. No. A-911, pursuant to fourth-section order No. 16101.

Commodities involved: Tires, rubber, and parts, carloads.

From: Camden, N. J.

To: Memphis, Tenn., and New Orleans, La.

Grounds for relief: Competition with rail carriers, circuitous routes, and operation through higher-rated territory.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[4th Sec. Application 27408]

CLASS RATES FROM OR TO INTERMOUNTAIN TERRITORY

APPLICATION FOR RELIEF

SEPTEMBER 19, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: L. E. Kipp, Agent, for carriers parties to Docket No. 28300, Class Rate Investigation, 1939, 281 I. C. C. 213.

Involving: Class rates.

Territory: From or to points generally west of the Rocky Mountains.

Grounds for relief: Rail competition, circuity, operation through higher-rated territory, and to continue rates prescribed or approved in Docket 28300, from or to intermediate points.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[4th Sec. Application 27409]

ANHYDROUS AMMONIA FROM HOUSTON, TEX., TO SOUTH

APPLICATION FOR RELIEF

SEPTEMBER 19, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to his tariff I. C. C. No. 3746.

Commodities involved: Anhydrous ammonia, in tank-car loads.

From: Houston, Tex.

To: Points in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia.

Grounds for relief: Rail competition, circuity, market competition, operation through higher-rated territory, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3746, Supp. 95.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Regs., Serial No. SR-386]

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

SPECIAL CIVIL AIR REGULATION; FLIGHT TIME LIMITATIONS FOR PILOTS NOT REGULARLY ASSIGNED TO ONE TYPE OF CREW

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 19th day of September 1952.

Special Civil Air Regulation SR-381 which terminates September 30, 1952, provides authority whereby a pilot may serve in more than one type of flight crew without incurring any penalty in terms of maximum permissive flight duty. This authority has heretofore been provided for an experimental period with a view to the establishment of permanent rules for such crew assignments.

The Civil Aeronautics Administration has advised the Board that the regulation is a desirable one and not subject to abuse. It therefore recommends that the authority granted by SR-381 be continued and that it be incorporated in Part 41 of the Civil Air Regulations. Certain scheduled air carriers have also asked that the authority be incorporated in Part 41. However, the Board considers, since a proposed major revision of Part 41 is expected to be published shortly, that it would be more advisable to extend the authority granted by SR-381 and incorporate the changes in the proposed revision of Part 41 when published.

This regulation will not allow evasion of the stricter limitations applicable to smaller crew combinations, but will allow assignment of a pilot in any given month to another type of crew combination without additional flight time limitation if he flies not more than 20 hours in the type of crew to which the more restrictive flight time limitations apply and if such assignment is not interrupted more than once during such month.

Interested persons have been afforded an opportunity to participate in the making of this regulation, and due consideration has been given to all relevant matter presented. Since it imposes no additional burden on any person, this regulation may be made effective without prior notice.

In consideration of the foregoing the Civil Aeronautics Board hereby makes and promulgates the following Special Civil Air Regulation, effective immediately.

1. Contrary provisions of § 41.57 of the Civil Air Regulations notwithstanding, the following rules shall apply to the monthly and quarterly flight time limitations of pilots assigned in combinations of two-pilot crews, two-pilot and additional flight crew member crews, or three-pilot and additional flight crew member crews.

2. A pilot who is assigned to duty aloft for more than 20 hours in two-pilot crews in a given month, or whose assignment in such crews is interrupted more than once in the month by assignment to a crew consisting of two or more pilots and an additional flight crew member, shall be governed by the provisions of § 41.54.

3. Except for a pilot coming within the provisions of paragraph 2, a pilot who is assigned to duty aloft for more than 20 hours in two-pilot and additional flight crew member crews in a given month, or whose assignment in such crews is interrupted more than once in the month by assignment to a crew consisting of three pilots and an additonal flight crew member, shall be governed by the provisions of § 41.55.

4. A pilot to whom the provisions of paragraphs 2 and 3 are not applicable, assigned to duty aloft for a total of 20 hours or less within a given month in two-pilot crews with or without additional flight crew members, shall be governed by the provisions of § 41.56.

5. A pilot assigned to each of two-pilot, two-pilot and additional flight crew member, and three-pilot and additional flight crew member crews in a given month, who is not governed by the provisions of paragraphs 2, 3, or 4, shall be governed by the provisions of § 41.55.

This regulation shall supersede Special Civil Air Regulation Serial Number SR-381 and shall terminate one year from its effective date, unless sooner superseded or rescinded by the Board.

Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

PART 701—NATIONAL AGRICULTURAL CONSERVATION PROGRAM

SUBPART—1953

Correction

In F. R. Doc. 52–8385, appearing at page 6995 of the issue for Thursday, July 31, 1952, the sixth line of § 701.412 (c) should read: "in §§ 701.413 to 701.415, 701.416 (2), 701.417".

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes

[T. D. 5932; Regs. 103, 111]

PART 19—INCOME TAX UNDER THE INTERNAL REVENUE CODE

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

INVOLUNTARY LIQUIDATION AND REPLACEMENT OF INVENTORIES ACCOUNTED FOR ON LAST-IN FIRST-OUT METHOD

On April 9, 1952, notice of proposed rule making to conform Regulations 103 (26 CFR Part 19) and 111 (26 CFR Part 29) to Public Law 91, 82d Congress, approved January 11, 1951, and to section 306 of the Revenue Act of 1951, approved October 20, 1951, was published in the FEDERAL REGISTER (17 F. R. 3105). After consideration of all relevant matter presented by interested persons, the amendments to such regulations set forth below are hereby adopted.

PARAGRAPH 1. There is inserted immediately preceding § 19.22 (d)–1 the following:

PUBLIC LAW 919, 81ST CONGRESS, APPROVED JANUARY 11, 1951

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 22 (d) (6) (relating to the involuntary liquidation and replacement of elective inventories) of the Internal Revenue Code is hereby amended as follows:

(a) By amending the title of subparagraph (A) thereof to read as follows:

(A) *Adjustment of net income and resulting tax.* Years beginning prior to January 1, 1948.

(b) By striking out in subparagraph (A) thereof "January 1, 1951" and by inserting in lieu thereof "January 1, 1953".

(c) The amendments made by this section shall be applicable with respect to taxable years beginning after December 31, 1940.

* * * * *

PAR. 2. Section 19.22 (d)–7, as amended by Treasury Decision 5841, approved May 22, 1951, is further amended by striking from the second paragraph, as revised by Treasury Decision 5645, approved July 20, 1945, the date "January 1, 1951" and inserting in lieu thereof the following: "January 1, 1953".

PAR. 3. There is inserted immediately preceding § 29.22 (d)–1 the following:

PUBLIC LAW 919, 81ST CONGRESS, APPROVED JANUARY 11, 1951

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 22 (d) (6) (relating to the involuntary liquidation and replacement of elective inventories) of the Internal Revenue Code is hereby amended as follows:

(a) By amending the title of subparagraph (A) thereof to read as follows:

(A) *Adjustment of net income and resulting tax.* Years beginning prior to January 1, 1948.

(b) By striking out in subparagraph (A) thereof "January 1, 1951" and by inserting in lieu thereof "January 1, 1953".

(c) The amendments made by this section shall be applicable with respect to taxable years beginning after December 31, 1940.

SEC. 2. LIQUIDATIONS IN TAXABLE YEARS ENDING AFTER JUNE 30, 1950, AND PRIOR TO JANUARY 1, 1954.

(a) *In general.* Section 22 (d) 6) of the Internal Revenue Code is hereby amended by the addition of the following subparagraph:

(F) *Years ending after June 30, 1950, and prior to January 1, 1954.*

(i) *Adjustment of net income and resulting tax.* If, for any taxable year ending after June 30, 1950, and prior to January 1, 1954, the closing inventory of a taxpayer inventorying goods under the method provided in this subsection reflects a decrease from the opening inventory of such goods for such year, and if the taxpayer elects, at such time and in such manner and subject to such regulations as the Commissioner with the approval of the Secretary may prescribe, to have the provisions of this paragraph apply, and if it is established to the satisfaction of the Commissioner, in accordance with such regulations, that such decrease is attributable to the involuntary liquidation of such inventory as defined in subparagraph (B) (as modified by clause (ii) of this subparagraph), and if the closing inventory of a subsequent taxable year, ending prior to January 1, 1956, reflects a replacement, in whole or in part, of the goods so previously liquidated, the net income of the taxpayer otherwise determined for the year of such involuntary liquidations shall be increased by an amount equal to the excess, if any, of the aggregate cost of such goods reflected in the opening inventory of the year of involuntary liquidation over the aggregate replacement cost, or decreased by an amount equal to the excess, if any, of the aggregate replacement cost of such goods over the aggregate cost thereof reflected in the opening inventory of the year of the involuntary liquidation. The taxes imposed by this chapter and by chapter 2 for the year of such liquidation, for preceding taxable years, and for all taxable years intervening between the year of liquidation and the year of replacement shall be redetermined, giving effect to such adjustments. Any increase in such taxes resulting from such adjustments shall be assessed and collected as a deficiency but without interest, and any overpayment so resulting shall be credited or refunded to the taxpayer without interest.

(ii) *Definition of involuntary liquidation.* For the purposes of this subparagraph the term "involuntary liquidation" shall have the meaning given to it in subparagraph (B) and, in addition, it shall mean a failure, as referred to in that subparagraph, on the part of the taxpayer due, directly and exclusively, to disruption of normal trade relations between countries. For the purposes of this subparagraph the words "enemy" and "war", as used in subparagraph (B), shall be interpreted, pursuant to regulations prescribed by the Secretary, in such a way as to apply to circumstances, occurrences and conditions, lacking a state of war, which are similar, by reason of a state of national preparedness, to those which would exist under a state of war.

(iii) *Application of Subparagraphs (C) and (E).* Subparagraphs (C) and (E), to the extent that they refer to any taxpayer subject to the provisions of subparagraph (A) or to the adjustments specified in or resulting from the effect of subparagraph (A), shall be as applicable to a taxpayer subject to the provisions of this subparagraph or to adjustments specified in or resulting from the effect of this subparagraph as though they specifically referred to this subparagraph. For this purpose, and with respect to the taxable years covered by this subparagraph, the reference in subparagraph (E) to section 734 (d) shall be taken as a reference to section 450 (d) [sic].

(b) *Effective date.* The amendment made by this section shall be applicable with respect to taxable years ending after June 30, 1950.

Approved January 11, 1951.

SEC. 306. INVOLUNTARY LIQUIDATION AND REPLACEMENT OF INVENTORY (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Amendment of section 22 (d) (6) (F) (iii).* Section 22 (d) (6) (F) (iii) (relating to replacement of inventory involuntarily liquidated) is hereby amended by striking out the last sentence and inserting in lieu thereof the following: "If, for any taxable year ending after June 30, 1950, and prior to January 1, 1953, subparagraph (C) is applicable with respect to involuntary liquidations of goods of the same class subject to the provisions of both subparagraph (A) and this subparagraph, the involuntary liquidations of such goods subject to the provisions of this subparagraph shall be considered for the purpose of subparagraph (C) as having occurred prior to the involuntary liquidations of such goods subject to the provisions of subparagraph (A). For the purpose of this clause, and with respect to the taxable years covered by this subparagraph, the reference in subparagraph (E) to section 734 (d) shall be taken as a reference to section 452 (d)."

(b) *Effective date.* The amendment made by subsection (a) shall be applicable with respect to taxable years ending after June 30, 1950.

PAR. 4. Section 29.22 (d)–7, as amended by Treasury Decision 5841, approved May 22, 1951, is further amended as follows:

(A) By striking from the first sentence of paragraph (a) "If prevailing war conditions beyond the control of the taxpayer should render it impossible during the period of the war for a taxpayer using the elective inventory method to have on hand at the close of the taxable year a stock of merchandise" and inserting in lieu thereof the following: "If prevailing war conditions beyond the control of the taxpayer, or certain prescribed post-war conditions beyond his control, should render it impossible either during the period of the war or within the prescribed post-war period for a taxpayer using the elective inventory method to have on hand at the close of the taxable year a stock of merchandise".

(B) By striking from paragraph (a) "If the taxpayer notifies the Commissioner at any time not later than six months after the time of filing his income tax return for the year of the liquidation" from the second sentence and inserting in lieu thereof the following: "If the taxpayer notifies the Commissioner at any time not later than six months after the time of filing his income tax return for the year of the liquidation, or at any time not later than December 15, 1952, in the case of the year of liquidation being a taxable year ending after June 30, 1950, and before March 1, 1952,".

(C) By striking "January 1, 1951" from paragraph (b) and inserting in lieu thereof the following: "January 1, 1953."

(D) By inserting at the end of paragraph (b) the following: "The statutory provisions affording recognition to the involuntary character of inventory decreases which become apparent in post-war taxable years and authorizing for tax purposes a replacement of the items of merchandise so liquidated are limited in their application to liquidations occurring in taxable years ending after June 30, 1950, and prior to January 1, 1954, and to inventory replacements effected in taxable years ending prior to January 1, 1956."

(E) By striking "A failure on the part of the taxpayer" from the first sentence of paragraph (c) and inserting in lieu thereof the following: "With respect to inventory decreases occurring during the period of the war, a failure on the part of the taxpayer".

(F) By inserting immediately after paragraph (c) the following new undesignated paragraph:

With respect to inventory decreases occurring in taxable years ending after June 30, 1950, and prior to January 1, 1954, the rules prescribed in the preceding paragraph shall apply. For the purpose of such rules, the words "enemy" and "war" shall be interpreted to apply to circumstances, occurrences, and conditions lacking a state of war, which are similar, by reason of a state of national preparedness, to those which would exist under a state of war. The various directives, orders, regulations, and allotments issued by the Federal Government in connection with national preparedness are among such circumstances and conditions. Likewise, a voluntary compliance with a request of an authorized representative of the Federal Government made upon an industry or an important segment thereof, or a voluntary allocation of materials by an industry or important segment thereof sanctioned by the Federal Government, if made in connection with the national preparedness program, might be considered as such a circumstance or condition. Similarly, so much of an inventory decrease as is directly and exclusively attributable to the Federal Government's stockpiling program for periods during which an item is not subject to allotment shall also be considered as subject to the provisions of section 22 (d) (6). Thus, so much of an inventory decrease as is due wholly to the effect of directives, orders, regulations, or allotments issued pursuant to the Defense Production Act of 1950, or to any other circumstance or condition which is solely dependent upon other action taken by the Federal Government in furtherance of the national preparedness program, ordinarily shall be considered as an involuntary liquidation under section 22 (d) (6) and this section; however, to the extent that such a decrease is due to the disposition of goods acquired in violation of such directives, orders, regulations, or allotments, such decrease shall not be considered as such an involuntary liquidation. With respect to an inventory decrease in a taxable year ending after June 30, 1950, and prior to January 1, 1954, due directly and exclusively to a disruption of normal trade relations between countries, such an inventory decrease shall be considered as an involuntary liquidation subject to the rules and requirements prescribed in the preceding paragraphs, including the requirement that the taxpayer establish to the satisfaction of the Commissioner the cause of the involuntary liquidation. A disruption of normal trade relations between countries may be reflected by unusual export limitations imposed by a foreign government, by unusual exchange restrictions, or by other unusual circumstances or conditions beyond the control of the taxpayer.

(G) By striking the first sentence from paragraph (d) and inserting in lieu thereof the following: "If the taxpayer would have the involuntary liquidation and replacement provisions applicable with respect to any inventory decrease, he must so elect within the time prescribed by this part".

(H) By striking from the second sentence of paragraph (d) "(3) the circumstances relied upon as rendering the taxpayer unable to maintain throughout the taxable year a normal inventory of the items involved" and inserting in lieu thereof the following: "(3) the circumstances relied upon as rendering the taxpayer unable to maintain throughout the taxable year a normal inventory of the items involved, including evidence of the applicable National Production Authority inventory control figures for the beginning and the close of the taxable year (or if none, a statement to that effect), allotments applied for, allotments received, and reason for failure to place allotments received".

(I) By striking the period at the end of the first sentence of paragraph (g) and inserting in lieu thereof the following: "; however, in a case involving involuntary liquidations of goods of the same class subject to the provisions of both section 22 (d) (6) (A) and section 22 (d) (6) (F), the involuntary liquidations of such goods subject to the provisions of section 22 (d) (6) (F) shall, for the purpose of replacements made in taxable years ending prior to January 1, 1953, be considered as having occurred prior to the involuntary liquidations of such goods subject to the provisions of section 22 (d) (6) (A)".

(J) By changing the penultimate sentence of paragraph (h) to read as follows: "The tax previously determined shall be ascertained in accordance with the principles stated in section 734 (d) and section 452 (d) and those sections of the regulations prescribed thereunder".

(53 Stat. 9, 32, 467; 26 U. S. C. 22, 62, 3791)

[SEAL] NORMAN A. SUGARMAN,
Acting Commissioner of Internal Revenue.

Approved: September 22, 1952.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

[F. R. Doc. 52-10417; Filed, Sept. 24, 1952; 8:46 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter B—Claims and Accounts

PART 536—CLAIMS AGAINST THE UNITED STATES

MUSTERING-OUT PAYMENTS

Section 536.75 is revised, § 536.76 (a) (2), (b) (3) and (c) (2), and § 536.77 (a) (1) and (7) are amended as follows:

§ 536.75 *Mustering-out payments—(a) Members engaged in active service in World War II—(1) To whom payable.* Except as provided in subparagraph (2) of this paragraph, each member of the Armed Forces who shall have been engaged in active service in World War II and who is discharged or relieved from active service under honorable conditions on or after December 7, 1941, shall be eligible to receive mustering-out payment. See Section 1 (a), act of February 3, 1944 (58 Stat. 8; 38 U. S. C. 691a).

(2) *To whom not payable.* No mustering-out payment shall be made to:

(i) Any member entering upon active service or enlisting on or after July 1, 1947.

(ii) Any member of the Armed Forces who at the time of discharge or relief from active service was serving as a warrant officer in a pay grade W–4 or officer in a pay grade O–3 (more than 17 years' service). (29 Comp. Gen. 371.)

(iii) Any member of the Armed Forces who at the time of discharge or relief from active service is transferred or returned to the retired list with retirement pay or to a status in which he receives retirement pay.

(iv) Any member of the Armed Forces discharged or relieved from active service or who was transferred to a Reserve component and subsequently discharged from an inactive status, because of the individual's importance to National health, safety, or interest, including any member discharged or relieved from active service on his own initiative to accept employment, unless he has served outside the continental limits of the United States or in Alaska.

(v) Any member whose total period of service was as a student detailed for training under the Army Specialized Training Program.

(vi) Any member of the Armed Forces for any active service performed prior to the date of his discharge from such forces for the purpose of entering the United States Military Academy, unless subsequently separated from the Academy.

(vii) Any member of the Armed Forces whose sole service has been as a cadet at the United States Military Academy or in a preparatory school after nomination as a principal, alternate, or candidate for admission to the Academy.

(viii) Any commissioned officer unless he is discharged or relieved from active service before April 28, 1955. See section 1, act of February 3, 1944 (58 Stat. 8); section 6, act of June 28, 1947 (61 Stat. 192; 38 U. S. C. Sup. 691a).

(b) *Members engaged in active service on or after June 27, 1950—(1) To whom payable.* Except as provided in subparagraph (2) of this paragraph, each member of the Armed Forces who shall have been engaged in active service on or after June 27, 1950, and prior to such date as shall be determined by Presidential proclamation or concurrent resolution of the Congress, and who is discharged or relieved from active service under honorable conditions, shall be eligible to receive mustering-out payment. See section 501 (a), act of July 16, 1952 (Public Law 550—82d Cong.).

(2) *To whom not payable.* No mustering-out payment shall be made to any member within the purview of subparagraph (1) of this paragraph:

(i) Who at the time of discharge or relief from active service is in a pay grade higher than O–3.

(ii) Who at the time of discharge or release from active service is entitled to severance pay or is transferred or returned to the retired list with retired pay, retirement pay, retainer pay, or equivalent pay, or to a status in which he receives such pay: *Provided*, That this paragraph shall not apply to any member who is retired or separated pursuant to title IV, Career Compensation Act of 1949.

(iii) For any active service performed prior to date of his discharge or relief from active service on his own initiative to accept employment, or in the case of any member so relieved from active service, for any active service performed prior to date of his discharge while in such inactive status, unless he has served outside the continental limits of the United States or in Alaska.

(iv) Whose total period of service has been as a student assigned by the Armed Forces to a civilian institution for a course of education or training which was substantially the same as established courses offered to civilians.

(v) For any active service performed prior to the date of his discharge from the Armed Forces for the purpose of entering the United States Military Academy, the United States Naval Academy, or the United States Coast Guard Academy.

(vi) Whose sole service has been as a cadet at the United States Military Academy, or the United States Coast Guard Academy, or as a midshipman at the United States Naval Academy, or in a preparatory school after nomination as a principal, alternate, or candidate for admission to any of said academies.

(vii) Any commissioned officer unless he is discharged or relieved from active service within 3 years after such date as shall be determined by Presidential proclamation or concurrent resolution of the Congress.

(viii) Any member of the Armed Forces who is ordered to active service for the sole purpose of training duty or a physical examination, or for a period of less than 60 days. See section 501 (b), act of July 16, 1952 (Pub. Law 550—82d Cong.).

(c) *Questionable payments.* Pending clarification from the Comptroller General of the United States, mustering-out payment will not be made to a member under the provisions of the Veterans' Readjustment Assistance Act of 1952 (Pub. Law 550—82d Cong.) when such member had received mustering-out payment upon separation on or after June 27, 1950 under the provisions of the Mustering-Out Payment Act of 1944, as amended.

(d) *Members entering active service prior to July 1, 1947.* Members entering active military service prior to July 1, 1947 and serving continuously thereafter who are eligible to receive mustering-out payment under the Mustering-Out Payment Act of 1944, as amended, and under the Veterans' Readjustment Assistance Act of 1952 for the same period of active service, shall elect to receive mustering-out payment under either act, but shall not be entitled to payment under both provisions of law. See section 501 (c), act of July 16, 1952 (Pub. Law 550—82d Cong.).

(e) *Rates and conditions*—(1) *Amounts.* Mustering-out payment for members eligible under paragraphs (a) and (b) of this section shall be in sums as follows:

(i) $300 for members who, having performed active service for 60 days or more, have served outside the continental limits of the United States or in Alaska.

(ii) $200 for members who, having performed active service for 60 days or more, have served no part thereof outside the continental limits of the United States or in Alaska.

(iii) $100 for members who have performed active service for less than 60 days. See section 2 (a), act of February 3, 1944 (58 Stat. 9; 38 U. S. C. 691b) and section 502 (a), act of July 16, 1952 (Pub. Law 550—82d Cong.).

(2) *Method of payment.* (i) Each member eligible to receive mustering-out payment under subparagraph (1) (i) of this paragraph shall receive one-third of the stipulated amount at the time of final discharge or ultimate relief from active service, or, at the option of the member so eligible, at the time of discharge or release for the purpose of enlistment, reenlistment, or appointment in the Regular Army; and the remaining amount of such payment shall be paid in two equal installments, 1 month and 2 months, respectively, from the date of the original payment.

(ii) Each member eligible to receive mustering-out payment under subparagraph (1) (ii) of this paragraph shall receive one-half of the stipulated amount at the time of final discharge or ultimate relief from active service, or at the option of the member so eligible, at the time of discharge or release for the purpose of enlistment, reenlistment, or appointment in the Regular Army; and the remaining amount of such payment shall be paid 1 month from the date of the original payment.

(iii) Each member eligible to receive mustering-out payment under subparagraph (1) (iii) of this paragraph shall receive the stipulated amount at the time of such discharge or relief from active service, or at the option of the member so eligible, at the time of discharge or release for the purpose of enlistment, reenlistment, or appointment in the Regular Army.

(iv) A member entitled to receive the first installment of the mustering-out payment at the time of discharge for the purpose of enlistment, reenlistment, or appointment in the Regular Army shall, at his election, receive the whole of such payment in one lump sum, rather than in installments. See section 2 (b), act of February 3, 1944 (58 Stat. 9); section 7 (a), act of October 6, 1945 (59 Stat. 540; 38 U. S. C. 691b); and section 502 (b), act of July 16, 1952 (Public Law 550—82d Cong.).

(f) *Time of payment.* No member of the Armed Forces shall receive mustering-out payment under the Mustering-Out Payment Act of 1944, as amended, more than once or under the Veterans' Readjustment Assistance Act of 1952 more than once. Such payment shall accrue and the amount thereof shall be computed as of the time of discharge for the purpose of effecting a permanent separation from the service or of ultimate relief from active service, or at the option of such member, for the purpose of enlistment, reenlistment, or appointment in the Regular Army. See section 3, act of February 3, 1944 (58 Stat. 9); section 7 (b), act of October 6, 1945 (59 Stat. 540); act of May 19, 1943 (62 Stat. 241); 38 U. S. C. Sup. 691c; and section 503, act of July 16, 1952 (Pub. Law 550—82d Cong.).

(g) *Payments of survivors.* If any member of the Armed Forces, after his discharge or relief from active service, shall die before receiving any portion of or the full amount of his mustering-out payment, the balance of the amount due him shall be payable, on appropriate application therefor, to his surviving spouse, if any; and if he shall leave no surviving spouse, then in equal shares to his child or children, if any; and if he shall leave no surviving spouse or child, or children, then in equal shares to his surviving parents, if any. No payments under these acts shall be made to any other person. See section 4, act of February 3, 1944 (58 Stat. 9; 38 U. S. C. 691d); and section 504, act of July 16, 1952 (Pub. Law 550—82d Cong.).

(h) *Payments on behalf of survivors and mentally incompetent members.* The Secretary of the Army, or such subordinate officer as he may designate, is authorized to make direct payment to survivors over 17 years of age, and to select a proper person or persons to whom mustering-out payments may be made for the use and benefit of former active members of the Armed Forces, or survivors thereof, as defined in paragraph (g) of this section, without the necessity of appointment by judicial proceedings of a legal representative of any such former member or such survivors when, in the opinion of the Secretary or his designees, the interests of the persons under 17 years of age so justify, or where the former active member or his survivors is suffering from a mental disability sufficient to make direct payment not in the best interests of such person or persons. Payments made under the provisions of this paragraph shall constitute a complete discharge of the obligation of the United States as provided in these acts; and the selection of a proper person or persons, as provided herein, and the correctness of the amount due and paid to such person or persons shall have the same finality as that accorded decisions made pursuant to section 5 (b), 58 Stat. 10, or section 505 (b), 66 Stat. 690. The provisions of this paragraph shall not apply where a legal guardian or committee has been judicially appointed, except as to any payments made hereunder prior to the receipt of notice of appointment. See section 5 (c), added to the act of February 3, 1944 (58 Stat. 10), by the act of December 16, 1944 (58 Stat. 812; 38 U. S. C. 691e (c)) and section 505 (c), act of July 16, 1952 (Pub. Law 550—82d Cong.).

(i) *Exemption from taxation and claims of creditors.* Mustering-out payments due or to become due under these acts shall not be assignable and any payments made to or on account of a veteran hereunder shall be exempt from taxation, shall be exempt from claims of creditors, including any claim of the United States, and shall not be subject to attachment, levy, or seizure by or under any legal or equitable process whatever either before or after receipt by the payee. See section 5 (a), act of February 3, 1944 (58 Stat. 10; 38 U. S. C. 691e (a)) and section 505 (a), act of July 16, 1952 (Pub. Law 550—82d Cong.).

(j) *Decisions and designations of persons to receive mustering-out payment under Veterans' Readjustment Assistance Act of 1952*—(1) *Authority regarding decisions concerning deceased persons.* The Commanding General, Finance Center, U. S. Army, will make all decisions, under approved policies and procedures and subject to such instructions as may be received from the Chief of Finance, as to relationship and selection in cases pertaining to mustering-out payment to the eligible survivors, legally appointed guardians or committees, and other persons authorized to act in a fiduciary capacity, who are entitled to receive mustering-out payment in lieu of or on behalf of a qualified veteran or qualified survivors of veterans, under the provisions of the act of July 16, 1952.

(2) *Designation of persons to receive mustering-out payment of mentally incompetent members.* The Commanding General, Finance Center, U. S. Army will designate the person, or persons, as trustee, to receive mustering-out payment due any member of the Army who is mentally incompetent and who is entitled to receive mustering-out payment under the provisions of the act of July 16, 1952, for the use and benefit of such member.

(k) *Definitions.* (1) The term "member of the Armed Forces" means any member of the United States Army, United States Navy, the United States Air Force, the United States Marine Corps, the United States Coast Guard, or any of their respective components.

(2) The term "spouse" means a lawful wife or husband.

(3) The term "child" includes:

(i) A legitimate child;

(ii) A child legally adopted; and

(iii) A stepchild, if, at the time of death of the member of the armed forces, such stepchild was a member of the deceased's household.

(4) The term "parent" includes father and mother, stepfather and stepmother, and father and mother through adoption.

(l) *Claims—Veterans' Readjustment Assistance Act of 1952*—(1) *By whom paid.* All claims for mustering-out payments of members who have performed active military service on or after June 27, 1950, and who were discharged prior to July 16, 1952, will be forwarded to the Mustering-Out Payment Branch, Finance Center, U. S. Army, St. Louis 20, Missouri. A former member will submit a signed application containing information set forth in subparagraph (2) of this paragraph for mustering-out payment with his original Report of Separation from Armed Forces of the United States (DD Form 214). The former member will place his name and address on the DD Form 214 to assure its return. A member or former member inquiring about lost or destroyed Forms 214 should be advised to request a duplicate Form 214 from The Adjutant General and upon receipt submit the duplicate Form 214 with a signed application to the Mustering-Out Payment Branch, Finance Center, U. S. Army, St. Louis 20, Missouri.

(2) *Information required to be furnished with application.* The following information will be submitted:

(i) Statement that member was not discharged or released from active service on his own request to accept employment; or if discharged or released to accept employment, statement that the member served outside the United States after June 26, 1950.

(ii) Statement that member is not now serving on active duty in the Armed Forces of the United States, if applicable.

(iii) Statement that member has not and will not make any other application for mustering-out payment for service after June 26, 1950.

(iv) Statement that member served outside the continental limits of the United States or in Alaska after June 26, 1950, if applicable.

(v) If member has served outside the continental limits of the United States or in Alaska, date of arrival in the United States.

(vi) Statement that member has or has not received any mustering-out payment for service after June 26, 1950.

(vii) Statement requesting return of DD Form 214, and address to which check should be mailed, substantially as set forth below:

_____ (First name) _____ (Middle name) _____ (Surname)
Print or type

_____ (Service No.) _____ (Street No.)

_____ (City and zone) _____ (State)

(viii) Statement reading as follows:

I certify that the above information is true and correct.

_____
(Signature)

§ 536.76 *Payments on behalf of members discharged as mentally incompetent of managing their own affairs*—(a) *By whom made.* * * *

(2) *Finance Center, U. S. Army.* Mustering-out payments on behalf of any member discharged as mentally incompetent, who, in the opinion of the examining physician, is mentally incompetent to manage his own personal affairs and where no legal guardian or committee had been appointed, will be made only by the Commanding General, Finance Center, U. S. Army. Claims for such payment will be forwarded to Chief, Military Pay Division, Finance Center, U. S. Army, Indianapolis 49, Indiana.

(b) *To whom payable.* * * *

(3) Person or persons designated by the Commanding General, Finance Center, U. S. Army, to receive mustering-out payments for the use and benefit of the mentally incompetent veteran (paragraphs (h), (j) and (k) of § 536.75).

* * * * *

(c) *Evidence required for payment.* * * *

(2) [Revoked]

* * * * *

§ 536.77 *Payments to survivors*—(a) *General*—(1) *By whom made.* All mustering-out payments to survivors will be made by the Commanding General, Finance Center, U. S. Army. Original applications for mustering-out payment received from the relative or relatives of a deceased veteran by finance officers will be transmitted to the Chief, Military Pay Division, Finance Center, U. S. Army, Indianapolis 49, Indiana, with a statement that no payment has been or will be made on behalf of the veteran named therein.

* * * * *

(7) *Payments to selected persons for use and benefit of mentally incompetent or minor survivors.* Where no legal guardian or committee has been appointed, and where payment cannot be made to a survivor under subparagraph (5) of this paragraph, payment is authorized to be made for the use and benefit of mentally disabled survivors who are otherwise qualified, or survivors under 17 years of age who are otherwise qualified, to a person selected under the provisions of § 536.75 (h) and (j). Such payments will not be made without a written and signed statement executed by the person selected to receive the payment for the use and benefit of the survivor containing a statement that the proceeds of the payment will be used for the exclusive benefit of the survivor and such other recitals and supported by such additional evidence as the selecting officer may require. In such cases, the check covering the payment will name the payee thereof as follows: "Richard Roe, for the use and benefit of (name of survivor)."

TITLE 45—PUBLIC WELFARE

Chapter III—Bureau of Federal Credit Unions, Social Security Administration, Federal Security Agency

PART 301—ORGANIZATION AND OPERATION OF FEDERAL CREDIT UNIONS

FEE FOR SUPERVISION

Notice having been published in the FEDERAL REGISTER on July 22, 1952 (17 F. R. 6717), that the Director of the Bureau of Federal Credit Unions, with the approval of the Commissioner for Social Security and the Federal Security Administrator, proposed to prescribe certain regulations in lieu of the § 301.6 of the present regulations of the Bureau of Federal Credit Unions (45 CFR 301.6) and that prior to the official adoption of the proposed regulations consideration would be given to any data, views, or arguments pertaining thereto submitted to the Director of the Bureau of Federal Credit Unions, Federal Security Agency, Washington 25, D. C., within a period of 30 days from the date of publication of the notice in the FEDERAL REGISTER, and the regulations proposed to be adopted having been set forth in the FEDERAL REGISTER on page 6717 (17 F. R. 6717), and the 30-day period having elapsed and no data, views, or arguments pertaining to the proposed regulation having been submitted, the proposed regulations as printed in the FEDERAL REGISTER (17 F. R. 6717), and as amended by inserting "FCU-544" in paragraph (a) (3) after the words, "Manual of Accounting Procedure for Federal Credit Unions" are hereby adopted and promulgated as set forth below thirty days after the date of

publication of this document in the FEDERAL REGISTER.

Section 301.6 is hereby amended to read as follows:

§ 301.6 *Fee for supervision*—(a) *Extent of fee.* (1) Not later than January 31 of each calendar year, each Federal credit union shall pay to the Bureau of Federal Credit Unions, for the preceding calendar year, a supervision fee in accordance with the graduated scale set forth in subparagraph (2) of this paragraph on the basis of assets as of December 31 of such preceding year, but such fee shall in no event be less than $10: *Provided, however,* That no such annual fee shall be payable by such an organization with respect to the year in which its charter is issued or the year in which final distribution is made in liquidation of the credit union or the charter is otherwise canceled.

(2) Scale of supervision fees:

Total Assets	*Maximum Fee*
$500,000 or less	30 cents per $1,000;
Over $500,000 and not over $1,000,000	$150, plus 25 cents per $1,000 in excess of $500,000;
Over $1,000,000 and not over $2,000,000	$275, plus 20 cents per $1,000 in excess of $1,000,000;
Over $2,000,000 and not over $5,000,000	$475, plus 15 cents per $1,000 in excess of $2,000,000;
Over $5,000,000	$925, plus 10 cents per $1,000 in excess of $5,000,000.

Provided, however, That no fee shall be payable with respect to the last fractional part of $1,000 of total assets.

(3) Definition of assets: (i) The term "assets" as used in this section shall mean all items properly coming within the classification of asset accounts as stated in the Manual of Accounting Procedure for Federal Credit Unions, FCU-544 as revised.

(ii) The term "total assets" as used in this section shall mean the sum of all assets.

(b) *Supervision fee certificate.* The treasurer of each Federal credit union shall certify as to the correctness of the Supervision Fee Certificate, Form FCU 511 Rev. He shall send, not later than January 31 of each year, the original Supervision Fee Certificate and as many copies as the Bureau of Federal Credit Unions may request, together with a check in payment of the supervision fee stated on the Supervision Fee Certificate to be due, to the Regional Office of the Bureau of Federal Credit Unions for the region in which the Federal credit union maintains its principal office, and shall retain one copy of the Supervision Fee Certificate in the permanent files of the Federal credit union. Copies of the Supervision Fee Certificate form may be obtained from any Regional Office of the Bureau of Federal Credit Unions.

(c) *Checks in pyament of supervision fees.* All checks in payment of supervision fees shall be made payable to the Treasurer of the United States.

(d) *Audit of supervision fee computation and payment.* Whenever the Bureau of Federal Credit Unions makes a regular or special examination of a Federal credit union, the employee of the Bureau of Federal Credit Unions making the examination will audit the computation and payment of annual supervision fee(s) for the years which have elapsed since the last previous audit. Such employee shall adjust any errors in computation and the Federal credit union shall deliver to such employee a check payable to the Treasurer of the United States to cover the amount of any underpayment of the supervision fee(s). The decision of the employee of the Bureau as to amount due shall be final and conclusive: *Provided,* That the Federal credit union may make the supplementary payment subject to the results of an appeal from the employee's decision to the Regional Representative of the Bureau of Federal Credit Unions for the region in which the Federal credit union maintains its principal office: *Provided further,* That the Federal credit union shall file such appeal within 30 days from the date the employee's decision is made. If the audit discloses that an overpayment has been made, the employee of the Bureau of Federal Credit Unions is authorized to advise and assist the Federal credit union to prepare and file a request for a refund of the amount of overpayment. Such request should be addressed to the Regional Representative of the Bureau of Federal Credit Unions for the area in which the credit union maintains its principal office.

(Sec. 16, 48 Stat. 1221, as amended; 12 U. S. C. 1766)

Dated: September 5, 1952.

[SEAL] CLAUDE R. ORCHARD,
Director,
Bureau of Federal Credit Unions.

Approved: September 18, 1952.

A. J. ALTMEYER,
Commissioner for Social Security.

Approved: September 18, 1952.

JOHN L. THURSTON,
Acting Federal Security Administrator.

Chapter V—War Claims Commission

Subchapter B—Receipt, Adjudication and Payment of Claims

PART 507—ENTITLEMENT TO AWARD

SUBPART C—REIMBURSEMENT TO RELIGIOUS ORGANIZATIONS AND PERSONNEL THEREOF

Part 507 is hereby amended as follows:

§ 507.50 *Religious organization functioning in the Philippine Islands.* (a) A "religious organization functioning in the Philippine Islands" for purposes of section 7 (a) of the act, means any church, sect, denomination, religious order or congregation, or any group, body, corporation, association or other entity formed for religious purposes, professing and adhering to the tenets of some particular religious faith or form of worship and which maintained under its auspices in the Philippine Islands, on or after December 7, 1941, a church, chapel, or other place of divine worship or a religious house, community, mission, convent or facilities for divine worship, or operated a school, dormitory, hospital, dispensary, orphanage or other like institutions under religious auspices; or any part, division or association of such churches, sects, denominations, religious orders, congregations, groups, bodies, corporations or entities.

(b) Within the contemplation of section 7 (b) of the act the term "such religious organization" shall be deemed to include a religious organization as defined in paragraph (a) of this section, but restricted to the religious organization which owned and operated the schools, colleges, universities, scientific observatories, hospitals, dispensaries, orphanages, and other property or facilities connected with their educational, medical, or welfare work at the time loss or damage was sustained.

(c) Within the contemplation of section 7 (c) of the act the term "such [affiliated] organization"[1] shall be deemed to mean a religious organization as defined in paragraph (a) of this section.

§ 507.51 *Affiliated with a religious organization in the United States.* A religious organization functioning in the Philippine Islands will be deemed to have been affiliated with a religious organization in the United States when (a) by its charter or articles of association, incorporation or its rules, regulations or constitution it was a branch, part or division of a religious organization operating in the United States; or (b) by its rules, regulations or customs was subject to the control or directions of the duly constituted authorities of a church, sect, or religious order operating in the United States; or (c) it was directly supported financially, in whole or in part, by a church, sect, or religious organization operating in the United States; or, furnished or exchanged personnel with such organizations under conditions determined by the Commission to be consistent with the intent and purpose of section 7 (a), (b), and (c) of the act.

§ 507.52 *Personnel*—(a) *Personnel of any such Philippine organization within the meaning of section 7 (a) of the act.* The personnel of such Philippine organization for purposes of section 7 (a) shall be deemed to include any person who held office therein by reason of appointment, ordination, consecration, profession, religious vows or other form of ceremonial admission to ministerial religious status, and any duly authorized representative, agent or employee of such organization.

(b) *Personnel of any such religious organization within the meaning of section 7 (b) of the act.* The term personnel of a religious organization for purposes of section 7 (b) of the act shall include only a person, group of persons (e. g. trustees, vestrymen or deacons, etc.), or any other individual or legal entity in whom legal title to that portion of the property for which claim is made is vested pursuant to the customs, practices, or usages of a religious organization as defined in § 507.50, for the beneficial use of such organization.

§ 507.59 *Definitions of "compensated"*—(a) *Compensated.* (1) The word "compensated" as employed in section 7 (b) of the act shall be deemed to include a computation of the loss or damage sustained, deducting therefrom any amounts which such religious organization or its personnel, as defined in §§ 507.50 (b) and 507.52 (b) or any person or entity, has heretofore received from, or which have been expended by, the Philippine War Damage Commission or any other agency of the United States on account of the same loss or damage.

(2) In any case in which a claim may properly be filed under section 7 (c) of the act, no compensation for the same loss or damage may be authorized under section 7 (b).

(b) *"Compensated" within the meaning of section 7 (c) of the act.* Within the contemplation of section 7 (c) of the act, the term "compensated" shall be deemed to include a computation of the loss or damage sustained deducting therefrom any amounts which the Philippine War Damage Commission or any other agency of the United States has heretofore awarded and paid or expended on account of the same loss or damage.

§ 507.60 *Loss or damage sustained as a consequence of the war.* (a) Within the contemplation of section 7 (b) of the act, "loss or damage sustained as a consequence of the war" shall be deemed to include any such loss or damage which resulted directly from one or more of the following perils subsequent to December 6, 1941, and prior to August 15, 1945:

(1) Enemy attack;

(2) Action taken by or at the request of the military, naval, or air forces of the United States to prevent such property from coming into the possession of the enemy;

(3) Action taken by enemy representatives, civil or military, or by the representatives of any government cooperating with the enemy;

(4) Action by the Armed Forces of the United States in opposing, resisting, or expelling the enemy from the Philippines;

(5) Looting, pillage, or other lawlessness or disorder accompanying the collapse of civil authority determined by the Commission to have resulted from any of the other perils enumerated in this section or from control by enemy forces.

(b) Any award made pursuant to the provisions of section 7 (c) of the act shall be authorized only for loss or damage sustained as a consequence of the war as defined in paragraph (a) of this section.

[1] Bracket supplied.

§ 507.61 *"Other property or facilities connected with" within the meaning of section 7 (b) of the act.* The term "other property or facilities connected with" within the meaning of section 7 (b) of the act shall be deemed to include any property, both real and personal, owned by such religious organization or its personnel, as defined in §§ 507.50 (b) and 507.52 (b), which was substantially used and necessarily maintained in the operation of its schools, colleges, universities, scientific observatories, hospitals, dispensaries, and orphanages in the furtherance of its work in the fields of education, medicine and welfare.

§ 507.62 *Educational, medical and welfare work within the meaning of section 7 (b) of the act.* Educational, medical and welfare work shall be deemed to include those programs, curricula and other duly constituted procedures and services essential to the functioning of educational, medical and welfare institutions, and which were regularly offered by such schools, colleges, universities, scientific observatories, hospitals, dispensaries and orphanages.

§ 507.63 *Any interest in.* The term "any interest in" as used in section 7 (c) of the act shall mean less than a freehold ownership but shall include substantial participation in the management and operation of a hospital by furnishing the equipment, teachers, nurses, or personnel by which such institutions were operated.

§ 507.64 *American citizens substantially composed the administrative staff.* The administrative staff of any hospital described in section 7 (c) of the act will be deemed to be substantially composed of American citizens where it is determined that persons, who are citizens of the United States, mainly, and for the most part, comprised or made up the personnel engaged in the management, conduct, direction or superintendence of the application of things, or functions of persons, in connection with and directly related to the operation of such hospital. Where a hospital within the purview of section 7 (c) has ceased operations, qualifications relating to the composition of the administrative staff will be determined as of December 7, 1941.

§ 507.65 *At the time of the outbreak of the war.* The phrase "at the time of the outbreak of the war" as used in section 7 (c) of the act, means December 7, 1941.

§ 507.66 *Postwar*—(a) *Real property.* (1) "Postwar" as used in the term "postwar cost of replacement" for purposes of section 7 (d) of the act is defined to mean, in cases where buildings, structures, installations, etc., have not been replaced or restored, the twelve-month period extending from October 1, 1951, to October 1, 1952.

(2) In cases where real property has been fully replaced or restored at the expense of an eligible claimant, "postwar" as used in the term "postwar cost of replacement" for purposes of section 7 (d) of the act is defined to mean the actual date on which the obligation was incurred or the calendar year during which the obligation was incurred.

(3) In cases where real property has been partially replaced or restored, "postwar" as used in the term "postwar cost of replacement" for purposes of section 7 (d) of the act, for that portion which has been replaced or restored shall be determined in accordance with subparagraph (2) of this paragraph, and as to that portion which has not been replaced or restored in accordance with subparagraph (1) of this paragraph.

(b) *Personal property.* "Postwar" as used in the term "postwar cost of replacement" for purposes of section 7 (d) of the act is defined to mean, in relation to personal property lost or damaged as a consequence of the war, the twelve-month period extending from October 1, 1951, to October 1, 1952.

§ 507.67 *Cost of replacement.* The term "cost of replacement" as used in the phrase "postwar cost of replacement" for purposes of section 7 (d) of the act shall be the amount determined to be fair and equitable within the limitations set forth in § 507.66, required to restore the property lost or damaged as defined in § 507.60 to the same actual functional capacity or degree of usefulness as existed immediately prior to the loss or damage.

§ 507.68 *In an amount sufficient to enable such organization to replace.* The term "in an amount sufficient to enable such organization to replace" as used in section 7 (c) of the act shall be construed in relation to both real and personal property in accordance with the formulae and limitations set forth in §§ 507.66 and 507.67: *Provided, however,* That the date to be used in determining the actual functional capacity or degree of usefulness shall be December 7, 1941.

§ 507.69 *The hospital's facilities and capacity.* The term "the hospital's facilities and capacity" as used in section 7 (c) of the act shall be deemed to be restricted to property, both real and personal, which was substantially used and necessarily maintained in the operation of such hospital as of December 7, 1941.

§ 507.70 *Equal to.* The term "equal to" as used in section 7 (c) of the act means the same actual functional capacity and degree of usefulness as existed on December 7, 1941.

(Sec. 2, 62 Stat. 1240, as amended; 50 U. S. C. App. Sup., 2001)

GEORGIA L. LUSK,
Vice Chairman,
War Claims Commission.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by

the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, 63 Stat. 409; 21 U. S. C. 357), the regulations for certification of batches of antibotic and antibiotic-containing durgs (21 CFR 1951 Supp., 146; 17 F. R. 7885) are amended as indicated below:

1. In § 146.45 *Procaine penicillin in oil*, subparagraph (1) (iii) of paragraph (c) *Labeling*, change the figures "24" and "36" to read "36" and "48", respectively.

2. Section 146.62 is revised to read as follows:

§ 146.62 *Animal feed containing penicillin; animal feed containing streptomycin; animal feed containing dihydrostreptomycin; animal feed containing aureomycin; animal feed containing chloramphenicol; animal feed containing bacitracin.* Animal feed containing penicillin, streptomycin, dihydrostreptomycin, aureomycin, chloramphenicol, or bacitracin shall be exempt from the requirements of sections 502 (l) and 507 of the act under the following conditions:

(a) If it is intended for use solely as an animal feeding supplement and is conspicuously so labeled; or

(b) If it is intended for veterinary use in the cure, mitigation, treatment, or prevention of disease and it contains as the active drug ingredient only a drug certified under section 507 of the act for mixing in such animal feed, it has been mixed in accordance with the directions in the labeling of such certified drug, and the labeling of the animal feed bears only the indications and directions for use approved when the drug was certified.

3. In § 146.216 *Aureomycin therapeutic formula for animal feed* * * *, in the last sentence of paragraph (b) *Packaging*, the figure "10" is changed to read "50".

This order, which provides for a change in the expiration date for procaine penicillin in oil to a minimum of 36 months and a maximum of 48 months after the month during which the batch was certified; for the exemption from certification of animal feed containing antibiotic drugs if it is intended for use solely as an animal feed supplement and is conspicuously so labeled, or if it is intended for veterinary use in the cure, mitigation, treatment, or prevention of disease and it contains as the active drug ingredient only a drug certified under section 507 of the act for mixing in such animal feed, it has been mixed in accordance with the directions, and the labeling of such certified drug and the labeling of the animal feed bear only the indications and directions for use approved when the drug was certified; and for a change in the maximum size of container permitted for aureomycin therapeutic formula for animal feed from 10 pounds to 50 pounds, shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I do so find, since it was drawn in collaboration with interested members of the affected industry, and since it would be against public interest to delay providing for the changes set forth above.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. and Sup. 357)

Dated: September 19, 1952.

[SEAL] JOHN L. THURSTON,
Acting Administrator.

[F. R. Doc. 52-10416; Filed, Sept. 24, 1952; 8:46 a. m.]

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

Subchapter C—Office of International Trade

[6th Gen. Rev. of Export Regs., Amdt. 13 [1]]

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

PART 382—DENIAL OR SUSPENSION OF EXPORT PRIVILEGES

MISCELLANEOUS AMENDMENTS

1. Section 373.51 *Supplement 1: Time schedules for submission of applications for licenses to export certain Positive List commodities* is amended in the following particulars:

a. For the Fourth Quarter, 1952, the following entry and related submission dates are added:

Dept. of Comm. Sched. B No.	Commodity	Submission dates, fourth quarter, 1952
	Controlled materials: Commodities with processing code TNP1: Secondary tinplate products.	Oct. 6-Oct. 27, 1952.

b. The following submission dates for the First Quarter, 1953, are added thereto:

Dept. of Comm. Sched. B No.	Commodity	Submission dates, first quarter, 1953
	Controlled materials: Commodities with processing code TNPL: Specification production plate.	Oct. 6-Oct. 27, 1952.

c. The submission dates for the First Quarter, 1953, for Commodities with processing code STEE (Controlled Materials) are amended to read as follows:

Sept. 8-Oct. 6, 1952.

2. Section 382.51 *Table of compliance orders currently in effect denying export privileges*, paragraph (b) *Table of compliance orders* is amended by deleting therefrom the following entries.

Name and address	Effective date of order	Expiration date of order	Export privileges affected	Federal Register citation
Blallek, William E., 136 Liberty St., New York, N. Y.	3-7-52	9-7-52	Validated licenses, all commodities, any destination; also exports to Canada.	17 F. R. 2137, 3-12-52.

[6th Gen. Rev. of Export Regs., Amdt. P. L. 11 [1]]

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

SEC. 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

[1] This amendment was published in Current Export Bulletin No. 679, dated September 18, 1952.

1. The following revisions are made in commodity descriptions. These revisions include changes in validated license control where indicated:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
	Metal manufactures, n. e. c., not specially fabricated for particular machines or equipment (see § 399.7):				
	Iron and steel (specify by name):				
619910	Steel shot [2]	Lb.[1]	STEE	100	RO
619910	Flexible tubing, except electrical [2]	Lb.[1]	STEE	1,000	RO
619910	Packing, nickel-bearing stainless steel [2]	Lb.[1]	STEE	100	RO
619910	Packing, non-nickel-bearing stainless steel [2]	Lb.[1]	STEE	100	RO
619910	Tubular steel scaffolding equipment [2]	Lb.[1]	STEE	1,000	RO
	Separators and collectors, industrial process type, n. e. c., and specially fabricated accessories and parts, n. e. c. (specify by name):				
775360	Filters, fabricated of or lined with corrosion-resistant materials as defined in the "General Notes to Appendix A" [4]	----------	GIEQ 1	100	R
	Crushing, pulverizing and screening machines, n. e. c., and specially fabricated accessories and parts, n. e. c. (specify by name) (report construction and mining types in 728310-729990):				
775380	Specially fabricated parts for crushers and grinders [3]	----------	GIEQ	100	R
	Plastics and resin materials:				
	Synthetic resins, n. e. c., including film, monofilaments, and bristles (report manufactured plastic products in 981510 and 981590; monofilaments for weaving into fabrics in 384050 and 384052; woven fabrics in 384600-384985) (specify by name):				
	Molding and extrusion compounds, including scrap:				
825910	Plastic-type nylon (specify manufacturer's type number). [5]	Lb.	RESN	25	RO

[1] The unit of quantity "pound" is added.

[2] The commodities included in this Positive List entry are subject to (1) dollar-limit (DL) restrictions (see § 374.2), and (2) evidence of availability (see §373.16).

[3] The commodities included in this Positive List entry are (1) subject to dollar-limit (DL) restrictions (see § 374.2), and (2) are controlled materials (see §398.5).

[4] The above revised entry, effective Sept. 18, 1952, is substituted for the eighth entry presently on the Positive List under Schedule B No. 775360. The amendment clarifies the description without making substantive change.

[5] The above revised entry, effective Sept. 18, 1952, is substituted for the second and third entries presently on the Positive List under Schedule B No. 775380. The effect of this amendment is to increase the GLV dollar-value limit from $25 to $100 on parts specially fabricated for crushers and grinders for cement and lime-making machinery installations.

[6] The above revised entry is substituted for the first entry presently on the Positive List under Schedule B No. 825910. The effect of this amendment is to require the exporter to specify the manufacturer's type number. The commodities included in this Positive List entry are subject to dollar-limit (DL) restrictions (see § 374.2).

This part of the amendment shall become effective as of 12:01 a. m., September 25, 1952, except the revisions for filters (Schedule B No. 775360) and specially fabricated parts for crushers and grinders (Schedule B No. 775380) which shall become effective as of September 18, 1952.

2. The dollar value limit in the column headed "GLV dollar-value limit" set forth opposite the commodities listed below is amended to read as follows:

Dept. of Commerce Schedule B No.	Commodity	GLV dollar-value limit
619130	Metal powders: Aluminum or aluminum-bronze powders and pastes (aluminum content)	100

This part of the amendment shall become effective as of 12:01 a. m., September 18, 1952.

3. The letter "C" set forth in the column headed "Commodity Lists" opposite the commodity entries listed below is hereby deleted to indicate that these commodities are no longer "Controlled Materials" as defined in § 398.5 of this subchapter. These entries otherwise remain unchanged on the Positive List.

Dept. of Commerce Schedule B No.	Commodity
	Castings, iron and steel, rough and semi-finished:
610050	Other railway car wheels (chilled iron wheels).
	Fabricated steel products:
618961	Other structural shapes, fabricated (specify by name).
618963	Plates, fabricated, punched or shaped n. e. c.
618965	Penstock for conducting water (sections fabricated from rolled steel plate).
618967	All other storage tanks, unlined (all steel grades) (specify type), field erected (report tanks when used as shipping containers in 619012, 619022).

(Sec. 3, 63 Stat. 7; 65 Stat. 43; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR 1948 Supp.)

This part of the amendment shall become effective as of September 18, 1952.

KARL L. ANDERSON,
Acting Director,
Office of International Trade.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Defense Mobilization

[Defense Mobilization Order 21]

DMO 21—ESTABLISHING A DEFENSE LOAN REVIEW COMMITTEE

By virtue of the authority vested in me by Executive Order No. 10193, and Executive Order No. 10161, as amended, and in order to improve the coordination and effectiveness of Federal policies and programs relating to loans under section 302 of the Defense Production Act of 1950, as amended, and section 310 of Executive Order No. 10161, as amended, *It is hereby ordered:*

1. There is established in the Office of Defense Mobilization a Defense Loan Review Committee which shall be composed of a Chairman designated by the Director of Defense Mobilization, a representative of the Reconstruction Finance Corporation, and a representative of the agency which has certified the loan being reviewed by the Committee as essential to the national defense pursuant to Executive Order No. 10161, as amended.

2. There shall be referred to the Committee, at the request of the certifying agency, any application for a loan under section 302 of the Defense Production Act of 1950, as amended, which the Reconstruction Finance Corporation has denied or has notified the certifying agency of its intention to deny, and which had been certified as essential to the national defense by the Secretary of Agriculture, the Defense Production Administrator, or the Defense Materials Procurement Administrator.

3. The Committee shall review each application so referred, determine whether the interest of national defense requires that the loan be granted, and make its report and recommendation thereon to the Director of Defense Mobilization.

4. This order shall take effect on September 25, 1952.

OFFICE OF DEFENSE MOBILIZATION,
HENRY H. FOWLER,
Director.

[F. R. Doc. 52-10455; Filed, Sept. 24, 1952; 8:49 a. m.]

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 41, Amdt. 4]

CPR 41—SHOE MANUFACTURERS' REGULATION

SUSPENSION

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization

Agency General Order No. 2, this Amendment 4 to Ceiling Price Regulation 41 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment suspends the provisions of Ceiling Price Regulation 41 on and after September 23, 1952. This action is taken in line with the policy of suspending or otherwise relaxing price controls on commodities whose selling prices are substantially below ceilings and are not expected to reach ceiling prices in the foreseeable future.

Simultaneously with the issuance of this amendment there is being issued an amendment to General Overriding Regulation 4, Revision 1 suspending the application of all ceiling price regulations to shoe sales, except for sales in the territories and possessions of the United States. CPR 41 was never made mandatory and many manufacturers and manufacturer-retailers covered by this regulation elected to remain under the General Ceiling Price Regulation. Also, manufacturers' sales of some footwear were covered by Ceiling Price Regulation 45, Ceiling Price Regulation 22 or Supplementary Regulation 8 to CPR 22. Wholesalers of shoes were subject to Supplementary Regulation 29 to the GCPR and retailers were under Ceiling Price Regulation 7.

As detailed at greater length in the statement of considerations for Amendment 7 to GOR 4, Rev. 1, being issued together with this amendment, sales of shoes are currently below ceiling prices. There is no prospect in the foreseeable future of a significant rise in shoe prices unless prices of raw materials for the shoes increase substantially. Hides and skins and leather, the principal shoe raw materials, are selling well below ceiling price levels and have been suspended from price control by Amendment 1 to Ceiling Price Regulation 2, Revision 2, issued April 28, 1952, and Amendment 4 to GOR 4, Rev. 1, issued June 23, 1952. The statements of considerations for those amendments explain in some detail the reasons for the Director's conclusion that the prices of these commodities will not increase materially in the foreseeable future.

It is therefore the judgment of the Director of Price Stabilization that price controls on shoes are not required at this time in order to carry out the purposes of the Defense Production Act of 1950, as amended. The Director may at any time terminate or modify this suspension if he determines that such action is necessary in the interest of the stabilization program. This suspension will be terminated, in any event, when the suspension of ceilings on hides and skins or leather is terminated.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Ceiling Price Regulation 41, as amended, is further amended by adding a new section, 32, to read as follows:

SEC. 32. *Suspension.* All provisions of this regulation are suspended on and after September 23, 1952. You must, however, continue to comply with section 26 of this regulation as to all records you were required to have on September 22, 1952. This suspension will continue unless and until the Director of Price Stabilization terminates or modifies it. The suspension of this regulation does not operate to place any of the commodities affected under the General Ceiling Price Regulation or any other ceiling price regulation.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall take effect on September 23, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

SEPTEMBER 23, 1952.

[F. R. Doc. 52-10470; Filed, Sept. 23, 1952; 4:33 p. m.]

[General Overriding Regulation 4, Revision 1, Amdt. 7]

GOR 4—EXEMPTIONS AND SUSPENSIONS OF CERTAIN CONSUMER SOFT GOODS

SUSPENSION OF SHOES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 7 to General Overriding Regulation 4, Revision 1 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment adds shoes and slippers made of leather, felted, knitted or woven fabrics, or rubber or plastics to the commodities suspended from price controls by section 3 of General Overriding Regulation 4, Revision 1. This suspension action does not apply to manufacturer's sales of all-rubber shoes vulcanized as a unit or rubber-soled fabric-upper shoes vulcanized as a unit, or to any sales in the territories and possessions of the United States.

Heretofore sales of the footwear affected by this suspension action have been covered by Ceiling Price Regulation 41, Ceiling Price Regulation 45, the General Ceiling Price Regulation, Supplementary Regulation 29 to the GCPR, and Ceiling Price Regulation 7. CPR 41, Shoe Manufacturers' Regulation, covered most of the manufacturers' sales of shoes, but because this regulation was never made mandatory some manufacturers who otherwise would be subject to CPR 41 have elected to continue under the GCPR. Manufacturers' sales of a few items of footwear, such as babies' bootees and plastic overshoes, have been subject to CPR 45. CPR 41 and the GCPR have covered sales by manufacturer-retailers; Supplementary Regulation 29 to the GCPR has covered sales by wholesalers, and retailers have been subject to CPR 7 or the GCPR. An amendment suspending the application of CPR 41 is being issued together with this amendment to GOR 4, Rev. 1.

This suspension action is being taken in line with the policy of suspending or otherwise relaxing price controls on commodities whose selling prices are substantially below ceilings and are not expected to reach ceiling prices in the foreseeable future. In the judgment of the Director of Price Stabilization, price controls on the commodities covered by this amendment are not required at this time in order to carry out the purposes of the Defense Production Act of 1950, as amended. However, all records which were required to be prepared and preserved under applicable ceiling price regulations in effect prior to this suspension must continue to be preserved. In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

By Amendment 1 to Ceiling Price Regulation 2, Revision 2, and Amendment 4 to this revised general overriding regulation, sales of hides and skins and leather, the principal shoe raw materials, were suspended from price control. Despite a mild upturn in prices since their suspension from price controls, these basic shoe raw materials remain far below both former ceilings and the points at which controls would be re-imposed. Prices of cattlehides, as of mid-September 1952, were 44 percent below the prices in CPR 2, Revision 2, the suspended regulation governing the prices of hides and skins, and 30 percent below the level of prices at which controls would be re-imposed. All other types of hides and skins are also substantially below former ceilings. Hides, skins and leather are in adequate supply to meet the foreseeable demand and are not likely to increase materially in price within the foreseeable future.

The bulk of manufacturers' sales of shoes are now at levels generally from 10 to 15 percent or more below peak prices. A proportionate decline in prices is evident at the retail level. To a large extent the decline in shoe prices is a reflection of the decrease in raw material costs. Leather is by far the largest single cost item in the typical shoe. The Wholesale Price Index of the Bureau of Labor Statistics of the United States Department of Labor indicates that as of August 1952, the most recent month for which data are available, prices of footwear were 11.3 percent below the post-Korea peak of February 1951. Although the rate of decline has decreased perceptibly, there is no evidence of any significant reversal in the trend. Reports obtained from the shoe trade, both at the manufacturing and distributive levels, indicate further price declines in fall offerings of shoes.

The price decline has affected all types of shoes, whether used for dress or work purposes, or used by men, women or children. Manufacturers' prices of men's and boys' shoes, in August 1952, were 14.5 percent below the peak reached in February 1951. Women's and misses' shoes and children's and infants' shoes in August 1952 were 8.8 and 12.6 percent, respectively, below post-Korea peak levels.

The decline in shoe prices that has occurred at the manufacturers' level is also evident at the retail level. Retail prices of shoes reached a post-Korea peak in September 1951 and have consistently declined since that date. Data of the Bureau of Labor Statistics on retail prices of shoes are now available in detail only as late as June 1952. Due to the lag of several months between the time retailers make their purchases from manufacturers and their offerings to the consumer, June 1952 retail prices did not fully reflect the continuing decline in wholesale prices of shoes that has taken place since the beginning of 1952. This will be shown below. It is significant, however, that the data of the Bureau of Labor Statistics for June 1952 already showed a decline of 4.3 percent below the September 1951 peak for all types of shoes. Women's shoes were 5.6 percent below the peak and men's street and work shoes were 4.0 and 4.9 percent, respectively, below the peak. Children's shoes, however, showed a decline of slightly less than 1 percent from September 1951 to June 1952.

The decline in shoe prices is largely the result of the sharp drop in the cost of leather. In the case of children's shoes, the proportion of the cost of leather to the total cost of the shoes is less than in other types of shoes. Consequently, the drop in leather prices has not had as severe an effect on the prices of children's shoes.

Because of the lag mentioned above, more recent data were collected by a survey of three of the country's largest retailers. This survey shows that fall 1952 prices at retail have declined in relative proportion to the decline in manufacturers' prices. Retail prices have declined from the peak of 1951 by the following percentage ranges: men's and boys' shoes from 9.2 to 15.4 percent, though one low priced shoe declined only 7.6 percent; men's work shoes from 13.7 percent to 23.4 percent though one high priced shoe declined only 8.4 percent; women's and misses' shoes from 8.3 to 12.7 percent; and children's and infants' shoes from 8.5 to 14.7 percent, though one low priced shoe declined only 4.8 percent. It is, therefore, apparent that both manufacturers' and retail prices are materially below the 1951 peak prices.

Shoe manufacturing capacity in the United States is well in excess of six hundred million pairs per year, while the largest number ever produced in this country in a year (1946) was about five hundred thirty million pairs. During 1951, about four hundred eighty million pairs were produced, with an average work week of 36.8 hours for the employees engaged in shoe manufacture. The shoe manufacturing industry can supply any foreseeable demand with present capacity and work force. Unless there is a sustained surge of raw material prices, therefore, there does not appear to be any prospect of a significant rise in shoe prices.

Data available to the Director are inconclusive as to whether manufacturers' selling prices of the all-rubber and rubber and fabric vulcanized shoes have declined below ceiling prices to the same general extent as in the case of the other types of shoes. For this reason, and pending further study, the Director has concluded that sales by manufacturers of such rubber and vulcanized shoes should not be suspended at this time. At the retail level, however, these shoes are sold together with and in competition with other types of shoes. In the judgment of the Director, therefore, price controls of sales at other than the manufacturing level can safely be suspended.

The Director may at any time terminate or modify this suspension if he determines that such action is necessary in the interest of the stabilization program. In any event, price ceilings on shoes will be reimposed when the suspension of ceilings on hides and skins or leather is terminated.

AMENDATORY PROVISIONS

Section 3 of General Overriding Regulation 4, Revision 1, is amended by adding the following paragraph:

(k) Shoes and slippers made of leather, felted, knitted or woven fabrics, or rubber or plastics, except (1) manufacturer's sales of all-rubber shoes vulcanized as a unit and rubber-soled fabric-upper shoes vulcanized as a unit, and (2) any sales made in the territories and possessions of the United States.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective September 23, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

SEPTEMBER 23, 1952.

[F. R. Doc. 52-10469; Filed, Sept. 23, 1952; 4:33 p. m.]

[Ceiling Price Regulation 7, Amdt. 23]

CPR 7—RETAIL CEILING PRICES FOR CERTAIN CONSUMER GOODS

MODIFICATION OF RECORD KEEPING REQUIREMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 23 to Ceiling Price Regulation 7 is issued.

STATEMENT OF CONSIDERATIONS

Ceiling Price Regulation 7 generally requires sellers to keep for inspection by the Office of Price Stabilization all of their invoices and certain other records, for as long as the Defense Production Act of 1950, as amended, remains in effect and for a period of two years thereafter.

In an effort to minimize the burden of record keeping for sellers involved in extensive record keeping, it has been deemed advisable to change the requirements by providing that current records need not be kept more than two years. Most other regulations issued by the Office of Price Stabilization do not require the keeping of current records for longer than two years. Base period records, however, must be kept for as long as the Defense Production Act of 1950, as amended, remains in effect and for a period of two years thereafter. The accompanying amendment to Ceiling Price Regulation 7 makes this distinction between current and base period records.

In the formulation of this amendment industry representatives, including trade association representatives, were consulted to the extent practicable and consideration was given to their recommendations.

AMENDATORY PROVISIONS

Ceiling Price Regulation 7 is amended as follows:

1. Section 38b is amended by adding to paragraph (d) the following sentence: "The records you are required to keep by this paragraph must be kept for a period of two years."

2. The first undesignated paragraph of section 52 following the words "SEC. 52 *Records*" is amended to read as follows:

The records required by paragraph (a) and subparagraph (4) of paragraph (b) of this section must be kept for as long as the Defense Production Act of 1950 remains in effect and for two years thereafter. The records required by subparagraphs (1) and (2) of paragraph (b) of this section must be kept for a period of two years. All such records must be kept at your store, except in the case of certain chain stores for which special record-keeping requirements are provided in Supplementary Regulation 1 to this regulation.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective on September 29, 1952.

NOTE: The record-keeping and reporting requirements of the regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

CPR 7—RETAIL CEILING PRICES FOR CERTAIN CONSUMER GOODS

SR 1—SPECIAL PRICING METHODS FOR CERTAIN CHAIN STORES, MAIL ORDER ESTABLISHMENTS AND DEPARTMENTALIZED ESTABLISHMENTS, CONSIGNORS AND CONSIGNEE OUTLETS

MODIFICATION OF RECORD KEEPING REQUIREMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 13 to Ceiling Price Regulation 7 is issued.

STATEMENT OF CONSIDERATIONS

The reasons underlying this amendment to Supplementary Regulation 1 to Ceiling Price Regulation 7 are included in a Statement of Considerations to an

accompanying Amendment 23 to Ceiling Price Regulation 7.

AMENDATORY PROVISIONS

Supplementary Regulation 1 to Ceiling Price Regulation 7 is amended as follows:

1. Section 3 is amended by adding the following: "The notices or notifications the central or main office of the chain must send to its outlet under this section must be kept by the outlet for a period of two years."

2. The first paragraph of section 6 (f) is amended to read as follows:

(f) *Records.* You must keep the records required by subparagraphs (1) and (2) of this paragraph for two years. The records required by subparagraph (3) of this paragraph must be kept for as long as the Defense Production Act of 1950 remains in effect and for two years thereafter. All such records must be kept in your main office.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective on September 29, 1952.

NOTE: The record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

MODIFICATION OF RECORD KEEPING REQUIREMENTS

Under the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105) and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 1 to Supplementary Regulation 5 to Ceiling Price Regulation 7 is issued.

STATEMENT OF CONSIDERATIONS

The reasons underlying this amendment to Supplementary Regulation 5 to Ceiling Price Regulation 7 are included in a statement of considerations to an accompanying Amendment 23 to Ceiling Price Regulation 7.

AMENDATORY PROVISION

Supplementary Regulation 5 to Ceiling Price Regulation 7 is amended by amending the first paragraph of section 6 preceding paragraph "(a)" to read as follows:

1. SEC. 6. *Records.* The records required by this section, insofar as they relate to any matter which occurred in any base period specified in this supplementary regulation and the records required by section 3 and section 5 must be kept for as long as the Defense Production Act of 1950, as amended, remains in effect and for two years thereafter. All other records required by this section must be kept for a period of two years. A seller electing to determine ceiling prices under any provision of this supplementary regulation must:

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective on September 29, 1952.

NOTE: The record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

MODIFICATION OF RECORD KEEPING REQUIREMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order No. 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 1 to Supplementary Regulation 6 to Ceiling Price Regulation 7 is issued.

STATEMENT OF CONSIDERATIONS

The reasons underlying this amendment to Supplementary Regulation 6 to Ceiling Price Regulation 7 are included in a Statement of Considerations to an accompanying Amendment 23 to Ceiling Price Regulation 7.

AMENDATORY PROVISIONS

Section 5 of Supplementary Regulation 6 to Ceiling Price Regulation 7 is amended to read as follows:

SEC. 5. *Records.* In addition to the records you are required to keep by Ceiling Price Regulation 7 you must preserve for inspection by OPS for as long as the Defense Production Act of 1950 remains in effect and for two years thereafter the following records:

(a) The OPS acknowledgment described in section 4 of this supplementary regulation.

(b) A copy of the report filed pursuant to section 4;

(c) The records referred to in paragraph (d) of section 4.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective September 29, 1952.

NOTE: The record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

SEPTEMBER 24, 1952.

[F. R. Doc. 52-10493; Filed, Sept. 24, 1952; 4:00 p. m.]

[Ceiling Price Regulation 22, Supplementary Regulation 33]

CPR 22 MANUFACTURERS' GENERAL CEILING PRICE REGULATION

SR 33—INTRODUCTORY OFFERS DURING THE BASE PERIOD

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation 33 to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation provides a procedure under which manufacturers may obtain an upward adjustment in the ceiling prices of commodities introduced during their base periods under CPR 22 or a supplementary regulation to CPR 22, at prices substantially below competitors' prices, and which consequently now have ceiling prices under CPR 22 which are out of line with those of competing commodities. They may also obtain adjustments in the ceiling prices of commodities whose ceiling prices have been established by reference to the former ceiling prices of such base period commodities.

When the General Ceiling Price Regulation went into effect, freezing all prices, it was recognized that some inequities would result. Various supplementary regulations, including SR 26 and SR 27, were issued to correct these inequities. Under SR 26 a manufacturer who was selling a commodity during the GCPR base period under the terms of a special deal at an abnormally low price, could obtain relief. Under SR 27 a manufacturer who had introduced a new commodity during the GCPR base period at a price substantially below his competitors' prices could obtain an upward adjustment in the price of such a commodity. Similarly, this supplementary regulation is intended to correct certain inequities arising from the use of CPR 22 base periods.

Under normal business conditions it is commonplace for manufacturers to price commodities which they are selling for the first time substantially below the level of competition. Sometimes this is done deliberately for the purpose of breaking into the market, with the intention of raising the price at a later time when a measure of demand or good will for the commodity has been created. At other times the manufacturer is inexperienced with the product, and inaccurate cost estimates lead him to believe that he can make a normal margin of profit on the commodity while selling at a price substantially below competition.

Under normal business conditions such initial prices are readily subject to adjustment by the individual manufacturer. In many cases which have come to the attention of the Office of Price Stabilization, such adjustments in the prices of commodities introduced during the year before Korea had been made by the effective date of GCPR, so that the GCPR ceiling prices of the commodities were in line with the level of prices prevailing for the same or substantially similar competing commodities.

However, under CPR 22 the manufacturers of these commodities were compelled to go back to their low base period prices in order to establish ceiling prices under that regulation. As a result, the addition of material and labor cost adjustment factors to comparatively low base period prices still gave manufacturers CPR 22 ceiling prices on their commodities which in many cases were substantially below the level of prices of the same or substantially similar competing commodities.

Under this supplementary regulation a manufacturer in such a position may apply to the Director of Price Stabilization for an adjustment which will raise the ceiling price of his commodity to the general level of ceiling prices prevailing for the same or substantially similar competing commodities. This adjustment may also be made for any new commodity whose ceiling price was established by reference to such a base period commodity.

In the formulation of this supplementary regulation, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

In the judgment of the Director of Price Stabilization, this supplementary regulation is generally fair and equitable, and is necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Commodities covered.
3. How to apply for an adjustment under this supplementary regulation.
4. Action on applications.
5. Delegation of authority.
6. Definitions.

AUTHORITY: Sections 1 to 6 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this supplementary regulation does.* This supplementary regulation provides a procedure whereby CPR 22 ceiling prices predicated on unusually low base period prices due to an introductory offer during your base period may be adjusted upward. Included in the term "CPR 22 ceiling prices" are ceiling prices for any commodity established under CPR 22, under any supplementary regulation to CPR 22, or under CPR 161 by reference to a ceiling price established under CPR 22 or under one of the supplementary regulations thereto. This regulation does not prevent you from applying for an adjustment under any other regulation for which you are eligible.

SEC. 2. *Commodities covered.* You may apply for an adjusted ceiling price for any commodity which satisfies all the following conditions:

(a) Its present ceiling price has been established under CPR 22, under one of the supplementary regulations to CPR 22, or under CPR 161 by reference to a ceiling price established under CPR 22 or one of the supplementary regulations thereto.

(b) You had not prior to your base period delivered, contracted in writing to sell or offered for sale in the usual course of business that commodity or any commodity in the same product line.

(c) Its base period price, or the base period price of the commodity by reference to which you have determined its ceiling price, was substantially below the level of prices prevailing during the base period for substantially similar commodities on sales to the same classes of purchasers.

(d) Its present ceiling price is substantially below the level of current ceiling prices for substantially similar commodities on sales to the same classes of purchasers.

SEC. 3. *How to apply for an adjustment under this supplementary regulation.* An application under this supplementary regulation must be sent by registered mail to the Office of Price Stabilization, Washington 25, D. C. It must be signed by the seller, and must include his name and address and a statement identifying it as filed under this supplementary regulation. In addition, the application should contain the following information. If for any reason you cannot supply certain information called for by this section, state why you cannot in your application.

(a) *Base period commodities.* For each base period commodity whose ceiling price you wish to adjust, you must supply:

(1) A brief description of each base period commodity whose ceiling price you wish to adjust and of three substantially similar commodities sold by competing sellers during your base period. The description should cover construction, appearance, quality, or whatever other factors are traditionally considered as significant in your industry. If you have catalogues or specification sheets of these commodities, you may submit them in satisfaction of this requirement.

(2) The date on which you first delivered, contracted in writing to sell or offered the commodity for sale in the usual course of business.

(3) The selling prices to the largest class of purchaser of the four commodities described in subparagraph (1) on or around the date given in subparagraph (2) of this paragraph.

(4) Your current ceiling price, and the current ceiling or selling prices, if ceiling prices are not known, to your largest buying class of purchaser, of the competing commodities described in subparagraph (1).

(5) Your proposed ceiling price and the reasons why you believe this proposed ceiling price is in line with the current level of ceiling prices.

(b) *New commodities.* For each new commodity whose ceiling price you wish to adjust, you must supply:

(1) All the information called for by subparagraphs (1), (2), (3) and (4) of paragraph (a) of this section with respect to the base period commodity which was used as the comparison commodity to determine the ceiling price of the new commodity whose price you wish to adjust.

(2) Your proposed ceiling price and the reasons why you believe this proposed ceiling price is in line with the current level of ceiling prices.

SEC. 4. *Action on applications.* You may not sell any commodity covered by your application at a price higher than the ceiling price otherwise established for it until an adjusted ceiling price has been authorized in writing by the Director of Price Stabilization, or a duly authorized Regional or District Director. An application under this supplementary regulation may be granted in whole or in part, or further information may be requested. Where adjusted ceiling prices are granted under this supplementary regulation, you may be required to notify your purchasers of the adjusted ceiling prices.

SEC. 5. *Delegation of authority.* The National Office of the Office of Price Stabilization may refer any application for adjustment filed pursuant to this supplementary regulation to the appropriate Regional Director. Any Regional Director, or any District Director authorized by the appropriate Regional Director, may in cases properly referred to him, take action in accordance with section 4 of this supplementary regulation.

SEC. 6. *Definitions.* Unless the context otherwise requires the terms used in this supplementary regulation have the same meaning as in CPR 22.

Base period. Your base period is determined by the base period you had elected to use, under CPR 22 or a supplementary regulation to CPR 22, for the commodity covered by your application.

Base period commodity. This means a commodity sold or offered for sale during your base period.

New commodity. A new commodity means any commodity first sold or offered for sale after June 24, 1950.

Effective date. This supplementary regulation to Ceiling Price Regulation 22 is effective September 29, 1952.

NOTE: The reporting requirements of this supplementary regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

SEPTEMBER 24, 1952.

[F. R. Doc. 52-10486; Filed, Sept. 24, 1952; 11:03 a. m.]

[Ceiling Price Regulation 71, Supplementary Regulation 1]

CPR 71—Manufacturers of Sintered Tungsten Carbide Products and Mixed Powders

SR 1—Certain Manufacturers of Mixed Powder

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation to Ceiling Price Regulation 71, is hereby issued.

STATEMENT OF CONSIDERATIONS

Since issuance of Ceiling Price Regulation 71 it has become apparent that the regulation, although generally fair and equitable to the group which it covers, may work an inequity on at least one manufacturer of mixed powders covered by the regulation. The provisions of this supplementary regulation are designed to correct this situation.

CPR 71 sets forth specific dollar and cents prices based upon the general industry price level prevailing during December 19, 1950, to January 25, 1951 (the base period of the General Ceiling Price Regulation) but under section 7 (a) requires that customary special discounts be reflected. At least one manufacturer charged, during the base period of the GCPR, a higher base price than that prevailing in the industry, but gave toolmakers to whom he sold mixed powders a higher discount which brought his net prices in line with those of his competitors. The result is that this manufacturer, who must use his high customary discount and the lower base price fixed in the regulation, has ceiling prices to some purchasers which are out of line with those of other producers.

This supplementary regulation will permit application for individual adjustment of ceiling prices under these circumstances, to bring the applicant's net ceiling prices for mixed powders in line with the net ceiling prices of his competitors established under the regulation.

In view of the corrective nature of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Application for individual adjustment.
3. Order of adjustment.
4. Applicability of provisions of CPR 71.

AUTHORITY: Sections 1 to 4 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this supplementary regulation does.* This supplementary regulation permits an adjustment of ceiling prices for certain producers of mixed powders. This adjustment will be given where the producer can show that prior to the issuance of CPR 71 his net prices were in line with those of other producers and that, because of an historical method of granting special customer's discounts, his ceiling prices to various classes of purchasers under CPR 71 are lower than the net ceiling prices of other sellers to the same classes of purchasers.

SEC. 2. *Application for individual adjustment*—(a) *Who may apply.* If you are a manufacturer of mixed powders covered by Ceiling Price Regulation 71 you may apply for an adjustment of your ceiling prices for such powders determined under the provisions of the regulation where:

(1) On January 25, 1951, you customarily sold mixed powders at base prices higher than those of other sellers but at net prices in line with the net prices charged by other sellers of mixed powders; and

(2) Your ceiling prices determined under the provisions of the regulation are below the ceiling prices established for other manufacturers of mixed powders as a result of the necessity of reflecting your special customer discounts.

(b) *How to file an application.* An application pursuant to this section must be filed with the Industrial Materials and Manufactured Goods Division, Office of Price Stabilization, Washington 25, D. C., and must contain the following:

(1) Your name and address; a statement of the mixed powders you manufactured as of January 25, 1951, classes of purchasers to whom you sold, your base prices and the base price differentials, delivery terms, allowances, premiums and extras, deductions, guarantees, security terms and other terms and conditions of sale to each of the classes of purchasers;

(2) A statement of your existing ceiling prices for sales of mixed powders to your different classes of purchasers; including base price delivery terms, allowances, premiums and extras, deductions, guarantees, security terms, and other terms and conditions of sale;

(3) Identification of the mixed powders covered by your application and the classes of purchasers to which you wish to have your ceiling prices for these mixed powders adjusted.

(4) A statement of your net prices as of January 25, 1951, for the powders listed in subparagraph (3) for sale to the classes of purchasers listed in subparagraph (3) of this paragraph and the net prices of your two most closely competitive sellers for the same mixed powders to the same classes of purchasers as of January 25, 1951, together with the names and addresses of such sellers.

(5) A statement as to why your net ceiling prices which you wish adjusted are out of line with those of other sellers covered by CPR 71;

(6) A schedule of your proposed adjusted ceiling prices for mixed powders.

SEC. 3. *Order of adjustment.* Any adjustment pursuant to this supplementary regulation will be granted by Letter Order and the ceiling prices so established will be limited to an amount sufficient to bring your ceiling prices in line with the ceiling prices of other sellers under CPR 71.

SEC. 4. *Applicability of provisions of CPR 71.* Except to the extent expressly modified or supplemented by this regulation all provisions of CPR 71, including the reporting provisions, shall be applicable to any manufacturer subject to this regulation.

Effective date. This supplementary regulation is effective September 29, 1952.

NOTE: The reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

SEPTEMBER 24, 1952.

[F. R. Doc. 52-10488; Filed, Sept. 24, 1952; 11:08 a. m.]

[Ceiling Price Regulation 74, Amdt. 13]

CPR 74—Ceiling Prices of Pork Sold at Wholesale

Dried Pork, Specialty Pork Products, and Prefabricated Retail Cuts

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, Economic Stabilization Agency General Order 2, this Amendment 13 to Ceiling Price Regulation 74 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to Ceiling Price Regulation (CPR) 74 increases the ceiling prices for prefabricated retail pork cuts, specialty pork products and dried (other than aged, dry cured) pork products that are processed from pork cuts for which ceiling price increases were granted by Amendment 11 to CPR 74. This increase is necessary to permit continued production of these items.

After October, when the seasonal adjustments in ceiling prices for pork cuts are revised to reflect the then effective legal requirements of the Defense Production Act of 1950, as amended, the ceiling price increases provided by this amendment will be terminated.

In formulating this amendment, the Director of Price Stabilization has consulted so far as practicable with industry representatives, including trade association representatives, and has given full consideration to their recommendations. In his judgment the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of the act.

All standards prescribed in this amendment were, prior to the issuance of Ceiling Price Regulation 74, in general use in the meat industry. Such standards as are prescribed are indispensable to price control of pork, since no practicable alternative to such standardization exists for securing effective price control of this commodity. It is not believed that this amendment will cause any substantial changes in business practices, cost practices or methods, or means or aids to distribution; however, to the extent that such changes may be compelled, they are necessary to prevent circumvention or evasion of Ceiling Price Regulation 74, as amended.

AMENDATORY PROVISIONS

Ceiling Price Regulation 74 is amended in the following respects:

1. Section 5 (c) is deleted and a new section 5 (c) is added to read as follows:

(c) *Prefabricated retail cuts.* (1) If you produced and sold a prefabricated retail cut prior to September 25, 1951, you may increase your ceiling price for that cut established under the General Ceiling Price Regulation (GCPR) by the dollars-and-cents amount by which the ceiling price provided by CPR 74, prior to July 29, 1952, for the wholesale pork cut from which that prefabricated retail cut is processed was increased effective July 29, 1952.

(2) If your ceiling price for a prefabricated retail cut that you purchase for resale was established under the General Ceiling Price Regulation before September 29, 1952, your ceiling price for that cut is increased by the dollars-and-cents amount your supplier is authorized to increase his ceiling price for this product on and after July 29, 1952.

(3) If, after September 29, 1952, you first sell a prefabricated retail cut which you purchase, your ceiling price for that cut is established under the provisions of the GCPR. If you are authorized to adjust your ceiling price pursuant to the provisions of this paragraph, you must give written notice of this to each buyer on the initial sale of that prefabricated retail cut to each buyer. A legible statement stamped on the invoice covering the initial sale of your product to each buyer indicating the amount of the increase in your ceiling price permitted by this section will be considered as meeting the requirements of this paragraph.

2. Section 5 (f) is deleted and a new section 5 (f) is substituted therefor to read as follows:

(f) *Purchasers of dried (other than aged, dry cured) pork or specialty pork product.* If you purchase a dried (other than aged, dry cured) pork or a specialty pork product for which the ceiling price of the producer of the product has been established either by letter order or by section 5 (g) of this regulation, your ceiling price for that product shall be the producers' ceiling price, as amended from time to time, plus any applicable additions provided for your sale of that product in Article IV.

3. A new section 5 (g) is added to read as follows:

(g) *Ceiling price adjustment for dried or specialty pork products.* (1) If, prior to September 29, 1952, your filing under section 5 (a) has not been acted upon by letter order, signed by the Director of Price Stabilization, either approving, modifying, or denying your application, you may increase your GCPR ceiling price for your dried or specialty pork product, which you produced and sold in 1950, by the dollars-and-cents amount by which the ceiling price provided by CPR 74, prior to July 29, 1952, for the wholesale pork cut from which that product is processed, was increased effective July 29, 1952.

(2) If you are authorized to adjust your ceiling price for your dried or specialty pork product pursuant to the provisions of this paragraph, you must give written notice of this to each buyer on the initial sale of your product to each buyer. A legible statement stamped on the invoice covering the initial sale of your product to each buyer indicating the amount of the increase in ceiling price permitted by this section will be considered as meeting the requirements of this paragraph.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective September 29, 1952.

NOTE: The record keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

[General Ceiling Price Regulation, Supplementary Regulation 63, Area Milk Price Regulation 34]

GCPR, SR 63—Area Milk Price Adjustments

AMPR 34—Western Nevada Milk Marketing Area, State of Nevada

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Area Milk Price Regulation pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation (16 F. R. 9559) is hereby issued.

STATEMENT OF CONSIDERATIONS

The General Ceiling Price Regulation issued on January 26, 1951, pointed out that the general freeze which it imposed on prices at various levels of production and distribution was an emergency measure made imperative by the urgency of bringing the inflationary spiral to a halt. On September 24, 1951, Supplementary Regulation 63 became effective permitting adjustments of ceiling prices for fluid milk products in individual marketing areas upon petition or upon the initiative of the appropriate Regional or District Director. Pursuant to this authority, this area milk price regulation is being issued adjusting ceiling prices for the Western Nevada marketing area, consisting of Washoe, Pershing, Churchill, Lyon, Douglas, Ormsby and Storey Counties, on sales of fluid milk products within that area by processors, distributors, and operators of retail stores. Sales of milk products not covered by this regulation remain bound by the provisions of the General Ceiling Price Regulation.

This marketing area was selected after consideration of all relevant factors. The population within this area is reached by most of the large distributors. Nearly uniform conditions in this economic market apply in terms of labor and material costs. Raw milk product cost has been historically uniform throughout the area. The pattern of prices charged throughout the area has been based upon the processors' local prices, plus transportation, and this pattern has been retained.

This Area Milk Price Regulation provides for uniform adjustments over each seller's base period prices as originally determined under the General Ceiling Price Regulation. Various adjustments are provided for fluid milk items and cream items of different container size. These adjustments are based on an increase of 30 cents per pound butterfat together with an increase of $.005 per sales point in distributors' costs of direct labor, delivery labor, and containers.

These increases have been incurred since the first six months of 1950, which period is established as the base period for Supplementary Regulation 63. Calculations were based on data submitted by a representative number of processors and distributors including the largest firm in the area and one of the smaller, altogether representing approximately 55% of the volume sold in the area.

This regulation indicates a price for producer milk of $1.64½ per pound of butterfat for Grade A milk f. o. b. processors' plant, and is to be the basis for computing future parity adjustments.

Every effort has been made to conform this regulation to existing business practices, cost practices or methods, or means or aids to distribution. Insofar as any provisions of this regulation may operate to compel changes in the business practices, cost practices or methods, or means or aids to distribution, such provisions are found by the District Director of the Office of Price Stabilization to be necessary to prevent circumvention or evasion of this regulation.

In the judgment of the District Director of the Office of Price Stabilization, the provisions of this area milk price regulation are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended by the Defense Production Act Amendments of 1951 and 1952.

The District Director of the Office of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended; to prices prevailing during the period from May 24, 1950, June 24, 1950, inclusive; and to all relevant factors of general applicability.

The director has consulted the industry to the extent practicable and has given due consideration to its recommendations.

REGULATORY PROVISIONS

Sec.
1. What this area milk price regulation does.
2. Where this area milk price regulation applies.
3. Sellers and sales covered by this area milk price regulation.
4. Ceiling prices of listed items.
5. Ceiling prices of unlisted items.
6. Use of competitor's ceiling prices to establish your ceiling prices.
7. Sellers who cannot price under other sections of this regulation.
8. Producer prices.
9. Rounding of fractions.
10. Transfer of business or stock in trade.
11. Prohibitions.
12. Violation.

AUTHORITY: Sections 1 to 12 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; SR 63 to GCPR, Sept. 19, 1951, 16 F. R. 9559.

SECTION 1. *What this area milk price regulation does.* This area milk price regulation, issued pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation, provides uniform adjustments of ceiling prices determined under section 3 of the General Ceiling Price Regulation (hereinafter referred to as GCPR base period prices). These adjustments are for the listed milk products in designated types and sizes of containers sold in the Western Nevada milk marketing area to all classes of purchasers. It also provides a method for determining ceiling prices for the listed products sold in containers of other types and sizes as well as ceiling prices of products which are unlisted in this area milk price regulation but which are within the purview of Supplementary Regulation 63.

SEC. 2. *Where this area milk price regulation applies.* The provisions of this area milk price regulation are applicable to the Western Nevada milk marketing area described as follows: The counties of Washoe, Pershing, Churchill, Lyon, Douglas, Ormsby and Storey.

SEC. 3. *Sellers and sales covered by this area milk price regulation.* This area milk price regulation covers sales in this marketing area of milk products for fluid consumption by processors, distributors, and operators of retail stores. Definitions of these terms may be found in sections 3 and 11 (e) of Supplementary Regulation 63 to the General Ceiling Price Regulation as amended. This area milk price regulation also covers sales of milk products to be delivered to a purchaser located in this area, although the seller is located outside of this area, but it does not cover sales of milk products to be delivered from a plant located in this area to a purchaser located outside of the area.

SEC. 4. *Ceiling prices of listed items.*—(a) *How you determine your ceiling prices.* If you are a processor, distributor or operator of a retail store, your ceiling prices for the listed items shall be your GCPR base period prices plus the following uniform adjustments:

Products	Minimum butterfat content, percent	Container size	All classes of purchasers
Standard milk	3.5	½ pint	$0.0075
		Quarts	.03
		Gallon	.12
Half and half	12.5	½ pint	.02
		Pints	.01
		Quarts	.08
		Gallon	.32
Table cream	22.0	½ pint	.04
		Quarts	.16
		Gallon	.64
Whipping cream	38.0	½ pint	.065
		Quarts	.26
		Gallon	1.04
Chocolate and buttermilk	.5	Quarts	.02
		Gallon	.08
Skim		Quarts	.02

The above adjustments apply equally to sales in either paper or glass containers.

(b) *Reporting of ceiling prices.* Processors and distributors (but not operators of retail stores) shall report the ceiling prices resulting from the application of the uniform adjustments specified in paragraph (a) of this section to the District Office of the Office of Price Stabilization, 1475 Wells Avenue, Reno, Nevada, by registered mail, return receipt requested, no later than September 15, 1952. The report shall be filed on OPS Public Form 124 which may be obtained from the aforementioned office. Your price lists in effect during any part or all of the GCPR base period, including the time during which they were in effect, must accompany the report, unless you have previously mailed such price lists by registered mail to the Director who is issuing this regulation.

SEC. 5. *Ceiling prices of unlisted items.*—(a) *Listed products in unlisted types and sizes of containers.* Your ceiling price for a product listed in section 4 which is packed in a container of an unlisted type or size, shall be the ceiling price determined pursuant to section 4 for a comparison item, adjusted by the dollar-and-cents differential which existed between your ceiling prices, determined pursuant to section 3 of the GCPR, of the comparison item and the unlisted item for which you are seeking a ceiling price. The comparison item which you must use is the same product packed in the container most similar, first, as to size, and, second, as to type and delivered to the same class of purchaser as the item for which you are determining a ceiling price.

(b) *Unlisted products.* Your ceiling price for a product which is not listed in section 4, but which is within the purview of Supplementary Regulation 63, shall be the ceiling price determined pursuant to section 4 for a comparison item, adjusted by the differential which you customarily used in the GCPR base period between the price of your comparison item and the price of the unlisted item for which you are seeking a ceiling price. The comparison item which you must use is the product most similar in composition as to butterfat and other ingredients to the item for which you are determining a ceiling price, packed in the container most similar, first as to size and second as to type, and delivered to the same class of purchaser.

(c) *Price differentials.* Ceiling prices established pursuant to sections 4 and 5 must be modified by price differentials which existed between your ceiling prices determined under section 3 of GCPR and which resulted from, among others, discounts, allowances, premiums, extras, location of purchasers, and terms and conditions of sale or delivery.

(d) *Reporting of differentials and prices resulting therefrom for Processors and Distributors.* You shall report the ceiling prices computed pursuant to paragraphs (a) through (c) of this section and the differentials used in determining these ceiling prices to the District Office of the Office of Price Stabilization, 1475 Wells Avenue, Reno, Nevada, by registered mail, return receipt requested, no later than September 15, 1952. The report shall be filed on OPS Public Form 123 which may be obtained from the aforementioned office. Your price lists in effect during any part or all of the GCPR base period, including the time during which they were in effect, must accompany the report, unless you have previously mailed such price lists by registered mail to the Director who is issuing this regulation.

(e) *Modification of proposed ceiling prices by District Director of Price Stabilization.* The District Director of the Office of Price Stabilization may at any time disapprove or revise downward ceiling prices established under this section so as to bring them into line with the level of ceiling prices otherwise established under this regulation.

SEC. 6. *Use of competitor's ceiling prices to establish your ceiling prices.*—(a) *How you determine your ceiling price.* If you cannot determine a ceiling price under either sections 4 or 5, your ceiling price for the sale of any milk product for fluid consumption to any class of purchaser is the ceiling price determined under this regulation for the sale of the same milk product in the same size and type of container by your most closely competitive seller of the same class (as defined in section 22 of GCPR) to the same class of purchaser.

(b) *When you may sell at your competitor's ceiling price.* You shall not sell any such milk product until you have sent the report required by paragraph (c) of this section by registered mail, return receipt requested, to the District Director of the Office of Price Stabilization who issued this regulation. After OPS has received your reports, as shown by your return postal receipt, you may sell the product at your proposed ceiling price unless you are notified by the District Director that your proposed ceiling price has been disapproved or that more information is required.

(c) *Report required when you use your competitor's ceiling price.* Your report shall state the name and address of your company; the name, address, and type of business of your most closely competitive seller of the same class; your reasons for selecting him as your most closely competitive seller; and if you are starting a new business, a statement indicating whether you or the principal owner of your business has been engaged in any part of the past 12 months in any capacity in the same or similar business at any other establishment and if so, the trade name and address of each such establishment. Your report should also include the following:

(1) *If you are a processor:* A description of the product you are pricing; the processing involved in the production of that product; the classes of purchasers to whom you will be selling; the ceiling price of your nearest competitor, and your proposed ceiling price to each class of purchaser.

(2) *If you are a distributor:* A description of the product you are pricing; your net invoice cost of the commodity being priced; the names and addresses of your sources of supply; the function performed by them (e. g., processing, distributing, etc.), and the class of purchasers to whom they customarily sell; the classes of purchasers to whom you plan to sell; the ceiling price of your most closely competitive seller; your proposed ceiling price to each class of purchaser; and a statement that your proposed ceiling prices will not exceed the ceiling price your customers paid to their customary sources of supply. A report under this section may be filed on OPS Public Form 122, which may be obtained from the District Director of the Office of Price Stabilization who issued this regulation.

SEC. 7. *Sellers who cannot price under other sections of this regulation.*—(a) *How you obtain your ceiling price.* If you cannot determine a ceiling price under sections 4, 5, and 6, you must apply to the District Director of the Office of Price Stabilization who issued this regulation for the establishment of a ceiling price for sales by you of that milk product for fluid consumption. The Director will, as soon as possible after the receipt of the application or the receipt of such additional information as he may request, issue a letter order establishing a ceiling price for the sale by you of that product at the various levels of distribution, and specifying a producer price for milk from which parity adjustments will be computed. You may not sell the milk product until the Director has issued a letter order establishing your ceiling price for the sale of the product.

(b) *What your application must contain.* An application under the provisions of this section must contain the following information: An explanation of why you are unable to determine your ceiling price under any other provision of this regulation; all pertinent information describing the product and the nature of your business such as indicated in section 6 (c) (1) or (2); a description of the product, its butterfat content, the type and size of container in which it will be sold and the class of purchaser to whom you intend to sell; your proposed ceiling price and the method used by you to determine it, including the producer price upon which it is based; and the reason you believe the proposed ceiling price is in line with the level of ceiling prices otherwise established by this regulation.

SEC. 8. *Producer prices.* (a) The prices provided in sections 4 and 5 of this regulation are based upon a producer paying price of $1.645 per pound of butterfat for Grade A milk f. o. b. processor's plant. This paying price shall be used as the basis for pertinent computation of parity adjustment under section 8 (a) of General Ceiling Price Regulation, SR 63.

(b) After the determination of your ceiling price under either sections 6 or 7 you may increase, and you must decrease, the ceiling prices so established by parity adjustments in conformity with section 8 (a) of Supplementary Regulation 63. If your ceiling price was determined under section 6 of this regulation, you shall compute your parity adjustments from the highest price you paid or incurred for your customary purchase of milk or products processed therefrom during the most recent paying period prior to the date you mailed your report. If you made no customary purchase prior to the date you mailed your report, the price you paid or incurred for your first customary purchase between the date you mailed your report and the date you first offered your product for immediate delivery shall be your base for computing parity adjustments. If your ceiling price was determined under section 7 of this regulation, you shall compute your parity adjustments from the producer price specified in the letter order.

SEC. 9. *Rounding of fractions.* Fractions of a cent remaining after you have computed your ceiling price for the total number of units of any milk product (and after giving effect to section 8 (b) of Supplementary Regulation 63) shall be dropped if less than one-half cent and may be increased to the next higher cent if one-half cent or more. If, however, you have customarily billed any particular purchaser or any class of purchasers for milk products for fluid consumption purchased during a month or other billing period, any fraction remaining after the computation of the ceiling price for the total number of units of all milk products for fluid consumption so sold during the preceding month or other billing period shall be dropped if less than one-half cent and may be increased to the next higher cent if one-half cent or more.

SEC. 10. *Transfers of business or stock in trade.* If the business, assets or stock in trade of any business are sold or otherwise transferred after this regulation becomes effective, and the transferee carries on the business, or continues to deal in the same type of commodities or services, in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over, to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this regulation.

SEC. 11. *Prohibitions.* After the effective date of this regulation, regardless of any contract or other obligation, you shall not sell, and you shall not buy in the regular course of business or trade, any milk product at a price in excess of the ceiling price established by this regulation. The term "sell" includes sell, supply, dispose, barter, exchange, transfer, deliver, and contracts and offers to do any of the foregoing. The term "buy" shall be construed accordingly.

SEC. 12. *Violation.*—(a) *Civil and criminal action.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Defense Production Act of 1950.

(b) *Violations of reporting requirements.* If any person subject to this regulation fails to file the reports required by this regulation, or if any person subject to this regulation fails to establish a ceiling price, or apply to the Office of Price Stabilization for the establishment of a ceiling price, if he is required to do so, the Director may issue an order fixing ceiling prices for the milk

products such person sells. Any ceiling price fixed in this manner will be in line with ceiling prices established by this regulation. The order fixing the ceiling price may apply to all deliveries or transfers for which a ceiling price was not established in accordance with the provisions of this regulation, including deliveries or transfers completed prior to the date of issuance of the order. The issuance of such an order will not relieve the seller of his obligation to comply with the requirements of this regulation or of the various penalties for failure to do so.

Effective date. This area milk price regulation is effective as of September 1, 1952.

NOTE: The reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

FRED C. BORLACHER,
Director, Reno District Office.

SEPTEMBER 23, 1952.

[F. R. Doc. 52-10450; Filed, Sept. 23, 1952; 12:01 p. m.]

[General Ceiling Price Regulation, Amdt. 2 to Supplementary Regulation 65]

CCPR, SR 65—ADJUSTMENT OF CEILING PRICES FOR RETAIL SALES OF PORK PRODUCTS

ADDITION OF ITEMS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order 2, this Amendment 2 to Supplementary Regulation 65 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

The accompanying amendment to Supplementary Regulation (SR) 65 to the General Ceiling Price Regulation (GCPR) places retail sales of specialty pork products, prefabricated retail pork cuts and dried pork under SR 65.

Amendment 13 to Ceiling Price Regulation 74 increased the ceiling prices of the above-mentioned products. In the absence of this amendment to SR 65 retailers could not pass on their increased costs of these products, except for aged dry cured pork, and retail margins would have been squeezed. This amendment provides for an increase or reduction each week in a retailer's GCPR price for each of these products by the amount of the difference between his cost of each in the base week and his cost of each in the week preceding the one in which each is being sold, in the same way retailers now calculate their ceiling prices for retail pork cuts derived from wholesale pork cuts they buy.

In formulating this amendment special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable. In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable statutory standards.

AMENDATORY PROVISIONS

Supplementary Regulation 65 to the General Ceiling Price Regulation is amended in the following respects.

1. Section 4 is amended to read as follows:

SEC. 4. *Exclusions.* This regulation does not apply to:

(a) Pork items exempted by General Overriding Regulation 7, as amended;

(b) Sausage;

(c) Sterile canned meat;

(d) Canned pork produced in Europe; or

(e) Mail order retail sales.

2. Section 13 (p) is amended to read as follows:

(p) "Wholesale pork cuts" means

(1) Those cuts, not including dressed hogs, listed and defined in Appendix 2 of Ceiling Price Regulation 74; and

(2) Specialty pork products defined in section 60 (x) of Ceiling Price Regulation 74; and

(3) Prefabricated retail cuts defined in section 60 (bb) of Ceiling Price Regulation 74.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective September 29, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

SEPTEMBER 24, 1952.

[F. R. Doc. 52-10495; Filed, Sept. 24, 1952; 4:00 p. m.]

[General Overriding Regulation 7, Revision 1, Amdt. 8]

GOR 7—EXEMPTION OF CERTAIN FOOD AND RESTAURANT COMMODITIES

EXEMPTION OF LIQUID WHEY

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 8 to General Overriding Regulation 7, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 7, Revision 1, exempts liquid whey from price control. Liquid whey is a by-product of cheese manufacturing. Most of this liquid whey never enters commercial channels and most of the small percentage remaining is dried for use as an animal feed ingredient. Liquid whey is of slight significance in the cost of living and its continuation under price control does not justify the administrative burden it imposes.

Before issuing this amendment, the Director of Price Stabilization has consulted extensively with individual members of the industry affected as well as with trade association representatives. In view of the foregoing, a formal meeting with an industry advisory committee was deemed to be unnecessary and impracticable. It is the judgment of the Director that the provisions of this amendment comply with all the requirements of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

Section 2 of Article II of General Overriding Regulation 7, Revision 1, is amended by the addition of a new subdivision (i) to read as follows:

(i) Milk Products:
(1) Liquid whey.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective September 24, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

SEPTEMBER 24, 1952.

[F. R. Doc. 52-10489; Filed, Sept. 24, 1952; 11:08 a. m.]

[General Overriding Regulation 38]

GOR 38—FREE DELIVERY OF SMALL PARCELS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization General Order No. 2 (16 F. R. 738), this General Overriding Regulation 38 is hereby issued.

STATEMENT OF CONSIDERATIONS

Amendment 21 to Ceiling Price Regulation 7, issued July 9, 1952, permits a retailer "to discontinue a practice of delivering parcels which are sufficiently small and light in weight to be carried in hand from the store by the purchaser."

Amendment 21 applies only to the delivery of items covered by CPR 7. Since most retail stores carry items covered by regulations other than CPR 7, it has been determined to extend the principle of the amendment to these items. The effect of this extension upon the cost of living is insignificant. It does, however, eliminate the administrative burden placed on retailers by the necessity of separating CPR 7 items from non-CPR 7 items at the time of sale or delivery.

In the formulation of this General Overriding Regulation there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

REGULATORY PROVISIONS

SECTION 1. *What this general overriding regulation does.* This general overriding regulation authorizes retailers to discontinue delivering parcels which are sufficiently small and light in weight to be carried in hand from the store by the purchaser. It shall not be deemed a violation of any regulation covering sales at retail for a retailer to discontinue such practice.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This General Overriding Regulation is effective September 29, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

SEPTEMBER 24, 1952.

[F. R. Doc. 52-10496; Filed, Sept. 24, 1952; 4:00 p. m.]

Chapter VI—National Production Authority, Department of Commerce

[NPA Order M-8, Amdt. 2 of Sept. 23, 1952]

M-8—TIN

MODIFICATION OF CERTAIN END USE RESTRICTIONS

This amendment is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amendment, consultation with industry representatives has been rendered impracticable due to the need for immediate action.

NPA Order M-8, as issued July 21, 1952, and as amended by issuance of Amendment 1 thereto on August 1, 1952, is hereby further amended in the following respects:

AMENDATORY PROVISIONS

1. Subparagraph (3) of paragraph (b) of section 8 is changed to read as follows:

(3) Solder containing no more than 40 percent tin by weight (such solder may be used, however, only in accordance with the provisions of Schedule II of this order);

2. Item (3) of Schedule II is changed to read as follows:

(3) For a filler or smoother for the production or repair of automobile or truck (3) 30 bodies or fenders or for similar purposes.

(64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154)

This amendment shall take effect September 23, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

[F. R. Doc. 52-10453; Filed, Sept. 23, 1952; 12:58 p. m.]

[NPA Order M-22 as Amended September 24, 1952]

M-22—DISTRIBUTION AND USE OF ALUMINUM SCRAP

This order as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950 as amended. In the formulation of this order as amended, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. However, consultation with representatives of all trades and industries affected in advance of the issuance of this amended order has been rendered impracticable due to the necessity for immediate action and because the order affects a large number of different trades and industries.

EXPLANATORY

NPA Order M-22, as last amended December 17, 1951, is hereby further amended by removing therefrom the requirement that owners or generators of scrap file Form NPAF-152, and by revising the provisions respecting requests for adjustment or exception, records and reports, communications, and violations so that these provisions conform to corresponding provisions in more recent NPA orders and regulations.

REGULATORY PROVISIONS

Sec.
1. What this order does.
2. Definitions.
3. Segregation of aluminum scrap.
4. Restrictions on distribution of aluminum scrap.
5. Restrictions on use of aluminum scrap.
6. Allocations and directives.
7. Restrictions on toll agreements.
8. No acquisition or delivery in violation of order.
9. Request for adjustment or exception.
10. Records and reports.
11. Communications.
12. Violations.

AUTHORITY: Sections 1 to 12 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this order does.* The primary purpose of this order is to regulate the segregation, acceptance, delivery, and distribution (whether on purchase, toll agreement, or otherwise) of aluminum scrap. The order also prohibits undue accumulations of such scrap.

SEC. 2. *Definitions.* As used in this order:

(a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States Government or any other government.

(b) "Aluminum scrap" means all materials or objects which are the waste or by-product of industrial fabrication, or which have been discarded on account of obsolescence, failure, or other reason, the principal ingredient of which by either weight or volume is metallic aluminum, or from which metallic aluminum may be recovered by sweating, either of domestic generation or imported in either loose or scrap pig form, and shall include all types and grades of aluminum residues, such as drosses, skimmings, fines, grindings, sawings, and buffings.

(c) "Producer" means any prime producer of metallic aluminum from the raw material alumina.

(d) "Smelter" means any person who maintains the necessary sorting and preparation equipment and who remelts virgin metal or scrap to produce properly alloyed, refined, chemically tested, specification casting ingot and metallurgical shapes for sale to other persons, and who has the testing equipment and technical knowledge necessary to perform this function without downgrading or waste.

(e) "Reclaimer" means any person who reclaims aluminum from scrap contaminated with extraneous materials in a furnace, crucible, or sweater operation. A "reclaimer" produces only unrefined metal which is not alloyed to a given specification or which is not otherwise properly controlled or refined, and which is sold as reclaimed scrap pig to a producer or a smelter.

(f) "Dealer" means any persons regularly engaged in the business of buying and selling aluminum scrap.

(g) "Generator of aluminum scrap" means any person who in salvage, manufacture, or fabrication produces aluminum scrap.

(h) "Fabricator" means a person who produces for sale (in whole or in part) the following mill products:

Plate, sheet (coiled or flat), or foil.
Extrusion or tubing.
Rod, bar, or wire.
Powder (atomized or flake, including paste).

(i) "Foundry" means a person who produces aluminum or aluminum alloy cast shapes by melting for use in rough or finished form, without further rolling, drawing, or extruding operations.

(j) "Ingot" means aluminum as cast to specific composition for remelting.

(k) "Pig" means aluminum of variable composition as produced in an electric reduction furnace.

(l) "Scrap pig" means unrefined aluminum of variable composition as produced in a reclamation operation.

SEC. 3. *Segregation of aluminum scrap.* (a) Any generator of aluminum scrap shall segregate such scrap by alloy and shall not mix scrap of one alloy with any other alloy or material: *Provided, however,* That this segregation requirement does not apply to skimmings, drosses, grindings, buffings, and sawings.

(b) Any dealer receiving aluminum scrap in segregated form must maintain such segregation.

SEC. 4. *Restrictions on distribution of aluminum scrap*—(a) *Delivery by scrap owners and generators.* Except as provided in section 5 (a) of this order, any person (other than a producer, smelter, reclaimer, fabricator, or dealer) who owns or generates any aluminum scrap shall deliver such scrap to a producer, smelter, reclaimer, fabricator, or dealer, and shall not dispose of such scrap in any other way.

(b) *Time of delivery.* Except as provided in section 5 (a) of this order, any person who generates or holds any aluminum scrap shall deliver all such scrap to a producer, reclaimer, smelter, fabricator, or dealer at intervals not longer than required to accumulate a minimum carload or at intervals not exceeding 30 days, whichever shall first occur.

(c) *Delivery by dealers.* Dealers shall deliver all aluminum scrap which they

receive at intervals not longer than required to accumulate a minimum carload or at intervals not exceeding 30 days, whichever shall first occur. A dealer shall deliver aluminum scrap only to a producer, smelter, reclaimer, or fabricator: *Provided, however*, That (1) any dealer may deliver any aluminum scrap to another dealer if, in the regular course of business, he does not collect sufficient scrap to make it practicable for him to deliver directly to a producer, smelter, reclaimer, or fabricator; except that a dealer who has received from another dealer scrap in a lot of 20,000 pounds or more may sell or deliver such scrap only to a producer, smelter, reclaimer, or fabricator, but not to another dealer; and (2) any dealer may deliver scrap reusable in the form in which received to any consumer of controlled materials who is entitled to receive and use it under applicable regulations and orders of the National Production Authority and who may elect to use it in lieu of aluminum in the forms and shapes listed in Schedule I of CMP Regulation No. 1. Any consumer who receives aluminum scrap as provided herein, shall charge such aluminum against his CMP allotment.

SEC. 5. *Restrictions on use of aluminum scrap.* (a) Except as provided in section 4 (c) of this order, no person other than a producer, smelter, reclaimer, or fabricator shall melt, reprocess, smelt, or otherwise use aluminum scrap: *Provided, however*, That a foundry may remelt its own gates, risers, and sprues, and its defective, rejected, and obsolete castings, if by so doing it does not degrade or contaminate the aluminum alloy: *And provided further*, That any person other than a producer, smelter, reclaimer, or fabricator who uses aluminum scrap in his regular operations (such as a chemical plant, steel mill, etc.) may request the National Production Authority for authorization to use aluminum scrap in such operations. Any such authorization will specify the type and grade of aluminum scrap to be used for the stated purpose.

(b) No person shall use a type of aluminum scrap, scrap pig, or ingot for a purpose or a process in which a lower grade is suitable.

(c) No person who melts, smelts, or otherwise reprocesses aluminum scrap shall downgrade such scrap.

SEC. 6. *Allocations and directives.* The National Production Authority from time to time may allocate scrap and specifically direct the manner and quantities in which deliveries to particular persons or classes of persons or for particular uses or classes of uses shall be made or suspended; and from time to time may issue specific directives to any person as to the source, destination, consignee, or amount of scrap to be delivered or acquired by such person.

SEC. 7. *Restrictions on toll agreements.* No aluminum scrap shall be delivered or received pursuant to any existing or future toll, conversion, or repurchase agreement, or any similar arrangement, without the prior written approval of the National Production Authority: *Provided, however*, That aluminum scrap owned by a fabricator may be shipped to a producer or to another fabricator for conversion into any product usually purchased by such fabricator, without specific approval of the National Production Authority. All approvals of toll transactions granted by the National Production Authority prior to the effective date of this order are hereby revoked as to all shipments of scrap not made on or before September 30, 1951.

SEC. 8. *No acquisition or delivery in violation of order.* No person shall acquire or deliver aluminum scrap if he knows or has reason to believe that such material has been or will be used in violation of this or of any other order of the National Production Authority.

SEC. 9. *Request for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

SEC. 10. *Records and reports.* (a) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. A producer, smelter, or fabricator shall keep his own metallurgical heat or furnace charge records, indicating the grade, quality, and weight of aluminum charged; the weight of the finished aluminum recovered; and the analysis thereof. A reclaimer shall keep a furnace charge record indicating the types and quantities of scrap treated. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this order shall be made available for inspection and audit by duly authorized representatives of the National Production Authority, at the usual place of business where maintained.

(c) All persons who melt, smelt, or reclaim any aluminum scrap, shall file with the Department of the Interior, Bureau of Mines, Washington 25, D. C., in duplicate, the following reports on or before the fifteenth day of the month following the period reported: (1) Smelters and reclaimers shall file Form 6–1114–M monthly; (2) producers, fabricators, and all other persons consuming aluminum scrap or secondary ingot (such as iron and steel plants and foundries and chemical producers), except foundries consuming less than a total of 12,000 pounds annually of scrap and secondary ingot, shall file Form 6–1111–M monthly; and (3) foundries consuming less than a total of 12,000 pounds annually of scrap and secondary ingot shall file Form 6–1111–Q quarterly.

(d) Persons subject to this order shall make such records and submit such other reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

SEC. 11. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: NPA Order M–22.

SEC. 12. *Violations.* Any person who wilfully violates any provision of this order, or any other order or regulation of NPA, or who wilfully furnishes false information or conceals any material fact in the course of operation under this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order, as amended, shall take effect September 24, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

Chapter XVI—Production and Marketing Administration, Department of Agriculture

[Defense Food Order 3, Amdt. 6]

DFO–3—AGRICULTURAL IMPORTS

MISCELLANEOUS AMENDMENTS

Pursuant to the authority conferred by section 704 of the Defense Production Act of 1950, as amended (64 Stat. 798; 65 Stat. 131; Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2061 et seq.), and having determined that the following amendment of Defense Food Order 3, as amended (17 F. R. 6088), is necessary or appropriate to carry out the provisions of said act and the revised determination made by the Secretary of Agriculture under section 104 of the act, said Defense Food Order 3, as amended, is further amended as hereinafter set forth. Defense Food Order No. 3, as hereby amended, imposes over the commodities covered by such determinations the import controls contemplated by the act and, to effectuate such determinations, must be made effective as soon as possible. The amendment relieves certain restrictions currently imposed by the order and must be made effective promptly if it is to be of maximum benefit to importers. The order affects numerous segments of the economy and time does not permit consultation with all affected segments. Therefore, consultation with industry representatives on the amendment is impracticable and has been omitted.

SUMMARY OF AMENDMENT

Section 6 of Defense Food Order 3, as amended, provides that the Administrator will from time to time remove commodities from the list in Appendix A thereof in accordance with determinations by the Secretary of Agriculture under section 104 of the act. In order to implement the Secretary's revised determination, this amendment deletes Stilton cheese and all varieties of Italian type cheese except the following from import restrictions: Romano, Reggiano, Parmesano, Provoloni, Provolette, and Sbrinz.

This amendment, effective October 1, 1952, also contains a clarifying change with respect to varieties of cheese containing, or processed in whole or in part from, Cheddar, Blue Mold, Edam, or Gouda, by expressly stating that substitutes for cheese are included in this category.

Appendix A of Defense Food Order 3, as amended (17 F. R. 6088), is hereby amended in the following respects:

1. Delete the listing "Italian cheese (B)" and the applicable Commerce Import Class Nos. from Appendix A and insert, in lieu thereof, the following:

Italian type cheese of the following varieties (B):	
Romano in original loaves made from cow's milk	0046.010
Reggiano in original loaves	0046.110
Parmesano in original loaves	0046.120
Provoloni in original loaves	0046.230
Provolette in original loaves	0046.250
Sbrinz in original loaves	0046.940

2. Delete the listing "Blue mold cheese (B)" from Appendix A and insert, in lieu thereof, the following:

Blue Mold cheese, except Stilton (B).

3. Delete the listing "Varieties of cheese containing, or processed in whole or in part, from Cheddar, Blue Mold, Edam and Gouda (B)" from Appendix A and insert, in lieu thereof, the following:

Varieties of cheese (this term includes substitutes for cheese) containing, or processed in whole or in part from, Cheddar, Blue Mold, Edam, or Gouda (B).

This amendment shall become effective at 12:01 a. m., e. s. t., October 1, 1952. With respect to violations, rights accrued, liabilities incurred, or appeals taken concerning Defense Food Order 3, as amended, prior to the effective date hereof, all the provisions of said Defense Food Order 3, as amended, in effect at the time when such violations occurred, rights accrued, liabilities were incurred, or appeals were taken shall be deemed to continue in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

(Sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154)

NOTE: All reporting requirements of DFO–3 have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued at Washington, D. C., this 23d day of September 1952.

[SEAL] G. F. GEISSLER,
Administrator, Production and Marketing Administration.

[F. R. Doc. 52–10504; Filed, Sept. 24, 1952; 12:04 p. m.]

[Import Determination re DFO–3, Revision 2]

DETERMINATION RELATING TO IMPORTS UNDER DEFENSE PRODUCTION ACT

On July 3, 1952 (17 F. R. 6090), the Secretary of Agriculture made a determination, pursuant to the authority vested in him by section 104 of the Defense Production Act of 1950, as amended (64 Stat. 798, 65 Stat. 132; Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2074), relating to certain imports (other than by the Government of the United States), during the period from July 1, 1952, through June 30, 1953, into the commerce of the United States. Such determination was made upon the basis of facts then available and, as stated therein, would be subject to revision whenever it is determined that such action is necessary or appropriate in effectuating the purposes of the act. Upon the basis of facts available at present, it is hereby determined that the revision, as hereinafter set forth, of the determination of July 3, 1952, is necessary or appropriate in effectuating the purposes of the act.

The Import Determination re DFO–3, Revision 1 (17 F. R. 6090), is hereby revised to read as follows:

Pursuant to the authority vested in me by section 104 of the Defense Production Act of 1950, as amended (64 Stat. 798, 65 Stat. 132; Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2074), it is hereby found and determined that imports (other than by the Government of the United States), during the period from July 1, 1952, through June 30, 1953, into the commerce of the United States of the commodities and products hereinafter listed, except as herein specified, would with respect to each such commodity or product or type or variety thereof listed (a) impair or reduce the domestic production of a commodity or product specified in said section 104 below present production levels, (b) interfere with the orderly domestic storing and marketing of a commodity or product specified in said section 104, or (c) result in an unnecessary burden or expenditure under a Government price support program.

SECTION 1. This determination applies to all types and varieties of the following listed commodities and products except as otherwise specified:

Butter.[1]
Butter oil.[2]
Casein and lactarene, and mixtures in chief value thereof, n. s. p. f.[3]
The following types and varieties of cheese:
Italian type cheese of the following varieties:[4]
Romano in original loaves made from cow's milk.
Reggiano in original loaves.
Parmesano in original loaves.
Provoloni in original loaves.
Provolette in original loaves.
Sbrinz in original loaves.
Cheddar.[5]
Blue Mold,[6] except Stilton.
Edam and Gouda.[7]
Varieties (this term includes substitutes for cheese) containing, or processed in whole or in part from, Cheddar, Blue Mold, Edam, or Gouda.[8]
Flaxseed (linseed).[9]
Linseed oil, and combinations and mixtures, in chief value of such oil.[10]
Malted milk and compounds, or mixtures of or substitutes for milk or cream.[11]
Skimmed, dried milk (nonfat, dried milk solids).[12]
Peanuts (blanched, roasted, prepared, preserved).[13]
Peanuts (shelled, not shelled).[14]
Peanut oil (ground nut oil).[15]
Paddy rice.[16]
Uncleaned or brown rice.[17]
Cleaned or milled rice.[18]
Cleaned Patna rice for use in canned soups.[19]
Broken rice.[20]

SEC. 2. Importations during the period from July 1, 1952, through June 30, 1953, of the following commodities and products, subject to Government regulation under the following conditions, will not have any of the effects specified in section 104 of the Defense Production Act, as amended:

(a) Casein or lactarene and mixtures in chief value thereof, n. s. p. f., in an aggregate quantity not in excess of 40,000,000 pounds;

(b) Cheddar cheese in an aggregate quantity not in excess of 8,500,000 pounds;

[1] Commerce Import Class No. 0014.000
[2] Commerce Import Class No. 1423.200.
[3] Commerce Import Class No. 0943.000.
[4] Commerce Import Class Nos. 0046.010, 0046.110, 0046.120, 0046.230, 0046.250, and 0046.940.
[5] Commerce Import Class No. 0046.490.
[6] Commerce Import Class No. 0046.600.
[7] Commerce Import Class Nos. 0046.750 and 0046.790.
[8] Commerce Import Class No. 0046.990.
[9] Commerce Import Class No. 2233.000.
[10] Commerce Import Class No. 2254.000.
[11] Commerce Import Class No. 0041.900.
[12] Commerce Import Class No. 0041.100.
[13] Commerce Import Class No. 1330.080.
[14] Commerce Import Class Nos. 1367.000, 1368.000.
[15] Commerce Import Class No. 1427.000.
[16] Commerce Import Class No. 1051.000.
[17] Commerce Import Class No. 1051.100.
[18] Commerce Import Class No. 1053.000.
[19] Commerce Import Class No. 1054.000.
[20] Commerce Import Class No. 1059.200.

(c) The following varieties of Italian type cheese in an aggregate quantity not in excess of 8,000,000 pounds:

Romano in original loaves made from cow's milk.
Reggiano in original loaves.
Parmesano in original loaves.
Provoloni in original loaves.
Provolette in original loaves.
Sbrinz in original loaves.

(d) Blue Mold cheese, except Stilton, in an aggregate quantity not in excess of 3,000,000 pounds;

(e) Edam and Gouda cheese in an aggregate quantity not in excess of 4,000,000 pounds;

(f) Varieties (this term includes substitutes for cheese) containing, or processed in whole or in part from Cheddar, Blue Mold, Edam, and Gouda, in an aggregate quantity not in excess of the quantity imported during the calendar year 1950;

(g) Malted milk and compounds, or mixtures of or substitutes for milk or cream, which are determined by the official responsible for administration of Defense Food Order No. 3, as amended, to have none of the customary uses of butter;

(h) Registered or certified flaxseed and rice for planting purposes only and in accordance with applicable laws and regulations;

(i) Brewer's rice;

(j) The listed commodities and products as samples or gifts or for personal use where the value of each consignment or shipment is less than $25.00; and

(k) Such amounts of the listed commodities and products as may be required to avoid unnecessary or unreasonable hardship and as may be required to assure equitable treatment for small or new business.

SEC. 3. This determination is made upon the basis of facts available and is subject to revision whenever it is determined that such action is necessary or appropriate in effectuating the purposes of the act.

SEC. 4. It is hereby deemed necessary, taking into consideration the broad effects upon international relationships and trade, that, with respect to each of the commodities and products listed in paragraphs (a), (b), (c), (d), (e), and (f) of section 2 hereof, additional imports of 15 percent of the respective aggregate quantity fixed for each such commodity or product be authorized.

SEC. 5. The provisions hereof shall become effective at 12:01 a. m., e. s. t., October 1, 1952, and shall supersede the determination of July 3, 1952 (17 F. R. 6090), under section 104 of the Defense Production Act, as amended, but said determination of July 3, 1952, shall be deemed to remain in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding concerning any violation, right accrued, liability incurred, or appeal taken under or with respect to said determination or Defense Food Order 3, issued August 9, 1951, as amended (16 F. R. 7934, 8272; 17 F. R. 4490, 5829, 6088), prior to the effective date hereof.

(Sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154)

Issued at Washington, D. C., this 23d day of September 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 52-10505; Filed, Sept. 24, 1952; 12:04 p. m.]

[Defense Food Order 3, Sub-Order 3, Amdt. 1]

DFO-3—AGRICULTURAL IMPORTS

SO 3—STATEMENT OF POLICIES AND PROCEDURES RE IMPORT AUTHORIZATIONS FOR CERTAIN COMMODITIES

Sub-Order 3 (17 F. R. 6269), containing a statement of the policies and procedures relating to import authorizations for certain commodities under Defense Food Order 3, as amended (17 F. R. 6088), was issued pursuant to the authority vested by said amended Defense Food Order 3, under sections 101, 104, and 704 of the Defense Production Act of 1950, as amended (64 Stat. 798; 65 Stat. 131; Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2061 et seq.). Said Defense Food Order 3 was further amended on September 23, 1952, to effectuate the determinations under the act, including the revised determination of the Secretary of Agriculture made on September 23, 1952. This amendment to Sub-Order 3 must be issued promptly in order to inform affected persons as soon as possible concerning the policies and procedures relating to import authorizations under the order. This amendment affects several segments of the economy and time is not available to permit consultation with all affected segments.

The most recent amendment to Defense Food Order 3, as amended, effective October 1, 1952, removed Stilton cheese and all varieties of Italian type cheese except the following from import restrictions: Romano, Reggiano, Parmesano, Provoloni, Provolette, and Sbrinz. Such amendment also contained a clarifying change with respect to varieties of cheese containing, or processed in whole or in part from, Cheddar, Blue Mold, Edam or Gouda, by expressly stating that substitutes for cheese are included in this category. This amendment to Sub-Order 3 changes the various classifications of cheese, set forth in section 1 (c) (3) thereof, so as to be in conformity with the foregoing amendment of October 1, 1952, to Defense Food Order 3.

Defense Food Order 3, Sub-Order 3 (17 F. R. 6269) is hereby amended by deleting the provisions of section 1 (c) (3) and inserting, in lieu thereof, the following:

(3) In the administration of this Sub-Order, each of the following classifications is considered to be a type of cheese:

Description	*Commerce Import Class No.*
Italian type cheese of the following varieties:	
Romano in original loaves made from cow's milk	0046.010
Reggiano in original loaves	0046.110
Parmesano in original loaves	0046.120
Provoloni in original loaves	0046.230
Provolette in original loaves	0046.250
Sbrinz in original loaves	0046.940
Cheddar	0046.490
Blue Mold, except Stilton	0046.600
Edam and Gouda	0046.750 and 0046.790
Varieties (this term includes substitutes for cheese) containing, or processed in whole or in part from, Cheddar, Blue Mold, Edam, or Gouda	0046.990

This amendment shall become effective at 12:01 a. m., e. s. t., October 1, 1952.

(Sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154)

NOTE: All reporting requirements of DFO-3, Sub-Order 3 have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued at Washington, D. C., this 23d day of September 1952.

[SEAL] R. H. ROBERTS,
Acting Director, Office of Requirements and Allocations.

[F. R. Doc. 52-10506; Filed, Sept. 24, 1952; 12:05 p. m.]

[Defense Food Order 3, Sub-Order 4]

DFO-3—AGRICULTURAL IMPORTS

SO 4—REVOCATION OF IMPORT AUTHORIZATIONS WITH RESPECT TO ITALIAN TYPE CHEESE

Pursuant to the authority vested in me by section 11 and 13 of Defense Food Order 3, as amended, it is hereby determined that this order of revocation is necessary to effectuate the current determinations, under section 104 of the Defense Production Act of 1950, as amended (64 Stat. 798; 65 Stat. 132; Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2074).

Both the revised determination of the Secretary of Agriculture and the most recent amendment to Defense Food Order 3, as amended, which are to become effective October 1, 1952, exclude from import controls certain varieties of Italian type cheese. It is, therefore, necessary that all outstanding import authorizations for Italian type cheese be revoked and new authorizations issued for imports, after September 30, 1952, of the controlled varieties of Italian type cheese in quantities consistent with the revised determination of the Secretary. Consultation with industry representatives in the formulation of this order has been rendered impracticable since this order affects numerous segments of the economy and time is not available to permit consultation with all such segments.

SUMMARY OF ORDER

The effect of this order is to revoke, as of October 1, all import authorizations with respect to Italian type cheese that were heretofore issued pursuant to Defense Food Order 3, as amended. New import authorizations will be required for the importation, on or after October 1, 1952, of any variety of Italian type cheese remaining under import control.

It is hereby ordered that all authorizations issued under Defense Food Order 3, as amended (17 F. R. 6088), prior to the issuance of this revocation order, for the importation of Italian type cheese of any variety are revoked effective at 12:01 a. m., e. s. t., October 1, 1952.

(Sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154)

Issued at Washington, D. C., this 23d day of September 1952.

[SEAL] R. H. ROBERTS,
Acting Director, Office of Requirements and Allocations.

Chapter XXI—Office of Rent Stabilization, Economic Stabilization Agency

[Rent Regulation 1, Amdt. 18 to Schedule B]

[Rent Regulation 2, Amdt. 19 to Schedule B]

RR 1—HOUSING

RR 2—ROOMS IN ROOMING HOUSES AND OTHER ESTABLISHMENTS

SCHEDULE B—SPECIFIC PROVISIONS RELATING TO INDIVIDUAL DEFENSE-RENTAL AREA OR PORTIONS THEREOF

GARY-HAMMOND DEFENSE-RENTAL AREA

Effective September 25, 1952, Rent Regulation 1 and Rent Regulation 2 are amended as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 22d day of September 1952.

JAMES McI. HENDERSON,
Director of Rent Stabilization.

1. A new item 63 is added to Schedule B of Rent Regulation 1, reading as follows:

63. Provisions relating to the Gary-Hammond Defense-Rental Area (Item 102 of schedule A):

With respect to housing accommodations in the Gary-Hammond Defense-Rental Area, section 141 of this regulation is changed to read as follows:

SEC. 141. *Alternate adjustment for increases in costs and prices.* The housing accommodation had a maximum rent in effect on June 30, 1947 or January 1, 1951 or June 11, 1952, and the present maximum rent for the housing accommodation does not equal (1) 130 percent of the maximum rent in effect on June 30, 1947, or 130 percent of the maximum rent for comparable housing accommodations on June 30, 1947, if no maximum rent was in effect on that date; (2) plus or minus any increases or decreases in maximum rent ordered after June 30, 1947, under this regulation for major capital improvements or increases or decreases in living space, services, furniture, furnishings or equipment or substantial deterioration. The adjustment under this section shall be in an amount sufficient to cause the maximum rent to equal (1) 130 percent of the maximum rent in effect on June 30, 1947, for the housing accommodation or comparable housing accommodations, whichever is applicable; (2) plus or minus appropriate increases or decreases in rental value, if any, as specified herein: *Provided, however,* That the Director shall give appropriate consideration to orders issued under sections 157 or 162 decreasing maximum rents which were in effect on June 30, 1947. Adjustments under this section shall be effective automatically upon the filing of the petition if a maximum rent was in effect on June 30, 1947. In all other cases, they shall not be effective until the order is issued by the Director. All provisions of this regulation insofar as they are applicable to the Gary-Hammond Defense-Rental Area are amended to the extent necessary to carry into effect the provisions of this Item 63 of Schedule B.

2. A new item 69 is added to Schedule B of Rent Regulation 2, reading as follows:

69. Provisions relating to the Gary-Hammond Defense-Rental Area (Item 102 of Schedule A):

With respect to housing accommodations in the Gary-Hammond Defense-Rental Area, section 138 is added to this regulation to read as follows:

SEC. 138. *Alternate adjustment for increases in costs and prices.* The room had a maximum rent in effect on June 11, 1952, and the present maximum rent for the room does not equal (1) 130 percent of the maximum rent in effect on June 30, 1947, or 130 percent of the maximum rent for comparable rooms on June 30, 1947, if no maximum rent was in effect on that date; (2) plus or minus any increases or decreases in maximum rent ordered after June 30, 1947, under this regulation for major capital improvements or increases or decreases in living space, services, furniture, furnishings or equipment or substantial deterioration. The adjustment under this section shall be in an amount sufficient to cause the maximum rent to equal (1) 130 percent of the maximum rent in effect on June 30, 1947, for the room or comparable rooms, whichever is applicable; (2) plus or minus appropriate increases or decreases in rental value, if any, as specified herein: *Provided, however,* That the Director shall give appropriate consideration to orders issued under sections 157 or 160 decreasing maximum rents which were in effect on June 30, 1947. Adjustments under this section shall be effective automatically upon the filing of the petition if a maximum rent was in effect on June 30, 1947. In all other cases, they shall not be effective until the order is issued by the Director. All provisions of this regulation insofar as they are applicable to the Gary-Hammond Defense-Rental Area are amended to the extent necessary to carry into effect the provisions of this Item 69 of Schedule B.

[F. R. Doc. 52-10418; Filed, Sept. 24, 1952; 8:47 a. m.]

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicle

PART 211—SCOPE OF OPERATING AUTHORITY; ROUTES

USE OF NEW JERSEY TURNPIKE (TOLL HIGHWAY) BY COMMON AND CONTRACT MOTOR CARRIERS OF PROPERTY SUBJECT TO THE INTERSTATE COMMERCE ACT

At a session of the Interstate Commerce Commission, Division 5, held at its office in Washington, D. C., on the 16th day of September A. D. 1952.

The above-entitled matter being under consideration:

It appearing, that the Commission has received many inquiries regarding the use of the New Jersey Turnpike as an alternate route by common and contract motor carriers of property subject to the Interstate Commerce Act;

It further appearing, that the said Turnpike is a modern toll highway in which there are improvements in design and construction over other highways in that region, including the elimination of cross traffic, reduction in grades, lengthening of curves, and widening of the pavement; that its use as an alternate route by motor carriers of property, as indicated below, would promote economical operation, improve the service rendered to the public, serve purposes of national defense, and contribute to the promotion of safety on the highways; and that only in special and unusual instances will there exist reasons for denying to any carrier of property operating over these parallel highways permission to use the Turnpike as an auxiliary highway;

And it further appearing, that the use of the said Turnpike as an alternate route by motor carriers of property holding authority to operate over certain highways which parallel the Turnpike, as more fully described herein below, is or will be required by public convenience and necessity in the case of common carriers, and consistent with the public interest and the national transportation policy declared in the Interstate Commerce Act in the case of contract carriers, and the Commission so finding; therefore: It is ordered, that:

§ 211.5 *Use of the New Jersey Turnpike by motor carriers of property authorized to operate over parallel highways*—(a) *Parallel highways.* The New Jersey Turnpike and such additional highways as may be required in traveling by the shortest practicable route between authorized highways and the Turnpike in performing authorized operations, may be used as an alternate route, without obtaining prior authority therefor, by common and contract motor carriers of property subject to the Interstate Commerce Act who are authorized to operate over highways which parallel the Turnpike, as follows:

(1) The segment extending between the Delaware Memorial Bridge interchange and the Camden-Philadelphia interchange, by those authorized to operate over U. S. Highways 1, 13, 130, and New Jersey Highway 45;

(2) The segment extending between the Camden-Philadelphia interchange and the Bordentown-Trenton interchange, by those authorized to operate over U. S. Highways 1, 13, and 130;

(3) The segment extending between the Bordentown-Trenton interchange and the New Brunswick interchange, by those authorized to operate over U. S. Highways 1, 13, and 130, and New Jersey Highway 27;

(4) The segment extending between the New Brunswick interchange and the George Washington Bridge interchange, by those authorized to operate over U. S. Highways 1, 13, and 130, and New Jersey Highways 17, 25, and 27;

(5) The entire length of the Turnpike, that is, extending between the Delaware Memorial Bridge interchange and the George Washington Bridge interchange, by those authorized to operate over U. S. Highways 1, 13, and 130;

(b) *Conditions.* The use of the Turnpike as indicated in paragraph (a) of this section shall be subject in all instances to the following conditions:

(1) The carrier in each case shall give notice to the Commission, by letter setting forth a complete description by highway numbers of the carrier's authorized route between the point where it proposes to leave its authorized route and the point where it proposes to return to such route; a complete description by highway numbers of the proposed deviation route, including the portion of the Turnpike to be used, between the point where it proposes to leave its authorized route and the point where it will return to such route; and a list of all known competitors, with a statement that a copy of such letter notice has been served on each of those listed.

(2) The letter shall state that the carrier filing the notice will continue to furnish reasonable and adequate service at all points it is now authorized to serve, that it will not serve new points or points it is not now authorized to serve, and that the use of the Turnpike will not enable the carrier to engage in transportation between any points where because of the circuity of its present routes, or otherwise, such operation is not now practicable.

(3) The right to use the Turnpike as an alternate route shall continue only so long as the carrier is entitled to use the highway or portion thereof described in its Certificate or Permit which parallels the Turnpike, in performing service authorized under the Interstate Commerce Act, and only so long as the conditions mentioned herein are observed.

(c) *Protests.* Any party in interest may file a protest within 30 days from the date a carrier gives notice of intent to operate over the Turnpike. Such protest may be in the form of a letter, should contain facts and information to support protestant's opinion that the carrier filing such notice cannot meet the terms of the above-specified conditions, and should reflect that a copy of the protest has been furnished to the carrier filing the notice. If such a protest is filed the Commission will give due consideration to all facts of record in the particular case, including the notice and protest, and will make a determination in accordance with those facts.

(d) *When applications required.* Motor carriers holding authority to operate over specified regular routes in New Jersey, which do not include the Turnpike or any of the highways specified above, who desire to use the Turnpike as an alternate route in performing their authorized service, must apply for and obtain such authority, using Form BMC 78, before operating over the Turnpike. If it appears that the use of the Turnpike by any such applicant would not result in a substantial change in its service between terminal points or to or from intermediate and off-route points, and would not enable the carrier to render service which is now impracticable because of the circuity of the carrier's presently authorized route, or otherwise, consideration will be given to the granting of authority without hearing and with or without restrictions.

(e) *Irregular-route operations.* If a motor carrier is authorized to operate within or through New Jersey over irregular routes, no specific authority is required from this Commission to use the New Jersey Turnpike in performing its authorized service.

It is further ordered, that this order shall become effective October 20, 1952, unless prior thereto it is otherwise ordered by this Commission.

Notice of this order shall be given to motor carriers and the general public by depositing a copy in the office of the Secretary of the Commission, Washington, D. C., and by filing a copy thereof with the Director, Division of Federal Register.

(49 Stat. 546, as amended; 49 U. S. C. 304. Interprets or applies 49 Stat. 552, as amended, 553, as amended; 49 U. S. C. 308, 309)

By the Commission, Division 5.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[F. R. Doc. 52-10405; Filed, Sept. 24, 1952; 8:46 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[P. & S. Docket No. 450]

DENVER UNION STOCK YARD CO.

NOTICE OF PETITION FOR MODIFICATION OF RATE ORDER

Pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), an order was issued in this proceeding on August 17, 1951 (10 A. D. 1033) prescribing the rates and charges to be assessed by the respondent for stockyard services at the Denver Stock Yards, Denver, Colorado. On December 26, 1951, an order was issued (10 A. D. 1502) authorizing respondent to make certain modifications in its rates and charges.

On September 11, 1952, respondent filed a petition requesting authority to make certain additional modifications in its rates and charges. Those sections of respondent's current schedule of rates and charges modified as requested by the petition would read as follows:

SECTION 2

FEED, BEDDING, ETC. (SEE NOTE)

Prairie or alfalfa hay on fence: $2.40 per hundredweight.

Prairie or alfalfa hay fed out: $2.50 per hundredweight.

Corn: $2.35 per bushel measure.

Bedding: [1] $1.20 per bale.

Miscellaneous feed, current market price, f. o. b. Stock Yards, plus: $0.75 per hundredweight.

When feed other than the above is desired, it will be furnished, if obtainable, by special arrangement.

When livestock is fed or bedded or watered in cars, a charge of $2 per deck will be made in addition to the regular charge for feed or other material used.

When empty stock or box cars are bedded with hay or straw, a charge of 55 cents per deck will be made in addition to the charge for hay or straw used.

The selling price of feed, bedding, etc. at The Denver Union Stock Yards shall be as follows:

Hay (on fence), current market price, f. o. b. Stock Yards, plus: $0.50 per hundredweight.

Hay (fed), current market price, f. o. b. Stock Yards, plus: $0.60 per hundredweight.

Miscellaneous feed, current market price, f. o. b. Stock Yards, plus: $0.75 per hundredweight.

Corn, current market price, f. o. b. Stock Yards, plus: $0.45 per bushel.

Bedding, current market price, f. o. b. Stock Yards, plus: $0.40 per bale.

The charges on hay, corn and miscellaneous feed and bedding shall be divisible by 5 and the company shall amend its charges whenever the margin between the cost and the sale price varies 5 cents from the margin of profits set forth above. When feed other than that set forth above is desired, it will be furnished, if obtainable, by special arrangement.

[1] Hay may be furnished at the discretion of the Stock Yard Co.

NOTE: Applies only on market business; see section 3 for feed charges on transit business.

SECTION 5

DIPPING AND SPRAYING CHARGES (SEE NOTE)

Dipping charges will be as follows:

Cows, steers, and heifers: $0.50 per head—minimum $40 per lot.

Calves: $0.40 per head—minimum $40 per lot.

Bulls: $1.50 per head—minimum $40 per lot.

Lambs: $0.10 per head—minimum $40 per lot.

Ewes: $0.12 per head—minimum $40 per lot.

Bucks: $0.15 per head—minimum $40 per lot.

Spraying charges will be as follows:

Lambs: $0.10 per head—minimum $15 per lot.

Ewes: $0.12 per head—minimum $15 per lot.

Bucks: $0.15 per head—minimum $15 per lot.

This company will not be responsible for any loss or damage incident to dipping, unless insured with the company. The company will insure any kind of live stock against death for 1 percent of the declared value in addition to dipping charge. In the event insurance is desired, declaration of value and desire of insurance must be made when dipping order is placed.

All dipping and spraying is subject to the supervision and regulations of the Bureau of Animal Industry of the U. S. Department of Agriculture.

NOTE: These charges contemplate a standard charging of dip with chemical solutions. If double strength charge is ordered by user or by U. S. D. A. requirements, the additional chemicals used will be charged against the user at a rate of $5 per car or portion thereof in addition to regular charges and minimums set forth above.

SECTION 6

DISINFECTING CHARGES

Whenever the Bureau of Animal Industry or other governmental authority deems it necessary to disinfect any portion of this company's yards, occasioned by the movement of infected stock, the following will be collected from owner of such infected stock:

	Each
Pens, single load	$10.00
Pens, double load	14.00
Chutes	10.00
Alleys (same proportion as pens).	

*Item eliminated. Service not available (disinfecting stock cars).

**Item eliminated. Service not available (disinfecting stock trucks or trailers).

SECTION 8

SPECIAL SALES

This company maintains special stables, pavilions and auction facilities for the sale of livestock.

The use of such facilities and all services in connection therewith will be charged for under special agreement.

SECTION 11

MISCELLANEOUS

***Item eliminated. Service not available (use of facilities and water for cleaning and washing trucks).

	Cents per head
Delivering cattle and calves from truck unloading chutes to sales division	6
Delivering sheep and hogs from truck unloading chutes to sales division	1

Special arrangements may be made for water troughs and feed troughs, papering cars, partitions in cars, double decking cars, drayage, tying bulls, and other services not covered by tariff.

The modifications, if authorized, will produce additional revenue for the respondent and increase the cost of marketing livestock. Accordingly, it appears that this public notice should be given of the filing of the petition and its contents in order that all interested persons may have an opportunity to be heard in the matter.

All interested persons who wish to be heard in the matter shall notify the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., within 15 days after the publication of this notice.

Done at Washington, D. C., this 22d day of September 1952.

[SEAL] AGNES B. CLARKE,
Hearing Clerk.

[F. R. Doc. 52-10426; Filed, Sept. 24, 1952; 8:48 a. m.]

NOTICES

DEPARTMENT OF COMMERCE

Office of International Trade

[Case No. 136]

LEONARD SCHMERER, ET AL.

ORDER DENYING LICENSE PRIVILEGES

In the matter of: Leonard Schmerer, Simon Kaplan, Julia Considine, Leonard Schmerer & Co., Room 608, 90 Broad Street, New York, New York; Sherman International, Ltd., Room 608, 90 Broad Street, New York, New York, respondents; Case No. 136.

By charging letters dated December 13, 1951, the above-named respondents were charged by the Director, Investigation Staff, with a series of violations of the Export Control Act of 1949, as amended, and the regulations issued thereunder, occurring between December 1949 and June 1951, involving trafficking in licenses, falsifying documents filed with the Office of International Trade in support of pending applications, false representations on applications, improper and unauthorized use of licenses issued to others, duplication of applications for licenses, and false representations on shipper's export declarations and other export control documents effecting exportations. The majority of these violations were alleged to have been committed in concert with six (6) different hide and leather companies located in various cities in the United States and Canada.

The eligibility of respondents to participate as parties to any validated export licenses or to any exportations effected thereunder pending determination of these administrative compliance proceedings was suspended by the terms of the charging letters.

Charging letters were also served upon each of the said six (6) hide and leather concerns and their responsible officers or employees charging them with having participated with the above-named respondents in the commission of violations of the export control law and regulations. To date, one such company has admitted the charges applicable to it and has consented to the entry of an order under whose terms the company has been denied all export privileges for a period of sixty (60) days by order dated May 16, 1952 (17 F. R. 4723), and the officer of said company who was responsible for such violations has been denied all export privileges for fifteen (15) months by order issued May 21, 1952 (17 F. R. 4826). The proceedings against the other cited concerns are pending and will be disposed of in due course.

After receiving the charging letters mentioned above, respondents named herein conferred through their counsel and Leonard Schmerer with officials of the Office of International Trade and with the Compliance Commissioner. Thereafter, respondents submitted to the Office of International Trade, with the advice of and through counsel, a statement dated July 21, 1952, amended August 18, 1952, in which they admitted for the purpose of this compliance proceeding only the charges applicable to them in said charging letters, waived all rights to a hearing before the Compliance Commissioner and consented to the entry of an order, the terms of which are set forth below.

The charges, which respondents have admitted and to which they have entered their consent as above stated, are, in substance, the following: In the winter of 1950–51, respondents Leonard Schmerer & Co., a partnership, and Sherman International, Ltd., a domestic corporation, both engaged in the import-export of hides and skins, in which concerns Leonard Schmerer is the principal, held orders for large quantities of skins and hides from customers in Japan. Hides were in scarce supply and subject, therefore, to quota allocations established by the Office of International Trade governing their exportation. Respondents held, or had applied for, licenses to export such hides but knew that the likelihood of obtaining sufficient licenses to export the entire quantity of hides for which they held orders was remote in view of the known quotas established by the Office of International Trade for the export of hides and the share of such quotas respondents were likely to receive. With the intention of evading and circumventing such quota allocations and for the purpose of obtaining a larger number of licenses than they were entitled to so as to enable them to fill all of such orders, respondents took the following actions: [1]

Case No. 1; "A" Company, New York, N. Y. (A) Between December 1950 and May 1951, respondents prepared and filed or caused to be prepared and filed with the Office of International Trade twelve (12) applications for export licenses in the name of "A" to ship hides and skins purchased and to be purchased from "A" to their own consignees in Japan.

(B) In purported compliance with the Office of International Trade regulations, but without the knowledge or consent of "A," respondents prepared and filed in support of ten (10) such applications spurious, fabricated copies of documents purporting to evidence that "A" held accepted orders from the consignees named in the applications for the quantities of hides described therein.

(C) Without authority of the Office of International Trade, respondents used two (2) licenses, issued by the Office of International Trade to "A" in reliance upon the representations in said applications, to effect exportations for their own benefit and to ship hides to their own consignees, and prepared and caused "A" to execute three (3) shipper's export declarations relating to the exportations, one (1) such declaration covering a

[1] The names of the companies listed are withheld in view of the rule of confidentiality expressed in § 382.14 of the regulations.

quantity of skins purchased from a supplier other than "A."

(D) Respondents knew and intended that various of the applications filed in the name of "A" were duplicative of applications filed in the name of Leonard Schmerer & Co.; and knew and intended that such licenses would be used for their benefit to export from the United States larger quantities of hides and skins than they were permitted to export under validated licenses received by them or expected to be received by them under applications filed in the name of Leonard Schmerer & Co.

(E) The violation described in this paragraph was committed solely by respondents and the "A" Company was not a participant or involved therein.

(1) Respondents filed an application for a validated license on January 26, 1951, in the name of Leonard Schmerer & Co. to export to a customer in Japan a quantity of hides for which an order had been received, and on or about May 15, 1951, refiled said application;

(2) While said application was pending before the Office of International Trade and for the purpose of obtaining two (2) licenses to enable them to export a quantity of hides in excess of the order supporting the application, respondents filed a duplicate application on May 21, 1951, in the name of Sherman International, Ltd., therein falsely representing that Sherman International, Ltd., held an accepted order from the same customer in Japan described in the pending application (1) above, and, in purported compliance with the regulations, submitted in support of said application certain false and fabricated documents intended to evidence that Sherman International, Ltd., held an accepted order from the said customer for the hides described therein and an end-use statement, although Sherman International, Ltd., held no order whatsoever.

Case No. 2; "B" Company, New York, N. Y. (A) In June 1951, respondents entered into an arrangement with "B", whereby, for a consideration, "B" permitted respondents to have the use and benefit of a validated license issued by the Office of International Trade to "B", to export hides to their own customer in Japan. "B" asked the Office of International Trade for a consignee amendment to said license but returned the license at the request of the Office of International Trade and filed a new application, in lieu of the request for amendment. Said application falsely represented that "B" held an accepted order from the consignee in Japan regarding whom they had sought the amendment.

(B) Respondents prepared and filed in support of said application spurious, fabricated copies of documents as purported evidence that "B" held an accepted order and an ultimate consignee statement whereas "B", in fact, held no order whatsoever from the consignee.

(C) Respondents used the license issued to "B" on said application for their own benefit to export to their own customer hides purchased from other suppliers, and effected the export by a falsified shipper's export declaration misdescribing "B" as the exporter-seller and misdescribing the type of hides so exported.

Case No. 3; "C" Company, New York, N. Y. (A) During May 1951, respondents arranged with "C", whereby, for a consideration, "C" permitted respondents the use and benefit of three (3) export licenses issued to them to enable respondents to export hides to their customers in Japan.

(1) "C" amended three (3) licenses to show ultimate consignees who, in fact, were respondents' customers;

(2) Respondents fabricated false documents purporting to be evidence that "C" held accepted orders from the consignees named in the request for amendments, although "C" held no orders nor had received any orders whatsoever.

(3) Using the three (3) licenses as amended and issued to "C", respondents exported hides to their own customers in Japan, and effected the shipments by filing falsified shipper's declarations representing "C" as the exporter.

Case No. 4; "D" Company, Wilmington, Del. (A) Respondents, in the name of Sherman International, Ltd., applied for validated license on January 4, 1951, to export 1,385 hides to their customer in Japan; on March 6, 1951, respondents filed a request to amend and change the name of the consignee to another concern in Japan. In support of the applications, respondents filed a photostatic copy of a letter from the new consignee (February 22, 1951) certifying to the intended end-use of the hides.

(B) On January 8, 1951, respondents prepared and filed an application in the name of "D" which was in all respects a duplicate of the application in (A) above. "D" held no order from the Japanese customer.

(C) On March 6, 1951, respondents filed a request to amend and change the name of the consignee in the "D" application to the new consignee, just as they had done in the Sherman application (A) above, and submitted the identical photostatic copy of a letter from said consignee, dated February 22, 1951, certifying to the intended end-use of the hides except that this letter was ostensibly addressed to "D".

(D) The Sherman International, Ltd., license was issued by the Office of International Trade on March 13, 1951.

(E) The "D" license was issued by the Office of International Trade on March 13, 1951, but was not used and was subsequently surrendered to the Office of International Trade.

Case No. 5; "E" Company, Philadelphia, Pa. (A) Respondents, between December 1950 and January 1951, prepared and filed in the name of "E" two (2) applications for licenses to export to their own Japanese customer an aggregate of over 4,300 skins and hides, falsely representing that "E" held accepted orders for the commodities. Respondents also prepared and filed with the Office of International Trade in support of one (1) of these applications (for 1,825 skins) false and fabricated documents purporting to be evidence that "E" held an accepted order from such Japanese customer for the quantity of hides stated.

(B) In reliance upon the representations and certifications made in the applications and upon the purported evidence of an accepted order submitted to the Office of International Trade, two (2) licenses were issued to "E." although for a reduced quantity of 675 (out of 2,500 sought) as to the first application, but for the full quantity of 1,825 hides as to the second application.

(C) Without authority of the Office of International Trade, respondents used the said licenses issued to "E" for their own benefit and purpose to ship to their customer the hides thereon purportedly authorized to be exported. Respondents shipped 675 hides under the first license; and then, in two (2) separate shipments exported 1,056 hides and 769 hides, the latter quantity having been acquired from a supplier other than "E." Respondents effected these exportations, other than the 769 hides, by preparing falsified shipper's export declarations, naming "E" as the exporter-seller, having same executed by "E," which submitted them for authentication by the Collector of Customs. As to the shipper's export declaration relating to the 769 hides, respondents prepared and filed said declaration with the Collector of Customs themselves.

Case No. 6; "F" Company, Quebec, Province of Ontario, Canada. In December 1949, respondent Sherman International, Ltd., received an order for 3110 hides of Canadian origin from a Viennese customer for export to Austria. The letter of credit covering the order specified hides of Canadian origin and further stated that the funds for the purchase had been authorized by ECA procurement authorization for the Austrian Government.

Respondents, during December 1949 and January 1950, entered into an arrangement with "F", whereby they did the following:

(A) Respondents purchased 2911 United States origin hides.

(B) Exported such hides to Canada for the purported account of "F".

(C) Effected the export by filing shipper's export declarations with the United States Collector at the Canadian border representing that Canada was the ultimate destination and "F" the ultimate consignee.

(D) "F" entered such hides in Canada in three (3) railroad cars and shortly thereafter re-exported same in the same railroad cars through the United States in bond to New York City for export to Austria for the account of Sherman International and pursuant to false representations made to Canadian and United States officials that such hides were of Canadian origin.

(E) Respondents exported said 2911 hides to the Austrian customer by falsified documents filed with the United States authorities that such hides were of Canadian origin and therefore properly exportable from the United States to Austria under general in transit license GIT.

The charging letters, evidentiary material relating to the charges set forth therein, and the above-mentioned proposal for a consent order, as amended, have been submitted to the Compliance Commissioner for review. Upon the basis of such review and upon the presentation of the facts, including extenuating circumstances claimed by respondents at the conference with counsel for the Office of International Trade and with respondents and their counsel, the Compliance Commissioner has found that the charges applicable to respondents are supported by the evidence and has concluded that the terms and conditions of the proposed order as consented to by respondents are fair and reasonable and should be approved.

The Compliance Commissioner has pointed out that the basis for the longer suspension period imposed upon Leonard Schmerer (and Leonard Schmerer & Co. and Sherman International, Ltd., in which he is a partner and officer-stockholder, respectively) is predicated upon his being primarily responsible for the conception and consummation of the violative acts herein described and that lesser sanctions have been given to Julia Considine and Simon Kaplan, minor employees who were subject to the instructions of Leonard Schmerer. The Compliance Commissioner has also pointed out that respondents have been prohibited from engaging in exports under validated licenses since December 13, 1951, pursuant to the suspension contained in the charging letters.

The findings and recommendations of the Compliance Commissioner have been carefully considered, together with the charging letters, the evidentiary material, and the proposal for a consent order, as amended. It appears therefrom that the Compliance Commissioner's findings are in accordance with the evidence and that such recommendations are reasonable and should be adopted.

Now, therefore, it is ordered, as follows:

(1) Respondents Leonard Schmerer, Leonard Schmerer & Co., Sherman International, Ltd., Julia Considine, and Simon Kaplan, and each and all of them, are hereby denied and declared ineligible to exercise the privileges of exporting, receiving, or otherwise participating directly or indirectly in any exportation of any commodity from the United States to any foreign destination, including Canada. Without limitation of the generality of the foregoing, participation in an exportation is deemed to include any action by the named respondents, or any of them, directly or indirectly, in any manner or capacity, (a) in the obtaining or using of export licenses, including general as well as validated export licenses and any export control documents relating thereto; (b) as a party or a representative of a party to any export license application; (c) in any exportation from the United States to Canada or to any other foreign destination; (d) in the financing, forwarding, transporting or other servicing of exports from the United States; and (e) in the receiving in any foreign country of any exportation from the United States.

(2) Such denial of export privileges shall extend not only to the named respondents, and each of them, but also to any person, firm, corporation or other business organization with which said respondents or any of them may be now or hereafter related by ownership, control, position of responsibility, or other connection in the conduct of trade involving exports from the United States.

(3) This order shall be effective from the date of issuance and shall extend with respect to Leonard Schmerer, Leonard Schmerer & Co., and Sherman International, Ltd., until December 13, 1954, or until the expiration of export controls, whichever occurs first, and shall extend until November 13, 1952, with respect to Julia Considine and Simon Kaplan.

(4) No person, firm, corporation, or other business organization shall knowingly apply for or obtain any license, shipper's export declaration, bill of lading, or other export control document relating to any exportation from the United States under validated and general licenses, or otherwise, to or for the named respondents or any of them, or any person, firm, corporation, or other business organization covered by paragraph (2) above, without prior disclosure of such facts to, and specific authorization, from, the Office of International Trade.

Dated: September 19, 1952.

JOHN C. BORTON,
Assistant Director for Export Supply.

FEDERAL POWER COMMISSION

[Docket No. E-6457]

MONTANA-DAKOTA UTILITIES CO.

NOTICE OF APPLICATION

SEPTEMBER 18, 1952.

Take notice that on September 17, 1952, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by Montana-Dakota Utilities Co., a corporation organized under the laws of the State of Delaware and doing business in the States of Minnesota, Montana, North Dakota, South Dakota, and Wyoming, with its principal business office at Minneapolis, Minnesota, seeking an order authorizing the issuance of $4,000,000 Promissory Notes to be issued to The National City Bank of New York, dated as of the dates of their respective issue, to be due not more than one year after the dates of their respective issue, bearing interest at the commercial bank rate in effect at the dates of their respective issue. The Northwestern National Bank of Minneapolis will have a 25 percent participation in each note and the First National Bank of Minneapolis will have a 15 percent participation in each note; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 8th day of October 1952, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

GENERAL SERVICES ADMINISTRATION

GROUND STEATITE TALC HELD IN NATIONAL STOCK PILE

DISPOSITION

Pursuant to the provisions of section 3 (e) of the Strategic and Critical Materials Stock Piling Act, 60 Stat. 596, 50 U. S. C. 98b (e), notice is hereby given of a proposed disposition of approximately 20,000 pounds of ground steatite talc now held in the National Stock Pile. The material to be disposed of is no longer needed in the Stock Pile because of a revised determination by the Munitions Board made on August 12, 1952, that this particular lot of ground steatite talc is no longer strategic and critical material within the purview of the above act.

The revised determination of the Munitions Board was made because of obsolescence of the material for use in time of war. As a result of contamination with bits of rotten bagging and other extraneous matter, the talc to be disposed of can no longer be processed into electronic insulators. The material was part of a larger quantity of ground steatite talc transferred to the National Stock Pile as Government-owned excess property at the close of World War II after a period of storage during which the burlap bag containers rotted and became incapable of withstanding normal handling. The greater portion of the material was successfully moved to the permanent storage location, but the portion to be disposed of, as a result of its deterioration, is no longer suitable for stock piling.

To avoid continuing storage costs and to obtain the greatest benefit to the Government from property no longer needed in the National Stock Pile, it is proposed to release the material for use by the Emergency Procurement Service, General Services Administration, in dusting bales of stock-piled rubber to prevent adhesion. The material will be made available for such use after May 1, 1953. Since the material is to be consumed by the Emergency Procurement Service, no disruption of the market for talc can result from this action.

Dated: September 22, 1952.

RUSSELL FORBES,
Acting Administrator.

DEPARTMENT OF JUSTICE

Office of Alien Property

[Vesting Order 19016]

GEBR. HOESCH ET AL.

In re: Debts owing to Gebr. Hoesch and others. F-28-31616.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That the individuals whose names and addresses are set forth as owners in Exhibit A, attached hereto and by reference made a part hereof, on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany and are, and prior to January 1, 1947 were, nationals of a designated enemy country (Germany);

2. That the enterprises whose names are set forth as owners in the aforesaid Exhibit A are corporations, partnerships, associations or other business organizations which on or since December 11, 1941, and prior to January 1, 1947, were organized under the laws of and had their principal places of business in Germany, and are and prior to January 1, 1947, were nationals of a designated enemy country (Germany);

3. That the enterprises whose names and last known addresses are listed below:

Names and Addresses

Spar & Gewerbebank, e. G. m. b. H., Gemuend, Eifel, Germany;
Geschaeftsstelle des Altkatholischen Volksblattes, Bonn, Germany;
Verlag Stahleisen m. b. H., Duesseldorf, Germany;
Kloeckner & Co., Duisburg, Germany;

are corporations, partnerships, associations or other business organizations which on or since December 11, 1941, and prior to January 1, 1947, were organized under the laws of and had their principal places of business in Germany, and are and prior to January 1, 1947, were nationals of a designated enemy country (Germany);

4. That the persons whose names and last known addresses are listed below:

Names and Addresses

August Budde, Remscheid, Germany;
Wilhelf Auler, Solingen, Germany;
Adolf Heiderhoff, Wuppertal-Elberfeld, Germany;
Heinrich Kissing, Menden, Germany;

on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany and are, and prior to January 1, 1947, were, nationals of a designated enemy country (Germany);

5. That Anna Taggesell, who there is reasonable cause to believe on or since December 11, 1941, and prior to January 1, 1947, was a resident of Germany, is and prior to January 1, 1947, was, a national of a designated enemy country (Germany);

6. That the personal representatives, heirs, next of kin, legatees and distributees of William John Sander, deceased, who there is reasonable cause to believe on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany, are and prior to January 1, 1947, were, nationals of a designated enemy country (Germany);

7. That the persons who own the property described in subparagraphs 8 (l), (m) and (n) hereof, who, if individuals there is reasonable cause to believe on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany, and which, if corporations, partnerships, associations or other business organizations there is reasonable cause to believe on or since December 11, 1941, and prior to January 1, 1947, were organized under the laws of and had their principal places of business in Germany are, and prior to January 1, 1947, were, nationals of a designated enemy country (Germany);

8. That the property described as follows:

a. Those certain debts or other obligations evidenced by the checks described in Exhibit A, attached hereto and by reference made a part hereof, said checks owned by the persons identified therein as owners, together with any and all rights to demand, enforce and collect the aforesaid debts or other obligations, and any and all rights in, to and under said checks,

b. That certain debt or other obligation evidenced by one (1) American Express Money Order numbered BC 8115004, in the amount of $3.00, said Money Order owned by Spar & Gewerbebank, e. G. m. b. H., together with any and all rights to demand, enforce, and collect the aforesaid debt or other obligation, and any and all rights in, to and under said Money Order,

c. That certain debt or other obligation evidenced by one (1) American Express Money Order numbered AK 6145430, in the amount of $1.00, dated March 30, 1940, payable to Altkatholisches Volksblatt, and owned by Geschaeftsstelle des Altkatholischen Volksblattes, together with any and all rights to demand, enforce, and collect the aforesaid debt or other obligation, and any and all rights in, to and under said Money Order,

d. That certain debt or other obligation evidenced by one (1) American Express Money Order numbered AJ 8400788, in the amount of $11.00, dated January 30, 1940, payable to and owned by Verlag Stahleisen m. b. H., together with any and all rights to demand, enforce and collect the aforesaid debt or other obligation, and any and all rights in, to and under said Money Order,

e. That certain debt or other obligation evidenced by one (1) Bill of Exchange dated August 14, 1939, in the amount of $2,991.49, payable to and owned by Kloeckner & Co., together with any and all accruals to the aforesaid debt or other obligation, and any and all rights to demand, enforce and collect the same, and any and all rights in, to and under said Bill of Exchange,

f. Those certain debts or other obligations evidenced by three (3) the National City Bank of New York Traveler's Checks, said Checks numbered A 7-080-077 in the amount of $10.00, and B 4-865-593/4 in the amount of $20.00 each, owned by August Budde, together with any and all rights to demand, enforce and collect the aforesaid debts or other obligations, and any and all rights in, to and under said Traveler's Checks,

g. That certain debt or other obligation evidenced by one (1) Sola Bill of Exchange numbered 5584, in the amount of $10.00, dated July 27, 1940, drawn on the Yokohoma Specie Bank, Limited, New York, and owned by Wilhelm Auler, together with any and all accruals to the aforesaid debt or other obligation, and any and all rights to demand, enforce and collect the same, and any and all rights in, to and under said Sola Bill of Exchange,

h. That certain debt or other obligation evidenced by one (1) American Express Company Money Order numbered AF 7442866, in the amount of $10.00, dated September 22, 1938, owned by Adolf Heiderhoff, together with any and all rights to demand, enforce and collect the aforesaid debt or other obligation, and any and all rights in, to and under said Money Order,

i. Those certain debts or other obligations evidenced by four (4) American Express Company United States Dollar Traveler's Cheques numbered P 8,625,-392/5, in the amount of $50.00 each, owned by Anna Taggesell, together with any and all rights to demand, enforce and collect the aforesaid debts or other obligations, and any and all rights in, to and under said Traveler's Cheques,

j. Those certain debts or other obligations evidenced by four (4) Promissory Notes, in the amounts listed below, dated and due on the dates listed opposite each such amount:

Amounts	Dated	Date due
$141.71	Apr. 7, 1939	Apr. 7, 1942
141.71	....do....	Apr. 7, 1943
141.71	....do....	Apr. 7, 1944
141.71	....do....	Apr. 7, 1945

said Promissory Notes payable to and owned by Heinrich Kissing, together with any and all accruals to the aforesaid debts or other obligations, and any and all rights to demand, enforce and collect the same, and any and all rights in, to and under said Promissory Notes,

k. Those certain debts or other obligations evidenced by ten (10) American Express Company United States Dollar Traveler's Cheques numbered U 2,704,-976/85, in the amount of $10.00 each, owned by the personal representatives, heirs, next of kin, legatees and distributees of William John Sander, deceased, together with any and all rights to demand, enforce and collect the aforesaid debts or other obligations, and any and all rights in, to and under said Traveler's Cheques,

l. That certain debt or other obligation evidenced by one (1) Treasurer's Voucher numbered E 357571, in the amount of $92.80, dated March 1, 1941, drawn by the Equitable Life Assurance Society of the United States on the Chase National Bank of the City of New York, Pennsylvania Branch, owned by the persons referred to in subparagraph 7 hereof, together with any and all rights to demand, enforce and collect the same, and any and all rights in, to and under said Treasurer's Voucher,

m. Those certain debts or other obligations evidenced by two (2) Vouchers numbered E2 20710 in the amount of $95.64, and E2 143195 in the amount of $92.80, said Vouchers dated March 1, 1940, and December 1, 1940, respectively, drawn by the Equitable Life Assurance Society of the United States on the Guaranty Trust Company of New York, and owned by the persons referred to in subparagraph 7 hereof, together with any and all rights to demand, enforce and collect the same, and any and all rights in, to and under said Vouchers, and

n. That certain debt or other obligation evidenced by one (1) Check numbered 71 925, in the amount of $10.40,

dated November 9, 1940, drawn by the Treasurer of the United States, payable to Walter Schmits, and owned by the persons referred to in subparagraph 7 hereof, together with any and all rights to demand, enforce and collect the same, and any and all rights in, to and under said Check,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

9. That the national interest of the United States requires that the persons referred to in subparagraphs 1, 2, 6 and 7, and named in subparagraphs 3, 4 and 5 hereof, be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 17, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS,
Assistant Attorney General, Director, Office of Alien Property.

[Vesting Order 19018]

NORBERT BLOCH

In re: Bank account owned by the personal representatives, heirs, next of kin, legatees and distributees of Norbert Bloch, deceased. F-28-31982-E-1.

Under the authority of the Trading With the Enemy Act, as amended, (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Congress, 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That the personal representatives, heirs, next of kin, legatees and distributees of Norbert Bloch, deceased, who there is reasonable cause to believe, on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany and are, and prior to January 1, 1947, were, nationals of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation of Bank of the Manhattan Company, 40 Wall Street, New York 15, New York, arising out of a checking account entitled Norbert Bloch, maintained with the aforesaid Bank, and any and all rights to demand, enforce and collect the same,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by the persons referred to in subparagraph 1 hereof, the aforesaid nations of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the persons referred to in subparagraph 1 hereof, be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 22, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 19019]

HERMANN AND EMILIE FREYTAG

In re: Coupon owned by Hermann Freytag and Emilie Freytag.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Congress, 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Hermann Freytag and Emilie Freytag, each of whose last known address is Westfalen, Germany, on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany and are, and prior to January 1, 1947, were, nationals of a designated enemy country (Germany);

2. That the property described as follows: One (1) coupon detached from State of Rio Grande Do Sul Consolidated Municipal 40-year 7 Percent Sinking Fund Bond numbered M663, said coupon numbered 27, due December 1, 1940, and presently in the custody of the Federal Reserve Bank of New York, together with any and all rights thereunder and thereto,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Hermann Freytag and Emilie Freytag, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the persons identified in subparagraph 1 hereof, be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 22, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS,
Assistant Attorney General,
Director, Office of Alien Property.

[F. R. Doc. 52-10420; Filed, Sept. 24, 1952; 8:47 a. m.]

[Vesting Order 15603, Amdt.]

GEORGE A. SCHLUETER

In re: Stock owned by George A. Schlueter.

Vesting Order 15603, dated November 9, 1950, is hereby amended as follows and not otherwise:

By deleting from subparagraph 2 (b) of Vesting Order 15603 the phrase "evidenced by certificates numbered 010930 for fifteen (15) shares and 06701 for five (5) shares," and substituting therefor the phrase "evidenced by a certificate numbered CM 0183."

All other provisions of said Vesting Order 15603 and all actions taken by or on behalf of the Attorney General of the United States in reliance thereon, pursuant thereto and under the authority thereof are hereby ratified and confirmed.

Executed at Washington, D. C., on September 22, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS,
Assistant Attorney General,
Director, Office of Alien Property.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-941]

BREWING CORP. OF AMERICA

ORDER SETTING HEARING ON APPLICATION TO STRIKE FROM LISTING AND REGISTRATION

SEPTEMBER 19, 1952.

The New York Stock Exchange, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to strike from listing and registration the Capital Stock, $15 Par Value, of Brewing Corporation of America.

The Commission issued a notice of the filing of the above application and of the opportunity for any interested person to request a hearing in regard to the terms to be imposed upon the delisting of this security. This notice stated that the reason set forth in the above application for striking this security from listing and registration on this exchange is that the amount outstanding in the hands of the public has been reduced to approximately 5,000 shares, which is an amount that is too small for the security to be suitable for trading on the applicant exchange.

Holders of the above security having filed with the Commission a request for a hearing on the above matter; and the Commission deeming it necessary for the protection of investors that a hearing be held in this matter at which all interested persons be given an opportunity to be heard;

It is ordered, That the matter be set down for hearing at 11:00 a. m. on Wednesday, October 8, 1952, at the New York Regional Office of the Commission at 42 Broadway, New York, New York, and continue thereafter at such times and places as the Commission or its officer herein designated shall determine, and that general notice thereof be given; and

It is further ordered, That Edward C. Johnson, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 52-10399; Filed, Sept. 24, 1952; 8:45 a. m.]

[File Nos. 54-201, 59-6]

UNITED GAS IMPROVEMENT CO. ET AL.

ORDER APPROVING PLAN

SEPTEMBER 18, 1952.

In the matter of the United Gas Improvement Company, File No. 54-201; The United Gas Improvement Company and Subsidiary Companies, respondents, File No. 59-6.

The United Gas Improvement Company ("UGI"), a registered holding company, having filed a plan, together with an amendment thereto (the "Plan"), pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 (the "act"), providing, among other things, for the merger of UGI and its various subsidiary companies, and for other transactions and steps as more fully set forth in said Plan;

The Commission having given public notice with respect to the filing of said Plan and with respect to holding of a hearing thereon, which notice was given by notice and order dated January 22, 1952 (Holding Company Act Release No. 11015), and public hearings having been held after such notice, at which hearings all interested persons were afforded an opportunity to be heard;

UGI having requested the Commission to enter an order finding that the Plan is necessary to effectuate the provisions of section 11 (b) of the act and is fair and equitable to the persons affected thereby;

UGI having further requested the Commission, pursuant to section 11 (e) of the act, to apply to an appropriate court, in accordance with the provisions of section 18 (f) of the act, to enforce and carry out the terms and provisions of Part 2 of the Plan;

The Commission having previously, by order entered June 15, 1951 (Holding Company Act Release No. 10624) directed that UGI dispose of its direct and indirect ownership, control and holdings of certain securities therein named, including securities of Delaware Coach Company, and UGI having requested that the time for compliance with such order be extended for one year from June 15, 1952, and that such order be modified by eliminating therefrom the requirement for disposition by UGI of its securities of Delaware Coach Company (being a note in the amount of $916,666.67), so as to permit the retention of such note and the liquidation therof in accordance with its terms;

UGI having requested that the Commission, upon approving the Plan, find that UGI shall have ceased to be a holding company, and that an order be entered under section 5 (d) of the act so declaring, and finding that UGI's registration under the act shall cease to be in effect; and

UGI having proposed, in connection with such Plan, to acquire 1,459 shares of the capital stock of Consumers Gas Company from Drexel & Co., financial advisers to UGI, at the price of $20.25 per share, being the cost of such shares to Drexel & Co., and such acquisition appearing to meet the standards of the act.

The Commission being duly advised and having this day issued its findings and opinion, and on the basis of such findings and opinion and pursuant to the applicable provisions of the act and the rules and regulations thereunder:

It is ordered, That the Plan of UGI be, and it is hereby approved, subject to the terms and conditions in Rule U-24 of the general rules and regulations promulgated under the act, and subject to the following additional terms and conditions:

1. The order entered herein shall not be operative to authorize the consummation of the transactions proposed in Part 2 of the Plan until a court of competent jurisdiction shall, upon application thereto, enter an order enforcing Part 2 of the Plan;

2. Jurisdiction be and it is hereby specifically reserved as to the following matters:

(a) To approve, determine, award, allow or allocate any fees, expenses and remunerations in connection with the Plan, and to pass upon the reasonableness thereof;

(b) To take such further action as the Commission may deem appropriate to effectuate the provisions of the Plan concerning efforts of the company to locate persons entitled to securities or cash by reason of their holdings of the securities of UGI and its subsidiaries;

(c) To entertain such further proceedings, to make such supplemental findings, to enter such further orders, and to take such further action as the Commission may deem appropriate in connection with the Plan, as amended, the transactions incident thereto, and the consummation thereof; and

(d) To consider whether, after all of the transactions provided in Parts 1, 2 and 3 of the Plan shall have been consummated, and UGI shall have renewed its request, an order should be entered under section 5 (d) of the act, and whether such order should be subject to any terms and conditions as necessary for the protection of investors.

It is further ordered, That the Commission's order entered June 15, 1951, be, and hereby is, amended to eliminate the requirement that UGI dispose of its holdings of securities of Delaware Coach Company, and that an extension of time be and is hereby granted until June 15, 1953, for compliance with the remaining provisions of such order.

It is further ordered and recited, That all transactions proposed in the aforesaid Plan to be effected by UGI, Allentown-Bethlehem Gas Company ("Allentown"), Consumers Gas Company ("Consumers"), The Harrisburg Gas Company ("Harrisburg"), Lancaster County Gas Company ("Lancaster"), Lebanon Valley Gas Company ("Lebanon"), Luzerne County Gas and Electric Corporation ("Luzerne"), and The Philadelphia Gas Works Company ("PGW"), or any of them, or by the holders of securities heretofore or hereafter issued or assumed by any of them, including particularly the exchanges, redemptions, issuances, transfers, acquisitions, expenditures, distributions, conveyances, dispositions and sales hereinafter itemized, specified, described, and recited are authorized, approved, and required; that said transactions are necessary or appropriate to the integration or simplification of the holding company system of which said corporations are members and are necessary or appropriate to effectuate the provisions of subsection (b) of section 11 of the Public Utility Holding Company Act of 1935; that said transactions or any of them may be effected through and deliveries may be made to or through trustees, exchange agents, or otherwise, and or the stocks, securities and cash, and other property may be delivered direct to those ultimately entitled thereto, all in any manner consistent with the court order enforcing the Plan and within the time limits specified in the Plan or in said court order; and that this order is issued under the authority of subsection (e) of section 11 of the Public Utility Holding Company Act of 1935 to effectuate the provisions of subsection (b) of section 11 of said act:

1. The resumption by UGI, as agent of Northern Liberties Gas Company, of the conduct of the latter's business and the operation of its gas properties under the July 2, 1900, agreement between UGI and Northern Liberties Gas Company; such resumption to be accomplished by UGI and PGW terminating the existing agreement between them dated May 14, 1937, pursuant to which PGW was substituted for UGI as agent to operate such properties and to supply and distribute gas in that portion of the City of Philadelphia, formerly known as District of Northern Liberties.

2. The merger into UGI of Allentown, Consumers, Harrisburg, Lancaster, Lebanon, Luzerne, and PGW, with UGI remaining as the surviving and continuing corporation, all as more particularly provided and set forth in the proposed Agreement of Merger (which is Exhibit A to the Plan), which Agreement of Merger is incorporated herein by reference, and, in connection therewith, the transfer to and vesting in UGI, as such surviving and continuing corporation, of all the rights, privileges and franchises theretofore vested in each of said constituent subsidiary corporations and all the estate and property, real and personal, and rights of action of each of said corporations, including the transfer to and acquisition by UGI of the securities owned by said corporations, which at present are as follows:

Owned by	Name of Security	Shares [illegible]
Consumers Gas Co.	Reading Gas Co. capital stock	3,0[illegible] shares.
Do.	U. S. Treasury 2½ percent bonds due June 15, 1959-62	$1[illegible]
Do.	Berks County Trust Co. capital stock	1,[illegible] shares.
The Philadelphia Gas Works Co.	U. S. Treasury certificates of indebtedness, 1¼ percent Series "A" due Feb. 15, 1953.	$[illegible],000.

3. The execution, delivery and recording by UGI and Fidelity-Philadelphia Trust Company, Trustee, of a UGI First Mortgage and Deed of Trust dated as of the effective date of the merger substantially in the form set forth as Exhibit B to said Plan, which Mortgage and Deed of Trust is incorporated herein by reference.

4. The surrender by the holders of all First Mortgage Bonds issued respectively by Allentown, Harrisburg and Luzerne and presently outstanding in the aggregate amount of $15,648,000 in the following respective amounts and series:

Company	Principal amount	Series
Allentown-Bethlehem Gas Co	$2,172,000	3¾ percent (now 3 percent) series due 1965.
Do	1,455,000	2¾ percent series due 1968.
Do	1,500,000	3.348 percent series due 1976.
The Harrisburg Gas Co	2,002,000	2⅞ percent series due 1971.
Do	970,000	3⅛ percent series due 1971.
Do	1,000,000	3.15 percent series due 1976.
Luzerne County Gas & Electric Corp	6,549,000	3½ percent series due 1966.

to UGI in exchange for a like principal amount of First Mortgage Bonds issued by UGI of a series corresponding to the series surrendered, together with accrued interest, if any, on their Bonds up to the effective date of the merger, the acquisition and cancellation by UGI of the said First Mortgage Bonds issued respectively by Allentown, Harrisburg and Luzerne, the issuance and delivery of its First Mortgage Bonds and cash for accrued interest by UGI to such holders and the acquisition thereof by such holders in such exchange.

5. The satisfaction, cancellation, release and discharge by the respective trustees thereof of the various indentures of mortgage and the supplements thereto of Allentown, Harrisburg and Luzerne securing, respectively, the aforesaid outstanding bonds issued by said companies; the surrender by such trustees of the securities and/or cash, if any, held by them under the provisions of such indentures and supplements; the acquisition of such securities and/or cash by UGI, and the cancellation of such securities by UGI.

6. The surrender by the holders thereof to Harrisburg for the redemption price thereof ($110 per share plus an amount equal to accrued and unpaid dividends thereon to the redemption date) and the redemption, acquisition and cancellation by Harrisburg of 4 838 shares of the 4½ percent Preferred Stock of Harrisburg.

7. The surrender by the holders thereof to UGI of 25,000 shares of the 4¼ percent Preferred Stock of Luzerne in exchange for one share of the 4¼ percent Preferred Stock of UGI, plus accrued and unpaid dividends on their Luzerne 4¼ percent Preferred Stock up to the effective date of the merger, for each share of the Luzerne 4¼ percent Preferred Stock so surrendered, the acquisition and cancellation by UGI of said Luzerne's 4¼ percent Preferred Stock, the issuance and delivery by UGI of its 4¼ percent Preferred Stock and cash for such dividends to such holders and the acquisition thereof by such holders in such exchange.

8. The surrender by the holders thereof to UGI of their certificates of UGI Capital Stock in exchange for certificates representing a like number of shares of UGI Common Stock, the acquisition and cancellation by UGI of such certificates of UGI's Capital Stock, the issuance and delivery by UGI of certificates for such UGI Common Stock to such holders and the acquisition thereof by such holders in such exchange.

9. The cancellation by UGI of the following securities now owned by it:

Name of issuing company	Security	Shares
Allentown-Bethlehem Gas Co.	Common capital stock	132,375
Consumers Gas Co.	Capital stock	110,085
The Harrisburg Gas Co.	Common stock	29,225
Lancaster County Gas Co.	Capital stock	50,000
Lebanon Valley Gas Co.	Common stock	19,800
Luzerne County Gas & Electric Corp.	do.	176,694
The Philadelphia Gas Works Co.	Capital stock	50

10. The surrender by the holders thereof to UGI of the 80,787 shares of Consumers Capital Stock, not owned by UGI, in exchange for 8/10ths of a share of UGI Common Stock (and/or cash for fractional interests of less than one share) for each share of Consumers Capital Stock so surrendered, the acquisition and cancellation by UGI of such Consumers Capital Stock, the issuance and delivery of such UGI Common Stock and/or cash to such holders and the acquisition thereof by such holders in such exchange.

11. The surrender by the holders thereof to UGI of the 12,208 shares of Harrisburg Common Stock, not owned by UGI, in exchange for four shares of UGI Common Stock for each share of Harrisburg Common Stock so surrendered, the acquisition and cancellation by UGI of such Harrisburg Common Stock, the issuance and delivery of such UGI Common Stock to such holders and the acquisition thereof by such holders in such exchange.

12. The cancellation by UGI and its utility subsidiaries of all intercompany indebtedness owing by such subsidiaries to UGI; presently as follows:

Name of debtor subsidiary	Debt represented by—	Amount of debt
Allentown-Bethlehem Gas Co.	Open book account	----
Consumers Gas Co.	4 percent promissory note	$875,000
Do.	Open book account	1,455,000
The Harrisburg Gas Co.	do	1,270,000
Lancaster County Gas Co.	do	1,050,000
The Philadelphia Gas Works Co.	do	3,000,000

13. The cancellation by UGI of all its First Mortgage Bonds and of all shares of its 4¼ percent Preferred Stock and Common Stock reserved, respectively, for issuance on surrender by the holders thereof of the First Mortgage Bonds (referred to in 4 above), the 4¼ percent Preferred Stock of Luzerne (referred to in 7 above), the Capital Stock of Consumers and the Common Stock of Harrisburg (referred to in 10 and 11 above, respectively), which shall not have been surrendered in exchange therefor within the time limits specified in the Plan or in the court order enforcing the Plan; and the retention by UGI of the cash remaining in its hands reserved for payment on surrender by the holders of First Mortgage Bonds of subsidiary companies, of Luzerne's 4¼ precent Preferred Stock, and of Consumers Capital Stock and the Harrisburg Common Stock which shall not have been surrendered in exchange therefor within the time limits specified in the Plan or in the court order enforcing the Plan.

14. The disposition by sale or otherwise by UGI of the following securities which it owns:

Name of company	Security	Shares
Central Illinois Light Co.	Common stock	35,340
Consumers Power Co.	do	63,612
Delaware Power & Light Co.	do	37,355
Niagara Mohawk Power Corp.	do	159,500
Philadelphia Electric Co.	do	16,543
Public Service Electric & Gas Co.	Preference common	36,801
Do.	Common stock	4,861

It is further ordered, That the proposed acquisition by UGI of 1,459 shares of the capital stock of Consumers Gas Company from Drexel & Co., be, and hereby is, approved.

By the Commission.

[File No. 70-2920]

ARKANSAS POWER & LIGHT CO.

ORDER CONCERNING ACQUISITION OF UTILITY ASSETS

SEPTEMBER 18, 1952.

Arkansas Power & Light Company ("Arkansas"), an electric utility subsidiary of Middle South Utilities, Inc., a registered holding company, having filed an application and an amendment thereto pursuant to the Public Utility Holding Company Act of 1935, particularly sections 9 and 10 thereof with respect to the following proposed transactions:

Arkansas proposes to acquire all of the outstanding stock of Swifton Power & Light Company ("Swifton") for a cash consideration of $65,000. Upon acquiring such stock, Arkansas proposes to surrender the stock of Swifton, liquidate that company and transfer its assets to Arkansas. All of the outstanding 360 shares of the capital stock of Swifton are owned by Graham Brothers Company, a non-affiliated Arkansas corporation.

Swifton operates an electric distribution system in the town of Swifton, Arkansas. It is presently interconnected with Arkansas, which services adjacent territory, and purchases all of its electric power requirements from Arkansas. For the year ended March 1952, Swifton's kilowatt-hour sales were: Residential, 152,464; commercial, 177,694. The net plant of Swifton is stated at $27,131. The total operating revenues of Swifton for the twelve months ended May 31, 1952, were $14,429 and its net profit $2,201.

The proposed transactions have been approved by the Arkansas Public Service Commission, and that Commission has directed Arkansas to eliminate the newly created Electric Plant Acquisition Adjustments (Account 100.5) in the amount of $39,911.86 by a charge to Earned Surplus.

The application states that upon consummation of the transactions, the operations of Swifton's facilities will be fully integrated with those of Arkansas and by reason of application of Arkansas' rate schedule will result in over-all savings of approximately 9 percent to the customers of Swifton.

Said application having been filed on August 21, 1952, an amendment thereto having been filed on September 4, 1952, notice of said filing having been given in the form and manner required by Rule U-23 promulgated pursuant to said act, the Commission not having received a request for hearing within the time specified in said notice, or otherwise, and the Commission not having ordered a hearing thereon; and

The Commission finding that the proposed transactions have been specifically approved by the Arkansas Public Service Commission, the State Commission of the State in which Arkansas was organized and is doing business, the Commission also finding that the proposed acquisition of properties has the appropriate tendencies under section 10 of the act and that no adverse findings are necessary thereunder:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act and subject to the terms and conditions contained in Rule U-24, that the said application, as amended, be, and the same hereby is, granted, effective forthwith.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2921]

CENTRAL MAINE POWER CO.

ORDER AUTHORIZING ISSUANCE AND SALE OF SHORT-TERM NOTES

SEPTEMBER 19, 1952.

Central Maine Power Company ("Central Maine"), a public utility subsidiary

of New England Public Service Company, a registered holding company, having filed an application with this Commission, pursuant to the first sentence of section 6 (b) of the Public Utility Holding Company Act of 1935 ("act"), with respect to the following transactions:

Central Maine proposes to issue and renew from time to time, up to and including March 1, 1953, notes having a maturity of three months or less up to the maximum amount of $11,000,000 at any one time outstanding (including the renewal of notes outstanding at the date of authorization). Each such note, including the renewal notes, will be made payable to the First National Bank of Boston and will bear interest at the rate of 3 percent per annum, subject to change in interest rates for prime paper. It is stated that the interest rate for prime paper is presently 3 percent per annum. In case the interest rate should exceed 3¼ percent per annum on any note, the company will file an amendment to its application stating the rate of interest and other details of the note or notes at least five days prior to the execution and delivery thereof, and asks that such amendment become effective without further order of the Commission at the end of the five day period unless the Commission shall have notified the company to the contrary within said period.

The proceeds from the sales of the notes will be used to finance the company's construction program. The application states that the company intends, soon after March 1, 1953, to issue and sell approximately $6,000,000 of First and General Mortgage Bonds and sufficient Common Stock to yield approximately $5,000,000 to refund the then outstanding short-term notes. However, it is stated that market conditions may require some variation of this financing.

It is represented that no regulatory authority, other than this Commission, has jurisdiction over the proposed transactions, and that legal fees and expenses in connection with the proposed transactions will aggregate approximately $125. The applicant requests that the Commission's order herein become effective upon its issuance.

Due notice having been given of the filing of the application, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said application be granted, effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application be, and it hereby is, granted, effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 52-10401; Filed, Sept. 24, 1952; 8:46 a. m.]

[File No. 70-2023]

LOWELL ELECTRIC LIGHT CORP.

ORDER AUTHORIZING PROPOSED NOTE ISSUES

SEPTEMBER 19, 1952.

The Lowell Electric Light Corporation ("Lowell"), a public-utility subsidiary company of New England Electric System, a registered holding company, having filed with this Commission a declaration, pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 and Rules U-23 and U-42 (b) (2) thereunder with respect to the following proposed transactions:

The declaration states that Lowell presently has outstanding $2,700,000 principal amount of promissory notes, due October 1, 1952, issued pursuant to a bank loan agreement with five banks, namely, The First National Bank of Boston ($1,485,000), The Chase National Bank of the City of New York $351,000), The Hanover Bank ($351,000), Irving Trust Company ($351,000) and The New York Trust Company ($162,000). Lowell proposes to issue to these banks, from time to time but not later than December 31, 1952, additional unsecured six months promissory notes in an aggregate principal amount not in excess of $3,100,000. Lowell further proposes that the principal amount of all of its unsecured promissory notes outstanding at any one time prior to December 31, 1952, will not exceed $3,100,000.

Each of the proposed notes will bear interest at the prime rate of interest at the time of the issuance thereof. It is stated that said interest rate for such notes at the present time is 3 percent per annum. In the event that such interest rate is in excess of 3¼ percent per annum at the time any of said additional promissory notes are to be issued, Lowell will file an amendment to its declaration setting forth therein the name of the bank or banks, the terms of the note or notes and the rate of interest at least five days prior to the issuance of said note or notes. Lowell requests that such amendment become effective at the end of such period unless the Commission notifies it to the contrary within said period.

Lowell will use $2,700,000 of the proceeds derived from the proposed issuance of additional promissory notes to pay the outstanding promissory notes maturing October 1, 1952, and will use the remainder of such proceeds to pay for construction cost incurred or to be incurred. Lowell estimates that its construction expenditures for the period July 1, 1952, to December 31, 1952, will aggregate $620,500. Lowell proposes that if any permanent financing is done, the proceeds therefrom will be applied in reduction of, or in total payment of, promissory notes then outstanding, and the amount of authorized but unissued notes, if any, will be reduced by the amount, if any, by which such permanent financing exceeds the notes at the time outstanding.

The declaration states that incidental services in connection with the proposed note issues will be performed, at cost, by New England Power Service Company, an affiliated service company, such cost being estimated not to exceed $900. The declaration further states that no State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Lowell requests that the Commission's order herein become effective forthwith upon issuance.

Notice of the filing of the declaration having been given in the manner and form provided by Rule U-23 of the rules and regulations promulgated under the act, and a hearing not having been requested or ordered by the Commission within the time specified in said notice; and the Commission finding that the applicable provisions of the act and the rules and regulations promulgated thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration be, and hereby is, permitted to become effective, subject to the terms and conditions prescribed in Rule U-24, and that this order shall become effective upon its issuance.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27410]

ASPHALT FILLER FROM CHATSWORTH, GA., TO NEVILLE ISLAND, PA.

APPLICATION FOR RELIEF

SEPTEMBER 19, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Agent C. A. Spaninger's tariffs I. C. C. Nos. 1193 and 1324.

Commodities involved: Asphalt filler, consisting of pulverized soapstone or pulverized talc tailings, carloads.

From: Chatsworth, Ga.

To: Neville Island, Pa.

Grounds for relief: Rail competition, circuity, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1193, Supp. 71; C. A. Spaninger, Agent, I. C. C. No. 1324, Supp. 1.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the

Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD, *Acting Secretary.*

[4th Sec. Application 27411]

ASPHALT FROM ARKANSAS, LOUISIANA, AND TEXAS TO LOUISVILLE, KY., AND NEW ALBANY, IND.

APPLICATION FOR RELIEF

SEPTEMBER 19, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to his tariff I. C. C. No. 3725.

Commodities involved: Asphalt (asphaltum) and petroleum road oil, carloads.

From: Points in Arkansas, Louisiana, and Texas.

To: Louisville, Ky., and New Albany, Ind.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3725, Supp. 61.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 27412]

ANHYDROUS AMMONIA FROM HOUSTON, TEX., TO CINCINNATI, OHIO

APPLICATION FOR RELIEF

SEPTEMBER 19, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to his tariff I. C. C. No. 3746.

Commodities involved: Anhydrous ammonia, in tank-car loads.

From: Houston, Tex.

To: Cincinnati, Ohio.

Grounds for relief: Rail competition, circuitous routes, market competition, and operation through higher-rated territory.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3746, Supp. 95.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission, in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

TITLE 6—AGRICULTURAL CREDIT

Chapter III—Farmers Home Administration, Department of Agriculture

Subchapter D—Water Facilities Loans

[FHA Instruction 442.2]

PART 352—POLICIES

Part 352, Title 6, Code of Federal Regulations (13 F. R. 9426, 14 F. R. 3883, 16 F. R. 1180) is revised to read as follows:

Sec.
352.1 General.
352.2 Basic objective.
352.3 Area planning.
352.4 Types of assistance.
352.5 Purposes.
352.6 Loan terms.
352.7 Loan limit.
352.8 Eligibility.
352.9 Planning.
352.10 Water rights.
352.11 Tenure.
352.12 Security.
352.13 Insurance.
352.14 Subsequent loans.

AUTHORITY: §§ 352.1 to 352.14 issued under sec. 6 (3), 50 Stat. 870; 16 U. S. C. 590w (3). Interpret or apply secs. 2 (3), 5, 50 Stat. 869, 870; 16 U. S. C. 590s (3), 590v. Other statutory provisions interpreted or applied are cited to text in parentheses.

§ 352.1 *General.* Sections 352.1 to 352.14 set forth the basic policies for extending technical and financial assistance to individual farmers; to incorporated mutual water companies and water users associations; and to irrigation districts, and other improvement organizations of a public or quasi-public nature, (all incorporated applicants being hereinafter referred to as "associations"), in the arid and semiarid areas of the United

States for farmstead and irrigation water facilities under the Water Facilities Program administered pursuant to 50 Stat. 869, as amended, hereinafter referred to as the Water Facilities Act. As used herein, the arid and semiarid areas of the United States include the 17 Western States; namely, Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, and Wyoming.

§ 352.2 *Basic objective.* The objective of the act is to provide facilities for water storage and utilization in the arid and semiarid areas of the United States to alleviate wastage and inadequate utilization of water resources on farm, grazing, and forest lands, thereby contributing to the preservation of natural resources; to the protection of the public health and public lands; and to the prevention of droughts, periodic floods, crop failures, decline in standards of living, and excessive dependence on public relief.

(Sec. 1, 50 Stat. 869; 16 U. S. C. 590r)

§ 352.3 *Area planning.*—(a) *Previously approved areas.* All areas previously approved for water facilities operations by the Water Facilities Board and by the Farm Security Administration are adopted as approved areas by the Farmers Home Administration subject to the same limitations covering ground water development contained in the existing authorizations.

(b) *Requirements for area plans.* Approved area plans will be required when applicants residing outside presently approved areas request assistance in the development of ground water for irrigation, either by pumping or artesian flow, beyond the amount which is used under established water rights or water use, before assistance is rendered to such applicants.

§ 352.4 *Types of assistance.*—(a) *Loans.* Water Facilities loans may be made for authorized purposes to eligible individuals, or to eligible incorporated associations for such purposes.

(b) *Technical assistance.*—(1) *With loans.* Technical assistance will be furnished to individuals and associations receiving loans under this program. Such assistance will include the planning of the facility to be installed, advice and guidance about planning and carrying out farm and home operations, as well as technical supervision in the installation and operation of the facility.

(2) *Without loans.* When eligible applicants make application for technical assistance only and cannot obtain such assistance from public or private sources it may be furnished if personnel can be made available. It may include the same types of assistance as are furnished in connection with loans, except that it may not include actual supervision of the installation or operation of the facility.

(3) *Government responsibility.* The County Supervisor must inform applicants that the Government will not be responsible for or guarantee the successful installation and operation of the facility, and also so inform others who furnish labor, supplies, and equipment to applicants if they inquire.

§ 352.5 *Purposes.* (a) The construction, repair, rehabilitation, reinstatement, or enlargement of farmstead facilities and irrigation facilities. Included are such items and appurtenances thereto as reservoirs, storage and diversion dams, ponds, wells, cisterns, pipelines, storage tanks, stock water tanks, spring development, pumping installations (including windmills and other kinds of motors) and distribution systems, as well as real estate or interest therein necessary for sites or rights-of-way upon which a facility will be located. Water Facilities loan funds may be used to pipe water into the farm dwelling or other farm buildings provided the loan is being made primarily for some other authorized purpose. Loan funds may not be used for plumbing and plumbing fixtures within the dwelling or other buildings or for power plants to generate electricity.

(b) The acquisition of a source of water supply. Included are the purchase of water stock or memberships in an association provided the organizational, financial, and water right situations of such association are sound; the acquisition of a water right through appropriation or purchase; and the acquisition of land with water rights in cases where it is not possible to acquire and transfer the water apart from the land, provided the value of the land without the water rights is an incidental part of the purchase price of the land and the appurtenant water right.

(c) The purchase of stock or memberships in, or the payment of assessments to, an association which will help such association to finance water facilities for which loan funds may be used, *Provided:*

(1) The organization and the financial structure of the association are sound; and

(2) The water facilities plans for the contemplated facility and the water right situation are approved by the Farmers Home Administration.

(d) The cost of hiring labor and equipment for land leveling which is necessary to make efficient use of irrigation water on land owned by the applicant.

(e) The refinancing of debts in the following situations:

(1) Where the indebtedness being refinanced is secured by a lien on an existing facility and the Water Facilities loan is being made for the enlargement or rehabilitation of that facility, and where all of the following conditions are present:

(i) The indebtedness was incurred in the construction or repair of the existing facility;

(ii) The present lienholder is unwilling to make additional advances to place the facility in a satisfactory condition;

(iii) Arrangements cannot be made with the present lienholder to extend or modify the terms of the security instrument(s) in order to provide a satisfactory basis upon which the Water Facilities loan may be made; and

(iv) The amount to be used for refinancing is an incidental part of, and never more than 50 percent of, the total of the Water Facilities loan funds being advanced. In addition, the amount advanced for refinancing may not exceed the value of the existing encumbered facility or the cost of refinancing it, whichever is less.

(2) Where the indebtedness being refinanced is for the discharge of the borrower's obligations for the enlargement or rehabilitation of an existing facility or for the construction of a new facility, if they were incurred at a time when a Water Facilities loan was being processed for those purposes and at a time when all of the following conditions existed:

(i) The Water Facilities loan had been approved, the conditional approval letter had been issued, and the applicant had indicated that he could meet the loan conditions;

(ii) It became necessary, prior to the closing of the loan, but subsequent to the events described in subdivision (i) of this subparagraph, to begin construction of the approved facility in order to avoid loss or damage to the applicant's current crops or loss of a favorable firm offer of equipment or of a contract bid; and

(iii) The loan approving official had consented in writing to the beginning of such construction or to the purchase of materials for the approved facility, with the specific statement that no loan funds would be advanced unless loan approval conditions should be met.

(3) Where the indebtedness being refinanced is for the discharge of the borrower's obligations arising from temporary credit obtained for repair or replacement of a portion of a water facility covered by a mortgage securing an existing Water Facilities loan, if it was obtained by him after a request for a subsequent Water Facilities loan for those purposes and at a time when all of the following conditions existed:

(i) The State Director had determined that the immediate repair or replacement of the facility was necessary to avoid substantial crop damage;

(ii) The security value of the facility would have been substantially lessened by the failure of the part or the whole of the facility needing repair or replacement; and

(iii) The applicant did not have resources with which to pay such costs, could not levy assessments therefor and could not secure credit from other sources on terms which he could be expected to meet.

(f) The purchase of equipment needed by an association having governmental or quasi-governmental functions, such as a soil conservation district, for the purpose of use for construction, installation or maintenance of individual or group water facilities for the farmers served by such association, provided equipment purchased is not otherwise available at reasonable cost or the cost of the projects will be materially lower as the result of such purchase, and the equipment can be used effectively in maintenance work upon such projects.

(g) The purchase of equipment needed by an association or a Water Facilities group service for construction or maintenance of its farmstead or irrigation water system, if:

(1) Equipment purchased for use in construction is not otherwise available at reasonable cost or the cost of the project will be materially lower as the result of such purchase; and it can be used effectively in maintenance work after the project is complete or will be sold and the funds used for other planned costs of the project or returned as payment on the loan.

(2) Equipment purchased for maintenance only can be used effectively and economically throughout its useful life on the water system operated by the group.

(h) The hiring of or contracting for personal services such as services of engineers, attorneys, auditors, construction foremen and laborers needed for the planning, organization, construction or repair of the facility with respect to which a loan is made. Funds to pay costs incidental to loan closing such as those incurred to quiet title, obtain title evidence, and file and record lien instruments, may be included in a Water Facilities loan.

§ 352.6 *Loan terms*—(a) *Interest rate.* Water Facilities loans will bear interest at the rate of three percent (3%) per annum on the unpaid principal balance. Interest will begin as of the date of the loan check for all loans.

(b) *Repayments.* Every Water Facilities loan will be scheduled for repayment within the shortest period of time consistent with the ability of the borrower to repay as reflected in the annual and long-time farm and home plans or comparable documents. No Water Facilities loan, however, will be scheduled for repayment over a period which exceeds the anticipated useful life of either the facility or the security property whichever is the lesser. Also, in no case will the repayment period exceed 20 years from the date of the loan except as provided hereinafter. In no case will the repayment of a loan to an individual be scheduled over a longer period than otherwise necessary in order that the borrower may anticipate additional income to be used in making investments or improvements not essential to the efficient operation of his farm, and not incorporated in the long-time farm and home plan or similar document or in expanding his operation beyond that of an efficient family-type farm. Periodic repayment dates will be scheduled annually. The first installment will be payable not later than the end of the first full crop year after the closing of the loan except where deferment of the first annual payment is authorized hereinafter. The annual repayment dates will correspond to the receipt of income from which payments are to be made.

(1) The first installment of principal and interest may be deferred for a period of not to exceed two full crop years after the proposed facility is placed in operation. A deferment, however, may not be used to extend the term of any loan beyond the repayment period authorized. Deferred payments will be permitted only when the anticipated income during the proposed period of the deferment will be insufficient to meet regular annual installments on the loan as well as the payment of annual farm operating and family living expenses, a reasonable payment on real estate debts, and annual payments on chattel debts roughly equivalent to annual depreciation on chattels owned.

(2) A loan to a water association may be scheduled for repayment over a period longer than 20 years from the date of the loan, but not more than 40 years therefrom, but only when the loan docket contains specific data demonstrating clearly the inability of the association's water users to pay annual assessments or charges totaling enough to enable the association to repay the loan within 20 years or less, and within a period shorter than that scheduled for repayment.

(c) *Farmer contributions.* Individuals and associations, including the members thereof, will be expected to contribute to the cost of any facility to the extent practicable by furnishing such items as funds, labor, materials, and equipment.

(d) *Voluntary services for making surveys and plans.* Association applicants may utilize the compensated or uncompensated services of members or stockholders or other artisans or laborers in the part of the survey and planning undertaken by the association as its contribution to the planning and construction of the facility. However, if services are requested by Farmers Home Administration personnel, as gratuitous services,

(1) Any such request for assistance will be limited to such labor and other forms of aid as can be rendered personally by the individual involved, and

(2) Every person furnishing the assistance must acknowledge in writing that he will provide the assistance gratuitously.

(Sec. 4 (3), 50 Stat. 870; 16 U. S. C. 590u (3))

§ 352.7 *Loan limit.* Not more than $100,000 of Federal funds may be expended for the construction, repair, enlargement, and maintenance or financial assistance to any one project.

(Sec. 7, 54 Stat. 1124, as amended, 63 Stat. 171; 16 U. S. C. 590z–5)

§ 352.8 *Eligibility.* The benefits of the Water Facilities Program will be extended to individuals or to groups of individuals (including associations) whose lands are in use for agricultural purposes, including grazing, or whose lands will be placed in such use as a result of the installation of a proposed water facility.

(a) *Individuals.* An individual is eligible to receive a Water Facilities loan for authorized purposes, *Provided:*

(1) The individual is a farm owner or farm tenant whose lands are in need of water facilities to promote sound operations.

(2) The individual cannot obtain credit for the purpose of the loan on reasonable terms and conditions and in sufficient amount from commercial banks, cooperative lending agencies, or from any other responsible source available in or near the community in which he resides.

(3) The farm unit on which the facility will be installed is not substantially larger than a family-type farm for the area and the individual applicant does not operate a farm unit substantially larger than a family-type farm for the area. A loan may be made to install water facilities on a farm smaller than an efficient family-type farm when such farm is something more than a subsistence unit or rural residence, and when the proposed facility will maintain or increase the output of farm commodities produced for sale; planned farm operations will produce a substantial but not necessarily a major portion of the total family cash income; and cash income from the farm operations will be larger than the cash farm operating expenses.

(b) *Joint operators.* When individuals own and operate a farm together, they may receive separate loans or a joint loan, provided, in either case: (1) The individuals jointly or severally cannot obtain credit for the purpose of the loan on reasonable terms and conditions and in sufficient amounts from commercial banks, cooperative lending agencies, or from any other responsible source in or near the community; (ii) a major portion of each individual's labor will be spent in the actual operation and management of the farm unit; and (iii) the acreage if divided among the individual owners would not constitute farms substantially larger than a family-type unit for each family represented.

(c) *Associations.* A nonprofit association having all corporate powers necessary to the borrowing and repayment of the loan and the operation of the water facility financed with the loan is eligible to receive a Water Facilities loan for authorized purposes; also a corporation organized for a profit, having the necessary powers to borrow and to repay the loan and to operate the water facility, will be eligible to receive a Water Facilities loan, but only upon approval of the Administrator, upon such conditions as may be prescribed by the Administrator, and upon the further condition that, within such time as the Administrator may prescribe, it will convey the facility to, to be operated on a nonprofit basis by and for the benefit of, the users of water therefrom, either incorporated or unincorporated; provided, in either case:

(1) Owners or tenants operating farm units of the size specified in paragraph (a) (3) of this section will use the major portion of the water to be made available by the facility.

(2) The association does not have sufficient funds to carry out the objectives for which the loan is sought and cannot obtain such funds by levying special assessments or charges on its members, or on reasonable terms and conditions from commercial banks, cooperative lending agencies, or from any other responsible source normally serving the area.

(d) *Unincorporated water associations.* An unincorporated water association is not eligible to receive a Water Facilities loan. However, Water Facilities loans may be made to individuals to participate in an unincorporated water association or water facilities group service approved by the Farmers Home Administration.

(e) *Certification by applicant.* Each applicant for a Water Facilities loan, individual or association, must certify, before a loan is approved, that he is unable to obtain credit on reasonable terms and conditions and in sufficient amount, from commercial banks, cooperative lending agencies, or from any other responsible source available in or near the community in which he resides, to carry out the objectives for which the Water Facilities loan is sought.

(f) *Certification by County Committee.* No Water Facilities loan, initial or subsequent, may be made unless the County Committee certified in writing that the applicant is eligible to receive a Water Facilities loan under the appropriate requirements of paragraphs (a), (b) and (c) of this section.

(g) *Administrative determination.* All certifications by County Committees that applicants are eligible to receive Water Facilities loans are subject to administrative review and final determination. The loan approval officer is directed to determine whether an applicant so certified by the County Committee is eligible to receive a Water Facilities loan. In making such determination, the loan approval officer will take into consideration the certifications of the applicant and of the County Committee, and other pertinent information. Generally, the applicant will not be required to submit a written notice of rejection for credit from other available credit sources. However, the County Committee or loan approval officer should state what attempts have been made to secure other credit and may require such a written notice of rejection in doubtful cases.

§ 352.9 *Planning*—(a) *Water Facilities plans.* Water Facilities plans will be developed as a means of determining costs and feasibility of proposed water facilities to be constructed with loans and as a guide for subsequent installations of such facilities.

(b) *Farm and home plans.* Farm and home plans will be developed. A loan to a non-operating owner will be based upon a financial statement, a statement of income and expenses, and an appraisal report as set out in Part 354 of this subchapter.

(c) *Group plans*—(1) *Water Facilities group services.* At the time the initial assistance is rendered to a Water Facilities group service, an operating plan, and an operating budget will be developed with the group. Annually thereafter, until all loans have been repaid, the group will be required to summarize the operations for the past year and review and modify, if necessary, the operating plans and prepare a budget for the coming year's operations.

(2) *Water Facilities associations.* A loan to an association will be based on a financial report consisting of a balance sheet and an operating statement showing the results of operations for the association's last fiscal year, and a budget showing estimated receipts and expenditures for the next fiscal year. Annually thereafter, the Board of Directors will summarize operations for the past year and submit to the Government for approval a financial report and a budget for the next year's operations.

§ 352.10 *Water rights.* Assistance will be extended under this program only to applicants who comply with all applicable state laws with respect to the appropriation and use of water. In the absence of state laws requiring filing, but where state rules and regulations do not prevent the filing of an application for, or of notice of appropriation of, a water right, such filing will be required for all loans for irrigation purposes and association loans for farmstead systems involving a new or additional appropriation or use of water.

§ 352.11 *Tenure.* (a) Credit under this program will be extended to individual applicants who have reasonable assurance of the use of the land on reasonable terms and for a period of time sufficient to permit the repayment of the Water Facilities loan. If individual applicants are in default under the terms of their leases, purchase contracts, or mortgages, they will be required before loans are made to make arrangements with their landlords or land creditors for removing such defaults which in the opinion of the loan approving official can be carried out.

(b) When a loan is made to a tenant, the landlord will be required to compensate the tenant for the improvement to the real estate. This may be accomplished through such methods as extended tenure, reductions in rent, repayment of residual value, removal of the facility, or other equitable adjustments in tenure.

§ 352.12 *Security.* All Water Facilities loans will be secured in a manner which will adequately protect the Government's financial interest.

(a) *Loans to individuals.* (1) Except as provided in paragraph (a) (2), (3), and (4) of this section, each Water Facilities loan will be secured by the best lien obtainable on real estate and water rights owned or to be acquired by the applicant. When a junior lien is taken on real estate it must be determined that the applicant's equity has substantial security value. It is preferable that the lien taken cover the real estate upon which the facility is installed and that which it serves. When a junior lien is taken on real estate, a first lien will be obtained on any mortgageable property purchased with the loan. All liens on real estate will be taken subject to the title requirements in Part 354 of this subchapter.

(i) When a lien on real estate plus a first lien on mortgageable property purchased with the loan will not provide adequate security, the applicant will be required to give a lien on other property of the types listed in subparagraph (2) of this paragraph or obtain from his land creditor(s), if any, an agreement to pay in the event of foreclosure, the residual value of the facility or the unpaid balance of the loan, or to do both if necessary to adequately secure the loan.

(ii) The applicant may be required to obtain from his land creditor(s) an agreement to pay the residual value of the water facility or the unpaid balance of the loan when the debt(s) secured by prior lien(s) has (have) unreasonable repayment schedules, when prior lien instruments contain unlimited future advance clauses, or when the real estate is being acquired pursuant to a purchase contract.

(2) When a real estate lien cannot be obtained, or, if obtained, would have no significant security value, the loan will be secured by a first lien on the mortgageable property purchased with the loan plus a lien on other property of the

quality and value set forth in subdivision (i), (ii) and (iii) of this subparagraph:

(i) A first lien on selected items of livestock, farm equipment, or both.

(ii) A first lien on crops when a first lien on other personal property is not available.

(iii) A junior lien on selected items of livestock, farm equipment, or crops, subject only to outstanding liens held by the Farmers Home Administration as security for operating loans.

(3) Water Facilities loans only for the purchase of portable equipment, such as pumps, motors, and sprinkler systems may be secured by liens in either of the methods provided in subparagraphs (1) and (2) of this paragraph.

(4) When a loan is made only for the purchase of shares of water stock, such stock will be pledged or assigned as security for the loan. No other security will be required if the stock represents a right to receive water for irrigation purposes, if it can be resold readily by the pledgee or assignee, and if the purchase price is no greater than the price at which stock in the particular company is normally sold.

(5) A lien will be taken also on the rights-of-way and easements owned or acquired by the borrower for use in connection with the proposed facility, if it is necessary to do so in order to protect adequately the Government's financial or security interests. Applicants will obtain partial releases or consents to easements and rights-of-way across privately owned tracts of land from any holders of outstanding liens disclosed by the forms of title evidence required by Part 354 of this subchapter.

(b) *Loans to associations.* (1) A first lien, if obtainable, will be taken on real and personal property, exclusive of easements, rights-of-way, and water rights, owned by the applicant at the time the loan is approved. If a first lien is not obtainable, junior mortgages on such property may be taken.

(2) A first lien will be taken on real and personal property acquired with loan funds exclusive of easements, rights-of-way, and water rights.

(3) A mortgage lien will be taken on the interest of the applicant in all easements, rights-of-way, and water rights used in connection with the facility. In some instances such easements or rights-of-way will involve private lands, and will not be derived pursuant to state statutes authorizing the installation of water or irrigation works across lands of other owners. In such cases, associations will obtain partial releases or consents to such easements and rights-of-way from holders of outstanding liens which are disclosed by real estate lien searches covering a period of at least ten years prior to the execution of the easements, and so forth.

(4) Assignments of association income will be taken as additional security.

(5) Bonds creating liens on lands served by an association having governmental or quasi-governmental functions, such as irrigation districts, may be accepted in lieu of liens on the kinds of property listed in subparagraphs (1), (2) and (3) of this paragraph, and assignments of income, *Provided:*

(i) Statutes do not confer upon such associations the authority to mortgage the water facilities operated by them and to assign income from that part of assessments, taxes, or charges levied to repay the loans; and

(ii) All statutory requirements pertaining to the authorization, sale and acceptance of the bonds are met.

§ 352.13 *Insurance*—(a) *When required.* Insurance will be required on mortgageable property (except windmills and their towers) purchased with the loan when the location, character, and construction of the facility is such that it is subject to destruction or damage by fire, windstorm, or tornado to the extent of $500 or more. When real estate is taken as loan security, insurance will be required on the dwelling and the other farm buildings thereon without which the borrower could not continue successful farming operations. This insurance will cover destruction, loss, and damage from fire, lightning, windstorm, and any other hazard covered customarily in the area.

(b) *Amount of insurance.* (1) When real estate is not taken as security and insurance is required on the mortgageable property purchased with the loan, the amount of that insurance will be equal to the depreciated replacement value of such property or the amount of the loan, whichever is less.

(2) When a first real estate mortgage is taken, the amount of insurance required will be equal to the depreciated replacement value of the mortgageable property purchased with the loan and of the farm buildings required to be insured, or the amount of the Water Facilities loan, whichever is less.

(3) When a second real estate mortgage is taken, the amount of insurance required will be equal to the depreciated replacement value of the mortgageable property purchased with the loan and of the farm buildings required to be insured, or the unpaid amount of the first mortgage plus the amount of the Water Facilities loan, whichever is less.

§ 352.14 *Subsequent loans.* Subsequent Water Facilities loans may be made under the same policies, requirements, limitations, and procedures as for initial loans, if the loan limit set out in § 352.7 is not exceeded thereby, where one or more of the following situations exist:

(a) A need for additional credit in connection with the facility exists because of a catastrophe, such as a storm, flood, earthquake, failure of water supplies, and so forth.

(b) An expansion or corrective action is needed in connection with the facility which could not be foreseen at the time the initial loan was made.

(c) To complete a facility begun with the initial loan where increased costs which cannot be absorbed by the applicant make the subsequent loan necessary for the protection of the investment of the Government.

(Sec. 7, 54 Stat. 1124, as amended, 63 Stat. 171; 16 U. S. C. 590z–5)

[SEAL] DILLARD B. LASSETER,
Administrator,
Farmers Home Administration.

SEPTEMBER 16, 1952.

Approved: September 22, 1952.

CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 52–10428; Filed, Sept. 25, 1952; 8:45 a. m.]

TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices), Department of Agriculture

Subchapter A—Commodity Standards and Standard Container Regulations

PART 44—UNITED STATES STANDARDS FOR GRADES OF EDIBLE SUGARCANE MOLASSES

Correction

In F. R. Doc. 52–7571, appearing at page 6181 of the issue for Thursday, July 10, 1952, make the following change:

In column 1 on page 6184, line 5, "Cu Cl_2·$6H_2O$" should read "$CoCl_2$·$6H_2O$".

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter C—Procedural Regulations

[Regs., Serial No. PR–18]

PART 302—RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

INTERVENTION BY CITIES, OTHER PUBLIC BODIES, AND CHAMBERS OF COMMERCE

Correction

In F. R. Doc. 52–10301, appearing at page 8452 of the issue for Saturday, September 20, 1952, the following change should be made:

The seventeenth line of the first column on page 8453, "of a party under § 302.15 (c) (3) to the", should read "of a party under § 302.15 (c) (3) to file".

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

Subchapter C—Office of International Trade

[6th Gen. Rev. of Export Regs., Amdt. P. L. 10]

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

Correction

In F. R. Doc. 52–10080, appearing at page 8351 of the issue for Wednesday, September 17, 1952, make the following change:

In column 1 on page 8352, the line reading "4. The following revisions are made in commodity descriptions. These revisions" should read "3. The following additions are made to conform with revisions in *Schedule B*,".

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5842]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

HEALTH SPOT SHOE CO. ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.130 *Manufacture or preparation;* § 3.170 *Qualities or properties of product or service.* Subpart—*Misbranding or mislabeling:* § 3.1255 *Manufacture or preparation;* § 3.290 *Qualities or properties.* Subpart—*Using misleading name—Goods:* §3.2325 *Qualities or properties—Vendor:* § 3.2450 *Products.* In connection with the offering for sale, sale and distribution in commerce, of respondents' shoes designated by them as "Health Spot Shoes," or any other shoe of similar construction, (1) using the name "Health Spot Shoe Company" or any name in which the word "Health" appears in ordinary business transactions unless in immediate conjunction therewith there appear clearly and conspicuously the words "a corporate and trade name only"; (2) using in any advertisement of respondents' shoes the word "Health" or any other word importing a like or similar meaning, alone or in combination with any other word or words, to designate, describe or refer to respondents' shoes, or representing in any manner that the wearing of respondents' shoes will prevent or correct abnormalities of the feet, keep the feet healthy, prevent the development of abnormalities or deformities or will correct any disorder of the feet; (3) representing, directly or by implication, that the use of their shoes will prevent weak feet, weak ankles, inrolling ankles, weak and broken down arches, faulty posture, or will correct such conditions where they exist; (4) representing, directly or by implication, that their shoes possess features and characteristics which will prevent or correct any common foot ailment; (5) representing, directly or by implication, that the use of their shoes in the case of children will promote proper foot and postural development or provide the necessary support to the feet and arches in cases of ankle pronation; or (6) representing, directly or by implication, that the use of their shoes will assure comfort to the user, provide foot and body balance, eliminate foot fatigue, keep the ankles straight and strong or will hold the heel in normal position; prohibited, subject to the provision, however, that the prohibitions of "1" and "2", insofar as they relate to labels in or on shoes manufactured or in process of manufacture on the date the order is issued, and cartons or containers in which said shoes are now or may be packaged, and existing supplies used for business and not advertising purposes such as letterheads, envelopes, cards, sales books, and checks shall become effective on and after six months from the date the order is issued; and subject to the further provision that the marketing by respondent of any of said shoes, manufactured or in process of manufacture when the order is issued and on hand and unsold at the expiration of the six months' period above referred to, under a new name and with the words "Formerly Health Spot Shoes" appearing clearly and conspicuously and in immediate conjunction therewith shall not be construed as a violation of the order.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Health Spot Shoe Company, Oconomowoc, Wisconsin, Docket 5842, June 24, 1952]

In the Matter of Health Spot Shoe Company, a Corporation, and George E. Musebeck and Willard A. Andrews, Individually and as Officers of Said Corporation

This proceeding was heard by Webster Ballinger, hearing examiner, upon the complaint of the Commission, respondents' answers, and hearing at which testimony, documents, and a stipulation were offered on behalf of both parties by their respective counsel and admitted in evidence.

Thereafter the proceeding regularly came on for final consideration by said examiner, theretofore, duly designated by the Commission, upon the complaint, the answers thereto, testimony and other evidence, which was duly filed in the office of the Commission, requested findings, and conclusion and form of order submitted by counsel for the complaint, oral argument having been waived, and said examiner, having duly considered the record in the matter and having found that the proceeding was in the interest of the public, made his initial decision comprising certain findings as to the facts,[1] conclusion [1] drawn therefrom, and order to cease and desist.

No appeal having been filed from said initial decision of said hearing examiner as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII became the decision of the Commission on June 24, 1952.

The said order to cease and desist is as follows:

It is ordered, That the respondents Health Spot Shoe Company, a corporation, its officers, agents, representatives and employees, and George E. Musebeck and Willard A. Andrews, individually and as officers of said corporation, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of their shoes now designated by them as "Health Spot Shoes," or any other shoe of similar construction, do forthwith cease and desist from:

1. Using the name "Health Spot Shoe Company" or any name in which the word "Health" appears in ordinary business transactions unless in immediate conjunction therewith there appear clearly and conspicuously the words "a corporate and trade name only."

2. Using in any advertisement of respondents' shoes the word "Health" or any other word importing a like or similar meaning, alone or in combination with any other word or words, to designate, describe or refer to respondents' shoes, or representing in any manner that the wearing of respondents' shoes will prevent or correct abnormalities of the feet, keep the feet healthy, prevent the development of abnormalities or deformities or will correct any disorder of the feet.

3. Representing, directly or by implication, that the use of their shoes will prevent weak feet, weak ankles, inrolling ankles, weak and broken down arches, faulty posture, or will correct such conditions where they exist.

4. Representing, directly or by implication, that their shoes possess features and characteristics which will prevent or correct any common foot ailment.

5. Representing, directly or by implication, that the use of their shoes in the case of children will promote proper foot and postural development or provide the necessary support to the feet and arches in cases of ankle pronation.

6. Representing, directly or by implication that the use of their shoes will assure comfort to the user, provide foot and body balance, eliminate foot fatigue, keep the ankles straight and strong or will hold the heel in normal position.

It is further ordered, That the foregoing Paragraphs One and Two insofar as they relate to labels in or on shoes manufactured or in process of manufacture on the date this order is issued, and cartons or containers in which said shoes are now or may be packaged, and existing supplies used for business and not advertising purposes such as letterheads, envelopes, cards, sales books, and checks shall become effective on and after six months from the date this order is issued.

It is further ordered, That the marketing by respondent of any of said shoes, manufactured or in process of manufacture when this order is issued and on hand and unsold at the expiration of the six months' period referred to in the preceding paragraph, under a new name and with the words "Formerly Health Spot Shoes" appearing clearly and conspicuously and in immediate conjunction therewith shall not be construed as a violation of this order.

By "Decision of the Commission and order to file report of compliance," Docket 5842, June 17, 1952, which announced and decreed fruition of said initial decision, report of compliance was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing set-

[1] Filed as part of the original document.

ting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: June 17, 1952.

By the Commission.

[Docket 5955]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

KRANE-BERMAN CLOTHING CO. ET AL.

Subpart—*Misbranding or mislabeling:* § 3.1190 *Composition: Wool Products Labeling Act;* § 3.1325 *Source or origin—Wool Products Labeling Act.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 3.1845 *Composition—Wool Products Labeling Act;* § 3.1900 *Source or origin—Wool Products Labeling Act.* In connection with the introduction of manufacture for introduction into commerce, or the offering for sale, sale, transportation, or distribution in commerce of men's trousers or other wool products, as defined in and subject to the Wool Products Labeling Act of 1939, which contain, purport to contain, or in any way are represented as containing, "wool," "reprocessed wool," or "reused wool," as those terms are defined in said act, misbranding such products by, (1) falsely or deceptively stamping, tagging, labeling or otherwise identifying such products as to the character or amount of the constituent fibers therein; (2) failing to securely affix to or place on each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner, (a) the percentage of the total fiber weight of such wool product, exclusive of ornamentation not exceeding five percentum of said total fiber weght, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers; (b) the maximum percentages of the total weight of such wool product of any non-fibrous loading, filling, or adulterating matter; and (c) the name or the registered identification number of the manufacturer of such wool product or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, distribution or delivering for shipment thereof in commerce, as "commerce" is defined in the Wool Products Labeling Act of 1939; prohibited, subject to the proviso, however, that the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939; and to the further provision that nothing contained in the order shall be construed as limiting any applicable provisions of said act or the rules and regulations promulgated thereunder.

(Sec. 6, 38 Stat. 722, sec. 6, 54 Stat. 1131; 15 U. S. C. 46, 68d. Interprets or applies sec. 5, 38 Stat. 719, as amended, secs. 2–5, 54 Stat. 1128–1130; 15 U. S. C. 45, 68–68c) [Cease and desist order, Krane-Berman Clothing Company, New York, N. Y., Docket 5955, June 21, 1952]

In the Matter of James Berman and Benjamin Krane, Individually and as Partners, Doing Business as Krane-Berman Clothing Company

This proceeding was heard by John Lewis, hearing examiner, upon the complaint of the Commission, and separate stipulation as to the facts by each of the respondents, whereby it was agreed that a statement of facts signed and executed by counsel for the respective respondents and counsel in support of the complaint might be taken as the facts in the proceeding, and in lieu of evidence in support of the charges stated in the complaint or in opposition thereto, and that the hearing examiner might proceed upon said statement of facts to make his initial decision stating his findings as to the facts, including inferences which he might draw from the said stipulations, and his conclusion based thereon, and enter his order disposing of the proceeding as to each of said respondents, without the filing of proposed findings and conclusions or the presentation of oral argument.

Thereafter the proceeding regularly came on for final consideration by said examiner, theretofore duly designated by the Commission, upon the complaint and the aforesaid stipulations as to the facts, each of which also provided that the Commission might, if the proceeding came before it upon appeal from the initial decision of said examiner or by review upon the Commission's own motion, set aside the same and remand the case to said examiner for further proceedings under the complaint, and each of which had been approved by said examiner and made a part of the record, and said examiner, having duly considered the record and having found that the proceeding was in the interest of the public, made his initial decision comprising certain findings as to the facts,[1] conclusion [1] drawn therefrom, and order to cease and desist.

No appeal having been filed from said initial decision of said hearing examiner as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII became the decision of the Commission on June 21, 1952.

The said order to cease and desist is as follows:

It is ordered, That the respondents, James Berman and Benjamin Krane, individually and as partners, doing business as Krane-Berman Clothing Company, or under any other name, names or designation, and said respondents' respective representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation, or distribution in commerce, as "commerce" is defined in the aforesaid acts, of men's trousers or other wool products, as such products are defined in and subject to the Wool Products Labeling Act of 1939, which products contain, purport to contain, or in any way are represented as containing, "wool," "reprocessed wool," or "reused wool," as those terms are defined in said act, do forthwith cease and desist from misbranding such products by:

(1) Falsely or deceptively stamping, tagging, labeling or otherwise identifying such products as to the character or amount of the constituent fibers therein;

(2) Failing to securely affix to or place on each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner:

(a) The percentage of the total fiber weight of such wool product, exclusive of ornamentation not exceeding five percentum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers;

(b) The maximum percentages of the total weight of such wool product of any non-fibrous loading, filling, or adulterating matter;

(c) The name or the registered identification number of the manufacturer of such wool product or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, distribution or delivering for shipment thereof in commerce, as "commerce" is defined in the Wool Products Labeling Act of 1939.

Provided, That the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939, and

Provided further, That nothing contained in this order shall be construed as limiting any applicable provisions of said act or the rules and regulations promulgated thereunder.

By "Decision of the Commission and order to file report of compliance," Docket 5955, June 17, 1952, which announced and decreed fruition of said initial decision, report of compliance was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: June 17, 1952.

By the Commission.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 23, Amdt. 5]

CPR 23—LIVE CATTLE

MODIFICATION OF REPORTING REQUIREMENTS AND MISCELLANEOUS AMENDMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, Delegation of Authority by the Secretary of Agriculture with respect to meat, as amended, Economic Stabilization Agency General Order No. 2, and Economic Stabilization Agency General Order No. 5, Revision, this Amendment 5 to Ceiling Price Regulation 23 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment makes several changes in Ceiling Price Regulation (CPR) 23.

(1) In extending the Defense Production Act on July 1, 1952, Congress stated it to be its policy to ease reporting requirements with respect to sales which are below ceiling prices. Although CPR 23 is a regulation based on maximum costs rather than ceiling prices, this amendment will parallel the policy of the Congress with respect to ceiling price reports by suspending all reporting requirements of that regulation for the time being. Market prices on all grades of cattle have been somewhat under maximum prices stated in the regulation in most of the country since June. Therefore, in conformity with Congressional policy, it is possible to suspend maximum cost reports at this time.

However, it is probable that cattle of Prime, Choice and Good grades will again be selling at higher prices in the near future, for the decline in market prices for the higher grades has been partly seasonal and also markedly less than that for Commercial, Utility and Cutter and Canner grades. In the preparation of this amendment, consideration has been given to limiting compliance and reporting requirements to the top three grades; however, largely in order to conform with parallel Congressional policy, all reporting requirements, but no compliance requirements, are suspended at this time. If the present spread between prices for the higher and lower grades of cattle continues, it is likely that, if prices stiffen, the top grades may approach maximum permissible prices although the lower grades may remain substantially below their maximum. In that event, the present compliance and reimposed reporting requirements may be limited to prices paid for cattle of Prime, Choice, and Good grades.

It must be understood that the suspension of reports does not mean that this entire regulation is suspended. The other provisions of CPR 23 remain in effect. Purchases of cattle of all grades must be made at all times in compliance with the maximum costs set by this regulation. Records required by this regulation must also be kept. The live cattle market is not soft enough to permit suspension of controls under the applicable OPS standards.

(2) A permanent change in the reporting requirements is also made by this amendment. Hereafter these requirements will cover only slaughterers of 20 or more head of cattle per accounting period. This change will eliminate reporting requirements for a very substantial number of the country's cattle slaughterers without materially reducing the volume of slaughter on which reports are required.

Experience has demonstrated that purchases by small slaughterers of a total of less than 20 cattle per accounting period exert but little pressure on cattle prices. These slaughterers will remain subject to the price compliance and some record keeping requirements of this regulation; but because of their relatively minor role in the live cattle picture, their reports can be discontinued. Hereafter, Drove Compliance Report (OPS Public Form 13, Revised) filing requirements will be as follows:

Slaughterers killing 20 or more head of cattle in any one establishment for their own account during any accounting period must file OPS Public Form 13, Revised, for that accounting period and for each accounting period thereafter. However, if in any subsequent accounting period they slaughter less than 20 cattle in any establishment for their own account, they need answer only the first five items on the Form.

Slaughterers who kill some but not more than 19 head of cattle in any one establishment for their own account during the first accounting period governed by this amendment must file a statement indicating this fact and that they will file OPS Public Form 13, Revised, for the next subsequent accounting period during which their cattle slaughter, in any establishment for their own account, is 20 or more head. In that case they shall be subject to the provisions of the preceding paragraph thereafter.

Slaughterers who kill no cattle at all are exempt from filing any statements pursuant to Section 8 of this regulation. It is a violation of this regulation to slaughter cattle without filing either OPS Public Form 13, Revised, or the statement referred to above.

This amendment also relieves slaughterers of less than 20 cattle for their own account in any one establishment during an accounting period from the requirement of filing a report on OPS Public Form 14 every time their maximum calculated prices change. They need file such a report only with the first OPS Public Form 13, Revised, filed after such a change.

These provisions shall become effective with the first accounting period after the effective date of this amendment when reports are next required.

(3) For the same reason, Section 7 is amended to relieve small slaughterers of the record keeping burden on adjusted costs, killing floor work sheets, and other records specified in subsections 7 (a) (7), 7 (b) and 7 (c) for accounting periods during which they are not required to file OPS Public Form 13, Revised. However, such slaughterers must keep for all accounting periods the other records required by section 7 (a).

(4) This amendment makes it clear that slaughterers who take hot weights after washing and shrouding must deduct the actual weight of all "tare" materials involved in weight-taking appropriate to their operations and method of weighing, including wet or dry shrouds, whichever are used. It also provides that a slaughterer having no facilities for taking hot weights shall, in reporting the chilled carcass weight of beef slaughtered, use the weight of carcasses obtained at least 24 hours after slaughter.

(5) The amendment requires that each lot of cattle killed be given a separate lot number. This will permit identification of the number of head, live weight and cost of the cattle for each lot. Each lot is to retain this identity during all plant operations of slaughtering, weighing, chilling and grading.

(6) The Instructions in Appendix A which explain how to determine maximum permissible cost and how to fill out OPS Public Form 13 have been revised to reflect changes in reporting requirements due to amendments to the regulation and to changes in the report form.

The revised OPS Public Form 13 removes the requirement of reporting number of head, weights, and costs in connection with condemned cattle.

Provision is made to omit the reporting of live weights by a slaughterer in cases where undue hardship would be caused by the requirement of weighing the cattle. The weighing may be omitted upon the filing of a statement including but not limited to the distance the cattle would have had to be transported to the nearest scale, if weighed.

Provision is made for reporting the killing of cattle raised by a slaughterer from the time of their birth. Since no purchase cost is involved for such cattle they are not subject to drove cost compliance. However, the number of head and live weight of such cattle killed is to be reported with the number of cattle fed more than 120 days, for the purposes of obtaining more complete information from slaughterers and of facilitating cross-checking the reports filed.

Instructions for reporting on transportation costs are made more specific. Since some cattle are purchased with the intention of feeding them before they are killed, transportation charges from the point of purchase to the feedlot and for transshipment, if any, between feedlots, are required to be reported as a part of the purchase cost. The reasons supporting the freight deduction, provided in the regulation, for transportation cost on cattle purchased for immediate slaughter do not apply to cattle purchased for feeding. Such deductions, used in determination of adjusted costs, are predicated in part on the need to compensate for tissue shrink enroute. There is no justification for, and the regulation does not permit, such an adjustment on cattle shipped to a feedlot.

In some instances slaughterers obtain all cattle at markets within their im-

mediate vicinity. If no transportation costs are incurred, slaughterers must show on their reports that such cattle were all purchased locally.

Cattle purchased for immediate slaughter sometimes undergo a transportation delay beyond the control of the slaughterer so that they become subject to the feedlot cost addition, without benefiting by gain in weight or grade because of feeding operations. Therefore, this amendment provides that when cattle purchased for immediate slaughter are delayed enroute more than 8 days, for reasons beyond the control of the slaughterer, no feedlot costs need be added until the 4th day after delivery. This will allow sufficient time to prepare such cattle for slaughter, without causing the slaughterer to make the feedlot cost addition.

(7) Section 6 is revised with respect to price exemptions for "club" and "show" cattle, and the certificates required to support such purchase cost exemptions. The president, secretary or manager of a fair or show have been designated as proper officials to apply for OPS approval to hold sales of competitively exhibited "club" or "show" cattle on a price exempt basis, and to issue such certificates of exemption. Uniformity in the procedures of applying for exemptions and for certifications has been provided by making one certificate form applicable to both "club" and "show" cattle. Further, the provisions of this section have been correlated as far as possible with the parallel provisions of Distribution Regulation 1, Revision 1.

(8) This regulation does not prohibit the purchase of cattle on a dressed grade and yield basis. To make the intention of the regulation in this regard clear, section 3 is amended to state specifically that this method of purchasing cattle is permitted and that such purchases are subject to the record keeping and cost reporting requirements of the regulation.

(9) The definition of "live weight" as set forth in section 11 (i) is expanded to cover the transfer weight at the time a slaughterer's own fed cattle are transferred from his feedlot to slaughter. Definitions of "own account" and of "dressed carcass" are added.

CONCLUSIONS

In formulating this amendment, the Director of Price Stabilization has consulted so far as practicable with industry representatives, including trade association representatives, and has given full consideration to their recommendations. In his judgment the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, are necessary and appropriate to promote the National Defense, and comply with all the applicable standards of the act.

All standards prescribed in this amendment were, prior to the issuance of CPR 23, in general use in the livestock and meat industry. Such standards as are prescribed are indispensable to price control of live cattle, since no practicable alternative to such standardization exists for securing effective price control of this commodity. It is not believed that this amendment will cause any substantial changes in business practices, cost practices or methods, or means or aids to distribution; however, to the extent that such changes may be compelled, they are necessary to prevent circumvention or evasion of CPR 23, as amended.

AMENDATORY PROVISIONS

Ceiling Price Regulation 23 is amended in the following respects:

1. Section 3 is amended by adding the following paragraph (c) at the end of that section to read as follows:

(c) Nothing in this regulation shall be construed as prohibiting the purchase of live cattle at a price to be determined on the basis of the dressed yield and grade of beef derived from the slaughter of such animals. However, purchases made in this manner are subject to all applicable requirements of this regulation.

2. Section 4 (a) is amended to read as follows:

(a) Regardless of any contract, agreement or other obligation, if a slaughter has slaughtered in a particular establishment during an accounting period 20 or more cattle, (1) his adjusted cost for all steers, heifers, cows and stags slaughtered by him in that establishment during that accounting period and slaughtered within 120 days of purchase, may not exceed his maximum permissible cost for such steers, heifers, cows and stags, and (2) his adjusted cost for all bulls slaughtered by him in that establishment during that accounting period and slaughtered within 120 days of purchase may not exceed his maximum permissible cost for such bulls.

3. Section 5 is amended by adding a new paragraph (f) to read as follows:

(f) The president, secretary or manager of a fair, show, or exhibition is prohibited from issuing exemption certificates for the sale of "club" cattle or "show" cattle except as provided in section 6.

4. Section 6 is amended to read as follows:

SEC. 6. *Exempt purchases.* (a) The following purchases of cattle are exempt from this regulation if all the applicable conditions specified in this section 6 are complied with:

(1) *Club cattle.* (i) Purchases of live cattle from members of 4–H clubs, Future Farmers of America, or other recognized farm youth organizations, at sales made at the place and time of a fair, show or exhibition.

(ii) Purchases of one head of live cattle per club member per year from members of 4–H clubs, Future Farmers of America, or other recognized farm youth organizations at a public stockyard which is under the jurisdiction of the Secretary of Agriculture pursuant to the Packers and Stockyards Act, 1921, as amended.

(2) *Show cattle.* Purchases of live cattle which have been exhibited in competition at a fair, show or exhibition, if the cattle were purchased by you in the course of a regularly scheduled public sale held at the place and time of such fair, show, or exhibition.

(b) *Application for permission to issue exemption certificates.* The president, secretary, or manager of the organization promoting a fair, show or exhibition must apply in writing to the OPS District Office for the area where the fair, show, or exhibition is to be held for permission to issue certificates exempting "club" and "show" cattle from this regulation. However, in the case of an international fair held outside the 48 States of the United States and the District of Columbia, application shall be made to the nearest OPS District Office.

(c) *Approval by OPS District Office to issue exemption certificates.* The OPS District Office will authorize the president, secretary or manager of the organization promoting the fair, show, or exhibition to issue to purchasers, or to the exhibitors of "club" cattle to be later sold at a public stockyard, certificates exempting from this regulation "club" or "show" cattle subject to the following conditions:

(1) *For "club" cattle.* The animal or animals are bona fide project animals fed in an original club under the direction of the United States Department of Agriculture Extension Service or a recognized State Agency. In the case of "club" cattle to be later sold at a public stockyard, the president, secretary or manager of the fair, show, or exhibition will issue the exemption certificate only in cases where (i) the "club" animal has been entered and officially accepted for exhibition and actually exhibited at a fair, show, or exhibition; and (ii) the seller has certified in writing that he has not sold any cattle on an exempt basis under this section 6 during the current calendar year.

(2) *For "show" cattle.* (i) The fair, show, or exhibition is recognized as being of county, state, regional (embracing more than one state), national or international character;

(ii) The organization promoting such fair, show, or exhibition has been in existence prior to 1951 or is the bona fide successor to an organization which was in existence prior to 1951.

(iii) The fair, show, or exhibition has been promoted and held as a regular event prior to 1951; and

(iv) The traditional events occurring at such fair, show, or exhibition until 1951 included a regularly scheduled public sale for slaughter of some or all of the cattle exhibited.

(d) *Issuance of exemption certificates.* After the president, secretary or manager has received from the OPS District Office approval to issue exemption certificates on "club" or "show" cattle (OPS Public Forms 44, Revised) at the fair, show or exhibition, he shall make such announcement at the time of the opening of the event. He shall make an original and two copies of each exemption certificate he issues. He shall give the original and one copy of such exemption certificate to the purchaser of "club" or "show" cattle, or to the exhibitor in the case of a "club" animal to be sold later at a public stockyard. He shall, on the

closing date of the fair, show or exhibition, forward to the District Office which approved the application for exemption the third copy of each certificate issued. Each exemption certificate must contain the following information:

(1) Name of the organization conducting the fair, show or exhibition, and the place and date at which it was held.

(2) The location of the OPS District Office which approved the fair, show or exhibition, and the date of such approval.

(3) Name and address of the person purchasing the cattle; or in the case of one head of "club" cattle to be sold later at a public stockyard, the name and address of the "club" member exhibitor.

(4) The number and live weight of the cattle purchased, or to be later sold at a public stockyard.

(5) A statement that:

(i) *In the case of "club" cattle,* the animal or animals listed on the certificates were bona fide project animals fed in an organized club (naming the club) under the direction of the United States Department of Agriculture Extension Service or a recognized State Agency; or

(ii) *In the case of "show" cattle,* that each of the animals listed on the certificate was entered and officially accepted for exhibition purposes at the fair, show or exhibition and in fact was exhibited there in competition. For the purposes of this paragraph, cattle which have been rejected for, or barred from, competitive exhibition prior to the holding of the event in which competition winners are selected, shall not be deemed to have been exhibited at such fair, show or exhibition.

(6) The signature of the president, secretary or manager of the fair, show or exhibition.

(e) *Sales of Club cattle at a public stockyard.* (1) A member of a recognized youth organization who has exhibited in competition one head of "club" cattle at a fair, show or exhibition but did not sell the animal there may obtain from the president, secretary or manager of the fair, show or exhibition an exemption certificate authorizing the sale of that animal at a public stockyard which is under the jurisdiction of the Secretary of Agriculture pursuant to the Packers and Stockyards Act, 1921, as amended. The member shall endorse on the original and one copy of the certificate that (i) he is a member of a recognized youth organization, named and defined as referred to in section 6 (a) (5) (1) above; (ii) the animal to be sold at the public stockyard was owned and raised by him and was competitively exhibited at a fair, show or exhibition; and (iii) he has not sold any cattle on an exempt basis pursuant to this Section 6 during the current calendar year.

(2) The original and one copy of the exemption certificate containing the endorsement required in paragraph (1) above shall be presented by the member to the manager of the public stockyard at which the animal is to be sold. The manager of the stockyard shall transmit these copies of the certificate to the purchaser of the animal. The purchaser shall attach the original of the certificate to his OPS Public Form 13, Revised. If he is not required to file Public Form 13, he shall transmit the certificate (OPS Public Form 44, Revised) to his OPS District Office at the end of the current accounting period.

(f) Notwithstanding any exemption specified in this section 6, exempt purchases shall be subject to the record keeping and reporting provisions of sections 7 and 8 of this regulation.

5. Section 7 (a) is amended by adding a new sub-paragraph (7) to read as follows:

(7) Each lot of cattle purchased for immediate slaughter and each lot transferred from feeding operations for slaughter shall be assigned a killing lot number, and the records required by Section 7 (a) shall be kept for each lot of cattle by lot number. The identity of each lot shall be retained, and it shall be identified by its lot number, from the time of purchase or transfer from feeding operations through the slaughtering, weighing, chilling and grading operations.

6. Section 7 (c) (1) (i) is amended to read as follows:

(i) The killing lot number and the serial number of the carcass;

7. Section 7 (c) (2) is amended to read as follows:

(2) *Work sheet.* In addition to the foregoing, each operator of a slaughtering establishment shall keep for inspection by the Office of Price Stabilization a daily work sheet showing for each killing lot, the lot number, the date the lot is killed, and for each dressed carcass in the lot, the serial number, its hot weight, (except as provided in (iv) below) and its weight, as adjusted to show the chilled carcass weight 24 hours after slaughtering. However, if the operator elects, he may show the adjusted chilled carcass weight by grades in total instead of for each individual carcass. In adjusting from hot weight to chilled carcass weight 24 hours after slaughtering, the operator shall use the shrink allowance specified below that is appropriate to his method of weighing:

(i) If the hot weight is taken before washing and shrouding deduct 1¾% from the hot weight;

(ii) If the hot weight is taken after washing and before shrouding, deduct 2½ percent from the hot weight;

(iii) If the hot weight is taken after washing and after shrouding, deduct for pins, neck cloths, shank cloths, kidney cloths and shrouds the actual tare appropriate for your method of operations and weighing, and deduct 2½ percent from this hot weight;

(iv) In the event that the operator does not have facilities for obtaining hot weights, the weight to put on the carcass tags and work sheets as specified above in section 7 (c) (1) and (2) is the actual weight of the dressed carcass at the time of weighing. This weight shall be taken at least 24 hours after slaughter, and used for reporting purposes as the chilled carcass weight 24 hours after slaughter.

(v) Under all methods of weighing the actual tare for hooks and trolleys shall be deducted.

(vi) The daily work sheets required by this sub-paragraph shall be filled out with indelible pencil, and each shall bear a statement signed by the weigher that it is the original sheet on which he recorded such information.

8. Section 7 is further amended by redesignating section 7 (c) (3) as section 7 (c) (4) and by adding, immediately preceding that section, a new section 7 (c) (3) to read as follows:

(3) If you have not already done so, a statement of the method you use to determine chilled carcass weight 24 hours after slaughter must be filed with your next OPS Public Form 13, Revised, with the OPS office where you are registered. This formula or any change therefrom is subject to the approval of the Office of Price Stabilization.

9. Section 7 (d) is amended to read as follows:

(d) *Preservation of records.* Every person subject to this regulation must keep all records required by this regulation and a copy of each form and statement which he is required to file under sections 7 and 8 for a period of two years. All records and reports required to be preserved under this section may, 30 days after the date of the transaction to which they relate, be transferred to and preserved thereafter on microfilm.

10. Section 7 is further amended by adding a new paragraph (f) at the end of that section to read as follows:

(f) *When records are not required.* The record keeping requirements of sections 7 (a) (7), 7 (b), 7 (c) (1) and 7 (c) (2) are not applicable to a slaughterer during any accounting period for which he is not required to file OPS Public Form 13, Revised.

11. Section 8 is amended to read as follows:

SEC. 8. *Reports required of slaughterers.* (a) If you are a Class 1, Class 2, Class 1A or Class 2A slaughterer, as defined in Distribution Regulation 1, Revision 1, you are required to file an OPS Public Form 13, Revised, Drove Compliance Report, for the first accounting period commencing after reporting requirements are reinstated under this regulation, during which 20 or more cattle were killed for your own account in any one establishment and for each accounting period thereafter. This form must be filed separately for each such establishment and within 10 days after the end of each accounting period.

(1) If no cattle or less than 20 cattle were killed for your own account in one establishment during an accounting period, you are exempt from filing OPS Public Form 13, Revised, until the number of cattle you slaughter in any accounting period reaches such limit, provided you file with the OPS for your first accounting period commencing after reporting requirements are reinstated under this regulation a statement that (i) less than 20 cattle were killed for your own account, and (ii) you will file OPS Public Form 13, Revised, for the first accounting period during which 20 or

more cattle are killed for your own account in one establishment.

(2) If, after filing an OPS Public Form 13, Revised, you have an accounting period during which you slaughter less than 20 cattle, you must continue to file OPS Public Form 13, Revised, but for each such accounting period you need answer only the first 5 items and sign and file the Form.

(3) If you kill no cattle at all, you are exempt from filing any reports or statements pursuant to this section 8. You are in violation of this regulation if you slaughter cattle without filing either OPS Public Form 13, Revised, or having filed the statement referred to in section 8 (a) (1).

(4) If a change in a slaughterer's maximum calculated prices for a given establishment becomes effective during an accounting period, the slaughterer shall file two OPS Public Forms 13, Revised, one Form based on the maximum permissible cost of cattle prior to such effective date, and the other Form based on the maximum permissible cost on and after such effective date, or he may file one OPS Public Form 13, Revised, for the entire accounting period based on the lowest maximum calculated prices in effect during the accounting period.

(b) OPS Public Form 14, Slaughterer's Maximum Calculated Prices Statement, containing the information specified in Appendix A, Instructions III shall be filed, if not already filed, by a slaughterer to show the latest maximum calculated prices in effect for each establishment in which 20 or more cattle are killed for his own account during an accounting period. A revised OPS Public Form 14 shall be filed thereafter whenever there is a change in a slaughterer's maximum calculated prices for a given establishment with the first OPS Public Form 13 filed after the change.

(c) Reports shall be filed by Class 1 and Class 1A slaughterers with the Office of Price Stabilization at Washington 25, D. C., and by Class 2 and Class 2A slaughterers with the OPS District Office where they are registered under Distribution Regulation 1, Revision 1.

(d) Copies of OPS Public Form 13, Revised, and OPS Public Form 14 may be obtained from the Washington Office or any Regional or District Office of the Office of Price Stabilization.

(e) This section 8 is suspended, effective for slaughterer's accounting periods beginning after July 26, 1952.

12. Section 11 (i) is amended to read as follows:

(i) "Live weight" means the purchase weight of cattle slaughtered, except that in the case of transfer of cattle from your feeding operations to slaughter it means the weight at the time of such transfer.

13. Section 11 is further amended by adding the following paragraphs (m), (n), and (o) at the end of that section to read as follows:

(m) "Own account" means that you own the cattle at the time they are killed, whether killed by you or for you by another person.

(n) "Dressed beef carcass" means and is limited to "beef carcass" as defined in Appendix 2 (a) (1) of Ceiling Price Regulation 24, as amended or revised from time to time.

(o) "Side of beef" means a hindquarter and a forequarter, separated or attached, which are derived from one side of a beef animal and which have been dressed in accordance with the specifications applicable to "dressed beef carcass".

14. Appendix A—Instructions II through V, inclusive, are amended to read as follows:

II

Report the following on OPS Public Form 13, Revised:

Items 1, 2, 3, 4, 5, 7 and 8 (e). These items are self-explanatory.

Item 6 (a). Enter separately in Items 6 (a) (1) and 6 (a) (2) the number of head and live weight of (1) cattle other than bulls, and (2) bulls, killed in this establishment for your own account during the accounting period and slaughtered within 120 days of the date of purchase. Purchases are deemed made on the day the animals are weighed to you. Include animals the carcasses of which were graded as beef even though you may have purchased them as calves. Exclude cattle the carcasses of which were wholly condemned, and animals the carcasses of which have been graded as calf. The weight of any cattle reported in Item 6 (a) which have been slaughtered more than 10 days (but not more than 120 days) after purchase shall be the weight at the time of transfer from feedlot to slaughter. If animals of more than one classification are purchased in a single mixed lot and the separate actual live weight of the animals in a given classification is not obtainable, the computed live weight of such animals shall be obtained by dividing the dressed weight of the meat derived from the animals of such classification by the average dressed yield of the entire lot. The average dressed yield of the entire mixed lot is determined by dividing the dressed weight of the meat derived from the entire lot by the actual live weight of the entire mixed lot.

In the event scales for weighing live cattle are not available to the slaughterer and movement of livestock to scales would cause undue hardship, the live weight to be reported is the applicable calculated live weight determined in Column 3 of Item 9 (a) and 9 (b). However, a satisfactory statement justifying the failure to obtain actual live weights shall be filed with the OPS office where you are registered.

For the purposes of these instructions, steers, heifers, cows and stags shall be one classification, bulls shall be a second classification, and calves shall be a third.

Item 6 (b). Enter the number of head and live weight of cattle, including bulls, which you slaughtered more than 120 days after purchase or which you raised from time of their birth. Purchases are deemed made on the day the animals are weighed to you, or if not purchased on a weighed basis, on the day cattle are started on feed for your account. The weight to be reported in this item is the actual weight taken at the time the cattle are transferred from your feedlot for slaughter.

Item 6 (c). Enter the number of head and live weight of club and show cattle owned by you which were killed for your own account in this establishment during the accounting period and the purchase of which is exempted by section 6 of CPR 23. If any such exemption is claimed, attach the applicable certificate of exemption (OPS Public Form 44, Revised). If certificates are not attached such cattle are not exempt from cost compliance.

Item 8 (a). Enter separately for each classification the purchase cost of all cattle reported in Item 6 (a). Do not include in the purchase cost any commission or similar service charge or any allowance for shrinkage. Purchase cost of the fed cattle reported in Item 7 (a) must include all charges paid for transportation from the time of original purchase to the time immediately prior to shipment from the feedlot to slaughter.

If bulls, other cattle, and calves were purchased in a mixed lot and you cannot segregate the purchase cost of each classification, compute the purchase cost for each classification by multiplying the average price per pound alive of the entire lot by the live weight of each classification as determined under Item 6 (a). The purchase cost of animals bought as cattle, the carcasses of which were graded as calf, shall be excluded. The purchase cost of animals bought as calves, the carcasses of which were graded as beef, shall be included.

Item 8 (b). Enter separately for each classification charges paid for transportation to your slaughtering establishment on all cattle reported in Item 6 (a), including charges paid for feeding and bedding en route. On cattle which you have fed more than 10 but not more than 120 days, include only charges paid for transportation from your feedlot to slaughter. Determine the transportation charges for animals transported in mixed lots by multiplying the live weight per cwt. of the animals in each classification (as determined under Item 6 (a)) by the average freight rate per cwt. Do not include charges for transportation to your establishment (i) from a point within the corporate limits of, or the zone adjacent to and commercially a part of, the municipal corporation in which the establishment is located, or (ii) by facilities owned or operated by you used for hauls of 25 miles, or less, one way. If your own facilities are used for hauls longer than 25 miles, one way, to your establishment from a point outside the area described in (i) above, you must include in your charges for transportation the equivalent common carrier rate for such hauls. If all cattle were acquired locally and no transportation costs were incurred, enter in Item 8 (b) the statement: "Purchased locally."

Item 8 (c). For all the cattle reported in Item 7 (a), enter a feedlot cost addition computed at 70 cents per head per day from the date each animal was purchased to the date it was slaughtered. When cattle purchased for immediate slaughter are en route more than 8 days due to circumstances beyond the control of the carrier or slaughterer, the feedlot cost addition shall be computed from the fourth day after delivery date of such cattle by the carrier to the slaughtering establishment.

Item 8 (d). For all cattle reported in Item 6 (a) enter a non-public market addition at the rates specified below for purchases at the indicated markets.

(i) 20 cents per live cwt. for purchases at any point other than public markets covered by the following subparagraph (ii).

(ii) 10 cents per live cwt. for purchases at public markets under the jurisdiction of the Secretary of Agriculture pursuant to the Packers and Stockyards Act, 1921, as amended. However, no addition is required for purchases at such public markets in the following cities: Baltimore; Chicago; Denver; Fort Worth; Indianapolis; Kansas City, Missouri; Lancaster, Pennsylvania; Oklahoma City, Omaha; South St. Joseph, Missouri; St. Louis National Stockyards, Illinois; San Antonio; Sioux City, Iowa; Sioux Falls, South Dakota; South St. Paul. If all cattle are purchased at one or more of these exempt markets enter in Item 8 (d) the statement: "All cattle purchased at exempt markets."

Item 8 (f). You may claim a freight deduction as determined below for a portion of the transportation costs reported in Item 8 (b), if you file with this report a statement showing for all cattle purchased at each separate market for which a deduction is made: (1) the total live weight of cattle purchased, (2) the total freight charges paid, and (3) the total deduction claimed. The statement should also show the total weight, charges and allowances for all markets. The amount of freight deduction you may claim is determined as follows:

If your establishment is located east of a line following the eastern side of Lake Michigan, the eastern boundary of Indiana and the Ohio and Mississippi Rivers to the Gulf of Mexico, the allowance shall not exceed 75 per cent of the actual cost of freight exclusive of charges for feed and bedding, paid on such cattle, or 80 cents per live cwt., whichever is lower. If your establishment is located west of such a line, the allowance shall not exceed 40 per cent of the actual cost of freight exclusive of charges for feed and bedding paid on such cattle, or 50 cents per live cwt., whichever is lower.

When the allowance is figured on a weight and rate basis use railroad weight if shipped by rail, or the purchase weight if shipped by truck.

Item 8 (g). Make the additions indicated in Item 8 (e) and the deduction allowed in Item 8 (f) to arrive at your reported adjusted cost of steers, heifers, cows and stags as one classification, and of bulls as another classification.

Item 9 (a) and (b), Column (1). Enter separately for each classification and grade the total chilled carcass weight of beef derived from slaughter of the steers, heifers, cows, stags and bulls on which adjusted costs are reported in Item 8. The beef carcasses shall be graded as required by Distribution Regulation 2. The chilled carcass weights shall be determined by the method which you have selected, the statement of which you have filed under section 7 (c) (3) of CPR 23.

Column (3). Enter separately for each classification and grade the calculated live weight of animals by dividing the chilled carcass weights in column (1) by the conversion factors listed in column (2).

Column (4). Enter separately the maximum calculated prices per cwt. by classifications and grades from your OPS Public Form 14.

Column (5). Enter separately the result obtained by multiplying the weights entered in column (3) by the prices entered in column (4) and dividing by 100.

For Item 9 (a) enter the total for all grades in each of column (1), (3) and (5). The totals entered in Items 9 (a) and 9 (b), Column (5) are your reported maximum permissible costs for all steers, heifers, cows and stags as one classification, and bulls as another classification, respectively, for which you have reported adjusted costs in Item 8 (g).

III

The maximum calculated price per cwt. referred to in the instructions for Items 9 (a) and (b), Column (4), OPS Public Form 13, Revised, is computed on OPS Public Form 14 as follows:

Item 1. Enter your name as the slaughterer making the report and state whether you are a Class 1, 1A, 2 or 2A slaughterer.

Class 1 and 2 slaughterers enter your OPS registration number which appears in the upper right-hand corner of your OPS Form DO 1-1 or DO 1-2 Registration. Class 1A and 2A slaughterers enter the registration number which may be obtained from your Class 1 or 2 slaughterer.

Item 2. Enter address of your place of business, including, City, County and State.

Item 3. If the cattle covered by this report were custom slaughtered for you, enter the name of the establishment where slaughtered.

Item 4. Enter address of establishment where cattle were slaughtered, including City, County and State.

Item 5. Indicate by checking one of the spaces whether the establishment where the cattle were slaughtered was operated by you.

Item 6 (1). Enter separately by grades your base ceiling price for beef carcass in dollars per cwt. for each grade as shown in section 20 of CPR 24, as amended from time to time.

Item 6 (2). Enter the appropriate zone differential from section 40 of CPR 24, as amended from time to time, assuming that the distribution point is your slaughtering establishment.

Item 6 (3). Enter separately by grades in Item 6 (3) the sum of Items 6 (1) and (2).

Item 6 (5). Enter separately by grades in Item 6 (5) the result obtained by multiplying the amounts in Item 6 (3) by the conversion factors listed in Item 6 (4). These conversion factors are: Prime, 62%; Choice, 59%; Good, 56%; Commercial, 53%; Utility, 47%; Cutter and Canner, 43%; Bulls (all grades), 55%.

Item 6 (6). Enter separately in Item 6 (6) and Item 7 (6) the following amounts applicable to grades reported, depending upon the location of your slaughtering establishment.

	Plants in all States west of and including Montana, Wyoming, Colorado, and New Mexico	All other States and District of Columbia
Prime	$0.95	$1.10
Choice	1.00	1.15
Good	1.10	1.25
Commercial	1.20	1.35
Utility	1.20	1.35
Cutters and Canners	1.10	1.25
Bulls	.65	.80

Item 6 (7). Enter separately by grades in Item 6 (7) the result obtained by adding Item 6 (6) and Item 6 (5) rounded to the nearest 5 cents. The sums obtained by these additions are your respective maximum calculated prices, per cwt. of calculated live weight, by grades of steers, heifers, cows and stags, applicable in determining the maximum permissible cost of such cattle.

Item 7. The entries in Item 7 should be made in the same manner as the entries in Item 6.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154).

Effective date. This amendment shall become effective September 30, 1952.

NOTE: The record keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

[Ceiling Price Regulation 31, Amdt. 14, Correction]

CPR 31—IMPORTS

INCLUSION OF TIN IN APPENDIX A (5), CORRECTION

The word "impracticable" has been omitted from the end of the first sentence under Findings of the Director in the Statement of Considerations. The first sentence should read as follows: "In view of the nature of this amendment, special circumstances have rendered extensive consultation with industry representatives, including representatives of trade associations, impracticable."

[Ceiling Price Regulation 74, Amdt. 14]

CPR 74—CEILING PRICES OF PORK SOLD AT WHOLESALE

MISCELLANEOUS AMENDMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, Economic Stabilization Agency General Order 2, this Amendment 14 to Ceiling Price Regulation 74 is hereby issued.

STATEMENT OF CONSIDERATIONS

The accompanying amendment to Ceiling Price Regulation (CPR) 74 makes several substantive changes as well as certain clarifications and corrections of a minor nature.

1. Section 30 has been amended to make clear that on the sale of a dressed hog, denominator basis, where brokerage fees less than 17½ cents per hundredweight are paid by the seller, the ceiling price is reduced by the difference between the amount of the brokerage fees actually paid and 17½ cents per hundredweight.

2. This amendment provides that on a sale to a purveyor of meals, the distribution point may be the point where the meat is delivered to the carrier when the seller pays the actual shipping charges directly to the carrier and enters such shipping charges as a separate item on the invoice. This will permit many sellers to follow their usual practice of prepaying the shipping cost and adding it to the buyer's invoice.

3. Sections 46 and 47 have been amended to permit an addition to be taken on the sale of a center cut, shoulder end or ham end of loin by a hotel supply house or a combination distributor to a purveyor of meals. This will more closely reflect the normal profit margin on these sales in relation to the sales of other cuts.

4. The provisions of section 50 (Sales to defense procurement agencies or under defense procurement agency subcontracts) have permitted the seller to add the actual cost of transportation if the sale is made on a delivered basis, including when delivery is made by his own trucks. However, in the latter situation, it is very difficult, if not impossible, to calculate the actual transportation cost. On such a sale, hereafter, the seller must charge no more than the applicable local delivery addition specified in section 42

when he uses his own truck in making a delivery.

On a sale to a defense procurement agency or under a defense procurement agency subcontract the seller is no longer required to file, with the District Office of the Office of Price Stabilization, a signed statement itemizing the costs which he has added to determine his ceiling price. He must, nevertheless, make and preserve an itemized record of these costs, explaining how he determined them.

5. An addition has been provided for use of an outer shipping container to ship an edible pork by-product, listed in section 26, originally packed in a metal, fibre or watertight container that holds less than 15 pounds. The language of the shipping container addition in section 52 (b) has been reworded to make clear that the addition may be taken on sales by a slaughterer's branch house not physically attached to the slaughterer's plant.

6. The definition for canned whole picnic has been corrected to eliminate a typographical error.

In formulating this amendment, the Director of Price Stabilization has consulted so far as practicable with industry representatives, including trade association representatives, and has given full consideration to their recommendations. In his judgment the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of the act.

All standards prescribed in this amendment were, prior to the issuance of Ceiling Price Regulation 74, in general use in the meat industry. Such standards as are prescribed are indispensable to price control of pork, since no practicable alternative to such standardization exists for securing effective price control of this commodity. It is not believed that this amendment will cause any substantial changes in business practices, cost practices or methods, or means or aids to distribution; however, to the extent that such changes may be compelled, they are necessary to prevent circumvention or evasion of Ceiling Price Regulation 74, as amended.

AMENDATORY PROVISIONS

Ceiling Price Regulation 74 is amended in the following respects:

1. Section 30 is amended by deleting the fourth paragraph and by inserting a new paragraph therefor to read as follows:

The base price for dressed hogs, as determined under Schedule X, Section 30, shall include all charges for brokerage and no additions may be made for brokerage fees. If the seller pays no brokerage fees, the ceiling price shall be reduced by 17½ cents per hundredweight. If the seller pays brokerage fees in an amount less than 17½ cents per hundredweight, the ceiling price shall be reduced by the difference between the amount of the brokerage fee actually paid by the seller and 17½ cents per hundredweight.

2. Section 35 (a) (1) is amended to read as follows:

(1) The point at which the meat consigned to the purveyor of meals is delivered to a carrier for shipment to the purveyor, who pays the shipping charges directly to the carrier, or pays the seller, when the actual shipping charges are paid by the seller to the carrier and entered on the invoice to the buyer as a separate item; or

3. Section 46 (a) is amended by deleting item (9) and by substituting the following therefor:

(9) Loins—regular, bladeless, center cut, shoulder end, or ham end, $10.00.

4. Section 47 (a) is amended by deleting item (9) and by substituting the following therefor:

(9) Loins—regular, bladeless, center cut, shoulder end, or ham end, $7.50.

5. Section 50 (a) (6) is amended to read as follows:

(6) Actual cost of transportation if sold on a delivered basis and delivered by a common or contract carrier or the applicable local delivery addition specified in section 42 if sold on a delivered basis and delivered by a truck owned or leased by the seller. You may not, however, add any of the additions specified in sections 51, 52, or 54.

6. Section 50 (b) is amended to read as follows:

(b) If you make this selling addition, you must not only make and preserve the records required by section 11 (a), but you must also make and preserve an itemized record of the costs listed in section 50 (a), paragraphs (1) through (5), inclusive, which you have added to your ceiling price determined under the appropriate Schedule in Article II. This record must also explain how you determined these costs.

7. Section 52 (a) is amended by deleting the last paragraph thereof and by substituting the following paragraph therefor:

No more than one container addition may be taken on the sale of any one product with the following exception: When an outer shipping container is used to ship an edible pork by-product, listed in section 26, originally packed in a metal, fibre or watertight container that holds less than 15 pounds, you may take the applicable additions provided for both containers in this schedule.

8. Section 52 (b) is amended by deleting the last sentence and inserting the following sentence therefor: "This provision does not apply to a slaughterer except on sales made by a slaughterer's branch house not physically attached to his slaughtering plant."

9. Appendix 2 (c) (75) is amended to read as follows:

(75) *Canned whole picnic* means a cured whole picnic packed in a hermetically sealed tin container. The picnic shall be short shanked, completely skinned, boned and the external fat shall be trimmed to within ½ inch of the lean. The picnic shall be cooked according to good commercial practice. Gelatin may be added to each can to solidify the juices.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective on September 30, 1952.

NOTE: The record keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director
of Price Stabilization.

SEPTEMBER 25, 1952.

[Ceiling Price Regulation 117, Amdt. 3 to Revision 1]

CPR 117—MALT BEVERAGES

"SPECIAL PACKS" SOLD IN THE "BASE PERIOD"

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 3 to Revision 1 of Ceiling Price Regulation 117 is hereby issued.

STATEMENT OF CONSIDERATIONS

A so-called "special pack" case of malt beverages, as defined in Ceiling Price Regulation (CPR) 117, Revision 1, is a case in which the containers therein are packed in units of at least two and are customarily sold to consumers in those units. The most common "special pack" case, for example, is one holding four carry-home cartons of six containers each.

Only a small number of brewers sold "special packs" during the CPR 117, Revision 1, base period (May 24–June 24, 1950). However, the base period prices charged by most of those brewers for "special pack" items were the equivalent of at least 8 cents per case of 24 bottles and 5 cents per case of 24 cans higher than the prices charged for standard packs of the same items in bottles and cans, respectively. The Office of Price Stabilization found that those differentials were necessary to cover an appropriate amount of the added cost involved in producing "special packs." Therefore, for the great majority of brewers who did not sell "special packs" in the base period, CPR 117, Revision 1, provides that their ceiling prices for "special packs" reflect those differentials over their ceiling prices for standard packs.

A very few brewers who sold "special packs" in the base period, however, charged prices for them which did not reflect the equivalent of the 8-cent and 5-cent differentials (mentioned above) over their prices for standard packs. This resulted from the fact that "special packs" were new items for those few brewers and were experimentally priced during the base period at levels below what subsequently proved to be necessary to cover an appropriate part of the added production costs then incurred.

Since, under section 21 of CPR 117, Revision 1, the ceiling price for a "special pack" case sold during the base period is determined by adding to the base period price an amount to cover only certain cost increases experienced subsequent thereto, such brewers were unable to recover that appropriate part of the added costs initially incurred in producing "special packs." Consequently, there was excessive cost absorption on "special packs" not only by those few brewers but by other brewers who, even though they had higher ceiling prices, were forced for competitive reasons to meet the low prices of those few brewers.

This amendment remedies that situation by giving brewers who sold "special packs" during the base period the option to determine their ceiling prices for those packs either under section 21 or section 22 (e) of CPR 117, Revision 1. The ceiling prices arrived at by a brewer under section 22 (e) will be the equivalent of 8 cents per case of 24 bottles and 5 cents per case of 24 cans higher than his ceiling prices for standard packs of the same items in bottles and cans, respectively. In addition, provision is made for the recalculation of ceiling prices by those wholesalers who purchased "special packs" in the base period and, as a result of this amendment, are charged more for those "special packs" than their brewers' ceiling prices in effect before this amendment was issued. It is not necessary to make any special provisions for retailers, however, because the regulation already provides for recalculation of their ceiling prices whenever there is a change in their costs.

In the formulation of this amendment the Director of Price Stabilization has, to the extent practicable, consulted with industry representatives, including trade association representatives, and has given consideration to their recommendations. In the judgment of the Director this amendment is generally fair and equitable, is necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and complies with all the applicable standards of the act.

AMENDATORY PROVISIONS

Ceiling Price Regulation (CPR) 117, Revision 1, is amended in the following respects:

1. Paragraph (c) of section 21 is amended to read as follows:

(c) (1) Add together your "base period" price (determined in paragraph (a)) and the applicable dollar-and-cent "permitted increase" figure (determined in paragraph (b)). The resulting figure is your ceiling price for sales of the item to the particular class of purchaser and is (i) an f. o. b. price, if your "base period" price was an f. o. b. price; (ii) a delivered price, if your "base period" price was a delivered price. That price, however, may be adjusted or modified under the provisions of subparagraph (c) (2) of this section and sections 70, 71, 76, 77, and 78 of this regulation, if applicable. In addition, you must comply with the notification provisions of section 27 (b) of this regulation, if that section applies to you, and of section 28.

(2) If, during the "base period," you sold or offered for sale to a class of purchaser a "special pack" case (defined in section 90 (b) (3)) of 11, 11½, or 12-ounce containers of an item you may, instead of using the ceiling price determined under this section 21 for sales of the item to that class of purchaser, calculate your ceiling price for such sales under section 22 (e). In calculating your ceiling price under section 22 (e) you may assume that you cannot determine your ceiling price for the item under paragraph (b), (c) or (d) of section 22 and you may regard a "special pack" case as an item of a different container size and container type (as well as case size) from a case which is not a "special pack" case. In no event, however, may you calculate your ceiling under section 23, 24, or 25, despite the reference to those sections in section 22 (e). Finally, if you do determine your ceiling price for sale of a "special pack" case of an item under section 22 (e), then the notice of that ceiling price which you are required to give your purchaser under section 28 (b) must, in addition to the other information required, state that such price was determined as permitted under section 21 (c) (2) of CPR 117, Revision 1.

2. The first unnumbered paragraph of section 31 is changed to read as follows:

SEC. 31. *How a wholesaler is to determine his ceiling prices for items dealt in during the "base period."* This section applies to you if you are a wholesaler who sells to a particular class of purchaser an item (defined in section 90 (b) (8)) of imported or domestic malt beverages which you sold or offered for sale to that same class of purchaser during the "base period." However, if during the "base period" you sold a "special pack" case (defined in section 90 (b) (3)) of 11, 11½ or 12-ounce containers of a particular item, and have received a notice from your brewer stating that he determined his ceiling price for that "special pack" item as permitted under section 21 (c) (2) of CPR 117, Revision 1, you may determine your ceiling price for sales of that item either under this section 31 or under section 32, 33, 34 or 36, whichever applies. (Note that in determining your ceiling price for sales of a "special pack" item to a particular class of purchaser under section 32, 33, 34 or 36, you may assume that you cannot determine your ceiling price for such sales under section 31.) If this section 31 applies to you (or if you choose to use this section for those "special pack" items mentioned above) you must figure your ceiling price for sales of an item sold or offered for sale during the "base period" to a class of purchaser (except your ceiling price for delivered sales to consumers, to which section 35 applies) as follows:

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 3 to Ceiling Price Regulation 117, Revision 1, is effective September 30, 1952.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director
of Price Stabilization.

SEPTEMBER 25, 1952.

[F. R. Doc. 52-10558; Filed, Sept. 25, 1952; 11:37 a. m.]

[Ceiling Price Regulation 129, Amdt. 2]

CPR 129—CEILING PRICES FOR HORSEMEAT PRODUCTS

MISCELLANEOUS AMENDMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order 2, Delegation of Authority by the Secretary of Agriculture to the Economic Stabilization Agency with respect to meat, as amended, and Economic Stabilization Agency General Order 5, Revision, this Amendment 2 to Ceiling Price Regulation 129 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment makes the following changes in CPR–129:

1. For some time, the Office of Price Stabilization has been investigating representations by certain segments of the industry covered by CPR 129 to the effect that this regulation did not provide a sufficient mark-up on sales exceeding 100 pounds of horsemeat per day, by slaughterers to zoos, animal hospitals, kennels, research laboratories and other buyers who do not purchase for resale. Additional data now available indicate that the expense involved in making sales and deliveries to some of these types of purchasers was not adequately covered by the regulation. As a result, it appears that many slaughterers were unable to accept orders from these types of buyers, particularly where the total sale did not amount to at least 1,000 pounds of horsemeat. To enable slaughterers to continue to supply the horsemeat requirements of these buyers, a special mark-up for slaughterers who sell less than 1,000 pounds per day to these classes of buyers has been provided.

2. In large metropolitan cities the distribution of beef, pork, lamb, and veal had been performed to a great extent by peddler truck sellers. However, in formulating the provisions of CPR 129, it was not deemed necessary to provide for this type of seller since there was then no evidence available indicating that peddler truck operators participated in the distribution of horsemeat. Since the issuance of the regulation, evidence of the existence of peddler truck sellers in the horsemeat business has been received by the Office of Price Stabilization. Accordingly, this amendment provides an appropriate mark-up for peddler truck sellers who handle horsemeat. This mark-up covers both the seller's addition and the local delivery allowance.

3. Sellers of packaged horsemeat have demonstrated that the amount permitted

in the regulation for small cartons was insufficient to cover the actual cost of the container and the expense incurred in packaging the horsemeat in these containers. Accordingly, sellers who sell ground horsemeat packaged in wax-lined containers weighing not more than 5 pounds each are now authorized to add an additional 1 cent per pound.

4. Section 21, Schedule II (Sales at Retail) has been amended to establish special prices for steaks and roasts derived from the ribs and loins of the horse carcass. A considerable amount of trimming is required to remove the fat and perspiration glands so as to make the horsemeat more palatable and acceptable. In order to maintain a proper operating margin for retailers, two new items are added by this amendment to provide for steaks and roasts from ribs and loins completely trimmed for human consumption.

5. A review of the applications from a number of the processors of canned horsemeat who had submitted requests for revised ceiling prices, disclosed that the percentage of horsemeat in each can ranged from 25 percent to 30 percent of the total ingredients. In order to avoid a widespread change in the standard formulae for several of the leading dog food products, this amendment changes the 30 percent horsemeat cut off between the major price classes of these products to 25 percent, so that the lowest price range will cover products containing from 5 percent to 25 percent horsemeat, and the next price range will cover products containing from 25 percent to 80 percent horsemeat. This change in specifications is not of a sufficient magnitude to warrant a revision in the prices for the various types of canned horsemeat.

6. A new definition of a "peddler truck sale" is added to Section 30. Also the definition of the term "wholesaler" has been amended in order to accomplish the objectives referred to in item 1 of this statement of considerations. Finally, the definition of the term "hindquarter" has been revised at the request of industry. These definition changes will in effect conform the applicable provisions of this regulation to the customary practices of the industry.

In formulating this amendment, the Director of Price Stabilization has consulted so far as practicable with industry representatives, including trade association representatives, and has given full consideration to their recommendations. In his judgment the provisions of this regulation are generally fair and equitable, are necessary to effectuate the purposes of Titles I and IV of the Defense Production Act of 1950, as amended, are necessary and appropriate to promote the national defense, and comply with all the applicable standards of the Act.

All standards prescribed in this amendment were, prior to the issuance of Ceiling Price Regulation 129, in general use in the meat industry. Such standards as are prescribed are indispensable to price control of horsemeat, since no practicable alternative to such standardization exists for securing effective price control of this commodity. It is not believed that this amendment will cause any substantial changes in business practices, cost practices or methods, or means or aids to distribution; however, to the extent that such changes may be compelled, they are necessary to prevent circumvention or evasion of Ceiling Price Regulation 129, as amended.

AMENDATORY PROVISIONS

Ceiling Price Regulation 129 is amended in the following respects:

1. Section 20, Schedule I, is amended by changing Item 1 under "Special Adjustments for Schedule I" to read as follows:

1. For sales by a slaughterer to buyers other than "wholesalers", you may add $3.00 per hundredweight to the ceiling prices specified above. If you are a "wholesaler" you may add $3.00 per hundredweight to the ceiling prices specified above. See section 30 (k) for definition of "wholesaler."

2. Section 20, Schedule I, is further amended by adding a new Item 6 under "Special Adjustments for Schedule I" to read as follows:

6. On a "peddler truck sale" delivered to the buyer's store door or to a delivery point designated by the buyer, you may add $5.00 per hundredweight to the ceiling prices listed above. No additional charge may be made for local delivery. See section 30 (m) for definition of a "peddler truck sale."

3. Section 20, Schedule I, is further amended by adding a new Item 7 under "Special Adjustments for Schedule I" to read as follows:

7. If you sell any of the products priced under Items 5 (a), 5 (b), 6 (a) or 6 (b) of Schedule I, packaged in a wax-lined container, you may add $1.00 per hundredweight to the prices listed above.

4. Section 21, Schedule II is amended by adding two new items, 11 and 12, to Schedule II to read as follows:

	Inspected		Uninspected	
	Zones 1 and 3	Zone 2	Zones 1 and 3	Zone 2
11. Steaks and roasts [1] (boneless)	38	36	36	33
12. Tenderloin steaks [1]	50	47	47	43

[1] Steaks and Roasts in Items 11 and 12 of Schedule II must be derived from the loin or rib only and must be completely trimmed with all fat and perspiration glands removed.

5. Section 22, Schedule III is amended by changing Items 3 and 4 of Schedule III to read as follows:

	Inspected		Uninspected	
	Zones 1 and 3	Zone 2	Zones 1 and 3	Zone 2
3. Containing 25 percent or more, but less than 80 percent horsemeat	6.70	6.10	6.10	5.50
4. Containing 5 percent or more, but less than 25 percent horsemeat	4.80	4.60	4.60	4.40

6. Section 30 (k) is amended to read as follows:

(k) "Wholesaler" means a person:

(1) Who buys horsemeat for resale; and

(2) Who is not affiliated with any slaughtering plant or facilities engaged in the slaughtering of horses or, if so affiliated, whose affiliation does not amount to an interest or equity of more than 50 percent. By such an affiliation which is not more than 50 percent is meant the relationship between two persons where neither owns nor controls more than 50 percent of the other, and no more than 50 percent of either is owned or controlled by the same person.

For the purpose of this regulation any person, other than a retailer, who buys more than 1,000 pounds of horsemeat in any one day and who meets the foregoing requirements, except that he does not buy horsemeat for resale, shall be regarded as a "wholesaler."

7. A new section 30 (m) is added to read as follows:

(m) "Peddler truck sale" means a sale of wholesale horsemeat cuts or boneless horsemeat from stock carried in a truck where:

(1) The seller's first record of the transaction is made concurrently with the delivery of the product sold and the total delivery to one establishment does not consist of more than 500 pounds of horsemeat during any single day;

(2) The seller does not sell or deal in meat in any manner other than sales out of stock carried in a truck driven by him; and

(3) The seller has sold meat in this manner at any time between January 1, 1950, and March 14, 1952.

8. Section 32 (m) is amended to read as follows:

(m) "Hindquarter" means the posterior portion of the horse carcass and shall contain not more than 4 ribs.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective September 30, 1952.

JOSEPH H. FREEHILL,
Acting Director
of Price Stabilization.

SEPTEMBER 25, 1952.

[F. R. Doc. 52-10559; Filed, Sept. 25, 1952; 11:37 a. m.]

[General Overriding Regulation 7, Revision 1, Amdt. 9]

GOR 7—EXEMPTIONS AND SUSPENSIONS OF CERTAIN FOOD AND RESTAURANT COMMODITIES

PROCESSED DUCKS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 9 to General Overriding Regulation 7, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 7, Revision 1, suspends the provisions of Ceiling Price Regulation (CPR) 79, Revision 1, and all other regulations dealing with processed ducks on and after September 25, 1952, except those dealing with routine record-keeping. This action is taken in line with the general policy of the Office of Price Stabilization relating to suspension or relaxation of price controls. In accordance with that policy the Director of Price Stabilization has re-examined market conditions of processed ducks and determined that market prices of processed ducks are and have been for some time substantially below ceilings. For example, current wholesale selling prices of fresh dressed ducks in barrels at New York are 27½–28½ cents per pound while the comparable ceiling price is 32½ cents per pound. Selling prices are likely to remain below ceiling prices in the foreseeable future, short of a worsening of the international situation and a sudden and unexpected development of a very tight supply situation. Absent these factors, production of ducks during the 1952–53 marketing year (April 1–March 31) may be about 6 percent above last year. Furthermore, cold storage holdings of ducks on September 1, 1952, were at record levels. Supplies of chicken and turkey, which compete to some extent with ducks, will also be plentiful throughout 1952, and prices for these are below legal minima.

Further continuance of price controls on processed ducks appears, therefore, unnecessary and imposes upon the OPS an administrative burden out of all proportion to the importance of maintaining control on this commodity or to the expected benefits in terms of price stabilization. Hence, this commodity conforms to the requirements of the OPS suspension standards. The Office of Price Stabilization will continue, however, to observe market prices and, should they rise unduly despite the present expectations to the contrary, the Director of Price Stabilization will consider immediate termination of this suspension action. In case of termination of this suspension, the Director may, if such action should then appear necessary, revise the present CPR 79, Revision 1, ceilings for processed ducks in order to comply with all the applicable standards of the Defense Production Act of 1950, as amended.

In the formulation of this amendment special circumstances have rendered it impractical to consult with official advisory committees or trade association representatives. The provisions of this regulation conform, however, with the recommendations of persons representing substantial segments of the industry.

AMENDATORY PROVISIONS

General Overriding Regulation 7, Revision 1, is amended by the addition of section 12 to article III to read as follows:

SEC. 12. *Suspension of controls applicable to processed ducks.* On and after September 25, 1952, the application of the provisions contained in CPR 79, Revision 1, relating to the sales of processed ducks, and any other ceiling price regulation, heretofore or hereafter issued by the OPS relating to processed ducks, is suspended. If, however, you were required by CPR 79, Revision 1, or any other regulation heretofore issued to keep, prepare, or preserve any record concerning this commodity, you shall continue to preserve and make available for examination by the Office of Price Stabilization, in the manner and for the period set forth in that regulation, all such records which you were required to have on September 24, 1952. In addition, the Director of Price Stabilization or his authorized representative may, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942, request or require you to submit data pertaining to price changes for this commodity after September 24, 1952. This suspension will continue unless and until the Director of Price Stabilization terminates or modifies the suspension.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date: This Amendment 9 to General Overriding Regulation 7, Revision 1, is effective September 25, 1952.

NOTE: The record-keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director
of Price Stabilization.

SEPTEMBER 25, 1952.

[F. R. Doc. 52-10561; Filed, Sept. 25, 1952; 11:38 a .m.]

[General Overriding Regulation 34, Amdt. 1]

GOR 34—EXEMPTION OF CERTAIN LUMBER AND WOOD PRODUCTS

EXEMPTION OF FANCY FACE VENEER, WALNUT LUMBER AND WALNUT GUNSTOCK BLANKS, WOODEN MINE MATERIALS, AND CERTAIN UNTREATED POLES, PILING AND FENCE POSTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization General Order No. 2, this Amendment 1 to General Overriding Regulation 34 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 34 exempts from price control fancy face veneer, Walnut lumber and Walnut gunstock blanks, primary producers' sales of all species of untreated fence posts, primary producers' sales of wooden mine materials except those covered by Ceiling Price Regulation 128, and primary producers' sales of the following items in untreated condition produced in the United States east of the 100th Meridian: Northern White Cedar, Jack Pine and Norway Pine poles and piling.

The items hereby exempted are relatively unimportant factors in business or living costs. The decision to exempt these items was made because of the heavy administrative burden entailed in maintaining price controls over them, and because the establishment of specific industry-wide ceilings in the areas involved for fancy face veneer, wooden mine materials, and poles, piling and fence posts is not considered feasible.

All items covered by this amendment except fancy face veneer and Walnut lumber and Walnut gunstock blanks are exempted from price controls only at the primary producer level of sales. The exemption of fancy face veneer is not limited to the producers' level because most of this material is sold by the producers directly to users. Walnut lumber and Walnut gunstock blanks are exempted at all levels.

Fancy face veneer is cabinet wood veneer not thicker than ⅛", designed for use on the exposed surface of a panel. It has individual decorative characteristics, and is either selected from flitch stock samples or manufactured to buyer's technical specifications as to thickness, size, color, species, and design. Fancy face veneer is produced from only the highest grade logs. The value of each piece is determined by expert appraisal of its quality and peculiar characteristics. Since no standard pricing technique has been developed in this industry, the establishment of effective ceiling prices would involve administrative and enforcement burdens far beyond any possible benefits under the stabilization program.

Walnut lumber and gunstock blanks are of minor commercial importance. Most gunstock blanks sold to or for the government have been exempt from price control under General Overriding Regulation 2.

The wooden mine materials industry consists essentially of many small portable sawmill operators, producing on an individual contract basis. The products of this industry are a minor item in the cost of producing coal, various ores, or metals. Any increase in the price of wooden mine materials, therefore, would not appreciably affect other prices. The determination and administration of equitable price ceilings for this industry, except in the Pacific Northwest Douglas Fir area, is not practicable because of the problem of collecting data and lack of standardization in products. The exemption of this commodity as provided by this action will not cause any appreciable diversion of timber or manpower into the production of mine materials because of the limited demand for these products.

The untreated poles, piling and fence posts covered by this amendment are of minor importance and are produced by

numerous small operators. The prices for these items will be effectively stabilized by the ceilings on competing products.

In formulating this amendment the Director of Price Stabilization has consulted extensively with industry representatives, including trade association representatives, and has given full consideration to their recommendations. In his opinion the exemptions provided by this amendment will not defeat or impair the objectives of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

General Overriding Regulation 34 is amended as follows:

1. Section 2 is amended by adding six new paragraphs to read as follows:

(b) Fancy-face wood veneer.

(c) Walnut (Juglans nigra) lumber and Walnut gunstock blanks.

(d) Primary producers' sales of wooden mine materials except those covered by Ceiling Price Regulation 123 (applicable to Pacific Northwest Douglas Fir, True Fir, and West Coast Hemlock lumber).

(e) Primary producers' sales of untreated Northern White Cedar, Jack Pine and Norway Pine poles produced in the United States east of the one-hundredth meridian, and sold for use as supports for transmission or communication lines.

(f) Primary producers' sales of untreated Northern White Cedar, Jack Pine and Norway Pine piling produced in the United States east of the one-hundredth meridian, and sold for use as a piling foundation for construction purposes.

(g) Primary producers' sales of untreated fence posts of any species for use in fence construction.

2. Section 3 is amended by adding six new paragraphs to read as follows:

(b) As used in paragraph (b) of section 2, "Fancy face wood veneer" means cabinet wood veneer, not more than 1/8" thick, for use on the exposed surface of a panel, having individual decorative characteristics, and either selected from flitch stock samples or manufactured to buyer's technical specifications as to thickness, size, color, species and design.

(c) As used in paragraph (c) of section 2, "Walnut gunstock blank" means green, air-dried or kiln-dried Walnut lumber suitable for manufacture into the wooden portion of portable firearms.

(d) As used in paragraph (d) of section 2, "Wooden mine materials" means wooden props (rough timber segments) from which any of the following enumerated items are made for use in mines: Mine ties, switch ties, cross bars, cribbing, lagging, posts, caps, wedges, stull timber, pit posts, pit blocks, and timber used in underground mining. The term does not include mine car timber, as defined in the "Rules for the Measurement and Inspection of Hardwood Lumber, Cypress, Veneers, and Thin Lumber," effective January 1, 1952, published by the National Hardwood Lumber Association.

(e) As used in paragraph (e) of section 2, "Pole" means any round, peeled or unpeeled, section of a tree longer than 14 feet, suitable for the support of transmission or communication lines at varying heights above the ground.

(f) As used in paragraph (f) of section 2, "Piling" means any round, peeled or unpeeled, section of a tree longer than 14 feet, suitable for driving in the ground to form a foundation for construction purposes, such as for wharves, bulkheads, bridges, and buildings.

(g) As used in paragraph (g) of section 2, "Fence post" means any round, hewn or split, peeled or unpeeled, section of a tree not more than 14 feet in length, suitable for use in fence construction.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective September 25, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[S. O. 869, Amdt. 6]

PART 95—CAR SERVICE

USE OF REFRIGERATOR CARS FOR CERTAIN COMMODITIES PROHIBITED

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 22d day of September A. D. 1952.

Upon further consideration of Service Order No. 869 (15 F. R. 8824, 9109; 16 F. R. 2040, 3619, 10994; 17 F. R. 2765); and good cause appearing therefor: It is ordered, that:

Section 95.869 *Use of refrigerator cars for certain commodities prohibited,* of Service Order No. 869 be, and it is hereby amended by substituting the following paragraph (f) hereof for paragraph (f) thereof:

(f) *Expiration date.* This section shall expire at 11:59 p. m., March 31, 1953, unless otherwise modified, changed, suspended or annulled by order of this Commission.

It is further ordered, that this amendment shall become effective at 11:59 p. m., September 30, 1952, and that a copy of this order and direction shall be served upon the State railroad regulatory body of each State and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies secs. 1, 15, 24 Stat. 379, as amended, 384, as amended; 49 U. S. C. 1, 15)

By the Commission, Division 3.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[S. O. 690-A]

PART 95—CAR SERVICE

RESTRICTIONS ON MOVEMENT OF UNBILLED BITUMINOUS COAL

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 22d day of September A. D. 1952.

Upon further consideration of Service Order No. 890 (17 F. R. 8489) and good cause appearing therefor: It is ordered, that:

Section 95.890 *Restrictions on movement of unbilled bituminous coal,* be and it is hereby vacated and set aside.

It is further ordered, that this order shall become effective at 11:00 a. m., September 22, 1952; that a copy of this order shall be served upon the State railroad regulatory bodies of each State, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies secs. 1, 15, 24 Stat. 379, as amended, 384, as amended; 49 U. S. C. 1, 15)

By the Commission, Division 3.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[F. R. Doc. 52-10445; Filed, Sept. 25, 1952; 8:47 a. m.]

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter C—Management of Wildlife Conservation Areas

PART 33—CENTRAL REGION

SUBPART—LAKE ILO NATIONAL WILDLIFE REFUGE, NORTH DAKOTA

FISHING

Basis and purpose. On the basis of observations and reports of field representatives of the Fish and Wildlife Service, it has been determined that public fishing and the use of boats, including motorboats, for the purpose of fishing can be permitted without interfering with the primary purpose of the area.

Since the following regulations are relaxations of existing restrictions concerning fishing and boating on the refuge, notice and public procedure thereon are not required (60 Stat. 237; 5 U. S. C. 1001, et seq.).

Effective immediately upon publication in the FEDERAL REGISTER, §§ 33.121 through 33.128, inclusive, are added:

SUBPART—LAKE ILO NATIONAL WILDLIFE REFUGE, NORTH DAKOTA

FISHING

Sec.
33.121 Fishing permitted.
33.122 Waters open to fishing.
33.123 State fishing laws.
33.124 Fishing licenses and permits.
33.125 Routes of travel.
33.126 Use of boats.
33.127 Shore line fishing.
33.128 Temporary restrictions.

AUTHORITY: §§ 33.121 to 33.128 issued under sec. 10, 45 Stat. 1224; 16 U. S. C. 715i.

§ 33.121 *Fishing permitted.* Noncommercial fishing is permitted in the waters of the Lake Ilo National Wildlife Refuge, North Dakota, as specified in § 33.122, during the daylight hours of the period May 16 to September 15, inclusive, and from December 1 to March 1, inclusive, of each year in accordance with the provisions of Parts 18 and 21 of this subchapter, and subject to the conditions, restrictions, and requirements of §§ 33.122 to 33.128, inclusive.

§ 33.122 *Waters open to fishing.* The waters of Lake Ilo lying within sections 27, 28, and 29, T. 145 N., R. 94 and 95 W., fifth principal meridian, as designated by suitable buoy markers, shall be open to fishing. Winter fishing shall be permitted on the entire lake.

§ 33.123 *State fishing laws.* Any person who fishes within the refuge must comply with the applicable fishing laws of the State of North Dakota. Fishing under §§ 33.121 to 33.128, inclusive, shall be by hook and line only, as defined by State law.

§ 33.124 *Fishing licenses and permits.* Any person who fishes within the refuge shall be in possession of a valid fishing license issued by the North Dakota Game and Fish Department, if such license is required. This license shall serve as a Federal permit for fishing in the specified waters of the refuge, and must be exhibited upon the request of any representative of the North Dakota Game and Fish Department or the Fish and Wildlife Service.

§ 33.125 *Routes of travel.* Persons entering the refuge for the purpose of fishing shall follow such routes of travel as may be designated by suitable posting by the officer in charge of the refuge.

§ 33.126 *Use of boats.* The use of motorboats, either inboard or outboard, not to exceed 6-horsepower, for fishing purposes only, is permitted. The use of racing craft, powered by either inboard or outboard motors, is prohibited. Boats may be launched and landed only at points designated by suitable posting by the officer in charge of the refuge. The use of rowboats, canoes, or sailboats is permitted in all waters open to fishing.

§ 33.127 *Shore line fishing.* Fishing from the shore line is permitted on the north shore from the center of section 28, T. 145 N., R. 95 W., 5th P. M., eastward around the shore line to the parking area southwest of the refuge headquarters, as designated by posting by the refuge officer.

§ 33.128 *Temporary restrictions.* During periods of waterfowl concentrations on the refuge, fishing will not be permitted in such areas of the refuge as, in the judgment of the officer in charge, should be closed to fishing in order to provide adequate protection for such waterfowl concentrations and are suitably posted by such officer.

Dated: September 19, 1952.

O. H. JOHNSON,
Acting Director.

[F. R. Doc. 52-10431; Filed, Sept. 25, 1952; 8:45 a. m.]

Subchapter F—Alaska Commercial Fisheries

PERMISSION TO FISH FOR CHUM SALMON AND DUNGENESS CRABS IN CERTAIN WATERS

Basis and purpose. On the basis of facts obtained by field representatives of the Fish and Wildlife Service, it has been determined that: (1) There is an abundance of chum salmon, in excess of spawning requirements, in certain bays and inlets of Southeastern Alaska which can be taken for commercial purposes without interfering unduly with pink salmon escapements; and (2) that Dungeness crabs of excellent quality are presently available in Orca Inlet in Prince William Sound. Therefore, the following amendment is adopted to become effective immediately.

PART 111—PRINCE WILLIAM SOUND AREA

Section 111.20 is amended by deleting the proviso.

PART 117—SOUTHEASTERN ALASKA AREA, ICY STRAIT DISTRICT, SALMON FISHERIES

Section 117.4 is amended to permit fishing for chum salmon in the open waters of Excursion Inlet from 6 o'clock antemeridian September 25 to 6 o'clock antemeridian October 6: *Provided,* That all fishing boats must be registered with the local representative of the Fish and Wildlife Service before leaving Excursion Inlet during this period with salmon on board.

PART 118—SOUTHEASTERN ALASKA AREA, WESTERN DISTRICT, SALMON FISHERIES

Section 118.6 is amended to permit fishing for chum salmon in the open waters of Hood Bay and Chiak Bay from 6 o'clock antemeridian September 25, to 6 o'clock antemeridian October 6: *Provided,* That all fishing boats must be registered with the local representative of the Fish and Wildlife Service before leaving Hood Bay or Chiak Bay during this period with salmon on board.

PART 119—SOUTHEASTERN ALASKA AREA, EASTERN DISTRICT, SALMON FISHERIES

Section 119.3 is amended to permit fishing for chum salmon in the open

waters of Security Bay and Port Camden from 6 o'clock antemeridian September 25 to 6 o'clock antemeridian October 6: *Provided*, That all fishing boats must be registered with the local representative of the Fish and Wildlife Service before leaving Security Bay or Port Camden during this period with salmon on board.

PART 122—SOUTHEASTERN ALASKA AREA, CLARENCE STRAIT DISTRICT, SALMON FISHERIES

Section 122.5 is amended to permit fishing for chum salmon in the open waters of Cholmondeley Sound from 6 o'clock antemeridian September 25 to 6 o'clock antemeridian October 6: *Provided*, That all fishing boats must be registered with the local representative of the Fish and Wildlife Service before leaving Cholmondeley Sound during this period with salmon on board.

(44 Stat. 752; 48 U. S. C. 221)

ALBERT M. DAY,
Director.

[F. R. Doc. 52-10430; Filed, Sept. 25, 1952; 8:45 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 943]

[Docket No. AO-231-A2]

HANDLING OF MILK IN THE NORTH TEXAS MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER AMENDING ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Dallas, Texas, on September 16, 1952, pursuant to notice thereof which was issued on September 9, 1952 (17 F. R. 8218).

The material issues of record related to:

1. The level of the Class I price for a limited period; and

2. The necessity for prompt action which would prelude the issuance of a recommended decision.

Findings and conclusions. Upon the evidence adduced at the hearing and the record thereof it is hereby found and concluded that:

1. The formula price for Class I milk should be increased 46 cents per hundredweight for the months of October 1952 through February 1953 and 23 cents for the month of March 1953; this should be accomplished by providing that for these months the differential to be added to basic formula prices be increased by these amounts.

For the second year in succession the production area of the North Texas milkshed has experienced a disastrous drought. As of September 1 the official crop production report of the Department lists practically the entire area as one of extreme drought with the remaining portion in the severe drought classification. Pastures have failed and yields of hay and forage crops have been reduced to a fraction of normal. The cumulative effects of the two year drought make the situation particularly critical for milk production in this area during the coming winter season. Producers have for some time been forced by the failure of their pastures to feed hay during the normal pasture season. With yields of hay sharply reduced by the drought and an extended feeding season producers will need to increase their cash outlays for feed substantially if they are to keep their herds in production.

The 1952 drought covered a much more extensive area than that of 1951. As a result the areas in nearby States from which hay supplies were imported last year by North Texas producers must import hay for their own needs. The competition for supplies and increased transportation costs has resulted in prices of $55 to $60 for alfalfa hay to farmers in the area. There are prospects that the hay program of the Department for drought areas will reduce hay prices. No deliveries under the program were reported at the time of the hearing.

While the North Texas market has shown a steady increase in the number of producers since the order first became effective in September 1951, sales have also increased, and the market is not adequately supplied with milk. In August 1.5 million pounds of other source milk were classified as Class I milk. Many of the new producers entering the market have been from areas in Arkansas, Oklahoma, and Missouri, which are also affected by drought.

With present prospects for milk production there will be a critical shortage of milk in this area unless there is some price incentive for dairymen to incur the costs necessary to continue milk production and avoid the dispersal of producing herds. Handlers have recognized that there is such a need by paying more than the minimum prices of the order for milk delivered the last week or ten days of August. All interests in the market are agreed that the Class I price of the order should be increased for the coming fall and winter season.

Since May the Class I price of the North Texas order has been $6.68, a "floor" price established for the months of May through September. Producers proposed that a "floor" price of $7.40 be established for the months of October through March. For milk received during the latter part of August handlers paid premiums varying from 36 to 61 cents over the $6.47 uniform price for August milk. Approximately half the handlers paid the 36-cent premium, another large group paid a premium of 57 cents and one handler paid a premium of 61 cents.

A consideration of the factors involved in the current condition in the North Texas market leads to the conclusion that the temporary increase required by drought conditions should be effected by increasing the Class I differential of the order rather than by the establishment of a fixed "floor" price. One of the reasons handlers are paying premiums to maintain local production is the high cost of imported supplies of approved milk. Changes in the costs of imported milk follow to considerable degree changes which occur in the basic formula price of the North Texas order. Changes in basic formula prices could easily change the relationship between any fixed "floor" price and the prices of other Federally regulated markets with which the North Texas market competes for producers. This is especially important with respect to the Springfield, Missouri, market, from which approximately 100 producers entered the North Texas market in August.

The present Class I differential of the North Texas order is $2.20 for the months of July through March. An increase of 46 cents in this differential is appropriate at this time in view of the present conditions in the North Texas market, and is approximately the same as the increases granted in competing markets also affected by drought conditions.

A temporary change in the Class I differential which will provide that formula prices rather than "floor" prices to be effective order prices will permit changes in the Class I price of the order to be determined by the basic formula price and supply-demand adjustment provisions of the order, which represent, respectively, the national market for milk or milk products and the relationship of local supplies to sales. Basic formula prices are increasing at this time. Official notice is taken of the fact that condensery pay prices for the first fifteen days of September advanced 17 cents (on a 4 percent milk basis) over the August average. The supply-demand adjustment provision of the North Texas order will provide an upward adjustment of 17.5 cents in the October price. Based on these factors and a Class I differential of $2.66 (the present $2.20 differential plus 46 cents) the October order Class I price would be $7.323, which is approximately the level proposed as a "floor" price. Under provisions already in the order, the Class I price cannot decrease from October through December.

There is little indication that production conditions in the North Texas milkshed will improve to any appreciable extent prior to March 1953. For the month of March the increase in the differential should be 23 cents rather than 46 cents in view of the near approach of the spring season when production conditions may be expected to improve.

2. The due and timely execution of the function of the Secretary under the act imperatively and unavoidably requires the omission of a recommended decision by the Assistant Administrator, Production and Marketing Administration, and the opportunity for exception thereto, on the above issues.

The conditions complained of are such that it is urgent that remedial action be taken as soon as possible. Delay beyond the minimum time required to make the attached order effective would defeat the purpose of such amendment. Accordingly, the time necessarily involved in the preparation, filing, and publication of a recommended decision, and exceptions thereto, would make such relief ineffective. The propriety of omitting the recommended decision and opportunity for filing exceptions thereto with respect to the proposals here considered was indicated on the record.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of producers and handlers who would be subject to the proposed marketing agreement and order, as amended, and as hereby proposed to be further amended. The briefs contained suggested findings of fact, conclusions, and arguments with respect to the proposals discussed at the hearing. Every point covered in the briefs was carefully considered along with evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the suggested findings and conclusions contained in the briefs are inconsistent with the findings and conclusions contained herein, the requests to make such findings or to reach such findings or to reach such conclusions are denied on the basis of the facts found and stated in connection with the findings and conclusions in this decision.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

Determination of representative period. The month of August 1952 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order amending the order, as amended, regulating the handling of milk in the North Texas marketing area in the manner set forth in the attached amending order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such order, as amended.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled "Marketing Agreement Regulating the Handling of Milk in the North Texas Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the North Texas Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 24th day of September 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Order[1] Amending the Order Regulating the Handling of Milk in the North Texas Marketing Area

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

§ 943.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the North Texas marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies of and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the North Texas marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended as follows:

1. Delete § 943.51 (a) (3) and substitute therefor the following:

(3) For each of the months of October 1952 through February 1953 the amount to be added to the basic formula price shall be $2.66 in lieu of $2.20, and for the month of March 1953 such amount shall be $2.43 in lieu of $2.20.

[F. R. Doc. 52-10553; Filed, Sept. 25, 1952; 8:48 a. m.]

INTERSTATE COMMERCE COMMISSION

[49 CFR Parts 72–74, 77, 78]

[Docket No. 3666; Notice 8]

TRANSPORTATION OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

NOTICE OF PROPOSED RULE MAKING

SEPTEMBER 19, 1952.

The Commission is in receipt of applications for early amendment of the above entitled regulations insofar as they apply to shippers in the preparation of articles for transportation, and to all carriers by rail and highway, as published in orders pursuant to section 835, of the Criminal Code, and Part II of the Interstate Commerce Act.

Application for these amendments ordinarily would be considered at our next hearing in this docket. It appears, however, that the proposed amendments have been the subject of exchanges and study by interested parties, in which substantial agreement has been reached, and it is proposed that the applications be disposed of by modified procedure. The reasons for the proposed amendments are shown in the appendix, hereof.

Any party desiring to be heard upon any of the proposed amendments shall advise the Commission in writing within 20 days from the date of this notice; otherwise, the Commission may proceed to investigate and determine the matters involved in the application, or may suspend action pending formal hearing in this docket.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

PART 72—COMMODITY LIST OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES CONTAINING THE SHIPPING NAME OR DESCRIPTION OF ALL ARTICLES SUBJECT TO PARTS 71–78 OF THIS CHAPTER

Amend Commodity List (15 F. R. 8265, 8266, 8269, 8270, 8272, Dec. 2, 1950) (17 F. R. 1558, Feb. 20, 1952; 17 F. R. 4293, May 10, 1952; 17 F. R. 7279, Aug. 9, 1952) (49 CFR 72.5, 1950 Rev.) as follows:

§ 72.5 *List of explosives and other dangerous articles.* (a) * * *

Article	Classed as—	Exemptions and packing (see sec.)	Label required if not exempt	Maximum quantity in 1 outside container by rail express
Change				
Dimethylamine, anhydrous	F. G.	73.302, 73.308, 73,314, 73.315.	Red Gas	300 pounds.
Engines, internal combustion	See § 73.120.			
Monomethylamine, anhydrous	F. G.	73.302, 73.308, 73.314, 73.315.	Red Gas	300 pounds.
Motors, internal combustion	See § 73.120.			
0 Nitrous oxide	Nonf. G.	73.302, 73.308, 73.315	Green	300 pounds.
Propellant explosives	Expl. II	No exemption, 73.93	Red #	10 pounds.
Trimethylamine, anhydrous	F. G.	73.302, 73.308, 73.314, 73.315.	Red Gas	300 pounds.
Add				
Bursters (explosive)	Expl. A	No exemption 73.69		Not accepted.
Charged oil well jet perforating guns (*total explosive contents in guns exceeding 15 pounds per motor vehicle*).	Expl. A	No exemption 73.53 (u), 73.80.		Not accepted.
Charged oil well jet perforating guns (*total explosive contents in guns not exceeding 15 pounds per motor vehicle*).	Expl. C	No exemption 73.53 (u), 73.110.		Not accepted.
*Dichlorodifluoromethane-monofluorotrichloromethane mixture.	Nonf. G	73.302, 73.314, 73.315	Green	300 pounds.
Monochloropentafluoroethane	Nonf. G	73.302, 73.308	Green	300 pounds.
*Nickel catalyst, finely divided, activated or spent.	F. S.	No exemption, 73.233	Yellow	100 pounds.
Supplementary charges (explosive)	Expl. A	No exemption, 73.69		Not accepted.

PART 73—SHIPPERS

SUBPART A—PREPARATION OF ARTICLES FOR TRANSPORTATION BY CARRIERS BY RAIL FREIGHT, RAIL EXPRESS, HIGHWAY, OR WATER

1. Amend § 73.29 introductory text of paragraph (a), and paragraph (d) (16 F. R. 5322, June 6, 1951) (15 F. R. 8277, Dec. 2, 1950) (49 CFR 73.29, 1950 Rev., 1951 Supp.) to read as follows:

§ 73.29 *Empty containers.* (a) Empty cylinders, barrels, kegs, drums, or other containers except carboys (see paragraph (c) of this section) previously used for the shipment of any explosive or other dangerous article, as defined in this part, if authorized for reuse must have all openings including removable heads, filling and vent holes, tightly closed before being offered for transportation. Small quantities of the material with which containers were loaded may remain in "empty" containers and when the vapors remaining therein are unstable, it is permissible to add sufficient inert gas to render the vapors stable.

* * * * *

(d) Empty bottles other than carboys previously used for the shipment of acids or other corrosive liquids must be securely stoppered.

* * * * *

2. Amend § 73.31 Note 1 and Note 2 to paragraph (g) and entire paragraph (h) (16 F. R. 9373, Sept. 15, 1951) (16 F. R. 11775, Nov. 21, 1951) (15 F. R. 8278, 8279, Dec. 2, 1950) (49 CFR 73.31, 1950 Rev., 1951 Supp.) to read as follows:

§ 73.31 *Qualification, maintenance and use of tank cars.* * * *

(g) * * *

NOTE 1: Periodic retests of metal tanks, safety valves, and heater systems of tank cars, except those in chlorine service, now required to be made as prescribed in paragraph (g) of this section, may be waived because of the present emergency and until December 31, 1953, or until further order of the Commission.

NOTE 2: Periodic retests of metal tanks, safety valves, and heater systems of ICC–103A, 103A–W, 103C, 103C–W, and 103C–AL tank cars (§§ 78.266, 78.281, 78.268, or 78.283 of this chapter), now required to be made as prescribed in paragraph (g) of this section, may be made at 5-year intervals up to 10 years of service, thereafter at 3-year intervals up to 22 years of service, and annually after 22 years of service until December 31, 1953, or until further order of the Commission.

(h) Tank cars and appurtenances may be used for the transportation of any commodity for which they are authorized, as indicated on the certificate of construction. When a car is to be used for the transportation of a commodity other than those approved on the certificate of construction, it must be approved for such loading by the A. A. R. Tank Car Committee. Changes in fittings or commodity stenciling required to transfer a car from one service to another as authorized on the certificates of construction may be only by the owner or owner's authorized agent, except, that where no change in fittings or other appurtenances is necessary, ICC–103, 103W, 103A, 103A–W, 103B, 103B–W, 103C, and 103C–W (§§ 78.265, 78.280, 78.266, 78.281, 78.267, 78.282, 78.268, and 78.283 of this chapter) tank cars may be transferred from one commodity service to another when authorized for the transportation of such commodity by this part.

NOTE 1: For qualification of cylinders and tank cars for compressed gases see §§ 73.34, 73.301 (g), and 73.314.

* * * * *

SUBPART B—EXPLOSIVES; DEFINITION AND PREPARATION

1. Amend § 73.53 paragraph (s), and add paragraph (u) (15 F. R. 8286, Dec. 2, 1950) (49 CFR 73.53, 1950 Rev.) to read as follows:

§ 73.53 *Definition of class A explosives.* * * *

(s) *Boosters, bursters, and supplementary charges.* Boosters and supplementary charges consist of a casing containing a high explosive and are used to increase the intensity of explosion of the detonator of a detonating fuze. Bursters consist of a casing containing a high explosive and used to rupture a projectile or bomb to permit release of its contents.

* * * * *

(u) *Charged oil well jet perforating guns.* Charged oil well jet perforating guns are steel tubes or metallic strips into which are inserted shaped charges connected in series by primacord. Shaped charges must be of a type described in paragraph (h) (1) of this section, except that each shaped charge installed in the steel tube or metallic strip shall contain not over 35 grams of high explosive. Charged oil well jet perforating guns must not be transported with blasting caps, electric blasting caps, or other firing devices affixed to or installed in the guns.

2. Amend § 73.58 paragraph (b) (15 F. R. 8287, Dec. 2, 1950) (49 CFR 73.58, 1950 Rev.) to read as follows:

§ 73.58 *Ammunition for small arms.* * * *

(b) Each outside package must be plainly marked "AMMUNITION FOR SMALL ARMS WITH EXPLOSIVE BULLETS" or "AMMUNITION FOR SMALL ARMS WITH EXPLOSIVE PROJECTILES," as the case may be.

* * * * *

3. Amend § 73.60 paragraph (e) (15 F. R. 8287, Dec. 2, 1950) (49 CFR 73.60, 1950 Rev.) to read as follows:

§ 73.60 *Black powder and low explosives.* * * *

(e) Each outside package must be plainly marked, stamped, or stenciled "BLACK POWDER" or "LOW EXPLOSIVES," and may also show "BLASTING," "RIFLE," etc., as "BLACK BLASTING POWDER," "BLACK RIFLE POWDER," "LOW BLASTING EXPLOSIVE" or "BLACK PELLET POWDER," as the case may be.

* * * * *

4. Add paragraph (c) (2) to § 73.63 (15 F. R. 8288, Dec. 2, 1950) (49 CFR 73.63, 1950 Rev.) to read as follows:

§ 73.63 *High explosive with liquid explosive ingredient.* * * *

(c) * * *

(2) Spec. 14, 15A, or 16A (§§ 78.165, 78.168, or 78.185 of this chapter). Wooden boxes, or spec. 23F or 23H (§§ 78.214 or 78.219 of this chapter) fiberboard boxes, with inside containers which must be paraffined two-ply paper bags not exceeding 12½ pounds capacity, securely closed by folding the tops and securing the fold by tape, with not more than two such bags inserted into another two-ply paper bag which must be securely closed and dipped in paraffin after closing. Gross weight of wooden boxes not to exceed 75 pounds and gross weight of fiberboard boxes not to exceed 65 pounds.

* * * * *

5. Amend entire § 73.69 (17 F. R. 7280, Aug. 9, 1952) (16 F. R. 11776, Nov. 21, 1951) (15 F. R. 8291, Dec. 2, 1950) (49 CFR 1950 Rev., 1951 Supp. 73.69) to read as follows:

§ 73.69 *Detonating fuzes, detonating fuze parts containing an explosive, boosters, bursters or supplementary charges.* (a) Detonating fuzes, detonating fuze parts containing an explosive, boosters, bursters or supplementary charges when shipped not assembled in projectiles, bombs, etc., must be packed and well secured in strong, tight wooden boxes.

(b) The gross weight of one outside package containing detonating fuzes must not exceed 190 pounds. Boosters, bursters and supplementary charges, without detonators, when shipped separately, must not exceed a gross weight of 300 pounds.

(c) Each outside package must be plainly marked "DETONATING FUZES, HANDLE CAREFULLY — DO NOT STORE OR LOAD WITH AND HIGH EXPLOSIVE," or "BOOSTERS (EXPLOSIVE)—HANDLE CAREFULLY," or "BURSTERS (EXPLOSIVE)—HANDLE CAREFULLY," or "SUPPLEMENTARY CHARGES (EXPLOSIVE) — HANDLE CAREFULLY," as the case may be.

(d) Detonating fuzes, boosters, bursters and supplementary charges must not be offered for transportation by rail express, except as provided in § 73.86 and § 75.675 of this chapter.

6. Add § 73.80 (15 F. R. 8292, Dec. 2, 1950) (49 CFR 73.80, 1950 Rev.) to read as follows:

§ 73.80 *Charged oil well jet perforating guns.* (a) Charged oil well jet perforating guns, when transported by motor vehicles operated by private carriers engaged in oil well operations in which the total weight of the explosive contents of shaped charges assembled to guns being transported does not exceed 15 pounds per such vehicle, are classed as class C explosives. See § 73.110.

(b) Charged oil well jet perforating guns of the steel tube type must be packed without blasting caps, electric blasting caps, or other firing devices affixed to or installed in the guns and transported in fully-enclosed specially-constructed bodies of motor vehicles operated by private carriers engaged in oil well operations. Shaped charges assembled in the steel tubes and connected in series by primacord must be of the type described in § 73.53 (h) (1), except that each shaped charge shall contain not over 35 grams of high explosive and each shaped charge if not completely enclosed in glass must be fully protected by a metal or other equally efficient cover after installation in the gun.

(c) Charged oil well jet perforating guns of the metallic strip type must be packed without blasting caps, electric blasting caps, or other firing devices affixed to or installed in the guns in steel tubes or pipes having wall thickness at least ¼ inch and of sufficient length and diameter to completely enclose each gun and transported in fully-enclosed specially-constructed bodies of motor vehicles operated by private carriers engaged in oil well operations. Shaped charges assembled in the metallic strips and connected in series by primacord must be of the type described in § 73.53 (h) (1), except that each shaped charge shall contain not over 35 grams of high explosive and each shaped charge if not completely enclosed in glass must be fully protected by a metal or other equally efficient cover after installation in the gun.

(d) The charged oil well jet perforating guns described in paragraphs (b) and (c) of this section and the bodies of motor vehicles transporting such guns must be so designed and constructed that accidental damage to guns or shaped charges will be avoided. The assembled gun or guns packed as required by paragraphs (b) or (c) of this section must be secured in the body of the motor vehicle in a fixed position so as to prevent movement relative to each other or in the body of the motor vehicle.

(e) Blasting caps, electric blasting caps, or other firing devices transported on any motor vehicle operated by private carriers engaged in oil well operations transporting charged oil well jet perforating guns shall be segregated; each kind from every other kind, and from jet perforating guns, tools or other supplies. Blasting caps, electric blasting caps, or other firing devices shall be carried in a container having individual pockets for each such device or by at least equally safe means. No greater number of blasting caps, electric blasting caps, or other firing devices shall be transported on the same motor vehicle transporting oil well jet perforating guns than is necessary for use on any particular trip.

(f) Charged oil well jet perforating guns must not be offered for transportation by carriers by rail freight, rail express, rail baggage, water, or by common or contract carriers by public highway.

7. Amend § 73.93 paragraph (f) (2) (17 F. R. 1561, Feb. 20, 1952) (49 CFR 73.93, 1950 Rev.) to read as follows:

§ 73.93 *Propellant explosives for cannon, small arms, or other devices.* * * *

(f) * * *

(2) *Label.* Each outside container of propellant explosives, when offered for transportation by rail express, must have securely and conspicuously attached to it a square red label as described in § 73.412.

8. Amend § 73.100 paragraphs (g) and (h) (15 F. R. 8295, Dec. 2, 1950) (49 CFR 73.100, 1950 Rev.) to read as follows:

§ 73.100 *Definition of class C explosives.* * * *

(g) Cartridge bags, empty, with black powder igniters consist of empty bags having attached thereto an igniter composed of black powder. (See § 73.93 (b), (c), and (d) when shipped with propellant explosives.)

(h) Igniters consist of fiberboard, plastic, paper or metal tubes containing a small quantity of igniting compound which is ignited by the action of a primer, pull wire or scratch composition.

* * * * *

9. Add § 73.110 (15 F. R. 8297, Dec. 2, 1950) (49 CFR 73.110, 1950 Rev.) to read as follows:

§ 73.110 *Charged oil well jet perforating guns, total explosive content in guns not exceeding 15 pounds per motor vehicle.* (a) Charged oil well jet perforating guns transported by motor vehicles operated by private carriers engaged in oil well operations in which the total weight of the explosive contents of shaped charges assembled to guns being transported does not exceed 15 pounds per such vehicle must be packed as prescribed in § 73.80 (b), (c), (d) and (e).

(b) Charged oil well jet perforating guns must not be offered for transportation by carriers by rail freight, rail express, rail baggage, water, or by common or contract carriers by public highway.

SUBPART C—FLAMMABLE LIQUIDS; DEFINITION AND PREPARATION

Amend § 73.140 paragraph (a) (1) (16 F. R. 9374, Sept. 15, 1951) (49 CFR 1950 Rev., 1951 Supp., 73.140) to read as follows:

§ 73.140 *Zirconium, metallic, solutions, or mixtures thereof, liquid.* (a) * * *

(1) Spec. 15A, 15B, or 15C (§§ 78.168, 78.169, or 78.170 of this chapter). Wooden boxes with inside metal containers. Each inside container shall not contain more than 20 individual glass or

porcelain jars, not exceeding 2-ounce capacity each, securely closed and completely cushioned in incombustible cushioning material in sufficient quantity to completely absorb the contents.

SUBPART D—FLAMMABLE SOLIDS AND OXIDIZING MATERIALS; DEFINITION AND PREPARATION

1. Add paragraph (c) (62) to § 73.153 (15 F. R. 8303, Dec. 2, 1950) (49 CFR 73.153, 1950 Rev.) to read as follows:

§ 73.153 *Exemptions for flammable solids and oxidizing materials.* • • •

(c) • • •

(62) Nickel catalyst, finely divided, activated or spent.

2. Add paragraph (a) (2) to § 73.157 (15 F. R. 8304, Dec. 2, 1950) (49 CFR 73.157, 1950 Rev.) to read as follows:

§ 73.157 *Benzoyl peroxide, chlorobenzoyl peroxide (para), lauroyl peroxide or succinic acid peroxide, wet.* (a) • • •

(2) Spec. 5, 5B, 6A, 6B, or 6C (§§ 78.80, 78.82, 78.97, 78.98, or 78.99 of this chapter). Metal barrels or drums having liners of polyethylene or other suitable material. Not more than 4 vent holes of not to exceed ⅛-inch diameter may be provided in the drum near the top periphery. Gross weight not to exceed 350 pounds. Authorized only for benzoyl peroxide, wet.

3. Add paragraph (a) (4) to § 73.158 (15 F. R. 8304, Dec. 2, 1950) (49 CFR 73.158, 1950 Rev.) to read as follows:

§ 73.158 *Benzoyl peroxide, dry, lauroyl peroxide, dry, chlorobenzoyl peroxide (para), dry, or succinic acid peroxide, dry.* (a) • • •

(4) Spec. 12B (§ 78.205 of this chapter). Fiberboard boxes with inside fiber containers securely closed by taping or gluing, not over 1 pound capacity each. Each inside container must be surrounded by asbestos or fire resistant cushioning material which will protect the contents with equal efficiency. Net weight in outside container must not exceed 50 pounds.

4. Amend § 73.162 paragraph (g) (1) (15 F. R. 8305, Dec. 2, 1950) (49 CFR 73.162, 1950 Rev.) to read as follows:

§ 73.162 *Charcoal.* • • •

(g) • • •

(1) Lump charcoal used for the preparation of ground, crushed, granulated, or pulverized charcoal must be stored subject to ventilation, and protected from the weather for not less than 20 days after its removal from the coolers before milling; or the ground, crushed, granulated or pulverized charcoal must be stored in bags, subject to ventilation and protected from the weather for not less than 20 days before shipment. Lump charcoal made from pine wood must be stored as above described for not less than 5 days before milling. Ground, crushed, or granulated charcoal made by the "Stafford" process must be stored subject to ventilation and protected from the weather for not less than 7 days before shipment in lieu of the 20-days' storage otherwise prescribed.

• • • • •

5. Add paragraph (a) (2) to § 73.215 (15 F. R. 8311, Dec. 2, 1950) (49 CFR 73.215, 1950 Rev.) to read as follows:

§ 73.215 *Zirconium, metallic, dry.* (a) • • •

(2) Spec. 12B (§ 78.205 of this chapter). Fiberboard boxes with inside containers which must be securely closed glass bottles or metal containers not over 1 pound net weight each and enclosed in a securely closed metal can and sufficiently cushioned with noncombustible material.

6. Amend § 73.229 paragraph (a), and paragraph (c) (17 F. R. 7281, Aug. 9, 1952) (49 CFR 73.229, 1950 Rev.) to read as follows:

§ 73.229 *Chlorate and borate mixtures and chlorate and magnesium chloride mixtures.* (a) Chlorate and borate mixtures and chlorate and magnesium chloride mixtures containing no other hazardous additives must be packed as follows:

• • • • •

(c) Chlorate and borate mixtures and chlorate and magnesium chloride mixtures containing no other hazardous additives and containing less than 50 percent chlorate, packed in strong tight metal or fiber drums or in wooden boxes with tight inside metal containers are exempt from specification packaging, marking, and labeling requirements for transportation by rail freight or highway.

7. Add § 73.233 (15 F. R. 8312, Dec. 2, 1950) (49 CFR 73.233, 1950 Rev.) to read as follows:

§ 73.233 *Nickel catalyst, finely divided, activated or spent.* (a) Nickel catalyst, finely divided, activated or spent must be wet with not less than 40 percent by weight of water or other equally suitable liquid and must be packed in specification containers as follows:

(1) Spec. 15A or 15B (§§ 78.168 or 78.169 of this chapter). Wooden boxes with airtight metal inside containers which must have closing device fastened by positive means (not friction).

(2) Spec. 12B (§ 78.205 of this chapter). Fiberboard boxes with airtight metal inside containers which must have closing device fastened by positive means (not friction).

(3) Spec. 5, 6A, 6B, or 6C (§§ 78.80, 78.97, 78.98, or 78.99 of this chapter). Metal barrels or drums not over 55 gallons capacity each.

SUBPART E—ACIDS AND OTHER CORROSIVE LIQUIDS; DEFINITION AND PREPARATION

1. Amend § 73.245 paragraph (a) (4) (17 F. R. 1561, Feb. 20, 1952) (49 CFR 73.245, 1950 Rev.) to read as follows:

§ 73.245 *Acids or other corrosive liquids not specifically provided for.* (a) • • •

(4) Spec. 5A, 5C, or 5M (§§ 78.81, 78.83, or 78.90 of this chapter). Metal barrels or drums.

• • • • •

2. Amend § 73.263 paragraph (a) (9) and add paragraph (a) (12) (15 F. R. 8317, Dec. 2, 1950) (49 CFR 73.263, 1950 Rev.) to read as follows:

§ 73.263 *Hydrochloric (muriatic) acid, hydrochloric acid mixtures, and sodium chlorite solution.* (a) • • •

(9) Spec. 103B, 103B–W, 108, or 108A (§§ 78.267, 78.282, 78.278, or 78.279 of this chapter). Tank cars. Authorized for acid not over 38 percent strength by weight.

• • • • •

(12) Spec. 103B100–W (§ 78.296 of this chapter). Tank cars. Authorized for acid not over 44½ percent strength by weight.

• • • • •

3. Amend § 73.264 paragraph (b) (1) 16 F. R. 9375, Sept. 15, 1951) (49 CFR 73.264, 1950 Rev.) to read as follows:

§ 73.264 *Hydrofluoric acid.* • • •

(b) • • •

(1) Spec. 3,[1] 3A, 3AA, 3B, 3C, 3E, 4, 4A, 25,[1] or 38,[1] also spec. 4B, 4BA, or 4C if not brazed (§§ 78.36, 78.37, 78.38, 78.40, 78.42, 78.48, 78.49, also 78.50, 78.51, or 78.52 of this chapter). Cylinders. Filling density must not exceed 85 percent of the pounds water weight capacity of the cylinder.

• • • • •

SUBPART F—COMPRESSED GASES; DEFINITION AND PREPARATION

1. Amend § 73.308 paragraph (a) Table (17 F. R. 7282, Aug. 9, 1952) (16 F. R. 9376, Sept. 15, 1951) (49 CFR 1950 Rev., 1951 Supp., 73.308) to read as follows:

§ 73.308 *Compressed gases in cylinders.* (a) • • •

Kind of gas	Maximum permitted filling density (see Note 12)	Cylinders (see Note 11) marked as shown in this column must be used except as provided in Note 1 and § 73.34 (a) to (e)
	Percent	
Anhydrous ammonia	54	ICC–4; ICC-3A480; ICC–3AA480; ICC–3A480X; ICC–4A480; ICC-3.
Carbon dioxide—nitrous oxide mixtures	68	ICC–3A1800; ICC–3AA1800; ICC–3.
Chlorine (see Note 6)	125	ICC–3A480; ICC–3AA480; ICC–25; ICC–3; ICC–3BN480.
Cyclopropane	55	ICC–3A225; ICC–3AA225; ICC–3B225; ICC–4A225; ICC–4B225; ICC–4BA225; ICC–7–300; ICC–3; ICC–3E1800.
Dichlorodifluoromethane	119	ICC–3A225; ICC–3AA225; ICC–3B225; ICC–4A225; ICC–4B225; ICC–4BA225; ICC–9.
Dichlorodifluoromethane and difluoroethane mixture (constant boiling mixture).	(1)	ICC–3A240; ICC–3AA240; ICC–3B240; ICC–4A240; ICC–4B240; ICC–4BA240; ICC–9.
Difluoroethane	79	ICC–3A150; ICC–3AA150; ICC–3B150; ICC–4B150; ICC–4BA225.
Difluoromonochloroethane	100	ICC–3A150; ICC–3AA150; ICC–3B150; ICC–4B150; ICC–4BA225.
Dimethylamine, anhydrous	59	ICC–3A150; ICC–3AA150; ICC– 3B150; ICC–4B150; ICC–4BA225.

[1] § 73.304 (a) and (b).

SUBPART G—POISONOUS ARTICLES; DEFINITION AND PREPARATION

1. Add paragraph (a) (4) to § 73.332 (15 F. R. 8333, Dec. 2, 1950) (49 CFR 73.332, 1950 Rev.) to read as follows:

§ 73.332 *Hydrocyanic acid, liquid (prussic acid) and hydrocyanic acid liquefied.* (a) * * *

(4) Spec. 105A500W (§ 78.288 of this chapter). Tank cars which shall be not over 6,000 gallons capacity. The weight of lading shall not exceed 60 percent of the water weight capacity of the car. Valves and fittings must be tested for leakage by a method acceptable to the Bureau of Explosives.

* * * * *

2. Add paragraph (a) (2) to § 73.333 (15 F. R. 8333, Dec. 2, 1950) (49 CFR 73.333, 1950 Rev.) to read as follows:

§ 73.333 *Phosgene or diphosgene.* (a) * * *

(2) Spec. 106A500 or 106A500X (§ 78.275 of this chapter). Tank cars. Each container must be equipped with valve protection caps, gastight, which must be approved by the Bureau of Explosives; containers must not be equipped with safety devices of any type; containers must be filled so that they will not be liquid full at 130° F. Authorized only for phosgene.

* * * * *

3. Amend § 73.346 paragraph (a) (1) (15 F. R. 8334, Dec. 2, 1950) (49 CFR 73.346, 1950 Rev.) to read as follows:

§ 73.346 *Poisonous liquids not specifically provided for.* (a) * * *

(1) Spec. 5, 5A, 5B, or 5C (§§ 78.80, 78.81, 78.82, or 78.83 of this chapter). Metal barrels or drums, with openings not exceeding 2.3 inches in diameter.

* * * * *

4. Add paragraph (a) (8) to § 73.359 (17 F. R. 4295, May 10, 1952) (49 CFR 73.359, 1950 Rev.) to read as follows:

§ 73.359 *Hexaethyl tetraphosphate mixtures, methyl parathion mixtures, parathion mixtures, tetraethyl dithio pyrophospate mixtures, and tetraethyl pyrophosphate mixtures, liquid.* (a) * * *

(8) Spec. 12B (§78.205 of this chapter). Fiberboard boxes as authorized by § 78.205–19 (a) of this chapter.

* * * * *

PART 74—CARRIERS BY RAIL FREIGHT

SUBPART B—LOADING AND STORAGE CHART OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

Amend items e and g vertical and horizontal columns, and add footnote d to chart in paragraph (a) of § 74.538 (15 F. R. 8349, 8350, Dec. 2, 1950) (49 CFR 74.538, 1950 Rev.) to read as follows:

§ 74.538 *Loading and storage chart of explosives and other dangerous articles.* (a) * * *

"e" Ammunition for cannon with explosive projectiles, gas projectiles, smoke projectiles, incendiary projectiles, illuminating projectiles or shell, ammunition for small arms with explosive bullets, or ammunition for small arms with explosive projectiles, or rocket ammunition with explosive projectiles, gas projectiles, smoke projectiles, incendiary projectiles, illuminating projectiles; and boosters (explosive) bursters (explosive), or supplementary charges (explosive) without detonators.[c, d]

* * * * * *

"g" Detonating fuzes.

* * * * * *

[d] Bursters (explosive), boosters (explosive), or supplementary charges (explosive) without detonators when shipped by, to or for the Departments of the Army, Navy, and Air Force of the United States Government may be loaded with any of the articles named except those in columns c, d, 3, 9, 10, 11, 12, 13, 14, and 15.

* * * * * *

SUBPART C—PLACARDS ON CARS

Add paragraph (a) (5) to § 74.544 (15 F. R. 8351, Dec. 2, 1950) (49 CFR 74.544, 1950 Rev.) to read as follows:

§ 74.544 *Placards not required.* (a) * * *

(5) Cars containing vehicles and shipments of electrolyte acid packaged and cushioned with absorbent material in sufficient quantity to absorb the contents of the inner containers when offered in carload lots by the Departments of the Army, Navy, and Air Force of the United States Government.

PART 77—SHIPMENTS MADE BY WAY OF COMMON, CONTRACT OR PRIVATE CARRIERS BY PUBLIC HIGHWAY

SUBPART A—GENERAL INFORMATION AND REGULATIONS

Amend entire § 77.806 (15 F. R. 8362, Dec. 2, 1950) (49 CFR 77.806, 1950 Rev.) to read as follows:

§ 77.806 *United States Government shipments.* (a) Shipments of explosives or other dangerous articles offered by or consigned to the Departments of the Army, Navy, and Air Force of the United States Government, must be packed, including limitations of weight, in accordance with the regulations in Part 73 of this chapter or in containers of equal or greater strength and efficiency as required by their regulations.

(b) Shipments of radioactive materials, made by the Atomic Energy Commission, or under its direction or supervision, which are escorted by personnel specially designated by the Atomic Energy Commission, are exempt from the regulations in Parts 71–78 of this chapter.

SUBPART B—LOADING AND UNLOADING

Amend § 77.840 paragraph (c) (16 F. R. 5327, June 6, 1951) (49 CFR 77.840, 1950 Rev., 1951 Supp.) to read as follows:

§ 77.840 *Compressed gases.* * * *

(c) Tanks complying with specification 106A500 or 106A500X (§ 78.275 of this chapter), containing chlorine, anhydrous ammonia, sulfur dioxide, methyl chloride, dichlorodifluoromethane, monochlorodifluoromethane, monochlorotetrafluoroethane, vinyl chloride, inhibited, difluoroethane, difluoromonochloroethane, dispersant gas, n. o. s., dichlorodifluoromethane and difluoroethane mixture (constant boiling mixture), or dichlorodifluoromethane-monofluorotrichloromethane mixture, tanks complying with specification 110A500W (§ 78.293 of this chapter), containing dichlorodifluoromethane, monochlorodifluoromethane, or dichlorodifluoromethane-monofluorotrichloromethane mixture, tanks complying with specification 106A800 or 106A800X (§ 78.276 of this chapter), containing hydrogen sulfide, or tanks complying the specification 106A800NCI (§ 78.295 of this chapter), containing nitrosyl chloride, may be transported on trucks or semi-trailers only, when securely chocked or clamped thereon to prevent shifting, and provided adequate facilities are present for handling tanks where transfer in transit is necessary. See § 74.560 (b) (1) of this chapter, for rail freight-motor vehicle shipments.

SUBPART C—LOADING AND STORAGE CHART OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

Amend items e and g vertical and horizontal columns and add footnote d to chart in paragraph (a) of § 77.848 (15 F. R. 8368, 8369, Dec. 2, 1950) (49 CFR 77.848, 1950 Rev.) to read as follows:

§ 77.848 *Loading and storage chart of explosives and other dangerous articles.* (a) * * *

"e" Ammunition for cannon with explosive projectiles, gas projectiles, smoke projectiles, incendiary projectiles, illuminating projectiles or shell, ammunition for small arms with explosive bullets, or ammunition for small arms with explosive projectiles, or rocket ammunition with explosive projectiles, gas projectiles, smoke projectiles, incendiary projectiles, illuminating projectiles; and boosters (explosive), bursters (explosive), or supplementary charges (explosive) without detonators. [c, d]

* * * * * *

"g" Detonating fuzes.

* * * * * *

[d] Bursters (explosive), boosters (explosive), or supplementary charges (explosive) without detonators when shipped by, to or for the Departments of the Army, Navy, and Air Force of the United States Government may be loaded with any of the articles named except those in columns c, d, 3, 9, 10, 11, 12, 13, 14, and 15.

* * * * * *

PART 78—SHIPPING CONTAINER SPECIFICATIONS

SUBPART F—SPECIFICATIONS FOR FIBERBOARD BOXES, DRUMS, AND MAILING TUBES

1. Amend entire § 78.205–19 (15 F. R. 8476, Dec. 2, 1950) (49 CFR 78.205–19, 1950 Rev.) to read as follows:

§ 78.205 *Specification 12B; fiberboard boxes.*

* * * * * *

§ 78.205–19 *Special box; authorized only for contents in 1-gallon rectangular metal cans or cylindrical metal cans of 26 gauge material.* (a) Must comply with this specification except as follows: Must be 1-piece type, of double-wall corrugated fiberboard at least 400-pound test with all three facings at least 135-pound test; to be marked "FOR 1-GAL. CYLINDICAL OR RECTANGULAR CANS ONLY" near the I. C. C. specification mark; authorized gross weight 84 pounds.

2. Amend § 78.219–5 paragraphs (a) and (b), and § 78.219–12 paragraph (a) (17 F. R. 1564, Feb. 20, 1952) (49 CFR 78.219–5, 78.219–12, 1950 Rev.) to read as follows:

§ 78.219 *Specification 23H; fiberboard boxes.*

* * * * * *

§ 78.219–5 *Tape.* (a) Pressure sensitive, paper backed. The basic weight of the paper shall be not less than 70 pounds per ream after sizing and coating. Longitudinal tensile strength shall be not less than 50 pounds per inch of width and the latitudinal strength shall be not less than 11 pounds per inch of width, or for vertical application as provided by § 78.219–12 tape must be pressure sensitive, filament reinforced. Tape backing shall have a minimum longitudinal tensile strength of 160 pounds per square inch of width and a minimum elongation of 12 percent at break. The tape shall have sufficient transverse strength to prevent ravelling or separation of the filaments. Tape shall have an adhesion of 18 ounces per inch of width minimum when tested according to acceptable methods. Tape shall adhere immediately and firmly to fiberboard surface when applied with hand pressure in the temperature range of 0° to 120° F. No solvent or heat shall be necessary to activate the adhesive.

(b) The tape authorized by paragraph (a) of this section must be manufactured of material which will not separate or delaminate when submerged in water for 72 hours and which will not show any delamination or bleeding up to 160° F. and which will not lose its strength, delaminate or become brittle at 0° F.

* * * * *

§ 78.219–12 *Closing for shipment.* (a) The upper and lower sections of the container shall be secured together by the application of one single strip of tape not less than 1 inch wide, exclusive of manufacturer's joint disposed entirely around the perimeter of the container and spaced approximately equally distant over each portion of the container at the seam of abutting covers. The ends of the tape around the perimeter of the container must overlap 1½ inches minimum. The container may alternately be closed by using tape as specified in § 78.219–5 (a) for vertical application. When closed by this method, the cover of the container shall be secured to the bottom by application of single strips of tape, not less than ½ inch wide, to the sides and in a vertical manner; two strips, one on each side for containers 18 inches in length or under; four strips, two on each side, minimum for containers over 18 inches in length. The taping shall start within 1 inch of the top-side score and extend to within 1 inch of the side-bottom score and in no case shall the strips be less than 4 inches in length.

* * * * * *

SUBPART I—SPECIFICATIONS FOR TANK CARS

1. Add Note 4 to paragraph (f) of § 78.259 (15 F. R. 8486, Dec. 2, 1950) (49 CFR 78.259, 1950 Rev.) to read as follows:

§ 78.259 *Specification changes.* * * *

(f) * * *

NOTE 4: For application for approval to make repairs by fusion welding for reconditioning of manway covers for Class ICC–104A and ICC–105A series tank cars, applicant should submit data as to original construction, application numbers, and class of car, with numbers of drawings used in original construction. Application also to contain drawings and detailed explanation of how repairs are to be made. As covers are repaired, the outer edge shall be stamped with letters at least ⅜ inch high, giving repair application number. Car number and initials to which reconditioned cover is applied must appear on certificate of construction.

* * * * * *

2. Amend § 78.265 paragraph ICC–19 (a) (15 F. R. 8490, Dec. 2, 1950) (49 CFR 78.265, 1950 Rev.) to read as follows:

§ 78.265 *Specification for tank cars having riveted steel tanks Class ICC–103.*

* * *

ICC–19. *Retests of tanks, safety valves, and interior heater systems.* (a) Tanks, safety valves, and interior heater systems must be retested, as prescribed for original tests in paragraphs ICC–17 and ICC–18, at intervals of 10 years or less after the original test. Interior surface of tank heads must be inspected when periodic retests are made. Tanks must also be retested before being returned to service after any repairs requiring extensive riveting or calking. Interior heater systems must be retested after repairs. Reports must be rendered as prescribed in paragraph ICC–21.

* * * * * *

3. Amend § 78.269 paragraph ICC–19 (a) (15 F. R. 8494, Dec. 2, 1950) (49 CFR 78.269, 1950 Rev.) to read as follows:

§ 78.26 *Specification for tank cars having lagged riveted steel tanks, Class ICC–104.* * * *

ICC–19. *Retests of tanks, safety valves, and interior heater systems.* (a) Tanks, safety valves, and interior heater systems must be retested, as prescribed for original tests in paragraphs ICC–17 and ICC–18, at intervals of 10 years or less after the original test. Interior surface of tank heads must be inspected when periodic retests are made. Tanks must also be retested before being returned to service after any repairs requiring extensive riveting or calking. If the jacket and lagging are not removed, the tank must hold the prescribed pressure for at least 20 minutes. A drop in pressure shall be evidence of leakage, and such portion of the jacket and lagging must be removed as may be necessary to locate the leak and make repairs. After the repairs have been made, the tank must again be subjected to the prescribed test. Interior heater systems must be retested after repairs. Reports must be rendered as prescribed in paragraph ICC–21.

* * * * * *

4. Amend § 78.270 paragraph ICC–19 (a) (15 F. R. 8495, Dec. 2, 1950) (49 CFR 78.270, 1950 Rev.) to read as follows:

§ 78.270 *Specification for tank cars having lagged riveted steel tanks, Class ICC–104A.* • • •

ICC–19. *Retests of tanks and safety valves.* (a) Tanks must be retested, as prescribed for original tests in paragraph ICC–17, at intervals of 10 years or less after the original test. Interior surface of tank heads must be inspected when periodic retests are made. Tanks must also be retested before being returned to service after any repairs requiring extensive riveting or calking. If the jacket and lagging are not removed, the tank must hold the prescribed pressure for at least 20 minutes. A drop in pressure shall be evidence of leakage, and such portion of the jacket and lagging must be removed as may be necessary to locate the leak and make repairs. After the repairs have been made, the tank must again be subjected to the prescribed test. Safety valves must be retested, as prescribed for original test in paragraph ICC–18, at intervals of 5 years or less after the original test. Reports must be rendered as prescribed in paragraph ICC–21.

• • • • •

5. Amend § 78.271 paragraphs ICC–15 (a) and (b) (15 F. R. 8496, Dec. 2, 1950) (49 CFR 78.271, 1950 Rev.) to read as follows:

§ 78.271 *Specification for tank cars having lagged forged lapwelded steel tanks, Class ICC–105A300.* • • •

ICC–15. *Retests of tanks, anchor rivet covers, and safety valves.* (a) Tanks must be retested to a pressure of 300 pounds per square inch, as prescribed in paragraph ICC–13 (a), except that the anchor rivet covers must not be removed and that the tank lagging and jacket need not be removed unless the pressure on the tank drops during the test period, indicating leakage; anchor rivet covers must be retested to a pressure of 100 pounds per square inch, as prescribed in paragraph ICC–13 (b); interior surface of tank heads must be inspected when periodic retests are made; and safety valves must be retested to a pressure as prescribed in paragraphs ICC–10 (b) and ICC–14.

ICC–15. (b) Retests of tanks must be made, except as prescribed in paragraph ICC–15 (c), at intervals of 10 years or less. Tanks must also be retested before being returned to service after any repairs requiring welding. Retests of safety valves must be made, except as prescribed in paragraph ICC–15 (c), at intervals of 5 years or less.

6. Amend § 78.272 paragraph ICC–15 (a) (15 F. R. 8498, Dec. 2, 1950) (49 CFR 78.272, 1950 Rev.) to read as follows:

§ 78.272 *Specification for tank cars having lagged forged lapwelded steel tanks, Class ICC–105A400.* • • •

ICC–15. *Retests of tanks, anchor rivet covers, and safety valves.* (a) Tanks must be retested to a pressure of 400 pounds per square inch, as prescribed in paragraph ICC–13 (a), except that the anchor rivet covers must not be removed and that the tank lagging and jacket need not be removed unless the pressure in the tank drops during the test period, indicating leakage; anchor rivet covers must be retested to a pressure of 100 pounds per square inch, as prescribed in paragraph ICC–13 (b); interior surface of tank heads must be inspected when periodic retests are made; and safety valves must be retested to a pressure as prescribed in paragraphs ICC–10 (b) and ICC–14.

• • • • •

7. Amend § 78.273 paragraph ICC–15 (a) (15 F. R. 8498, Dec. 2, 1950) (49 CFR 78.273, 1950 Rev.) to read as follows:

§ 78.273 *Specification for tank cars having lagged forged lapwelded steel tanks, Class ICC–105A500.* • • •

ICC–15. *Retests of tanks, anchor rivet covers, and safety valves.* (a) Tanks must be retested to a pressure of 500 pounds per square inch, as prescribed in paragraph ICC–13 (a), except that the anchor rivet covers must not be removed and that the tank lagging and jacket need not be removed unless the pressure in the tank drops during the test period, indicating leakage; anchor rivet covers must be retested to a pressure of 100 pounds per square inch, as prescribed in paragraph ICC–13 (b); interior surface of tank heads must be inspected when periodic retests are made; and safety valves must be retested to a pressure as prescribed in paragraphs ICC–10 (b) and ICC–14.

• • • • •

8. Amend § 78.274 paragraph ICC–15 (a) (15 F. R. 8498, Dec. 2, 1950) (49 CFR 78.274, 1950 Rev.) to read as follows:

§ 78.274 *Specification for tank cars having lagged forged lapwelded steel tanks, Class ICC–105A600.* • • •

ICC–15. *Retests of tanks, anchor rivet covers, and safety valves.* (a) Tanks must be retested to a pressure of 600 pounds per square inch, as prescribed in paragraph ICC–13 (a), except that the anchor rivet covers must not be removed and that the tank lagging and jacket need not be removed unless the pressure in the tank drops during the test period, indicating leakage; anchor rivet covers must be retested to a pressure of 100 pounds per square inch, as prescribed in paragraph ICC–13 (b); interior surface of tank heads must be inspected when periodic retests are made; and safety valves must be retested to a pressure as prescribed in paragraph ICC–10 (b) and ICC–14.

• • • • •

9. Amend § 78.280 paragraph ICC–19 (a) (15 F. R. 8509, Dec. 2, 1950) (49 CFR 78.280, 1950 Rev.) to read as follows:

§ 78.280 *Specification for tank cars having fusion-welded steel tanks, Class ICC–103–W.* • • •

ICC–19. *Retests of tanks, safety valves, and interior heater systems.* (a) Tanks, safety valves, and interior heater systems must be retested, as prescribed for original tests in paragraphs ICC–17 and ICC–18, at intervals of 10 years or less after the original test. Interior surface of tank heads must be inspected when periodic retests are made. Tanks must also be retested before being returned to service after any repairs requiring welding, riveting or calking of rivets. Interior heater systems must be retested after repairs. Reports must be rendered as prescribed in paragraph ICC–21.

• • • • •

10. Add paragraph ICC–6 (a) to § 78.282 (15 F. R. 8511, Dec. 2, 1950) (49 CFR 78.282, 1950 Rev.) to read as follows:

§ 78.282 *Specification for tank cars having rubber-lined fusion-welded steel tanks, Class ICC–103B–W.* • • •

ICC–6. *Welding.* (a) All joints must be fusion-welded by a process which investigation and laboratory tests by the Mechanical Division of the Association of American Railroads have proved will produce satisfactory results. Riveted patches whose efficiency is 70 percent or greater and which will provide a minimum bursting pressure of 300 pounds per square inch, may be applied provided the design is first submitted to the Committee on Tank Cars of the Association of American Railroads for their approval.

• • • • •

11. Amend 78.284 paragraph ICC–19 (a) (15 F. R. 8514, Dec. 2, 1950) (49 CFR 78.284, 1950 Rev.) to read as follows:

§ 78.284 *Specification for tank cars having lagged fusion-welded steel tanks, Class ICC–104–W.* • • •

ICC–19. *Retests of tanks, safety valves, and interior heater systems.* (a) Tanks, safety valves, and interior heater systems must be retested, as prescribed for original tests in paragraphs ICC–17 and ICC–18, at intervals of 10 years or less after the original tests. Interior surface of tank heads must be inspected when periodic retests are made. Tanks must also be retested before being returned to service after any repairs requiring welding, riveting or calking of rivets. If the jacket and lagging are not removed, the tank must hold the prescribed pressure for at least 20 minutes. A drop in pressure shall be evidence of leakage, and such portion of the jacket and lagging must be removed as may be necessary to locate the leak and make repairs. After the repairs have been made, the tank must again be subjected to the prescribed test. Interior heater systems must be retested after repairs. Reports must be rendered as prescribed in paragraph ICC–21.

• • • • •

12. Amend § 78.285 paragraph ICC–19 (a) (15 F. R. 8515, Dec. 2, 1950) (49 CFR 78.285, 1950 Rev.) to read as follows:

§ 78.285 *Specification for tank cars having lagged fusion-welded steel tanks, Class ICC–104A–W.* • • •

ICC–19. *Retests of tanks and safety valves.* (a) Tanks must be retested at intervals of 10 years or less to a pressure as prescribed in paragraph ICC–17 (a), except that the tank lagging and jacket need not be removed unless the pressure in the tank drops during the test period, indicating leakage; interior surface of tank heads must be inspected when periodic retests are made; and safety valves must be retested at intervals of 5 years or less to a pressure as prescribed in paragraphs ICC–14 (c) and ICC–18. Tanks must be retested before being returned to service after any repairs requiring welding, riveting or calking of rivets. Reports must be rendered as prescribed in paragraph ICC–21.

• • • • •

13. Amend § 78.286 paragraphs ICC–10 (b) and ICC–19 (a) (15 F. R. 8515, 8516, Dec. 2, 1950) (49 CFR 78.286, 1950 Rev.) to read as follows:

§ 78.286 *Specification for tank cars having lagged fusion-welded steel tanks, Class ICC–105A300–W.* • • •

ICC–10. • • •

ICC–10. (b) Manhole cover must be of forged or rolled steel at least 2¼ inches thick (or nickel at least 2 inches thick when required by the lading), machined to approved dimensions. Manhole cover must be attached to manhole neck by through or stud bolts not entering tank.

• • • • •

ICC–19. *Retests of tanks, anchor rivet housings, and safety valves.* (a) Tanks must be retested at intervals of 10 years or less to a pressure as prescribed in paragraph ICC–17 (a), except that the anchor rivet housings must not be removed and that the tank lagging and jacket need not be removed unless the pressure in the tank drops during the test period, indicating leakage; anchor rivet housings must be retested to a pressure as prescribed in paragraph ICC–17 (d); interior surface of tank heads must be inspected when periodic retests are made; and safety valves must be retested at intervals of 5 years or less to a pressure as prescribed in paragraphs ICC–14 (c) and ICC–18. Tanks must be retested before being returned to service after any repairs requiring welding. Reports must be rendered as prescribed in paragraph ICC–21.

• • • • •

14. Amend § 78.287 paragraph ICC–19 (a) (15 F. R. 8517, Dec. 2, 1950) (49 CFR 78.287, 1950 Rev.) to read as follows:

§ 78.287 *Specification for tank cars having lagged fusion-welded steel tanks, Class ICC–105A400–W.* • • •

ICC–19. *Retests of tanks, anchor rivet housings, and safety valves.* (a) Tanks must be retested at intervals of 10 years or less to a pressure as prescribed in paragraph ICC–17 (a), except that the anchor rivet housings must not be removed and that the tank lagging and jacket need not be removed unless the pressure in the tank drops during the test period, indicating leakage; anchor rivet housings must be retested to a pressure as prescribed in paragraph ICC–17 (d); interior surface of tank heads must be inspected when periodic retests are made; and safety valves must be retested at intervals of 5 years or less to a pressure as prescribed in paragraphs ICC–14 (c) and ICC–18. Tanks must be retested before being returned to service after any repairs requiring welding. Reports must be rendered as prescribed in paragraph ICC–21.

• • • • •

15. Amend § 78.288 paragraph ICC–19 (a) (15 F. R. 8519, Dec. 2, 1950) (49 CFR 78.288, 1950 Rev.) to read as follows:

§ 78.288 *Specification for tank cars having lagged fusion-welded steel tanks, Class ICC–105A500–W.* • • •

ICC–19. *Retests of tanks, anchor rivet housings, and safety valves.* (a) Tanks must be retested at intervals of 10 years or less to a pressure as prescribed in paragraph ICC–17 (a), except that the anchor rivet housings must not be removed and that the tank lagging and jacket need not be removed unless the pressure in the tank drops during the test period, indicating leakage; anchor rivet housings must be retested to a pressure as prescribed in paragraph ICC–17 (d); interior surface of tank heads must be inspected when periodic retests are made; and safety valves must be retested at intervals of 5 years or less to a pressure as prescribed in paragraphs ICC–14 (c) and ICC–18. Tanks must be retested before being returned to service after any repairs requiring welding. Reports must be rendered as prescribed in paragraph ICC–21.

• • • • •

16. Amend § 78.289 paragraph ICC–19 (a) (15 F. R. 8520, Dec. 2, 1950) (49 CFR 78.289, 1950 Rev.) to read as follows:

§ 78.289 *Specification for tank cars having lagged fusion-welded steel tanks, Class ICC–105A600–W.* • • •

ICC–19. *Retests of tanks, anchor rivet housings, and safety valves.* (a) Tanks must be retested at intervals of 10 years or less to a pressure as prescribed in paragraph ICC–17 (a), except that the anchor rivet housings must not be removed and that the tank lagging and jacket need not be removed unless the pressure in the tank drops during the test period, indicating leakage; anchor rivet housings must be retested to a pressure as prescribed in paragraph ICC–17 (d); interior surface of tank heads must be inspected when periodic retests are made; and safety valves must be retested at intervals of 5 years or less to a pressure as prescribed in paragraphs ICC–14 (c) and ICC–18. Tanks must be retested before being returned to service after any repairs requiring welding. Reports must be rendered as prescribed in paragraph ICC–21.

• • • • •

17. Amend § 78.291 paragraph ICC–19 (a) (16 F. R. 5336, June 6, 1951) (49 CFR 78.291, 1950 Rev., 1951 Supp.) to read as follows:

§ 78.291 *Specification for tank cars having fusion-welded aluminum tanks, Class ICC–103–AL–W.* • • •

ICC–19. *Retests of tanks, safety valves, and interior heater systems.* (a) Tanks, safety valves, and interior heater systems must be retested, as prescribed for original tests in paragraphs ICC–17 and ICC–18, at intervals of 10 years or less after the original test. Interior surface of tank heads must be inspected when periodic retests are made. Tanks must also be retested before being returned to service after any repairs requiring welding, riveting or calking of rivets. Interior heater systems must be retested after repairs. Reports must be rendered as prescribed in paragraph ICC–21.

• • • • •

18. Amend § 78.294 paragraph ICC–19 (a) (17 F. R. 7288, Aug. 9, 1952) (49 CFR 78.294, 1950 Rev.) to read as follows:

§ 78.294 *Specification for tank cars having fusion-welded aluminum tanks, Class ICC–104A–AL–W.* • • •

ICC–19. *Retests of tanks and safety valves.* (a) Tanks must be retested at intervals of 10 years or less to a pressure as prescribed in paragraph ICC–17 (a), except that the tank lagging and jacket need not be removed unless the pressure in the tank drops during the test period, indicating leakage; interior surface of tank heads must be inspected when periodic retests are made; and safety valves must be retested at intervals of 5 years or less to a pressure as prescribed in paragraphs ICC–14 (c) and ICC–18. Tanks must be retested before being returned to service after any repairs requiring welding. Reports must be rendered as prescribed in paragraph ICC–21.

• • • • •

19. Add § 78.295 (15 F. R. 8523, Dec. 2, 1950) (49 CFR 78.295, 1950 Rev.) to read as follows:

§ 78.295 *Specifications for tank cars having fusion-welded nickel-chromium-iron alloy tanks Class ICC–106A800NCI.* This specification covers Class ICC–106A-800NCI tank cars having fusion-welded nickel-chromium-iron alloy tanks to which have been added A. A. R. details which are not inconsistent therewith. Wherever the word "approved" is used in this specification it means approval by the Association of American Railroads Committee on Tank Cars as prescribed in § 78.259 (b), (c), (d), and (e)—Procedure.

(a) *General requirements.* Tanks built under this specification must comply with all provisions of Specification ICC–106A500, except as modified in the following paragraphs (paragraph numbers refer to like numbers in § 78.275 Specification ICC–106A500).

ICC–1. *Type and general requirements.* (a) Tanks built under this specification must be cylindrical, with heads dished convex inward. The end forgings of the shell shall be flanged-in in such a manner that the heads are locked in independent of the strength of the fillet welds, as well as providing a chime to which handling hooks can be attached. These end forgings shall be seamless; and the thickness of the cylindrical portion into which the head is driven and the thickness of the flat flanged-in ends shall be at least equal to the head thickness, whereas the cylindrical portion next to the circumferential welds joining the end forgings to the shell shall be thinned down to the shell plate thickness. All openings must be located in the heads. Tanks must be securely attached to car structure in such a manner that they can be removed for filling by the consignor and emptying by the consignee. Each tank must have a capacity of at least 1,500 pounds of water and not more than 2,500 pounds of water.

ICC–2. *Material.* (a) All plates and forgings for tank and heads shall be annealed, uniform nickel-chromium-iron alloy of good welding quality, free from cracks, laminations, or other defects injurious to the finished tank, and shall have the following chemical composition and tensile properties:

Nickel (plus cobalt)	75.00 percent minimum.
Chromium	12.00 to 15.00 percent.
Iron	9.00 percent maximum.
Copper	0.50 percent maximum.
Manganese	1.00 percent maximum.
Carbon	0.15 percent maximum.
Silicon	0.50 percent maximum.
Sulfur	0.02 percent maximum.

Tensile strength 80,000 to 110,000 pounds per square inch. Yield point (0.2 percent offset) 30,000 to 60,000 pounds per square inch. Elongation in 2 in. 35 percent minimum.

A test specimen must be capable of being bent cold through 180° flat on itself without cracking on the outside of the bent portion. The tensile and bend specimens must be taken from the finished rolled or forged material after annealing, and there must be at least one tensile and one bend test on specimen from each heat.

ICC–2. (b) All plates and forgings must have their heat number and name or brand of manufacturer legibly stamped on them at the mill.

ICC–3. *Thickness of plates.* (a) The wall thickness of tanks must be at least $\frac{15}{32}$ inch and must be such that at the test pressure the calculated fiber stress in the wall of the tank or in the longitudinal weld seam will not be in excess of 25,000 pounds per square inch, as calculated by the following formula:

$$S = \frac{P\ (1.3D^2 + 0.4d^2)}{D^2 - d^2}$$

Where P is interior test pressure in pounds per square inch; D, outside diameter in inches; d, inside diameter in inches; and S, wall stress in pounds per square inch.

ICC–3. (b) Tank heads shall have a thickness equal to at least twice the shell thickness and must also be of sufficient thickness to provide for the threading of openings therein as prescribed in paragraph ICC–4 (b).

ICC–4. *Tank heads.* (a) The heads must be hot pressed, flanging and dishing being done in one heat, so as to make a flange at least 3 inches deep, a mean crown radius not greater than the inside diameter of the head and a mean knuckle radius equal to at least 3½ times the head thickness. They must be inserted into the tank shell and forgings with flange extending outward and have a snug driving fit into the shell.

ICC–5. *Welding and heat-treatment.* (a) All joints and seams shall be welded by qualified welders using approved methods of welding and approved filler rod having the same composition as the tank plate. Deposited metal must be fused smoothly and uniformly into plate surface at the top of the joint. All welds shall be free from voids or slag inclusions. Main longitudinal joint shall be double-welded butt joint made with a procedure insuring proper fusion and penetration. Heads shall be fillet welded to the end forgings with welds having a throat at least 25 percent greater than the head thickness. The circumferential welds joining the

end forginga and shell shall be of the butt type with nickel-chromium-iron alloy backing strips to insure complete fusion. Welded joints shall be tested by specimens and radiographs in accordance with paragraphs AAR–6 (d–1) to (k–5) of § 78.280 Specification ICC–103W.

ICC–5. (b) Each finished tank, before being subjected to the hydrostatic test, must be uniformly and properly heat-treated by heating to a temperature of 1,400° F. for 1½ hours in a non-oxidizing furnace atmosphere so as to remove any undue strains due to processes of manufacture.

ICC–8. *Venting, and loading and discharging valves.* (a) These valves must be of approved type, made of metal not subject to rapid deterioration by lading, and must withstand a pressure of 800 pounds per square inch without leakage. The valves must be screwed directly into tank heads or attached to tank heads by other approved methods. Provision must be made for closing the pipe connections of the valves.

ICC–11. (b) Each tank must be tested to 800 pounds per square inch.

ICC–14. (b) ICC–106A800NCI.

20. Add § 78.296 (15 F. R. 8523, Dec. 2, 1950) (49 CFR 78.296, 1950 Rev.) to read as follows:

§ 78.296 *Specification for tank cars having rubber-lined fusion-welded steel tanks, Class ICC–103B100–W.* This specification covers Class ICC–103B100–W tank cars having rubber-lined fusion-welded steel tanks to which have been added A. A. R. details which are not inconsistent therewith. Wherever the word "approved" is used in this specification it means approved by the Association of American Railroads Committee on Tank Cars as prescribed in § 78.259 (b), (c), (d), and (e)—Procedure.

(a) *General requirements.* Tanks built under this specification must comply with all provisions of Specification ICC–103–W, except as modified in the following paragraphs (paragraph numbers refer to like number in § 78.280 Specification ICC–103–W):

ICC–1. *Type.* (a) Tanks built under this specification must be cylindrical with heads dished convex outward. The tank must be provided with an expansion dome, manhole nozzle and cover on top of tank of sufficient diameter to permit access to interior of tank and provide for proper mounting of venting, loading, unloading, gauging and air valves, and a protective housing and cover surrounding these devices. Other openings in tank prohibited.

ICC–2. *Bursting pressure.* (a) The calculated bursting pressure, based on the lowest tensile strength of the plate and the efficiency of the longitudinal welded joint must be at least 495 pounds per square inch.

ICC–3. *Material.* (a) All plates for tank and expansion dome must be made of open-hearth boiler-plate steel of flange quality, the carbon content of which shall not exceed 0.30 per cent. The lining must be acid-resisting rubber, vulcanized or bonded directly or otherwise attached to the metal tank, to provide a non-porous laminated lining. No rubber shall be under tension when applied except that due to conformation over rivet heads. Interior of tank must be free from scale, oxidation, moisture, and all foreign matter during the lining operation.

ICC–3. (d) This paragraph does not apply.

AAR–3. *Lining.* (b) See paragraphs ICC–3 (a) and ICC–4 (b).

AAR–3. (d) Rubber-lined tanks must be stenciled as prescribed in paragraph ICC–20 (e).

ICC–4. *Thickness and width of plates.* (a) The minimum thickness of plates must be as follows:

Inside diameter of tanks	Bottom sheet	Shell sheet	Tank head	Dome shell	Dome head
	Inch	*Inch*	*Inch*	*Inch*	*Inch*
87 inches or under	½	½	½	3/8	3/8
Over 87 to 96 inches	9/16	9/16	9/16	3/8	3/8

ICC–4. (b) The rubber lining must be at least 5/32 inch thick except that over all rivets and seams formed by riveting attachments the lining must be double thickness. The lining must overlap at least 1½ inches at all edges, which must be straight and be beveled to an angle of approximately 45 degrees. Directly under the dome, vulcanized to the lining on bottom of tank, must be applied a rubber reinforcement pad at least 4½ feet square and at least ½ inch thick, with edges of pad beveled to an angle of approximately 45 degrees. An opening in this pad for sump is permitted.

ICC–4. (d) This paragraph does not apply.

AAR–4. (b) This paragraph does not apply.

AAR–4. (c) Car must have underframe.

AAR–4. (d) This paragraph does not apply.

AAR–5. (a) The tank head shape shall be an ellpsoid of revolution in which the major axis shall equal the diameter of the shell and the minor axis shall be one-half of this.

ICC–6. (b) Manhole nozzle, sump, or other attachments must be attached to tank by fusion welding. Fusion welding for securing these attachments in place must be of the double-welded butt joint type or double full-fillet lap joint type. All projecting edges of plates and castings on inside of tank must be rounded and free from fins or other irregular projections. Castings must be free from porosity.

ICC–9. *Expansion dome.* (a) The expansion dome must have a capacity, measured from the inside top of the tank shell to top of manhole flange, of at least one percent of the capacity of tank and dome combined.

ICC–9. (b) The opening in manhole ring, before lining, must be at least 18 inches in diameter, and the opening in the tank shell at the dome shall be fully cut out or flued to the inside diameter of the dome, which shall not exceed 42 inches. The tank shell at the dome must be adequately reinforced.

ICC–9. (c) The dome head if of pressed steel must be dished convex outward. The entire dome with attachments, or dome head and manhole ring with attachments, made of cast steel or other malleable metal may be used in place of dished steel plate dome head.

AAR–9. (a) The entire dome must be of pressed, forged, or cast steel; if of forged or cast steel, integral attachments permissible. The dome head if separate must be of pressed, forged, or cast steel; if of forged or cast steel, integral attachments permissible.

AAR–9. (b) Dome head must be of approved contour. If dished, the knuckle radius shall be at least 6 percent of the spherical dish radius, and the thickness shall be not less than that calculated by the formula in paragraph AAR–2 (a) where "d" is twice the inside spherical radius, which radius shall not be in excess of the diameter of the dome. Dome heads may be flued for attachment of the manhole nozzle, in which case added reinforcement of the opening is not required.

AAR–9. (c) See Figure 14 for tank shell reinforcement at dome opening.

ICC–10. *Manhole nozzle, cover and protective housing.* (a) Manhole nozzle must be of cast, forged, or pressed steel at least 18 inches inside diameter having approved wall thicknesses and dimensions.

ICC–10. (b) Manhole cover must be of suitable metal of approved thickness, and must be attached to manhole nozzle by through bolts not entering tank. The top, bottom where exposed to lading, and edge of manhole cover must be covered with rubber as prescribed in paragraphs ICC–3 (a) and ICC–4 (b). Through bolt holes may be lined with rubber at least ⅛ inch in thickness. Cover made of metal not affected by lading need not be rubber covered. All rubber surfaces on outside of tank or fittings must be painted with an age-resisting paint to protect rubber from light rays. Manhole rings, welded to manhole nozzle, must be made of cast, forged, or fabricated metal and be of good weldable quality in conjunction with metal of nozzle.

ICC–10. (c) The shearing valve of the bolts attaching the protective housing to manhole cover must not exceed 70 percent of shearing valve of bolts attaching manhole cover to manhole nozzle.

ICC–10. (d) All joints between manhole cover and manhole nozzle, and between manhole cover and valves or other appurtenances mounted thereon, must be made tight against vapor pressure.

ICC–10. (e) Protective housing of cast or pressed steel must be bolted to manhole cover. Housing must be equipped with a steel cover that can be securely closed. Housing cover must have a suitable stop to prevent cover striking loading or unloading connections and be hinged on one side only with approved closure.

AAR–10. (a) Bolted type of manhole cover must be used.

ICC–11. *Venting, loading and unloading, gauging, and air inlet devices.* (a) These devices when installed must withstand a pressure of 100 pounds per square inch without leakage. They must be bolted to fittings or seatings on the manhole cover. Connections to valves must be closed with blind flanges bolted tightly over valve outlets, chained or otherwise fastened to prevent misplacement. Discharging (siphon) pipe must be securely anchored.

ICC–12. *Venting, loading and unloading, gauging, and air inlet devices.* (a) When installed, these devices must be of metal and have all surfaces in contact with the lading covered with rubber as prescribed in paragraphs ICC–3 (a) and ICC–4 (b) except that lining must be at least ⅛ inch thick. These devices when made of metal not affected by the lading need not have such surfaces rubber covered.

ICC–13. *Bottom discharge outlets.* (a) Bottom discharge outlet prohibited. Bottom sump of cast, pressed, or forged metal is permissible. If used and welded to tank, it must be of cast, pressed, or forged metal and be of good weldable quality in conjunction with metal of tank.

ICC–13. (b) This paragraph does not apply.

ICC–13. (c) This paragraph does not apply.

AAR–13. (a) This paragraph does not apply.

AAR–13. (b) This paragraph does not apply.

AAR–13. (c) This paragraph does not apply.

AAR–13. (d) This paragraph does not apply.

AAR–13. (e) This paragraph does not apply.

AAR–13. (f) This paragraph does not apply.

AAR–13. (g) This paragraph does not apply.

ICC–14. *Safety valves.* (a) The tank must be equipped with one or more safety valves of approved type, made of metal not subject to rapid deterioration by lading and mounted on manhole cover. The total valve discharge capacity must be sufficient to prevent building up of pressure in tank in excess of 75 pounds per square inch.

ICC–14. (b) This paragraph does not apply.

ICC–14. (c) The safety valves must be set to open at a pressure of not exceeding 75 pounds per square inch. (For tolerance see par. ICC–18.)

ICC–14. (d) Tanks used for the transportation of corrosive liquids need not be equipped with safety valves, but may be equipped with one safety vent, lined with rubber of at least ⅛ inch thick, having an inside diameter of at least 1¾ inches after lining, closed with a frangible disc of material not affected by the lading and of a suitable thickness that will rupture at a pressure of 75 pounds per square inch plus or minus 5 percent. Means for holding disc in place must be such as to prevent distortion or damage to disc when applied. Safety vent closure must be chained or otherwise fastened to prevent misplacement.

AAR–14. (a) Safety valve must be of approved design. See Appendix "A" for formula for calculating discharge capacity of valve and method of testing sample valve of a particular design to determine its actual discharge capacity, which must at least equal the capacity calculated as necessary to prevent building up pressure in the tank in excess of 75 pounds per square inch.

AAR–14. (b) Safety vent flanges, if welded to cover plate, must be of cast, forged, or pressed metal and be of good weldable quality in conjunction with metal of cover plate.

ICC–15. *Fixtures, reinforcements, and attachments not otherwise specified.* (a) Attachments, other than the anchorage, sump, and those mounted on manhole nozzle and cover, are prohibited.

ICC–15. (b) This paragraph does not apply.

ICC–16. *Plugs for openings.* (a) Plugs prohibited. Closures must be effected with blind flanges bolted over openings. Flanges must have all surfaces exposed to the lading covered with rubber or be made of metal not affected by lading.

ICC–17. *Tests of tanks.* (a) Each tank must be tested, before rubber lining is applied, by completely filling tank and dome with water, or other liquid having similar viscosity, of a temperature which must not exceed 100° F. during the test, and applying a pressure of 100 pounds per square inch. Tank must hold the prescribed pressure for at least 10 minutes without leakage or evidence of distress. All rivets and closures, except safety valves or vents, must be in place while test is made. After tank is rubber-lined, no further tests are required.

ICC–17. (c) This paragraph does not apply.

AAR–17. *Hammer test.* (a) The tank shall be subjected to a hydrostatic pressure of 100 pounds per square inch and while subject to this pressure shall be given a thorough hammer or impact test. This impact test shall consist of striking the plate at 6-inch intervals on both sides of the welded joint and for the full length of all welded joints. The weight of the hammer in pounds shall approximately equal thickness of the shell in tenths of an inch, but not to exceed 10 pounds. The plates shall be struck with a sharp swinging blow. The edges of the hammer shall be rounded so as to prevent defacing the plate. Following the impact test this pressure must be held for at least 10 minutes.

AAR–17. (b) This paragraph does not apply.

AAR–17. (c) See paragraph ICC–17 (a).

ICC–18. *Tests of safety valves.* (a) Each valve must be tested by air or gas before being put into service. The valve must open at a pressure not exceeding 75 pounds per square inch and be vapor tight at 65 pounds per square inch, which limiting pressures must not be affected by any auxiliary closure or other combination.

AAR–18. (a) This paragraph does not apply.

ICC–19. *Retests of tanks and safety valves.* (a) Periodic retests of tanks are not required. Tanks must be retested before rubber lining is renewed. Tanks must also be retested before being returned to service after any repairs requiring welding, riveting, or calking of rivets. Reports must be rendered as prescribed in paragraph ICC–21.

ICC–19. (b) Safety valves must be retested, as prescribed for original tests in paragraph ICC–18, at intervals of 5 years or less. Reports must be rendered as prescribed in paragraph ICC–21.

AAR–19. (a) This paragraph does not apply.

ICC–20. (b) ICC–103B100–W in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal near the center of both outside heads of the tank by the tank builder. This mark must also be stenciled on the tank or jacket, if lagged, in letters and figures at least 2 inches high by the party assembling the completed car.

ICC–20. (e) "Rubber-lined tank—pressure test not required," stenciled on tank, or jacket if lagged, instead of record of test of tank.

ICC–20. (g) This paragraph does not apply.

ICC–20. (h) This paragraph does not apply.

APPENDIX

Section, Paragraph, and Reason for Amendment

72.5, Commodity List	To provide for the transportation of bursters (explosive), supplementary charges (explosive), charged oil well jet perforating guns via private motor carriers, dichlorodifluoromethane-monofluorotrichloromethane mixture, monochloropentafluoroethane, nickel catalyst; and to correct omissions or typographical errors in printing.
73.29, (a) and (d)	To provide for adequate closure of "empty" containers.
73.31, (g) Note 1 and Note 2	To waive periodic retest requirements of metal tanks, safety valves, and heater systems of tank cars, except those in chlorine service, because of the present emergency and until Dec. 31, 1953.
73.31, (h)	To allow transfer of tank cars from one commodity service to another when authorized for transportation of such commodity by the regulations without obtaining prior approval of the Tank Car Committee of the Association of American Railroads.
73.53, (s)	To provide for the transportation of military devices not heretofore included in the regulations.
73.53, (u)	To provide for the transportation of oil well jet perforating guns not heretofore included in the regulations.
73.58, (b)	To clarify marking on packages of ammunition for small arms with explosive bullets or projectiles.
73.60, (c)	To clarify marking on packages of black powder and low explosives.
73.63, (c) (2)	To provide an additional type of interior packing for high explosives (dynamite).
73.69, entire section	To provide a safer method of transportation and packing of detonating fuzes, detonating fuze parts containing an explosive, boosters, bursters or supplementary charges.
73.80, entire section	To provide for the packing and transportation of oil well jet perforating guns via private motor carriers.
73.93, (f) (2)	To clarify labeling of packages of propellant explosives.
73.100, (g)	To correct a typographical error in the regulations.
73.100, (h)	To provide for the transportation of igniters which are enclosed in bakelite plastic tubes or containers.
73.110, entire section	To provide for the transportation of oil well jet perforating guns, total explosive content in guns not exceeding 15 pounds per motor vehicle, as class C explosive.
73.140, (a) (1)	To provide an additional inside container for the transportation of zirconium metallic solutions or mixtures thereof.
73.153, (c) (62)	To exclude nickel catalyst from exemptions for flammable solids.
73.157, (a) (2)	To provide an additional container for the transportation of benzoyl peroxide, wet.
73.158, (a) (4)	To provide for the use of fiberboard boxes for the transportation of benzoyl peroxide, dry, lauroyl peroxide, dry, chlorobenzoyl peroxide, dry, or succinic acid peroxide, dry.
73.162, (g) (1)	To provide for the transportation of ground, crushed or granulated charcoal made by the "Stafford" process.
73.215, (a) (2)	To provide for the transportation of zirconium, metallic, dry, in fiberboard boxes.
73.229, (a) and (c)	To provide for the transportation of chlorate and borate mixtures, and chlorate and magnesium chloride mixtures.
73.233, entire section	To provide packing requirements for the transportation of nickel catalyst.
73.245, (a) (4)	To provide an additional container for the transportation of acids or other corrosive liquids not specifically provided for.
73.263, (a) (9) and (a) (12)	To provide for the shipment of higher strength hydrochloric acid in specially designed tank cars.
73.264, (b) (1)	To provide for the transportation of hydrofluoric acid, anhydrous in ICC–4BA cylinders.
73.308, (a) Table	To provide for the transportation of monochloropentafluoroethane and hydrogen chloride in cylinders; and provide for an additional cylinder for the transportation of chlorine.
73.314, (a) Table	To provide for shipments of dichlorodifluoromethane-monofluorotrichloromethane mixture in tank cars; authorize transportation of nitrosyl chloride in new type tank cars.
73.314, Note 12	To provide for the transportation of dichlorodifluoromethane-monofluorotrichloromethane mixtures in ton containers and to provide for the shipment of nitrosyl chloride in new type containers via motor vehicles.

APPENDIX—Continued

Section, Paragraph, and Reason for Amendment—Continued	
73.314, Note 17	To provide for the use of a safety device on containers used for the transportation of nitrosyl chloride.
73.315, (a) (1) Table	To provide for the transportation of dichlorodifluoromethane-monofluorotrichloromethane in cargo tanks.
73.315, (h) Table	To prohibit the use of gauging devices on cargo tanks and portable tanks transporting dichlorodifluoromethane-monofluorotrichloromethane mixture.
73.315, (i) (2) Table	To provide a start-to-discharge pressure of safety relief valve on tanks used for the transportation of dichlorodifluoromethane-monofluorotrichloromethane mixture.
73.332, (a) (4)	To provide for the transportation of hydrocyanic acid in tank cars.
73.333, (a) (2)	To provide for the transportation of phosgene in tank cars.
73.346, (a) (1)	To provide an additional container for the transportation of poisonous liquids not specifically provided for.
73.359, (a) (8)	To provide an additional container for the transportation of hexaethyl tetraphosphate mixtures, parathion mixtures and other similar compositions.
74.538, (a) Chart items "e" and "g".	To provide for the proper loading in cars of boosters (explosive), bursters (explosive) and supplementary charges.
74.538, footnote d	To authorize boosters, bursters or supplementary charges to be loaded in cars together with detonating fuzes.
74.544, (a) (5)	To exempt cars containing vehicles and shipments of electrolyte acid from placarding requirements when offered for transportation by departments of the army, navy or air force.
77.806, entire section	Clarification.
77.840, (c)	To provide for the transportation of dichlorodifluoromethane-monofluorotrichloromethane mixtures in ton containers and to provide for the shipment of nitrosyl chloride in new type containers via motor vehicles.
77.848, (a) Chart items "e" and "g".	To provide for the proper loading in motor vehicles of boosters (explosive), bursters (explosive), and supplementary charges (explosive).
77.848, footnote d	To authorize boosters, bursters or supplementary charges to be loaded in motor vehicles together with detonating fuzes.
78.205–19, (a)	To provide for the manufacture of an additional type of inside container for use with ICC–12B outside fiberboard boxes.
78.219–5, (a) and (b)	To provide for the use of alternate tape in the manufacture of ICC–23H fiberboard boxes.
78.219–12, (a)	Do.
78.259, (f) Note 4	To provide for making fusion-welded repairs to manway covers on certain types of tank cars.
78.265, ICC–19 (a)	To provide for the inspection of interior surface of tank heads during retests on tank cars.
79.269, ICC–19 (a)	Do.
78.270, ICC–19 (a)	To provide for the inspection of interior surface of tank heads during retests on tank cars and to extend retest period of tanks from 5 to 10 years.
78.271, ICC–15 (a) and (b)	Do.
78.272, ICC–15 (a)	To provide for the inspection of interior surface of tank heads during retests on tank cars.
78.273, ICC–15 (a)	Do.
78.274, ICC–15 (a)	Do.
78.280, ICC–19 (a)	Do.
78.282, ICC–6 (a)	To provide for the use of riveted patches on fusion-welded tank cars.
78.284, ICC–19 (a)	To provide for the inspection of interior surface of tank heads during retests on tank cars.
78.285, ICC–19 (a)	To provide for the inspection of interior surface of tank heads during retests on tank cars and to extend retest period of tanks from 5 to 10 years.
78.286, ICC–10 (b)	To allow manhole cover to be made of nickel steel 2 inches in thickness in lieu of 2¼ inches in thickness.
78.286, ICC–19 (a)	To provide for the inspection of interior surface of tank heads during retests on tank cars and to extend retest period of tanks from 5 to 10 years.
78.287, ICC–19 (a)	Do.
78.288, ICC–19 (a)	Do.
78.289, ICC–19 (a)	Do.
78.291, ICC–19 (a)	To provide for the inspection of interior surface of tank heads during retests on tank cars.
78.294, ICC–19 (a)	To provide for the inspection of interior surface of tank heads during retests on tank cars and to extend retest period of tanks from 5 to 10 years.
78.295, entire section	New specification for the construction of tank cars having fusion-welded, nickel-chromium-iron alloy tanks.
78.296, entire section	New specification for the construction of tank cars having rubber-lined fusion-welded steel tanks.

NOTICES

CIVIL AERONAUTICS BOARD

[Docket No. 1706 et al.]

AMERICAN OVERSEAS AIRLINES, INC. ET AL.; TRANSATLANTIC FINAL MAIL RATE CASE

NOTICE OF HEARING

In the matter of the compensation for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith of American Overseas Airlines, Inc., Pan American World Airways, Inc., and Trans World Airlines, Inc., in transatlantic operations.

Notice is hereby given pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 406 and 1001 of said act that the above-entitled proceeding is assigned for hearing on October 20, 1952, at 10:00 a. m., e. s. t., in Conference Room A, Departmental Auditorium, Constitution Avenue between Twelfth and Fourteenth Streets NW., Washington, D. C., before Examiner R. Vernon Radcliffe.

The issues to which evidence may be addressed relate to the question of the fair and reasonable rates of compensation for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith for the respective air carriers and periods concerned for transatlantic operations under the standards of the Civil Aeronautics Act of 1938, as amended.

For a further specification of subsidiary issues and the extent to which there has been a limitation of issues pursuant to Subpart C of the Board's rules of practice, interested persons are referred to the Statements of Tentative Findings and Conclusions, the Objections and Answers of parties, the Prehearing Conference Reports and Exceptions thereto in Dockets Nos. 1666, 1706, 2375, and 4021, all of which are on file with the Civil Aeronautics Board.

Notice is further given that any person, other than a party of record, desiring to be heard in this proceeding must file with the Board on or before October 20, 1952, a statement setting forth the matters of fact or law which he desires to present or controvert and such person may then appear and participate in the hearing in accordance with Rule 14 of the rules of practice.

Dated at Washington, D. C., September 23, 1952.

[SEAL] FRANCIS W. BROWN, *Chief Examiner.*

[Delegation of Authority 4, Supp. 1, Revision 2]

DISTRICT ENFORCEMENT DIRECTORS AND ACTING DISTRICT ENFORCEMENT DIRECTORS

REDELEGATION OF AUTHORITY WITH RESPECT TO ENFORCEMENT FUNCTIONS

By virtue of the authority vested in me as Assistant Director of Price Stabilization for Enforcement (Director of Enforcement), by Delegation of Authority 4 of the Director of Price Stabilization (16 F. R. 3595), and Delegation of Authority 40 of the Director of Price Stabilization (16 F. R. 12411), this Revision 2 of Delegation of Authority 4, Supplement 1 (16 F. R. 3595) is hereby issued.

1. Those functions relating to the enforcement of price stabilization, including those with respect to the allocation of meat, which were delegated to the Assistant Director of Price Stabilization for Enforcement (Director of Enforcement) by Delegation of Authority 4 and Delegation of Authority 40 are hereby redelegated to the several District Enforcement Directors or Acting District Enforcement Directors subject to such rules, regulations, and orders as may hereinafter be issued by the Assistant Director of Price Stabilization for Enforcement, and the several District Enforcement Directors or Acting District Enforcement Directors are each hereby authorized and empowered, within the respective areas serviced by each Regional or District Office to which such District Enforcement Director or Acting District Enforcement Director is attached, the location of such Offices and the geographical limitations of such areas being described in the Organizational Statement Amendment of August 15, 1952 (17 F. R. 7515), to make such investigations, inspections, or inquiries as may be necessary or appropriate in their discretion, to the enforcement or the administration of the Defense Production Act of 1950, as amended by the Defense Production Act Amendments of 1951 and 1952, and the regulations or orders issued thereunder, subject to such supervision, direction, and control as the Assistant Director of Price Stabilization for Enforcement (Director of Enforcement) deems necessary and expedient.

2. The authority of section 705 (a) in the Defense Production Act of 1950, as amended by the Defense Production Act Amendments of 1951 and 1952, will be utilized only after the scope and purpose of the investigation, inspection or inquiry to be made thereunder have been defined by competent authority, and it is assured that no adequate and authoritative data are available from any Federal or other responsible agency. The Assistant Director of Price Stabilization for Enforcement (Director of Enforcement) shall be such competent authority within the United States, the District of Columbia and any and each territory and possession of the United States. In addition, the several District Enforcement Directors or Acting District Enforcement Directors are each hereby designated and constituted as such competent authority within the respective areas serviced by each Regional or District Office to which such District Enforcement Director or Acting District Enforcement Director is attached, the location of such Offices and the geographical limitations of such areas being described in the Organizational Statement Amendment of August 15, 1952 (17 F. R. 7515).

3. In connection with any investigation, inspection, or inquiry necessary or appropriate, in their discretion, to the enforcement or administration of the Defense Production Act of 1950, as amended by the Defense Production Act Amendments of 1951 and 1952, and the regulations or orders issued thereunder, the several District Enforcement Directors or Acting District Enforcement Directors of the Office of Price Stabilization, subject to such supervision, direction, and control as the Assistant Director of Price Stabilization for Enforcement (Director of Enforcement) deems necessary and expedient, are each authorized within the respective areas serviced by each Regional or District Office to which such District Enforcement Director or Acting District Enforcement Director is attached, the location of such Offices and the geographical limitations of such areas being described in the Organizational Statement Amendment of August 15, 1952 (17 F. R. 7515):

(a) To sign and issue Subpenas requiring any person to appear and testify or to appear and produce documents, or both, at any designated place;

(b) To sign and issue Inspection Authorizations requiring any person to permit a duly authorized representative of the Office of Price Stabilization to inspect books, records, and other writings in the possession or control of said person at the place where such person usually keeps them, and to inspect the premises or property of said person;

(c) To issue and use Letters requesting the inspection of books, documents, and records and inspection of premises or property.

Such subpenas, Inspection Authorizations, and Request Letters will be utilized only after the scope and purpose of the investigation, inspection or inquiry to be made have been defined by the Assistant Director of Price Stabilization for Enforcement (Director of Enforcement) or the District Enforcement Director or Acting District Enforcement Director in whose area as above defined such investigation, inspection, or inquiry is to take place, and it is assured that no adequate and authoritative data sought thereby are available from any Federal or other responsible agency.

4. The terms herein shall have the same meaning as in the Defense Production Act of 1950, as amended by the Defense Production Act Amendments of 1951 and 1952.

This revision shall become effective as of August 19, 1952.

LAMBERT S. O'MALLEY, *Assistant Director of Price Stabilization for Enforcement.*

SEPTEMBER 25, 1952.

[Delegation of Authority 68, Amdt. 1]

DIRECTORS OF THE REGIONAL OFFICES

DELEGATION OF AUTHORITY TO ACT UNDER CPR 24, AS AMENDED, SECTION 11 (B) (2)

By virtue of the authority vested in me as Director of the Office of Price Stabilization, pursuant to the Defense Production Act of 1950, as amended (64 Stat. 798, 803; 65 Stat. 131, 66 Stat. 296), Executive Order 10161 (15 F. R. 6.05), and Economic Stabilization Agency General Order No. 2, as amended, (16 F. R. 738, 11626), this Amendment 1 to Delegation of Authority 68 is hereby issued.

Delegation of Authority 68 is amended by redesignating the present paragraph 2 as paragraph 3 and inserting a new paragraph 2 to read as follows:

2. *Authority to act under section 11 (b) (2) of CPR 24, as amended.* Authority is hereby delegated to the Directors of the Regional Offices of the Office of Price Stabilization to act under section 11 (b) (2) of CPR 24, as amended.

This Amendment 1 to Delegation of Authority No. 68 shall take effect on September 26, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

SEPTEMBER 25, 1952.

[F. R. Doc. 52-10560; Filed, Sept. 25, 1952; 11:37 a. m.]

[Ceiling Price Regulation 32, Supplementary Regulation 2, Section 3, Special Order 23]

SOUTH CARLTON FIELD, CLARKE COUNTY, ALABAMA

CRUDE PETROLEUM CEILING PRICES ADJUSTED ON AN IN-LINE BASIS

Statement of considerations. The Office of Price Stabilization has been requested to adjust the ceiling price of crude petroleum produced from the South Carlton Field, Clarke County, Alabama from $1.35 per barrel to $1.56 per barrel flat.

On the basis of the evaluation of 12.9° API gravity sample of the crude taken in June, 1950, a receiving tank price of $1.35 per barrel was established at the well. A recent analysis representative of the production in November, 1951 showed this crude to be 13.4° API gravity and that it contained a higher percentage of gas oil and a lower percentage of bottoms than that obtained from the first sample which was received shortly after the field was discovered. This error has prevented a normal price adjustment in the field. Furthermore, the change in API gravity shown in the accepted analysis has resulted in a higher value of approximately 21 cents per barrel to the purchaser, and accordingly a revision in the ceiling price has been requested.

From the information available to this Office, it appears that the adjusted price will not exceed the ceiling price of comparable crude petroleum produced in this same area. The ceiling price of $1.56 per barrel flat for 13° API gravity crude conforms to ceiling prices in the same area.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to the provisions of section 3 of Supplementary Regulation 2 to Ceiling Price Regulation 32,

It is ordered:

1. That the ceiling price at the lease receiving tank for crude petroleum produced from the South Carlton Field, Clarke County, Alabama shall be: $1.56 per barrel flat.

2. All provisions of Ceiling Price Regulation 32, except as inconsistent with the provisions of this order, shall remain in full force and effect as to the commodities covered by this order.

3. This order may be amended, modified or revoked at any time by the Director of Price Stabilization.

Effective date. This special order shall become effective September 24, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

[Docket No. G-1958]

ROCKLAND LIGHT AND POWER CO.

ORDER FIXING DATE OF HEARING

SEPTEMBER 22, 1952.

On May 19, 1952, Rockland Light and Power Company (Applicant), a New York corporation having its principal place of business at Nyack, New York, filed an application seeking authorization pursuant to section 7 of the Natural Gas Act to acquire and operate all of the properties, assets, and franchises owned or enjoyed by Rockland Gas Company, Inc. (Rockland Gas), a New York corporation having its principal place of business at Spring Valley, New York, all as more fully described in the application on file with the Commission and open to public inspection.

Applicant has advised this Commission that if the acquisition of facilities proposed in its application were consummated substantial savings in operating costs would accrue and that it is Applicant's intention to apply a substantial portion of such savings so as to effect gas rate reductions in the Rockland County, New York area. Applicant has further represented to the Commission that it intends to effect such rate reductions immediately upon receiving the necessary authority to consummate the proposed acquisition, and that the prompt and expeditious disposition of this proceeding will serve to accelerate the time when the proposed rate reductions can be put into effect.

Applicant has requested that its application be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)) for noncontested proceedings, and this proceeding is a proper one for disposition under the aforementioned rule, no request to be heard, protest, or petition raising an issue of substance having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on June 6, 1952 (17 F. R. 5174).

The Commission finds: It is reasonable and in the public interest, and good cause exists for fixing the date of hearing in this proceeding less than 15 days after publication of this order in the FEDERAL REGISTER.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a public hearing be held on October 3, 1952, at 9:45 a. m., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by the application: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: September 23, 1952.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 52-10432; Filed, Sept. 25, 1952; 8:46 a. m.]

[Docket No. G-2047]

PANHANDLE EASTERN PIPE LINE CO.

NOTICE OF APPLICATION

SEPTEMBER 23, 1952.

Take notice that Panhandle Eastern Pipe Line Company (Applicant), a Delaware corporation, address 1221 Baltimore Avenue, Kansas City 6, Missouri, filed on September 11, 1952, an application in the alternative for (1) a disclaimer of Commission jurisdiction or (2) a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of the facilities as hereinafter described.

Applicant proposes to construct and operate a measuring and regulating station and appurtenant equipment to be used in the delivery to the chemical plant of National Petro-Chemicals Corporation (Petro-Chemicals), located near Tuscola, Illinois, of up to 7,000 Mcf of natural gas per day during the seven-month period, September 16 through April 15 and up to 24,000 Mcf per day during the five-month period, April 16 through September 15. Of these volumes of natural gas it is contemplated that 7,000 Mcf per day will be used for plant fuel in Petro-Chemicals extraction plant, where hydrocarbons will be extracted from natural gas, and in its chemical plant where ethane will be converted into ethylene, and up to 17,000 Mcf per day will be used in the five months, April 16 through September 15 for fuel in the plant boiler station. The above volumes of natural gas are contemplated to be sold on "uninterruptible" basis; however in the event of a shortage of gas Applicant has the right to curtail such sales to the extent reasonably necessary in its judgment after first curtailing so far as practicable, deliveries of natural gas to customers purchasing gas on an interruptible basis.

Petro-Chemicals was organized by Applicant and National Distillers Products Corporation to engage in the extraction and manufacture of various chemicals from natural gas. Applicant has contracted with Petro-Chemicals to sell to it in addition to the volumes of natural gas stated above, certain volumes of ethane and heavier hydrocarbon gasses contained in the stream of natural gas being transported in Applicant's pipeline.

The cost of the facilities for which applicant in the alternative seeks certification is $27,000, and financing is proposed to be out of current funds on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 10th day of October 1952. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 52-10456; Filed, Sept. 25, 1952; 8:48 a. m.]

[Docket No. G-2048]

PANHANDLE EASTERN PIPE LINE CO.

NOTICE OF APPLICATION

SEPTEMBER 23, 1952.

Take notice that Panhandle Eastern Pipe Line Company (Applicant), a Delaware corporation, address 1221 Baltimore Avenue, Kansas City 6, Missouri, filed on September 11, 1952, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain transmission pipeline facilities hereinafter described.

Applicant proposes to construct and operate 5.5 miles of 6-inch o. d. loop pipeline paralleling portion of Applicant's Adrian lateral pipeline extending from its main Michigan pipe to Adrian, Michigan. The proposed facilities are to permit the delivery of natural gas through the Adrian lateral to the plant of Bohn Aluminum & Brass Corporation (Bohn) during the months of November, December, January, February, and March, during which months Applicant will be delivering large volumes of firm gas through the lateral to Citizens Gas Fuel Company, the distributing company in Adrian, Michigan. Relative to the sale of gas to Bohn, Applicant has applied at Docket No. G-2040 for a certificate of public convenience and necessity authorizing such service.

The estimated cost of the facilities is $110,000 which amount will be initially financed by Applicant out of funds on hand. Bohn, however has agreed to pay $35,000 toward the cost of the construction of the facilities, such amount to be returned by a credit of 5 cents per Mcf of natural gas purchased by it from Applicant and by the payment to it of any balance remaining after the termination of the contract. Citizens has agreed to pay Applicant toward the cost of the facilities by a payment of 1½ cents per Mcf of interruptible natural gas delivered by Citizens to Bohn.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 10th day of October 1952. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 52-10457; Filed, Sept. 25, 1952; 8:48 a. m.]

[Docket No. G-2049]

PANHANDLE EASTERN PIPE LINE CO.

NOTICE OF APPLICATION

SEPTEMBER 23, 1952.

Take notice that Panhandle Eastern Pipe Line Company (Applicant), a Delaware corporation, address 1221 Baltimore Avenue, Kansas City 6, Missouri, filed on September 11, 1952, an application in the alternative for (1) a disclaimer of Commission jurisdiction or (2) a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the service as hereinafter described.

Applicant proposes to deliver to the corn drying plant of the DeKalb Agricultural Association (DeKalb), located at Tuscola, Illinois, maximum volumes of natural gas not in excess of 2,000 Mcf in any one day or 40,000 Mcf in any calendar year. Such gas is to be delivered only during the months of September, October, November, and December. Delivery is to be made through the facilities of the Citizens Gas Company, the distributing company in Tuscola, Illinois, under an operating arrangement providing generally that Citizens has no obligation to transport gas to DeKalb's plant if it will interfere with the operations of its distribution plant or with deliveries to its customers. Service proposed to be rendered by Applicant contemplates an "uninterruptible" supply; however, the right is reserved to curtail or interrupt deliveries to DeKalb if a shortage of gas exists on Applicant's pipe line system.

Applicant proposes to construct no new facilities in order to provide the service.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 10th day of October 1952. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

NOTICE OF APPLICATION

SEPTEMBER 23, 1952.

Take notice that Panhandle Eastern Pipe Line Company (Applicant), a Delaware corporation, address 1221 Baltimore Avenue, Kansas City 6, Missouri, filed on September 11, 1952, an application in the alternative for (1) a disclaimer of Commission jurisdiction or (2) a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the service as hereinafter described.

Applicant proposes to sell on a temporary or dump basis to the Monroe Paper Products Company, located in Monroe,

Michigan, a supply of natural gas not in excess of 3,000 Mcf per day to supplement the 1,500 Mcf per day being sold to Monroe Paper by Michigan Gas Utilities Company (Utilities), the local distributing company in Monroe, Michigan. It is contemplated that the gas will be used in two of the four steam boilers of Monroe Paper, the other two boilers being kept in reserve for firing with coal in the event of interruption of gas. Deliveries are proposed to be made to Monroe Paper plant through the facilities of Utilities and no new construction is contemplated by the Applicant in order to render the service.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 10th day of October 1952. The application is on file with the Commisison for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-2057]

MISSOURI PUBLIC SERVICE CO.

NOTICE OF APPLICATION

SEPTEMBER 23, 1952.

Take notice that Missouri Public Service Company (Applicant), a Missouri corporation having its principal place of business at Warrensburg, Missouri, filed on September 11, 1952, an application pursuant to section 7 of the Natural Gas Act for:

(1) An order directing Panhandle Eastern Pipe Line Company (Panhandle) to establish physical connection of its transmission facilities near New Franklin, Missouri, with the proposed facilities of and to sell and deliver natural gas to Applicant for resale as hereinafter described; and

(2) A certificate of public convenience and necessity authorizing the construction and operation of the following: A 10-inch pipeline, 63.6 miles in length, extending from the proposed point of interconnection with Panhandle's existing pipeline near New Franklin northwesterly past Glasgow and Keytesville, and continuing north to Brookfield; an 8-inch pipeline, 45.7 miles in length, extending from Brookfield in a westerly direction to near Chillicothe, and thence north to Trenton; two 3-inch laterals, totaling 12.5 miles, extending from the main line to Salisbury and to Brunswick; three 2-inch laterals, totaling 8.7 miles, extending from the main line to Dalton, Bucklin and Chula; and an 8-inch pipeline, approximately 6 miles in length, extending from Chillicothe to Utica. All communities and facilities involved in this application are located in the State of Missouri.

Applicant proposes, by means aforementioned, to supply natural gas service to the cities or towns of Glasgow, Salisbury, Dalton, Brunswick, Keytesville, Marceline, Bucklin, Brookfield, Laclede, Meadville, Wheeling, Chula, Utica, Chillicothe and Trenton. None of these communities are presently served with natural gas, although Applicant now serves Chillicothe and Trenton with propane-air gas service. Applicant estimates its annual requirements for all types of service at 3,706,834 Mcf.

The estimated total over-all capital cost of the proposed facilities is $5,080,845, which Applicant proposes to finance by issuance and sale of first mortgage bonds, debentures, preferred and/or common stock, and by retained earnings and funds set aside for its depreciation reserve.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 10th day of October 1952. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-2058]

GULF INTERSTATE GAS CO.

NOTICE OF APPLICATION

SEPTEMBER 23, 1952.

Take notice that Gulf Interstate Gas Company (Applicant), a Delaware corporation, address, Houston, Texas, filed on September 12, 1952, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain transmission pipeline facilities hereinafter described.

Applicant proposes to transport natural gas for the account of United Fuel Gas Company (United Fuel Gas), a wholly owned subsidiary of the Columbia Gas System, Inc., and for such purpose to construct and operate a natural-gas pipeline extending from fields located in Cameron and Vermillion Parishes in Southern Louisiana, through Louisiana, Mississippi, Tennessee, and Kentucky to a terminus in Boyd County, Kentucky, including a 30-inch main transmission line approximately 860 miles in length; various laterals consisting of approximately 26 miles of 24-inch pipe, 128 miles of 20-inch pipe, 23 miles of 16-inch pipe, and 52 miles of 12-inch pipe; five compressor stations totaling 10,000 horsepower; together with requisite metering and measuring stations, appurtenant gathering lines and equipment necessary to render the service proposed by Applicant; and an initial line capacity approximating 375,000 Mcf per day.

The estimated cost of the proposed facilities is $127,887,000. The proposed financing includes issuance and sale of Applicant's debt and equity securities in a ratio of not to exceed 75 percent debt securities and 25 percent equity securities.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 10th day of October 1952. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-2067]

TEXAS GAS TRANSMISSION CORP.

NOTICE OF APPLICATION

SEPTEMBER 22, 1952.

Take notice that on September 12, 1952, Texas Gas Transmission Corporation (Applicant), a Delaware corporation with its principal place of business at Owensboro, Kentucky, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the construction and operation of a direct industrial sales metering station for the sale of natural gas to Mississippi Power & Light Company for use as fuel in an electric generating station now being constructed by that company near Cleveland, Mississippi.

Applicant proposes to sell and deliver to Mississippi Power & Light Company for this purpose on an interruptible basis up to 30,000 Mcf per day for a period of ten years.

The estimated construction cost of about $24,000 will be financed from cash on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 10, 1952. The application is on file with the Commission for public inspection.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54-173, 54-191]

STANDARD GAS AND ELECTRIC CO., AND PHILADELPHIA CO.

NOTICE OF FILING AND NOTICE OF ORDER REOPENING HEARINGS

SEPTEMBER 22, 1952.

In the matters of Standard Gas and Electric Company and Philadelphia Company, File No. 54-191; Philadelphia Company and Standard Gas and Electric Company, File No. 54-173.

I. Standard Gas and Electric Company ("Standard"), a registered holding company and a subsidiary of Standard Power and Light Corporation ("Power"), also a registered holding company, and Philadelphia Company ("Philadelphia"), a registered holding company and a subsidiary of Standard, having filed a plan dated February 8, 1951, ("Standard plan") pursuant to section 11 (e) of the act, for compliance by Standard and Philadelphia with the provisions of section 11 of the act (File No. 54-191); and

Hearings having been held and the record closed with respect to Step I of the Standard plan, which step proposes the retirement of the Prior Preference Stock of Standard through the distribution of portfolio securities, and also with respect to Step I-A of such plan, which step provides for the settlement of intercompany claims between Standard and Power; and

Standard having heretofore filed a plan ("Philadelphia plan") under section 11 (e) of the act for the simplification of the system of Philadelphia (File No. 54-173), Step 4 of which provides for the retirement of two classes of Philadelphia's outstanding preferred stocks and the preferred stock of a subsidiary, as to which Philadelphia has guaranteed the payment of dividends, which step was approved by the Commission after public hearings thereon and which is now pending for enforcement in the United States District Court for the Western District of Pennsylvania;

Notice is hereby given that an amendment has been filed to Step II of the Standard plan providing for the retirement of the $4 Cumulative Preferred Stock and the Common Stock of Standard through the distribution of common stock of Duquesne Light Company ("Duquesne"), a public utility subsidiary of Philadelphia, to the $4 Cumulative Preferred-stock holders of Standard and, in essence, the distribution of common stock of Philadelphia to the Common-stock holders of Standard. An amendment has also been filed to Step 5 of the Philadelphia plan providing for the retirement of the $5 Cumulative Preference Stock of Philadelphia through the distribution of common stock of Duquesne. All interested persons are referred to said plans, as amended, which are on file in the offices of the Commission for a statement of the transactions therein proposed, which are summarized hereinafter.

II. Upon consummation of Steps I and I-A of the Standard plan, the principal asset of Standard will consist of its present holdings of 5,024,790 shares or 96.8 percent of the common stock of Philadelphia. In addition, it will own 46,834 shares of common stock of Wisconsin Public Service Corporation ("Wisconsin"), 2,889 shares of common stock of Oklahoma Gas and Electric Company ("Oklahoma") and 20,427 shares of common stock of Duquesne, plus certain miscellaneous minor assets including the capital stocks of Public Utility Engineering and Service Corporation ("Service Corporation") and of Horseshoe Lake Oil and Gas Company ("Horseshoe"). Standard's only outstanding securities will be its $4 Cumulative Preferred Stock and its Common Stock.

Step II, as amended, of the Standard plan proposes that:

1. Standard will sell such holdings of Wisconsin and Oklahoma, will liquidate or otherwise dispose of the stock of Service Corporation, and will sell or otherwise dispose of the stock of Horseshoe.

2. Philadelphia will distribute, as a partial liquidating dividend, 7/10 of a share of common stock of Duquesne for each share of common stock of Philadelphia presently outstanding, so that Standard will receive 3,014,874 shares of common stock of Duquesne. Such distribution will be carried out either under Step II or pursuant to a separate plan for the partial liquidation of Philadelphia.

3. The $4 Cumulative Preferred Stock ("$4 Preferred") of Standard will be retired by delivery in exchange for each share, including all dividends accrued and in arrears thereon to the effective date of the exchange, 4 shares of common stock of Duquesne. The effective date shall be as soon as possible after March 1, 1953, and will be such that holders of the $4 Preferred will be entitled to receive dividends payable on the Duquesne common stock subsequent to the dividend which is expected to be paid on April 1, 1953; all dividends on the common stock of Duquesne distributable under Step II expected to be paid on April 1, 1953, and prior thereto shall be payable to either Standard or Philadelphia. Pending such effective date no dividends will be paid on the $4 Preferred.

4. As soon as practicable after the retirement of the $4 Preferred, Standard will discharge or provide for its liabilities. It will thereupon retire its Common Stock by the delivery in exchange therefor of common stock of Philadelphia as follows: For each share of Common Stock of Standard the holder will receive that number of shares of Philadelphia common stock equal to the total number of shares of Philadelphia common stock held by Standard divided by the number of outstanding shares of Common Stock of Standard. If on that basis a holder of Common Stock of Standard is entitled to a fractional share of Philadelphia common stock other than 1/100 or a multiple thereof, such fraction shall be adjusted to the next lowest 1/100 of a share and any shares of Philadelphia common stock remaining undistributed as a result of such adjustment shall be surrendered by Standard to Philadelphia as a capital contribution and shall be canceled. Following the retirement of its Common Stock, Standard will be liquidated and dissolved or otherwise disposed of in such manner that it will cease to have any interest in or be otherwise connected with Philadelphia, Duquesne, Wisconsin or Oklahoma.

5. On the effective dates of the exchanges of Standard's $4 Preferred and Common Stock the securities to be issued in the respective exchanges will be deposited with an exchange agent and thereupon Standard shall cease to have any rights with respect to the deposited securities and the holders of the $4 Preferred and of the Common Stock shall cease to have any rights as stockholders of Standard except that they shall be entitled to receive their pro rata distribution of the deposited securities and any cash which they may become entitled to receive in respect of dividends on deposited securities paid to the exchange agent. In addition, holders of Standard Common Stock shall be entitled to a final distribution referred to hereinafter. Certificates for $4 Preferred surrendered to the exchange agent shall be canceled; certificates for Common Stock surrendered to the exchange agent shall either be canceled or shall be disposed of as may be directed by the Commission and the United States District Court to which the Commission may apply to enforce and carry out Step II of the Standard plan.

6. No certificates for fractional shares of common stock of Philadelphia will be issued but in lieu thereof the exchange agent will issue scrip certificates which when combined in lots representing one

or more full shares may be exchanged for common stock. For a period of six months after the effective date of Step II holders of scrip certificates may sell the same or purchase additional scrip without the payment of any commission. The holders of scrip certificates will not be entitled to the rights of stockholders unless and until the scrip is exchanged for stock certificates but upon such exchange the holder shall be entitled to receive an amount equal to all dividends declared upon the shares received by him after the effective date and prior to receipt of the shares. If the scrip certificates are not exchanged within a period of approximately five years such certificates shall become void.

7. After five years from the date of deposit of certificates for common stock of Philadelphia with the exchange agent by Standard, as aforesaid, holders of $4 Preferred and Common Stock of Standard shall cease to be entitled to make exchanges and their certificates shall become void. All the stock of Duquesne and Philadelphia remaining in the hands of the exchange agent after five years shall be converted into cash and such cash together with all cash received by the exchange agent as dividends, or otherwise, upon such stock and any cash received by the exchange agent from the exchange agent under Step I of the plan as provided in said Step I shall be distributed pro rata by the exchange agent to former holders of Common Stock of Standard who have surrendered their certificates for exchange and who, after the said five years, have filed an acknowledgment of receipt of notice as hereinafter referred to. Not more than 60 days after the said five years the exchange agent will notify such former holders of Standard Common Stock that cash is available for distribution and that those who deliver to the exchange agent within 120 days after the date of such notice a signed acknowledgment of receipt of notice will be entitled to participate in the distribution of such cash. Those who do not file such acknowledgment shall cease to be entitled to participate in the distribution of such cash and all such cash will be distributed to former holders of Standard Common Stock who have delivered such acknowledgment.

8. During the five year period in which exchanges may be made Standard undertakes to give notice to the holders of the $4 Preferred and of the Common Stock of their distribution rights, to use reasonable efforts to locate any missing holders of such stocks and periodically to notify the Commission of the results of these efforts.

9. Standard proposes to request the Commission, pursuant to section 11 (e) of the act, to apply to a United States District Court to enforce and carry out the proposed exchanges of securities. The effective date of Step II is to be that specified in the court's decree of enforcement, or, if not so specified, then such date, not later than ninety days after the court's decree becomes final and no longer subject to review, as the Board of Directors of Standard shall determine. Notice of the effective date will be given by Standard to holders of the $4 Preferred and the Common Stock by mail and by newspaper publication at least ten days before such effective date.

10. Provisions of Step I of the Standard plan relating to fees and expenses and court enforcement of any order of the Commission approving the plan are also applicable to Step II.

III. Upon consummation of Step 4 of the Philadelphia plan, the capitalization of Philadelphia will consist of notes payable to banks in the amount of $16,000,000, 53,868 shares of $5 Cumulative Preference Stock ("$5 Preference Stock"), having an aggregate stated value of $5,386,800, and common stock. The $5 Preference Stock has preference as to dividends ahead of the common stock. On liquidation it is entitled to $100 per share plus accrued dividends before the common stock. It is callable at $110 per share plus accrued dividends. There are no arrears in dividends. Step 5 of the Philadelphia plan as amended provides, among other things, for the following:

1. The $5 Preference Stock will be retired by the delivery of 3.6 shares of common stock of Duquesne in exchange for each share of the $5 Preference Stock and any dividends accrued thereon to the effective date of the exchange.

2. Provisions as to deposit of shares, the issuance of scrip for fractional interests, notice to the holders of the $5 Preference Stock and searches therefor, and the voiding of certificates for $5 Preference Stock and of scrip upon the expiration of five years from the date of deposit by Philadelphia with the exchange agent of certificates for common stock by Duquesne are similar to those prescribed under Step II of the Standard plan. With respect to unclaimed shares of Duquesne common stock and cash received as dividends on such unclaimed shares it is proposed that such stock and cash be turned over by the exchange agent to Duquesne and the shares shall be owned by Duquesne as treasury shares and sold as part of the first public offering by Duquesne of common stock and the cash so turned over shall be added to its corporate funds.

3. Provisions in the Philadelphia plan relating to fees and expenses and court enforcement of any order of the Commission approving the plan are also applicable to Step 5.

The Commission being required by the provisions of section 11 (e) of the act before approving any plan thereunder to find, after notice and opportunity for hearing, that the plan as submitted or as modified is necessary to effectuate the provisions of subsection (b) of section 11 and is fair and equitable to the persons affected thereby; and it appearing appropriate to the Commission that notice be given and a hearing be held on Step II of the Standard plan and Step 5 of the Philadelphia plan to afford all interested persons an opportunity to be heard with respect thereto; and

It further appearing that common questions of law and fact are involved in the proceedings upon the Standard plan and the Philadelphia plan and that they should be consolidated for the purpose of hearing; and

It further appearing that the records heretofore made in the said proceedings contain evidence that may have a bearing upon the issues presented by Step II of the Standard plan and by Step 5 of the Philadelphia plan, and that a substantial saving of time and expense will result if the evidence adduced in said proceedings is used in connection with the consideration of the instant proceedings:

It is hereby ordered, That the proceeding with respect to the Standard plan (File No. 54–191) and the proceeding with respect to the Philadelphia plan (File No. 54–173) be, and they hereby are, consolidated for the purpose of the hearing hereinafter ordered, and the records therein are hereby incorporated into the record of the instant consolidated proceeding: *Provided*, That this order of consolidation is without prejudice to the Commission's right to separate, either for hearing, in whole or in part, or for determination, in whole or in part, any issues or questions hereinafter set forth or which may arise in this consolidated proceeding, to separate the proceedings consolidated herein, or take such other action as may appear conducive to an orderly, prompt and economical disposition of the matters involved: *And provided further*, That the incorporation of the records in File Nos. 54–191 and 54–173 into the instant consolidated proceeding is subject, however, and without prejudice to the Commission's right, upon its own motion or the motion of any interested participant, to strike such portion of the record in respect of said prior proceedings as may be deemed incompetent or irrelevant to the issues raised in the instant consolidated proceeding.

It is further ordered, That a public hearing on Step II of the Standard plan and Step 5 of the Philadelphia plan be held in the consolidated proceeding at 10:00 a. m., e. s. t., on the 28th day of October 1952, at the offices of the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. On that date the hearing room clerk in Room 193 will advise as to the room in which the hearing will be held. In the event that amendments or supplements are filed during the course of the proceedings on Step II of the Standard plan and on Step 5 of the Philadelphia plan, no notice of such amendments or supplements need be given unless specifically ordered by the Commission. Any person desiring to receive further notice of the filing of such amendments or supplements should request such notice of Standard. Any person desiring to be heard in connection with this consolidated proceeding or proposing to intervene herein shall file with the Secretary of the Commission on or before October 24, 1952, his written request or application therefor as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That William W. Swift or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing. The officer so designated to preside at the hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a Hearing Officer under the Commission's rules of practice.

The Division of Public Utilities of the Commission having advised the Commission that it has made a preliminary examination of Step II, as amended, of the Standard plan and Step 5, as amended, of the Philadelphia plan and that, on the basis thereof, the following matters and questions are presented for consideration by the Commission without prejudice to the presentation of additional matters and questions upon further examination and without consideration at this time of the issues involved in connection with Steps III and IV of the Standard plan:

1. Whether Step II of the Standard plan and Step 5 of the Philadelphia plan, as submitted or as may hereafter be modified, are necessary to effectuate the provisions of section 11 (b) of the act;

2. Whether Step II of the Standard plan and Step 5 of the Philadelphia plan, as submitted or as may hereafter be modified, are fair and equitable to the persons affected thereby;

3. Whether the proposal to treat Power's and Standard's holdings of Philadelphia common stock on the same basis as the holdings of public common stockholders of Philadelphia in the distribution of Duquesne common stock is fair and equitable;

4. Generally, whether the transactions proposed in Step II, as amended, of the Standard plan and Step 5, as amended, of the Philadelphia plan are in all respects in the public interest and in the interest of investors and consumers and consistent with all applicable requirements of the act and of the rules and regulations thereunder, with particular reference to the proposed distribution by Philadelphia of common stock of Duquesne as a dividend in kind;

5. Whether the fees, expenses and other remuneration which may be claimed or paid in connection with the said Step II and Step 5 of the respective plans and the transactions incident thereto are for necessary services and are reasonable in amount, and whether the proposed allocation thereof is appropriate;

6. Whether the accounting treatment to be accorded the proposed transactions is proper and in conformity with sound accounting principles and the Commission's Uniform System of Accounts for Public Utility Holding Companies;

7. Whether the respective plans as submitted or as they may be modified, or a plan or plans proposed by the Commission or by any person having a bona fide interest in the consolidated proceeding, should be approved by the Commission for the purposes of section 11 (d) of the act, and, if proposed by the Commission or by a person having a bona fide interest, what the terms and provisions of such plan or plans should be;

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission shall serve a copy of this notice and order by registered mail on Power; Standard; Philadelphia; Duquesne; Mellon National Bank and Trust Company of Pittsburgh, Pennsylvania; the Chase National Bank of the City of New York, N. Y.; Continental Illinois National Bank and Trust Company of Chicago, Chicago, Illinois; Paul D. Miller, Esq.; Alfred Berman, Esq.; W. Howard Dilks, Jr., Esq.; William L. Fox, Esq.; Milton H. Cohen, Esq.; Leo B. Mittelman, Esq.; A. Albert Minton, Esq.; Marvin M. Notkins, Esq.; Edmond M. Hanrahan, Esq.; I. T. Flatto, Esq.; Lewis Schimberg, Esq.; the Pennsylvania Public Utility Commission; the Federal Power Commission; and the City of Pittsburgh, Pennsylvania; and that said notice of said hearing shall be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to persons on the mailing list for releases under the act, and that further notice shall be given to all persons by publication of this notice and order in the FEDERAL REGISTER.

It is further ordered, That Standard shall give further notice of this hearing to the holders of its $4 Cumulative Preferred Stock and Common Stock and that Philadelphia shall give further notice of this hearing to the holders of its $5 Preference Stock and common stock (insofar as the identity of such security holders is known or available to them) by mailing to each of said persons a copy of this notice and order to his last known address at least 20 days prior to the date of said hearing.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 59-9]

STANDARD POWER AND LIGHT CORP. ET AL.

ORDER OF DISMISSAL AS TO NORTHERN STATES POWER COMPANY HOLDING-COMPANY SYSTEM

SEPTEMBER 22, 1952.

In the matter of Standard Power and Light Corporation, Standard Gas and Electric Company, and subsidiary companies thereof, File No. 59-9.

Whereas the Commission on March 6, 1940, instituted this proceeding under section 11 (b) (1) of the Public Utility Holding Company Act of 1935 ("the act") with respect to Standard Power and Light Corporation ("Standard Power"), a registered holding company, and all subsidiary companies thereof, which then included Northern States Power Company (Delaware), a registered holding company, and its subsidiaries; and

Whereas said Northern States Power Company (Delaware) and its subsidiary companies thereafter ceased to be subsidiary companies of Standard Power as defined in section 2 (a) (8) (A) of the act; and

Whereas Northern States Power Company (Delaware) was thereafter dissolved pursuant to order of the Commission issued under section 11 (b) (2) of the act and Northern States Power Company (Minnesota), a registered holding company then became and now is the top holding company in the Northern States system; and

Whereas the Commission has this day instituted a new and independent proceeding (File No. 59–99) under section 11 (b) (1) of the act with respect to all companies in the Northern States system; and it appearing appropriate that this proceeding (File No. 59–9) be dismissed with respect to such companies:

Therefore it is ordered, That this proceeding be, and hereby is, dismissed as to Northern States Power Company (Delaware), Northern States Power Company (Minnesota), and all subsidiary companies thereof.

By the Commission.

APPLICATION FOR RELIEF

SEPTEMBER 23, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Chicago, Milwaukee, St. Paul and Pacific Railroad Company.

Commodities involved: Plaster, plasterboard and related articles, carloads.

From: Hanover and Heath, Mont.

To: Rapid City, S. Dak., and certain other points in South Dakota.

Grounds for relief: Rail competition, circuitous routes, and to apply rates constructed on basis of the short line distance formula.

Schedules filed containing proposed rates: CMStP&P RR. tariff I. C. C. No. B-7194, Supp. 53.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[4th Sec. Application 27415]

VEGETABLES FROM FLORIDA TO POINTS IN CANADA AND THE UNITED STATES

APPLICATION FOR RELIEF

SEPTEMBER 23, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1195.

Commodities involved: Cabbage, celery and tomatoes, carloads.

From: Points in Florida.

To: Points in Canada and intermediate points in the United States.

Grounds for relief: Competition with rail carriers, circuitous routes, and to maintain grouping.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1195, Supp. 37.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[4th Sec. Application 27416]

CEMENT FROM POINTS IN SOUTHERN TERRITORY TO WEST PALM BEACH, FLA.

APPLICATION FOR RELIEF

SEPTEMBER 23, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1244.

Commodities involved: Cement and related articles, carloads.

From: Points in southern territory.

To: West Palm Beach, Fla.

Grounds for relief: Rail competition, circuitous routes, market competition, and port competition.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

TITLE 3—THE PRESIDENT

PROCLAMATION 2990

COLUMBUS DAY, 1952

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS Christopher Columbus, after sailing many weeks on a vast and unknown sea, found a western continent and a new world on October 12, 1492; and

WHEREAS the daring and resolution of this man of destiny have encouraged in every generation the perseverance of those who seek the truth beyond the horizon; and

WHEREAS the Congress of the United States, mindful of the rich heritage left us by Christopher Columbus, provided, by a resolution approved on April 30, 1934 (48 Stat. 657), that the anniversary of his epochal discovery should be commemorated each year:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, do hereby designate Sunday, October 12, 1952, as Columbus Day, and I invite the people of the United States to observe the day with appropriate ceremonies in their homes, their schools, and their churches, or in other suitable places. I direct the officials of the Government to arrange for the display of the flag of the United States on all public buildings on October 12 in honor of the man whose discovery gave democracy a new birthplace.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 25th day of September in the year of our Lord nineteen hundred and [SEAL] fifty-two, and of the Independence of the United States of America the one hundred and seventy-seventh.

HARRY S. TRUMAN

By the President:

DEAN ACHESON,
Secretary of State.

EXECUTIVE ORDER 10397

CONTINUING IN EFFECT CERTAIN APPOINTMENTS AS OFFICERS AND WARRANT OFFICERS OF THE ARMY AND AIR FORCE

By virtue of the authority vested in me by section 1 (c) of the Emergency Powers Continuation Act (66 Stat. 333), I hereby continue in effect until and including April 1, 1953, all appointments as officers and as warrant officers of the Army and of the Air Force which under the following provisions of law would terminate after April 27, 1952, and before April 1, 1953:

(1) Sections 37 and 38 of the act of June 3, 1916 (ch. 134, 39 Stat. 189, 190), as amended (10 U. S. C. 358, 32 U. S. C. 19), and section 127a of that act as added by the act of June 4, 1920 (ch. 227, 41 Stat. 785), as amended (10 U. S. C. 513).

(2) Section 515 (e) of the act of August 7, 1947 (ch. 512, 61 Stat. 907; 10 U. S. C. 506d (e)).

(3) Section 3 of the act of August 21, 1941 (ch. 384, 55 Stat. 652), as amended (10 U. S. C. 591a).

HARRY S. TRUMAN

TITLE 7—AGRICULTURE

Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

PART 704—AGRICULTURAL CONSERVATION PROGRAM; ALASKA

SUBPART—1953

The United States Department of Agriculture offers every farmer in the Territory of Alaska an opportunity to improve and conserve the fertility of his land through participation in the 1953 Agricultural Conservation Program.

Payment will be made for the performance of approved conservation practices to the extent of the individual practice allowances and available funds. Developed under the provisions of the Soil

Conservation and Domestic Allotment Act, the program is designed to meet local conservation needs insofar as practicable.

Assistance will be given to farmers carrying out conservation practices under the 1953 program in accordance with the provisions contained herein and such modifications as may hereafter be made.

CONTROL OF FUNDS

Sec.
704.201 Maximum farm payment.
704.202 Adjustments.
704.203 Allocation.

SELECTION AND APPROVAL OF CONSERVATION PRACTICES

704.206 Selection of practices.
704.207 Adaptation of practices and rates of assistance.
704.208 State Office approval.

CONSERVATION PRACTICES AND MAXIMUM RATES OF ASSISTANCE

704.210 Conservation practices and maximum rates of assistance.
704.211 Practice 1: Applying fertilizer.
704.212 Practice 2: Field peas with oats for winter cover.
704.213 Practice 3: Field peas with or without oats for green manure.
704.214 Practice 4: Sweetclover for green manure.
704.215 Practice 5: Contour farming intertilled crops on nonterraced land.
704.216 Practice 6: Contour farming drilled or close-sown crops on nonterraced land.
704.217 Practice 7: Diversion ditches to divert excess water.
704.218 Practice 8: Establishing permanent sod waterways to dispose of excess water without causing erosion.
704.219 Practice 9: Establishing a permanent cover on steep slopes.
704.220 Practice 10: Establishing or improving permanent pasture.
704.221 Practice 11: Clearing woodland for tillage or pasture.
704.222 Practice 12: Management of pastures.
704.223 Practice 13: Field stripcropping to protect soil from wind or water erosion.
704.224 Practice 14: Installation of facilities for sprinkler irrigation for permanent pasture on rolling land.
704.225 Practice 15: Constructing wells for livestock water.
704.226 Practice 16: Planting or interplanting forest trees or shrubs on farm land for forestry purposes, windbreaks, shelter belts, or erosion control.

PAYMENTS

704.231 Division of payments.
704.232 Increase in small payments.
704.233 Payments limited to $2,500.

CONSERVATION SERVICES

704.236 Availability.
704.237 Cost to producer in cash.
704.238 Deduction.

GENERAL PROVISIONS RELATING TO PAYMENT

704.241 Maintenance of practices.
704.242 Practices defeating purposes of programs.
704.243 Depriving others of payment.
704.244 Filing of false claims.
704.245 Misuse of purchase orders.
704.246 Payment computed and made without regard to claims.
704.247 Assignments.
704.248 Practices carried out with State or Federal aid.
704.249 Compliance with regulatory measures.

APPLICATION FOR PAYMENT

704.251 Persons eligible to file applications.
704.252 Time and manner of filing applications and information required.

APPEALS

704.256 Appeals.

BULLETINS, INSTRUCTIONS, AND FORMS

704.261 Bulletins, instructions, and forms.

DEFINITIONS

704.266 Definitions.

AUTHORITY, AVAILABILITY OF FUNDS, AND APPLICABILITY

704.271 Authority.
704.272 Availability of funds.
704.273 Applicability.

AUTHORITY: §§ 704.201 to 704.273 issued under sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interpret or apply secs. 7–17, 49 Stat. 1148, as amended; 16 U. S. C. 590g–590q.

CONTROL OF FUNDS

§ 704.201 *Maximum farm payment.* The State Office will determine the amount of assistance for each farm, taking into consideration the funds allocated, the conservation needs of other farms in the area, and conservation needs on the farm for which assistance is requested. An allowance will be established for each practice approved for a farm and the maximum payment for the farm will be the sum of the individual practice allowances. The total of the maximum payments for all farms shall not exceed available funds.

§ 704.202 *Adjustments.* If the total obligations under the program exceed the total funds available for payments, payments will be reduced equitably, except that payment will be made in full for land clearing services furnished by the ACP Branch under a purchase order for carrying out the practice contained in § 704.221.

§ 704.203 *Allocation.* The amount of funds available for conservation practices under this program is $27,000. This amount does not include the amount set aside for administrative expenses and the amount required for size-of-payment adjustments.

SELECTION AND APPROVAL OF CONSERVATION PRACTICES

§ 704.206 *Selection of practices.* Practices included in the 1953 program are only those which by maintaining or increasing soil fertility, controlling and preventing soil erosion caused by wind or water, encouraging conservation and better agricultural use of water, or conserving and increasing range and pasture forage, contribute to increased or sustained production of needed agricultural commodities. The practices included are those which will not be carried out in desired volume on the basis of relative conservation needs unless payments are made therefor.

§ 704.207 *Adaptation of practices and rates of assistance.* In order to encourage the performance of practices which are needed most, the State Office may designate from the practices listed herein those practices which will be applicable on designated groups of farms, and may approve rates of assistance lower than the rates of assistance set out in this subpart. For recurring practices, the State Office may, on the basis of the experience of the producer in performing the practices, approve rates of assistance for individual farms lower than the rates of assistance set out in this subpart.

§ 704.208 *State Office approval.* Payment will be made only for those practices included in §§ 704.211 to 704.226, for which written approval is granted by the State Office. Written approval will be given only where the farmer requests assistance before he begins the conservation practice. Requests for assistance may be made by contacting a representative of the State Office or by writing to the State Office. The farmer will be notified in writing of the number of units of each practice approved, the date by which performance of the practice is to be reported, and the amount of funds set aside for the practice. It is the responsibility of the farmer to report performance of each practice on or before the closing date shown on the notice of approval.

CONSERVATION PRACTICES AND MAXIMUM RATES OF ASSISTANCE

§ 704.210 *Conservation practices and maximum rates of assistance.* (a) Payment will be made at the rates specified and within the limitations set forth in this subpart for carrying out during the period from September 1, 1952, to December 31, 1953, inclusive, the conservation practices included in §§ 704.211 to 704.226 which are approved for a farm. However, no payment may be made under the 1953 program which will result in an additional payment for practices completed under the provisions of the 1952 program. Payment will be made in the form of cash payments as reimbursement for a part of the cost of performing the practices, or as services furnished for carrying out the land clearing practice.

(b) Of the permanent-type conservation practices authorized under this program, the Soil Conservation Service is responsible for the technical phases of the permanent-type practices contained in §§ 704.217, 704.218 (2), and 704.224. In addition, the Soil Conservation Service is responsible for the technical phases of the practices contained in §§ 704.215 and 704.216, if guidelines must be established under the 1953 program. This responsibility shall include (1) a finding that the practice is needed and practical on the farm, (2) necessary site selection, other preliminary work, and lay-out work of the practice, (3) necessary supervision of the installation, and (4) certification of performance (or application of the practice to the land). Also, in areas where the State Office, the designated representative of the Soil Conservation Service in the area, and the Forest Service representative having jurisdiction of farm forestry in the area, determine that there is need for making a prior determination that land to be cleared under § 704.221 is suitable for clearing for the purpose of the practice, the Soil Conservation Service technician shall have the responsibility for such determination of suitability. The practices listed in this paragraph are not considered to be the only permanent-type practices in the program. However, it is hereby determined that they are the only practices in the 1953 program for which the Soil Conservation Service has been delegated responsibility for the technical phases under Secretary's Memorandum 1278.

(c) The Forest Service is responsible for the technical phases of the practice contained in § 704.226. This responsibility shall include (1) providing necessary specialized technical assistance, (2) development of specifications for forestry practices, and (3) working through the State Office, determining compliance in meeting these specifications.

§ 704.211 *Practice 1: Applying fertilizer.* Payment will be made only for the application of phosphate (P_2O_5) and potash (K_2O) to pastures excluding small grains; to grass or legume cover crops excluding small grains seeded alone; or to leguminous crops (with or without a nurse crop) excluding vegetable or truck crops for sale. Application must be made at a time so that the eligible crop will receive the principal benefit of the material. Receipts or invoices showing the purchase and the analysis of the fertilizer bought, properly dated and signed by the vendor, should be retained for presentation to the farm inspector at the time of inspection. Application of these fertilizers must be made in the proper relationship with nitrogen in order to receive payment. The correct amount is to be decided in each district by the district agricultural agent and the ACP committee.

Maximum assistance. (1) 7 cents per pound of available P_2O_5 applied.

(2) 6 cents per pound of available K_2O applied.

§ 704.212 *Practice 2: Field peas with oats for winter cover.* Payment will be made for using field peas with oats in rotation with other crops. To qualify for assistance, a good stand and a good growth of field peas must be obtained and left on the land as a cover crop for winter protection. The minimum rate of seeding is 42 pounds of field peas and 32 pounds of oats per acre. Acreages harvested for grain or hay are not eligible for assistance.

Maximum assistance. $3 per acre.

§ 704.213 *Practice 3: Field peas with or without oats for green manure.* Payment will be made for plowing under a good stand of field peas with or without oas which have been brought to the proper stage of maturity, which will be considered to be the blossoming period. The minimum rate of seeding is 42 pounds of field peas per acre. Acreages harvested for seed or hay are not eligible for assistance.

Maximum assistance. $5 per acre.

§ 704.214 *Practice 4: Sweetclover for green manure.* Payment will be made for plowing under during the 1953 program year a good stand and a good growth of sweetclover seeded in the spring of 1953 at a rate of not less than 10 pounds of seed per acre. Pasturing consistent with good management is permitted.

Maximum assistance. $3 per acre.

§ 704.215 *Practice 5: Contour farming intertilled crops on nonterraced land.* Payment will be made for farming intertilled crops on the contour on nonterraced land. The crop stubble or crop residue must be left standing over winter, or a winter cover crop established, or protective tillage operations carried out. Permanent guidelines must be established on the true contour. If this practice is used on fields that have, or are in the future to have, diversion ditches, the guidelines should be staked on the same grade as the ditches. Applicable on Classes II, III, and IV sloping land.

Maximum assistance. (1) $1.50 per acre where all cultural operations are on the contour.

(2) $1 per acre where only the planting and cultivating are on the contour.

§ 704.216 *Practice 6: Contour farming drilled or close-sown crops on nonterraced land.* Payment will be made for contour farming drilled or close-sown grasses, legumes, or small grains on nonterraced land. Permanent guidelines must be established on the true contour. If this practice is used on fields that have, or are in the future to have, diversion ditches, the guidelines should be staked on the same grade as the ditches. Applicable on Classes II, III, and IV sloping land.

Maximum assistance. (1) 75 cents per acre where all cultural operations are on the contour.

(2) 50 cents per acre where only the seeding operation is on the contour.

§ 704.217 *Practice 7: Diversion ditches to divert excess water.* These terraces or ditches are for the purpose of removing excess water from snow melting in the spring. They should be constructed on a grade ranging from 0 at the upper end to not in excess of 1 percent at the lower end. Grades should be either uniform or gradually increasing from the upper end. In all cases the grades, size, and spacing of ditches must be staked by a qualified technician. Diversion terraces or ditches must be provided with an outlet channel.

Maximum assistance. (1) 12 cents per cubic yard of material moved, when constructed on land where the topography, stoniness, or size of field requires that the ditching be constructed entirely by hand labor.

(2) 6 cents per cubic yard of material moved, when constructed on other land.

§ 704.218 *Practice 8: Establishing permanent sod waterways to dispose of excess water without causing erosion.* This practice is essential to adequate water disposal. The waterway may be either an excavated ditch or a natural drainage way. In either case, more than natural runoff is carried in the outlet channel; therefore, protection is needed to avoid channel erosion and the formation of gullies. They must be planted long enough in advance to develop a protective cover in the channel. This will take one to two years before water is diverted into them. In all cases the outlet channels will be selected by a qualified technician. New channels must be staked, constructed according to lines and grades and sod established. Seedings in establishing permanent sod waterways shall be at a rate of at least 15 pounds per acre and shall contain not less than 50 percent of adapted sod-forming perennial grasses with the balance in other grasses or adapted legumes. The stand must be established before assistance can be offered.

Maximum assistance. (1) 75 cents per 1,000 square feet for seeding or sodding.

(2) 12 cents per cubic yard of earth moved with dirt-moving equipment in shaping and filling.

§ 704.219 *Practice 9: Establishing a permanent cover on steep slopes.* Payment will be made for establishing on steep slopes, a permanent cover of adapted perennial grasses or a mixture of perennial grasses and perennial or biennial legumes. The seed of these crops must be well distributed over the area soon to insure a good stand at maturity. The minimum seeding rate shall not be less than 12 pounds of seed per acre.

Maximum assistance. $4 per acre.

§ 704.220 *Practice 10: Establishing or improving permanent pasture.* Payment will be made for establishing or improving permanent pasture by seeding adapted varieties of perennial grasses or legumes. The seed must be adapted to local conditions, and must be properly distributed over the area sown, a sufficient amount being used to insure a good stand at maturity.

Maximum assistance:	Cents per pound
(1) Smooth bromegrass	50
(2) Kentucky bluegrass	25
(3) Meadow fescue	25
(4) Slender wheatgrass	25
(5) Timothy	12½
(6) Alsike clover	37½
(7) Russian red clover	50
(8) Siberian alfalfa	50
(9) Redtop	25
(10) Yellow blossom sweetclover	25

§ 704.221 *Practice 11: Clearing woodland for tillage or pasture.* (a) The conservation value of this practice is in getting sufficient cleared land on the farm so that good land management practices can be carried out on all parts of the farm.

(b) Clearing areas which will result in increased erosion will not qualify for payment.

(c) Methods of clearing which result in destruction of needed organic material are considered to be disqualifying practices. Removal of mineral soil will be considered evidence of excessive removal of organic material. Needed conservation practices must be applied to land cleared under previous programs in order to qualify an applicant to additional land clearing payments under this program.

(d) Payment will not be approved for clearing more than 5 acres on any farm during the 1953 program year and approval will not be given for clearing in excess of 30 acres on any farm under all programs. Payment will not be made for clearing land for 5-acre home sites or on farms not having sufficient acreage for economic farm units as determined by the State Office. Where clearing is partially completed with stumps, timber, or debris left in windrows or piles, payment will be made only for that acreage cleared which is ready for tillage.

Maximum assistance. $40 per acre.

§ 704.222 *Practice 12: Management of pastures.* (a) Pastures to be eligible for payment, must have a good stand of adapted grass and be capable of good production. Worn out, weedy or brushy pastures must be reseeded to qualify.

(b) The following practices must be applied on each field:

(1) Fertilization: Pastures must be fertilized with not less than 40 pounds of N and 20 pounds of P_2O_5 per acre.

(2) Rotation grazing: Fields must be divided into grazing units of 5 acres or less by permanent or temporary fencing and grazed in rotation.

(3) Fields shall be mowed and harrowed at least once each year.

(4) Field units shall not be overgrazed or season-long grazing permitted on any one unit.

(c) The cost of mowing and the cost of improvements for which payment is made under other 1953 practices will not be considered in determining the payment under this practice.

Maximum assistance. 50 percent of the cost of supplemental improvements, but not in excess of $100.

§ 704.223 *Practice 13: Field stripcropping to protect soil from wind or water erosion.* Land subject to damage from wind erosion should be protected by the following requirements in order to qualify for payment:

(a) The land to be protected from wind erosion must be planted to a system of alternating close growing crops and row crops planted approximately at right angles to direction of the dominant prevailing erosive winds.

(b) Strips of the row crops should be less than 50 feet wide.

(c) Strips of the protecting close growing crops should be less than 150 feet wide and not less than width of the row crop.

(d) All crop residues of both the row strips and the protecting close growing crop strips should be utilized for wind erosion. Control in following manner:

(1) The stubble on the protecting strips in the fall must be left at least 6 inches to 8 inches high.

(2) All crop residues on the row crop strips should be evenly distributed and left on the surface of the soil.

(3) If the protecting close grown strips are perennial grasses and legumes, they should not be utilized so close that their wind erosion control value is reduced or the plant system permanently damaged.

Maximum assistance. (1) $0.50 per acre for systems with strips in excess of 10 rods in width.

(2) $0.75 per acre for systems with strips not in excess of 10 rods in width.

§ 704.224 *Practice 14: Installation of facilities for sprinkler irrigation for permanent pasture on rolling land.* (a) Practice applicable where primary use is for permanent pasture on excessively sloping or rolling land.

(b) The installation must be in accordance with written plans approved by the Soil Conservation Service technician and the local ACP Committee.

(c) The practice is not applicable on land for which water is not available.

(d) The power unit must be of capacity adequate to supply uniform distribution. Nozzle openings shall be of a size to hold application rate within intake capacity of soils to be irrigated.

Maximum assistance. (1) 50 percent of the average cost of permanently installed pipe and fittings, but not in excess of $500 per farm.

(2) 50 percent of the average cost of portable pipe and fittings, but not in excess of $500 per farm.

§ 704.225 *Practice 15: Constructing wells for livestock water.* Adequate storage facilities must be provided. Pumping equipment must be installed, except for artesian wells. Assistance will not be given for wells constructed at or for the use of headquarters.

Maximum assistance. (1) $1 per linear foot of well with bore taking casings less than 4 inches in diameter, and all artesian wells.

(2) $2 per linear foot of well with bore taking casings 4 inches, but less than 6 inches in diameter.

(3) $3 per linear foot of well with bore taking casings 6 inches or more in diameter.

§ 704.226 *Practice 16: Planting or interplanting forest trees or shrubs on farm land for forestry purposes, windbreaks, shelter belts, or erosion control.* Plantings must be protected from fire and grazing. If shrubs are used, those that benefit wildlife should be given preference wherever practicable. Detailed specifications to be supplied by Forest Service.

Maximum assistance. 80 percent of the average cost of trees and planting, excluding land preparation and cultivation.

PAYMENTS

§ 704.231 *Division of payments.* (a) The payment earned in carrying out practices with conservation services shall be credited to the producer to whom the services are furnished. Payment for practices performed with conservation services shall have priority over payment for other practices. The payment earned in carrying out other practices shall be paid to the producer who carried out the practices. If more than one producer contributed to the carrying out of such practices, the payment shall be divided in the proportion that the State Office determines the producers contributed to the carrying out of the practices. In making this determination, the State Office shall take into consideration the value of the labor, equipment, or material contributed by each producer toward the carrying out of each practice on a particular acreage, assuming that each contributed equally, unless it is established to the satisfaction of the State Office that their contributions thereto were not in equal proportion. The furnishing of land will not be considered as a contribution to the carrying out of any practice.

(b) In case of death, incompetency, or disappearance of any producer, his share of the payment shall be paid to his successor, determined in accordance with the provisions of Part 716 of this chapter (ACP–122).

§ 704.232 *Increase in small payments.* The payment computed for any person with respect to any farm shall be increased as follows:

(a) Any payment amounting to $0.71 or less shall be increased to $1.

(b) Any payment amounting to more than $0.71 but less than $1 shall be increased by 40 percent.

(c) Any payment amounting to $1 or more shall be increased in accordance with the following schedule:

Amount of payment computed	Increase in payment	Amount of payment computed	Increase in payment
$1 to $1.99	$0.40	$32 to $32.99	$10.40
$2 to $2.99	.80	$33 to $33.99	10.60
$3 to $3.99	1.20	$34 to $34.99	10.80
$4 to $4.99	1.60	$35 to $35.99	11.00
$5 to $5.99	2.00	$36 to $36.99	11.20
$6 to $6.99	2.40	$37 to $37.99	11.40
$7 to $7.99	2.80	$38 to $38.99	11.60
$8 to $8.99	3.20	$39 to $39.99	11.80
$9 to $9.99	3.60	$40 to $40.99	12.00
$10 to $10.99	4.00	$41 to $41.99	12.10
$11 to $11.99	4.40	$42 to $42.99	12.20
$12 to $12.99	4.80	$43 to $43.99	12.30
$13 to $13.99	5.20	$44 to $44.99	12.40
$14 to $14.99	5.60	$45 to $45.99	12.50
$15 to $15.99	6.00	$46 to $46.99	12.60
$16 to $16.99	6.40	$47 to $47.99	12.70
$17 to $17.99	6.80	$48 to $48.99	12.80
$18 to $18.99	7.20	$49 to $49.99	12.90
$19 to $19.99	7.60	$50 to $50.99	13.00
$20 to $20.99	8.00	$51 to $51.99	13.10
$21 to $21.99	8.20	$52 to $52.99	13.20
$22 to $22.99	8.40	$53 to $53.99	13.30
$23 to $23.99	8.60	$54 to $54.99	13.40
$24 to $24.99	8.80	$55 to $55.99	13.50
$25 to $25.99	9.00	$56 to $56.99	13.60
$26 to $26.99	9.20	$57 to $57.99	13.70
$27 to $27.99	9.40	$58 to $58.99	13.80
$28 to $28.99	9.60	$59 to $59.99	13.90
$29 to $29.99	9.80	$60 to $185.99	14.00
$30 to $30.99	10.00	$186 to $199.99	(1)
$31 to $31.99	10.20	$200 and over	(2)

[1] Increase to $200.
[2] No increase.

§ 704.233 *Payments limited to $2,500.* The total of all payments made in connection with the 1953 program to any person with respect to farms, ranching units, and turpentine places in the United States (including Alaska, Hawaii, Puerto Rico, and the Virgin Islands) shall not exceed the sum of $2,500. All or any part of any payment which has been or otherwise would be made to any person under the 1953 program may be withheld, or required to be refunded, if he has adopted, or participated in adopting, any scheme or device including the dissolution, reorganization, revival, formation, or use of any corporation, partnership, estate, trust, or any other means, designed to evade, or which has the effect of evading, the provisions of this section.

CONSERVATION SERVICES

§ 704.236 *Availability.* To assist farmers in obtaining a larger volume of needed land clearing, land clearing services may be furnished by the ACP Branch to farmers for carrying out Practice 11, "Clearing woodland for tillage or pasture," as contained in § 704.221. Services may not be furnished to farmers who are on the register of indebtedness, except in those cases where the agency to which the debt is owed notifies the ACP Branch that it temporarily waives its rights to setoff in order to permit the furnishing of the service.

§ 704.237 *Cost to producer in cash.* The producer shall pay that part of the cost of land clearing, as established by the ACP Branch, which is in excess of the credit for the service in carrying out the practice.

§ 704.238 *Deduction.* A deduction shall be made for the service furnished by the ACP Branch from the payment of the producer to whom the service is furnished. The deduction shall be the credit value of the conservation service furnished, except that where the cost to the ACP Branch is less than the credit rate, the deduction shall be equal to the cost. If a land clearing service is furnished and the farmer uses the land for purposes other than those authorized in § 704.221 for Practice 11, "Clearing woodland for tillage or pasture," during the 1953 program year, an additional deduction equal to the original amount of the deduction for the service so misused shall be made. If the deduction for the service exceeds the payment for the farmer to whom the service is furnished, the amount of the difference shall be paid by the farmer to the Treasurer of the United States.

GENERAL PROVISIONS RELATING TO PAYMENT

§ 704.241 *Maintenance of practices.* Any payment for the performance of approved conservation practices under the 1953 program will be subject to the condition that the person to whom the payment is made will maintain such practices in accordance with good farming practices. If the State Office determines that any conservation practice carried out under previous agricultural conservation programs is not maintained in accordance with good farming practices, or the effectiveness of any such practice is destroyed during the 1953 program year, a deduction shall be made for the extent of the practice destroyed or not maintained. The deduction rate shall be the 1953 practice rate, or if the practice is not offered in 1953, the practice rate in effect during the year the practice was performed. The deduction shall be made from the payment of the person responsible for destroying or not maintaining the practice after the payment has been increased in accordance with the provisions of § 704.232.

§ 704.242 *Practices defeating purposes of programs.* If the State Office finds that any producer has adopted, or participated in, any practice which tends to defeat the purposes of the 1953 or any previous agricultural conservation program, it may withhold, or require to be refunded, all or any part of any payment which has been or would otherwise be made to such person under the 1953 program.

§ 704.243 *Depriving others of payment.* If the State Office finds that any person has employed any scheme or device (including coercion, fraud, or misrepresentation), the effect of which would be or has been to deprive any other person of any payment under the program, it may withhold, in whole or in part, from the person participating in or employing such a scheme or device, or require him to refund in whole or in part, the amount of any payment which has been or would otherwise be made to him in connection with the 1953 program.

§ 704.244 *Filing of false claims.* If the State Office finds that any producer has knowingly filed claim for payment under the program for practices not carried out, or for practices carried out in such a manner that they do not meet the required specifications therefor, such person shall not be eligible to receive any payment under the program and shall refund all payments that may have been made to him under the program. The withholding or refunding of payments will be in addition to and not in substitution of any other penalty or liability which might otherwise be imposed.

§ 704.245 *Misuse of purchase orders.* If the State Office finds that any producer has knowingly used a purchase order issued to him for conservation services for a purpose other than that for which it was issued, and that such misuse of the purchase order tends to defeat the purpose for which it was issued, such producer shall not be eligible to receive any payment under the program and shall refund all payments that may have been made to him under the program. The withholding or refunding of payments will be in addition to and not in substitution of any other penalty or liability which might otherwise be imposed.

§ 704.246 *Payment computed and made without regard to claims.* Any payment or share of payment shall be computed and made without regard to questions of title under State law; without deduction of claims for advances (except as provided in § 704.247 and except for indebtedness to the United States subject to set off under orders issued by the Secretary (Part 718 of this chapter)); and without regard to any claim or lien against any crop, or proceeds thereof, in favor of the owner or any other creditor.

§ 704.247 *Assignments.* Any person who may be entitled to any payment in connection with the 1953 program may assign his payment, in whole or in part, as security for cash loaned or advances made for the purpose of financing the making of a crop in 1953. No assignment will be recognized, unless it is made in writing on Form ACP–69 and in accordance with the instructions in ACP–70—Insular Region.

§ 704.248 *Practices carried out with State or Federal aid.* The assistance for any practice shall not be reduced because it is carried out with services furnished by the ACP Branch or by any agency of a State to another agency of the same State, or with technical advisory services furnished by a State or Federal agency. In other cases of State or Federal aid, the total assistance for any practice performed shall be reduced for purposes of payment by the value of the aid, as determined by the State Office. Services furnished or used by a State or Federal agency for the performance of practices on its land shall not be regarded as State or Federal aid for the purposes of this section.

§ 704.249 *Compliance with regulatory measures.* Producers who carry out conservation practices for assistance under the 1953 program, shall be responsible for obtaining the authorities, rights, easements, or other approvals necessary to the performance and maintenance of the practices in keeping with applicable laws and regulations. The producer who receives assistance for the practice shall be responsible to the Federal Government for any losses it may sustain because the producer infringes on the rights of others or fails to comply with applicable laws.

APPLICATION FOR PAYMENT

§ 704.251 *Persons eligible to file applications.* An application for payment respect to a farm may be made by any producer who is entitled to share in the payment determined for the farm, except where his only payment is earned with conservation services furnished by the ACP Branch in an amount that no small payment increase is due.

§ 704.252 *Time and manner of filing applications and information required.* Payment will be made only upon application submitted on the prescribed form which should be filed in the State Office or with a representative of the State Office on or before March 31, 1954. Payment may be withheld from any person who fails to file any form or furnish any information required with respect to any farm which such person is operating or renting to another. Any application for payment may be rejected if any form or information required of the applicant is not submitted to the State Office within the time fixed by the Director of the ACP Branch, except that any time limit established may be extended, but not later than December 31, 1954, by the State Office if failure to timely submit the form or information requested was due to conditions over which the farmer had no control. At least two weeks' notice to the public shall be given of the expiration of the time limit for filing prescribed forms or required information, and any time limit fixed shall afford a full and fair opportunity to those eligible to file the form or information within the period prescribed.

APPEALS

§ 704.256 *Appeals.* Any producer may, within 15 days after notice thereof is forwarded to or made available to him, request the State Office in writing to reconsider its recommendation or determination in any matter affecting the right to or the amount of his payment with respect to the farm. The State Office shall notify him of its decision in writing within 15 days after receipt of written request for reconsideration. If the producer is dissatisfied with the decision of the State Office, he may, within 15 days after its decision is forwarded to or made available to him, request the Director, ACP Branch, to review the decision of the State Office. Written notice of any decision rendered under this section by the State Office shall also be issued to each other producer on the farm who may be adversely affected by the decision.

BULLETINS, INSTRUCTIONS, AND FORMS

§ 704.261 *Bulletins, instructions, and forms.* The ACP Branch is authorized to make determinations and to prepare and issue bulletins, instructions, and forms containing detailed information with respect to the 1953 program as it applies to Alaska, and forms will be available in the State Office. Producers wishing to participate in the program should obtain all information needed from the State Office.

DEFINITIONS

§ 704.266 *Definitions.* For the purposes of the 1953 program:

(a) "Secretary" means the Secretary of Agriculture of the United States.

(b) "Director" means the Director of the Agricultural Conservation Programs Branch, Production and Marketing Administration.

(c) "ACP Branch" means the Agricultural Conservation Programs Branch of the Production and Marketing Administration.

(d) "State" means Alaska.

(e) "State Office" means the office of the Director of Extension, University of Alaska, College, Alaska.

(f) "Person" means an individual, partnership, association, corporation, estate, or trust, or other business enterprise or other legal entity, and, wherever applicable, a State, Territory, or Possession, or a political subdivision or agency thereof.

(g) "Producer" means any person who, as landlord, tenant, or sharecropper, participates in the operation of the farm.

(h) "Farm" means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also: (1) Any other adjacent or nearby farm or range land which the State Office, in accordance with instructions issued by the ACP Branch, determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops, and with work stock, farm machinery, and labor substantially separate from that for any other land; and (2) any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

(i) "Cropland" means farm land which in 1952 was tilled or was in regular crop rotation, excluding (1) bearing orchards and vineyards (except the acreage of cropland therein), (2) plowable noncrop open pasture, and (3) any land which constitutes or will constitute, if tillage is continued, a wind-erosion hazard to the community.

(j) "Pasture land" means farm land, other than range land, on which the predominant growth is forage suitable for grazing and on which the spacing of any trees or shrubs is such that the land could not fairly be considered as woodland.

(k) "Range land" means any land which produces or can produce forage suitable for grazing by range livestock without cultivation or general irrigation.

AUTHORITY, AVAILABILITY OF FUNDS, AND APPLICABILITY

§ 704.271 *Authority.* The program is approved pursuant to the authority vested in the Secretary of Agriculture under sections 7–17 of the Soil Conservation and Domestic Allotment Act, as amended (49 Stat. 1148, 16 U. S. C. 590g–590q).

§ 704.272 *Availability of funds.* (a) The provisions of the 1953 program are necessarily subject to such legislation as the Congress of the United States may hereafter enact; the making of the payments herein provided is contingent upon such appropriation as the Congress may hereafter provide for such purpose; and the amounts of such payments will necessarily be within the limits finally determined by such appropriation.

(b) The funds provided for the 1953 program will not be available for payment of applications filed after December 31, 1954.

§ 704.273 *Applicability.* (a) The provisions of the 1953 program contained herein are not applicable to (1) any department or bureau of the United States Government or any corporation wholly owned by the United States; (2) grazing lands owned by the United States which were acquired or reserved for conservation purposes, or which are to be retained permanently under Government ownership, including, but not limited to, grazing lands administered by the Forest Service or the Soil Conservation Service of the United States Department of Agriculture, or by the Bureau of Land Management (including lands administered under the Taylor Grazing Act) or the Fish and Wildlife Service of the United States Department of the Interior; and (3) nonprivate persons for performance on any land owned by the United States or a corporation wholly owned by it.

(b) The program is applicable to (1) privately owned lands; (2) lands owned by Alaska or a political subdivision or agency thereof; (3) lands owned by corporations which are partly owned by the United States, such as production credit associations; (4) lands temporarily owned by the United States or a corporation wholly owned by it, which were not acquired or reserved for conservation purposes, including lands administered by the Farmers Home Administration, the Reconstruction Finance Corporation, the Federal Farm Mortgage Corporation, the United States Department of Defense, or by any other Government agency designated by the ACP Branch; and (5) any cropland farmed by private persons which is owned by the United States or a corporation wholly owned by it.

Done at Washington, D. C., this 24th day of September 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 52–10502; Filed, Sept. 26, 1952; 8:50 a. m.]

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Tokay Grape Order 1, Amdt. 1]

PART 951—TOKAY GRAPES GROWN IN SAN JOAQUIN AND SACRAMENTO COUNTIES IN CALIFORNIA

REGULATION BY GRADES AND SIZES

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 51, as amended (7 CFR Part 951; 17 F. R. 7417), regulating the handling of Tokay grapes grown in San Joaquin and Sacramento Counties in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of

1937, as amended, and upon the basis of the recommendations of the Industry Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of Tokay grapes, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than September 27, 1952. Shipments of Tokay grapes of the current crop have been subject to regulation by grades and sizes pursuant to Tokay Grape Order 1 (§ 951.313; 17 F. R. 7774), which has been in effect since August 26, 1952, and is to continue until January 1, 1953; a reasonable determination as to the need for continued regulation of the shipments of Tokay grapes by grades and sizes must await the availability of information relative to the probable supply and demand conditions for such grapes; information available to the committee on September 23, 1952, was to the effect that, without the tightening of the tolerances permitted under such grade and size regulation, for variations incident to proper grading and handling provided for U. S. No. 1 Table Grapes, the supply thereof during the period September 27, 1952, to January 1, 1953, will exceed the demand therefor, and recommendation and supporting information for the reduction of such tolerances set forth in Tokay Grape Order 1 was forwarded promptly to the Department and made available to handlers and producers of Tokay grapes; the provisions of this amended regulation are the same as the aforesaid recommendation of the committee; and compliance with the provisions of this amended regulation will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

Order. It is therefore ordered as follows: The provisions in subdivision (iii) of paragraph (b) (1) of § 951.313 (Tokay Grape Order 1; 17 F. R. 7774) are hereby amended to read as follows:

(iii) In lieu of the tolerance of ten (10) percent for variations incident to proper grading and handling provided for U. S. No. 1 Table Grapes, not more than a total of seven (7) percent, by weight, of the Tokay grapes contained in any container may fail to meet the requirements of U. S. No. 1 Table Grapes: *Provided,* That with respect to Tokay grapes produced in the Fiorin District, there shall be allowed, in addition to the tolerances provided for U. S. No. 1 Table Grapes, for each container of such grapes an aggregate tolerance of four (4) percent, by weight, for defects not considered serious damage, for bunches smaller than the minimum size specified for U. S. No. 1 Table Grapes, and for bunches which are not fairly well colored: *Provided, further,* That none of the aforesaid tolerances shall apply to the maturity requirements specified in subdivision (ii) of this subparagraph.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 25th day of September 1952, to become effective at 12:01 a. m., P. s. t., September 27, 1952.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 52-10554; Filed, Sept. 26, 1952; 8:55 a. m.]

[Tokay Grape Order 2, Amdt. 1]

PART 951—TOKAY GRAPES GROWN IN SAN JOAQUIN AND SACRAMENTO COUNTIES IN CALIFORNIA

LIMITATION OF DAILY SHIPMENTS

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 51, as amended (7 CFR Part 951; 17 F. R. 7417), regulating the handling of Tokay grapes grown in San Joaquin and Sacramento Counties in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Industry Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of daily shipments of Tokay grapes, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.), in that, as hereinafter set forth, the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than September 27, 1952. Shipments of Tokay grapes of the current crop are subject to regulation by grades and sizes pursuant to Tokay Grape Order 1 (§ 951.313; 17 F. R. 7774), which has been in effect since August 26, 1952, and is to continue until January 1, 1953; the advisable quantity of such of the Tokay grapes as are eligible for shipment on the basis of such Order 1 was fixed at 132,600 standard packages pursuant to Tokay Grape Order 2 (§ 951.314; 17 F. R. 8321), effective during the period September 17, 1952, to October 11, 1952; a reasonable determination as to the need for continued regulation of the volume of daily shipments of Tokay grapes must await the availability of information relative to the probable supply and demand conditions for such grapes; information available to the committee on September 23, 1952, was to the effect that, without a reduction in the volume of daily shipments of such grapes, the supply thereof during the period September 27, 1952, through October 10, 1952, will exceed the demand therefor, and recommendation and supporting information for reduction of the volume of daily shipments from 132,600 standard packages to 110,500 standard packages was forwarded promptly to the Department and made available to handlers and producers of Tokay grapes; the provisions of this amended regulation are the same as the aforesaid recommendation of the committee; and compliance with the provisions of this amended regulation will not require of handlers any preparation therefore which cannot be completed by the effective time hereof.

Order. It is therefore ordered as follows: The provisions in subparagraph (ii) of paragraph (b) (1) of § 951.314 (17 F. R. 8321) are hereby amended to read as follows:

(ii) The total quantity of grapes advisable to be shipped each day shall be 110,500 standard packages or the equivalent quantity thereof.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 25th day of September 1952, to become effective at 12:01 a. m., P. s. t., September 27, 1952.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[Lemon Reg. 454]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.561 *Lemon Regulation 454*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on September 24, 1952; such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., September 28, 1952, and ending at 12:01 a. m., P. s. t., October 5, 1952; is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 225 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 453 (17 F. R. 8452) and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2," and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 25th day of September 1952.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Regs., Serial No. SR-387]

PART 4b—AIRPLANE AIRWORTHINESS; TRANSPORT CATEGORIES

SPECIAL CIVIL AIR REGULATION; EMERGENCY EXITS FOR AIRPLANES CARRYING PASSENGERS FOR HIRE

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 22d day of September 1952.

Civil Air Regulations Amendment 4b-4, effective December 20, 1951, prescribes emergency exit provisions for new type transport category airplanes. The amendment was not made applicable to airplane types currently in operation. Nevertheless the Board considers that more stringent rules should apply to all large airplanes carrying passengers for hire. A study of current type airplanes indicates that in some instances the exit facilities have become marginal for the number of occupants carried and that further increases in occupancy must be more strictly related to the number of exits available. The study further reveals that even in some of the airplane types which are not considered marginal in this respect further increases in occupancy should not be permitted without the installation of additional exits.

The regulation herein adopted requires on all large airplanes (above 12,500 pounds maximum certificated take-off weight) compliance with either § 4b.362 (a), (b), and (c) of Part 4b of the Civil Air Regulations as amended by Amendment 4b-4, effective December 20, 1951, or with the listed values of maximum number of occupants, except that the listed values can be adjusted for the number of exits installed in the ratio of not more than eight additional occupants for each additional exit. The type, size, and location of such additional exits are being made dependent upon the presently installed exit facilities on the individual airplane types. The listed values of maximum number of occupants and the corresponding number of exits reflect in most instances the arrangement presently approved. In a few cases, upward adjustments from the presently approved arrangement have been made where the number of exits so warrants.

Interested persons have been afforded an opportunity to participate in the making of this regulation, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing the Civil Aeronautics Board hereby makes and promulgates the following Special Civil Air Regulation, effective October 27, 1952:

Contrary provisions of the Civil Air Regulations notwithstanding, no large airplane (above 12,500 pounds maximum certificated take-off weight) while carrying passengers for hire shall be operated with occupants in excess of the number permitted by applying the provisions of § 4b.362 (a), (b), and (c) of Part 4b of the Civil Air Regulations as amended by Amendment 4b-4, effective December 20, 1951, except that airplane types listed in the following table may be operated with the listed maximum number of occupants (including all crew members) and the listed corresponding number of exits (including emergency exits and doors) heretofore approved by the Administrator for emergency egress of passengers. Additional occupants above the values listed in the table may be carried if additional exits are provided, except that in no case shall more than eight additional occupants be carried for any one additional exit. The type, size, and location of such additional exits shall be approved by the Administrator. For airplanes which have a ratio of maximum number of occupants to number of exits (as listed in the following table) greater than 14:1 and for airplanes which do not have installed at least one full-size door-type exit in the side of the fuselage in the rearward portion of the cabin, the first additional exit approved by the Administrator for increased occupancy shall be a floor-level exit not less than 24 inches wide by 48 inches high located in the side of the fuselage in the rearward portion of the cabin. In no case shall an occupancy greater than 115 be allowed unless there are two full-size door-type exits in the rearward portion of the cabin, one on each side of the fuselage.

Airplane type	Maximum number of occupants including all crew members	Corresponding number of exits authorized for passenger use

[Civil Air Regs., Amdt. 62-2]

PART 62—NOTICE AND REPORTS OF AIRCRAFT ACCIDENTS AND MISSING AIRCRAFT

NON-AIR CARRIER ACCIDENT REPORTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 22d day of September, 1952.

Sections 62.38 and 62.39 of Part 62 of the Civil Air Regulations now specify that the report of a non-air carrier accident be prepared in duplicate and transmitted to the nearest office of the Civil Aeronautics Board or to a Civil Aeronautics Administration agent.

By agreement, those States having active aviation authorities will, after September 28, 1952, participate in the investigation and reporting of civil non-air carrier accidents with the Board and the Civil Aeronautics Administration. Pursuant thereto, Form 453 (non-air carrier accident report) has been revised and simplified and is now printed in triplicate to provide a copy for the State authorities. Therefore it is necessary that §§ 62.38 and 62.39 be amended to provide for the preparation of the Form 453 in triplicate and its distribution.

Since these amendments are procedural in nature and impose no burden of consequence upon any person, notice and public procedure are unnecessary, and the amendments may be made effective upon less than 30 days' notice.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 62 of the Civil Air Regulations (14 CFR Part 62, as amended), effective September 22, 1952.

1. By amending § 62.38 to read as follows:

§ 62.38 *Form of report and contents.* The report shall be made in triplicate on an accident report form furnished by the Civil Aeronautics Board and shall contain all available information required therein.

2. By amending § 62.39 to read as follows:

§ 62.39 *To whom the report is directed.* The original and two copies of the report and exhibits should be mailed or delivered to the nearest office of the Civil Aeronautics Board or a Civil Aeronautics Administration agent. However, where a State by agreement with the Board actively participates in the investigation of non-air carrier accidents and the accident occurred in that State, a State aviation official or investigator is authorized to receive such report and exhibits in behalf of the Board.

NOTE: Where a Civil Aeronautics Administration agent or a State aviation authority receives such an accident report and exhibits or conducts the investigation in behalf of the Board, distribution of the copies of the report and exhibits shall be in accordance with the agreement with the Board.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 702, 52 Stat. 1007, 1013; 49 U. S. C. 551, 582)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 77]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest, and therefore is not required.

Part 600 is amended as follows:

1. Section 600.231 is amended by changing the caption to read: "*Red civil airway No. 31 (Cheyenne, Wyo., to Minneapolis, Minn.),*" and by deleting the first portion which reads: "From the Denver, Colo., VHF radio range station to the intersection of the north course of the Denver, Colo., VHF radio range and east course of the Cheyenne, Wyo., radio range."

2. Section 600.237 is amended to read:

§ 600.237 *Red civil airway No. 37 (Tyler, Tex., to Gordonsville, Va.).* From the Tyler, Tex., radio range station to the intersection of the north course of the Tyler, Tex., radio range and the west course of the Texarkana, Tex., radio range. From the intersection of the northeast course of the Texarkana, Ark., radio range and the southwest course of the Little Rock, Ark., radio range via the Little Rock, Ark., radio range station; Stuttgart, Ark., radio range station to the intersection of the east course of the Stuttgart, Ark., radio range and the west course of the Memphis, Tenn., radio range. From the Charleston, W. Va., radio range station via the Roanoke, Va., radio range station; Lynchburg, Va., radio range station; to the Gordonsville, Va., radio range station.

3. Section 600.268 *Red civil airway No. 68 (Midland, Tex., to Shreveport, La.),* is amended by changing the last portion to read: "From the Duncanville, Tex., non-directional radio beacon via the Tyler, Tex., radio range station; the Longview, Tex., Gregg County non-directional radio beacon to the Shreveport, La., radio range station."

4. Section 600.613 *Blue civil airway No. 13 (Houston, Tex., to Minneapolis, Minn.),* is amended by deleting: "Fort Smith, Ark., non-directional radio beacon;" and by adding the following facility in lieu thereof: "Van Buren, Ark., non-directional radio beacon;"

5. Section 600.621 *Blue civil airway No. 21 (Louisville, Ky., to Erie, Pa.),* is amended by deleting the following portion "Parkersburg, W. Va., VHF radio range station; the intersection of the northeast course of the Parkersburg, W. Va., VHF radio range and the southwest course of the Wheeling, W. Va., VHF radio range to the Wheeling, W. Va., VHF radio range station," and by adding the following portion in lieu thereof: "Parkersburg, W. Va., radio range station to the intersection of the northeast course of the Parkersburg, W. Va., VHF radio range and the west course of the Pittsburgh, Pa., radio range."

6. Section 600.6001 is added to read:

§ 600.6001 *VOR civil airway No. 1 (Norfolk, Va., to New York, N. Y.).* From the Norfolk, Va., VHF VAR station via the intersection of the north course of the Norfolk VHF VAR station and the Salisbury omnirange 206° True radial; Salisbury, Md., omnirange station; intersection of the Salisbury omnirange 39° True and the Atlantic City omnirange 203° True radials; Atlantic City, N. J., omnirange station; intersection of the Atlantic City omnirange 23° True radial and the south course of the Matawan VHF VAR station to the Matawan, N. J., VHF VAR station. Those portions of this airway overlapping danger areas and those portions between Atlantic City, N. J., omnirange station and Matawan, N. J., VHF VAR radio range station more than 2 miles either side of the center line are excluded.

7. Section 600.6004 *VOR civil airway No. 4 (Seattle, Wash., to Washington, D. C.),* is amended between Rock River, Wyo., omnirange station and Hill City, Kans., omnirange station to read: "Rock River, Wyo., omnirange station, including a north alternate; Laramie, Wyo., omnirange station; Denver, Colo., omnirange station; Thurman, Colo., omnirange station; Goodland, Kans., omnirange station, including a north alternate; Hill City, Kans., omnirange station, including a north alternate;"

8. Section 600.6008 *VOR civil airway No. 8 (Long Beach, Calif., to Washington, D. C.),* is amended before Grand Island, Nebr., omnirange station to read: "From the Denver, Colo., omnirange station via the Akron, Colo., omnirange station, including a north alternate; Imperial, Nebr., omnirange station, including a south alternate; Lexington, Nebr., omnirange station, including a south alternate; Grand Island, Nebr., omnirange station, including a south alternate;"

9. Section 600.6012 *VOR civil airway No. 12 (Daggett, Calif., to Philadelphia, Pa.),* is amended between Zuni, N. Mex., omnirange station and Albuquerque, N. Mex., omnirange station to read: "Zuni, N. Mex., omnirange station; Acomita, N. Mex., omnirange station; Albuquerque, N. Mex., omnirange station;"

10. Section 600.6013 *VOR civil airway No. 13 (Houston, Tex., to Duluth, Minn.),* is amended by changing the first portion to read: "From the Houston, Tex., omnirange station via the Lufkin, Tex., omnirange station; Shreveport, La., omnirange station to the Texarkana, Ark., omnirange station."

11. Section 600.6015 is amended by changing caption to read: "*VOR civil airway No. 15 (Galveston, Tex., to Minot, N. D.),*" and by amending the first portion to read: "From the Galveston, Tex., omnirange station via the Houston, Tex., omnirange station; College Station, Tex., omnirange station; Waco, Tex., omnirange station, including an east alternate; Dallas, Tex., omnirange station; Ardmore, Tex., omnirange station to the Tulsa, Okla., omnirange station, including an east alternate."

12. Section 600.6017 is amended to read:

§ 600.6017 *VOR civil airway No. 17 (Laredo, Tex., to Goodland, Kans.).* That airspace over United States territory from the Laredo, Tex., omnirange station via Cotulla, Tex., omnirange station; San Antonio, Tex., omnirange station; Austin, Tex., omnirange station; Waco, Tex., omnirange station, including an east alternate; Ft. Worth, Tex., omnirange station; Ardmore, Okla., omnirange station; Oklahoma City, Okla., omnirange station, including an east alternate; Gage, Okla., omnirange station, Garden City, Kans., omnirange station to the Goodland, Kans., omnirange station, including a west alternate.

13. Section 600.6018 is amended to read:

§ 600.6018 *VOR civil airway No. 18 (Dallas, Tex., to Tuscaloosa, Ala.).* From the Dallas, Tex., omnirange station via the Quitman, Tex., omnirange station; Shreveport, Tex., omnirange station; Monroe, La., omnirange station; Jackson, Miss., omnirange station, including a south alternate; Meridian, Miss., omnirange station, including a south alternate to the Tuscaloosa, Ala., omnirange station, including a north alternate.

14. Section 600.6019 *VOR civil airway No. 19 (El Paso, Tex., to Sheridan, Wyo.),* is amended by changing the first portion before Truth or Consequences, N. Mex., to read: "That airspace over United States territory from the El Paso, Tex., omnirange station via the intersection of the El Paso omnirange 271° True and the Truth or Consequences omnirange 162° True radials; Truth or Consequences, N. Mex., omnirange station;" and by changing the last portion to read: "From the Denver, Colo., omnirange station via the Cheyenne, Wyo., omnirange station, including an east alternate; Douglas, Wyo., omnirange station, including an east alternate; Casper, Wyo., omnirange station, including an east alternate; Crazy Woman, Wyo., omnirange station, including an east alternate to the Sheridan, Wyo., omnirange station, including an east alternate."

15. Section 600.6020 is added to read:

§ 600.6020 *VOR civil airway No. 20 (Laredo, Tex., to Mobile, Ala.).* That airspace over United States territory from the Laredo, Tex., omnirange station via the Corpus Christi, Tex., omnirange station; Palacios, Tex., omnirange station; Houston, Tex., omnirange station; Beaumont, Tex., omnirange station; Lake Charles, La., omnirange station; Lafayette, La., omnirange station; New Orleans, La., omnirange station; intersection of the New Orleans 066° True and the Mobile omnirange 242° True to the Mobile, Ala., omnirange station.

16. Section 600.6022 is amended by changing caption to read: "*VOR civil airway No. 22 (New Orleans, La., to Tallahassee, Fla.),*" and by adding the following first portion to read: "From the New Orleans, La., omnirange station via the intersection of the New Orleans omnirange 066° True and the Mobile 242° True radials; Mobile, Ala., omnirange station; intersection of the Mobile 070° True and the Crestview 274° True radials;"

17. Section 600.6068 is amended by changing caption to read: "*VOR civil airway No. 68 (Albuquerque, N. Mex., to Brownsville, Tex.),*" and by adding a last portion to read: "Junction, Tex., omnirange station; San Antonio, Tex., omnirange station; intersection of the San Antonio omnirange 167° True and the Corpus Christi omnirange 316° True radials; Corpus Christi, Tex., omnirange station; intersection of the Corpus Christi 238° True and the Brownsville 338° True radials to the Brownsville, Tex., omnirange station, excluding the portion lying outside the United States."

18. Section 600.6074 is amended to read:

§ 600.6074 *VOR civil airway No. 74 (Ponca City, Okla., to Little Rock, Ark.).* From the Ponca City, Okla., omnirange station via the Tulsa, Okla., omnirange station, including a south alternate; Ft. Smith, Ark., omnirange station; intersection of the Ft. Smith omnirange 098° True and the Little Rock 302° True radials to the Little Rock, Ark., omnirange station.

19. Section 600.6099 is added to read:

§ 600.6099 *VOR civil airway No. 99 (Lafayette, La., to Baton Rouge, La.).* From the Lafayette, La., omnirange station to the Baton Rouge, La., omnirange station.

20. Section 600.6113 is added to read:

§ 600.6113 *VOR civil airway No. 113.* [Unassigned].

21. Section 600.6114 is added to read:

§ 600.6114 *VOR civil airway No. 114 (Dalhart, Tex., to New Orleans, La.).* From the Dalhart, Tex., omnirange station via the Amarillo, Tex., omnirange station; Childress, Tex., omnirange station; Wichita Falls, Tex., omnirange station; Dallas Tex., omnirange station; Gregg County, Tex., omnirange station; Shreveport, La., omnirange station; intersection of the Shreveport omnirange 169° True and the Alexandria omnirange 312° True radials; Alexandria, La., omnirange station; Baton Rouge, La., omnirange station to the New Orleans, La., omnirange station.

22. Section 600.6115 is added to read:

§ 600.6115 *VOR civil airway No. 115.* [Unassigned].

23. Section 600.6116 is added to read:

§ 600.6116 *VOR civil airway No. 116 (Austin, Tex., to Houston, Tex.).* From the Austin, Tex., omnirange station to the Houston, Tex., omnirange station.

24. Section 600.6117 is added to read:

§ 600.6117 *VOR civil airway No. 117.* [Unassigned].

25. Section 600.6118 is added to read:

§ 600.6118 *VOR civil airway No. 118 (Laramie, Wyo., to Cheyenne, Wyo.).* From the Laramie, Wyo., omnirange station to the Cheyenne, Wyo., omnirange station.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t. October 1, 1952.

[SEAL] F. B. LEE, *Acting Administrator of Civil Aeronautics.*

[F. R. Doc. 52-10510; Filed, Sept. 23, 1952; 8:51 a. m.]

[Amdt. 82]

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 601 is amended as follows:

1. Section 601.231 is amended by changing caption to read: "*Red civil airway No. 31 control areas (Cheyenne, Wyo., to Minneapolis, Minn.).*"

2. Section 601.237 is amended by changing caption to read: "*Red civil airway No. 37 control areas (Tyler, Tex., to Gordonsville, Va.).*"

3. Section 601.1026 *Control area extension (Grand Island, Nebr.),* is amended by adding the following portion to present control area extension: "and within 5 miles either side of the 180° True and 360° True radials of the Grand Island omnirange extending from the omnirange station to points 25 miles north and south."

4. Section 601.1031 is amended to read:

§ 601.1031 *Control area extension (North Platte, Nebr.).* All that airspace within a 25 mile radius of the North Platte radio range bounded on the south by Green civil airway No. 3, and the airspace bounded on the east by a line 5 miles east of and parallel to the south course of the radio range, on the south

by VOR civil airway No. 8, and on the northwest by Blue civil airway No. 36.

5. Section 601.1033 *Control area extension (St. Joseph, Mo.)*, is amended by adding following portion to present control area extension: "and within 5 miles either side of the 355° True radial of the St. Joseph omnirange extending from the omnirange station to a point 25 miles north."

6. Section 601.1036 *Control area extension (Vichy, Mo.)*, is amended by adding the following portion to present control area extension: "and within 5 miles either side of the northwest course of the Vichy radio range extending from the radio range station to a point 25 miles northwest."

7. Section 601.1109 *Control area extension (Goodland, Kans.)*, is amended by adding the following portion to the present control area extension: "and within 5 miles either side of the 202° True radial of the Goodland omnirange extending from the omnirange station to a point 25 miles southwest."

8. Section 601.1240 is amended to read:

§ 601.1240 *Control area extension (Tyler, Tex.)*. All that airspace within a 25 mile radius of the Tyler, Tex., radio range station including the area between the Dallas, Tex., radio range station and the Shreveport, La., radio range station bounded on the north by Red 10, on the south by Red 68 and on the west by Blue 5.

9. Section 601.1291 *Control area extension (Garden City, Kans.)*, is amended by adding the following portion to present control area extension: "and within 5 miles either side of the north course of the Garden City radio range extending from the radio range station to a point 25 miles north."

10. Section 601.1310 is added to read:

§ 601.1310 *Control area extension (Anchorage, Alaska) (Anchorage-Sandspit route)*. All that airspace within 5 miles either side of direct lines between the Whittier, Alaska, Fan Marker, the Middleton Island, Alaska, nondirectional radio beacon and the Sandspit, B. C., radio range station extending from the Whittier Fan Marker to the United States-Canadian Border.

11. Section 601.1311 is added to read:

§ 601.1311 *Control area extension (Oscoda, Mich.)*. All that airspace within a 30 mile radius of the Oscoda Air Force Base excluding the portion which overlaps danger areas.

12. Section 601.1312 is added to read:

§ 601.1312 *Control area extension (Zanesville, Ohio)*. All that airspace within 5 miles either side of a line bearing 30° True and 210° True from the Zanesville non-directional beacon extending from Green civil airway No. 4 to a point 20 miles southwest of the Zanesville Municipal Airport.

13. Section 601.1313 is added to read:

§ 601.1313 *Control area extension (Sioux City, Iowa)*. All that airspace within a 25 mile radius of the Sioux City omnirange station extending from the 234° True radial clockwise to the western boundary of Amber civil airway No. 4 and within 5 miles either side of a line bearing 136° True from the Sioux City outer compass locator extending from the outer compass locator to a point 25 miles southeast.

14. Section 601.1314 is added to read:

§ 601.1314 *Control area extension (Kirksville, Mo.)*. Within 5 miles either side of the 316° True radial of the Kirksville omnirange extending from the omnirange station to a point 25 miles northwest.

15. Section 601.1315 is added to read:

§ 601.1315 *Control area extension (Emporia, Kans.)*. Within 5 miles either side of the 134° True and 314° True radials of the Emporia omnirange extending from the omnirange station to points 25 miles southeast and northwest.

16. Section 601.1316 is added to read:

§ 601.1316 *Control area extension (La Junta, Colo.)*. All that airspace northwest of the La Junta radio range station bounded on the northeast by a line 5 miles northeast of and parallel to the northwest course of the La Junta radio range, on the south by VOR civil airway No. 10 and on the west by Amber civil airway No. 3.

17. Section 601.2039 *Tulsa, Okla., control zone*, is amended by adding the following portion to present control zone: "and within 2 miles either side of the 340° True and 160° True radials of the Tulsa omnirange extending from the Tulsa Municipal Airport to a point 10 miles northwest of the omnirange station."

18. Section 601.2126 is amended to read:

§ 601.2126 *Toledo, Ohio, control zone.* Within a 5 mile radius of the Toledo Municipal Airport, within 2 miles either side of the north course of the Toledo, Ohio radio range extending from the Airport to the radio range station, and within 2 miles either side of a line bearing 134° True from the Toledo Municipal Airport through the Genoa non-directional radio beacon extending from the Airport to a point 10 miles southeast of the Genoa non-directional radio beacon.

19. Section 601.2191 is amended to read:

§ 601.2191 *Zanesville, Ohio, control zone.* Within a 5 mile radius of the Zanesville Municipal Airport and within 2 miles either side of a line bearing 210° True from the Municipal Airport extending from the airport to a point 10 miles southwest.

20. Section 601.2247 is amended to read:

§ 601.2247 *Abilene, Tex., control zone.* Within a 5 mile radius of the Abilene Municipal Airport and within 2 miles either side of the north course of the Abilene radio range extending from the radio range station to the Phantom Hill fan marker; within a 5 mile radius of the Abilene Army Airfield and within 2 miles either side of the 174° True and 354° True radials of the Abilene omnirange extending from Abilene Army Airfield to a point 10 miles north of the omnirange station, and within 2 miles either side of a direct line extending from the Abilene Army Airfield to the Abilene radio range station.

21. Section 601.2314 is added to read:

§ 601.2314 *Bryan, Tex., control zone.* All that airspace within a 3 mile radius of the Easterwood Airport, College Station, Tex., including the airspace within a 5 mile radius of Bryan Air Force Base, Bryan, Tex.

22. Section 601.4210 *Red civil airway No. 10 (Pueblo, Colo., to Charleston, S. C.)*, is amended by deleting the following reporting point: "the intersection of the northwest course of the Tyler, Tex., radio range and the east course of the Dallas, Tex., radio range;" and by correcting "northeast" course of the Tyler, Tex., radio range to read: "north" course of the Tyler, Tex., radio range.

23. Section 601.4231 is amended by changing caption to read: *"Red civil airway No. 31 (Cheyenne, Wyo., to Minneapolis, Minn.)."*

24. Section 601.4237 is amended by changing caption to read: *"Red civil airway No. 37 (Tyler, Tex., to Gordonsville, Va.)."*

25. Section 601.4613 is amended to read:

§ 601.4613 *Blue civil airway No. 13 (Houston, Tex., to Minneapolis, Minn.)*. Van Buren, Ark., non-directional radio beacon.

26. Section 601.6001 is added to read:

§ 601.6001 *VOR civil airway No. 1 control areas (Norfolk, Va., to New York, N. Y.)*. All of VOR civil airway No. 1.

27. Section 601.6015 is amended to read:

§ 601.6015 *VOR civil airway No. 15 control areas (Galveston, Tex., to Minot, N. D.)*. All of VOR civil airway No. 15 including east and west alternates.

28. Section 601.6017 is amended to read:

§ 601.6017 *VOR civil airway No. 17 control areas (Laredo, Tex., to Goodland, Kans.)*. All of VOR civil airway No. 17 including east and west alternates.

29. Section 601.6018 is amended to read:

§ 601.6018 *VOR civil airway No. 18 control areas (Dallas, Tex., to Tuscaloosa, Ala.)*. All of VOR civil airway No. 18 including north and south alternates.

30. Section 601.6020 is added to read:

§ 601.6020 *VOR civil airway No. 20 control areas (Laredo, Tex., to Mobile, Ala.)*. All of VOR civil airway No. 20.

31. Section 601.6022 is amended to read:

§ 601.6022 *VOR civil airway No. 22 control areas (New Orleans, La., to Tallahassee, Fla.)*. All of VOR civil airway No. 22.

32. Section 601.6068 is amended to read:

§ 601.6068 *VOR civil airway No. 68 control areas (Albuquerque, N. Mex., to Brownsville, Tex.)*. All of VOR civil airway No. 68 including north and south alternates.

33. Section 601.6074 is amended to read:

§ 601.6074 *VOR civil airway No. 74 control areas (Ponca City, Okla., to Little Rock, Ark.)*. All of VOR civil airway No. 74 including south alternates.

34. Section 601.6099 is added to read:

§ 601.6099 *VOR civil airway No. 99 control areas (Lafayette, La., to Baton Rouge, La.)*. All of VOR civil airway No. 99.

35. Section 601.6113 is added to read:

§ 601.6113 *VOR civil airway No. 113 control areas.* [Unassigned].

36. Section 601.6114 is added to read:

§ 601.6144 *VOR civil airway No. 114 control areas (Dalhart, Tex., to New Orleans, La.)*. All of VOR civil airway No. 114.

37. Section 601.6115 is added to read:

§ 601.6115 *VOR civil airway No. 115 control areas.* [Unassigned].

38. Section 601.6116 is added to read:

§ 601.6116 *VOR civil airway No. 116 control areas (Austin, Tex., to Houston, Tex.)*. All of VOR civil airway No. 116.

39. Section 601.6117 is added to read:

§ 601.6117 *VOR civil airway No. 117 control areas.* [Unassigned].

40. Section 601.6118 is added to read:

§ 601.6118 *VOR civil airway No. 118 control areas (Laramie, Wyo., to Cheyenne, Wyo.)*. All of VOR civil airway No. 118.

41. Section 601.7001 *VOR reporting points*, is amended by adding the following: "Salisbury, Md., omnirange station."

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001 e. s. t. October 1, 1952.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 52-10511; Filed, Sept. 26, 1952; 8:51 a. m.]

[Amdt. 35]

PART 608—DANGER AREAS

ALTERATION; QUANTICO, VIRGINIA

The danger area alteration appearing hereinafter has been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and is adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

In § 608.54, the Quantico, Virginia, area, published on July 16, 1949, in 14 F. R. 4297, and amended on April 26, 1952, in 17 F. R. 3724, and on June 14, 1952, in 17 F. R. 5389, is further amended by changing the "Description by Geographical Coordinates" column to read: "Beginning at lat. 38°33'00" N, long. 77°20'00" W; WSW to lat. 38°29'00 N, long. 77°28'45" W; WNW to lat. 38° 31'20" N, long. 77°34'07" W; due N to lat. 38°37'00" N; ENE to lat. 38°38'47" N, long. 77°30'00" W; ESE to lat. 38°38'00" N. long. 77°26'15" W; SSE to lat. 38°34'00" N, long. 77°24'00" W; ESE to lat. 38°33'00" N, long. 77°20'00" W, point of beginning."

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on October 1, 1952.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 52-10512; Filed, Sept. 26, 1952; 8:52 a. m.]

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

[T. D. 5933; Regs. 48]

PART 306—PROCESSING TAX ON CERTAIN OILS

ELIMINATION OF ADDITIONAL TAX APPLICABLE TO COCONUT OIL PRODUCED IN, OR PRODUCED FROM MATERIALS GROWN IN, TERRITORY OF PACIFIC ISLANDS

In order to conform Regulations 48 (26 CFR Part 306), relating to the processing tax on certain oils, as made applicable to the Internal Revenue Code by Treasury Decision 4885, approved February 11, 1939, to Public Law 391, (82d Cong., 2d Sess.), approved June 12, 1952, such regulations are hereby amended as follows:

PARAGRAPH 1. Article 1, as amended by Treasury Decision 5179, approved November 4, 1942, is further amended by adding at the end of § 306.1 the following paragraph(s):

(s) The Trust Territory of the Pacific Islands consists of the former Japanese mandated Mariana, Marshall and Caroline Islands (except Guam).

PAR. 2. Immediately preceding § 306.2 (article 2), there is inserted the following:

PUBLIC LAW 391 (82D CONGRESS) [APPROVED JUNE 12, 1952]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 2470 (a) (2) of the Internal Revenue Code (relating to the additional tax on domestic processing of coconut oil) is hereby amended to read as follows:

(2) *Additional rate on coconut oil.* There shall be imposed (in addition to the tax imposed by the preceding paragraph) a tax of 2 cents per pound, to be paid by the processor, upon the first domestic processing of coconut oil or of any combination or mixture containing a substantial quantity of coconut oil with respect to which oil there has been no previous first domestic processing. The additional tax imposed by this paragraph shall not apply when it is established, in accordance with regulations prescribed by the Secretary, that the coconut oil (whether or not contained in a combination or mixture) (A) is wholly the production of the Philippine Islands, any possession of the United States, or the Territory of the Pacific Islands (hereinafter in this paragraph referred to as the "Trust Territory"), or (B) was produced wholly from materials the growth or production of the Philippine Islands, any possessions of the United States, or the Trust Territory: *Provided, however*, That such additional tax shall apply in respect of coconut oil (whether or not contained in a combination or mixture) so derived from the Trust Territory, to such extent, and at such time after the date of the applicable proclamation, as the President, after taking into account the responsibilities of the United States with respect to the economy of the Trust Territory, shall hereafter determine and proclaim to be justified to prevent substantial injury or the threat thereof to the competitive trade of any country of the free world. The tax imposed by this paragraph shall not apply to any domestic processing after July 3, 1974.

SEC. 2. The amendment made by this act shall be effective only after the day on which this Act is enacted.

PAR. 3. Article 6, as amended by Treasury Decision 5179 is further amended by adding at the end of § 306.6 the following:

(c) For the period beginning 12:01 a. m., eastern standard time, June 13, 1952, the additional tax of 2 cents per pound, imposed by section 2470 (a) (2), does not apply to the first domestic processing of coconut oil or of any combination or mixture containing a substantial quantity of coconut oil wholly produced in, or wholly produced from materials grown or produced in, the Trust Territory of the Pacific Islands. However, such additional tax shall apply in respect of coconut oil (whether or not contained in a combination or mixture) so derived from the Trust Territory to such extent and at such time as the President, after taking into account the responsibilities of the United States with respect to the economy of the Trust Territory, shall determine and proclaim to be justified to prevent substantial injury or the threat thereof to the competitive trade of any country of the free world.

PAR. 4. The first paragraph of subdivision (c) of article 8, as amended by Treasury Decision 5101, approved December 5, 1941 is further amended by changing § 306.8 (c) (1) and (2) thereof to read as follows:

(1) Separately, the quantity of coconut oil or combination or mixture containing a substantial quantity of coconut oil, which is wholly the production of (i) the Philippine Islands, (ii) Guam, (iii) American Samoa, (iv) all possessions of the United States, and (v) the Trust Territory of the Pacific Islands, and

(2) Separately, the quantity of coconut oil, or combination or mixture containing a substantial quantity of coconut

oil, produced wholly from materials which are the growth or production of (i) the Philippine Islands, (ii) Guam, (iii) American Samoa, (iv) all possessions of the United States, and (v) the Trust Territory of the Pacific Islands.

Because this Treasury decision makes technical amendments to the regulations to provide for the inapplicability of the tax under section 2470 (a) (2) to the first domestic processing of coconut oil produced from materials grown or produced in the Trust Territory of the Pacific Islands, it is found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of said act.

(53 Stat. 467; 26 U. S. C. 3791)

[SEAL] JUSTIN F. WINKLE,
Acting Commissioner of Internal Revenue.

Approved: September 23, 1952.

E. H. FOLEY,
Acting Secretary of the Treasury.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[General Ceiling Price Regulation, Supplementary Regulation 120]

GCPR, SR 120—SPECIAL METHODS PERMITTING WHOLESALERS AND RETAILERS TO REFLECT INBOUND TRANSPORTATION COST INCREASES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738) this supplementary regulation to the General Ceiling Price Regulation is issued.

STATEMENT OF CONSIDERATIONS

This regulation permits certain wholesalers and retailers to adjust their ceiling prices so as to reflect certain increases in inbound transportation costs for merchandise. These transportation cost increases have resulted from the rate increases which were granted since the issuance date of GCPR.

Since May 1951, transportation rates have gone up from 6 percent to 25 percent and in some cases much more; for some furniture articles, less-than-carload-lot rail rates in certain regions have gone up from 35 percent to 130 percent, depending on the particular article. The impact on distributors' operations of these substantial rate increases varies considerably and is difficult to measure on an over-all basis because of a number of complex factors. Nevertheless, it is evident that they represent a major burden to wholesalers and retailers.

For some distributors these increased transportation costs may amount to as much as three-quarters of one percent of their sales volume, or, in some cases, even more. While such an increase may not appear to be large it may often account for a major fraction of the distributors' current net profits—as much as one-third. Moreover, they must be considered in conjunction with increases in distributors' operating expense ratios which have resulted in a significant decline in net profit ratios. For example, the 1951 net profit ratio (before Federal Income Taxes) of department stores, an important segment of retail trade, was 3.0 percent of sales—compared with 4.9 percent for the previous year.

Published data as to wholesalers' and retailers' earnings before taxes as related to net worth, for the years 1946 to 1949 and currently, are not adequate to permit general application of the industry earnings standard. Moreover, these data do not indicate the extent to which any deficiency in current earnings may be due to sales below ceiling rather than to the level of ceiling prices.

Because of the multiplicity and great diversity of wholesaling and retailing operations in the commodity areas covered by the GCPR, earning standard studies, "industry" by "industry" would not only be time-consuming and costly, but also might result in inconclusive statistical data.

On the other hand, the available data was sufficient to lead the Director to the conclusion that adjustments of retailers' ceiling prices under CPR 7 to reflect the increases in inbound transportation costs were required by the industry earnings standard, and that such an adjustment, as provided by SR 5 of CPR 7, is consistent with the spirit and intent of the earnings standard. A fair presumption from the evidence available indicates that, were data for other wholesale and retail trades operating under the GCPR available, many of them would also be found to be eligible for adjustments under the industry earnings standard. This is especially true since transportation cost increases on inbound merchandise affect all distributors and are not the type of cost increase that are unique to any specific industry or trade.

Moreover, it appears desirable to permit an adjustment of distributors' ceiling prices under the GCPR to reflect increased transportation costs in order to make this regulation consistent with other ceiling price regulations. In addition to SR 5 of CPR 7, which allows retailers under this regulation to reflect increases in transportation costs, several other regulations permit a pass-through of increased transportation costs.

All of the above regulations allowing adjustments in ceilings to reflect increases in transportation costs are necessary because no provisions for transportation costs had previously been included, since there was no expectation that there would be any significant changes in transportation rates. However, substantial and far-reaching rate changes have recently been granted by the various regulatory agencies and rate-making bodies. Because of these basic rate changes it is necessary to allow adjustments in ceiling prices to reflect the higher transportation costs.

Because of the innumerable complexities in transportation rate structures, it has not proven possible to reflect in all instances, either by commodity, by destination, or by transportation medium (rail, water, truck, express, parcel post, etc.) the actual percentages or amounts of rate increases. Any regulation tailored to all the varied and numberless transportation rate situations encountered in daily trade would have been so complex as to be impossible of application by the wholesaler or retailer. Instead, the OPS, after careful analysis and extended consultations, has determined the approximate over-all rate increases by grouping wherever feasible, the transportation media, territories and classes of commodities involved in these rate increases.

Moreover, because of the innumerable variety of methods by which transportation costs are handled as between different buyers and sellers and for different commodities, and because the objective of the Agency is to minimize the record-keeping burden, it is necessary to provide in this regulation for alternative methods of adjusting ceiling prices to reflect the increases in transportation costs.

Several methods for reflecting the increase in freight rates since the GCPR went into effect are provided by this Supplementary Regulation. The first three of these, Methods A, B, and C, permit calculation of the increase on the basis of actual dollar differences in freight or differences in transportation rates; or through application of specific factors to current transportation costs. These three methods of calculation may be used interchangeably. Method D, which is presented in several variations, involves calculation by the wholesaler or retailer of his pre-GCPR ratio of total transportation costs to total purchases, either for a defined segment of his business or for his total business. The distributor who elects to use Method D is not permitted to use the other methods at the same time for that part of his business.

The base period and current actual freight calculation which is permitted by the Method A, allows the retailer who can determine (1) the actual "pre-GCPR" transportation cost for a commodity, and (2) the current transportation cost for the same commodity shipped from the same source of supply via the same transportation method, to subtract (1) from (2) in order to determine the amount of the increased transportation cost which can be added directly to the ceiling price. It should be noted that this method allows the retailer to pass-through actual rather than average or approximate increases in transportation costs.

The specific factor calculation permitted by Method B requires that each current freight bill be multiplied by an applicable freight rate increase factor which is set forth in the regulation. This would give the total increase in each freight bill which could then be apportioned to the individual items of merchandise in the shipment covered by the freight bill. Method C is a variation of Method B covering certain commodities.

A retailer or wholesaler using Method D multiplies his pre-GCPR ratio of total transportation costs to total purchases by an applicable increase factor set forth in the regulation. The result is the percentage increase in the ratio which, applied to current merchandise invoice costs, yields the increase which may be added to all of the distributors' ceiling prices to reflect increases in transportation costs. A variation of this method permits distributors to use ratios for certain groups of their suppliers, grouped according to specified distances from the distributor's place of business.

It is apparent that the increases allowed by this regulation will only approximate the actual dollar-and-cent increases in transportation costs for specific commodities shipped to particular distributors. However, the increases allowed by this regulation will generally reflect the approximate over-all increase in inbound transportation costs on the major portion of the distributor's total volume of business. Furthermore, special increase factors allowed by this regulation make it possible to reflect the exceptionally high increases in transportation costs of certain commodities effected by the cancellation of exception ratings for less-than-carload-lot rail shipments of those commodities.

The transportation cost increase factors set forth in this regulation reflect changes in transportation rates from the list date of GCPR to the issuance date of this regulation and the ratio increase factors also reflect changes in the level of prices from the base period to the issuance date. The Director of Price Stabilization may, where warranted, revise these increase factors if there should be further significant changes in transportation rates, the level of prices, or other factors.

In the preparation of this supplementary regulation, frequent and extensive conferences were held with the Retail and Wholesale Industry Advisory Committees and with other representative groups of retail and wholesale sellers, including representatives of trade associations; and their views and recommendations have been given careful consideration in the promulgation of this regulation.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Sales of commodities by wholesalers and retailers to which this regulation applies; exceptions.
3. When this regulation may be used.
4. Choice of methods.
5. Method A—Actual Transportation Increases.
6. Method B—Increases determined by use of rate increase factors applied to current transportation costs.
7. Method C—Increases for Appendix O commodities determined by use of rate increase factors applied to current transportation costs.
8. Method D—Freight to purchases ratio method.
9. Chains and mail order establishments requiring modifications of provisions.
10. Records.
11. Definitions.

AUTHORITY: Sections 1 to 11 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this supplementary regulation does.* This supplementary regulation modifies the ceiling prices of wholesalers and retailers for commodities (other than those listed in section 2) determined under the General Ceiling Price Regulation and under Supplementary Regulation 29 to the GCPR to permit those prices to reflect increases in inbound transportation costs incurred after September 26, 1952, effected by rate increases since the General Ceiling Price Regulation was issued.

SEC. 2. *Sales of commodities by wholesalers and retailers to which this regulation applies; exceptions.* This regulation applies only to commodities for which ceiling prices are determined by wholesalers or retailers pursuant to the General Ceiling Price Regulation or Supplementary Regulation 29 to the GCPR; except that any wholesaler or retailer determining ceiling prices pursuant to an order issued under SR 28, who but for the provisions of SR 28 would be permitted to determine ceiling prices pursuant to the GCPR, may use the provisions of this supplementary regulation.

This regulation does not apply to:

(a) Commodities for which sales by wholesalers or retailers are determined pursuant to supplementary regulations to the GCPR other than those as mentioned above; nor to

(b) Any of the following commodities:

(1) Any agricultural commodities listed in section 11 (a) of the General Ceiling Price Regulation and any food products processed from one or more of them;

(2) Fresh meats, processed pork, and semi-sterile canned meats;

(3) Soft drinks;

(4) Malt beverages; wines; or distilled spirits;

(5) Cigars; nor to

(c) Commodities for which uniform wholesale prices have been established by an authorization under section 6 of SR 29; nor to uniform wholesale or retail ceiling prices established pursuant to section 43 of CPR 7 or Supplementary Regulation 4 to CPR 7.

SEC. 3. *When this regulation may be used.* If you are a wholesaler or retailer you may use this regulation to reflect increases in transportation costs incurred by you after September 26, 1952 for commodities for which you determine your ceiling prices pursuant to the GCPR or SR 29, except as provided in section 2. (See definition of transportation costs in section 11.)

SEC. 4. *Choice of methods.* This regulation contains four methods (sections 5 through 8) for determining the amount which you may add to the ceiling price of a commodity for transportation cost increases. Methods A, B and C may be used for a segment of your business simultaneously. Method D must not be used in conjunction with the other methods simultaneously for any segment of your business. You must record the date you begin to use any method. If you at any time begin to use Method D for any segment of your business, you must use that method for at least six months. If you change to another method after six months you must indicate such change on your record and record the date on which you begin to use the other method. An amount added to the ceiling price of a commodity pursuant to this regulation must not be stated separately on the invoice.

SEC. 5. *Method A—Actual transportation increases.* This method permits you to determine actual increases in transportation costs by subtracting a "base year" transportation cost from a "current" transportation cost. You must record the calculations made under this section and must keep them and the supporting data available for inspection by the OPS.

This method may be used only if the commodity for which you are determining a ceiling price is the same as one which you had received in the base year; which is shipped from the same place by the same transportation method, and in the same size of shipment as was the commodity in the base year. The term "base year" for the purposes of this section is the period July 1, 1950 to June 30, 1951 inclusive. (As used in this paragraph the terms "same commodity," "same place," "same transportation method," and "same size of shipment," have specialized meanings. "Same commodity" means a commodity which actually is the same model, style or lot number as the base period commodity, or any commodity of the same weight as the base period commodity and subject to the identical current transportation rate as the base period commodity. "Same place" means the same city or rail terminal as that from which the base period commodity was shipped. "Same transportation method" means the identical carrier as transported the base period shipment or a carrier whose charges for the current shipment are the same as or less than the current charges of the base period carrier. "Same size of shipment" means that the number of units in the shipment being compared must be roughly equal.) If the two commodities, that is, the base year commodity and the commodity for which a ceiling price is being determined, meet the foregoing tests, you determine the increase in transportation costs by subtracting the transportation costs for the base year commodity (determined from any base year transportation bill) from the current transportation cost. The result is the increase in transportation cost which may be added to the ceiling price for the commodity.

(a) The base year transportation cost and the current transportation cost of the commodity may be determined by apportioning the total transportation bill among the commodities covered by the bill in any generally accepted manner, that is, by weight, by value, or by number of units. Only one method of apportioning transportation costs may be applied to a single transportation bill under this section; and the same method of apportionment must be used for both the base year and the current transportation bill.

(b) If the current transportation bill for a rail shipment covers some commodities which were subject to cancelled LCL exception ratings which caused the increases for these commodities to be considerably greater than the increases for commodities not subject to such ratings (See Appendix O for list of commodities subject to such cancelled LCL exception ratings) and some commodities which were not subject to such exception ratings in the base year, the increases attributable to commodities subject to such cancelled LCL exception ratings can be most precisely ascertained by apportioning the transportation bills among the commodities on the basis of the weight of the respective commodities multiplied by the appropriate freight rate for those commodities as shown on the freight bill.

Example 1. Automatic Washer #931 purchased from Kleen-Klothes Corp. of Detroit, Michigan, shipped by rail in LCL lots on December 8, 1950 and on September 15, 1952.

Current transportation cost per washer	$8.23
Base year transportation cost per washer	7.22
Increase	1.01
Ceiling price of washer	241.65
Increase	1.01
Adjusted ceiling price	242.66

SEC. 6. *Method B—Increases determined by use of rate increase factors applied to current transportation costs.* This method permits you to determine the increase in transportation costs which may be added to the ceiling price of a commodity by applying a factor set forth in the regulation to the "current" transportation bill. You must record the calculations made under this section and must keep them and the supporting data available for inspection by the OPS. Only one method of apportioning transportation costs may be applied to a single transportation bill under this section.

This method may be used to price any commodity for which you have paid inbound transportation cost by applying an appropriate factor to the "current" transportation bill.[1] Appendix S sets forth a table of freight increase factors for rail, motor and water common carrier, railway express and parcel post shipments. (Section 7 sets forth a method for determining more precisely increases for commodities covered by Appendix O whose rail transportation rates for LCL shipments have increased more substantially by cancellation of certain exception ratings. If any of the commodities covered by a current transportation bill are commodities listed in Appendix O, you may determine the amount of the increase in freight for all of the commodities in the shipment pursuant to section 7.)

To determine the amount of the increase in transportation costs pursuant to this section:

[1] Methods B and C are the only methods available to sellers who were not in business prior to January 26, 1951, the issuance date of the GCPR.

(a) Select appropriate increase factor from the Table of Freight Rate Increase Factors in Appendix S.

(b) Apply the appropriate factor found in Appendix S to the total transportation bill.

(c) Allocate the result among the commodities covered by the transportation bill in any reasonable manner (by weight, value, or number of units).

(d) An amount allocated under (c) to a commodity may be added to the ceiling price of the commodity.

Example 2. A wholesaler receives two articles in a truck shipment:

	Weight, pounds
1 coffee table No. 31 (ceiling price $16.50)	46
1 desk No. 411 (ceiling price $69.50)	121
Total weight of shipment	167
Total freight bill (including tax)	$14.72
Flat increase factor from appendix S (percent)	12.5
Total increase for this freight bill ($14.72×0.125)	$1.84
Total freight increase allocated to items by weight:	
To coffee table (46÷167=.28×$1.84)	.52
To desk (121÷167=.72×$1.84)	1.32
Adjusted ceiling price of coffee table No. 31: $16.50+$0.52	17.02
Adjusted ceiling price of desk No. 411: $69.50+$1.32	70.82

Example 3. Determine ceiling price adjustment for rail shipment of commodity subject to a rate increase maximum.

Assume a shipment of a carload of B and BTR Ponderosa Pine, S2S, 4 4–R/W–R/L–4" and wider from Vancouver, Washington to Chicago, Illinois; Retail ceiling price under SR 29, $429.00 per 1000 board feet.

Total weight of this 25,000 board feet shipment at 1,900 pounds per 1,000 board feet (pounds)	47,500
Total freight bill, including tax (rate $1.23 per 100 pounds, plus tax)	$601.78
Increase factor (from Appendix S), 13 percent or 12 cents per 100 pounds, whichever results in the lesser adjustment:	
(a) $601.78×0.13	78.23
(b) 475 one-hundred-pound units×$0.12	57.00
Total increase in freight	57.00
Increase in freight per 1,000 board feet ($57.00÷25) (per 1,000 board feet)	$2.28
Adjusted ceiling price of lumber in this shipment ($429.00+$2.28) (per 1,000 board feet)	431.28

Example 4. Suppose a wholesaler received by railway express a fill-in order of one electric fan No. 1018; ceiling price $30.50:

Weight of shipment (pounds)	52
Total express bill (including tax)	$5.26
Increase in freight (increase factor $0.36 per shipment under 100 pounds)	.36
Adjusted ceiling price of electric fan No. 1018 ($30.50+0.36)	30.86

SEC. 7. *Method C—Increases for Appendix O commodities determined by use of rate increase factors applied to current transportation costs.* This method permits you by applying appropriate factors to the current transportation bill to determine the increases which may be added to the ceiling price of each of the commodities in the shipment if one or more of the commodities in the shipment is a commodity covered by Appendix O. The commodities listed in Appendix O are those whose rail transportation rates for LCL shipments have increased more substantially by cancellation of certain exception ratings. Appendix O sets forth a list of those commodities, definitions of various kinds of shipments, and a table of applicable increase factors. It is accompanied by a map which permits selection of the applicable freight increase factor from Appendix O.

You must record the calculations made under this section and must keep them and the supporting data available for inspection by the OPS.

(a) *Determining increase for an "unmixed shipment" of Appendix O commodities.* An "unmixed shipment" is an LCL rail shipment composed wholly of commodities covered by Appendix O if all of the commodities are subject to the same factor. If the commodity was included in an "unmixed shipment," you determine the amount of the increase in freight pursuant to this paragraph as follows:

(1) Apply the appropriate factor found in Appendix O to the total LCL freight bill.

(2) Allocate the result among the commodities covered by the transportation bill in any reasonable manner (by weight, value, or number of units).

(3) An amount allocated under (2) to a commodity may be added to the ceiling price of the commodity.

Example 5. Example of unmixed shipment. Suppose a wholesaler in Dallas receives an LCL rail shipment of eight chairs No. 72 from Gardner, Massachusetts. Ceiling price of chairs (under SR 29) is $15.21. The chairs were set up, wooden, outdoor, with one coat of green paint and were shipped "loose." This description is exactly the same as that of item No. 42 in Appendix O, so an Appendix O factor may be used.

Since the shipment originates in Gardner (Zone 1) and terminates in Dallas (Zone 2), the factor must be selected from Column 4 of Appendix O, which is headed "Shipment between points in Zone 1 and points in Zone 2."

Increase factor (Column 4 factor for item No. 42 from Appendix O	0.52
Total freight bill (including tax)	$17.82
Total increase for this freight bill ($17.82×0.52)	9.26
Total freight increase allocated to items by number (to 8 chairs), chair No. 72 ($9.26÷8=$1.158)	1.16
Adjusted ceiling price of chair No. 72 ($15.21+$1.16)	16.37

(b) *Determining increases for "mixed" shipments containing Appendix O commodities.* A "mixed" shipment is an L. C. L. rail shipment composed both of commodities covered by Appendix O and of commodities not covered by Appendix O, or an L. C. L. shipment composed of commodities covered by Appendix O subject to more than one factor listed in Appendix O. If the commodity was included in a mixed shipment, you determine your increase under this paragraph as follows:

(1) Apportion the total amount of the current transportation bill among the commodities covered by it in any reasonable manner (by weight, by weight times rate, by value, or by number of units). Only one method of apportioning transportation costs may be applied to a single transportation bill under this section.

NOTE: the increase attributable to each commodity subject to a cancelled L. C. L. exception rating which substantially affects the amount of the increase can be most precisely ascertained by apportioning the bill among the commodities on the basis of the weight of each of the respective commodities multiplied by the appropriate freight rate for that commodity as shown on the freight bill.

(2) For the commodities in the shipment covered by Appendix O select from column 3 or 4 in Appendix O the appropriate increase factor for each commodity. Multiply the amount of the freight allocated to the commodity under subparagraph (1) of this paragraph by the appropriate factor. The result is the increase in freight which may be added to the ceiling price of the commodity.

Example 6—Example of mixed shipment. Suppose three articles are covered by a freight bill. Two of the articles, the desk No. 411 (ceiling price $69.50) and coffee table No. 31 (ceiling price $16.50), are not subject to cancelled L. C. L. exception ratings which affect their rates. The third article is affected by these higher rates: a group of 8 chairs No. 72 (wooden chairs, outdoor with one coat of green paint, SU, loose (item number 42 in Appendix O)), ceiling price, $15.21 each. Allocate the total freight bill to the articles by weight and rate *before* you find your increase. You will see below that allocation of freight bill by weight and rate shown on the bill permits a more accurate determination of the increase for the articles covered by Appendix O.

Two methods of allocating the total bill are shown:

(a) *Allocation of total bill by weight:*

Item	Weight	Allocated amounts
8 chairs No. 72 (0)	100	$12.85
1 coffee table No. 31	46	5.91
1 desk No. 411	121	15.54
Total freight bill (including tax)		34.30

Adjustment for coffee table and desk, the articles not covered by Appendix O (the adjustment factor 0.125 is from Appendix S):

Coffee table: $5.91 x 0.125=$0.74+$16.50=$17.24, adjusted ceiling price.

Desk: $15.54 x 0.125=$1.94+$69.50=$71.44, adjusted ceiling price.

Adjustment for the chairs No. 72, the articles covered by Appendix O, using 0.52, the factor shown in column 4 of Appendix O is $12.85 x 0.52=$6.68÷8=$0.84 per chair.

Adjusted ceiling price of each chair: $15.21+$0.84=$16.05.

(b) *Allocation by weight and rate shown on current bill:*

Item	Weight and rate	Tax	Allocated current freight
8 chairs No. 72 (0)	100 pounds at $18.49=$18.49	$0.55	$19.04
1 desk No. 411	121 pounds at $9.25=$11.19	.34	11.53
1 coffee table No. 31	46 pounds at $7.86=$3.62	.11	3.73
Total (including tax)			34.30

Adjustment for coffee table and desk, the articles not covered by Appendix O (the adjustment factor 0.125 is from Appendix S):

Coffee table No. 31: $3.73×0.125=$0.47+$6.50=$16.97 adjusted ceiling price.

Desk No. 411: $11.53×0.125=$1.44+$69.50=$70.94 adjusted ceiling price.

Adjustment for chairs No. 72, the articles covered by Appendix O, using the factor shown in Column 4 of Appendix O ($19.04×0.52=$9.90÷8=$1.24).

Adjusted ceiling price of chair, $15.21+$1.24=$16.45.

(3) If any of the commodities in the shipment were commodities not covered by Appendix O apply the appropriate factor from Appendix S to the amounts allocated to each of the commodities not covered by Appendix O. The result is the increase in freight for each of the commodities not covered by Appendix O which may be added to the ceiling price for the commodity. (See example 6.)

SEC. 8. *Method D—Freight to purchases ratio method.* This method permits you to determine for any segment of your business the percentage ratio of your total dollar merchandise transportation costs for that segment in a base year to your total dollar merchandise purchases for that segment in that period and to apply an appropriate percentage increase factor to that percentage ratio. The result is the percentage of the commodity's net invoice cost which may be added to the ceiling price to reflect increases in transportation costs. In order to use this method you must find the freight to purchases ratio for a defined segment of your business in a base year. The general method described in this section contemplates a single freight to purchases ratio for each segment of the business by including all base year shipments from all base year suppliers of merchandise (whether or not otherwise covered by this regulation) except commodities listed in paragraphs A2 and A3 of Appendix S. (However commodities covered by paragraphs A2 and A3 of Appendix S may be included if the total cost of all purchases of such commodities for that segment of the business constituted less than 10 percent of the total cost of purchases of all commodities by that segment.) An alternative method is provided in paragraph (d) of this section by which freight to purchases ratios for any segment of the business may be determined by certain groups of suppliers rather than by including all suppliers. (If the commodity is one covered by Appendix O, the railway transportation rates of which have been more substantially increased by the cancellation of L. C. L. exception ratings, a special adjustment involving the use of an appropriate multiplier is provided in paragraph (c) (2) of this section.)

You must record the calculations made under this section and must keep them and supporting data available for inspection by the OPS.

In general Method D may not be used in conjunction with any other method in this regulation; that is, if Method D is being used for a segment of your business, no increase for any commodity sold in that segment of your business may be determined by any other method in this regulation. The exception to this general rule is in the case of a segment of the business for which a freight to purchases ratio has been determined by excluding commodities covered by paragraphs A2 and A3 of Appendix S. In such case increases for the excluded commodities may be determined by Methods A or B.

Merchandise purchases and inbound merchandise transportation costs shall be determined according to any generally accepted accounting method, but only such transportation costs may be included as are included in the definition of that term in section 11.

The base year for the purposes of this section is the calendar year 1950 or your fiscal year ending closest to December 31, 1950.

(a) *Freight to purchases ratio including all base year shipments from all base year suppliers.* You may determine your freight to purchases ratio for any defined segment of your business based on purchases from all your base period suppliers as follows:

(1) Describe the segment of the business for which you are determining the freight to purchases ratio.

(2) Determine from your records the total inbound merchandise transportation costs in the base year for that segment of your business for all commodities except commodities covered by paragraphs A2 or A3 of Appendix S if those commodities constitute 10 percent or more of the total costs of purchases for that segment of your business.

(3) Determine from your records the total of your merchandise purchases in the base year for that segment of your business for all commodities except commodities covered by paragraphs A2 or A3 of Appendix S if those commodities constitute 10 percent or more of the total costs of purchases for that segment of your business.

(4) Determine the percentage ratio of freight to purchases for that segment by dividing the total transportation costs found under subparagraph (2) by the total costs of purchases as determined under subparagraph (3) of this paragraph.

(b) *Determination of percentage increases in freight to purchases ratios.* The percentages determined under this paragraph indicate the increases in the net invoice cost of a commodity attributable to increases to inbound transportation costs. Subparagraph (1) of this paragraph sets forth factors applicable to wholesalers and retailers generally; subparagraph (2) of this paragraph permits a wholesaler or retailer whose parcel post payments are 11 percent or more or 19 percent or more of total dollar inbound transportation costs respectively to reflect his higher rate increases. The percentage increase in freight to purchases ratio for any segment of your business is determined by multiplying the percentage determined under paragraph (a) (4) or (d) (3) of this section by the appropriate increase

factor from subparagraph (1) or subparagraph (2).

(1) *Wholesalers or retailers generally.* For any segment of your business, unless that segment qualifies for and elects to use a higher increase factor under subparagraph (2), your increase factor is:

(i) Wholesalers	15%
(ii) Retailers	16%

(2) *Segment of business of wholesaler or retailer parcel post payments which were 11 percent or more or 19 percent or more of total inbound transportation costs respectively in the base year.* Determine what percentage of the total dollar inbound transportation costs for the segment of the business in the base year was parcel post payments. To do this, you compute from your records the dollar amount of the parcel post charges paid by you for incoming shipments for any segment of your business and the dollar amount of the other transportation costs incurred in the base year for that segment except for commodities covered by paragraphs A2 and A3 of Appendix S if those commodities constitute 10 percent or more of the total costs of purchases for that segment. Divide the dollar amount of inbound parcel post charges by the total dollar amount of all inbound merchandise transportation costs (including the parcel post payments) except for commodities covered by paragraphs A2 and A3 of Appendix S if those commodities constitute 10 percent or more of the total costs of purchases for that segment. If you are a retailer and the parcel post payments for the segment of the business constituted 19 percent or more (or if you are a wholesaler and the parcel post payments for the segment of the business constituted 11 percent or more) of the total dollar transportation costs for the segment, you may use the appropriate freight to purchases ratio increase factor shown in the appropriate table below:

(i) *Wholesalers.*

If the base year percentage of inbound parcel post cost to total inbound transportation cost is:	Your ratio increase factor is:
11%–21%	16%
21%–30%	17%
30%–39%	18%
39%–49%	19%
49%–58%	20%
58%–67%	21%
67%–77%	22%
77%–86%	23%
86%–95%	24%
95%–100%	25%

(ii) Retailers.

If your percentage of inbound parcel post cost to total inbound transportation cost is:	Your ratio increase factor is:
19%–29%	17%
29%–38%	18%
38%–48%	19%
48%–57%	20%
57%–67%	21%
67%–76%	22%
76%–86%	23%
86%–95%	24%
95%–100%	25%

(c) *Determination of amounts of increases—(1) Commodities not covered by Appendix O.* You determine the amount of the transportation increase permitted to be added to your ceiling price of a commodity (other than one covered by Appendix O or other than commodities covered by paragraphs A2 or A3 of Appendix S excluded in determining freight to purchases ratio because they constituted 10 percent or more of the total cost of purchases) by multiplying the net invoice cost of the commodity by the appropriate increase in freight to purchases ratio as determined under paragraph (b) or (d) of this section. The result is the increase in transportation cost which may be added to the ceiling price.

Example 7. A wholesaler, located in Portland, Oregon, finds his freight to purchases ratio for calendar year ending December 31, 1950, determined as a "seller generally," to be 4%.

Freight-to-purchases increase factor for wholesalers	15%
Increase in freight-to-purchases ratio (0.04×0.15=0.006)	0.6%
Net cost of Sleep-Tite Sheets (per dozen)	$22.65
Ceiling price of sheets (per dozen)	$27.25
Increase in freight ($22.65×0.006 =$0.14)	$0.14
Adjusted ceiling price ($27.25+ $0.14)	$27.39

(2) *Commodities covered by Appendix O.* If the commodity is a commodity covered by Appendix O, you determine the amount of the transportation increase permitted to be added to your ceiling price of the commodity as follows:

(i) Multiply the net invoice cost of the commodity by an increase in freight to purchases ratio determined under paragraph (b) of this section by the use of the factor for wholesalers or retailers generally;

(ii) If you are a retailer select from column 5 or 6 in Appendix O the appropriate multiplier for the commodity, and multiply the amount found in subdivision (i) of this subparagraph by that multiplier.

(iii) If you are a wholesaler select from column 7 or 8 in Appendix O the appropriate multiplier, and multiply the amount in subdivision (i) by that multiplier.

(iv) The result found in subdivisions (ii) or (iii) is the total freight increase for the commodity covered by Appendix O and this amount may be added to the ceiling price for the commodity.

Example 8. A wholesaler located in Erie, Pa., received two cartons of chairs from a manufacturer in High Point, N. C. In one carton were chairs (No. 702), finished and not upholstered beyond the seat pad and inside of the back which were shipped set up (SU) and in package type "5F" (this number was found on both the freight bill and on the front panel of the carton). Chairs No. 42, in the second carton, were "in the white," were knocked down other than flat, and were shipped in package type "9F". These two items are determined to be covered by Appendix O by reference to column 2 of that Appendix. The net cost of chair No. 702 was $36.00; of chair No. 42 was $14.00.

The wholesaler's base period freight to purchases ratio percentage was 10 percent. Seller determined his percentage increase in freight to purchases ratio to be 0.10×0.15=1.5 percent. Following the two steps outlined above for determining the amount of the increase:

Step 1. Applying 1.5 percent to the current net cost of each:

Chair No. 702: $86.00×0.015	$0.54
Chair No. 42: $14.00×0.15	.21

Step 2. Column 8 in Appendix O indicates that for shipments between points in Zone 1 and Zone 2 the specific factor for chair No. 702 (item number 31 in Appendix Y), "chairs or stools, wooden or with wooden frames, finished, not upholstered beyond seat and inside of back, SU in package "5F" is 5.6; for chair No. 42 (item number 41 in Appendix O), chairs or stools, wooden or with wooden frame, in the white (that is, unfinished), KD other than flat in package "9F" is 2.0.

Final adjustment for chair No. 702 is ($0.54×5.6)	$3.02
Final adjustment for chair No. 42 is ($0.21×2.0)	.42

These amounts may be added to the respective ceiling prices of the commodities.

(d) *Freight to purchases ratios by groups of suppliers.* This alternative of Method D permits you for any segment of your business to group certain of your suppliers and to determine your increases in transportation costs on your purchases from them by use of separate freight to purchases ratio for each group.

(1) *Suppliers to be included within a group.* You may determine separate freight to purchases ratios for any segment of your business or for your entire establishment for each of the three groups of suppliers defined below if during the base year you had received at least 10 shipments from the group. You must include every shipment from every base year supplier. In order properly to group these base year suppliers, you must list their shipping points showing the distance from their shipping points to your place of business. The three groups of base year suppliers are:

(i) Nearby group, that is, all those whose shipping points are located less than 250 miles from your place of business;

(ii) The intermediate group, that is, all those whose shipping points are located 250 to 1,000 miles from your place of business;

(iii) The distant group, that is, all those whose shipping points are located 1,000 or more miles from your place of business.

(2) *Method of determining freight to purchases ratio for each group.* You compute the freight to purchases ratio for each group from which you had at least 10 shipments as follows:

(i) Describe the segment of the business for which you are determining the freight to purchases ratios.

(ii) Determine from your records the total inbound merchandise transportation costs on shipments from suppliers in the group to that segment of your business in the base year.

(iii) Determine from your records the total of the merchandise purchases for that segment of your business from each group of suppliers in the base year.

(iv) Divide the transportation cost total found under subdivision (ii) by the total of purchases found under subdivision (iii) of this subparagraph. The result is your freight to purchases ratio for the group.

(3) *Use of group factors.* The percentage determined for a group under subparagraph (2) of this paragraph may be used only in determining increases in transportation costs on shipments from base period suppliers in the group. For determining increases in transportation costs on shipments from suppliers not included in a group or from suppliers for which you are unable to determine a group ratio because you had fewer than 10 shipments from suppliers in the group, you must determine a freight to purchases ratio under paragraph (a)[2] of this section and use that to determine the increase in transportation costs from such suppliers.

(4) *Percentage increases.* The percentage increase in the freight to purchases ratio for a group is then determined under paragraph (b).

(5) *Amount of increase.* The amount of increase is determined under paragraph (c).

SEC. 9. *Chains and mail order establishments requiring modification of provisions.* The OPS may, by order, modify any provision contained in this supplementary regulation for any group of retail or wholesale outlets under common ownership or control or for any mail order establishment whose methods of operation are not adaptable to the requirements of this regulation. Application under this section must be filed with the OPS, Washington 25, D. C., and must specify in detail a plan of operation under the regulation which will not raise the level of prices, the modification of the provisions of this regulation necessary to permit applicant to operate under its plan, and must set forth why your methods of operation are not adaptable to the requirements of the regulation.

SEC. 10. *Records.* The records required by this section, insofar as they relate to any matter which occurred in any base period specified in this supplementary regulation and the records required by section 4 and section 8 must be kept for as long as the Defense Production Act of 1950, as amended, remains in effect and for two years thereafter. All other records required by this section must be kept for a period of two years. A seller electing to determine ceiling prices under any provision of this supplementary regulation must:

(a) Preserve for inspection by the OPS all freight bills, receipts, or other documents showing freight or transportation charges, used in establishing adjustments under this regulation.

(b) Attach the freight bill or other document to the invoice covering the articles, or put a reference number or other identification of the freight bills or other documents on the invoice and keep the freight bills or other documents in any accepted manner, so long as ready reference to the original can be had.

(c) In addition to the reference, if any, required by paragraph (b) of this section, you must note on the invoice the section of this regulation used to determine the freight increase adjustment and which item number of Appendix O, if any, was used in making the adjustment.

(d) Keep a record indicating the basis you used for apportioning freight as between articles of different kinds or groups of articles of the same kind on a given invoice. Only one method of apportionment may be applied to a single freight bill or for a single invoice.

(e) Preserve for inspection by the OPS the records required by sections 4, 5, 6, 7, and 8; and make a record of the fiscal year, if any, used under section 8.

SEC. 11. *Definitions*—(a) *"Transportation costs."* The term "transportation costs" means actual transportation charges (excluding transportation in your own trucks or other means of transport) paid to independent transportation companies either by you or on your behalf for bringing the commodities you are pricing from your supplier's place of business to your place of business. Included are such items as payments to railroads, steamships, or trucking companies, and parcel post payments. Excluded are separately stated charges for transportation made by your supplier if the amount stated is not the actual transportation charge or if he makes the deliveries in his own trucks; transportation expenses incurred by you if you employ your own trucks to pick up your merchandise from your supplier; separately stated warehouse charges, cartage, handling, unloading, sorting, checking and other similar charges or expenses.

(b) *Current transportation bill.* A current transportation bill is any bill or other document received after September 26, 1952, which represents transportation costs paid by you or on your behalf.

(c) *Segment of your business.* The phrase "segment of your business" means any defined part of your business, such as a department in a physically departmentalized establishment, or a separate outlet; or a separate warehouse and shipping establishment; or a department in your accounting records, or all of the smaller parts of your business considered together; or any group or zone of outlets or parts of outlets considered together.

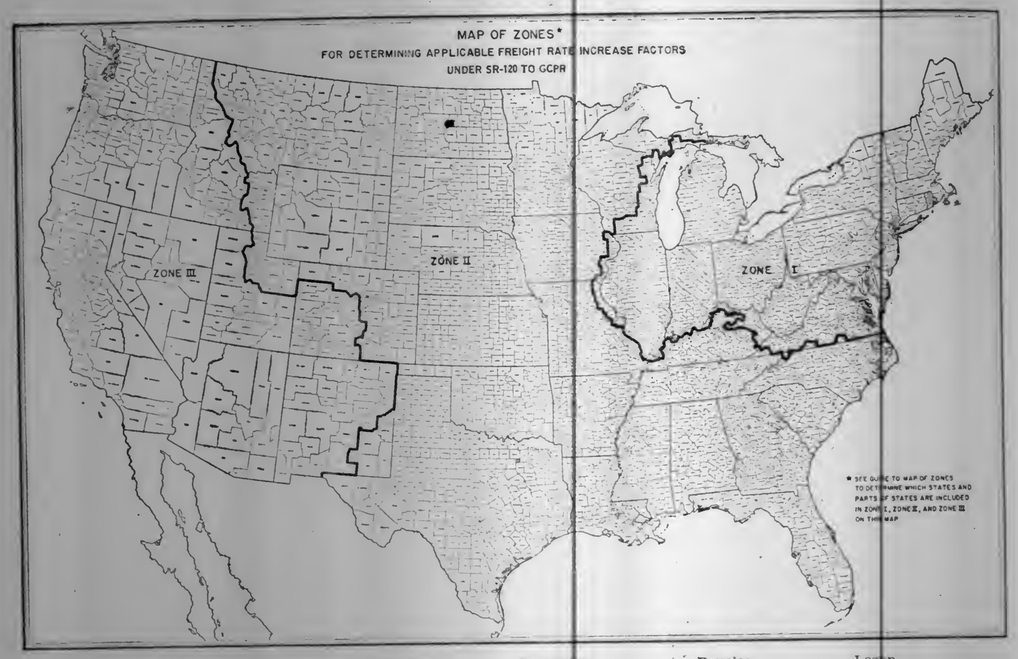
Effective date. This regulation shall become effective on the 1st day of October 1952.

NOTE: The record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

SEPTEMBER 26, 1952.

[2] In computing a freight to purchases ratio under paragraph (a) you must not exclude any base period supplier even though you have included him in determining a group freight to purchases ratio.



APPENDIX S

TABLE OF FREIGHT RATE INCREASE FACTORS

A. *Rail, Motor and Water common carrier shipments:*		
1. All such shipments, except rail shipments of commodities covered by items 2 and 3 below, 12.5 percent.		
2. Rail shipments of the following commodities, 13 percent, but in no case to exceed the maximum increase noted beside each commodity:		
	Commodity	*Maximum increases*[1]
	a. Lumber and articles listed in tariffs[2] as taking lumber rates.	12 cents per 100 pounds.
	b. Building woodwork and millwork as described in item 55 of tariff X–175–A, as amended, except where listed in tariffs[2] as taking lumber rates.	14 cents per 100 pounds.
	c. Phosphate rock, not further processed than ground including phosphatic clay.	60 cents per ton.
	d. Salt (sodium chloride)	60 cents per ton.
	e. Muriate of potash	$1.00 per ton.
	f. Manure salts	$1.00 per ton.
	g. Sulphate of potash	$1.00 per ton.
	h. Sulphate of potash magnesia	$1.00 per ton.
	i. Copper, lead and zinc articles as described in groups 559 and 563 of Freight Commodity Statistics, Steam Roads.	12 cents per 100 pounds.
3. Rail shipments of sand; gravel; stone, broken, crushed or ground; slag, other than expanded or ground open-hearth basic slag; shells, oyster, clam, or mussel, whole, crushed or ground, or screenings; all in open-top cars, not protected by tarpaulin or other protective coverings.		12 percent.
B. *Railway express shipments:*		
1. Shipments weighing less than 100 pounds		36 cents per shipment.
2. Shipments weighing 100 pounds or over		33 cents per 100 pounds.
C. *Parcel post shipments* (all shipments)		20 percent.

[1] Maximum increases and commodity classifications are derived from Interstate Commerce Commission, Docket Ex Parte No. 175, Increased Freight Rates, 1951, Report and Order, April 11, 1952.

[2] "Tariffs" mean tariffs lawfully on file with the Interstate Commerce Commission and in effect at the time of shipment.

GUIDE TO MAP OF ZONES

GUIDE FOR DETERMINING WHICH STATES AND PARTS OF STATES ARE INCLUDED IN ZONE I, ZONE II, AND ZONE III ON THE MAP OF ZONES

Zone I

Zone I is comprised of the following States and parts of States:

Connecticut.
Delaware.
District of Columbia.
Illinois.
Indiana.
Iowa: Only the following counties:

Clinton.	Lee.
Des Moines.	Louisa.
Dubuque.	Muscatine.
Jackson.	Scott.

Kentucky: Only the following counties:

Ballard.	Lawrence.
Bath.	Letcher.
Boone.	Lewis.
Boyd.	Livingston.
Bracken.	McCracken.
Campbell.	Magoffin.
Carter.	Martin.
Clark.	Mason.
Elliott.	Menifee.
Fayette.	Montgomery.
Floyd.	Morgan.
Greenup.	Oldham.
Henderson.	Pendleton.
Jefferson.	Pike.
Johnson.	Rowan.
Kenton.	Trimble.
Knott.	

Maine.
Maryland.
Massachusetts.
Michigan: Except the following counties:

Alger.	Dickinson.
Baraga.	Gogebic.
Chippewa.	Houghton.
Delta.	Iron.
Keweenaw.	Marquette.
Luce.	Ontonagon.

Missouri: Only the following counties:

Clark.	Pike.
Lewis.	Ralls.
Lincoln.	St. Charles.
Marion.	St. Louis.

New Hampshire.
New Jersey.
New York.
North Carolina: Only the following county: Ashe.
Ohio.
Pennsylvania.
Rhode Island.
Vermont.
Virginia: Except the following counties: Henry, Lee, Mecklenburg, Patrick, Scott.
West Virginia.
Wisconsin: Only the following counties:

Brown.	Marinette.
Calumet.	Milwaukee.
Dane.	Oconto.
Dodge.	Outagamie.
Door.	Ozaukee.
Fond du Lac.	Racine.
Green.	Rock.
Iowa.	Sheboygan.
Jefferson.	Walworth.
Kenosha.	Washington.
Kewaunee.	Waukesha.
Lafayette.	Winnebago.
Manitowoc.	

Zone II

Zone II is comprised of the following States and parts of States:

Alabama.
Arkansas.
Colorado: Only the following counties:

Adams.	Boulder.
Arapahoe.	Cheyenne.
Baca.	Crowley.
Bent.	Denver.
Douglas.	Logan.
Elbert.	Moffat.
El Paso.	Morgan.
Gilpin.	Otero.
Grand.	Phillips.
Huerfano.	Prowers.
Jackson.	Pueblo.
Jefferson.	Routt.
Kiowa.	Sedgwick.
Kit Carson.	Teller.
Larimer.	Washington.
Las Animas.	Weld.
Lincoln.	Yuma.

Florida.
Georgia.
Idaho: Only the following counties:

Bannock.	Franklin.
Bear Lake.	Fremont.
Bingham.	Jefferson.
Bonneville.	Madison.
Caribou.	Teton.
Clark.	

Iowa: Except the following counties:

Clinton.	Lee.
Des Moines.	Louisa.
Dubuque.	Muscatine.
Jackson.	Scott.

Kansas.
Kentucky: Except the following counties:

Ballard.	Johnson.
Bath.	Kenton.
Boone.	Knott.
Boyd.	Lawrence.
Bracken.	Letcher.
Campbell.	Lewis.
Carter.	Livingston.
Clark.	McCracken.
Elliott.	Magoffin.
Fayette.	Martin.
Floyd.	Mason.
Greenup.	Menifee.
Henderson.	Montgomery.
Jefferson.	Morgan.
Oldham.	Rowan.
Pendleton.	Trimble.
Pike.	

Louisiana.
Michigan: Only the following counties:

Alger.	Houghton.
Baraga.	Iron.
Chippewa.	Keweenaw.
Delta.	Luce.
Dickinson.	Marquette.
Gogebic.	Ontonagon.

Minnesota.
Mississippi.
Missouri: Except the following counties:

Clark.	Pike.
Lewis.	Ralls.
Lincoln.	St. Charles.
Marion.	St. Louis.

Montana.
Nebraska.
New Mexico: Only the following counties: Chaves, Curry, Eddy, Lea, Roosevelt.
North Carolina: Except the following county: Ashe.
North Dakota.
Oklahoma.
South Carolina.
South Dakota.
Tennessee.
Texas.
Utah: Only the following counties:

Cache.	Salt Lake.
Carbon.	Summit.
Daggett.	Uintah.
Davis.	Utah.
Duchesne.	Wasatch.
Morgan.	Weber.
Rich.	

Virginia: Only the following counties: Henry, Lee, Mecklenburg, Patrick, Scott.
Wisconsin: Except the following counties:

Brown.	Marinette.
Calumet.	Milwaukee.
Dane.	Oconto.
Dodge.	Outagamie.
Door.	Ozaukee.
Fond du Lac.	Racine.
Green.	Rock.
Iowa.	Sheboygan.
Jefferson.	Walworth.
Kenosha.	Washington.
Kewaunee.	Waukesha.
Lafayette.	Winnebago.
Manitowoc.	

Wyoming.

Zone III

Zone III is comprised of the following States and parts of States:

Arizona.
California.
Colorado: Except the following counties:

Adams.	Kit Carson.
Arapahoe.	Larimer.
Baca.	Las Animas.
Bent.	Lincoln.
Boulder.	Logan.
Cheyenne.	Moffat.
Crowley.	Morgan.
Denver.	Otero.
Douglas.	Phillips.
Elbert.	Prowers.
El Paso.	Pueblo.
Gilpin.	Routt.
Grand	Sedgwick.
Huerfano.	Teller.
Jackson.	Washington.
Jefferson.	Weld.
Kiowa.	Yuma.

Idaho: Except the following counties:

Bannock.	Franklin.
Bear Lake.	Fremont.
Bingham.	Jefferson.
Bonneville.	Madison.
Caribou.	Teton.
Clark.	

New Mexico: Except the following counties: Chaves, Curry, Eddy, Lea, Roosevelt.
Nevada.
Oregon.
Utah: Except the following counties:

Cache.	Salt Lake.
Carbon.	Summit.
Daggett.	Uintah.
Davis.	Utah.
Duchesne.	Wasatch.
Morgan.	Weber.
Rich.	

Washington.

APPENDIX O—FREIGHT RATE INCREASE FACTORS FOR CERTAIN RAIL SHIPMENTS OF SPECIFIED ARTICLES

NOTES

1. SU ("set up") means that the portion of the article described as SU is all assembled and ready for use except for accessories, for example, knobs, castors, etc.
2. KD ("knocked down") means that the portion of the article described as KD has been disassembled and the component parts have been shipped; items described as "flat," "collapsed," "knock-down-flat," "fully collapsed," "folded," or "compressed," are not equivalent to KD.
3. An item which is described on the invoice or freight bill as "flat," "collapsed," "knocked-down-flat," "fully collapsed," "folded," "compressed," or other similar description is not covered by the term KD, in appendix O, unless Column 2 mentions "flat" or "collapsed," or some similar description in addition to KD.
4. "Loose" indicates that the articles are not packaged; "in bundles" indicates that the articles are not packaged, but are tied together in groups.
5. The terms, "SU," "KD," "Loose," "In Bundles," etc., are generally shown on the freight bill.
6. Package numbers referred to in Column 2 (for example, 1F, 2F, 3F, etc.) are usually shown on the front panel of packages; they are also generally shown on freight bill and on shipping orders.
7. NOIBN means "not otherwise indexed by name": when used in this appendix, it means that the factors apply to the article if no other item number in the appendix more precisely describes the article.

		Factors used by wholesalers and retailers pricing under Method C		Factors used by retailers pricing under Method D		Factors used by wholesalers pricing under Method D	
Item No.	Article	Shipments originating and terminating in Zone I	Shipments between points in Zone I and points in Zone 2	Shipments originating and terminating in Zone I	Shipments between points in Zone I and points in Zone 2	Shipments originating and terminating in Zone I	Shipments between points in Zone I and points in Zone 2
(Col. 1)	(Col. 2)	(Col. 3)	(Col. 4)	(Col. 5)	(Col. 6)	(Col. 7)	(Col. 8)
	Furniture, bamboo, cane, fibre, grass, rattan, reed or willow, with or without steel or wood reinforcement						
1	SU, chairs or settees in packages 4F, 23F, or 27F, also chairs in package 8F	0.55	0.52	7.6	6.7	8.1	7.2
2	SU, in packages 1F, 2F, 3F, 5F, 21F or 28F	.49	.46	5.9	5.3	6.3	5.6
3	KD, in packages 1F, 2F, 3F, 5F or 10F	.29	.27	2.6	2.3	2.7	2.4
	Bassinettes or baskenettes, bamboo, cane, fibre, grass, rattan, reed or willow:						
4	SU or with legs folded, in packages 1F, 2F, 3F, 5F, 10F, 21F, 23F or 28F	.55	.52	7.6	6.7	8.1	7.2
	Boxes, cabinets, chests, closets or wardrobes, garment or household utility storage, fibreboard and fibreboard and wood combined:						
5	SU, in package 1F	.55	.52	7.6	6.7	8.1	7.2
6	Flat, folded flat or KD, including tops, bottoms or doors thereof, in package 9F	.25	.23	2.1	1.8	2.2	2.0
7	Mattresses, or upholstered box springs, in bales, wrapped in paper and burlap; mattresses in packages 5F, 10F, 11F or 12F; upholstered box springs in packages 5F, 10F or 12F	.41	.38	4.3	3.8	4.5	4.0
	NOTE: Crib mattresses may also be in package 36F. Ratings also apply on headboards, legs and brackets when such articles are completely wrapped, and inserted between mattress and upholstered box spring in package 10F.						
	Baby jumpers, tenders or walkers, without wheels, metallic or wooden:						
8	SU, in packages 1F, 3F, 5F or 28F	.49	.46	5.9	5.3	6.3	5.9
9	KD flat or folded flat, in packages 1F, 3F, 5F, or 25F	.25	.23	2.1	1.8	2.2	2.0

Item No.	Article	Factors used by wholesalers and retailers pricing under Method C: Shipments originating and terminating in Zone 1	Factors used by wholesalers and retailers pricing under Method C: Shipments between points in Zone 1 and points in Zone 2	Factors used by retailers pricing under Method D: Shipments originating and terminating in Zone 1	Factors used by retailers pricing under Method D: Shipments between points in Zone 1 and points in Zone 2	Factors used by wholesalers pricing under Method D: Shipments originating and terminating in Zone 1	Factors used by wholesalers pricing under Method D: Shipments between points in Zone 1 and points in Zone 2
(Col. 1)	(Col. 2)	(Col. 3)	(Col. 4)	(Col. 5)	(Col. 6)	(Col. 7)	(Col. 8)
	Cabinets, radio receiving set, (taking machine or dictation machine, or combination thereof), console type, in packages 1F, 2F, 3F, 5F, 22F or 24F	0.29	0.27	2.6	2.2	2.7	2.4
29	NOTE: Not eligible; box type sets, SU or KD.						
	Cabinets, wardrobe, storage, or kitchen, NOIBN:						
	Steel with glass:						
30	SU, in packages 1F, 3F, 5F, 28F, 30F or 34F	.29	.27	2.6	2.2	2.7	2.4
31	KD, in packages 1F, 3F, 5F, 28F or 30F	.25	.23	2.1	1.8	2.2	2.0
	NOTE: Not eligible if wooden, steel without glass, etc.						
	Chairs or stools, NOIBN:						
	Steel or wire, or with steel or wire seats:						
32	SU, in package 31F	.40	.46	5.9	5.3	6.3	5.6
33	SU, in packages 1F, 3F, 5F, 28F or 30F	.41	.38	4.3	3.8	4.5	4.0
	KD, in packages 1F, 3F, 5F, 28F or 30F	.29	.27	2.6	2.2	2.7	2.4
34	NOTE: Not eligible if wooden, stool without glass, etc.						
	Chairs or stools, NOIBN:						
	Steel or wire, or with steel or wire seats:						
35	SU, in package 31F	.40	.46	5.9	5.3	6.3	5.6
	SU, in packages 1F, 3F, 5F, 28F or 30F	.25	.23	2.1	1.8	2.2	2.0
	KD, other than backs removed and seats separated and removed from frames or backs and seats removed from frames, interlaced in packages 1F, 3F, 5F, 28F, 30F or 34F	.25	.23	2.1	1.8	2.2	2.0
	NOTE: Not eligible if SU, in packages 1F, 3F, 5F or 28F.						
	Wooden, or with wooden frames:						
	Finished, not upholstered beyond seat and inside of back:						
36	SU, in package 9F	.55	.52	7.6	6.7	8.1	7.2
37	SU, in packages 1F, 2F, 3F, 5F or 28F	.40	.46	5.9	5.3	6.3	5.6
38	KD, other than flat, in package 8F	.39	.36	4.1	3.6	4.3	3.8
39	KD, flat, in packages 1F, 2F, 3F, 5F or 28F	.25	.23	2.1	1.8	2.2	2.0
	NOTE: Not eligible if KD, flat, in package 9F.						
	Finished, NOIBN; not overstuffed, upholstered beyond seat or inside of back:						
	Having legs with stretchers or platform bases or having each pair of legs made of 1 piece of bent plywood:						
40	In packages 7F or 27F	.55	.52	7.6	6.7	8.1	7.2
41	In packages 1F, 3F, 5F or 28F	.40	.46	5.9	5.3	6.3	5.6
42	Having legs without stretchers:						
43	In packages 7F, 8F, 27F or 28F	.55	.52	7.6	6.7	8.1	7.2
44	In packages 1F, 3F, 5F or 28F	.40	.46	5.9	5.3	6.3	5.6
45	Finished, overstuffed, in packages 1F, 2F, 3F, 4F, 5F, 21F or 28F	.40	.46	5.9	5.3	6.3	5.6
46	In the white (unfinished):						
	SU, in packages 1F, 2F, 3F, 5F, 8F or 28F	.41	.38	4.3	3.8	4.5	4.0
47	KD, other than flat, in package 9F	.25	.23	2.1	1.8	2.2	2.0
	NOTE: Not eligible if KD, flat, in bundles.

	NOTE: Not eligible if KD flat or folded flat in package 9F.						
	Racks, hall (hall trees):						
88	SU, in packages 1F, 3F, 5F or 28F	.41	.38	4.3	3.8	4.5	4.0
89	KD, in packages 1F, 3F or 5F	.25	.23	2.1	1.8	2.2	2.0
	Serving trays, wheeled, or serving wagons, with or without cooling or heating devices:						
90	SU, in packages 1F, 3F, 5F or 28F	.29	.27	2.6	2.3	2.7	2.4
91	KD, flat or folded, in packages 1F, 3F or 5F	.25	.23	2.1	1.8	2.2	2.0
	Settees (seats with backs and legs, with or without arms, not upholstered, designed to accommodate two or more persons):						
	Iron, or iron with wooden slats:						
92	SU, in package 9F	.41	.38	4.3	3.8	4.5	4.0
	NOTE: Not eligible if KD in package 9F.						
	Wooden other than rustic:						
93	SU, in package 8F	.55	.52	7.6	6.7	8.1	7.2
94	SU, in packages 1F, 2F, 3F, 5F, 23F or 28F	.49	.46	5.9	5.3	6.3	5.6
95	Folded, in packages 1F, 2F, 3F, 5F or 8F	.25	.23	2.1	1.8	2.2	2.0
	NOTE: Not eligible if KD, in packages 1F, 3F, 5F or 8F.						
	Stands:						
96	Baggage, SU, in package 18F	.49	.46	5.9	5.3	6.3	5.6
97	SU, in packages 1F, 3F, 5F or 28F	.41	.38	4.3	3.8	4.5	4.0
	Chiropractic or osteopathic:						
98	SU, in packages 1F, 3F, 5F or 28F	.55	.52	7.6	6.7	8.1	7.2
99	KD or folded, in packages 1F, 3F or 5F	.25	.23	2.1	1.8	2.2	2.0
100	Control or douche, hydro-therapeutic, KD, in packages 1F, 3F or 5F	.25	.23	2.1	1.8	2.2	2.0
101	Domestic science or school laboratory (domestic science or school laboratory desks), or parts, with or without fume hoods, KD in package 19F	.25	.23	2.1	1.8	2.2	2.0
	Surgeons' autopsy or operating:						
102	SU, in packages 1F, 3F, 5F or 28F	.41	.38	4.3	3.8	4.5	4.0
103	Folded flat, in packages 1F, 3F or 5F	.25	.23	2.1	1.8	2.2	2.0
	Veterinary surgeons' operating:						
104	SU, in packages 1F, 3F, 5F or 28F	.41	.38	4.3	3.8	4.5	4.0
105	KD, in packages 1F, 3F or 5F	.25	.23	2.1	1.8	2.2	2.0
	Swings with platforms or suspending frames:						
106	SU, in packages 1F, 2F, 3F, 5F or 28F	.55	.52	7.6	6.7	8.1	7.2
	NOTE: Not eligible if seats, SU, suspending frames collapsed, in packages 1F, 3F, 5F or 28F, or if folded, KD flat or nested or entirely taken apart in package 9F.						
	Swings, NOIBN:						
107	SU, in packages 1F, 3F, 5F or 28F	.55	.52	7.6	6.7	8.1	7.2
108	KD, flat or folded flat, in packages 1F, 3F or 5F	.25	.23	2.1	1.8	2.2	2.0
	Tables, steel:						
109	SU, in package 9F	.29	.27	2.6	2.3	2.7	2.4
	NOTE: Not eligible if SU, in boxes or crates or if KD or folded flat. Not eligible if steel and wood combined or if wooden.						
	Tables without tops:						
110	SU, in packages 1F, 2F, 3F, 5F or 28F	.55	.52	7.6	6.7	8.1	7.2
111	Store or office fixtures:						
	Bins or shelving, steel or steel and wood combined, NOIBN:						
	SU, in boxes or crates or in package 98S	.25	.23	2.1	1.8	2.2	2.0
112	Counters, NOIBN, with or without glazed bins or drawers:						
	Steel or with steel frames:						
	SU, in boxes or crates	.25	.23	2.1	1.8	2.2	2.0
113	Show or display cases, counter or floor, NOIBN, or clothing cabinets, finished:						
	SU, in boxes or crates	.29	.27	2.6	2.3	2.7	2.4
114	KD, in flat sections, in boxes or crates	.25	.23	2.1	1.8	2.2	2.0
	Show case frames (show cases without glass) finished:						
115	SU, in boxes or crates	.55	.52	7.6	6.7	8.1	7.2
116	KD, in flat sections, in boxes or crates	.25	.23	2.1	1.8	2.2	2.0

[F. R. Doc. 52-10590; Filed, Sept. 26, 1952; 12:02 p. m.]

[General Overriding Regulation 27, Amdt. 2]

GOR 27—APPROVAL OF PRICES IN LONG TERM CONTRACTS FOR SALES OF CERTAIN COMMODITIES

SELLERS OF CALCINED GYPSUM PLASTER

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 2 to General Overriding Regulation 27 is hereby issued.

STATEMENT OF CONSIDERATIONS

General Overriding Regulation 27 (GOR 27) was issued on April 2, 1952, as a regulation governing sales of certain chemicals when sold under certain long-term contracts. On July 25, 1952, GOR 27 was amended to make it applicable to certain other chemicals sold under similar long-term contracts.

It has been found that the problem dealt with in GOR 27 is present in commodities other than chemicals and that the authorization to price under long-term contracts for such commodities under the conditions set forth in GOR 27 may be appropriate. Accordingly, GOR 27 is no longer applicable solely to chemicals but also to such other commodities under long-term contracts as the Director of Price Stabilization may find its provisions appropriate.

Under GOR 27 a seller is permitted to sell the commodities specified therein in accordance with a long-term contract made prior to price control upon his filing of an application requesting permission to put into effect the pricing provision of the contract in lieu of his present ceiling prices. The statement of considerations accompanying the issuance of GOR 27 pointed out that the regulation is limited solely to situations where sellers entered into long-term contracts covering the specific commodity described in the regulation in good faith prior to price control and then found themselves unable, because of price control, to put into effect certain pricing provision of the contract.

The Director of Price Stabilization has found a similar situation affecting sales of calcined gypsum plaster to manufacturers of gypsum products. This amendment therefore extends the scope of GOR 27 to include calcined gypsum plaster when sold under long-term contract to a manufacturer of gypsum products. The statement of considerations in GOR 27 applies equally to the commodity covered by this amendment and therefore is incorporated herein.

In the formulation of this amendment, there was consultation with industry representatives to the extent practicable, and consideration was given to their recommendations.

AMENDATORY PROVISIONS

General Overriding Regulation 27, as amended, is further amended in the following respects:

1. The title is amended to read as set forth above.

2. Section 1 is amended by substituting the word "commodity" for the word "chemical" wherever the latter word appears in that section so that section 1 will read as follows:

SECTION 1. *What this regulation does.* This regulation permits a seller who entered into a long-term written contract prior to January 26, 1951, for the sale of a commodity, listed in section 2 of this regulation, to apply for permission to put into effect the pricing provisions of that contract in the place of his present ceiling prices notwithstanding the provisions of any other regulation. A long-term contract is one obligating the seller to make deliveries of the commodity for a period of more than one year.

3. Section 2 is amended by substituting a comma for the period at the end of section 2, and adding the following:

(g) Calcined gypsum plaster sold to a manufacturer of gypsum products.

4. Section 3 is amended by substituting the word "commodity" for the word "chemical" or "chemicals" wherever the latter words appear in the section, and by eliminating the words "Rubber, Chemicals and Drugs Division." Section 3 as so amended reads as follows:

SEC. 3. *Application*—(a) *Seller's application.* Your application as a seller of a commodity listed in section 2 for permission to put into effect the pricing provisions of your long term contract in place of your existing ceiling prices must be filed with the Office of Price Stabilization, Washington 25, D. C. The application must contain the following information:

(1) Your name and address.

(2) Your buyer's name and address.

(3) A statement that you are applying under this regulation.

(4) Name and description of the commodity involved.

(5) A showing that your contract was entered into prior to January 26, 1951.

(6) A showing that you are obligated to make deliveries of the commodities for a period of more than one year.

(7) The prevailing ceiling prices for the commodity involved, and names and addresses of commodity manufacturers whose ceiling prices are cited.

In addition to the foregoing, your application must be accompanied by a copy of your contract.

(b) *Buyer's statement.* Upon receipt of your application, the Office of Price Stabilization will request of the buyer a statement containing the following information:

(1) His name and address.

(2) The type of business in which he is engaged and the use to which he puts the commodity involved.

(3) That he agrees to the prices provided by the terms of the contract.

(4) That any change in costs to him as a result of the approval of the provisions of such contract will not be used as a basis for requesting or obtaining any increase in the ceiling prices of commodities sold by him or ceiling prices for such commodities which are higher than would otherwise be allowable.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective October 1, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

SEPTEMBER 26, 1952.

[F. R. Doc. 52-10591; Filed, Sept. 26, 1952; 12:03 p. m.]

[Ceiling Price Regulation 172]

CPR 172—DISTILLERS' DRIED PRODUCTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization General Order No. 2, this Ceiling Price Regulation 172 is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation establishes ceiling prices for processors, jobbers, wholesalers and retailers of distillers' dried products.

Distillers' dried products are by-product feeds of the distilled liquor and alcohol industries. The dried products include distillers' dried grains (commonly referred to as light grains), distillers' dried grains with solubles (commonly referred to as dark grains), and distillers' solubles. These by-product feeds are a significant part of the country's feed ingredient supply. During the 1950–51 season, for example, the production of dried products amounted to 634,000 tons.

Distillers' dried products are high in protein and fat content. They provide nearly as much bulk as wheat bran and they contain substantially the same amount of total digestible nutrients as corn. Because of their feeding characteristics, the dried products are extensively used as feed ingredients in dairy and other cattle rations.

Prices for distillers' dried products were frozen at depressed levels under the General Ceiling Price Regulation (the GCPR) and then under Supplementary Regulation (SR) 18 to the GCPR, as a consequence of abnormally heavy production and abnormally large supplies of these products during the base period common to both regulations (December 19, 1950 to January 25, 1951). Subsequent adjustments in the ceiling prices of competing by-product feeds, and the increase in the prices of competing feed grains increased the distortion in normal price relationships. In order that more nearly normal price relationships might obtain until such time as a tailored regulation was put into effect for distillers' dried products, this Office, on February 23, 1952, issued SR 90 to the GCPR. SR 90 permitted processors to sell their distillers' dried products at amounts up to $10.00 per ton above their SR 18 ceiling prices, provided that they agreed in writing to make refunds if the ceiling prices subsequently established by the tailored regulation were lower than their selling prices.

This regulation does three things. First, it establishes dollars-and-cents ceiling prices which are based on normal price relationships, and thereby eliminates price distortions existing under SR 18. Second, it sets ceiling prices at all levels of distribution in order to facilitate orderly marketing of the dried products. Third, it tailors pricing and other provisions to the practices of the industry.

Processors' ceiling prices for deliveries of products of standard protein content at any point within an area are the basing point prices for that area plus the lowest proportional grain products rate (or if no such proportional rate, the lowest applicable rate) from the area basing point to the point of delivery. The area basing point prices are as follows:

Products	Area A—Basing point prices, Peoria, Ill.	Area B—Basing point prices, Louisville, Ky.	Area C—Basing point prices, Kansas City, Mo., and Omaha, Nebr.
Light grains—21 percent protein content	$65.00	$69.50	$63.25
Dark grains—21 percent protein content	67.00	71.50	65.25
Solubles—30 percent protein content	84.00	88.50	82.25

Area A includes roughly the northern states located east of the Mississippi River and parts of Virginia and West Virginia. Area B includes all the southern states located east of the Mississippi River. Area C includes the rest of the country.

The basing points used and pricing by reference to these points follow customary industry practices.

The ceiling prices were arrived at by applying historical price relationships to the ceiling prices for corn gluten feed, a closely competitive by-product feed of similar feeding characteristics. The basing point prices established also reflect customary price differentials between these points.

Provision is made for processors' l. c. l. differentials and for the pricing of products of less than standard protein content.

Jobbers calculate their ceiling prices at any point by applying fixed dollars-and-cents markups to processors' ceiling prices at the same point. Wholesalers and retailers calculate their ceiling prices by applying fixed dollars-and-cents markups to their suppliers' delivered ceiling prices.

Dollars-and-cents allowances for sacks and sacking are also provided.

It is estimated that the ceiling prices established under this regulation are slightly higher than currently prevailing prices.

FINDINGS OF THE DIRECTOR

In the judgment of the Director of Price Stabilization, the ceiling prices established by this regulation are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as

amended, and comply with all of the applicable provisions of that act.

In the formulation of this regulation there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

Every effort has been made to conform this regulation to existing industry practices. Insofar as any provisions of this regulation may operate to compel changes in those practices, such provisions are found by the Director of Price Stabilization to be necessary to prevent circumvention or evasion of this regulation.

REGULATORY PROVISIONS

Sec.
1. What this regulation does.
2. Processors' ceiling prices, per ton, bulk.
3. Jobbers' ceiling prices.
4. Wholesalers' and retailers' ceiling prices.
5. Sacking allowances.
6. Petitions for amendment.
7. Adjustable pricing.
8. Excise taxes.
9. Transfer of business.
10. Records.
11. Interpretations.
12. Compliance and enforcement.
13. Definitions.

AUTHORITY: Sections 1 to 13 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110; E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this regulation does*—(a) *Coverage.* This regulation establishes ceiling prices for sales by processors, jobbers, wholesalers and retailers of distillers' dried products. For the products and sellers covered, this regulation supersedes the General Ceiling Price Regulation (the GCPR), Supplementary Regulation (SR) 18, Rev. 1 to the GCPR, and SR 90 to the GCPR.

(b) *Geographical applicability.* This regulation applies in the 48 States of the United States and the District of Columbia.

(c) *Exemptions.* This regulation does not apply to:

(1) Export sales and sales for export. These sales are covered by Ceiling Price Regulation 61.

(2) Sales of imported distillers' dried products. These sales are covered by Ceiling Price Regulation 31.

SEC. 2. *Processors' ceiling prices, per ton, bulk.* If you are a processor, your ceiling prices for distillers' dried grains (light grains), distillers' dried grains with solubles (dark grains) and distillers' solubles, per ton, bulk, are as follows:

(a) *Deliveries in carload quantities and standard protein content.* (1) Your ceiling prices delivered in carload shipments or pool car lots to any point within an area are the basing point prices for the area, as set forth in Table I, plus the lowest proportional grain products railroad rate (or if no such proportional rate, the lowest applicable railroad rate) from the area basing point to the point of delivery.

TABLE I—PROCESSORS' BASING POINT PRICES PER TON

Products	Standard protein content	Area A—Basing point prices, Peoria, Ill.	Area B—Basing point prices, Louisville, Ky.	Area C—Basing point prices, Kansas City, Mo., and Omaha, Nebr.
	Percent			
Distillers' dried grains (light grains)	21	$65.00	$69.50	$63.25
Distillers' dried grains with solubles (dark grains)	24	67.00	71.50	65.25
Distillers' solubles	30	84.00	88.50	82.25

(2) For deliveries at any point in Area C, use the area basing point (either Kansas City or Omaha, as the case may be) which will result in the lowest ceiling prices at the point of delivery.

(b) *Less or more than standard protein content.* (1) If you deliver a distillers' dried product of less than the standard protein content set forth for the product in Table I reduce your ceiling price for the product in such proportion as the deficiency bears to the standard protein content.

(2) If you deliver a distillers' dried product of more than the standard protein content set forth in Table I, your ceiling price is the same as your ceiling price for that product of standard protein content.

(c) *L. c. l. differential.* For deliveries in less than carload lots, add $1.00 per ton to your ceiling price.

SEC. 3. *Jobbers' ceiling prices.* If you are a jobber, your ceiling price for a lot of a distillers' dried product delivered at any point is the processors' ceiling price for that lot at the same point, as determined under section 2, plus the applicable markup set forth in Table II.

TABLE II—JOBBERS' MARKUPS

Type of delivery made by jobber:	*Markup per ton*
Deliveries in pool car lots	$1.25
All other deliveries	1.00

SEC. 4. *Wholesalers' and retailers' ceiling prices.* (a) If you are a wholesaler or a retailer, your ceiling price for a distillers' dried product is your "cost at ceiling" (as determined under paragraph (b) of this section), plus your "transportation cost" (as defined in paragraph (d) of this section), if any, from your warehouse or store, plus the applicable markup set forth in Table III.

TABLE III—WHOLESALERS' AND RETAILERS' MARKUPS

	Markup per ton
Wholesalers	$5.00
Retailers	9.00

(b) Except as provided in paragraph (c) in this section, determine your "cost at ceiling" for a distillers' dried product by the following methods:

(1) Method 1. If you maintain the identity of any receipt then, on the sale of such receipt, you may use as your "cost at ceiling" your supplier's ceiling price for that receipt at the rail point nearest your warehouse or store plus your "transportation cost", if any, from that rail point to your warehouse or store. You may use this method of determining your "cost at ceiling" even though you are simultaneously determining your "cost at ceiling" for resale of other receipts under Method 2.

(2) Method 2. You may use this method for the resale of any two or more receipts. In using it, you may not include in your calculations any receipt whose identity is maintained and for which you determine your "cost at ceiling" under Method 1.

For receipts in bulk, use as your "cost at ceiling" the weighted average of your suppliers' delivered ceiling prices at the rail point nearest your warehouse or store plus your "transportation cost," if any, from that rail point to your warehouse or store. Determine your "cost at ceiling" for receipts in sacks by the same method. You calculate each weighted average of ceiling prices as follows:

(i) Select a day for calculation and recalculate on that day each week thereafter (or, in case that day falls on a legal holiday, recalculate on the next business day).

(ii) Make your first calculation under this Method 2 as follows:

(a) Step 1. Take your latest receipt prior to the day of calculation delivered to you on the basis (sacked or bulk) for which you are calculating a weighted average of ceiling prices, and all receipts delivered to you on the same basis for the 28 days preceding that last receipt.

(b) Step 2. Multiply the number of tons of each receipt by your supplier's ceiling price per ton for that receipt at the rail point nearest your warehouse or store and add to this amount your transportation costs, if any, from that rail point to your warehouse or store.

(c) Step 3. Add the results obtained under Step 2 and divide by the total number of tons involved in your calculations. The result is the "cost at ceiling" for the first week for all sales of that distillers' dried product (except, of course, for sales for which you elect to determine your ceiling price under Method 1).

(iii) Follow the directions of subdivision (ii) of paragraph (b) (2) of this section for all weekly recalculations except that you use your last receipt prior to the day of recalculation and all receipts during the 14 day period preceding such last receipt in arriving at your "cost at ceiling".

(iv) If you wish to discontinue using this Method 2 for a distillers' dried product, you may do so if, on the next recalculation day, you take an inventory of the product. You may then treat the amount in inventory (excluding any receipts priced under Method 1) as a receipt on which your "cost at ceiling" is the weighted average price you would compute under this Method 2 for the succeeding week. If some of your receipts are bulk and some sacked, calculate separate weighted averages for these two types of receipts.

(c) Only one markup by a wholesaler is permitted under this regulation in

connection with the sale of any distillers' dried product. Accordingly, if you are a wholesaler and your supplier of a receipt is also a wholesaler, your ceiling price for such receipt is his ceiling price to you for the receipt plus your transportation costs, if any, to and from your warehouse or store. You must, of course, exclude such receipt from your calculations of any "cost at ceiling" under paragraph (b) of this section.

(d) "Transportation cost" means:

(1) When a common carrier, contract carrier, or other carrier for hire or compensation is employed, the charges (exclusive of loading charges not customarily in such transportation charges) which are actually incurred by the seller or the purchaser, as the case may be. This amount may include, if applicable, the 3 percent transportation tax.

(2) When the seller or purchaser, as the case may be, does his own hauling, the reasonable value of the transportation service (exclusive of loading) not exceeding the lawful common carrier or contract carrier rate for the same service or any ceiling price established by the Office of Price Stabilization for such service.

(3) When any movement involves a combination of the types of transportation described in subparagraphs (1) and (2) of this paragraph, the sum of the amounts computed separately for each portion of the movement.

SEC. 5. *Allowance for sacks and sacking.* (a) If you are a processor and you sell and deliver a distillers' dried product in your sacks, or if you are a wholesaler or a retailer and you sack a distillers' dried product which you buy in bulk, you may add to your ceiling price, as otherwise determined under this regulation, $1.00 per ton plus the lower of the following:

(1) An amount consisting of the cost per sack of your most recent customary purchase of sacks of the kind, size, and condition (new or used) used for the lot, multiplied by the number of sacks furnished per ton of the distillers' dried product you deliver; *or*

(2) The applicable allowance set forth in Table IV.

TABLE IV—SACKING ALLOWANCES PER TON

Type of sack used	New sacks	Used sacks
	Per ton	*Per ton*
Burlap or burlap lined with paper	$5.80	$3.60
Cotton	6.40	4.80
Paper	2.80	-------

(b) If you sack a lot of a distillers' dried product in sacks furnished by your buyer, you may add $1.00 per ton to your ceiling price for the lot in bulk, as otherwise established under this regulation.

SEC. 6. *Petitions for amendment.* If you wish to have this regulation amended, you may file a petition for amendment in accordance with the provisions of Price Procedural Regulation No. 1, Revised (16 F. R. 4974).

SEC. 7. *Adjustable pricing.* Nothing in this regulation prohibits you from making a contract or offer to sell at (a) the ceiling price in effect at the time of delivery, or (b) the lower of a fixed price or the ceiling price in effect at the time of delivery. You may not, however, deliver or agree to deliver at a price to be adjusted upward in accordance with any increase in ceiling prices after delivery.

SEC. 8. *Excise taxes.* If you have customarily separately stated and collected any excise or similar tax, you may continue to collect the current amount of any such tax in addition to your ceiling price. If you did not customarily state and collect separately from the purchase price the amount of tax paid by you, you may not collect the amount of such tax in addition to your ceiling price. In the case of such tax imposed after the effective date of this regulation, if at the time you calculate your ceiling price the statute or ordinance imposing the tax does not prohibit you from stating and collecting the tax separately from the purchase price, you may collect in addition to your ceiling price, the amount of the tax actually paid by you. In every case where the tax is collected from the purchaser, the amount thereof shall be separately stated.

SEC. 9. *Transfer of business.* If, after the effective date of this regulation, you acquire the business, assets or stock-in-trade of any distillers' dried product business and carry on the business or continue to deal in any distillers' dried product separately from any other establishment previously owned or operated by you, you shall have the same ceiling prices and be under the same obligation to keep records as the person from whom you acquired the business, assets or stock. If, after the effective date of this regulation, you transfer your business, assets or stock, you must either preserve and make available, or turn over to the transferee all records which are necessary for him to comply with the ceiling price or record provisions of this regulation.

SEC. 10. *Records*—(a) *General.* Except as otherwise provided in this section, every person who sells and every person who in the course of business buys a distillers' dried product shall keep for inspection by the Office of Price Stabilization for a period of two years accurate records of each sale or purchase made after the effective date of this regulation.

(b) *Sales.* Every person making a sale under this regulation to a buyer other than a feeder shall record each such sale on an invoice or bill of sale, a copy of which must be given to the buyer. Every person making a sale to a feeder in a lot of more than 1,000 pounds must keep a record thereof, although it does not have to be in the form of an invoice or bill of sale, and, upon demand, must give a copy of such record to the feeder. Every such sales record must state: the name and address of the seller and buyer; the date of sale and delivery; the kind of distillers' dried product and its guaranteed protein content (if any); the selling price. Except for sales of 5,000 pounds or less to a feeder, sales records must also indicate: the buyer's receiving point; the charge, if any, made for sacks and sacking; the applicable basing point price and freight from basing point to the buyer's receiving point (in the case of sales records of processors and jobbers); any transportation charge incurred by the seller in making delivery to his purchaser (in the case of sales records of wholesalers and retailers); and any markup specified in the regulation which is added by the seller.

(c) *Purchases.* Every person other than a feeder making a purchase in the course of trade or business must keep the records which his seller is required to give him under this section.

SEC. 11. *Interpretations.* If you want an official interpretation of this regulation, you should write to the District Counsel of your local Office of Price Stabilization District Office. Any action taken by you in reliance upon and in conformity with a written official interpretation will constitute action in good faith pursuant to this regulation. Further information on obtaining official interpretations is contained in Price Procedural Regulation No. 1, Revised.

SEC. 12. *Compliance and enforcement*—(a) *Prohibitions.* You shall not do any act prohibited or omit to do any act required by this regulation, nor shall you offer, solicit, attempt, or agree to do or omit to do any such acts. Specifically, (but not in limitation of the above) you shall not, regardless of any contract or other obligation, sell, and no person in the regular course of trade or business shall buy from you at a price higher than the ceiling price established under this regulation, and you shall make and preserve true and accurate records required under this regulation.

(b) *Evasions.* Any device which results in obtaining indirectly a higher price than is permitted under this regulation or in concealing or falsely representing information as to which this regulation requires records to be kept is a violation of this regulation. This prohibition includes, but is not limited to, devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, tie-in-agreements, trade understanding, as well as omission from records of true data and inclusion in the records of false data.

(c) *Penalties.* If you violate any provisions of this regulation, you are subject to criminal penalties, civil enforcement actions and suits for damages provided by the Defense Production Act of 1950, as amended.

SEC. 13. *Definitions*—(a) *Areas.* (1) "Area A" includes the area east of Illinois-Indiana state line; on and north of the Ohio River to Kenova, West Virginia; on and north of the Norfolk and Western Railroad from Kenova to Roanoke, Virginia; on and north of the Virginia Railroad from Roanoke, Virginia to Norfolk, Virginia; and the states of Illinois and Wisconsin.

(2) "Area B" includes the area south of Area A and east of the Mississippi River.

(3) "Area C" includes the rest of the continental United States.

(b) *Sellers and related terms.* (1) "Jobber" means, with respect to any lot, a person other than the processor who sells such lot without having previously unloaded it into a warehouse or store.

(2) "Feeder" means, with respect to any lot, a person who uses such lot for feeding animals or poultry.

(3) "Processor" means, with respect to any lot, the person who manufactures that lot from the residue obtained in the production of alcohol or distilled liquors.

(4) "Retailer" means a person, other than the processor who maintains a "store", and who, with respect to any lot he has purchased and unloaded into the store, resells such lot to a feeder.

(5) "Store" means a building where a regular business of selling and delivering feeds or grain is carried on, and where the owner or one or more of his employees works on substantially a full-time, year-round basis in such business or in a general retail business of which such feed or grain business is a part.

(6) "Wholesaler" means, with respect to any lot:

(i) A person, other than the processor, who, after having unloaded it into a warehouse or store, sells such lot to any one other than a feeder; or,

(ii) A person other than the processor, who does not maintain a store and who, after having unloaded it into a place of business other than a store, sells such lot to a feeder.

(7) "You" means a person subject to this regulation.

(8) "Your supplier" means the person from whom a wholesaler or retailer purchases the lot for which he is establishing a ceiling price.

(c) *Products covered.* (1) "Distillers' dried grains (light grains)" means the product obtained in the manufacture of distilled liquors and alcohol from one or more agricultural commodities by drying that portion of the whole stillage retained by screens.

(2) "Distillers' dried grains with solubles (dark grains)" means the product obtained in the manufacture of distilled liquors and alcohol from one or more agricultural commodities by drying that portion of the whole stillage retained by screens to which condensed screened stillage has been added so that the final product contains not less than three-fourths of the solids content of the whole stillage.

(3) "Distillers' solubles" means the product obtained in the manufacture of distilled liquors and alcohol from one or more agricultural commodities by condensing and drying the screened stillage obtained therefrom.

(4) "Distillers' dried products" means distillers' dried grains (light grains), distillers' dried grains with solubles (dark grains) or distillers' solubles.

(d) *Miscellaneous.* (1) "Carload shipment" means a lot which, when shipped by rail, takes a carload rate under the applicable railroad tariff requirements, and includes mixed car shipments taking such rate.

(2) "Pool car lot" means a lot being shipped to the buyer as part of a rail carload shipment of products sold by one seller to two or more persons.

(3) "Less-than-carload lot" means any lot other than a pool car lot which is less than a carload shipment. It includes any delivery by or into a truck.

(4) "Person" includes any individual, corporation, partnership, association or any other organized group of persons, or legal successors or representatives of the foregoing, and the United States or any other government or their political subdivisions or agencies.

Effective date. This regulation becomes effective October 1, 1952.

NOTE: The record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

SEPTEMBER 26, 1952.

[F. R. Doc. 52-10589; Filed, Sept. 26, 1952; 12:02 p. m.]

[General Overriding Regulation 5, Revision 1, Amdt. 6]

GOR 5—EXEMPTIONS AND SUSPENSIONS OF CERTAIN CONSUMER DURABLE GOODS AND RELATED COMMODITIES

CLARIFICATION

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2 this amendment to General Overriding Regulation 5, Revision 1 is hereby issued.

STATEMENT OF CONSIDERATIONS

Amendment 2 to GOR 5, Revision 1, issued August 29, 1952, suspended from ceiling price regulations the following floor coverings: "Soft surface floor coverings made entirely of wool or falling within the categories of chenille, wilton, velvet, axminster, and punched felt." As was said in the Statement of Considerations accompanying that amendment these are the same floor coverings then covered at the manufacturer's level by SR 11 to the GCPR. The language used in defining the coverage of the suspension action was the same as that used in defining the coverage of SR 11 to the GCPR. Since the issuance of Amendment 2 to GOR 5, Rev. 1, however, it has come to the attention of the agency that this language, taken out of the context of SR 11 to the GCPR, has given rise to some questions as to the exact coverage, particularly with regard to the category of "chenille." The term "chenille" was used in the technical sense of "true" chenille, i. e., chenille woven on a carpet loom. It was not intended to include what is known in the rug and carpet manufacturing industry as "cotton chenille," such as is found in certain bath mats, throw rugs and even rugs of larger size which are not woven on a carpet loom. This amendment is being issued to clarify the coverage of the suspension action.

AMENDATORY PROVISIONS

General Overriding Regulation 5, Revision 1, is amended in the following respect:

Section 105 is hereby amended to read as follows:

SEC. 105. *Floor coverings.* The following floor coverings:

Soft surface floor coverings which are made entirely of wool.

Soft surface floor coverings regardless of material, which are woven on a carpet loom and are of the axminster, wilton, velvet or chenille type of weave.

Punched felt floor coverings.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective September 26, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

SEPTEMBER 26, 1952.

[F. R. Doc. 52-10593; Filed, Sept. 26, 1952; 4:00 p. m.]

[General Interpretation 8]

GEN. INT. 8—RETENTION OF RECORDS FOR COMMODITIES WHICH HAVE BEEN EXEMPTED FROM PRICE CONTROL

A question has been raised as to whether records relating to a decontrolled material or service must continue to be preserved after such material or service has been exempted from price control. The obligation to preserve records imposed by the regulation applicable to any material or service at the time it is exempted from control is not terminated by such exemption. Any records which the seller was required, under the OPS regulation applicable to him, to have at the time the material or service was decontrolled must continue to be preserved for the period specified in the applicable regulation. The obligation to preserve these records exists regardless of whether or not the instrument which decontrols the commodity or service specifically so provides.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

HERBERT N. MALETZ,
Chief Counsel,
Office of Price Stabilization.

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 522—EMPLOYMENT OF LEARNERS

EMPLOYMENT OF LEARNERS IN CIGAR INDUSTRY IN CONTINENTAL UNITED STATES; SUBMINIMUM RATES

Pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (section 14, 52 Stat. 1068, as amended; 29 U. S. C. 214) the Administrator has heretofore issued regulations (§§ 522.201 through 522.211) providing for the employment of learners in the cigar industry in the continental States at wages lower than the minimum wage applicable under section 6 of the act.

Such regulations have been re-examined in the light of recent changes in wage levels, administrative experience in the operation of the regulations, and after consultation with interested parties in the industry. All relevant information available indicates that it is necessary and appropriate, in the light of the standard set forth in section 14 of the act, to amend the learner regulations for this industry by increasing the minimum learner wage rates as provided below.

On September 6, 1952, notice was published in the FEDERAL REGISTER that the Administrator proposed to amend this part as provided below, and interested persons were given 15 days to submit data, views or argument pertaining to such amendment. No such material has been submitted.

Accordingly, pursuant to authority under section 14 of the Fair Labor Standards Act of 1938, as amended, § 522.204 (a) is hereby amended to read as follows:

§ 522.204 *Subminimum rates.* (a) The subminimum rates which may be authorized in special certificates issued in the cigar industry shall be not less than 65 cents per hour in the occupations of cigar machine operating and cigar packing; not less than 65 cents per hour for the first 480 hours and 70 cents per hour for the second 480 hours in the occupations of hand rolling and hand bunch making; not less than 65 cents per hour for the first 320 hours and 70 cents per hour for the second 320 hours in the occupation of making Italian stogies; and not less than 65 cents per hour in the occupations of hand stripping and machine stripping.

(Sec. 14, 52 Stat. 1068; 29 U. S. C. 214)

The above amendment shall become effective October 27, 1952.

Signed at Washington, D. C., this 24th day of September 1952.

WM R. MCCOMB,
Administrator, Wage and Hour and Public Contracts Divisions.

NATURALIZATION MATTER; AUSTRALIA AND INDONESIA

Correction

In F. R. Doc. 52–10104, appearing on page 8363 of the issue for Wednesday, September 17, 1952, make the following change:

The sixth line of paragraph (d) of § 58.12 should read "zation] Service by clerks of [State or".

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Internal Revenue

[26 CFR Part 29]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DEC. 31, 1941

CREDIT FOR TAXES OF FOREIGN CORPORATIONS

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 62 and 3791 of the Internal Revenue Code (53 Stat. 32, 467; 26 U. S. C. 62, 3791).

[SEAL] JUSTIN F. WINKLE,
Acting Commissioner of Internal Revenue.

In order to conform Regulations 111 (26 CFR Part 29) to the provisions of section 332 (relatng to credit for taxes of foreign corporations) of the Revenue Act of 1951, approved October 20, 1951, such regulations are hereby amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 29.131–1 the following:

SEC. 332. CREDIT FOR TAXES OF FOREIGN CORPORATIONS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Foreign subsidiary of a domestic corporation.* Effective with respect to dividends received by a domestic corporation from a foreign corporation during taxable years beginning after December 31, 1950, the first sentence of section 131 (f) (1) is hereby amended by striking out "a majority" and inserting in lieu thereof "at least 10 per centum".

(b) *Foreign subsidiary of a foreign corporation.* Effective with respect to dividends received by a foreign corporation from another foreign corporation in taxable years beginning after December 31, 1950, section 131 (f) (2) is hereby amended by striking out "all the voting stock (except qualifying shares)" and inserting in lieu thereof "50 per centum or more of the voting stock".

(c) *Clerical amendment.* So much of section 131 (f) (1) as precedes the first sentence thereof is hereby amended to read as follows:

(f) *Taxes of foreign corporations.*—(1) *Treatment of taxes paid by foreign corporation.*

PAR. 2. Section 29.131–3, as amended by Treasury Decision 5893, approved April 4, 1952, is further amended by revising the first sentence, which commences with the words "For credit where taxes", of paragraph (d) thereof to read as follows: "For credit available to a domestic corporation with respect to taxes paid by a foreign corporation, see § 29.131–7."

PAR. 3. Section 29.131–7, as amended by Treasury Decision 5452, approved April 19, 1945, is further amended as follows:

(A) By revising so much thereof as precedes the words "of the voting stock of a foreign corporation", which appear in the first sentence of paragraph (a) thereof, to read as follows:

§ 29.131–7 *Taxes of foreign corporation*—(a) *Domestic corporation owning stock of a foreign corporation.* In the case of a domestic corporation which owns a majority or, effective with respect to dividends received during a taxable year beginning after December 31, 1950, at least 10 percent * * *.

(B) By striking out of the expression "paid or accrued by such controlled foreign corporation to any foreign country", which appears in the first sentence of paragraph (a) thereof, the word "controlled" so that such expression will read as follows: "paid or accrued by such foreign corporation to any foreign country".

(C) By revising the second and third sentences of paragraph (a) thereof, which commence, respectively, with the words "See, however, the limitations" and "If dividends are received", to read as follows: "If dividends are received from more than one such foreign corporation, the limitation is to be computed separately for the dividends received from each. For other limitations upon the amount of credit available under section 131, see § 29.131–8."

(D) By striking out of the last sentence of paragraph (a) thereof "a controlled" and inserting in lieu thereof "such a", so that such sentence will read as follows: "Taxes paid or accrued by such a foreign corporation are deemed to have been paid by the domestic corporation for purposes of credit only."

(E) By revising the headnote and paragraph (b) (1) thereof to read as follows:

(b) *Foreign corporation owning stock of another foreign corporation.* (1) If any foreign corporation coming within the scope of paragraph (a) of this section owns all (except qualifying shares) or, effective with respect to dividends received in a taxable year beginning after December 31, 1950, 50 percent or more of the voting stock of another foreign corporation from which it receives dividends in any taxable year, it shall be deemed to have paid that proportion of any income, war-profits, and excess-profits taxes paid or accrued by the latter corporation to any foreign country or to any possession of the United States, upon or with respect to the accumulated profits of such latter corporation from which such dividends were paid, which the amount of such dividends bears to the amount of such accumulated profits. Such tax so deemed to have been paid shall then be taken into consideration in determining the amount of income, war-profits, and excess-profits taxes paid or deemed to have been paid by the former corporation to any possession or foreign country upon or with respect to its own accumulated profits from which the dividends were paid by such corporation to the domestic corporation.

(F) By striking out of paragraph (b) (2) thereof the following: "parent".

NOTICES

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Treasury Department Order No. 156]

COMMISSIONER OF ACCOUNTS, BUREAU OF ACCOUNTS

DELEGATION OF GENERAL AUTHORITY OVER FUNCTIONS OF ALL OFFICERS, EMPLOYEES, AND AGENCIES

By virtue of the authority vested in me by Reorganization Plan No. 26 of 1950, there are hereby transferred to the Commissioner of Accounts, to the extent not heretofore transferred to him, the functions of all officers, employees, and agencies of the Bureau of Accounts.

The functions herein transferred may be delegated by the Commissioner to subordinates in the Bureau of Accounts in such manner as he shall from time to time direct.

This order shall become effective as of October 1, 1952.

Dated: September 24, 1952.

[SEAL] JOHN W. SNYDER,
Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Office of the Secretary

[Order 2509, Amdt. 17]

DELEGATIONS OF AUTHORITY; GENERAL

SEPTEMBER 22, 1952.

Order No. 2509, Amendment No. 16, July 18, 1952 (17 F. R. 6793), is amended as follows:

1. Section 1 (a) (4) is amended to read:

(4) The issuance of regulatory documents, which are subject to codification in the Code of Federal Regulations (44 U. S. C., 1946 ed., sec. 305; 1 CFR 1.10), other than public land orders; and

2. Section 50 (g) is amended to read:

(g) As used in this section, the term "bureau" means The Alaska Railroad, the Alaska Road Commission, the Bureau of Indian Affairs, the Bureau of Land Management, the Bureau of Mines, the Bureau of Reclamation, the Fish and Wildlife Service, the Geological Survey, the National Park Service, the Office of Territories, the Puerto Rico Reconstruction Administration, the Southeastern Power Administration and the Southwestern Power Administration.

3. Section 51 (a) is amended to read:

(a) Irrespective of the amount involved, the Chief Clerk is authorized to enter into contracts for supplies or services (1) for the Office of the Secretary, and (2) for bureaus and offices and territorial agencies under special arrangements, such actions to be taken in conformity with applicable regulations and statutory requirements and subject to the availability of appropriations. Secretarial approval is not a condition precedent to the consummation of such a contract unless the Secretary by a written order published in the FEDERAL REGISTER specifically prescribes such a requirement with respect to a particular contract or type of contract, or unless Secretarial approval is specifically required by statute.

4. Section 60 is amended by inserting after the caption the letter "(a)" and by adding a new subsection (b) to read:

(b) The Commissioner of Reclamation may redelegate to legal personnel of the bureau the authority granted in subsection (a) above.

5. Section 61 is amended by inserting after the caption the letter "(a)" and by adding a new subsection (b) to read:

(b) The Commissioner of Reclamation may redelegate to legal personnel of the bureau the authority granted in subsection (a) above.

(Sec. 2, Reorg. Plan No. 3 of 1950, 15 F. R. 3174)

VERNON D. NORTHROP,
Under Secretary of the Interior.

DEPARTMENT OF COMMERCE

Federal Maritime Board

[No. S–18 (Sub. No. 1)]

PACIFIC TRANSPORT LINES, INC.

NOTICE OF HEARING

Notice is hereby given that a hearing has been authorized and directed to be held concerning the application of Pacific Transport Lines, Inc., for written permission under section 805 (a) of the Merchant Marine Act, 1936, to continue to engage in domestic service between California ports and the Hawaiian Islands, such permission to be contingent upon approval by the Federal Maritime Board of said company's pending application for operating-differential subsidy on Freight Service 2 of Trade Route 29. Temporary permission to continue such domestic service is also sought by the company in the event affirmative action should be taken on said application for subsidy before final action is taken on the subject request.

The hearing will be held before Chief Examiner G. O. Basham, at a time and place hereafter to be announced, to receive evidence relative to determinations which the Board is required, after hearing, to make pursuant to section 805 (a) of said act. It will be conducted in conformity with the Board's rules of procedure (12 F. R. 6076), and the presiding officer will issue a recommended decision.

All persons, firms, or corporations having any interest in such application and desiring to participate in the hearing should notify the Board accordingly on or before October 7, 1952, and should file petitions promptly for leave to intervene in accordance with § 201.81 of the Board's rules of procedure.

Dated: September 24, 1952.

By order of the Federal Maritime Board.

[SEAL] A. J. WILLIAMS,
Secretary.

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to Section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 28 U. S. C. and Sup. 214) and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners, and learning period for certificates issued under the general learner regulations (§§ 522.1 to 522.14) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Single Pants, Shirts and Allied Garments, Women's Apparel, Sportswear and Other Odd Outerwear, Rainwear, Robes and Leather and Sheep-Lined Garments Divisions of the Apparel Industry Learner Regulations (29 CFR 522.160 to 522.166, as amended December 31, 1951; 16 F. R. 12043; and June 2, 1952; 17 F. R. 3818).

Elloree Garment Corporation, Elloree, S. C., effective 9–19–52 to 3–18–1953; 25 learners for expansion purposes (ladies' lingerie, night gowns, pajamas).

Hadley Manufacturing Corp., 1709 North Church Street, Burlington, N. C., effective 9–11–52 to 3–10–53; 25 learners for expansion purposes (ladies' lingerie).

Charles W. Henson Garment Manufacturing Co., Inc., Lawrenceville, Ga., effective 9–11–52 to 3–10–53; 25 learners for expansion purposes (work shirts, work pants).

The H. D. Lee Co., Inc., Box 454, Boaz, Ala., effective 9–11–52 to 3–10–53; 25 additional learners for expansion purposes (pants, overalls, coveralls), supplemental certificate.

Northern Garment Manufacturing Co., Inc., Onaway, Mich., effective 9–10–52 to 9–9–53; three learners for normal labor turnover (men's and boys' jackets and pants).

Omega Corporation, Yoe, Pa., effective 9–11–52 to 9–10–53; 10 learners for normal labor turnover (men's and boys' shirts).

Reznick Garment Co., Fifth and Follis Streets, Johnston City, Ill., effective 9–11–52 to 3–10–53; 25 learners for expansion purposes (ladies' dresses and lingerie).

Rutherford Garment Co., Rutherford, Tenn., effective 9–12–52 to 9–11–53; 10 percent for normal labor turnover purposes (wool jackets and mackinaws).

Wilson Bros., 1000 Lane Avenue, Crawfordsville, Ind., effective 9–10–52 to 3–9–53; 15 learners for expansion purposes (men's sport shirts).

Cigar Industry Learner Regulations (29 CFR 522.201 to 522.211, as amended January 25, 1950; 15 F. R. 400).

Pennstate Cigar Corp., 426 East Allegheny Avenue, Philadelphia, Pa., effective 9–12–52 to 3–11–53; 48 learners for expansion purposes. Cigar machine operators, 320 hours at 60 cents per hour.

Glove Industry Learner Regulations (29 CFR 522.220 to 522.231, as amended October 26, 1950; 15 F. R. 6888).

Indianapolis Glove Co., Inc., Glenwood, Ark., effective 9–9–52 to 3–8–53; 125 learners for expansion purposes (cotton and leather palm gloves), expansion certificate.

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.51, as revised November 19, 1951; 16 F. R. 10733).

Chattooga Mills, Inc., Summerville, Ga., effective 9–15–52 to 5–14–53; 20 learners for expansion purposes.

Independent Telephone Industry Learner Regulations (29 CFR 522.82 to 522.93, as amended January 25, 1950; 15 F. R. 398).

Dundee Telephone and Telegraph Co., Dundee, N. Y., effective 9–15–52 to 9–14–53.

Knitted Wear Industry Learner Regulations (29 CFR 522.68 to 522.79, as amended January 21, 1952; 16 F. R. 12866).

El Capitan Sportswear, 8211 Lankershim Boulevard, North Hollywood, Calif., effective 9–15–52 to 3–14–53; 10 learners for expansion purposes only (children's bathing and sunsuits).

Rohrer Knitting Mills, Inc., South Wayne Street, Orwigsburg, Pa., effective 9–15–52 to 9–14–53; 5 percent of the total number of productive factory workers (not including office and sales personnel) (men's and boys' knitted underwear).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not

available. The certificates may be canceled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 16th day of September 1952.

MILTON BROOKE,
Authorized Representative of the Administrator.

Wage and Hour and Public Contracts Divisions

EMPLOYMENT OF HANDICAPPED CLIENTS BY SHELTERED WORKSHOPS

ISSUANCE OF SPECIAL CERTIFICATES

Notice is hereby given that special certificates authorizing the employment of handicapped clients at hourly wage rates lower than the minimum wage rates applicable under section 6 of the Fair Labor Standards Act of 1938, as amended, and section 1 (b) of the Walsh-Healey Public Contracts Act, as amended, have been issued to the sheltered workshops hereinafter mentioned, under section 14 of the Fair Labor Standards Act of 1938, as amended (sec. 14, 52 Stat. 1068; 29 U. S. C. 214; as amended 63 Stat. 910) and Part 525 of the regulations issued thereunder, as amended (29 CFR Part 525), and under sections 4 and 6 of the Walsh-Healey Public Contracts Act (secs. 4, 6, 49 Stat. 2038; 41 U. S. C. 38, 40) and Article 1102 of the regulations issued pursuant thereto (41 CFR 201.1102).

The names and addresses of the sheltered workshops to which certificates were issued, wage rates, and the effective and expiration dates of the certificates are as follows:

Opportunity Workshop of the Jewish Vocational Service of Essex County, 652 High Street, Newark 2, New Jersey; at a wage rate of not less than the piece rate paid nonhandicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards or not less than 50 cents per hour, whichever is higher. Certificate is effective August 22, 1952, and expires February 28, 1953.

Memphis Goodwill Industries, Inc., 94 North Second Street, Memphis, Tennessee; at a wage rate of not less than the piece rate paid nonhandicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than the applicable hourly rates during the periods hereinafter specified, whichever is higher 40 cents per hour for the first 160 hours, 50 cents per hour for the next 160 hours and 60 cents per hour thereafter. Certificate is effective August 8, 1952, and expires July 31, 1953.

Cleveland Rehabilitation Center, 2239 East Fifty-fifth Street, Cleveland, Ohio; at a wage rate of not less than the piece rate paid nonhandicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards or not less than 50 cents per hour for a training period of 40 hours and 10 cents thereafter, whichever is higher. Certificate is effective August 6, 1952, and expires July 31, 1953.

Flint Goodwill Industries, Inc., 2410 North Saginaw, Flint, Michigan; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards or not less than 25 cents per hour for a training period of 40 hours, and 35 cents thereafter, whichever is higher. Certificate is effective August 7, 1952, and expires July 31, 1953.

Cleveland Society for the Blind, 2275 East Fifty-fifth Street, Cleveland, Ohio; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards or not less than 10 cents per hour for an evaluation period of 40 hours and a training period of 120 hours, 20 cents thereafter in the Contract Shop and 40 cents in the Sewing and Broom Departments, whichever is higher. Certificate is effective August 6, 1952, and expires July 31, 1953.

Goodwill Industries of Toledo, Inc., 601 Cherry Street, Toledo 4, Ohio; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards or not less than 30 cents per hour for a training period of 40 hours and 50 cents thereafter, whichever is higher. Certificate is effective August 1, 1952, and expires July 31, 1953.

Michigan Veterans' Facility, Soldiers' Home, 3000 Monroe Avenue, Grand Rapids 5, Michigan; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards or not less than 19 cents per hour, whichever is higher. Certificate is effective September 1, 1952, and expires August 31, 1953.

The Volunteers of America, Peoria Post, 823 Jefferson Avenue, Peoria, Illinois; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards or not less than 50 cents per hour, whichever is higher. Certificate is effective July 1, 1952, and expires June 30, 1953.

Missouri Goodwill Industries, 4140 Forest Park Boulevard, St. Louis 8, Missouri; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards or not less than 50 cents per hour, whichever is higher. Certificate is effective July 29, 1952, and expires December 31, 1952.

Goodwill Industries of Denver, Inc., 1130 Thirty-first Street, Denver 5, Colorado; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards or not less than 35 cents per hour for an evaluation period of 80 hours and a training period of 120 hours and 45 cents thereafter, whichever is higher. Certificate is effective August 1, 1952, and expires January 31, 1953.

Daisy Ann Originals Manufacturing Company, 2604 Routh Street, Dallas, Texas; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than 50 cents per hours for an evaluation period of 80 hours and a training period of 80 hours and 60 cents thereafter, whichever is higher. Certificate is effective September 1, 1952, and expires August 31, 1953.

The Volunteers of America, 1955 Post Street, San Francisco 15, California; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than 60 cents per hour for an evaluation period of 160 hours and 75 cents thereafter, whichever is higher. Certificate is effective August 28, 1952, and expires August 27, 1953.

Goodwill Industries of Oregon, 512 Southeast Mill Street, Portland 14, Oregon; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than 50 cents per hour for an evaluation period of 160 hours and 55 cents thereafter, whichever is higher. Certificate is effective July 28, 1952, and expires January 24, 1953.

Davis Memorial Goodwill Industries, 1218 New Hampshire Avenue NW., Washington, D. C.; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than the applicable hourly rates hereinafter specified, whichever is higher: 25 cents per hour for the entire shop with the exception of the following departments: Administration, Handling and Building Maintenance, 50 cents per hour; and Transportation, 30 cents an hour. Certificate is effective August 1, 1952, and expires July 31, 1953.

Onondaga Health Association, sponsors of Onondaga Workshop for the Handicapped, McCarthy Building, Syracuse 2, New York; at a wage rate of not less than the rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards or not less than 50 cents per hour, whichever is higher. Certificate is effective September 15, 1952, and expires March 31, 1953.

The employment of handicapped clients in the above-mentioned sheltered workshops under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 525 of the regulations, as amended. These certificates have been issued on the applicants' representations that they are sheltered workshops as defined in the regulations and that special services are provided their handicapped clients. A sheltered workshop is defined as, "A charitable organization or institution conducted not for profit, but for the purpose of carrying out a recognized program of rehabilitation for individuals whose earning capacity is impaired by age or physical or mental deficiency or injury, and to provide such individuals with remunerative employment of other occupational rehabilitating activity of an educational or therapeutic nature."

These certificates may be canceled in the manner provided by the regulations, as amended. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER.

Signed at Washington, D. C., this 18th day of September 1952.

JACOB I. BELLOW,
Assistant Chief of Field Operations.

CIVIL AERONAUTICS BOARD

[Docket Nos. 5566, 5569]

COLONIAL AIRLINES, INC. ET AL.; ACQUISITION OF ASSETS; INTEGRATION INVESTIGATION

NOTICE OF HEARING

In the matter of the application of Colonial Airlines, Inc., and Eastern Air Lines, Inc., under sections 408 and 412 of the Civil Aeronautics Act of 1938, as amended, for approval of an agreement with the acquisition of the assets of Colonial Airlines, Inc., by Eastern Air Lines, Inc., Docket No. 5666;

In the matter of an integration of the routes of National Airlines, Inc., and Colonial Airlines, Inc., Docket No. 5569.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a), 408, 412, and 1002 (b) of said act, that public hearings in the above-entitled proceedings are hereby assigned to be held on October 27, 1952, at 10:00 a. m., e. s. t., in Room 5855, Department of Commerce Building between Fourteenth and Fifteenth Streets on Constitution Avenue NW., Washington, D. C., before Examiner Edward T. Stodola.

Without limiting the scope of the issues involved in these proceedings, particular attention will be directed to the following matters:

1. Whether an agreement, dated July 18, 1952, between Colonial and Eastern, covering acquisition by Eastern of the assets of Colonial should be approved as being consistent with the public interest and in accordance with the other statutory tests prescribed by the Civil Aeronautics Act; and

2. Whether the integration of the routes of National and Colonial into a single unified system by means of merger, consolidation, acquisition of control, route transfer or in any other lawful manner would be in the public interest and in accordance with the public convenience and necessity as defined in section 2 of said Civil Aeronautics Act.

Notice is further given that any person not a party of record desiring to be heard in support or opposition to questions involved in these proceedings must file with the Board on or before October 27, 1952, a statement setting forth the matters of fact or law which he desires to advance.

For further details regarding these proceedings and the issues involved therein, all interested parties are referred to the application under Docket No. 5666; Board Order Serial No. E-6427, dated May 14, 1952, under Docket No. 5569; and the Examiner's Reports of Prehearing Conference, served July 10, 1952 and August 8, 1952, respectively. Each of the foregoing documents is on file with the Docket Section of the Civil Aeronautics Board.

Dated at Washington, D. C., September 24, 1952.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

FEDERAL POWER COMMISSION

[Docket No. G-1702]

JERSEY CENTRAL POWER & LIGHT CO.

NOTICE OF APPLICATION

SEPTEMBER 23, 1952.

Take notice that on September 12, 1952, Jersey Central Power & Light Company (Jersey Central), a New Jersey corporation having its principal place of business at Asbury Park, New Jersey, and New Jersey Natural Gas Company (New Jersey), a New Jersey corporation having its principal place of business at Atlantic Highlands, New Jersey, filed a joint application in Docket No. G-1702 requesting that the Commission reopen the above-entitled proceeding for the purpose of amending the order issued September 20, 1951, to substitute the name of New Jersey for that of Jersey Central.

Applicants state that subsequent to issuance of the order of September 20, 1951, wherein Jersey Central was granted a certificate of public convenience and necessity authorizing it to construct and operate facilities for the transportation of natural gas into its system, New Jersey has acquired all of the gas properties of Jersey Central (Docket Nos. G-1896 and G-1897), and that New Jersey will construct and operate the facilities authorized in Docket No. G-1702.

Applicants request that their application be heard under the shortened procedure provided by the Commission's rules.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 13th day of October 1952. The application is on file with the Commission and open for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-1781]

UNITED FUEL GAS CO.

NOTICE OF CONTINUANCE OF HEARING

SEPTEMBER 24, 1952.

Upon consideration of the request of Commission staff counsel filed September 24, 1952, for continuance of the hearing in the above-designated matter now scheduled for September 29, 1952;

Notice is hereby given that said hearing be and it is hereby continued to 10:00 a. m., October 6, 1952, in the Commission's hearing room, 1800 Pennsylvania Avenue NW., Washington 25, D. C.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 52-10522; Filed, Sept. 26, 1952; 8:54 a. m.]

[Docket Nos. G-2011, G-2031]

OHIO FUEL GAS CO.

ORDER DENYING REQUESTS FOR SHORTENED PROCEDURE, CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

On July 25, 1952, the Ohio Fuel Gas Company (Applicant), an Ohio corporation having its principal place of business at Columbus, Ohio, filed an application in Docket No. G-2011 for an order disclaiming jurisdiction or, in the alternative, for a certificate of public convenience and necessity authorizing

the construction and operation of approximately 2.2 miles of 6⅝-inch and 7-inch natural-gas transmission pipeline, representing replacement of a portion of its existing Line E–2 and extension of said Line E–2 to a new point of delivery to the National Fireproofing Corporation, and in connection therewith, an order authorizing and approving the abandonment of a portion of said Line E–2 consisting of 1.3 miles of 4½-inch pipe.

On August 15, 1952, Applicant filed an application in Docket No. G–2031 for an order disclaiming jurisdiction, or, in the alternative, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of approximately 13.9 miles of 10¾ inch natural-gas transmission pipeline in Clark and Champaign Counties, in Ohio, extending from Applicant's existing Line "Z" to Urbana, Ohio, representing replacement of 13.3 miles of 6⅝-inch line between the same points, and in connection therewith, an order authorizing and approving the abandonment of said 13.3 miles of 6⅝-inch line, and authorization to construct and operate measurement facilities and to deliver natural gas to the Liquid Carbonic Corporation.

Due notice of the filing of said applications has been given, including publication in the FEDERAL REGISTER on August 20, 1952 (Docket No. G–2011) (17 F. R. 7610) and on September 13, 1952 (Docket No. G–2031) (17 F. R. 8279).

Applicant has requested that its applications be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)) for noncontested proceedings.

It appears that the above-entitled proceedings involve common questions of law and fact with respect to jurisdiction.

The Commission finds:

(1) Good cause has not been shown for granting Applicant's request that its applications in Docket Nos. G–2011 and G–2031 be heard under the shortened procedure as provided by the Commission's rules of practice and procedure, and said request should be denied as hereinafter ordered.

(2) It is appropriate for carrying out the provisions of the Natural Gas Act and good cause exists for consolidating the above proceedings for purposes of hearing.

The Commission orders:

(A) The Ohio Fuel Gas Company's request that its applications in Docket Nos. G–2011 and G–2031 be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)) be and the same is hereby denied.

(B) The aforesaid proceedings in Docket Nos. G–2011 and 2031 be and the same hereby are consolidated for purposes of hearing.

(C) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a public hearing be held commencing on October 13, 1952, at 10:00 a. m., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters presented and the issues involved in said applications.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance September 23, 1952.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 52–10500; Filed, Sept. 26, 1952; 8:50 a. m.]

[Docket No. G–2064]

UNITED GAS PIPE LINE CO.

NOTICE OF APPLICATION

SEPTEMBER 23, 1952.

Take notice that on September 12, 1952, United Gas Pipe Line Company (Applicant), a Delaware corporation having its principal place of business at Shreveport, Louisiana, filed an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing it to construct approximately 0.7 miles of 24-inch pipeline on its existing suspension bridge across the Red River in Red River Parish, Louisiana, said line to be in addition to its existing line crossing the Red River.

Applicant states that said line will be connected to facilities proposed to be constructed by Texas Eastern Transmission Corporation (Texas Eastern) in Docket No. G–1947, and that the line will be operated by Texas Eastern under terms of a license agreement between it and Texas Eastern dated September 11, 1952. Estimated cost of the proposed facilities is $140,830.

Applicant requests that its application be heard under the shortened procedure provided by the Commission's rules.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 13th day of October 1952. The application is on file with the Commission and open for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 52–10498; Filed, Sept. 26, 1952; 8:49 a. m.]

[Docket No. G–2066]

CHATTAHOOCHEE NATURAL GAS CO.

NOTICE OF APPLICATION

SEPTEMBER 23, 1952.

Take notice that on September 12, 1952, Chattahoochee Natural Gas Company (Applicant), a Georgia corporation having its principal place of business at Birmingham, Alabama, filed an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of a natural-gas pipeline to commence at a point of connection with the pipeline of Southern Natural Gas Company in Floyd County, Georgia, and to extend approximately 43 miles therefrom in a northeasterly direction to the City of Dalton, Georgia.

Said pipeline will be designed to serve the municipalities of Trion, Summerville, LaFayette, and Dalton, all in Georgia, and for such purpose Applicant proposes to construct lateral lines varying from 10.2 to 3.6 miles in length. Applicant states that the proposed system is designed to deliver up to 11,500 Mcf per day and that it has executed a precedent agreement with Southern Natural Gas Company for delivery of sufficient quantities of gas to enable it to provide adequate service to said four communities.

Estimated cost of the proposed pipe line is $1,533,254.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 13th day of October 1952. The application is on file with the Commission and open for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 52–10499; Filed, Sept. 26, 1952; 8:49 a. m.]

[Project No. 2064]

WINTER ELECTRIC LIGHT AND POWER CO.

ORDER FIXING HEARING

On May 12, 1952, Winter Electric Light and Power Company's license for proposed Project No. 2064, filed application for amendment of its license for the project situated in the East Fork of the Chippewa River, Sawyer County, Wisconsin, to include therein findings under section 4 (e) of the Federal Power Act respecting navigability and effect of the proposed project on the interests of interstate or foreign commerce, and a finding under section 21 of the act as a basis for the licensee to exercise the right of eminent domain.

The State of Wisconsin and the Public Service Commission of Wisconsin have intervened in opposition to the amendment sought.

The Commission finds: It is appropriate and in the public interest that a public hearing be held on the application for amendment of the license for Project No. 2064.

The Commission orders: A public hearing be held commencing on November 13, 1952 at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, Hurley-Wright Building, 1800 Pennsylvania Avenue, N.W., Washington, D. C., respecting the matters involved and issues presented in this proceeding on the application for amendment of license for proposed Project No. 2064.

Date of issuance: September 23, 1952.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

HOUSING AND HOME FINANCE AGENCY

Federal Housing Administration

2½ PERCENT MUTUAL MORTGAGE INSURANCE FUND DEBENTURES, SERIES K

NOTICE OF CALL FOR PARTIAL REDEMPTION, BEFORE MATURITY

SEPTEMBER 16, 1952.

Pursuant to the authority conferred by the National Housing Act (48 Stat. 1246; U. S. C., Title 12, sec. 1701 et seq.) as amended, public notice is hereby given that 2½ percent Mutual Mortgage Insurance Fund Debentures, Series K, of the denominations and serial numbers designated below, are hereby called for redemption, at par and accrued interest, on January 1, 1953, on which date interest on such debentures shall cease:

2½ PERCENT MUTUAL MORTGAGE INSURANCE FUND DEBENTURES, SERIES K

Denomination:	Serial Nos. (*all numbers inclusive*)
$50	2 to 3
$100	3 to 4
$500	2 to 3
$1,000	3 to 4
$5,000	3 to 4

The debentures first issued as determined by the issue dates thereof were selected for redemption by the Commissioner, Federal Housing Administration, with the approval of the Secretary of the Treasury.

No transfers or denominational exchanges in debentures covered by the foregoing call will be made on the books maintained by the Treasury Department on or after October 1, 1952. This does not affect the right of the holder of a debenture to sell and assign the debenture on or after October 1, 1952, and provision will be made for the payment of final interest due on January 1, 1953, with the principal thereof to the actual owner, as shown by the assignments thereon.

The Commissioner of the Federal Housing Administration hereby offers to purchase any debentures included in this call at any time from October 1, 1952, to December 31, 1952, inclusive, at par and accrued interest, to date of purchase.

Instructions for the presentation and surrender of debentures for redemption on or after January 1, 1953, or for purchase prior to that date will be given by the Secretary of the Treasury.

WALTER L. GREENE,
Commissioner.

Approved: September 19, 1952.

JOHN W. SNYDER,
Secretary of the Treasury.

$100	838 to 1239
$500	277 to 332
$1,000	773 to 1098
$5,000	310 to 492
$10,000	110 to 137

The debentures first issued as determined by the issue dates thereof were selected for redemption by the Commissioner, Federal Housing Administration, with the approval of the Secretary of the Treasury.

No transfers or denominational exchanges in debentures covered by the foregoing call will be made on the books maintained by the Treasury Department on or after October 1, 1952. This does not affect the right of the holder of a debenture to sell and assign the debenture on or after October 1, 1952, and provision will be made for the payment of final interest due on January 1, 1953, with the principal thereof to the actual owner, as shown by the assignments thereon.

The Commissioner of the Federal Housing Administration hereby offers to purchase any debentures included in this call at any time from October 1, 1952, to December 31, 1952, inclusive, at par and accrued interest, to date of purchase.

Instructions for the presentation and surrender of debentures for redemption on or after January 1, 1953, or for purchase prior to that date will be given by the Secretary of the Treasury.

WALTER L. GREENE,
Commissioner.

Approved: September 19, 1952.

JOHN W. SNYDER,
Secretary of the Treasury.

SECURITIES AND EXCHANGE COMMISSION

[File No. 31-598]

COMBINED LOCKS PAPER CO.

ORDER GRANTING EXEMPTION

SEPTEMBER 22, 1952.

Combined Locks Paper Co. ("Combined Locks"), having filed an application with this Commission pursuant to section 3 (a) (3) (A) of the Public Utility Holding Company Act of 1935 ("act") requesting exemption from the provisions of the act on behalf of itself and its wholly owned subsidiaries, the D. M. Eare Paper Company, a non-utility company and South Shore Utility Company, a public utility company; and

Due notice of the filing of said application having been given and a hearing thereon not having been requested of, or ordered by, the Commission; and

The Commission having examined the application and the statements contained therein and having found that Combined Locks is only incidentally a holding company, being primarily engaged in a business other than that of a public-utility company and not deriving, directly or indirectly, any material part of its income from one or more companies the principal business of which is that of a public-utility company; and further finding that the granting of an exemption to Combined Locks as a holding company and to its subsidiaries as such will not be detrimental to the public interest and the interests of investors and consumers;

It is ordered, Pursuant to section 3 (a) (3) (A) of the act and subject to the provisions of section 3 (c) thereof, that Combined Locks as a holding company and its subsidiaries as such be, and the same hereby are, exempted from all provisions of the act, such companies remaining subject, however, to any obligations imposed upon them in any capacity other than as a holding company or a subsidiary of a holding company.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

CONNOR LUMBER AND LAND CO.

ORDER GRANTING EXEMPTION

SEPTEMBER 22, 1952.

The Connor Lumber and Land Company ("Connor"), having filed an application with this Commission pursuant to section 3 (a) (3) (A) of the Public Utility Holding Company Act of 1935 ("act") requesting exemption from the provisions of the act on behalf of itself and its subsidiaries, Connor Builders Supply Company, Rat River Improvement Company, Connor Hardwood Products, Inc., and Laona & Northern Railway Company, all of which are non-utility companies, and Laona Public Service Company, a public-utility company; and

Due notice of the filing of said application having been given and a hearing thereon not having been requested of, or ordered by, the Commission; and

The Commission having examined the application and the statements contained therein and having found that Connor is only incidentally a holding company, being primarily engaged in a business other than that of a public-utility company and not deriving, directly or indirectly, any material part of its income from one or more companies the principal business of which is that of a public-utility company; and further finding that the granting of an exemption to Connor as a holding company and to its subsidiaries as such will not be detrimental to the public interest or the interests of investors or consumers;

It is ordered, Pursuant to section 3 (a) (3) (A) of the act and subject to the provisions of section 3 (c) thereof, that Connor as a holding company and its subsidiaries as such be, and the same hereby are, exempted from all provisions of the act, said companies remaining subject, however, to any obligation imposed upon them in any capacity other than as a holding company or as a subsidiary of a holding company.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

UNITED PUBLIC SERVICE CORP.

ORDER APPROVING PLAN

SEPTEMBER 22, 1952.

United Public Service Corporation ("UPS"), a registered holding company, having filed a plan and amendments thereto ("Plan") with this Commission, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act"), for the liquidation and dissolution of UPS;

A public hearing having been held after appropriate notice, at which hearing all interested persons were afforded an opportunity to be heard;

UPS having requested the Commission to enter an order finding that the Plan is necessary to effectuate the provisions of section 11 (b) of the act and is fair and equitable to the persons affected thereby and that the Commission's order herein become effective immediately upon its issuance;

UPS having further requested the Commission, pursuant to section 11 (e) of the act, to apply to an appropriate court, in accordance with the provisions of section 18 (f) of the act, to enforce and carry out the terms and provisions of the Plan;

The Commission having considered the record in the matter and having filed its findings and opinion herein, finding that the Plan is necessary to effectuate the provisions of section 11 (b) of the act and is fair and equitable to all persons affected thereby;

It is ordered, On the basis of the record herein and the said findings and opinion, pursuant to section 11 (e) of the act and other applicable provisions of the act, that the said Plan be, and it hereby is, approved, subject to the terms and conditions contained in Rule U-24 of the general rules and regulations promulgated under the act and to the following additional terms and conditions:

1. That the order entered herein shall not be operative to authorize the consummation of the transactions proposed in the Plan until an appropriate United States District Court shall, upon application thereto, enter an order enforcing said Plan;

2. That jurisdiction be and it hereby is, specifically reserved with respect to the following matters:

a. The supervision of efforts to locate stockholders of UPS entitled to cash distributions under the terms of the Plan.

b. The entertaining of such further proceedings, entering of such supplemental findings and such further orders, and the taking of such further action as may be necessary in connection with the Plan, the transactions incident thereto, and the consummation thereof.

By the Commission.

[File No. 59-99]

NORTHERN STATES POWER CO. (MINNESOTA) ET AL.

NOTICE OF ORDER FOR HEARING

SEPTEMBER 22, 1952.

In the matter of Northern States Power Company (Minnesota) and its subsidiary companies, respondents; File No. 59-99.

The Commission having been advised by its Division of Public Utilities ("Division") that the Division, pursuant to sections 11 (a), 18 (a) and 18 (b) of the Public Utility Holding Company Act of 1935 ("the act"), has examined the corporate structure of Northern States Power Company ("the Minnesota Company"), a Minnesota corporation, with principal offices at Minneapolis, which is both an operating utility company and a registered holding company, the corporate structures of its subsidiary companies, the relationships among the companies in the holding company system, the character of the interests thereof and the properties owned or controlled thereby; and it appearing to the Division from such examination that:

I. 1. (a) The Northern States Power Company holding-company system consists of the following companies, with State of organization, State of operations, and nature of business, with indentations to show the relationship of the companies inter se:

	State of organization	States of operations	Nature of business
Northern States Power Co.	Minnesota	Minnesota, North Dakota, South Dakota.	Electric, gas, steam-heating, water, telephone, and holding company.
Minneapolis Mill Co.	do	Minnesota	Water power and dam ownership.
Saint Anthony Falls Water Power Co.	do	do	Do.
Mississippi & Rum River Boom Co.	do	do	Water rights and lands.
United Power & Land Co.	do	do	Real estate holdings.
Chippewa Valley Construction Co.	Wisconsin	Wisconsin, Minnesota	Do.
Chippewa River Power & Fibre Co.	do	Wisconsin	Do.
Interstate Light & Power Co.	do	do	Electric and gas.
St. Croix Falls Wisconsin Improvement Co.	do	do	Electric.
St. Croix Power Co.	do	do	Electric power production.
Northern States Power Co.	do	Wisconsin, Minnesota	Electric, gas, hot water, steam-heating and holding company.
Chippewa and Flambeau Improvement Co.	do	Wisconsin	Ownership and operation of water storage reservoirs.
Eau Claire Dells Improvement Co.	do	do	Electric power production.

(b) All the voting securities of the system subsidiaries are owned by their respective parent companies except that 2 percent of the voting securities of Northern States Power Company, a Wisconsin Corporation ("the Wisconsin Company"), represented by its outstanding preferred stock, are publicly held, and 45 percent of the voting securities of Chippewa and Flambeau Improvement Company are owned by other users of the water storage facilities of that company who are not part of the holding company system.

(c) The Wisconsin Company was exempted from registration as a holding company pursuant to section 3 (a) (2) of the act, by order of the Commission dated June 23, 1936.

2. (a) Approximately 89 percent of the system's total consolidated operating revenues of $88,727,994 for 1951 were derived from the sale of electricity, 9 percent from the sale of gas, and 2 percent from heating, water and telephone services.

(b) As at December 31, 1951, the system's utility plant account was shown on its consolidated balance sheet as follows:

At original cost:	
Electric	$309,895,125
Gas	20,590,770
Other utilities	6,031,621
Common	5,635,642
Total	342,153,158
Less reserves for depreciation and amortization	65,437,545
Net	276,715,613
Acquisition adjustments in process of amortization	1,993,728
Total	278,709,341

3. The Minnesota Company and its public-utility subsidiaries furnish electricity to a population estimated by the companies at approximately 1,335,000. The system companies supply electric service at retail in 478 communities, and electric energy (directly or indirectly) at wholesale for resale in 73 additional communities. Of the communities served, 372 (including Minneapolis and St. Paul) are located in Minnesota, 114 in Wisconsin, 21 in North Dakota and 44 in South Dakota. In addition, the companies furnish electric service directly to many rural and farm customers, and at wholesale to rural electric cooperative associations and to other utility companies. The major part of the electric territory is served through interconnected facilities extending through west-central Wisconsin and central and southern Minnesota into and including part of southeastern South Dakota. In addition, the Minnesota company serves the Fargo-Grand Forks area of eastern North Dakota and northwestern Minnesota and the Minot (North Dakota) area, which areas are not interconnected with each other nor with the facilities in west-central Wisconsin, central and southern Minnesota, and southeastern South Dakota. These additional areas accounted for approximately $4,600,000 out of the system's total 1951 electric operating revenues of $79,098,708.

4. The Minnesota Company and two of its subsidiaries furnish gas at retail in 24 communities in Minnesota, Wisconsin, and North Dakota. Gas operating revenues for the year 1951 totaled $8,221,181 for the 100,024,602 therms sold during that period, and there were 135,628 gas customers at December 31, 1951. Natural gas (purchased from Northern Natural Gas Company, a non-affiliated company) is served in St. Paul and 7 other communities in Minnesota, while manufactured or liquefied petroleum gas is served in 9 communities in Minnesota, 5 in Wisconsin, and 2 in North Dakota.

5. The Minnesota Company and the Wisconsin Company serve hot water or steam for heating in 2 communities in Minnesota, 2 in Wisconsin and 3 in North Dakota. For the year 1951, the system derived $1,010,687 of revenues from this type of service and there were 1,295 steam heating customers at December 31, 1951.

6. The Minnesota Company supplies telephone service in Minot, North Dakota and vicinity. For the year 1951 it received $376,655 revenue from this service and there were 7,979 telephone subscribers as at December 31, 1951.

7. The Minnesota Company also supplies water service in Tracy, Minnesota for which it received revenues totaling $20,673 for the year 1951. There were 858 water customers as at December 31, 1951.

II. 8. The Division avers that the foregoing allegations indicate or tend to indicate that the Minnesota Company and its subsidiaries may not, under the standards of section 11 (b) (1) of the act, continue to own, operate or control the following properties and facilities along with the electric properties and facilities located in west-central Wisconsin, southern and central Minnesota, and southeastern South Dakota (to the extent that such interconnected properties and facilities constitute an integrated public-utility system):

(a) The gas utility properties and facilities, it appearing that these properties and operations are non-retainable under the standards of Clauses A and C of said section;

(b) The electric utility properties and facilities in North Dakota and northwestern Minnesota, serving Minot, Grand Forks, Fargo and contiguous communities, it appearing that these properties are non-retainable under the same standards;

(c) The heating, telephone, and water-distribution properties and facilities, it appearing that these minor businesses are not public utilities as defined by the act, and that they may not be retained as reasonably incidental, or economically necessary or appropriate to the operations of the integrated public-utility system or systems retainable under the control of the Minnesota Company.

It appearing to the Commission, on the basis of the above allegations of the Division of Public Utilities, that proceedings should be instituted under section 11 (b) (1) of the act with respect to the Northern States Power Company holding company system:

It is ordered, That proceedings be and the same hereby are instituted under section 11 (b) (1) of the act with respect to the Minnesota Company and each of its subsidiary companies hereinbefore named, all of which are made respondents herein.

It is further ordered, Pursuant to the applicable provisions of the act, that a hearing be held at the offices of the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., on October 28, 1952, at 10:00 o'clock, a. m., e. s. t. On such day the hearing room clerk in Room 193 will advise as to the room where such hearing will be held. At such time respondents and any other interested persons will be heard with respect to the matters and questions hereinafter set forth.

It is further ordered, That such respondents shall file with the Secretary of the Commission on or before October 20, 1952, their joint or several answers in the form prescribed by Rule U-25 under the act admitting, denying, or otherwise explaining their respective positions as to each of the allegations of Parts I and II hereof. The answer should state which of the properties and facilities of the Northern States Power Company holding company system constitutes its principal system. Any such answer may include a statement of the claim of the respondents, or any of them, as to (a) the action, if any, which is necessary and should be required to be taken by any of the respondents (including the divestment of control, securities or other assets), to limit the operations of the system to a single integrated public-utility system and to such other businesses as are reasonably incidental, or economically necessary or appropriate to the operations of such integrated public-utility system; (b)

the extent to which the system should be permitted to continue to control, in addition to its claimed principal system, one or more additional integrated public-utility systems as may meet the requirements of Clauses (A), (B) and (C) of section 11 (b) (1) of the act; and (c) the extent to which any of said respondents should be permitted to own, operate or control any business (other than the business of a public-utility company as such) as reasonably incidental or economically necessary or appropriate to the operations of such integrated public-utility system or systems. Any such answer may, if such respondents so desire, state that they propose and are prepared to take such action as will cause them to comply with section 11 (b) (1) within the meaning of the act, together with a description of such action and the time within which they propose to take action.

The Division of Public Utilities having advised the Commission that, upon the basis of its preliminary examination of the Northern States Power Company holding company system, the following matters and questions are presented for consideration, without prejudice to its specifying additional matters and questions upon further examination:

(a) Whether the electric utility assets of the Northern States Power Company holding company system constitute an integrated electric utility system or systems;

(b) Whether the gas utility assets of the Northern States Power Company holding company system constitute an integrated gas utility system or systems;

(c) The nature, extent and location of the principal public-utility system of the Northern States Power Company holding company system;

(d) Whether, in addition to the Northern States Power Company holding company system's principal integrated public-utility system, any of its additional electric or gas utility systems may be retained under common control under the provisions of section 11 (b) (1) of the act, specifically Clauses (A) and (C) thereof;
